THE CRESTON REVIEW

VOL. XXVI. CRESTON, B.C., FRIDAY, JUNE 7, 1935 No. 6

Littlejohn and Keirn Chosen

Former Re-Elected Valley Representative of B.C. Tree Fruit Board—Latter Delegate to Kelowna Nominating Convention

Orchardists of the Boswell-Creston valley district were in lengthy session at Trinity United Church hall on Saturday evening, engaged in the business of electing a delegate to represent them at the meeting at Kelowna on June 19th, at which nominations will be received for the 1935-36 B.C. Tree Fruit Board, and also electing a grower to serve as the Boswell-Creston advisor to the Tree Fruit Board. Along with this the meeting was favored with the attendance of W. E Haskins, O. W. Hembling and G. A. Barrat, present member of the board, who were here on other board business as well as to give the meeting any and all information regarding happenings in connection with the Natural Products Marketing Act since parliament assembled at Ottawa.

Much time was consumed at the opening of the session, for which P. R. Truscott was named chairman, and J. F. Murrell, secretary, in establishing a list of those who were legally entitled to vote and accepting proxies from those unable to attend. After much discussion it was decided to let all vote who claimed to operate one or more acres of tree fruit.

For delegate to the Kelowna convention it was a straight fight between W. Keirn and W. Littlejohn, with Mr. Keirn winning by a close margin. In the vote for district representative there were three names placed in nomination, Mr. Keirn, Mr. Littlejohn and J. B. Holder, with Mr. Littlejohn winning by a narrow margin. Mr. Littlejohn was last year's local representative.

Mr. Haskins was the only member of the board to address the meeting. He explained the operations of last year, stressing the lack of support by shippers, large crop of apples to handle, poor keeping qualities, and sizes generally too large for export. He pointed out, too, that twice as many apples were sold on the Canadian market as in the year previous.

If elected the old board proposed tightening the cartel, and more vigorous enforcement of board rulings. Mr. Haskins also expressed the opinion fewer licenses would be issued, and Creston might be limited to three. Previous to the general meeting local shippers were invited to meet members of the board to discuss the handling of the Creston crop this season.

Erickson

Mr. and Mrs. W Currie spent the weekend with friends at Fernie.

Dan Alton of Fernie is renewing acquaintances at Erickson this week.

Frank Putnam, M.P.P., is a visitor at Nelson at present, leaving on Tuesday.

Mrs. R M. Telford is spending a few days in Spokane this week, leaving on Sunday.

Mr. and Mrs. T. W. Bundy and children were renewing acquaintances at Cranbrook on Sunday.

Mrs A. E Penson is a visitor with Sandpoint friends, and Miss Beulah Penson is on a holiday visit at Spokane.

Mrs. Brethour of Lethbridge, Alberta, was a visitor here last week, a guest of Mr. and Mrs. Harris, on the Haskins place.

Mr. and Mrs. T. Kirsch of Potlach, Idaho, are visitors this week, with Mrs. Kirch's parents, Mr. and Mrs. E. Botterill

Miss Ruth Cartwright was a visitor at Cranbrook at the first of the week, assisting at the marriage of Miss Margaret Walkey to E Garneau of Kimberley, which happy event took place on Sunday. The bride is a former resident of Erickson.

Alice Siding

R. Alderson was here from Turner Valley for the King's birthday holiday weekend.

H. Ostendorf has just completed the erection of an addition on the south side of his residence.

Guy Constable was a business visitor at Nelson at the first of the week, leaving on Monday.

Iris Taylor was a King's birthday holiday weekend visitor with Mr. and Mrs. T. Rogers, Sirdar.

Mr. Curtis has just arrived from Saskatchewan, and is at present a guest at the home of W. Keirn.

H. S. Henley of Regina, Sask., who recently purchased ten acres of the former Swanson ranch, was a business visitor here last week, and is planning to clear out about five acres of the trees and plant the land to a hay crop for the present.

Jack and Dick Smith were trying out their luck at fishing at the weekend in streams west of Sirdar.

Mr. and Mrs. W. P. Phillips and son, Donald, left on Saturday for Kalispel, Montana, on a short visit with friends.

The residence on the Beyts ranch is again occupied. Mr. and Mrs. Floer and family of Minton, Sask., have just taken possession.

Mrs. C. S. Hester and children were holiday makers at Twin Bay on Saturday in company with Mr. and Mrs. H A. Powell and family.

The young people were entertained at an impromptu dance which was held on Saturday night at the residence of Gordon Smith. The music and lunch were good, and all had an enjoyable time.

The University of British Columbia is using some of the land Guy Constable is cropping on the flats this year for demonstration plots for wheat. All told 69 different varieties have been planted. Each variety has a row to itself, about 20 feet in length. Dr. Moe of the University staff is in charge of the work.

Kitchener

Marcel Senesael and Chas. Bush, jr., of New Lake, were here for the weekend.

N. K. Devlin, Dan McDonald and Andy Anderson were Bonners Ferry visitors, Sunday.

Mrs. C Foisy, Germain and Marvin, were Creston visitors on Saturday, guests of Mrs. H. W. McLaren.

H. H. Redmile is busy loading out four carloads of cedar posts for the C.P.R. They go to prairie points.

Miss Jean McCreath, who is in charge of the public school was a weekend visitor at her home in Creston

A. Lepage and Lewis Simpson, who are working at Fort Steele, were at their homes here at the weekend.

Chas. Bush, who has been at Robsart, Sask., called there due the dea h of his father, returned on Saturday.

Mrs. Art Bowness, who has been on a visit with her parents, returned to her home at Cranbrook, Wednesday.

The Pine Katz softball club are having a dance in Hunt's hall, tonight. Gents 25 cents, ladies 25 cents. Supper included.

B. Johnson and son, Robert, Mrs H. H. Redmile and Mrs. A. H. Moore, Misses Hazel McGonegal and Clara Hunt were visitors at Bonners Ferry, Sunday.

Mrs. C. Senesael and Mrs. C. Foisy attended a luncheon bridge, given by Mrs. Jas. Carr of Creston, Wednesday afternoon. Mrs. Senesael captured first prize, and Mrs. Foisy second.

Canyon

Public school inspector Manning was here on Thursday last on his semi-annual inspection of the Canyon public school.

Martin Nelson has just left for Tye, where he has secured employment on the development work at the Bayonne mine

John Nygaard jr., who is employed at one of the mines at Ymir, has arrived for two week's vacation at his home here.

Canyon softball teams were completley out of luck in their two games at Sirdar on Sunday. The girls squad lost 7-5 in an extra inning game, while the boys took a 27-6 trimming.

John Nygaard is finding his tie timber too big to work on with the broad axe, and he is now getting the Axel Berggren portable mill in shape to saw the cut of ties for which he has a contract with J. B. Winlaw.

Mrs. L. Craig and daughter, Shirley, have returned from an extended visit at Goodlands, Man., to which place Mrs. Craig had been called due the serious illness of her father. She reports the season very backward in both Manitoba and Saskatchewan.

There was a very large turnout for the dance under baseball club auspices at the hall on Friday night, for which music was supplied by Mr. and Mrs. Kolthammer, Mr. Hunden, Gerald Craigie and Miss Irene LaBelle of Creston. The holder of the lucky $3 cash prize was a resident of Kimberley.

Bill Clayton has just returned from Kimberley and has brought with him a one-plough garden tractor which he and his brother, Bob, constructed almost entirely from parts taken from an old Studebaker car. Construction was done in a small machine shop Bob operates in his spare time. It travels on Bennet wagon tires and is just the thing for orchard and garden cultivation.

Boxing Events Satisfy Patrons

Kimberley Talent See Action Against Local Mitt Artists—Draw Decision in All Events—Referee Complimentary.

Fight fans of the valley turned out in considerable numbers to witness the boxing bouts sponsored by Creston Valley Post Canadian Legion, and directed by W. Ferguson and C Lowther, staged at the curling rink arena Monday night.

There were two preliminaries. The first of these was a one-minute three-ronnd go between Tony Holder and Jack Goodwin of Erickson. The youngsters had been in training under J. B. Holder and certainly did him credit. Their reappearance will be welcomed by the fight fraternity.

The other curtain raiser was an encounter between Ed. Brady and Jim Lockhead, jr. The former had some advantage in weight and experience but Jimmy showed himself a chip off the old block with plenty of pluck.

The main bout was between W. Teaco of Kimberley and Irving Ferguson of Creston. Both lads weighed in at 148 pounds and the go three two minute rounds. This mix showed the most action of the evening. In the second stanza Ferguson missed his footing taking a fall on the back of his head that had him out for a count of six.

The fourth feature was four two minute rounds in which Bill Ferguson of Creston and Russell Shaw of Kimberley tangled. Ferguson put up a great scrap against a more experienced boxer with a long reach.

he final bout was also four rounds of two minutes each in which Bill Bourdon of Creston went in against Bill Burnett of Kimberley. The latter had seveu pounds the best of it in weight as well as considerable more experience, considering which Bourdon's showing was the more creditable. Burnett was the strongest and most experienced of the visiting trio and made a difficult opponent, being a southpaw.

The timekeepers were Adam Robertson and Stanley Stewart, with Herb Stanton, athletic instructor at Kimberley as referee. In complimenting the boys he referee singled out Bill Bourdon and Bill Ferguson as boxers of promise, and expressed the hope that Creston talent would be represented in the boxing tournament at Kimberley on Dominion Day.

All bouts were declared a draw. The affair was sponsored by Creston Valley Post Canadian Legion and was well managed by W. Ferguson and C. Lowther.

Cherries, Peaches Apricots Light

Severe Spell in January Took Two Latter—April Cold Dip Hard on Cherries—Strawberries Due Last Week in June

As reported May 27th: The weather still continues bright and warm with cool nights and occasional showers in the vicinity. Snow is receding on the mountains more rapidly, and the danger of extreme high water is about over. Growth is more rapid of late but is still ten days behind the average. Rain is needed to advance seed growth and improve pastures

Strawberries are in full blossom and give promise of a very fruitful crop. Picking will not be general until the 20th of June. There is a slight increase in bearing acreage this year. Raspberries should average about the same as last year. The slight increase in bearing acreage this season, will be offset by the frost damage to canes and buds on the low areas. The season will start a little later as the blossom bud is barely showing, and many canes are late and backward in bud growth owing to slight winter injury.

Sweet cherries from all reports, are setting poorly, especially in the low areas. The low temperatures caused a certain amount of winter injury in many instantances, causing the bark to split open on the trunk, and occasionally a limb after blossoming out, has shrivelled and died back. Bings are more affected than either Lamberts or Royal Annes. A third of the crop will be affected.

Peaches and apricots were in bloom only on the highest elevations, and from all accounts have set very well. Local consumption will assimilate all produced.

Bush fruits are looking very well. Gooseberries are set and growing. Currants are just about set, and there is every indication of a good crop in sight.

Pears and apple blossoms are just about over. Calyx spraying should start about the 20th, about ten days later than the average time.

According to the bloom, winter varieties should be heavy, early varieties light, including McIntosh.

Last week tomatoes were being planted out in the Erickson district, and this week should see the work finished in all areas. There will be no increase in acreage. Asparagus is moving freely and a small percentage of the crop is being shipped out.

Last week about finished the shipment of tulip cut flowers. If anything this business is slightly increasing.

Sowing of grains on Kootenay Flats is about completed. A few damp places were seeded to oats late last week.

Lister

Col. Fred Lister is a business visitor at Nelson this week, leaving on Monday.

Miss Fay Pendry left last week for Kimberley, where she is visiting with friends.

Mrs. J. Bollinger is spending a few days in Nelson, a guest of her daughter, Mrs. Riehl.

Harry Demchuck left at the first of the week for Salmo, where he has secured employment.

Mrs. Sam Whittaker and children of Cranbrook, are here at present on a visit with her mother, Mrs. A. Hobden.

Mr. and Mrs. B. B. Stallwood and the former's parents, Mr. and Mrs. J. B. Stallwood, all of Nelson, were Monday visitors with Col. and Mrs. Lister.

Mrs. Wm. Lindhorst, who underwent a rather critical operation at Cranbrook hospital the latter part of the week, is reported as making a very satisfactory recovery.

Mr. and Mrs. Ben Byer and family have left for Picture Butte, Alberta, where hey will be visiting with her parents, Mr. and Mrs. Byrne, for the next three months.

There was a large and interested turnout on Tuesday afternoon for the bttter and heese making demonstration by H. Rive at the home of A. W. Sinclair. The demonstration was under the auspices of Creston Fasmers' Institute.

There was quite a large crowd out for the Sunday ball games at the Recreation field at Huscroft At baseball Copeland bested Lister-Huscrost 15-10 and at softball the Raiders girls team played a tie game with Creston Wildcats, 15-15. The return game will be played at Creston Thursday evening.

There was a very fine turnont for the Lister-Huscroft baseball club dance at the Huscroft school on Saturday night, with good local music and a nice lunch. The holders of the lucky tickets on the drawing for three boxes of chocolates were John Bird, Tom Alton and Frank Yerbury.

Wynndel

A. H. Pigot was a business visitor at Kaslo and Nelson the past week.

Miss Nell Payne of Creston was a weekend visitor with Misses Abbott.

J. B. Rudd is at Bellvue, Alberta, on a visit with his daughter, Mrs. Boutry.

Hawks are numerous again this year and taking heavy toll of young chickens

Charlie Leamy is now employed at Creston, scaling at the C. O. Rodgers sawmill.

The grader is again at work on Wynndel highways and making some badly needed repairs.

Mr. and Mrs. F. C. Robinson of Nelson, were renewing acquaintances here at the first of the week.

Mr. and Mrs. Verne Glasier are here on a visit with the former's parents, Mr. and Mrs. A Glasier.

The June meeting of the Woman's Auxiliary is called for Friday, 14th, at the home of Mrs. Jas. Wood.

The blossom of strawberry plants indicate a heavy crop. Due the very dry season irrigation is heavy.

The weather is unreasanably cool for June. Monday morning the mercury went as low as 32 above zero.

Mrs. Ted Payne and daughter, Virginia, of Creston, are visiting the former's parents, Mr. and Mrs. E. Foxall.

Miss Lois Martell, who was operated on at Creston hospital for appendicitis, is making a satisfactory recovery.

C. Payette left last week for Nelson where he has obtained employment as scaler in the Schaefer-Hitchock sawmill.

The King's birthday was celebrated by an outing at Sanca by the school children, who were guests of the school board.

Latest reports on Mrs. H. F. Robson, who was operated on at St. Eugene hospital, Cranbrook, last week, are good. Progress towards recovery continues steadily.

Creston Public School Report

May Shows Attendance Well Maintained—Division 5 Enrollment Largest—Divisions 3 and 6 are Best Attended.

Division 1—E. Marriott, Principal.
Enrolment, 38.
Average attendance, 36.03.
Perfect attendance—Sydney Argyle, Jim Bourdon, Glen Clark, B. Chappell, Anna Dickinson, Thelma Erickson, Elsa Foerster, Charlie French, Jack Hall, Kenneth Hester, Egon Hollm, K. Kerluke, Ethel Morrow, Helen McCreath, Evelyn Nastasi, Irwin Nickel, Eva Phillips, Norman Phillips, Goldie Walker, Don. Fowlie.

Division 3—Miss Wade, teacher.
Enrolment, 37
Average attendance, 35.80.
Perfect attendance—Rita Archambault, Earle Beninger, George Bourdon, Harley Brady, Jean Bunt, Helen Dzvigola, Mary Gabelhei, Bertha Gardener, Carolyn Jones, Leslie Jones, Anna Kinkade, Agnes Lovestrom, Raymond Moore, Teddy Olivier, Jimmy O'Neil, Jean Pridham, Willie Rodgers, Sam Rota, Dorothea Schmidt, Marion Staples, Arthur Sutcliffe, Donald Truscott, Blanche York, Mary Imhoff, Earl Walde.

Division 4—Miss Learmont , teacher.
Enrolment, 39.
Average attendance, 36.40.
Perfect attendance—Donald Andrews, Ruby Biccum, Allan Comfort, Julius D'Zvigola, Patsy Forbes, Leslie Harris, Ethel Hendren, Richard Hood, Eunice Hughes, Norman Husband, Sadie Kerluke, Louis Klingensmith, Billy Lewis, Grace Lewis, Leona Lovestrom, Bill MacDonald, Gwen Moore, Harry Ostendorf, Elmer Pagens, Lewis Palmer, Anna Peltzer, Victor Peltzer, Katherine Rentz, Margaret Timmons, Kenneth Weir, Robert Armstrong

Division 5—Miss Hobden, teacher.
Enrolment, 48.
Average attendance, 45.
Proficiency: Grade 2—Laura Keirn, Kathleen Joyce, Lorna Bell. Grade 3b—Robert Ibbitson, Joyce Arrowsmith, Julia Amatto.
Perfect attendance—Rene Archambault, Lorna Bell, Mary Boffey, Rose Cellis, Victor Cellis, Edwin Dickinson, John Harris, Fred Hurrack, Robert Ibbitson, Kathleen Joyce, Laurel Keirn, Rose Kinkade, Erma Klein, Lyle Klingensmith, Beth Leavitt, Blair Leavitt, Henry Read, Gordon Rodgers, Jimmie Rodgers, Fiore Rota, Phyllis Seldon, Katheryn Timmons, Charlie Tompkins, James Walker, Eileen Weston, Jack Wilks, Dora Amatto, Julia Amatto.

Division 6—Miss Holmes, teacher.
Enrolment, 43.
Average attendance, 41.
Proficiency: Grade 1—Betty Gilchrist, Marylyn Warren, Phyllis Wilks, Dorothy Dickinson, Dorothy Boffey.
Perfect attendance—Rodger Archambault, Dorothy Boffey, Gwen Bradley, Dorothy Dickinson, Gordon French, Mary Gardener, Roland Gariepy, Betty Gilchrist, Alvin Hendren, Jennie Hood, Lloyd Ibbitson, Alice Lovestrom, Lyle Mawson, Irene Moore, Bobby Patrick, Bobby Rentz, Sylvester Schmidt, David, Timmons, Mary Timmons, Phyllis Wilks, George Smith, Helen Armstrong, Marylyn Warren.

WANTED—Boy for fruit ranch at Wynndel, three or four months, $10 a month and board. Enquire Review Office.

Child Labor

In Canada, and in the western provinces particularly, as in many other agricultural countries, laws are enacted and regulations made under those laws from the operation of which the industry of agriculture and those engaged in it are exempted. For example, legislation regulating hours of labor in industry cannot well be made applicable to agriculture, although there are some idealists who, shutting their eyes to practical conditions, urge that such laws could and should be applied and enforced on the farms as well as in the factories. Workmen's Compensation Acts, passed for the protection of urban workers, are in many respects not applicable throughout the rural sections.

As we proceed to write this article, daily newspapers lie on the desk telling of the complete wreckage of the N.R.A. codes governing industry and business generally throughout the United States as a result of a decision of the Supreme Court declaring such legislation unconstitutional, being beyond the powers of Congress to enact inasmuch as it encroaches upon and usurps the constitutional rights and powers of the individual States of the Union.

Whatever varying and opposing opinions people may entertain regarding the Roosevelt experiment as a whole, there has been general approval of the provisions in the N.R.A. codes prohibiting child labor in shops and factories. It has been estimated that an army of at least 100,000 children marched out of shops and factories with the establishment of these codes, and there was a widespread belief that thereby the increasing problem of child labor had been solved for the time being at least. Now the protection afforded these children has been destroyed, although it may be hoped that those in control of industry will not revert to the employment of child labor.

Unfortunately, industry accounted for only a small proportion of the 700,000 children under 16 who were listed as working at the time the U.S. census of 1930 was taken. By far the greatest number, almost half a million, were found in the ranks of agriculture, to which the codes did not apply. It has been pointed out that the cotton fields, tobacco fields, truck gardens, beet fields, onion fields, potato fields, cranberry bogs, berry farms, hop fields and orchards with each returning season make their demands upon the nation's children, and that to hundreds of thousands of boys and girls, many as young as six, the coming of the end of school sessions means not the beginning of a holiday time of freedom and play but a period of toil that often starts at sunrise and ends at sundown.

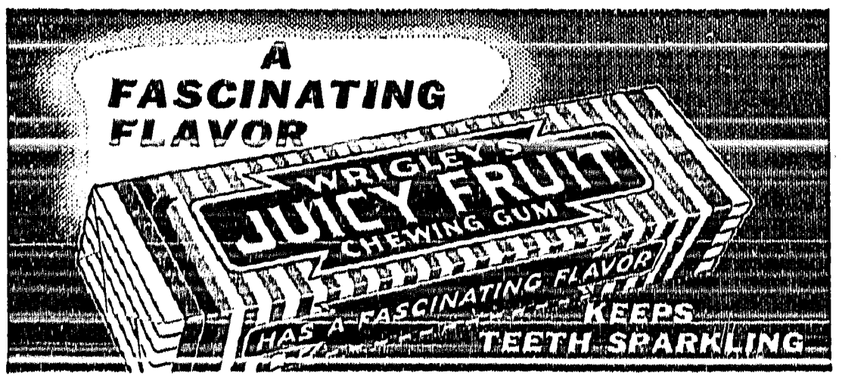
Except for the fact that these children work in the open air, their lot is in many respects a harder one than those children in shops and factories, and one can appreciate the yearning expressed by one 12-year-old boy for the day when he will be old enough to get a job in a mill and work only eight hours a day.

The situation in Canada is, of course, not comparable to that in the United States, or in other lands where congested populations eke out an existence and intensive tillage of the land by the whole family is necessary. Furthermore, in Canada our standard of living and of education is much higher than in most countries, and in the cotton, tobacco and other fields of the southern States. Canadian parents, as a rule, are more desirous of giving their children the highest possible education than they are to work them as farm hands and profit-making laborers.

But inasmuch as many of our laws which are designed to protect urban workers and which prohibit child labor are not applicable to agriculture, a greater responsibility is thrown upon parents engaged in agriculture to protect their children and not lose sight of the humanities, the frailties, the limited powers of endurance of young boys and girls, and to remember that their proper physical development and mental outlook on life necessitate hours of play and recreation; that their bodies and minds will be stunted by long hours of work and no play. It is still true that all work and no play makes Jack a dull boy.

This is not to say that farm boys and girls should not be required to assist in the work of the farm, they should. Doing chores is part of their education and preparation for life, and it would be both foolish and wrong to do for them what they should do for themselves, or permit the development of habits of idleness or shiftlessness. But inasmuch as definite laws for their protection from what may be termed exploitation do not apply in rural as in urban life, it is all the more necessary that rural people guard against selfishness and thoughtlessness on their own part in the matter of overworking children on the farm.

Canada stands high in the matter of child labor. It is a matter of national pride that this is so. We stand high in the matter of education, and our school attendance laws afford the greatest legal protection against the exploitation of child labor, both in city and country. It should be the aim of the Canadian people as individual citizens to raise the standard of child life progressively higher as the years go by, and entirely eliminate the blot of commercialized child labor from this fair Dominion.



Live "Dragons" At Zoo

Habitants Of Dutch East Indies Taken To London

There were live dragons in King George's Silver Jubilee celebrations, but they did not take part in the procession.

There was a pair of them and they were seen for the first time by the public at the zoo.

Komodo dragon is their full name, though learned people speak of them as monitor lizards. They came from Komodo Island in the Dutch East Indies, whence they were brought by Lord Moyne, who has been there studying their habits in the wild state. Some of the animals in their native habitat are 12 feet long, and their nearly-related, extinct Australian species grew to 50 feet. And these it is that are supposed to have been the originals of the dragon legends throughout the world.

Seen travelling erect on their four legs—not crawling like the alligator—with their longish heads carried aloft and the tips of their long tails sweeping the earth, they are indeed capable of inspiring fright in the primitive mind.

The pair given to the zoo are the most interesting and valuable reptiles in this wonderful collection and some striking photographs of them in their native surroundings accompany the exhibits. They were kept in the zoo sanatorium for a few days so that the keepers might study their habits, and were then put on view for the first time on the King's Jubilee Day.

A Magnificent Statue

Cleaning Revealed Effigy Of Black Prince Is Pure Gold

The Black Prince—or at least his statue—is no longer black.

For centuries the statue over his tomb in Canterbury Cathedral has been as black as his name. It was never cleaned.

Then, about a month ago, it was. Centuries of grime and a coating of protective enamel were delicately removed under the direction of Professor W. W. Tristram.

A most beautifully wrought effigy in pure gold on a foundation of bronze was revealed. It is in almost perfect preservation and is one of the most wonderful examples of fourteenth-century craftsmanship in existence. The tomb was built 550 years ago.

"The most magnificent tomb in England," is Professor Tristram's description.

"We clean the cathedral regularly," the Dean of Canterbury said, "but for some reason, I really don't know why, it never occurred to anybody to clean the Black Prince. Now that we have done so everybody is delighted, and we are having a great many visitors. The tomb is one of the most lovely monuments in the world. Its value is incalculable."

Gasoline Discovered

Unable To Explain Gasoline Reservoir Near Earth's Surface

A huge underground lake of pure gasoline was discovered in the harbor district near Wilmington, California, causing hundreds of persons to stampede to the scene.

Shallow wells, most of them dug to a depth of only two feet, were producing from four to six gallons of gasoline an hour.

The scene, a low area about two blocks square, was dotted with hundreds of gasoline "prospectors", some of whom brought hand pumps to speed up production. Motorists filled the tanks of their automobiles and trucks.

Fire Chief Ralph Scott, at a loss to account for the gasoline reservoir beneath the earth's surface, said, however, it probably came from a leak many years ago in a pipe line leading from a refinery to a harbor terminal.

A Great Salesman

The greatest salesman of the Empire is the Prince of Wales! On a hot day, once, according to Lord Dudley, he talked in Rio de Janeiro for more than an hour. As a result British iron and steel industries received an order for a $15,000,000 contract. Lord Dudley told the story at a meeting of the Iron and Steel Federation of which he is president.

Russia Making Rubber

Oil Waste And Calcium Used In New Process

New processes for making synthetic rubber out of the waste products of oil refineries and from calcium carbide are being tried out in Russia.

Heads of the Soviet industrial syndicates expect shortly to be manufacturing the product at the rate of 20,000 tons a year.

This will have far-reaching effects on the rubber-growing plantations of the Far East, and will upset considerably the working of the Rubber Restriction Scheme, under which 30 per cent. of the trees are not being tapped so as to force up raw rubber prices.

The first factory for manufacturing rubber from oil waste is now being started in Moscow. The lessons learned there will be applied in the construction of several large plants in the oil well districts.

About 35 pounds of rubber are produced from the waste products obtained from refining a ton of oil. In the past these products in many cases had to be wasted.

The other process, for manufacturing rubber from calcium carbide, is to be operated at Erivan, in Armenia, where a factory is now being constructed. The process is the invention of a number of young Soviet scientists working in Leningrad.

Water is added to the calcium carbide, forming acetylene, the gas of which is often used for lighting. Then, after a series of chemical reactions, a substance called chloroprene is produced and thus ultimately becomes rubber.

The rubber is said to have all the working and wearing qualities of real rubber, and to be very much cheaper.

Best Aid To Sleep

Formula For The Perfect Night-Cap Has Been Evolved

It is generally recognized that the best aid to sleep is warm milk; and that the main use of all night-caps is not as a soporific but as a means of removing from hot milk the unpalatable taste which prevents so many people from drinking it regularly at night. Since tea is the cheapest beverage in the world, and the one that is in every family cupboard, its use in this connection is highly desirable. A formula for the perfect milk night-cap has now been evolved. Tea should be made in the usual way, which means that one teaspoonful of leaf should be allowed for each person and one for the pot. The pot should only be filled half way, and when pouring out after the usual four to five minutes infusion, the cups should be only half filled. They should then be filled up with hot milk, but not with boiled milk.

Twenty-two million cups of tea are drunk in Canada every day or over eight billion cups of tea a year. The tea industry is therefore one of the farmer's greatest allies, for investigation has shown that the number of people who drink tea without milk is almost negligible.

Welcome Heavy Rain

Australians Glad To See "Knock 'Em Down" Variety

Darwin, Northern Australia, recently welcomed the annual "knock 'em down" rains.

Although this aboriginal description of the torrential downpours, which herald the end of the wet season, sounds grim, the rains are very welcome throughout the Northern Territory. These heavy downpours towards the end of the monsoon period level the long grass which earlier falls have caused to grow to a height of six to ten feet.

In the three months following Christmas, about 40 inches of rain fell in Darwin, and the grass bordering the roads was so high that a man driving along the road could not see a friend walking along the footpath. In low-lying sections of the city grass grew in a tangled mass ten feet high. That is why "knock 'em down" rains are welcome.

Construction of the Canton-Hankow railway in China is progressing so rapidly that the line may be in operation this year. 2101

-'Tis Jolly To be Wise!

There is a lot more pleasure in rolling a cigarette with Ogden's Fine Cut—a tobacco you KNOW will pass your own tests for smoothness, coolness and fragrance.

Smart "roll-your-owners" everywhere are "wise" to Ogden's. They'll tell you that Ogden's Fine Cut and "Chantecler" or "Vogue" papers make the right combination for rolling smooth, satisfying cigarettes.

An Old Organization

First Holstein Society Started In Germany In 1872

Cattle resembling the present-day Holstein have been bred for centuries along the south shore of the North Sea, from Holland over to Denmark. Some of the early importations into the United States came from the German province of Holstein, just south of Denmark and a breed society of that name was started in 1872. But most of the early importations came from Friesland and the country in Holland bordering on the Zuider Zee and a Dutch-Friesian Society was started in the States in 1879. These two merged in 1885 with the name of the Holstein-Friesian Association of America. Although the most of the foundation stock of the breed came from Friesland the name has stuck, the Holstein-Friesian Association of Canada having been formed in 1891.

If you want to be popular it's a good idea to learn the art of remembering what to forget.

THIRD READING IN SENATE FOR INSURANCE BILL

Ottawa.—After two Liberal amendments had been voted down, the unemployment insurance bill went through third reading in the senate.

An amendment moved by Senator Raoul Dandurand, Liberal leader, that employees in non-manual labor receiving salaries in excess of $2,000 also should come under the bill and contribute to the insurance fund was defeated on division by 20 to 12. Hon. James Murdock (Lib., Ottawa) voted with Conservatives; but, with this exception, party lines stood solid.

Exception of employees of banks and financial institutions, bringing the measure back to the provision it contained when passed by the commons, was moved by Senator Walter E. Foster (Lib., Saint John) but was lost on a call for "contents" and "non-contents." The former New Brunswick premier—a bank employee for a time in his very early career—encountered opposition from Rt. Hon. Arthur Meighen, senate leader; Senator W. A. Buchanan (Lib., Lethbridge), Senator W. A. Griesbach (Cons., Edmonton) and Senator Murdock.

"My amendment will put the employee receiving a modest salary on a parity with those who receive more than $2,000 per year," Senator Dandurand stated. Two-thirds of contributors to the insurance fund would not benefit under the act.

"I reckon 28 per cent. of those contributors would be the utmost in times of a great crisis who would become unemployed," he declared. It would be unfair for many employees with modest salaries, Senator Dandurand argued, to have to contribute $13 per year while those earning more than $2,000 annually would be "free from the element of taxation."

"I am afraid the amendment is only to give the hon. senator a chance to say he wanted to tax the big fellow," Senator Meighen declared. The amendment ignored the intent and purpose of the measure. This was not a tax bill but a measure dealing with unemployment insurance and taxation in the area that would be benefited for that insurance.

The amendment, the senate leader continued, would not reach the rich man. "He (Senator Dandurand) wants to make the fellow earning a salary pay, but the rich fellow who does not have to earn a salary would not have to pay under the amendment."

Irish Free State Neutrality

Would Not Be Used As A Base For Attack On Britain

Dublin. — President Eamon de Valera assured the dail the government would never permit Irish Free State territory to be used as a base for an attack upon Great Britain by another power.

Replying to an opposition onslaught, De Valera said war in Europe might possibly develop into a very serious situation for the Free State. He said the Free State would do everything in its power to defend its own territory.

The president said the government was prepared to draw up an agreement with Britain and to purchase from her, pound for pound. It was even prepared to give her a preference when the Free State had to buy goods outside the country.

Celebrates His Birthday

Famous Dr. Dafoe Entertained By Newspapermen Of North Bay

Callander, Ont.—Dr. Allan Roy Dafoe was all but smothered under an avalanche of congratulations as he celebrated his own 52nd birthday and looked back on the happy observance of the Dionne quintuplets' first birthday anniversary.

Newspapermen marked the double event on May 28 by entertaining Dr. Dafoe at dinner in North Bay and presented him with an engraved silver pitcher.

First Official Crop Report

Conditions In Prairie Provinces As A Whole Are Hopeful

Ottawa.—The Dominion bureau of statistics issued the first of 15 weekly telegraphic crop summaries covering conditions in the prairie provinces and said crop reports as a whole were "hopeful", although correspondents pointed out "sub soil (moisture) reserves are negligible in many districts and in these areas crop development will depend upon current rainfall."

The summary of the report said:

"The seeding and early development of the 1935 wheat crop of the prairie provinces have taken place under vastly different conditions than existed a year ago. During the month of May generous rains were received over the 'drouth' area of Saskatchewan and in parts of central and northern Alberta seeding has been seriously delayed by heavy rains.

"Only a few areas in the three prairie provinces report the need of rain at the present time. Hatching of grasshoppers has been delayed by the cool, wet weather but outbreaks may be expected shortly. Wheat seeding is nearly completed in Manitoba and in many areas in Saskatchewan and the seeding of coarse grains is well advanced. In Alberta, seeding of wheat is almost completed in the southern part of the province, but in the northern areas a great deal of land intended for wheat is not sown as yet."

Makes Protest

Hon. H. H. Stevens Objects To Statements Made At Inquiry

Toronto. — Hon. H. H. Stevens, M.P., suddenly appeared before the inquiry into the affairs of the Manufacturers' Finance Corporation, of which he was a former director. He stated he intended to demand a hearing.

Mr. Stevens listened to proceedings wtihout interruption until that part of the report made by Joseph Sedgwick, K.C., of the attorney-general's department, was read concerning Mr. Stevens' activities as a director of the bankrupt corporation. Mr. Sedgwick had stated Mr. Stevens had received $200 as "overseas expenses" from the corporation.

Mr. Stevens jumped to his feet and exclaimed, "No, no." His counsel, Norman Sommerville, K.C., interposed. "That just shows the effect of having this evidence produced without allowing us a chance to prepare. Mr. Stevens did not receive any money to go overseas from the company and did not go overseas for the company. He did not receive a nickel."

Commissioner J. M. Godfrey, K.C., stated following reading of the report he would give Mr. Stevens an opportunity to give his explanation.

Letter Mailed Too Late

Ottawa.—The city post office disclosed receipt of a letter postmarked Vancouver and addressed to Col. By, Major Hill Park. The name and address were right but the letter should have been mailed at least 99 years ago before Col. John By, who foundded Bytown, later Ottawa, and built the Rideau canal, died. Post officials said the postmark was recent. They sent the message to the dead letter office.

For Shorter Hours

Victoria.—Shorter working hours for postal employees is sought in a resolution passed at the closing session of the British Columbia branch of the Canadian Postmasters' Association here. The resolution, which was forwarded to the national executive, asked for a 44-hour week, with powers for the postmasters to regulate the working schedule according to local conditions.

Few Will Return To Fatherland

Saskatoon.—Few of the Germans here affected by the conscription ruling of the German government will return to the fatherland for military duty, leaders of German organizations said when they reported that many of their compatriots were taking immediate steps to secure Canadian citizenship and thus avoid a year's military training. 2101

GEORGE OF GREECE

The possibility of a reconciliation between ex-King George and ex-Queen Elizabeth of Greece is stated to have been discussed in Bukarest between the Greek Foreign Minister and the ex-Queen herself. A reconciliation it is stated, would be a preliminary to an eventual restoration of the monarchy of Greece. Here is a recent picture of the ex-King.

Storm Causes Heavy Damage

Property Loss Near Sarnia, Ontario, Will Total $75,000

Sarnia, Ont.—Two persons injured and property damage totalling $75,000 was the toll of a severe storm which swept over a small area in Sarnia township, eight miles east of here.

Two houses and seven barns were destroyed, roofs torn off other buildings, orchards uprooted. A highway was strewn with trees, telephone poles and wires for about a mile, as a wind of tornado proportions accompanied a severe thunder storm.

The storm passed over the city without doing any damage. Worst damage was done in a narrow strip on each side of the provincial highway.

Monk Sent To Prison

Heavy Sentence Is Imposed In Nazi Court

Berlin.—A Nazi court meted out the heaviest penalty possible on Otto Goertler, a monk, charged with violation of the foreign exchange laws.

Goertler was sentenced to 10 years in the penitentiary, loss of citizenship for an additional five years and was fined 350,000 marks (about $140,000). If the fine is not paid the monk must serve an additional 27 months in prison.

Shares of the Farben industry, valued at 44,000 marks, will be confiscated from the monastery to which Goertler was attached. The monastery also was fined 500,000 marks.

Improvement Shown In Employment Situation

Report Shows Increase In All But Maritime Provinces

Ottawa. — An improvement was shown in the employment situation on May 1 in all provinces, while the Maritime provinces was the only economic area to show a decline in comparison with May 1, 1934, the Dominion bureau of statistics reported.

Reports received from 9,203 firms show 892,506 at work, a gain of 17,457 compared with the preceding month.

The crude index, higher than any year since 1931, stood at 95.2 against 92.0 on May 1, 1934, and 77.6 in 1933.

In the prairie provinces, 1,339 firms reported 110,815 employed against 109,492 on April 1. Gains were shown in manufacturing, lumbering, iron and steel, and coal mining while logging was seasonably slacker.

Bids Constituents Farewell

Lord Tweedsmuir Expresses Thanks For Kind Treatment

London. — Lord Tweedsmuir, who represented the Scottish universities in the House of Commons until his recent appointment as next governor-general of Canada, formally said farewell to his constituents.

"There cannot be many constituencies which treat their members with greater forbearance and kindness, which make fewer demands on his time or which extend him fuller and friendlier confidence," said his message.

"My eight years as their representative have enabled me to learn much about university life in Scotland, but I fear the benefits have been one-sided and that I have given very little in return for what I have received. Now I have to bid them a regretful farewell, I would offer them my most grateful thanks for their manifold kindnesses."

Motors Across Channel

German Sportsman Negotiates Crossing In Automobile

Dover, England.—A novel amphibian motor car clambered, dripping wet, on to dry land here and rolled on toward London after crossing the Channel from Calais in eight hours and 20 minutes. The machine was operated by Jacob Boulig, German sportsman.

It was the first such crossing but such a motor car, equipped with paddlewheels is not likely to prove popular, since regular Channel steamers from Dover to Calais make the trip in about an hour.

PRINCE FREDERIK AND HIS BRIDE

Stockholm, Sweden.—Two hundred thousand cheering Swedes packed Stockholm's streets to bid farewell to Crown Prince Frederik of Denmark and Princess Ingrid of Sweden. Frederik's bride and Denmark's future queen. Their brilliant wedding in the 13th Century church where all kings of Sweden's Bernadotte line have been crowned, was attended by such an assembly of crowned heads, royalty and notables as Scandinavia seldom has seen.

PRICE SPREADS IN CARS SHOWN TO TARIFF BOARD

Calgary—Large price spreads exist between identical models of automobiles in Alberta and Montana the tariff board learned in a final Calgary session.

Continuing the automobile inquiry, which started at Vancouver, the board members were told that duties made prices of United States cars almost prohibitive in Alberta, and that Canadian automobile manufacturers were competing unfairly in the "parts" business with local jobbers.

J. L. Stewart, general manager of the Canadian Automobile Chamber of Commerce, submitted reports showing that both taxes and freight rates were considerably higher in Alberta than in Montana. On one light model car the government tax in Butte, Montana, was $19. The tax on the same car in Calgary was $40.63. On an eight-cylinder model selling for $1,500 in Butte, the tax there was only $33.60 compared to $138.33 in Calgary.

A. L. Smith, K.C., representing a group of Alberta jobbers, asked the board to investigate fully a charge that manuufacturers were importing parts from the United States duty free, ostensibly for manufacturing purposes, and were then retailing the parts in competition with jobbers who had paid full duties.

W. H. Poole, of the department of economics at the University of Alberta, who prepared a comparative schedule, reported differences in prices as high as $310 on stock model cars sold at Selby, Montana, and Lethbridge, Alta.

Tribute To Dr. Cora Hind

Women's Press Club Honors Western Journalist

Ottawa. — Tribute by newspaperwomen of Canada to Dr. E. Cora Hind of the Winnipeg Free Press as "one of the greatest of their cult," was paid by the Canadian Women's Press Club here at a banquet by the government tourist bureau.

Held in the parliamentary restaurant, the function, of which Hon. R. J. Manion, minister of railways, acted as host, was attended by nearly 200 female members of the craft, with a mere quintette of males "gracing" the proceedings.

The eulogium on the service rendered to Miss Hind, upon whom the University of Manitoba a few days ago conferred the honorary degree of doctor of laws, was pronounced by Miss Charlotte Whitton, C.B.E.

Dr. Manion sketched to his hearers a picture of the tourist bureau's work, paying tribute to Hon. W. H. Dennis of Halifax, who had been chiefly responsible for its establishment, and to D. Leo Dolan, who directs its activities. Last year, the minister said, the Canadian people derived more money from the expenditures of tourists than they did from the sale of wheat. The significance of the industry was illustrated, he said, by the fact the state of Maine alone had a revenue of $100,000,000 annually from tourists.

Police Patrol Going North

Disappearance Of Trapper Last September To Be Probed

Prince Albert.—A Royal Canadian Mounted Police patrol will leave shortly for Folkestone lake, 300 miles northwest of here, to investigate the mysterious disappearance of Jean Baptiste Lemieux of Montreal. The 25-year-old trapper has been unreported since he left his lake cabin last September.

Lemieux set out for the north country from Edmonton late last summer. With him were Carl Damur and his wife. The trio planned a trapping season in "a sort of partnership." Shortly after they had established a trap-line, north of Frobisher lake, 280 miles north of Battleford, Lemieux disappeared.

Damur left the cabin to visit a neighboring trapper. When he returned his young partner was missing.

"I want action --now!"

"In my business, time is an important factor," said Mr. Dashman. When dealing with a man in another town, I can't afford to wait while letters are being exchanged. I want action—now! So I use the long-distance telephone."

This man knows that tomorrow may be too late, so he telephones today.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, JUNE 6

Letters to the Editor

A Community Need

Editor Review:

Sir—From the 1935 programme of public building it is obvious that the authorities are alive to Creston's growth, and at this time it is opportune to suggest that provision of a building for sports and entertainment, adequate to the needs of this growing district, be seriously considered.

The purchase and completion of Park pavilion some four years ago by the village council was a good move. It provided the Badminton Club with three courts in place of the one previously used in the Parish Hall. It also provided room for basketball, dances and public functions. The building was in use six and sometimes seven days per week every winter.

But it has been obvious for some time that Creston has outgrown Park pavilion. Cross beams so interfere with play that the East Kootenay Badminton Association cannot hold their annual tournament here, and these beams also interfere with basketball game. Anyoue "present" at the Jubilee dance will admit that the present building is far too small for such an affair.

Facing the necessity of enlarging this old building, lining it, removing beams and renewing the roof; would it not be cheaper in the end to erect a building suitable in every respect to present and near-future needs.

One great advantage in having a new building is that it could be located nearer the centre of the village where present up-to-date caterers could handle refreshments instead of depending on the inadequate facilities of Park pavilion.

In the matter of facilities for indoor sports and entertainment Creston with its mild building boom lags behind many smaller centres of population in the Kootenays.

Last fall when removal of beams from the pavilion was discussed the Badminton and Basketball Clubs agreed to share this cost with the village, and considering the commercial advantages in making our town a sports centre, the financing of a larger building should not be difficult.

The small investment on our indood sports has been returned with interest; a large hall, centrally located, able to take care of our increased needs, and appealing to people outside the district has a better prospect of being a financial success than had the Park pavilion. And the benefits accruing to all sections of the community from the encouragement of sports are greater than any financial benefit. CITIZEN.

HOME BREW

Cranbrook Courier—The Creston valley is just now a bower of beauty. Fruit trees are in blossom, flowers are in bloom, and to the inhabitants all nature seems grand. Verily, the whirligig of time performs some peculiar pranks. Back in the early spring of 1898, or 37 years ago, we tramped on foot over the ground where Creston now stands. To us at the time it looked like any other waste piece of land covered with scrubby timber and sagebrush. As we remember it there was one hotel, a store and a few shacks. We tarried not, but hastened along, for we had a more important objective. What did we care about farming or fruit raising, anyhow? Our wealth was to be made more quickly and easily in mining, and we were hurrying on to Moyie to get a newspaper started before anyone else grabbed the field. The great St. Eugene mine was the magnet, heralded far and wide as one of the biggest silver-lead discoveries eve made. Well, to make the story short, Moyie for a few years did flourish, like the proverbial green bay tree, and then gave up the ghost, while Creston, growing from the acorn to the sturdy oak, made slow but steady improvement year by year. Like the story of the dog in our school books, we passed up the bone with the meat on it and grabbed at the shadow.

Sirdar

V. M. Vasseur of Creston was here twice this week with his truck on business.

R. S. Bevan of the road camp spent a few hours at his home in Creston Saturday.

Gus Omer of the bridge crew left for Nelson, Thursday, to meet his son from Vancouver Island.

Miss Iris Taylor of Alice Siding is a house guest of Mr. and Mrs T. Rogers over the weekend.

Mr. Blaikie with his truck, from Canyon was here at the beginning of the week on business.

J. W. Smillie, inspector of relief for the road camps, was a business visitor to Sirdar at the first of the week.

George Cam, who has been spending a few days with his family here, returned to Trail on Wednesday morning's train.

The Sukeroff truck was at Creston on Saturday for the week's supply of foodstuffs, and fuel for the engine at the sawmill

The bridge crew under George McLean left for Nelson, Saturday, at which point they will be employed for some time.

George Cady of he Schaefer and Hitchock Lumber Company, Nelson, was a business visitor to Atbara at the first of the week.

Charles Moore, of Creston, Engineer on the highways here, was engaged in surveying west of Sirdar for several days this week.

Fish are to be seen from the Slough bridge in great numbers but there seems to be too much feed in the water to make a catch successful.

A road crew is now at work west of Sirdar engaged in blasting rocks from the side of the highway and are making a good job of the work.

Charles Neal of Kuskanook was at Creston on Monday for medical attention. Mike Talarico was a visitor with friends at Creston on Saturday

Don Reeve's stage of Kimberley passed through here with a load of passengers from Kimberley and Cranbrook for the athletic meet at Trail.

Jack and Dick Smith were among those fishing here over the weekend, the later fishing from Shaw Creek and the former from Slough bridge. Sport was only fair.

Ed. Benny of Creston who has the contract for hauling supplies from Tye to the Bayonne mines with his pack train, augmented the number of his ponies by two this week.

George Sukeroff, who is in charge of the tie making sawing outfit at Goat Creek, was at Atbara several times during the week. The new engine has been installed and the outfit is working to capacity.

The water as indicated by guage at Slough bridge reads 14.50 a rise of 2.49 for the week. Indications are that fluctuations will take place in the water level, but that chances for high water does not correspond with the present conditions

Misses Margaret and Daisy Rogers entertained a few of their friends on Wednesday evening. Various games were enjoyed and a delightful lunch ended up the evening. The guests were Misses Annie, Rosie and Camellia Passcuzzo, Mr. and Mrs. James Passcuzzo, Frank Hamilton, Harold McPherson and Elmer Thompson.

A request is to be made to the postal authorities for a change in the mail service from Sirdar The request takes the form of a public petition for which names are now being secured At present east bound mail has first to go to Nelson retailing over a twenty hour delay. Ranchers report that this is reacting against them in sending their bills of lading and advice notes for their fruit shipments.

The largest crowd ever seen on the local grounds gathered on Sunday to witness Sirdar take a double header from Canyon. The first was very close and exciting with clean sport throughout. At the beginning of the sixth innings Canyon girls were leading 5-3, with only one innings to go. Evelyn Pelle hit a home run with Daisy Rogers on base to tie the score at 5-5. At the end of the scheduled innings the score was still tied and the game had to go into extra innings. Rose Pelle poled out a two bagger with two on bases to cinch the game. Lorne Craig and Oscar Hagen umpired the game. In the men's game the locals were too much for Canyon, who had difficulty getting used to the pitch. The game throughout was most interesting and at times splendid team work was displayed by both sides the final score being 27-6 in favor of Sirdar. Ray Humble was the pick of the visitors hitting a home run and playing a steady game in the field. D. Passcuzzo played a snappy game for the locals, while Don. Bolton, at short, gave a brilliant display of hitting, playing consistently. Bert Ingram and J. Miller each got a home run and Syd. Rogers poled out two circuit clouts and played a great game at first. A great deal of speculation is going on as to the outcome of the next clash between these teams. Lorne Craig and Roy Browell umpired this game and gave satisfaction in that capacity. The teams:

Canyon Girls—Grace Bond, E. Jarvis, Clara Nygaard, Ethel VanAckeren, Emma Simister, Grace Bothamley, June Browell, Marjorie Tedford, Pearl Gillespie.

Sirdar—Evelyn and Rose Pelle, Camelia, Norah and Irene Passcuzzo, Mrs Martello, Daisy Rogers, Mrs. Shapa, Lina Ingram.

Men's Game, Canyon—Bud Browell, Eric Olsen, Jack Bothamley, Albert Bothamley, Raymond Humble, Charles Koltthammer, Tom Tedford, Jack and Frank Clayton.

Sirdar—J. Miller, Peter Cherbo, Syd. Rogers, Fred Martello, Don. Bolton, Dom. Passcuzzo, Bert Ingram, John Rogers, Vincent Cherbo.

According to an official statement the value of the 1934 fruit and vegetable crops at Grand Forks was about $62,000.

One "Silver," of Kaslo advertises that he has his shotgun loaded in readiness for those who steal peonies and bulbs from his flower garden.

PRICED FROM $885 (for the Master 2-Pass. Coupe)

Delivered, fully equipped at factory, Oshawa, Government Registration Fee only extra.

See the new Standard Series models priced as low as $712

LET your own comparisons convince you that the new Master Chevrolet is away out in front—in features—in quality—in value for the money!

Look at the Turret Top roof. There's not another car in Chevrolet's low-priced class that offers you this vital, over-your-head protection of solid, seamless steel!

Look at Knee-Action—now in its second successful year—combined with balanced weight in these new models for the ultimate in the "gliding ride" . . . the ultimate in safety!

Look at the Fisher Ventilation—the Cable-Controlled Brakes—and the Blue Flame Engine. They're all exclusive to Chevrolet!

We invite you—come for a ride in the Master Chevrolet. All that we could ever tell you isn't one-two-three with what you learn by driving the car yourself! Easy GMAC terms.

Many See Butter Cheese Making

Farmers Institute Sponsors Demonstrations Creston and Lister —Heny Rive, the B.C. Dairy Commissioner, in Charge.

Henry Rive, dairy commissioner, of the Victoria experimental farm, was here on Monday and gave a demonstration on butt rmaking at Park pavilion. This practical instruction was sponsored by the Creston Farm rs' Institute, and was attended by about 40 people. He was assisted by Mr Wasson of Kamloops and C. B Twigg, district agriculturist, Creston

Mr. Rive stressed the importance of keeping all milk and cream containers well sterilized to prevent the infestation of bacteria. Then, too, cream shou d be kept in a cool place and the day previous to churning brought out and heated to a temperature of from 48 to 52 in summer, and 50 to 58 in winter. Mr. Rive, however, obserued that temperatures vary but with experience the buttermaker should learn the exact temperature at which best results may be looked for

Churn should be thoronghly scalded and cream churned from 25 to 40 minutes to bring to firm, granular form. The time taken in churning depends a great deal on the temperature at which the cream is before starting. The three main factors involved are the amount of cream in churn, percentage of butterfat and feed of the cows.

After the buttermilk is drained off thoronghly the butter is washed in clear pure water about the same temperature as the buttermilk. If the churning is successful the butter requires only two washings. Salt is then added at one-half to three quarters of an ounce to the pound. This must be determined by the market to which the buttermaker is catering.

Wednesday morning another successful demonstration was given at 8.30, also in Park pavilion. This time it was in cheese making, with an exceptionally good turnout. Samples of the cheese turned out are now on display in the Farmers' Institute window. On Tuesday afternoon Mr Rive gave a buttermaking demonstration at the A. W. Sinclair farm at Lister, which was also largely attende .

Death of Andy Wickholm

Canyon and the whole Creston district was shocked on Monday when the news spread of the unfortunate death of Andrew Widkholm, a highly respected and long time resident at Canyon. Deceased, whose health had been troubli g him for some time past, arose about 6 a.m. and, as usual, went out to look after he chores around the place but failing to make his appearance for breakfast Mrs. Wickholm went out to see if anything had happened and was stunned to find his lifeless body near the barn, deceased having taken his own life with the aid of a 30.30 rifle.

The late Andy Wickholm, as he was so familiarly called, was 52 years of age, and came to Canyon from Coleman, Alberta, in 1918 and has resided there ever since. The funeral was from the family residence on Wednesday with interment in Creston cemetery, and was very largely attended. Rev. Andrew Walker was in charge of the last sad rit s and the pallbearers were John Anderson, Axel Berggren, H. Young and Roy Browell In addition to the many ont to pay their last respects the many floral tributes also indicated the hig esteem in which deceased and his family are held. In addition to his widow he is survived by two sons, Will and George and one daughter, Mrs. M. LeGrandeau, all of Canyon, to whom is extended the heartfelt sympathy of the community.

Those remembering with flowers were Family, Olson family, Mr. and Mrs Wesling and Alice, Mr. and Mrs. Lowerison, Mr. and Mrs. Skalin Mobergs and Kifers, Canyon Farmers' Institute. Mr. and Mrs. Taplin Mr. and Mrs. Bothamley, Mr. and Mrs. Molander, Kitchener; Mr. and Mrs. Arvid Samuelson, Mr. and Mrs. Blair, Canyon Hospital Ladies Auxilary, A. G. and Godfrey Samuelson, Mr. and Mrs. Wood and Mr. and Mrs. Spencer, Mr and Mrs. Pochin, Mrs. A. Cross and Edna, Johnson family, Mr. and Mrs. T. LaBelle, Mr. and Mrs. R. Browell; Mr. and Mrs. M. Nygaard, Mr. and Mrs. Hickey, Larson family, Mr. and Mrs. Tooze, Mr. and Mrs. Nouguier, Mr. and Mrs F. C. Rodgers, Mr. and Mrs. Searle, Mr. and Mrs. C. O. Rodgers, Canyon Ladies' Aid, Mr. and Mrs. Humble, Mr and Mrs. Berggren, Mr. and Mrs. Niblow.

Local and Personal

Of approximately $850 of revenue collected in May at Creston office of the provincial police, $740 was taken in under the Motor Vehicles Act. Police court fines were $54.

W. J. Tindale and F. B. Hardin of South Slocan, engineers of West Kootenay Power & Light Co., Limited, were visitors at the plant at Goat River canyon on Thursday last.

Mrs. A N. Couling with Edith and Lloyd, left on Wednesday for Lethbridge, Alberta. where they are to attend the wedding of the former's niece in that city, at the end of the week

Out of respect for Andy Wickholm, planerman, whose funeral took place Wednesday afternoon, the plant of the C. O. Rodgers sawmill and box factory was shut down that afternoon.

Mr. and Mrs. R. B. Staples of Kelowna were renewing acquaintances in Creston on Thursday. Mr. Staples was here on business in connection with Creston Dyking Company, Limited.

The ever popular light opera, "The Merry Widow," will be shown at the Grand Friday and Saturday night. June 7th and 8th, with Maurice Chevalier and Jeanette MacDonald in the leading roles

Creston Board of Trade June meeting is called for Tuesday next at 8 p.m. The feature of the meeting will be arranging for the entertainment of the Vancouver business men who are due here on the 18th.

C. B. Smith secretary-treasurer of West Kootenay Power &Light Company. Limited. and J. W. Drury, manager of the company's retail stores, both of Trail. were here on company business during the week.

W. E. Haskins, G. A. Barrat and O. W. Wembling, members of the B.C. Tree Fruit Board, were visitors to Creston on Saturday, and were speakers at the growers meeting in Trinity Church hall that evening

Trail Commanders orchestra will piav for a dance at the community hall, Wynndel, Friday, June 21st. On the occasion of their last advertised visit they were unable to reach Wynndel on time due to car trouble.

Frank Putnam, M.P.P., along with S. A. Speers and A. S. Dickinson, left on Tuesday for Nelson where they will represent Creston board of trade at the convention of the associated boards of trade of eastern B.C.

Water flow on Goat River is holding its own. On Thursday of last week the depth of water going over the dam at the West Kootenay power plant had a depth of four feet. Yesterday the depth was just about the same.

With a big picture attraction at the Grand and an orchardists meeting on Saturday night, the number of autos lined up along Canyon street and Barton and Victoria Avenues was the largest motor display ever seen in Creston.

Mr. and Mrs. G. Gay, who recently arrived from Prince Albert, Sask., to take over the former Col. Fitzgerald ranch, have just purchased a lot from D. Learmonth, east of the irrigation district office, on which it is proposed to erect a residence.

In connection with the plan of giving employment to 500 youths in forestry work throughout the province, Creston forestry office has been authorized to engage two and Herb Couling and Cam. MacDonald have been chosen, going to work at the first of the month.

May weather was unusually cool. According to the official records there were ten mornings when it went to 32 or lower, and on the first, second and twelfth 27 above was recorded. The warmest day was the 28th when it hit 77 in the shade. Total rainfall was .89.

At the meeting Saturday night of the orchardists in the Boswell-Creston area W. G. Littlejohn was re-elected as the 1935 representative on the B.C. Tree Fruit Board, and W. Keirn was chosen delegate to the convention at Kelowna late this month when the 1935 board will be elected.

Mrs. V. S. MacLachlan, superintendent of Women's Institutes in B.C., was here from Victoria on Tuesday and met with the members of Creston and District Women's Institute at a well attended meeting at the home of Mrs. W. Fraser that afternoon. She visited the Institute at Wynndel, Wednesday.

Our K. B. O. Broadcast

Penticton council collected $1146 of dog taxes last year.

The government liquor store at Bonners Ferry opened for business this week.

Up till June 1st 588 men had registered as unemployed at Bonners Ferry.

Nakusp garages are having a much better year than in 1934 with auto sales.

The capacity of the telephone line between Cranbrook and Nelson has been doubled.

The Fernie brewery is paying a dividend of 50 cents a share on the past year's operations.

The Leary sawmill at Nakusp has commenced operations, and will have a cut lasting three weeks.

The board of trade is asking Kaslo to spend about $12.000 to get new town water supply from Kemp Creek.

The big sawmill plant of the B.C. Spruce Company at Lumberton is expected to commence sawing this week.

The News hears that at least one of Nakusp's new beer parlors will have a section specially for lady customers.

Penticton council has just amended its dog by-law which requires that all dogs be off the streets by 9 p.m.

A water shortage is already feared at Grand Forks, and restrictions have been placed on garden sprinkling.

The Observor is sore because only 40 people are willing to join up with the Salmon Arm public library at $1 per year.

At Cranbrook the vendor reports a 25 per cent. increase in business since May 1st, when liquor prices were reduced.

Penticton trustees refuse this year to restore any part of the 20 per cent. cut made in teachers salaries a couple of years ago.

All pupils must be vaccinated or present certificates of objection before being admitted to Armstrong's schools next September.

The News says shippers through Vernon Fruit Union received 39 cents nett per box on McIntosh Reds. Romes brought 47 cents a box.

By using an amplifier placed in the pavilion at the park gramaphone records were used to good advantage to supply band music for the 24th of May celebration at Vimy park, Kasio.

Vernon creamery is this month making the 14-pound bricks of butter to be shown at western Canadian exhibitions this summer.

Now Kaslo council is operating the tennis court a charge of 25 cents a game is made. A season ticket, however, may be had at $1.50.

The annual statement of the Penticton Co.-Op. Fruit Growers shows the firm handled a 1934 apricot crop twice as big as the average year.

With practically no crop in sight the Penticton Herald predicts the prices on peaches, apircots and even cherries will be high this year.

Kaslo merchants complain the council is too Scotch. The coat of oil put on Main street to cure the dust nuisance is about 50 per cent too little.

40 of Cranbrook's married men on relief will be given employment on the Big Bend road construction this year. Fernie will be asked to supply 80.

150 families at Salmon Arm have signed up to take hospital treatment at the rate of $1 a month. Kamloops has sold almost 1500 such contracts.

In 1934 Okanagan apple crop Rome Beayuts showed the greatest per centage of shrinkage amounting to 12½ per cent. McIntosh showed but 1.72.

The Courier states that the cold backward spring has taken the lives of more than the usual number of young foxes on the three fur farmers near that town.

Bonners Ferry will this month make the last payment on an $85.000 loan the council secured 14 years ago to buy the plant that supplies the town with electric light.

ELEPHANT BRAND FERTILIZERS

Power to grow

To Keep Lawns and Pastures Green

—apply ammonium sulphate every 4 to 6 weeks, 4 lbs. to 1000 sq. ft. when grass is dry, then water if possible.

GARDN AND FI LD CROPS

For crops growing in rows use Complete Fertilizer, Ammonium Phosphate or Ammonium Sulphate as a side dressing alongside the crop row on each side, one to two pounds per 50 feet row. Then cultivate fertilizer into the soil. Apply fertilizers to the soil, not on leaves or stems

EL HANT BRAND

Ammonium Phosphates, Ammonium Snlphate
Superphosphates and Complete Fertilizers

Supply all essential plant foods and can be obtained in hundred-pound sacks from all good dealers at reasonable prices. Manufactured by

The Consolidated Mining & Smelting Co. of Canada, Ltd.

TRAIL, British Columbia

USE ELEPHANT BRAND FERTILIZERS ALL THROUGH THE SEASON.

Plan Dominion Day Celebration

Knights of Pythias Lodge Again Sponsors Day and Committees Drafting Plans –Parade, Races, Water Sports, Dance.

The band's engaged, live committees have been struck and are already busy, and an order placed for ideal weather for July 1st and everything points to the Knights of Pythias Lodge providing a a Dominion Day celebration that will be just a little too good for anyone to miss.

Special effort will be made to have the best ever parade for which attractive prizes will be offered for costumes, decorated cars and bicycles, floats, etc. This will be the opening feature of the d y's activities and will be launched at 12 noon. The band will head the procession and will play throughout the day at the grounds.

There will be a full line of children's races and sports, including events at the swimming pool and it is hoped to be able to provide each youngster on the grounds with a free ice cream cones, as well as a hot dog later in the afternoon.

The entertainment committee is hoping to have something new in the line o holiday entertainment to present at intervals during the afternoon in Park pavilion, and W. J. Craig, who is at the head of this committee will be glad to have bright ideas from anyone in the way of indoor features.

Softball and baseball games will be staged during the afternoon. The former. is going particularly strong this year and there will be considerable district rivalry. The midway will be operated as usual and those who like to play the wheels will have considerable variety on which to risk their cash.

The Pythian Sisters will take charge of the refreshment booths and will also serve the lunch at the dance in the Pavilion in the evening, which will be the closing feature of a very busy day of entertainment for young and old alike.

Local and Personal

FOR RENT—Furnished house, six rooms. Mrs. E. J Strong, Creston.

Three truck loads of boys in the CCC camp near Naples, Idaho, were visitors at Creston on Sunday.

Murdoch McLeod, Registered Optometrist, will be at Fred Klingensmith's, Creston, at 3 p m., Saturday, June 15th.

Geo. Seymour an oldtime and well known resident of West Creston, is undergoing treatment at Creston hospital.

West Kootenay Central Farmers' Institute have been invited to have their 1936 convention at Creston, and will likely accept.

The Knights of Pythias committees are now at work on the programe of events for the Dominion Day celebration at Creston July 1st.

Mr. and Mrs. Verne Cook are Lethbridge, Alberta, visitors this week, for the marriage of the latter's sister, which takes place on Friday.

Mr. and Mrs. Albert Davies were weekend visitors with the former's sister, Miss Elsie Davies, at Fernie. A. E. Davies, sr., accompanied them.

A fast nine selected from the workers in the CCC camp at Porthill will play the Intermediates at Exhibition Park on Sunday afternoon, at 2.30.

Dr. G. G. McKenzie was a visitor at Calgary, Alberta, early in the week, for the annal convention of the Western Canada Dental Association.

Geo. Nichols, west C.P.R. section foreman, who has been off work for three months due to illness, resumed charge of the crew at the first of the month.

The feature to the weather of the past week is the number of windy days. Wednesday afternoon a heavy gale blew out of the south. Rain is still badly needed.

R. H. Hassard, deputy mining recorder, had a real busy day on Saturday. All free miners' licenses expired on May 31st, and on June 1st 34 of these were renewed.

There will be no Wednesday night show at the Grand next week On Friday and Saturday, 14th and 15th, George Arliss will be seen in the "House of Rothschild."

Mrs. Brake of Victoria, was favored with quite good audiences at her two lectures under British Isreal Association auspices on Wednesday and Thursday evenings last.

Mr and Mrs. R. B. McKay of Corbin arrived on Saturday on a visit with the latter's parents, Mr. and Mrs. H. Christie. Mr. McKay is still suffering from the effects of injuries received while on duty as provincial police officer at Corbin during the strikers' riot in that town in April.

CARD OF THANKS

Mrs. Wickholm and famiiy wish to express their very deep appreciation of the helpful sympathy and so many kindnesses shown them in their recent bereavement, and are especially grateful for the many remembrances so beautifully expressed with flowers.

Mr. and Mrs. W. Piper and three children of Adams, Oregon, arrived on Friday to join Mr. Piper, who is one of the operators at the north end of the Reclamation farm.

Mr. and Mrs Alf. Speaker and young son, of Penticton, were visitors at the weekend with her parents, Mr. and Mrs. H. Christie. They were accompanied by Ollie Christie, who is also working in Penticton.

The provincial president of the Presbyterian W M.S. will be in Creston, Friday, June 14th. There will be a meeting to meet her and hear a report of the general council of the W.M.S. of the east. The meeting will be at Mrs. W. K. Brown's, at 3 p.m. All members, Home Helpers and those of the congregation interested are asked to attend.

Ted. More, who has been ledgerkeeper at the Bank of Commerce for the past two years, has received word of his transfer to Trail for which town he leaves this week. He has been an exceptionally capable and obliging member of the bank staff as well as active at badminton and tennis, and will be missed by quite a wide circle of friends.

In connection with the King's Jubilee last month the federal authorities are showing appreciation of services rendered by employees who have been in the service more than 25 years. Amongst those remembered is Postmaster W. H. Crawford who, on Thursday last, received a silver medal suitably inscribed and accompanied by a suitable letter of appreciation. Mr. Crawford has been in charge of the local poftoffice since 1900.

There was an unusually good attendance at the monthly meeting of Creston Valley Post, Canadian Legion which was held in the Mallandaine hall Tuesday evening, with president John Bird in the chair. The president reported on the renovation work carried out at the new Legion hall, and announced that this would be completed within a few days. Plans for a social evening to mark the opening were discussed. Two applications for membership were received. Charles Moore was appointed convenor of the social committee, in place of Ed. Gardiner resigned. William Ferguson's report showed expenses met on the boxing bouts held on the King's Birthday and was accorded a hearty vote of thanks for the trouble he took to make the affair a success.

WORLD HAPPENINGS BRIEFLY TOLD

Two more Roman Catholic monks have been arrested in Germany charged with smuggling money to the Netherlands, it was announced.

Well-informed quarters said the British government was considering the possibility of holding a seven-power naval conference before the end of this year.

Concluding one of the most successful years in its history, the Canadian Club of New York re-elected Ernest W. Appleby president for a second term.

Deaths in Ceylon's malaria epidemic totalled 82,637 since last November, it was revealed with publication of figures showing 15,933 malaria deaths during April.

L. R. Cordeau, chairman of the Quebec liquor commission, announced that restaurants henceforth will be allowed to sell beer and wine with meals on holidays and Sundays.

James W. Blake, the man who wrote the "Sidewalks of New York," died recently in St. Vincent's hospital, New York. Blake, 72, died penniless. He never received royalties for the song.

Destined for service as a news-gatherer, with the entire Japanese empire as its "beat," a powerful monoplane has gone to Osaka, Japan, on the Tokai Maru. It is the property of the Osaka Mainichi, Japanese newspaper.

Minister of the Interior T. G. Murphy told the House of Commons that $225,000 will be spent this year on the Jasper-Lake Louise highway in Alberta. The money will be provided in the $33,000,000 construction bill.

The Canadian Pacific Railway has placed an order for 7,000 tons of rails with the Dominion Steel and Coal Corporation to be rolled at the Sydney plant, it was learned. The plant is now working on a South African order.

Pioneers In Cocoa Business

Founders Of Three English Firms Were All Quakers

The Port o' London Monthly, which records the export and import trade of the British Empire, digressed from the shippnig business in a recent month to relate the rise of three Quaker firms who loom large in the cocoa trade, shipping to all parts of the world. The Editor relates how "after a time the manufacture and sale of cocoa and chocolate in this country were embarked upon by several families of the religious denomination of Quakers. The Frys in the west of England, the Cadburys in the Midlands, and the Rowntrees in York—all belonging to the Society of Friends—were pioneers whose names are all now writ large in chocolate all over the earth. Each of the businesses, beginning in modest style, has now expanded to a size and repute which makes this trio of names known everywhere."

Retains Its Freshness

Freezing Is New Process To Keep Sweet Corn

Government agricultural experts have found that sweet corn frozen within four hours after it has been picked retains its original freshness from six months to a year. Freezing stops most of the changes which normally occur rapidly in corn. In the experiments gathering, grading, husking, scalding and cooling for freezing were all completed as rapidly as possible. The scalding, it is believed, temporarily stops the chemical action taking place in the corn and the freezing permanently stops the action so that if served six months later its original freshness is retained.

A judicious use of flowers is urged by the Quebec Tourist Bureau to make rural hotels even more attractive, since there is nothing so restful as beds of flowers in front of and around buildings in both town and country.

Don't think the man who makes the longest prayer in public can always get the longest credit.

Have No Individuality

Ants Work As Their Forbears Did 50,000,000 Years Ago

Lord love us, who would be an ant? True, ants do not suffer from unemployment. When you move a stone, there they are, all rushing about and very busy, and all doing exactly what their forbears did 50,000,000 years ago. At least, Professor Dymond, of Ontario Royal Museum, says so. He shows that all the ants have an heredity occupation, one being a soldier, another a servant, and so on. No social changes ever take place, no reforms. The ant population have no new ideas about government, war, business, family, pleasure, or anything else. Custom rules everything with them. The ant goes on toiling not because he is a thinking, intelligent, characterful citizen, but because he has never developed the power of individuality. So he still lives in a mound, or under a stone.—London Daily Express.

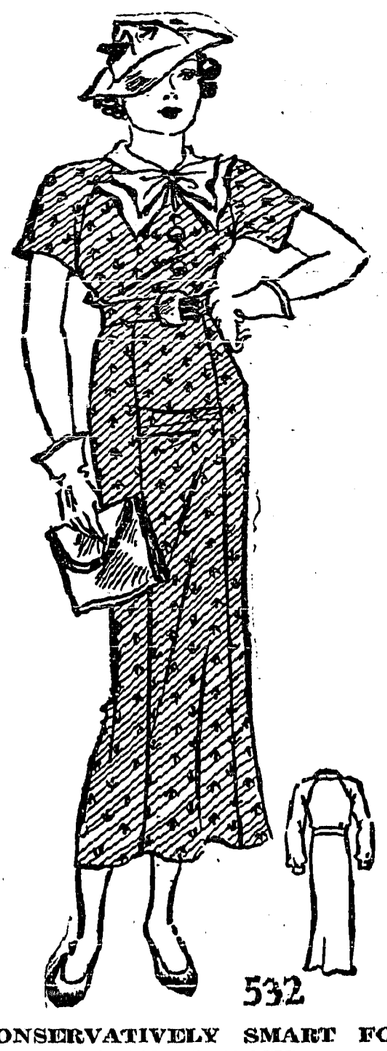
Peanuts Worth Money

Error Might Have Been Costly, But Man Was Honest

The thrill of an impending christening fresh upon him, Louis De Costerio, roadhouse waiter, rushed into a candy store in North Attleboro, Mass., and ordered 25 cents worth of peanuts.

At home, he put his hand into the bag and pulled out $750 in bills. The clerk had given him a bag containing the day's receipts. De Costerio went back and exchanged the $750 for 25 cents worth of peanuts.

FASHION FANCIES



CONSERVATIVELY SMART FOR SUMMER DAYS

By Ellen Worth

For office, tea party or trip to town.

Here's one of those useful little type dresses that are dear to the hearts of the business woman.

It's a dress that does for luncheon at a smart restaurant, or for dinner in town.

It's made of exquisitely lovely sheer crepe shadowy print in pale to copenhagen blue tones. The collar and bow are of crisp white organdie.

You'll find it very simple to sew with its easily fitted raglan sleeves.

Style No. 532 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inches bust. Size 16 requires 3⅛ yards of 39-inch material with ⅝ yard of 35-inch contrasting.

Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very stimulating fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-homes. Many delightful little models for the smaller members of the family. Of course, patterns are obtainable for the designs illustrated. Send for your copy to-day, the price is 20 cents.

When Shadows Fall

By WILL R. BIRD

There never has been a more dreadful horror on this earth than that which we call the "the Great War". There may have been more cruel slaughters in the centuries before civilization; but never since Christianity and culture became dominant. And there never have been more glorious hours than some of those we lived "over there". Horror—sure! Glory—sure!

It was an evening in late May. We had come from the trenches in front of Avion and were due for a "rest" somewhere. We had come to the sheltered side of Vimy and the companies were supposed to be quartered in the tunnels. But who could go down in those clammy shafts if it were possible to sleep in a snug bivvy you and your side kick had pushed together in a pocket of ground where the grass has grown lush and still held the heat of the sun? We had "salvaged" a sheet of the corrugated, and a few sandbags made the sides, and there we could lie and gaze at the stars until sleep overcame us, for the corrugated was only in case of rain.

We had rested all the day, with nothing to do but clean ourselves a bit and eat. The cooks had been kind, and there was mail from home—Canadian mail. In the soft evening air voices seemed to grow musical. Someone up the slope had a banjo and there was a soldiers' harmony of popular songs, earnest voices if not well trained. Away in front of us the towers of Mount St. Eloi were like sentrys in the dusk. Now and then a light twinkled in the village. There were horse lines everywhere.

All was stir as the dusk thickened, and transport was on the move away back. We didn't have to do a thing but yield ourselves to delightful langour. Jimmy read bits from his letter. Some of the boys back in his home town hadn't enlisted, and his poor old mother, with three boys at the front, was a trifle bitter. We got to thinking of what she had written.

A lad we both knew appeared suddenly. He belonged to the good old 49th, and we were glad to see he had got through the Vimy show. We talked rapidly for a few moments, then all three of us stilled. Away over near Villers au Bois some infantry were in camp and all at once a bugle blew "Last Post". As the haunting sweetness of that call came over the land it seemed to put a spell upon us. Spring had come. There were flowers where there had been blasted earth and they hid the wreckage of old trenches. We were out for rest. We had come through. The voices from Canada were with us, for we had read the 49th lad parts of our letters. And something about it all made us suddenly too choked for speech, made us thrill with a pride at being there, and for that moment the glory of being fighting men swelled our hearts.

Then we rose and led our friend across the way to where some of thirteen platoon had made sleeping places, and we had decorated them with German signs that Jimmy had been carrying with him for two weeks. One read "Vieh", and the other "Pferde". The boys thought it grand to have such adornments and were waiting patiently until their stretcher bearer joined them to find out the meaning of the words, and we chuckled together as we explained. The first was "cattle" and the second "horses" and what a time there would be when those lads knew.

We walked back a distance with the Forty-niner, just walked without talking. The night was too fragrant with the falling dew and scent of flower and strong grass, too soothing with the murmur of voices, for us to talk. Then "So long, Joe". "So long, boys".

Back at our bivvy Jimmy and I sat for hours, just drinking in the night, the sounds about us, the guns firing on the Somme, the faint far-away rattle of machine gun fire, traffic, drowsy voices. Never, as long as I live, will I forget that night. It seemed to hold us, enthrall us.

I wonder where Jimmy is now, if he remembers. It's a long time since that night, but old Vimy is still there. Supposing he's there, trying to find that very little hollow—as I'm going to do—when we go back, next summer!

Are Real Benefactors

The Mitsui family, one of the richest in Japan, has ordered five grammes of radium from the Belgian Congo at a cost of 1,000,000 yen. Four grammes will be placed at the disposal of the Cancer Institute and the other given to the Physical Research Institute.

Dry rot is a name for the decay of timber after it has been seasoned. Dry rot is usually slow in action.

Flattery is a key that has opened many a feminine heart. 2101

SUNDAY SCHOOL LESSON

JUNE 9

THE HOLY SPIRIT

Golden text: As many as are led by the Spirit of God, these are sons of God. Romans 8:14.

Devotional Reading: John 14:25-31.

Explanations And Comments

What the Comforter Will Do, John 16:7-11. Unless he went away, Jesus told his disciples in his farewell talk, the Comforter would not come, but if he went he would send the Comforter to them. The world Comforter, used for the Holy Spirit, means One who strengthens, upholds, rather than One who consoles. Advocate, Helper, are other translations of the Greek word given in the Bible footnotes.

It was best for his followers that he should leave them, Jesus said. How could it be for their advantage, to their best interest, to lose the daily companionship of their Lord? The Holy Spirit is the continued Presence of Christ himself. The Spirit revealed Christ to them, made plain the spiritual truth of his teachings. They knew Christ better after he had left them. While he was with them they were weak, unable to walk alone. After he went away, leaving them as his witnesses to carry on his work, they became towers of strength, great leaders, who continued all that Christ had begun to do and teach.

When the Holy Spirit has come, he will convince men of sin, that it is a sin not to believe on Christ; of righteousness, because Christ was going to the Father. "The Holy Spirit will convince mankind that Christ is a sincere and righteous Teacher, and not, as they had thought, an impostor, as will be clearly demonstrated when the Father has raised him from the dead and set him at his right hand in heaven" (Dummelow). The Spirit will convince of judgment, of condemnation, because the prince of this world hath been judged. "Did not sin in Caiaphas, in the rulers, in Pilate, in the soldiers, in the multitude, uncoil itself as if by an irresistible compulsion, and at last exhibit its whole terrible length? We say sin was exposed on that day—'judged,' said Christ; 'the prince of this world has been judged'; not punished, but exposed and condemned, judged as a prisoner in court is judged when he is found guilty and sentenced as a criminal, even before the hand of the law takes him from the bar" (Thomas E. Bartlett).

Recipes For This Week

(By Betty Barclay)

OLD FASHIONED STRAWBERRY SHORTCAKE

- 2 cups flour
- ½ teaspoon salt
- 2 tablespoons sugar
- 4 teaspoons baking powder
- 3 tablespoons shortening
- ¾ cup milk
- 1 quart berries

Sift dry ingredients; mix in shortening; add milk to make soft dough; smooth out lightly. Bake in greased deep layer cake tin in hot oven at 475 degrees F. for 20 to 25 minutes. Split, butter and spread sweetened crushed berries or other fruit between layers.

KEDGEREE (A Breakfast Dish)

- 2 cups cooked fish, fresh or canned
- 4 tablespoons butter
- 1 cup cooked rice
- Salt and pepper
- 2 hard-cooked eggs

Free the fish from skin and bone. Melt butter in a saucepan, add the fish and stir gently. Put in the rice, the whites of the hard-cooked eggs, and season to taste with salt and pepper. Move gently about over the fire until thoroughly hot, and serve on a flat dish with the yolks of the eggs, pressed through a ricer, over the top.

Reason Soap Will Float

Any soap can be made to float by manufacturing it by a process that presses air ducts into the bar, says Popular Mechanics. These ducts also speed up curing, permitting the soap to dry out from the outside. So small are the ducts that they retain air, preventing water from entering. This results in floating. The old method was to beat air into the soap before it was shaped into bars. This madet he soap porous, since it was filled with minute air cells.

A male stenographer wouldn't quit a $25 job to wash dishes for nothing.

Little Journeys In Science

FLUORINE

(By Gordon H. Guest, M.A.)

All chemical elements may be arranged in families, the members of which are closely related. Fluorine, chlorine, bromine, and iodine make up a remarkable family of non-metallic elements. The group as a whole is often called the halogens, which means producers of sea salt. They were given this name by scientists because compounds of these elements are found in sea-water. These elements have a very strong tendency to combine with metals and with hydrogen to form compounds known respectively as fluorides, bromides, and iodides, which are often called the halides. Some of the halides, such as sodium chloride (common salt), potassium chloride, and silver bromide, are of great commercial importance.

Fluorine occurs abundantly in the minerals fluorspar and cryolite. Traces of fluorine compounds are found in the bones and enamel of teeth, and small quantities have been detected in the blood, milk, and brains of animals.

Fluorine is the most active element known, and was not prepared until 1886. This difficult task was accomplished by a brilliant French scientist, Moisson, who also produced diamonds from pure charcoal. He obtained the element by the electrolysis of a fluorine compound in an apparatus constructed of platinum. Fluorine was given off at the positive electrode.

Fluorine is a pale greenish-yellow gas which may be condensed to a pale yellow liquid. It combines explosively with hydrogen, even in the dark. Many other elements, such as sulphur, phosphorus and carbon, catch fire spontaneously in fluorine, and most metals burn in it. It is interesting to know that fluorine and oxygen do not interact.

One of the most useful compounds of fluorine is hydrofluoric acid. This acid attacks glass, and hence must be kept in bottles made of guttapercha or ceresin, a sort of hard mineral substance. It is used for etching glass. For etching, the glass is covered with a film of wax, and the design to be etched on the glass is drawn on the waxed surface with a stylus. This acid is then applied to the surface and in a short time the glass is etched. The wax is then removed with turpentine.

Greenwich Clock Being Overhauled By Experts

Has Been Stopped For First Time In Over Eight Years

The clock which gives the world Greenwich Mean Time has been stopped for the first time in eight and a half years.

Its 268,000,000 ticks, one to a second, may have impaired its working slightly, so the officials at Greenwich Observatory have decided to have it overhauled.

"The clock is one of a series of four used for astronomical observations," an official of the observatory said. "It has established a record for the number of years it has run without stopping. Highly skilled workmen will undertake the delicate task of overhauling it. In the meantime, we shall give time signals by the three other clocks. They are all "master" clocks driven by electricity."

A Colorful Memorial

Man Builds Wonderful Garden In Memory Of Son

Gideon Price, sixty-eight years old, of Lattimore, N.C.—the "tulip king" of the world, with a garden of 100,000 tulips—has built up his garden as a memorial to his son who died overseas during the World War. Only Price has worked in the garden. The plots, giant color combinations that an artist would conceive, are all his. Last year he left only 5,000 tulips in the ground. He has set out at least 95,000 this year. For fear that he might run out of work this summer, Price had about 15,000 gladioli to set out. And there are hundreds of lilies and amaryllis bulbs.

Origin Of Old Term

Ancient sailors believed that the halcyon, a bird of the kingfisher family, nested on the waves about the time of the winter solstice, and that the sea remained calm and peaceful during this period; hence the term "halcyon days" for times of peace and tranquility.

Paris plans a new intellectual centre called the International City of Thought and the Arts.

ALL FOOD MADE HER ILL

Caused by Acidity — Corrected by Kruschen

"It is only fair to pass these facts on," writes a nurse. "I was suffering from over-acidity and flatulence to such an extent that I was completely ill. I couldn't take food. When I actually forced myself to take something, I would be wretchedly ill. I have now taken Kruschen for 12 months, and I have no doubt that it has righted my digestive system. I am now quite fit and able to work with vigor again."—Nurse E. S.

Indigestion is caused by a failure in the flow of the gastric or digestive juices. As a result, your food, instead of being assimilated by your system, simply collects and ferments inside you, producing harmful acid poisons. The immediate effect of the six mineral salts in Kruschen is to promote the healthy flow of the vital juices of the body. As you continue with the "little daily dose," it ensures the regular and complete elimination of all waste matter every day. And that means a complete end to indigestion.

MISS ALADDIN

—By—

Christine Whiting Parmenter

Author Of
"One Wide River To Cross"
"The Unknown Port", Etc.

SYNOPSIS

Nancy Nelson is a sub-deb, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions.

Now Go On With The Story

CHAPTER III.—Continued

There were also plans to make for Aunt Judy, who was to sail in a fortnight. The air was filled with a subtle confusion and unrest. And then one late afternoon, returning from a tea to which her mother had urged the girl to go, Nancy spied a telegram on the hall table. It was addressed to Jack, but she grasped the envelope eagerly, her heart pounding as she tore it open. A dim hope that Cousin Columbine would wet-blanket the whole idea, swept through her, but the message, eccentric and to the point, read briefly:

YOUR LETTER SHOWS YOU TO BE A TRUE NELSON STOP CAN GET JOB ON RANCH THREE MILES FROM HERE STOP SORRY TO HEAR OF YOUR FATHER'S REVERSES STOP IF NOTIFIED WILL SEND CHECK TO COVER EXPENSE OF TRIP FOR BOTH OF YOU STOP ADVISE COME AS SOON AS POSSIBLE — COLUMBINE NELSON.

Nance read this twice, her hands gripping the paper tensely. She was still staring at what seemed an irrevocable sentence at hard labor, when her father entered the room so quietly that she had no chance to conceal the tell-tale yellow message. He asked, a touch of alarm in his voice: "What's happened?"

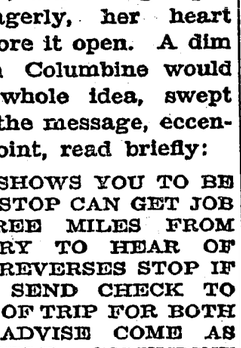
She glanced up, forcing a smile of reassurance.

"Nothing to worry about. It's a—a telegram for Jack. No bad news, Daddy."

"Let's see, daughter."

He stretched out a hand, but Nancy thrust the paper into her coat pocket.

WHEN YOUR DAUGHTER COMES TO WOMANHOOD



Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy wife and mother she will thank you.

Sold at all good drug stores.

Lydia E. Pinkham's Vegetable Compound

"No," she said, "you'll have to wait till Jack comes home and tells you. He took Aunt Judy over to the Spears' on some last errand."

She moved away, his eyes following her, puzzled.

"But who's it from, Nancy?"

The girl laughed.

"You're just as curious as an old woman, Dad; but I promised not to tell, and I'm not going to. You won't have long to wait. It's almost dinner time. Here's Aunt Louise."

She darted off before he could question any further, but as she reached her room a voice recalled her, and Jack, who had come in close on his aunt's heels, was up the stairs.

"Hi there! Dad says I've got a telegram. What luck?"

Nance held it out, watching him read it. The boy drew a deep breath of relief.

"Good! That's settled then."

"It's not if Dad objects, or—or Mother."

She couldn't keep the shamed hope out of her voice, and catching its meaning Jack said scornfully: "Don't be a slacker, Sis. Come down and see how they all react. Every one's there, even the kiddie. We'll take a vote. Buck up, Nance. It's a pity if you can't help out when all the rest of us are trying to."

That hurt. Nance turned away to hide the tears which sprang into her eyes. A slacker! Well, she'd show him! If only she wasn't so beastly scared at the idea. . . .

"Be down in a second," she said as her brother made an impatient gesture; and then added angrily: "And don't you call me any names before the others!"

"Oh, see here!" He followed her into the room, closing the door. "I didn't mean anything, Sis, honest. I was only afraid they'd see how much you hate to go, and put their feet down. Come on now. Let's get it over before dinner."

The family's rebellion was very nearly unanimous.

Said Dad: "If you must have jobs, both of you, surely we can find something nearer home."

Said Aunt Louise: "You're too young and impressionable, Jack, to spend six months or so in rough surroundings; and Nancy would die of boredom if of nothing worse. What put such a wild idea into your head?"

"He was only trying to help," defended Aunt Judy with her unswerving loyalty, "but Colorado is terribly far away, Jack. I'd worry my head off", while Phil, the ten-year-old, exclaimed excitedly:

"Gee! folks, I'd like to be a cowboy! Just think of quitting school and staying outdoors all day!"

And strangely, this innocent remark of her younger son was what stopped the protest on Margaret Nelson's lips. In a flash she remembered that not many months ago the family doctor had said of Jack: "If that boy were mine I'd let him forget school for a year or two and live outdoors. A job on a farm would be worth considerably more to him than a diploma."

Yet because Jack seemed reasonably well this good advice had not been taken very seriously. But now, looking up at the five-feet-eleven-inches of too-thin boyhood, those warning words came back, and to the complete surprise of everybody, Mother said: "It would be a splendid thing for Jack—an outdoor winter in a milder climate; but—"

"You're not implying," broke in her husband, "that you'd let those children go off there all by themselves?"

"Children!" This exasperated exclamation came from Jack. "I'll say if Nance is old enough to be launched in society with a big splurge, she's old enough to be away from home for a few months—with a relative too. As for me, Dad, you bet I'll have to do a man's work or lose the job. Why, I'll be eighteen on—well, on my next birthday."

Since his previous birthday was only six weeks back, this brought a laugh. Then Aunt Judy said: "And what does Nancy think of all these plans?"

The girl hesitated. All eyes had turned upon her; but glancing up she saw only her brother's, and responded gamely: "It would be something new, wouldn't it? And it couldn't be very much duller than Edgemere."

For Baby's Bath

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft, soothing oils in Baby's Own Soap make it specially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

"It's best for you and Baby too" 27-25

"But, Nancy!" protested her father in distress, "you'd be living with an old lady, one you've never seen and who we've reason to believe eccentric. And if she paid your fare you'd be in duty bound to stick it out a while, no matter what you found."

"But I'd be earning my living," she retorted, wondering why she was arguing on the wrong side, and what had got into her. Why, in fact, didn't she tell them the whole truth—that she was frightened stiff at the prospect—would almost rather die than spend a winter with Cousin Columbine, but was ashamed to admit it before Jack?

"Well," declared Aunt Louise, "it's the most extraordinary plan I ever heard of. And from Nancy! As I said before, what put such an idea into your heads?"

"Circumstances, of course," spoke up Aunt Judy. "They want to help through the hard sledding; and I think they're splendid. But how could we let you go so far from home, dears? You might be sick."

There followed a silence before Mother said: "I'm not in favor of this move—yet; but I'll have to admit that according to Doctor Strong Jack's more likely to be sick if he stays in school." She went on to tell them of the doctor's chance remark, and added: "I thought at the time that he was over cautious, Jack seemed so well; but the boy has grown appallingly, and I dare say life in the open air would build him up if he didn't have to work too hard."

Aunt Judith sank back and stared at her sister.

"I'd never have expected that—from you, Margaret. But if you ask me, Nancy will expire of loneliness in about one month. What will she do with no young friends to run around with, and Jack three miles off on a ranch?"

The boy laughed.

"You talk as if the population of Pine Ridge was made up of inhabitants over seventy, Aunt Judy! Didn't Cousin Columbine mention a postmaster's daughter? And of course there are others. Who knows but Nance will find her—her affinity or whatever they call it, out in the big wild West!"

"Affinity!" sniffed Aunt Louise. "Where did you pick up that nonsense? And it's far more probable that what she'll find is a devastating attack of homesickness, young man."

"Well," Jack retorted, "that's nothing fatal."

"It might as well be," observed his father. "I remember spending a summer at my grandmother's farm when I was twelve. I expected a real lark, but—homesick! Well, I warn you kids that homesickness is no light matter."

"I s'pose you'll be riding horseback all day long," spoke up the little brother enviously. "I wouldn't think of being homesick if I had a horse, Daddy. Will you wear a four-gallon hat, Jack? And leather chaps with fringe all down your legs like they do in the movies? Gee! I wish I was going too!"

"We don't know yet whether anybody's going sonny," returned his father. "Where's Cousin Columbine's letter, Margaret? Let's make sure what is expected of our Nance."

There ensued a fruitless search for the long epistle; but Mother said: "I remember those duties pretty well, Jim. Nance was to dust the 'mansion' every morning, get supper Thursdays, sew, read the paper aloud, get to bed by nine-thirty—"

"And abstain from the boy friend," chuckled Jack. "I admit that last is a big order—for Nance."

"A lot you know if you think I'd run around with those country pumpkins," replied his sister. "Would any fellows who could help themselves stay in a back-woods place like that? And I've no interest in the other sort, so Cousin Columbine needn't worry about those young men callers she mentioned. And you needn't either," Nance told her mother with a smile.

"I s'pose you'll see Pike's Peak," observed the small boy thoughtfully. "It rises fourteen thousand feet above the plains, and was sighted by Zebulon Pike in November 1806 when with fifteen soldiers he climbed to the summit of Cheyenne Mountain and—"

"You see," broke in Jack, grinning, "that's the boy who ought to go to Harvard! Imagine me reciting whole pages out of history, Dad! Why in—"

He stopped abruptly because the curtains at the door had parted and a maid announced: "Dinner is served, Mrs. Nelson. And," (she came forward, extending a silver tray on which was lying a yellow envelope), "here is another telegram for Mr. Jack."

CHAPTER IV.

Jack took the telegram, staring at it for a surprised moment. Then Phil cried out impatiently: "Why don't you read it? I bet you anything that Cousin Woodbine has changed her mind."

"Woodbine!" Jack shouted, while even Dad forgot his worries in amusement at the little boy's mistake. "The lady's name is Columbine, you crazy kid, and," (tearing open the envelope), "she says: 'ADVISE BRINGING PLENTY OF HEAVY UNDERWEAR AND FLANNEL NIGHTGOWNS FOR NANCY STOP NIGHTS AND EARLY MORNINGS APT TO BE COLD. COLUMBINE NELSON.'"

"I'd give a lot to see Nancy in a flannel nightgown," observed Phil dryly. "Mrs. Grant had one on the night I slept over at Tim's house, and she came in to give him some medicine. It made her look like an old lady. I bet Nance wouldn't be found dead in one, or Mother either. Come on. Let's eat."

Dad was still smiling as they moved towards the dining room; but once seated, he looked across at Mother and his eyes clouded. Both were thinking that this would be the last well-served dinner in the old home. Two maids were leaving next day; and only the cook was to remain until the city house was closed.

Remembering this fact, Aunt Judy had stopped at a florist's on her way home, and a dozen jonquils nodded gaily from the centre of the table. Aunt Louise, eyeing them with disapproval, started to say something about "foolish extravagance," and then held her tongue. After all, she thought with extraordinary tact, if Judy wanted to spend money for something perishable in these hard times, it was her own business.

So Judith Hale's "extravagance" (the last she was to indulge in for many months), remained uncensored, adding a note of cheer to that dinner table, as she meant it to; yet as the moments passed Mother kept thinking sadly of how soon they would all be scattered—separated. She, Dad, and the little boy at Edgemere — Judith in Europe — Louise alone in a city boarding house—Jack and Nancy. . . .

This last she refused to face just then, and said when Jack resumed the subject: "Oh, let's forget it, dear, while we eat dinner."

"But we've got to decide, Mother," he persisted with impatience. "I dare say Cousin Columbine's expecting a telegram to-night."

"Never mind," put in his father. "It won't hurt the old lady to wait for a message until tomorrow. But we'll decide the question this evening, Jack. I promise you. After all, it's as easy to face things now as later."

(To Be Continued)

1,000 PAIRS OF MONARCH DEBUTANTE SILK STOCKINGS free!

Go to your druggist or department store and buy RIT Dye (any color, 15c—2 for 25c). Use it. Then tell us in a statement of 50 words or less, why you prefer RIT—1,000 pairs of Monarch Debutante full-fashioned—shadow-free pure silk chiffon stockings—latest Spring shades—guaranteed $1.00 value—will be given as prizes to 1,000 entrants. There are dozens of reasons why you *will* prefer RIT. RIT comes in 33 basic brilliant colors, from which can be produced over 50 of the newest Paris shades.

FAST COLORS WITHOUT BOILING!
Only RIT offers this advantage! RIT is the modern tint or dye—easier and surer—far superior to ordinary "surface dyes" because it contains a patented ingredient that makes the color *soak in deeper*, set faster and last longer. Sold everywhere.

HOW TO WIN

1. Write a short statement (under 50 words) on why you prefer RIT Dyes and send it together with an empty RIT package (or reasonable facsimile) and your name and address, to John A. Huston Co. Ltd., 42 Caledonia Rd., Toronto.
2. Send as many as you wish; contest closes midnight June 29, 1935.
3. 1,000 prizes will be awarded on the decision of the judges, which will be final. Whether you win a pair of silk stockings or not, we will mail to all entrants free of charge, our famous booklet—"The A.B.C. of Home Rug Making".

NOT A SOAP! TINTS and DYES Rit is a convenient *scored* wafer, easier to measure; won't sift out of the package.

Nine out of every ten heavy trucks in Germany are fitted with Diesel engines. 2101
