THE CRESTON REVIEW

VOL XX. CRESTON, B. C., FRIDAY, FEBRUARY 8, 1929 No. 49

Erickson

G. Hoekstra, the Heintzman piano tuner of Nelson, was here on a professional visit this week.

Miss Dora Healy returned to Creston on Sunday to continue her high school studies.

While sledding on the Erickson hill on Friday Sidney Scott received injuries to his wrist that necessitated the attendance of Dr. Henderson.

The pupils of Miss Reid's room at Erickson school had a holiday on Monday, the teacher being on the sick list.

Alf. Speaker has recently moved his shop from the school corner to the lot opposite Erickson Battery Service Station, and intends to open a garage business.

Erickson is putting up a big summer supply of ice, which they are getting from Goat River. The ice is from 20 to 22 inches thick.

Miss Annie Drexler, who has been a patient in Cranbrook hospital is making good progress toward recovery.

Miss Ethel Brownrigg of Yahk was a visitor at the weekend, with Mr. and Mrs. Ed. Martin.

Erickson Ladies' Auxilary of Christ Church have decided on the first Tuesday in each month for their regular meeting. They are having a Valentine tea and sale of cooking at Mrs. Hall's on the 12th.

Mrs. R. M. Reid, who has been a guest of Mrs. Bundy, left for her home in Macleod, Alberta, last week.

Kimberley Press: Frank Staples was up from Creston on Wednesday taking in the big boxing tournament at McDougall Hall. He mas pulling for Eddie Bush, who is a Creston boy, and was quite pleased with the manner in which Bush handled himself in the latter rounds, after having all the worst of the battle in the openers.

Alice Siding

W. H. Hilton left at the end of the week for Calgary, Alberta, due to the serious illness of Mrs. Hilton in that city.

Miss Ivan Comptou, who has been in the Associated Growers' at Nelson for the past eight months, returned home at the end of the week.

Mrs. E. W. Payne was a visitor at Cranbrook, Thursday last, attending McGonegal—Senesael wedding.

While the sleighing is good John and Bob Miller are on the Dick Smith log haul to Rodgers mill. Dick has a cut of about 50,000 feet.

At whist club weekly meeting at the home of Mr. and Mrs. Carr on Friday night the high scores were made by Mrs. Willis and J. Brubacher.

Messrs. Sutcliffe, Carr and Hood are busy stocking up Creston residents with a 1929 ice supply. They are cutting in the slough at Hood's, and have likely looking ice 18 inches thick.

J. C. Martin is operating a power woodsawing machine and has Bob Marshall in charge of delivery to town customers. Frank Simister and Hector Stewart are putting up fuel on the Tom Anderson place.

C. S. Hester and J. Brubacher are working in Creston this winter—at the C. O. Rodgers sawmill. Tom Andersan and E. Constable are on the electric light and telephone line construction crew.

Due to illness Harry Compton has been forced to take a vacation from his work as assistant C.P.R. agent at Kimberley, and is at present on the sick list at his home here.

Post making is receiving considerable attention from Alice Siding residents this winter Messrs. Willis and H. Taylor have a contract and are operating in the timber on the latter's place. Jeff. Collis has just completed a similar contract with the Winlaw firm. Bert Tooze and Harry Webster have a contract to haul 10,000 ties for the Winlaw Company.

A large company of young people dropped in on Friday night to help Mrs. E. W. Payne fittingly celebrate the twentieth anniversary of her weding, remembering the hostess with very attracnive gifts. Misses Eileen Hendy and Athena Schade, piano; C. Cotterill, saxaphone and Bob Marshall drums, supplied the music for the dance, which was the feature of the evening.

Rural mail delivery was inaugurated on Friday afternoon last with Fred Waylett handling the auto truck on the initial trip. Due to having to shovel out the road in spots the first trip took about two hours, but in good travelling it will be made in an hour. Due to some not having officially notified the postmaster at Creston to send out their mail, the delivery was light, but the delivery on Tuesday took care of all who have erected their boxes.

Sirdar

Mr. and Mrs. L. Walthers and children returned on Thursday from Long Beach, Calif., where they had spent the month. They state the weather was ideal, and no wonder they call it "Sunny California."—Yahk news in Cranbrook Courier.

Miss Hanson of Creston is a Sirdar visitor, the guest of Mrs, Bleumenauer.

Mrs. Martin was calling on Creston friends on Monday.

We are pleased to hear that Miss Lucy Pascuzzo is progressing favorably. She is a patient at Cranbrook hospital.

Mr. and Mrs. Caruso returned to their home at Micel at the end of the week, after a short visit in Sirdar.

Geo. Cam, who has been on the sick list for some days, resumed work on Monday.

The zero weather of the past two weeks has put the water supply for domestic purposes out of commission. Pretty nearly every household now packs its water supply in pails.

Sirdar railway yards present a very busy scene these days. With much of the main line freight coming over the Crow line, extra crews are employed both day and night.

Wynndel

Irving Davis, who has been working at Slocan, arrived home last week.

The baseball club had a meeting one night last week, and voted a donation to be given the community chair fund.

Mrs. R. Andestad was a hostess at a whist party at her home last week. The high score prizes went to Mrs. Hackett and Ed. Hulme. Consolation prizes came to Mrs. Dalbom and Percy Cockle.

The community chairs have arrived, and have been fitted, and are now in place.

The hard times dance on Saturday night was quite a success. The prizes for the "best" costumes went to Mrs. Murgatroyd and Mrs. M. Hagen, Carl Carlson and Douglas Butterfield.

Howard Slingsby returned from the prairie last week.

Mrs. Williams left on Monday for Blairmore, Alberta, for a couple of weeks' visit with relatives.

Mrs. Pedersen and daughter left on Monday for M. Wigen's camp near Porthill.

Mrs. Vankoughnet, who has been in charge of cooking at the Hickey camp at Washout, returned home, Sunday.

Meeting of W.A. will be held on Wednesday, February 13th, at the home of Mrs. Towson.

Mr. Wittman left on Tuesday for Cranbrook for medical attention on an injury to one of his feet, sustained last week when he fell off a pile of ties.

Mrs. C. Leamy of Creston is a visitor with her parents, Mr. and Mrs. Wittman at present.

Mrs. Jas. Wood of Wynndel spent a few days the fore part of the week in town, a guest of her daughter, Mrs. Pat. Downey.

Lister

H. M. Parker, principal of Yahk public school, was a weekend visitor with Lister friends, a guest at the home of Col. Lister.

Fred Powers and Harold Langston, who have been at Boswel on the Kuskanook-Gray Creek road crew since the first of the year, arrived home on Saturday. As soon as additional money is available work will be resumed.

Due to the severity of the weather the United Church concert scheduled for Friday night last had to be postponed.

Canyon was unusuall welly represented at a well attended dance at the schoolhouse on Saturday night under Community Society auspices. First class music was supplied by Mrs. Lister.

Rev. A. Garlick was favored with a fine turnout for the monthly Anglican Church service on Sunday morning.

The severest weather this district has ever known is reported for Saturday evening and Sunday moaning, January 26-27, when two thermometers at least a mile apart showed it 30 below zero shortly after midnight.

Sam Lazachuk and Bill Demchuk are in partnership in a log cutting contract for Monrad Wigen who is operating a mill near Rykert's this winter.

John Huscroft and Haray Helme have shifted their tie mill into the L.S.D. timber near the mountain and will be sawing in a few days.

Col. Fred Lister, M.P.P., is in for a busy time during the legislative session. His name figures on the standing committees on mining, forestry and agriculture. The colonel is named secretary of the latter committee.

Local and Personal

A. E. Davies, general road foreman, is a visitor in Nelson this week.

Mrs. Green of Cranbrook was here for the weekend, a guest of Mrs. C. B. Twigg.

M. J. Beninger was a business visitor at Nelson a few days the fore part of the week.

J. H. Richardson of Kimberly was a visifor at his home here a few days last week.

Mrs. W. S. McAlpine was a visitor with Nelson friends for a few days at the end of the week.

Due to a shortage of space the January report of Creston public school is held over till next week.

FOR SALE——Quantity of green oats. Also some good cow feed. For prices phone Geo. Davie, Canyon.

HAY FOR SALE—About 10 tons mixed alfalfa and grass, $14 ton at the barn. Albert Stewart, Creston.

Mrs. Barker (nee Marion Tattersall) of Calgary, Alberta, was here for the weekend, a guest of Mr. and Mrs. F. H. Jackson.

Valentine tea at Mrs. J. Hall's, on Tuesday, February 12th, under the auspices of Erickson Ladies' Guild. Sale of home cooking.

Crawford Irving, who has been in the east for past two years has returned and is on an extended with his parents Mr. and Mrs. H. J. Irving.

The Presbyterian Ladies' Aid are having a Valentine silver tea at the home of Mrs. Henderson, Saturday, February 16th, 3 to 5.30 p m.

The final game for the cup donated by the Imperial Bank was played at the curling rink on Wednesday night, when the silverware went to the Boyd rink, skipped by C. B. Twigg, who won by 14 to 3 from the Bundy rink, with R. M. Telford in charge.

The sub zero weather that abtained the last 10 days of January eased off at the end of last week, with Monday morning temperature recorded at 11 above zero, and 4 above reported for Tuesday a.m. Wednesday it was back again to 8 below, and 9 below was recorded on Thursday.

Just as we go to press this (Thursday) afternoon word comes of a very quiet wedding at Trinity United Church manse on Wednesday, when Victor Mawson and Miss Ethel Brownrigg of Yahk were united in marriage by Rev. R. E. Cribb, and are spending the honeymoon in Spokane. We hope to have full particulars next week.

The spring meeting of Presbyterian Kootenay-Boundary presbytery was held at Creston this week, opening on Tuesday afteroon, and continuing through till Wednesday afternoon. Ministers and elders were present from New Denver, Grand Forks, Nelson and Kimberley, while the congregation at Cranbrook was represented by A. A. McKinnon.

A number of the local Scotch celebrated Burns' night, January 25th, in a conference at which it was decided to at once form a Burns' Club, and W. Fraser was named president, with C. W. Allan secretary-treasurer. A constitution and bylaws for the new organization are bring drafted and very shortly announcement will be made as to procedure to gain admission.

Residents who can recall the days of Creston when George Munro was mine host at the King George Hotel, will be interested to know that George Winters, who at that time made his headquarters at the King George, passed away in Vancouver January 28th. He was 83 years of age, retired civil servant and very popular with all who knew him.

Creston Valley Post of the Canadian Legion is considering staging an evening of boxing at the Grand Theatre toward the end of the month, date to be definitely announced later. Any one in the outlying sections who would like to take part or knows of anyone who might be available kindly get in touch as soon as posible with the secretary of the Legion, Geo. H. Kelly, or the committee of John Ryckman, Alf. Palmer and Jas. Lockeead.

A quiet wedding was solemnized at Cranbrook last Thursday evening, when Mrs. Janet McGonegal of Creston was united in marriage with Mr. Cyril Senesael of Kitchener, Rev. Mr. Black, Baptist pastor officiating. The ceremony was performed at the home of Mr. and Mrs. F. Belanger, and was witnessed by just the immediate friends and relatives of the contracting parties, Mrs. E. W. Payne of Creston being amongst those present. Mr. and Mrs. Senesael returned to Creston at the weekend and will reside here for the present. Both the bride and groom are well known residents of the district, and are being heartily congratulated by their many friends.

Kitchener

Kitchener had the worst fire in its recent history on Wednesday of last week when the residence of Mr. Geroux was completely destroyed. Fortunately it was possible to save the household effects. The loss is serious and much sympathy is felt for Mr. and Mrs. Geroux.

Mr. and Mrs. Rendall, who have been in Kitchener for some time past, have returned to the States. Mrs. Rendall has been in charge of cooking at the Kitchener Hotel, and is succeeded by Mr. Ragotte.

H. A. McKowan of the Sash & Door Company, Cranbrook, was a business visitor last week.

Provincial police H. McLaren of Creston was here on an official visit Wednesday last. Guy Constable of Creston was here on a business visit one day last week.

The C.P.R. has stationed an operator in the Kitchener depot, who will be here for some weeks as much of the main line freight is now being handled through the Crow and over the Kettle Valley.

Murdoch McLeod of Vancouver was here on a business trip last week, and found trade brisk in town and in the camps.

Mrs. Ragotte was a visitor with Creston friends a few days last week.

Mrs. Charlie Leamy and sister, Miss Wittman, of Creston, were between trains visitors on Saturday.

Mr. Smith and Clarence Devlin motored to Creston on Wednesday last. Not in years has travelling between Kitchener and Creston been as good as this winter.

A wedding of much interest to Kitchener people was celebrated at Cranbrook on Thursday last when Mrs. McGonegal of Creston, a former well-known Kitchener resident, was united in marriage with Cyril Senesael of Kitchener. Miss E. McGonegal of Calgary was bridesmaid, and Marcel Senesael supported the groom. Mrs. Senesael will continue to reside at Creston for the present.

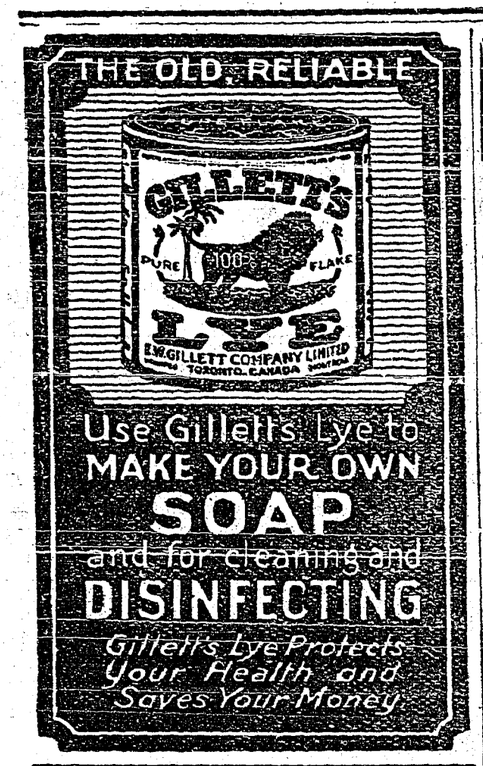
Chevrolet Demonstration

The Grand was packed to capacity on Tuesday night for the demonstraion of the 1929 outstanding Chevrolet, put on under the direction of the Creston branch of the Kootenay Garage. There was a talk, moving-picture and slides, the feature film being "A Trip Across Canada," which was both educational and interesting. The pictures and slides were explained in some detail by Geo. Davies, factory representative of Canadian General Motors, who amongst other things stated that 1928 saw an output of 1,260,000 Chevrolet cars and trucks, giving employment to almost 7000 people, and representing a payroll of about $8,000,000. He explained the various uses of the Chevrolet cars and trucks informing his hearers that the latter were being used to operate the combines quite commonly used now at prairie harvest work,

In order to keep western money spent in Chevrolet products in the west General Motors have just opened plant at Regina, Sask., where are today 850 employees.

Jack Cornwall, technical expert of the research division of the plant at Oshawa, Ontario, spoke on the mechanical features and advantages of the Chevrolet, as well as dealing with the body construction in some detail. Pictures were shown of the seven different Chevrolet passenger models and their mechanical construction, and an outline given of the exceptional advantages of General Motor products, which are 100 per cent. Canadian. Mr. Cornwall claimed that 42 per cent. of all cars made in Canada last year were from General Motor factories.

At the close of the demonstration many of those present adjourned to the Grand theatre ballroom where they were entertained at a dance by the Kootenay garage, with excellent music provided by Mrs. Lister's orchestra, dancing continuing till 2.30 to round off an evening that was thoroughly enjoyed throughout.



Sale For Worthless Horses

Montana Packing Plant Will Require Seventy Head Daily

Surplus range ponies which now are more or less worthless, may find a market at the horse meat packing plant just opened in Grand Falls, Montana. Southern Alberta has hundreds of nondescript range horses roaming the prairies, eating up valuable grass and the Great Falls plant may be in a position soon to handle many of these animals for it will require 70 head daily. The output will be shipped to Continental Europe where horse meat is a staple commodity.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says: "We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discovers New Island

Commander R. E. Byrd in a flight over King Edward VII Land discovered a new island and 14 peaks according to a radio message from the Byrd South Pole expedition copyrighted by the New York Times and the St. Louis Post Despatch.

Use Minard's Liniment for the Flu.

It is not doing the thing we like to do, but liking the thing we have to do that makes life blessed.

Chemists are now trying to make artificial cotton from wood fibre.

Nervous and Run Down The Least Noise Would Bother Her

Mrs. R. Burton, Oshawa, Ont., writes:—"Three years ago I was so nervous and run down I could hardly bear to have the children make a noise it would bother me so.

"A friend advised me to take

and after taking two boxes I began to feel stronger, looked better and the color came back into my cheeks, and now I am feeling fine again."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1771

WORLD HAPPENINGS BRIEFLY TOLD

The freighter Port Curtis arrived recently at Halifax from Auckland with more than 5,000,000 pounds of New Zealand butter, a record cargo.

The Rockefeller foundation has donated $85,000 to McGill university for medical research to be paid over four years.

A treaty between the United States and Japan to aid in the prevention of smuggling of alcoholic beverages into the United States has been ratified by the senate.

Leon Trotzky, whose opposition to the policies of the Soviet's leaders in Moscow caused his expulsion from the Communist party and his exile in Turkestan, was en route to Constantinople, it was revealed in authoritative advices received at London.

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is so easy, so sure, so painless—thousands use this wonderful remedy and say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store.

Mendicancy De Luxe

Young Englishman Simulating Palsy Collected Large Sum Daily

In the opinion of G. K. Chesterton, complete social equality in England will not be achieved until a costermonger may wear a monocle without exciting remark. It would be interesting to have his comment on the discovery by the police of a professional beggar with a valet. A young man, only 23, he was busily engaged in putting Mr. Ford's doctrine into practice and spending his easy earnings in ways which he thought to his own advantage when the authorities evinced an acute curiosity concerning the source and extent of his finances. A country house, with completely equipped billiard room, is another of his luxuries. His income, produced by simulating palsy, has amounted to as much as $100 in a day. Subway travelers, observing his pathetic figure, have been deeply touched—for sums from 10 cents upward. The interruption of this enterprising mendicant's activities, just at the threshold of the prosperous holiday season, must have been especially bitter.

LONG SLEEP MAKES BABY HAPPY AGAIN

"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely-vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Should Procure Oat Seed

Farmers of Alberta are being advised by the Provincial Department of Agriculture to make the necessary provision for securing the supply of oats for seed which they will require for their 1929 crop. The effects of frost in a number of districts are reflected in a reduction in the germinating quality of a great many of the oats threshed.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Vancouver Port Improvements

The Vancouver Harbord Board is understood to be seeking federal permission for launching a construction program involving $5,000,000 of port improvement. The proposed works include a deep sea pier, the first unit of a cold storage plant, a coastwise pier and extensive additions to the present grain storage capacity of the port.

Minard's Liniment for Coughs and Colds.

CHILBLAINS

Zam-Buk soon allays the inflammation and swelling, dulls the tingling pain, and soothes the maddening irritation. Where skin is broken, festered or ulcerated Zam-Buk is doubly valuable because of its great healing and antiseptic power.

Zam-Buk

Last Word In Cruisers

Germany's Latest Ship Makes Product of Other Countries Obsolete

According to the description which Hector C. Bywater, the Baltimore Sun's special correspondent gives, the new German armored cruiser Ersatz Preussen is a triumph of concentrated power. Keeping within the narrow limit of 10,000 tons for armored ships imposed upon her by the treaty of Versailles, Germany has constructed a ship which has the fighting effectiveness of a dreadnought, the speed of a cruiser and the hitherto unheard-of cruising radius of 10,000 miles. In addition, the new cruiser has other novel features which add immensely to its strength, and altogether it represents a production that tends to make the latest ships of other countries immediately obsolete.

How Best to Use Vicks VapoRub After the Flu

Late Winter Colds Are Doubly Dangerous This Year; Don't Let Them Get a Start

AVOID PNEUMONIA OR A SECOND ATTACK OF FLU

If you catch a fresh cold, don't keep it overnight. If possible, go home and go to bed. Take a laxative and a hot lemonade, apply hot wet towels over throat and chest until the skin is thoroughly reddened. Then rub vigorously with Vicks Spread on thickly and cover with warm flannel.

Leave the bed-covering loose, so that the vapors, released by the body-warmth, may be freely inhaled. At the same time, Vicks acts through the skin like a poultice.

Repeat this treatment every four hours, eat lightly, and stay in bed until the cold is broken. Complete rest helps the body throw off the cold more quickly.

Mothers especially appreciate Vicks for the children. As it is applied externally, it can be used freely and often, without upsetting delicate digestions, as too much "dosing" is so apt to do.

Skipping Motor Age

China Is Now Turning Her Attention to Aviation

China, if the signs are read aright, is about to "jump" the automobile age and pass direct from the bullock cart and railroad to the aeroplane and all that it embraces. This is not to say that motor car manufacturers may not find a lucrative field in the 18 provinces which comprise China proper, for the automobile is making inroads there; but it is almost certain that before the motor vehicle has become to the east what it has become to the west, aviation will have found acceptance as a common means of conveyance.

For Scalds or Burns.—Dr. Thomas' Eclectric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

The longest telephone call in the British empire is now from London to Vancouver, a distance of 7,000 miles. The charge is about $15 a minute.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

SUNDAY SCHOOL LESSON

FEBRUARY 10

REPENTANCE AND FAITH

Golden text: Repent ye, and believe in the gospel. Mark 1.15.

Lession: Isaiah 1.10-20; Ezekiel 18.20-23, 27-32; Mark 2.1-12; Luke 3.1-14; 15.11-24; Acts 2.32-39; Hebrews 11.1-10.

Devotional reading: Psalm 27.1-5.

Explanations and Comments

Jesus Is Sovereign and Messiah. Acts 2.14-36—Peter is speaking to Jews, and his first object is to prove that Jesus fulfilled Old Testament prophecies and expectations in regard to the Messiah, hence he tells them (verses 15-21) that the events of Pentecost which had so amazed them are but the fulfilment of Joel's prophecy (Joel 2.28-32), that at the coming of the Messiah God's Spirit would be poured forth, and old and young, men and women, bond and free, would see visions and speak divine truths.

Then Peter takes up his great theme that Jesus is the Christ, and gives three proofs. First, there are the miracles which his hearers had themselves witnessed. Second, there is the resurrection, of which they all are witnesses: God had raised Jesus from the dead to higher life and wider power. Third, there is the pouring forth of the Holy Spirit at Pentecost, which they have seen and heard: Jesus still lives and cares for His followers, for it is He who has sent the Spirit. Furthermore, the resurrection and exaltation fulfil a prophecy of David, as given in Psalm 110.1:

The Lord said unto my Lord, sit thou
on my right hand,
Till I make thine enemies the foot-
stool of thy feet.

Two different Hebrew words for Lord are used in the first line, and the meaning is, Jehovah said unto the Messiah. David could not have been speaking of himself, for David did not ascend into the heavens. "Sit thou on my right hand" means, Be partaker of the divine glory and dominion. "Till I make thine enemies the footstool of thy feet" is an expression denoting complete victory, which originated, no doubt, from the ancient custom of conquerors putting their feet on their enemies' necks.

Then comes the climax of Peter's sermon: "Let all the household of Israel therefore know assuredly that God hath made him both Lord and Christ, this Jesus whom ye crucified."

"Are there any questions?" "Yes, sir. "How do you calculate the horse-power in a donkey engine?"

COMPLEXION IMPROVED . . . QUICKLY

Look Fit! Be Alive! Get rid of that pasty, sallow, blemished complexion! Instead of spending many dollars on fancy creams and skin lotions, buy a 25c pkg. of Carter's Little Liver Pills and remove the constipation poisons. Your skin will be quickly cleared, and your health improved. All Druggists 25c and 75c red pkgs.

CARTER'S LITTLE LIVER PILLS

FOR SALE—Fully equipped farm of seven quarter sections in the Leader district. $5,000.00 will handle; balance half crop payments. Owner retiring. Apply to S. W. Kesten, Leader, Sask.

Alberta's Farm Wealth

The Calgary Herald says that in 1906 the Province of Alberta had a farm wealth which was estimated at $50,000,000, while in 1927 it had jumped to $338,161,458. And while it produced about 6,000,000 bushels of wheat in the former year, in the latter it yielded 162,000,000 bushels. We wonder what 1947 will show!

FLU

Claims Many Victims in Canada and should be guarded against.

Minard's Liniment

Is a Great Preventative, bring one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Grippe, Bronchitis, Sore Throat, Asthma and similar diseases. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Yarmouth, N.S.

A Real Literary Find

The New York Times says that one of the greatest rarities in United States literature, a first edition of Edgar Allen Poe's "The Murders of the Rue Morgue," has been found in a pile of old books which a second-hand dealer bought for a trifle.

Before news of the discovery became public, however, the volume was bought for $25,000 by a New York book collector.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

Scott's Emulsion

abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

Scott & Bowne, Toronto, Ont. 25-61

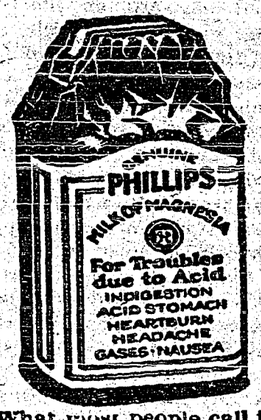
HUNTER-MARTIN & CO., REGINA, SASK.



Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

THE CRIMSON WEST

— BY —

ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

CHAPTER XIII.—Continued.

"Isn't it beautiful?" He indicated with a sweep of his arm the lake, the wooded hills and the glittering glaciers lifting their heads high to the sparkling firmament. He turned to find his companion standing with downcast eyes.

"Don't you like it?" he asked, a trifle resentfully.

Janet raised her head slowly. The limpid depths of the big brown eyes were soft and langorous in the half-light; the full red lips were dewy and tremulous; the peaceful light of the moon shone upon her radiant upturned face, giving it an ethereal glow.

"It is wonderful,' she breathed.

Involuntarily he moved closer. What was this inner urge? Love—feeling—emotion, or, it might be, passion?

Laughter and voices came from the trail above. Douglas with several of the visiting party emerged into the white light of the moon. Douglas called his sister's name and Janet and Donald moved up the hill to join them.

CHAPTER XIV

A week before Dominion Day men began applying for leave of absence until the exodus depleted the crew to such an extent that it was deemed advisable to shut down for a week. Donald turned to Gilis as he saw the whole crew of "redshirts" pile tumultuously on the train.

"How often do the men quit like this?" he asked rather irritably.

"Every holiday," replied Gillis.

Donald pondered a moment.

"That means that we may lose a week for Labour Day."

"Very likely.'

"Jack, do you think we could keep them here if we hold some sort of celebration at the lake?"

"I believe we could," responded Gillis warmly.

"We'll do it then," declared Donald. "We've so many orders ahead that this lay-off may force us to run a night crew."

"Did you spend all your dough, Blackie?" asked Gillis when the "redshirts" arrived back from town.

"Me and Hoop-la spent about two hundred bucks, but we had three hundred dollars' worth o' fun. We ain't got enough money to buy a hummingbird a pair o' leggin's, but we sure had a helluva good time, so we ain't worryin'."

"S'pose you bought them new boots?" inquired Gilis.

Blackie forced a laugh. "Goin' to git them next time, Jack," he continued moving closer to his big boss; "say, Jack, you know that I send twenty dollars to my mother back east ev'ry month. I—I——"

"All right, Blackie," said Gillis gently, "I'll advance it to you."

"Thanks, Jack, you're a good pal," commended Blackie in a relieved tone.

Donald and Gillis walked down the hill to inspect the logs in the boom, and as they walked Gillis indulged in some pointed observations. "You know, Donnie, that these loggers are game guys to come back after spendin' all their money and say: 'We had a good time, so we ain't worryin'. The man ain't human that won't worry after spendin' in a few days the money it's taken him six months to earn swingin' an axe an' draggin' a saw. Still, they hide their remorse under a grin and tell of what a good time they've had. So many people think that loggers spend all their money for booze. 'Tain't so. That gang of mine give away about half their money to bums around town. I have seen Blackie give away twenty bucks at a time.

As they passed the high-rigger's little cabin, Gillis poked his head through the door. Blackie was absorbed in the task of sewing a patch on a pair of worn boots. A mournful wind blew querulously around the cabin.

"Say, Blackie, do you know what that wind is saying?"

Blackie grunted a negative.

"Here's what it's sayin'," said Gillis as he puckered his lips: "O-o-o o-oh! Where has your summer wages gone! Oh, where has your summer—"

Gillis dodged back as a boot came whizzing past his head.

Midsummer brought an epidemic of labor disturbances throughout the Province. A radical organization seized on a time when work was plentiful and labor scarce to spread their insidious propaganda through the camps. Railroad construction in the interior had been seriously interfered with, and in many cases there had been violence and bloodshed.

Two agitators arrived at the Summit Mill, and the next day several of the men—including Hand and Blackie—did not appear when the whistle blew. Gillis found them in Blackie's cabin in a half-drunken condition. That afternoon Renwick ordered the two strangers off the premises and discharged Hand.

Hoop-la begged successfully for lenience toward his erring pal. "You know how booze affects Blackie, Jack," he pleaded.

Donald became aware of a changed bearing on the part of many of the men. Sullenness had fallen upon them; discontent manifested itself, as well as insubordination. That afternoon spikes driven in the logs wreaked havoc with the saws and forced a partial shut-down.

A committee of four men waited on Renwick and presented an ultimatum. They demanded a heavy increase in wages, or they would call for an immediate cessation of work on the part of the men they represented. Renwick promptly refused. In 15 minutes every man in the mill except the clerical staff, the mechanics and the engineer, walked out. In the woods only Gillis' "redshirts" remained at work.

The strikers moved up the track and made camp on a point of land on the lake shore. That night the door of the commissary was prised from its hinges and a quantity of food stolen, and the night watchman put out a fire of incendiary origin.

Renwick, while returning from the power-house, was shot at twice from ambush. He wired his resignation to Robert Rennie, and in terrified haste packed his belongings and left on the next train. An hour later the agent brought Donald a telegram:

"Donald McLean,
"Summit Mill.

"You are promoted to position vacated by Renwick. Refuse strikers' demands. Ship at Squamish Oriental order white pine. Utmost importance lumber loaded within week. Use every means in power to keep plant operating.

"Robert Rennie."

He passed the message to Gillis. The big man turned and grasped Donald's hand in congratulation.

"We'll get that order out on time or bust," declared Gillis grimly.

Donald distributed firearms among his loyal men, and one-half the crew patrolled the plant while the others slept.

Donald had been up the greater part of the night, and at Gillis' earnest request he went to his cabin near midnight. As the door closed behind him, Connie, with her rifle resting in the hollow of her arm, rose silently from behind a tree in the darkness of the hillside and flitted noiselessly on moccasined feet from stump to stump. Unseen she reached the corner of Donald's cabin, where she sank to the ground with the soft, slow grace of a nestling bird.

The Cheakamus Mill, robbed of man-power, was forced to cease operations. At the Summit Mill work went on with such speed as in the situation Donald was able to induce in the men, who were on edge. To him it seemed that they were working on top of a powder mine that might go off at any moment. He discovered in himself a faculty to handle men and to raise them to a fever pitch of enthusiasm—not that the B. C. logger is a hard man to lift to the fighting point. His fight against great odds had gained the sympathy of the loyal—a sympathy and respect that money could not buy. Gillis' gang, with the exception of "Blackie," remained fervently faithful.

Toiling in the hot sun, nearly blinded by sweat, singing lustily, this gallant crew worked their 12 hours without a murmur of complaint. Donald lived on the job, ate on the job, and all day long he drove his men even as he drove himself. His rest consisted of such fitful snatches of sleep as he could steal between his rounds of the night guards.

The first move of the strikers was not of open violence. The haul-back on two of the donkeys broke without apparent reason; one of the big saws had been tampered with; Wilkinson reported two fires of incendiary origin, and also that an attempt to dynamite the power-house had been frustrated.

On the third morning Hand, at the head of a mob of 50 men, made a swift descent on the lumbering operations. It might have been successful if Donald had not expected something of this kind and set efficient watch.

The invaders came down the track in a solid body, armed with cant-dog handles, pick axes and clubs, and thirsting for battle. At Donald's quick shout of warning his men dropped their tools and came on the run to form in a compact body behind him.

"Don't use your guns unless you have to," he warned, as he noticed several of them flash their revolvers.

Donald climbed quickly to the top of a large stump. In his left hand he held a stick of dynamite with fuse attached; in his right he held a match close to the dangling fuse. "Men'" he cried in a determined tone, "if you move forward one step I will throw this."

(To Be Continued.)

400,000 Women Report Benefit

by actual record

"Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

A questionnaire enclosed with every bottle of medicine has brought, to date, over 400,000 replies. The overwhelming majority—in fact, ninety-eight out of a hundred—says, "Yes." If this dependable medicine has helped so many women, isn't it reasonable to suppose that it will help you too? Get a bottle from your druggist today.

Lydia E. Pinkham's Vegetable Compound

LYDIA E. PINKHAM MEDICINE CO., Lynn, Mass., U. S. A. and Cobourg, Ontario, Canada

for Coughs and Colds

A Pleasant Sip—Instant Relief

There is an effective way to pleasantly relieve that distressing Cough. Buckley's Mixture is delightful and "friendly". Yet it acts like a flash in clearing the throat and chest. One dose stops coughing—and there are 40 doses in a 75-cent bottle! All druggists sell it under a money-back guarantee.

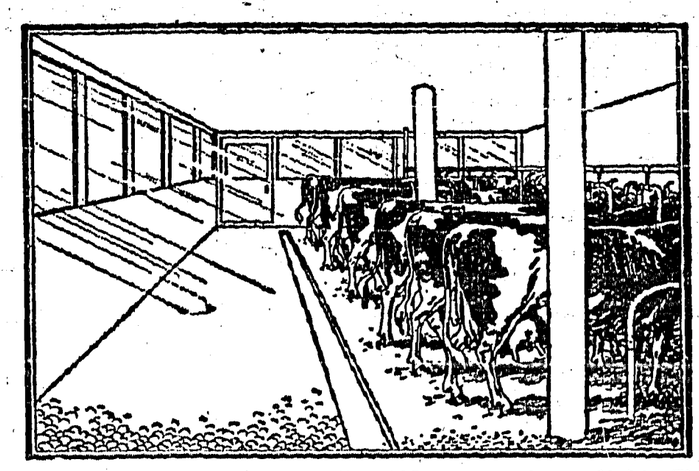
WINDOLITE *The Improved Glass Substitute*

MADE IN ENGLAND



COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price $1.50 Per Square Yard, f.o.b., Toronto.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, FEB. 8

Voted at Wrong Season

One of the lessons to be learned from the plebiscite at Erickson two weeks ago would appear to be not to overlook the season of the year in which a vote is taken.

This situation is very aptly sized up by the Rossland Miner in its last issue, when it editorially remarks: "A headline writer in the Nelson Daily News says Erickson voted down beer by 40 to 18, the vote being taken in zero weather. What might have happened had the beer advocates taken the vote say about July 1? Voting for beer in zero weather will not get the "wets" anywhere. That is proven by the Erickson vote. To win the "drys" must be thirsty."

Cranbrook Likes Its Milk

According to the annual report of Dr. Rutledge, dairy inspector at Cranbrook, residents of the divisional city last year drank more milk than at any previous time in Cranbrook's history.

With a government vendor and an abundance of beer parlors in the town there seems no way to account for the changed state of affairs, unless it be the mild winter that obtained until early in 1929.

According to the late Fred Roo, bard and philosopher of Roosville, climatic conditions have a knack of affecting the taste for liquid refreshments. One of the late Mr. Roo's most famous couplets ran something like this:

"The melancholy days are come;
The saddest of the year;
A little too warm for whiskey hot,
And a little too cold for beer."

Many are the virtues claimed for milk from contented cows but none hitherto paraded are quite on a par with the miracle that has been wrought at Cranbrook. In future effort to stir up matrimonial activity surely the Courier can cash in to advantage on Cranbrook's milk fed chickens.

More Cranbrook Betterments

And in other lines than drink Cranbrook shows marked improvement. Only recently we read of our old friend A. J. Balment being elected one of the managers of a local church.

After quite a few years on a passenger run and no slips we have no hesitation in pronouncing Al. worthy and well qualified to pass the collection plate, and to do it with a dignity that will merit the admiration of even John Fingal Smith.

But while commending the jovial ticket puncher on his turn for the better let it be said that there is just a faint suspicion that he is possessed of ulterior motives.

N. A. Wallinger has just been retired from public life to quite a comfortable berth in the provincial civil service, leaving the field clear for all and sundry ambitious Conservatives with whom Mr. Balment may well be reckoned.

The recent aldermanic elections demonstrated that Al. has quite a large and influential following and instead of the familiar 1928 "Our next minister of mines," Cranbrook electors may well be greeted in 1932 with "Our new minister of railways."

Kaslo to Come Back

Along with quite a few good friends in Creston the Review joins in extending congratulations to James Anderson on his successful return to civic life at Kaslo, in which city he has just been re-elected mayor after at least ten years "on the outside looking in."

And his term of office will be watched with more than ordinary interest for, contrary to all his hereditary Scotch thrift, the mayor-elect, in his address of saluation to the new council, intimates that he wants action in several directions that are bound to produce increased expenditure.

Amongst other things Mr. Anderson intimated it was high time the town was re-assessed, improvements made in the water system, and the electric light and power supply put on a new and higher meter rate.

We can quite understand the mayor's demand for better water. Last year the government vendor at Kaslo did $43,000 of business which is some considerable turnover for hard stuff in a place that has the reputation of being a retired farmers' town.

That the death rate is likely to increase with such a vigorous policy in vogue is gleaned from the fact that at the January meeting of the Kaslo Women's Institute "the question of the excessive costs of funerals was raised to get information," according to the Kootenaian.

Speak Up, Colonel

The local member has made his initial speech of the session. It came last week in connection with the time honored discussion of the address in reply to the speech from the throne.

As printed in the Nelson Daily News the colonel's talk had three principal features. He demanded action in the development of Camp Lister and practical consideration of the request for financial assistance in the Arrow Creek irrigation project.

He also re-affirmed his determination to stand on guard in the interests of the returned men—this, too, in spite of recent appointments to office at Creston in which men who had never been overseas got the preference in filling government positions.

The colonel is surely to be commended in demanding action at Lister, as well as on the irrigation question. Both undertakings are of great importance to this section.

Some time this month, when the budget comes down, our representative will have another favorable opportunity to talk business to the administration and the Review would remind him of the local dyking project, which is another equally important undertaking, and one that can be proceeded with without a cent of cost to the province, provided the cabinet will make a minor change in the concession now held by Creston Reclamation Company—a consideration that will have to be given no matter who undertakes the work.

Surely this undertaking, that means so much to the Valley and which will take not a cent of the ratepayers' money, should not be overlooked.

And just so the administration will know the highway problem exists in this part of the Kootenays, Col. Lister will make no mistake in demanding generous consideration in this all important matter — specifically mentioning the surfacing of the North and South Highway, a continuation of the good work done in the Canyon area last year so as to give the Lister and Huscroft sections good travelling, and funds for an immediate start on needed improvements on the highway from Alice Siding through to Kuskanook.

Needs Objectives

Now that village incorporation has been accomplished, and such problems as irrigation and Kootenay flats reclamation have been advanced to the point where only sympathetic government consideration is essential to getting work started in both projects, Creston board of trade is running short of ammunition, and it is very largely due to the absence of definite objectives such as the foregoing that made 1928 one of the slowest years in the board's history.

Even highway matters have been so well looked after that there is little left in that quarter to engage the board's attention, and unless new committees are constituted and go to work in other directions 1929 is sure to prove still another "off" year.

It would appear to the Review that in village affairs the board can do some useful teamwork with the commissioners. Fire protection is a matter that will stand some looking into. And it must be apparent to all that if Creston is to enjoy the expansion so freely predicted for it, right now is the time to engage the services of a town planning expert to lay out the city-to-be, so that all future policy may be worked out on very definite lines.

The board is fortunate in being able to persuade Major Mallandaine to remain at the head for another year, and if individual members will give the same active support to board effort as that so characteristic of the president, 1929 should prove one of the most useful in the organization's history.

Bush's Boxing Impresses

Ted Bush gave a good account of himself at the boxing show at Kimberley on Wednesday night last, at which the local mitt artist took on Murdo Morrison of Kimberley in a six round go and gets credit for taking two of the six rounds in impressive fashion, as well as showing staying power and unusual ability at taking punishment. Reporting the bout the Kimberley Press says:

The feature bout was between Murdo Morrison of Chapman Camp and Eddie Bush of Nelson, over the six-round route. Morrison had the advantage in weight being 10 pounds heavier than his opponent. In the first round Morrison tore in right from the gong and put over a wicked left which connected with Bush's optic and started the claret flowing. The Chapman Camp boy was all over his opponent but Bush was very game and kept continually boring in for more. In the second round Morrison had Bush dizzy, landing rights and lefts to the head in rapid sucession, but the Nelson boy stood up very pluckily and weathered the storm. The third round was easily Morrison's. Bush being outclased and how he stood the heavy barrage that fell on his anatomy is a mystery. At times he looked to be about ready for the count but Morrison could not put over the sleeper. The gong alone saved Buch in this round. Then Morrison's advantage began to fade, and although the stronger boxer, Bush did practically all the leading and had Morrison ducking and clinching and handed out some hard punishment. In the fifth round Morrison again had the advantage, feinting round for an opening, would jump in and land hard blows to body and face, in fact Bush presented a gory looking spectacle as the blood oozed from the cut over his eye and mouth. He was practically out on his feet when the gong again saved him. In the last round Bush staged one of the most remarkable comebacks ever witnessed. Outfought in the earlier rounds and almost out in the fifth he gave Morrison more than he received and seemed to be fighting better than ever, while Morrison was visibly tired from his previous exertions and continually ducked into a clinch, and Bush was pounding the local boy on the ropes at the finish but his blows did not carry any dynamite in them. The referee, after consulting the judges, did not hesitate to give the decision to Morrison. It was clearly his fight, but Bush was given a big hand for his gameness and his plucky last round rally. It was a good scrap and there is no doubt that these two boys will be matched acain.

Cyanide gass for poisoning gophers will again this year be supplied East Kootenay farmers by the department at Victoria.

NEWS OF KOOTENAYS

The hospital at Fernie operated at a profit of $1845 last year.

Golden is taking the necessary steps to incorporate as a village.

17 pupils are in attendance at New Denver high school this term.

The government liquor store at Kaslo did close to $43,000 of business in 1928.

14 tables of players attended a cribbage drive at Midway one night last week.

At a recent temperance rally at Cranbrook the total attendance was less than two dozen.

Kaslo and District Women's Institute wants an investigation into the alleged high cost of funerals in that town.

D. McKinnon has just been elected mayor at Revelstoke for his tenth successive term.

It was so cold at Cranbrook last week that even a carnival at the skating rink had to be called off.

Ice on Moyie Lake is 18 inches thick. That section has just emerged from the lengthiest cold snap in years.

The Ledge is certainly honest in telling of the cold snap in Greenwood, which was as bad as 38 below.

The coldest Rossland thermometers would admit last week was 10 below zero. Grand Forks had it 26 below.

According to the New Denver Record 1929 provided the first January in the Slocan that did not have a thaw.

Due to the exceptionally cold weather prevailing the moving picture theatre at Greenwood has closed temporarily.

April and June were the stork's busiest months at Bonners Ferry last year. In each of these months there were 11 birth.

During the cold spell last week Kimberley had it 28 below zero to furnish the coldest touch in the town's recent history.

Cyanide gass for poisoning gophers will again this year be supplied East Kootenay farmers by the department at Victoria.

In addition to financing the new $34,000 building, the United Church at Penticton last year raised $11,440 for general running expenses.

The Bonners Ferry Herald is alarmed at the district's decreasing birth rate. In 1926 there were 106 new arrivals, as compared with 87 in 1928.

The water main at Rossland froze up last week, and citizens were supplied for a time by teamsters who made delivery by sleigh and barrels.

J. W. Greir, editor of the New Denver Record, has just been appointed judge of the provincial assessment court of revision for Kaslo-Slocan.

Civic improvements at Cranbrook this year will likely include the erection of a new, fully modern fire hall and the purchase of a ladder truck.

Although 13 inches of snow fell in the Vernon district in one week the latter part of January, there is not enough yet to make the irrigationists rejoice.

Amongst the things Kaslo's 1929 council are expected to take action on are a re-assessment of the town, an improved water supply and a revision upword of electric light rates.

According to the Gazette 92.74 per cent. of the registered voters in Grand Forks-Greenwood constituency voted in the provincial election last July. This is the best showing in the whole of the province.

The Noxious Weeds Menace

This is an age of conventions. They are a natural growth and outcome of the more complex and highly organized development of modern life. They are, too, a recognition of the fact that the principles and methods of co-operation are, in many ways and to a large extent, replacing the old individualistic ideas and efforts of the past. This is not to say that the value of individual responsibility and initiative has been, or is to be, discarded; rather, that in this age of rapid transportation and communication the old isolation has disappeared and peoples and nations are brought close together. They must, therefore, act as units rather than as distinct and separate entities.

This by way of introduction to a reference to a recent gathering held in Saskatchewan at the call of the Provincial Minister of Agriculture, namely, the first Saskatchewan Weed Conference. It was not a large and spectacular convention as many present-day conventions are, but in the importance of the problem it met to consider, it took second place to none. And while it was a Saskatchewan conference, its deliberations and findings were of equal value to the other prairie provinces.

The conference was summoned in recognition of the fact that weeds are making tremendous headway in Western Canada, and that some action must be taken, over and above the preventive policies of the past, if the inroads of weeds and the consequent enormous loss to the farmers and the country as a whole is to be checked.

The conference was attended not only by officials of the Saskatchewan Government, municipalities and farmers' organizations, but by Dominion Government officials, representatives of the railways, mortgage and loan companies, manufacturers, business men, merchants—in a word, every organization having a vital interest in the productive capacity and prosperity of Western Canada.

It was frankly and unanimously agreed that the whole country must be aroused and organized in a campaign for the destruction and elimination of weeds. The only alternative is a rapidly decreasing agricultural production both in quantity and quality, smaller returns to the farmer, and decreased business and prosperity for all.

The duty and responsibility of the individual farmer in the matter of keeping his own land free of weeds was in no sense minimized, but it was recognized that, human nature being what it is, some men will neglect their duty, and while they themselves suffer as a result of such neglect, they also inflict loss upon their neighbors who are doing their duty, and upon the community and country as a whole.

The need, therefore, for concerted Government and municipal action was emphasized, and the absolute necessity, in the interest of all, for more drastic control recognized.

It was realized that not only must existing weeds be brought under control and eradicated, but that much more efficient measures must be taken and greater precautions observed to put a stop to the sowing of weed seeds and the propagation of the weed plants.

It is not possible in this article to discuss all the phases of this intricate problem, but at this season of the year, when farmers are beginning to think about and plan their work for the spring, one factor may well be stressed. That is, the importance of sowing good, clean seed and not a mixture of grain, good and bad, and weed seeds.

The astounding discovery was made by the seed drill survey conducted in Saskatchewan that 70 per cent. of the seed sown in the province was lower than No. 2, due largely to the inefficient operation of farm fanning mills. In other words, while farmers and governmental authorities on the one hand are fighting weeds, the farmers in the sowing of their crops are planting thousands of bushels of weed seeds.

The first step towards victory over the weed enemy is to put an immediate and definite stop to the planting of weed seeds in prepared soil. If the propagation of weeds is continually carried on and assisted in this way, it must be recognized that the weed menace will grow, and that final victory will rest with it and not with the farmer.

The spring slogan for all Western farmers in 1929 should be: Look to your seed grain. See to it, above everything else, that it is good, clean seed. If weed seeds are sown, it is inevitable that weeds will be harvested. Remember, it is still everlastingly true in farming as in all the activities of life that, whatsoever a man soweth that shall he also reap.

During the World war a person's equilibrium was tested for flying by an elaborate turning chair.

Politness is one of the best investments known. It pays enormous dividends.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to garble the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Lieutenant-Governor Appointed

J. D. McGregor, Brandon, to Succeed Late Hon. T. A. Burrows

J. D. McGregor, Brandon, has been appointed lieutenant-governor of the province of Manitoba. Mr. McGregor succeeds the late Hon. T. A. Burrows who died in Winnipeg recently. Announcement of the appointment was made by Premier W. L. Mackenzie King at the conclusion of a meeting of the cabinet.

The lieutenant-governorship was offered Mr. McGregor several days ago, and from his home in Brandon, he announced acceptance of the post, stating that he considered the appointment as a compliment to the agricultural interests of the province rather than to himself personally.

WAS ALWAYS AILING NEVER FELT WELL

Health Restored Through the Use of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everitt Dowe, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in an ailing condition and found it difficult at all times to do my housework. I was subject to headaches, poor appetite, breathless at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines, but without any good results. I had become completely discouraged and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help, where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking the pills for several months, when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills I would to-day be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid.

You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Silver Foxes for Italy

A number of silver foxes have been sent from Canada to ranches in the Italian Alps, where ranching conditions are stated to be ideal, and where the fox farming industry is showing a steady growth.

Exhausted from Asthma.—Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

As a molecule of water passes through the pores of your skin it is like a man passing through a gate seven miles wide.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

New Air Service Planned

Air express and passenger service between Winnipeg and United States points will be established within a month on a tri-weekly basis, according to Capt. P. T. McCarty, president and operating manager of the International Airways, Inc., of Seattle. The service will be in co-operation with the Western Canada Airways, Limited.

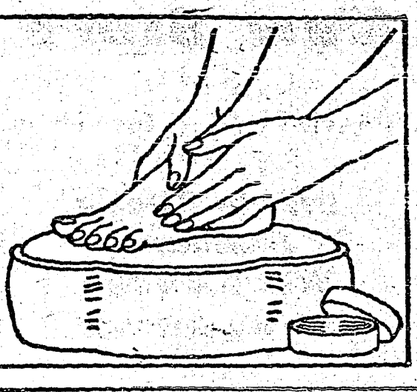
He—I suppose I'm only a pebble on the beach of your life?

She—That is true, but you might stand a chance if you were a little boulder.

Minard's Liniment for the Grippe and Flu.

W. N. U. 1771

Cuticura Soothes Burning Aching Feet



Bathe the feet for several minutes with Cuticura Soap and warm water, then follow with a light application of Cuticura Ointment, gently rubbed in. For tired, hot, irritated feet this treatment is most comforting. Cuticura Talcum is cooling and refreshing.

Sample Each Free by Mail. Address Canadian Depot: "Stonehouse, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.
Cuticura Shaving Stick 25c.

Advances New Theory

Baltimore Physician Says Lack of Lime Makes People Irritable

More lime in the diet as a preventive for divorce was urged by Dr. George Walker, addressing the National Housewives, Inc., at Baltimore. Absence of lime, he declared, makes a woman nervous and a man cruel—hence family troubles result.

When there is every appearance of a home being wrecked Doctor Walker suggested that lime, as found in a pint of milk, added to the diet of a couple daily for two weeks in all probability would adjust matters, restore amicability and keep the home intact.

He also would add two oranges a day for each and a quarter pound of cold slaw at least three times a week.

Built To Auto Design

First British 'Plane of This Type Put on Market

Britain's first airplane to be built to automobile design has been placed on the market under the name of Simmonds Spartan light plane.

The craft has four wings, which are interchangeable in the same way that the four wheels of an automobile are interchangeable. There also is a spare wing which is carried for emergencies.

The new machine is fitted with a four-cylinder, air-cooled engine of 30-85 horse-power. It recently was tested on a non-stop flight from London to Berlin, 620 miles, in six hours.

If Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Eclectric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

When the plumber died his wife took no chances. She buried his tools with him.

Shipping Sets New Mark

New Westminster Exceeds 1927 Record by Forty-five Ships

A new mark in shipping was set at New Westminster during 1928, exceeding by 45 ships the 1927 record of 153. The figure does not include the coastwise shipping, which is handled through the Department of National Revenue. The net tonnage of the ships handled through the harbor commissioners' office was 625,271 tons and the gross 984,363 tons, compared with 483,603 and 776,229, respectively, in 1927.

Protect Your Children From "Flu," Grippe

A WARNING TO PARENTS!

Flue germs are everywhere today. They reach the system through the nose and throat. Mothers can protect their children in a very simple way.

Take a saucepan of water, place it on a lamp or stove. Add a half teaspoonful of Catarrhozone to a pint of water, which is brought to a boil. Let the steam from the kettle fill the room so that the medicated air is breathed by the child. This germ-killing vapor disinfects the child's breathing organs and kills the "Flu" germs.

Catarrhozone Vapor stops cold, prevents Grippe, relieves Sore Throat, prevents Flu. Safe and efficient. Just as good for adults as for children. If you keep the air in your home disinfected with Catarrhozone Vapor you are well protected from dangerous Flu, Influenza, Grippe, and Colds. All druggists sell Catarrhozone in 50c bottles.

New Brunswick's contribution to Uncle Sam's Yuletide celebration included some 3,000,000 Christmas trees—the greatest number ever shipped from the province.

Minard's Liniment prevents Flu.

The Adirondacks contain more than 100 scenic lakes.

The whole world knows Aspirin as an effective antidote for pain. *But it's just as important to know that there is only one genuine Aspirin.* The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

RIVALRY SEEN BETWEEN ITALY AND FRANCE

Toronto.—The Mail and Empire publishes the following special cable from Paris:

"A factor in the world naval situation which hitherto has been obscured by Anglo-American discussion of the limitation of naval armaments is the growing rivalry between France and Italy in the Mediterranean, as reflected in their building programs. For the first time much prominence is being given to this subject here and it may fairly be suspected that the British "big navy" party is preparing to counter any suggestions for a naval holiday with the United States by pointing to the danger to British interests in European waters as necessitating more cruiser building.

Hector J. Bywater, well known naval expert in a column article in the Daily Telegraph analyzes in startling terms the French-Italian building race and speaks of the Mediterranean as "one of the main arteries of our empire."

"No neutral can hope to conduct business as usual in a zone of active warfare," he finds proceeding to pile up statistics intended to prove his contention. "That France and Italy are now in open rivalry for strategic control of the Mediterranean is the only possible inference to be drawn from recent developments.

Secures Desired Land

Veteran of C.E.F. in Siberia Files on Peace River Homestead

Peace River.—After waiting from Friday, January 18 until Monday morning, January 28, G. Turcotte, Falher, was successful in securing the land of his choice, a homestead in the Falher district that had been under lease but recently was thrown open for filing. Ten days of terrible sub zero weather with the thermometer ranging from 30 below during the day and down to almost 50 during the long nights he endured.

Turcotte did not have it all his own way for Corporal McDonald of the mounted police was on hand to prevent disorder. He ordered Turcotte to remove his hand from the door knob so that the door could be opened. Another man named Trudeau was on hand and secured it while the door was opening, but Turcotte was in the most favorable position and squeezed in first.

Studying Aircraft Device

Dominion Government May Establish Direction Finding Apparatus Service

Ottawa.—For the purpose of ascertaining what the United States is doing in the field of direction finding for aircraft by radio, Maj W. Arthur Steel, one of the senior officers of the signals service, department of national defence, has gone to Washington, New York, and other points, to obtain information for Canada. Direction finding apparatus has been used to advantage in the operation of aircraft in several countries and the Canadian government is considering establishing such a service in the Dominion.

Has Remarkable Record

Winnipeg.—John McDougall, veteran sergeant-at-arms of the Manitoba legislature, is in indifferent health at present, and for a second time in half a century may not be well enough to attend the opening of the house on February 11. Last year he was ill too, and it was the first time in 50 years that he was unable to carry the mace on an opening occasion.

World's Largest Theatre Sold

New York.—The Hippodrome, the world's largest theatre, has been sold for approximately $6,000,000. Although the purchaser, Frederick Brown, a real estate operator, would not disclose his plans, it was indicated that he had a new project in mind for the site, and that the theatre might be razed.

W. N. U. 1771

Aid For Civil Aviation

Flying Clubs Will Be Given Thirty-two New Planes This Year

Ottawa. — Thirty-two aeroplanes will this year be given flying clubs by the government it is estimated by flying officials in the national defence department.

Besides issuing two machines to each newly-formed organization, one extra machhine is given for each one which the club members purchase themselves. The 16 clubs already in operation are each expected to buy a machine this year.

There are over 150 flying pilots in Canada with seven years' experience in the air, according to figures compiled by the national defence department in connection with applications now being received by the civil service commission for two positions as inspectors of civil aviation.

There is one vacancy at Ottawa and one at Regina. These are additions to the staff occasioned by the development of aviation. At present there are three inspectors. Their duties include the examination of prospective pilots, testing of machines for airworthiness and choice of locations for airdromes.

Doukhobors Found Guilty

Ringleaders in Clash With Police Receive Jail Sentence

Grand Forks, B.C.—Eight Sons of Freedom, Doukhobor religious fanatics, were sentenced to serve six months each for obstructing police officers. They were found guilty by John A. Hutton and John M. Donaldson, justices of the peace. The fanatics offered no defence.

The fanatics were arrested and charged following a clash with 14 provincial police officers and 10 specials who sought to arrest Strepnikoff and Woiken, wanted for infringement of the School Act. The Sons of Freedom attempted to prevent the arrest of their leaders, but were overcome by tear gas bombs.

Peter Veregin, Doukhobor community head, reported to have testified in these actions, was engaged in a marketing act trial. He did not figure in the case.

Parley On Import Preference Likely

But Reports Presented by President Coolidge Not Yet Received

Ottawa.—At the department of external affairs, it was stated that the reports presented by President Coolidge to congress on the subject of customs preferences on imports through Canadian ports have not yet been received. No diplomatic representations based on them have yet been made. The United States minister in Ottawa, however, brought the general situation to the attention of Premier Mackenzie King some weeks ago.

As President Coolidge informed the United States senate that diplomatic negotiations would begin with Canada on the matter, it is anticipated that there will be representations in the near future.

Plans Branch Line in B.C.

Nelson, B.C.—Notification to the public of its intention to apply at the coming session of parliament for charter rights to build a railroad link from Kootenay Landing to Proctor, B.C., is announced by the Canadian Pacific Railway in a statutory notice. The notice issued from Montreal under date of January 29, is signed by E. Alexander, secretary.

Appointed Vice President

Winnipeg.—R. S. Law, formerly of Claresholm, Alta., has been appointed to the board of directors and to the position of first vice president of the United Grain Growers, Ltd., it was announced here by Hon. T. A. Crerar, president of the company Mr. Law succeeds C. Rice-Jones, who held the position for the past 11 years and who resigned to enter business in his own right.

Would Try New Stunt

Detroit, Mich.—Gene Laussier, who dropped over Niagara Falls in a rubber ball July 4 says he will jump off a new 46-story building here for $25,000, with a pair of wings of his own design.

SAYS CANADA TOO KEEN

Senator Walsh of Massachusetts is waging a campaign in congress to show the United States the amount of trade which Canada is winning from the republic. He expressed the opinion that Canada was too keen and is rapidly outstripping the United States.

Figures Show Slight Increase

Twelve Per Cent. Advance in Immigration to Canada Last Year

Ottawa.—Immigration to Canada continues to show a moderate increase over that of a year ago, the total for nine months of the fiscal year up to and including December being 144,113 compared with 128,928 for the same period in 1927. The increase is 12 per cent.

The total immigration of December amounted to 5,515 compared with 4,566 in December, 1927, an increase of 21 per cent. The month's immigration included 1,476 British, 1,544 from United States, 24 Belgians, 50 Danish, 99 Dutch, 204 Finnish, 31 French, 454 Germans, 44 Norwegians, 75 Swedish, 15 Swiss and 1,499 of other races.

Of the 144,113 immigrants who came to Canada in the last nine months 82,257 were of the farming class and 14,199 were female domestic servants.

London Awaits News

Announcement of Duke of Gloucester's Engagement Expected Shortly

London.—The Daily News said it understands that the engagement of the Duke of Gloucester, formerly Prince Henry, third son of King George, would be announced shortly.

The newspaper said it was believed the duke was engaged to Lady Angela Scott, daughter of the Duke and Duchess of Buccleuch.

The Daily News understood that the announcement had been delayed because of King George's illness.

Spectators Thrilled By Parachute Jump

Two Winnipeg Airmen Brave Wind and Below Zero Weather

Winnipeg.—Braving a high northwest wind and 15 below zero weather, Flight Lieut. A. Carter and Sergt. Joe Maskell, of the Royal Canadian Air Force, thrilled 300 persons at Stevenson Aerodrome by jumping from aeroplanes with parachutes at a height of 2,500 feet.

The feat is unique in Manitoba and perhaps in Canada, considering the weather conditions.

Carter landed in a clump of trees two miles east of the point where he jumped, and a group of airmen had to rescue the parachute from the branches. Maskell also was carried far afield.

Carter's jump was the 36th of his career. He holds the record for parachute jumpers in the British Empire, having made a leap of 20,000 feet at High River, Alberta, in November, 1925.

Plan Being Endorsed

National Day of Thanksgiving for Recovery of King Is Urged

Vancouver.—A movement emanating in the province of Quebec to hold a national day of thanksgiving throughout Canada for the recovery of his Majesty King George from his recent illness, and which it was stated has the endorsement of Premier Taschereau of Quebec and other prominent men of that province, was whole-heartedly supported by Mayor W. H. Malkin and the Vancouver city council.

Winnipeg.—Endorsation of the plan to hold a Dominion-wide day of thanksgiving for the recent recovery to health of His Majesty King George was given by Mayor Dan McLean of Winnipeg.

Submits Request To League

China Wants to Protect Her People Against Opium Evil

Geneva.—The opium evil was made the occasion for another plea by China for the right to police its own territory irrespective of the nationality of offenders.

Wang King-Ky, chief representative of his country at Geneva, submitted that it was impossible to separate the narcotic and political questions so long as China was not free to protect her own people against the acts of nationals of other powers.

Carpenter Electrocuted

Winnipeg.—William Jardine, 26, a carpenter, was electrocuted at the substation of the Winnipeg Electric Company near Selkirk, Man., when his saw came in contact with a high tension wire.

TRAFFIC VIA CANADA'S PORTS NORMAL FACTOR

Washington.—Discriminatory tariffs against goods imported into the United States via Canadian ports is recommended by only one out of three government departments which reported to the senate on the diversion of United States commerce to Canadian ports. The other two found that the movement of United States imports and exports through its neighbor's ports was caused chiefly by the normal factors of international trade and transportation and nothing much could be done about it except to discuss with Canada through diplomatic channels the possibility of putting United States ports on an equal basis with Canadian ports on imports into Canada.

The majority report which remarks at the outset that Canadians are just as much concerned over the movement of Canadian export grain through United States ports was made by the departments of state and agriculture and the Interstate Commerce Commission. It was unanimous.

The minority report was made by the United States shipping board which operates at a deficit the shipping acquired by the United States government during the war. The tone of the two reports is sharply contrasted. The majority quotes statistics to show that 27 per cent. of all Canada's exports travel through United States ports while only five per cent. of United States exports travel through Canadian ports.

Coast Wants Orient Trade

Would Gain Larger Share for Canada, Says T. S. Dixon

Ottawa. — Canadian boards of trade from the Atlantic to the Pacific are interlocked in such a way as to assure immense benefits for national commerce and fruitful results from their co-operative labor, said T. S. Dixon, president of the Vancouver Board of Trade in an address at the 72nd annual meeting of the Ottawa Board of Trade.

Within the next two years, Mr. Dixon declared, Vancouver would lead an expedition of Canadian business men into the Orient in an attempt to further increase the prestige of the Dominion in the Far East and gain a larger share of Oriental trade for the manufacturers and producers of Canada.

Manitoba House To Open February 11

Will Proceed to Take Up Business Without Usual Adjournment

Winnipeg.—The Manitoba legislature will go into session Monday afternoon, February 11, at 3 o'clock. An order-in-council fixing this date was signed by Hon. J. D. McGregor, shortly after being sworn in as lieutenant-governor.

The house will proceed with the business before it immediately after the formal opening ceremony and the reading of the speech from the throne by the new lieutenant-governor. This will be a departure from custom previously followed.

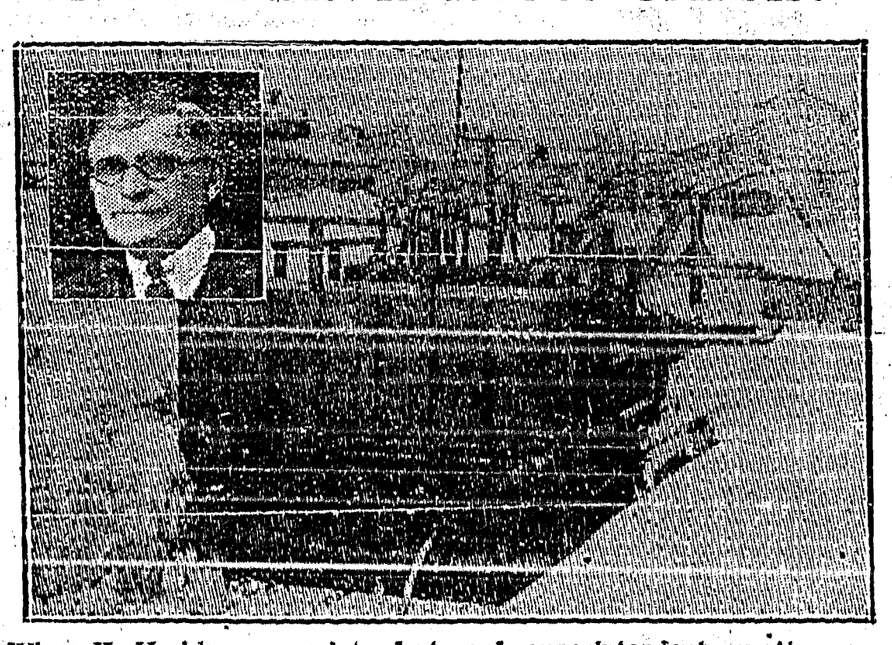
Will Not Compete

Toronto, Ont.—The ladies' high jump which was on the program of the Melrose games at New York, February 8, has been cancelled, according to a wire received by Miss Myrtle Cook. The wire said exhibitions were not permitted at these games and that Miss Ethel Catherwood has been notified to this effect. This means that Miss Catherwood will not compete in New York.

May Send Minister to States

Washington.—Negotiations for the exchange of diplomatic representatives between the United States and the Union of South Africa, were said, at State Department, to be under way, South Afgrica would be the third entity of the British Commonwealth to appoint a minister to Washington. Canada and the Irish Free State are the other two.

CANADIAN IDEAS IN JAPAN



When K. Hashima, superintendent of rolling stock and machinery of the Sapporo district, Japanese Government Railways, was in Canada recently studying the operations of the Canadian National Railways for the benefit of the people of his own country, he was particularly interested in the methods used in clearing snow from the track. In a letter to W. A. Kingsland, general manager of the National system's western region, Mr. Hashima expressed his thanks for the co-operation given him by A. H. Eager, general superintendent, motive power and car equipment, Winnipeg, and A McCowan, assistant general superintendent, car equipment. He went on to describe a new type of snow-fighting machine which he had devised from ideas given him by K. D McLay, bridge and building master of the Canadian National Railways, Calgary division. The machine, which is the most successful of all the types tried on the Japanese railways, has been named McLay. The plow is seen here in action and the inset is a photograph of Mr. McLay.

Announcement!

The announcement in the Creston Review of December 28, 1928, and January 4, 1929, re GARAGES GOING ON CASH BASIS was signed by the following:

PREMIER GARAGE,
KOOTENAY GARAGE,
