

# THE CRESTON REVIEW

VOL. XXVI.

CRESTON, B.C., FRIDAY, JULY 19, 1935

No. 12

## Institute Favors Union Library

Will Have Speaker Here Soon to Widely Discuss Project—Cemetery Matters Progress—School Fair Coming.

The July meeting of Creston and District Women's Institute was held at the home of Mrs. R. Stevens on Friday afternoon. The chair was taken by the vice president Mrs. C. Murrell, in the absence of the president, Mrs. H. W. McLaren. 13 members and five visitors were in attendance.

Correspondence included letters from Dr. Young, provincial officer of health, and Dr. Wace, medical superintendent of the Queen Alexandra Solarium. The latter is arranging a survey of the crippled children of British Columbia to ascertain the number of children requiring treatment, the facilities for providing such treatment in any particular area, also to review cases that have been under treatment. Arrangements were made for a public meeting to hear Dr. Wace on August 5th.

The union library plan was discussed and the institute was in favor of Dr. Helen Stewart putting on a publicity campaign later in the year. Date of school fair not decided but will be fixed at the August meeting. It is possible the fair will be held in the new school at the time of opening in October, when suitable opening proceedings will be staged.

Mrs. Hayes reported for the cemetery committee, including a meeting with the village council, which had promised to take care of hall rent for a meeting in this connection at a later date. A vote of thanks was tendered Mrs. Hayes for the use of her home and grounds for the July tea and sale of cooking.

Mrs. Stevens reported for the needlework committee, asking for plain sewing and crochet work, suitable or the Vancouver exhibition for which entries must be made by August 18th. She is arranging all sewing and needlework which should be in her hands before this date. A musical programme followed the business session. Those contributing were Mrs. J. E. Johnston and Miss Edith Johnston, piano duet; Joan Langston, recitation; Goldie Walker, piano solo. The tea hostesses were Mrs. Stevens and Mrs. McLaren.

## Kitchener

Cecil Moore of Crawford Bay was a business visitor here on Saturday.

Gus Patrick was a business visitor at Wynndel the latter part of the week.

Mr. and Mrs. Garfield Taylor of Cranbrook were Saturday visitors at Kitchener.

Canyon baseball team played Kitchener, Sunday, the home team winning 7-5.

A. E. McBride, who has been at Calgary, Alberta, for the stampede, returned on Thursday.

Swan Halfen, who is employed at Kimberley, was renewing acquaintances here on Saturday.

Dan MacDonald, who is in charge at the airport, returned on Friday from a holiday at Nelson.

Mr. and Mrs. Fritz Molander and son Barry, were weekend visitors at Canyon guests of Mr. and Mrs. C. Taplin.

Mrs. Barr and son, Charles, and Mrs. Almack and son, Reg., all of Kimberley, are on a visit with Mr. and Mrs. B. Johnson.

Martin Eslang, who has been employed at Kaslo, arrived last week, and will be employed on the C.P.R. section crew at Goatfall.

Mrs. Clifford Foisy and children, Germaine and Marvin, left on Sunday for Moyie, on a visit with Mr. and Mrs. Omer Geroux.

Miss May Parsons and brother, Bert, of Fernie, are here on a visit at the home of Mr. and Mrs. N. P. Molander. They arrived on Thursday.

Major Harcourt of Calgary, Alberta, and F. A. Lazenby of Yahi, superintendent of national defence camps, were business visitors here on Friday.

Mr. and Mrs. H. H. Rodmille were Cranbrook and Fort Steele visitors on Sunday. Mrs. Rodmille is remaining to visit her sister, Mrs. A. H. Moore, Fort Steele.

H. Bohan, who recently bought ten acres of land on the bench from W. L. Hathaway, just north of town, has finished erecting a house on the new property, and moved into his new home on Sunday.

A caravan of four covered wagons and 18 head of horses stopped here for a few days last week. They have already cov-

ered 900 miles, starting from a point south of Regina, Sask. They are headed for Kamloops, where they are to reside. In the party were Mr. and Mrs. Guiley and family, an uncle and aunt of Allan Cameron, who has resided here for the past four years with his uncle and aunt, Mr. and Mrs. C. Foisy, and left just recently for Harrison Hot Springs to be with his mother. The visitors tell of not having a crop for five years and that there wasn't enough water for their stock. It was so dry they could not even grow vegetables.

## Wynndel

Miss L. Reimer left last week for her home in Nelson.

Miss Freda Simpkins is visiting at Wynndel, a guest of Mr. and Mrs. T. Sixsmith.

Mr. and Mrs. Burch and Miss Baxter were auto visitors to Cranbrook at the weekend.

Terry Davidge is on a holiday visit at West Creston, with his aunt, Mrs. R. Sinclair Smith.

A pow wow took place at Indian Point last Wednesday. About 300 witnessed the natives dances, etc.

Mrs. Towson, Mrs. Matthews and Sam Matthews were auto visitors at Bonnera Ferry one day last week.

Mrs. T. Dunseath returned on Sunday from the coast, where she has been for some time past. Her health has been poorly of late.

Mrs. Mathews and son, Sam, who have been visiting Mr. and Mrs. Towson, returned on Saturday to their home at Winnipeg, Man.

Mr. and Mrs. McDonald and Mr. Doyle of Willow Point were Sunday visitors with Mr. and Mrs. E. Hulme and Mr. and Mrs. Towson.

A community miscellaneous shower honoring Miss Sylvia Benedetti, whose marriage takes place next month, was held at the T. E. Slingsby packing shed on Tuesday evening with the high score prizes made by Mrs. D. Butterfield and J. G. Abbott, and the consolation honors going to T. E. Slingsby and D. Butterfield. Following cards there was a lunch and this was followed by the presentation of the gifts by D. Butterfield, these being displayed on a table decorated in basket effect with pink and white streamers. The affair closed with a shor dance with music by Mrs. Eakin, jr., Mrs. W. Cooper, R. Andestad, H. Slingsby and E. Hulme.

## Lister

Mr. and Mrs. R. C. Phillips of Kimberley are spending part of the week at their ranch here.

J. C. Helme left at the end of the week for Silvertown, where he has secured work with a mining company.

J. Clark of Kimberley was a Sunday visitor with Mr. and Mrs. Kerluke, Mrs. Clark returning with him.

The larger operators are completing putting up their first cut of alfalfa under favorable weather conditions.

Copeland baseball team was here for a game on Sunday with the Lister-Huscroft aggregation, the home team winning 8-6.

Pat Holland of Kimberley was here at the weekend, and Mrs. Holland and Jean who have been holidaying with her mother, Mrs. H. Yerbury, returned with him.

Several of those who went to Wynndel for the strawberry harvest have returned. Some of the berry harvesters have caught on at Erickson for the cherry picking.

Rev. M. C. Percival will be here for Anglican Church service on Sunday afternoon. This will be his final service as he leaves at the end of the month to take charge at Fernie.

Mr. and Mrs. Jack McConachie were here from Kimberley for the weekend, bringing back their nephew, Raymond McKee, who has been on a vacation there the past two weeks.

The school district ratepayers meeting on Wednesday night was rather slimly attended, and was presided over by trustee Fred Powers, who was re-elected for a three year term, and R. T. Millner chosen auditor. \$750 was voted for operating expenses the ensuing year, which is \$21 less than was asked for a year ago.

Huscroft school district ratepayers had their annual meeting on Saturday night at which, A. J. Hobden was elected to succeed himself as trustee for a three year term, and Harry Holme will serve out the unexpired term of Reno House, resigned. John Huscroft is the third member of the board, with Mrs. Ed. Smith, auditor.

**KOOTENAY BAY FOR HOLIDAYS**  
—Summer cottages for rent. No mosquitoes, good beach, good bathing and fishing. Apply Storkkeeper.

## 27 Cars Berries Wynndel Total

Strawberry Season Nears Close—Wynndel Only Point Now Shipping—Raspberry Receipts Lighter than Expected.

This week sees the valley at the in-between point in the berry season. Strawberries are pretty well over at all points except Wynndel, where they are still coming and will be available until at least the 25th, according to officials of the Co-Operative Fruit Association at that point. Raspberries are coming but the volume is not as great as might be expected after the rains early last week, and the hot weather that has prevailed since then. Wynndel reports the outgo of some Bing cherries and larger quantities of Royal Anne, with all commodities going through the pre cooler. Up till Thursday morning 27 straight carloads of strawberries had been moved.

At Creston the Exchange reports the 1935 strawberry deal closed and raspberries beginning to come in fair volume. Royal Annes are the biggest shipper in the cherry line with Bings fairly plentiful, and expected to come strong early next week. Black currants are on in some volume and are in good demand both for jam and crate shipments.

Long, Allan & Long, Limited, report the strawberry deal closed with them at Erickson, Creston and the Reed & Mather shipping points, but limited supplies are still available at Wynndel. Raspberries are in sufficient volume to take care of all orders at a firm price, as is the case with Bing and Royal Anne cherries.

Creston shipping houses welcome the let up in strawberries. These have been available for more than a month and the public seems to be pretty well fed up with them. In addition to this, due the severe heat or other causes the berries are not standing up as well as earlier in the season and claims for rebates have been numerous of late.

Local selling agencies are looking for a visit to-day from Messrs. Barrat and Hembling of the B.C. Tree Fruit Board, when marketing plans for Creston-Boswell district will be discussed and approved for 1935.

## Boswell

J. Kirkpatrick was a business visitor to Creston last week.

Mrs. J. H. Smith and Jack were visiting in Creston, Saturday, returning the same day.

Albert Hepher will be in charge of cherry packing operations at Boswell this season.

J. Johnstone is at present working with a telephone crew putting in new telephone poles.

Mr. and Mrs. K. Wallace returned from Nelson last week, after a few days' visit in that city.

The eclipse of the moon was observed here Monday night, though the clouds spoiled the effect to some extent.

Mrs. A. Kennedy was able to be present at the Guild meeting for the first time since her accident, some months ago.

Mr. and Mrs. Jenne and family of Edmonton and Mr. and Mrs. Kadwell of Calgary, are spending a week at Destiny Bay.

Dr. W. O. Green of Cranbrook, who is relieving Dr. Henderson of Creston for a few weeks, paid a visit to Boswell on Sunday.

Mr. and Mrs. Sid Gray of Edmonton, Alberta, brother of "Bunty" Gray of the freight line, are spending a week at Destiny Bay.

Rev. E. J. McKettrick held evening service at Boswell on Sunday. He was a guest of Mr. and Mrs. Chas. Allan during his stay.

Fishing at the mouth of the creek has not been so good of late. Better catches have been made from fishing off the rocks and trolling.

Mrs. R. Malloy entertained in honor of baby Joan's first birthday. Amongst those present were Margaret, Muriel and Bobby Gray; Mrs. Gray and Mrs. D. V. West.

K. Wallace, secretary of West Kootenay Central Farmers' Institute, has recently been promoted to a place on the advisory board of the B.C. Central Farmers' Institute.

Mr. and Mrs. F. Botterill and family, and his parents, spent Sunday at Destiny Bay. Other Creston callers were Mr. and Mrs. W. Donaldson and family who were fishing along the lake the same day.

The July meeting of Boswell Church Guild was held at the home of Mrs. D.

V. West on Tuesday. Among those present were Mrs. J. R. Higgins, Mrs. Schell, Mrs. Soyir, Mrs. K. Wallace, Mrs. Malloy, Mrs. R. Gray, Miss Smith and Mrs. Kennedy.

First raspberries were shipped on Monday. Bing cherries are expected to move at the end of the week. Black, red and white currants will also be ready for picking this week. Strawberries are lasting longer than expected, and are still going to the jam factory in quite large quantities.

In celebration of Muriel Wallace, third birthday Mr. and Mrs. K. Wallace entertained Mrs. Kunst and Margaret, Mrs. Eric Bainbridge, Joan, Patsy and Barbara; Mrs. Trennaman, Roland, Eric and Russell; Mrs. Malloy, Kenneth and Joan, and Mrs. Soyir of London, England.

Wednesday, August 21st, is the date set for the annual Boswell regatta. The following committees are at work to make the affair a big success. Clifford Bebbington, secretary; A. Mackie, Stanley Hepher, C. Holden, and J. Johnstone. The regatta will be followed with a dance at night.

Elizabeth Sprell of Cranbrook is a guest of Shirley Home. Mrs. E. Home and Shirley arrived from Spokane on Friday to spend the summer here. Mr. Home was here from Cranbrook for the weekend, returning with Mrs. Jarvis and Edgar Home. The latter has taken a position at Canal Flats.

Now that Mr. and Mrs. Gerald Timmons and family of Creston have located permanently at the Lakeview mine, this has warranted making application for a school at Sanca. P. Garvie is in correspondence with public school inspector Manning to bring this about and it is hoped a school will be opened this fall.

The local parks board held a meeting on Thursday when K. Wallace was elected president, and Stanley Hepher, secretary. Prior to the meeting the park was visited by board members and the executive of the Farmer's Institute. It was decided to leave any activities until the fall when a bee will be held to clear some land.

Adam Robertson of Creston was host at a weiner roast at Destiny Bay, Monday night. Among those present were Misses Leah Abbott, Peggy Smith, Helen and Hope McInnis, Mary Abbott, Dorothy Payette, Agnes Crane and Margaret Huscroft; Messrs. Oswald and Campbell Payette, Lewis and Whitfield Abbott, Andy Seykin, Herman Scannon, Jack Crane and G. Benedetti.

In connection with the recent sketch of the history and progress of Boswell appearing in the Review of July 5th, mention was omitted of John Wilson, one of the oldest residents on the Lake. He has successfully operated for over twenty years a two-acre ranch in a variety of fruits and bulbs. He is a director of the local fruit growers association and his practical counsel on ranching is much sought after by the newcomers to the lake area.

As a result of the resolution presented by Creston Farmers' Institute, in which an illustration station for the Kootenays was asked for, secretary K. Wallace has had replies from Hon. R. Weir, federal minister of agriculture, and from W. K. Esling, M.P. for West Kootenay, and both state the request is receiving very favorable consideration. A representative of the department is to be sent to investigate with a view to meeting the request. On his arrival he would like to meet as many of the executive as possible. Any institutes having suggestions to make in this connection are asked to communicate with Mr. Wallace.

## Alice Siding

Miss Evelyn Mather left last week for Nelson, where she expects to be for some time.

Mr. McCreery had the bad luck to lose his milch cow by bloating—from an overfeed of alfalfa.

Miss Dorothy Seavor of Spokane has arrived on a few weeks' visit with her grandparents, Mr. and Mrs. Robert Stewart.

Mrs. McDougal and Beattie have returned to West Creston, after spending a few weeks with the former's parents, Mr. and Mrs. John Kelly.

Mrs. Webster, who has been visiting at Calgary, Alberta, since leaving Cranbrook hospital several weeks ago, is expected home at the middle of the week.

H. H. Toore of Erickson is helping with the apple thinning at the McCreery (Pease) ranch this week.

Maasles, which have been quite plentiful at Creston for some time past, are now in evidence at Alice Siding.

Mr. and Mrs. C. Riffor and daughter, Louise, of Leask, Sask., were Sunday visitors with Mr. and Mrs. Geo. Nickel, on their return from a motor visit at the coast.

At the meeting of the school district ratepayers on Saturday night, E. Ostronsky was elected trustee to replace Victor Carr, and with John R. Miller and W.

## School Requires \$10,194.00

John F. Murrell New Trustee—High School May Add Senior Matriculation—Hiring of Janitor Produces Discussion.

Estimates totalling \$10,194 for the financing of Creston high and public schools for 1935-36 were passed at the annual meeting of Creston school district rate payers on Wednesday evening. The new trustee is John F. Murrell who replaces Geo. Nickel who declined re-nomination. For the first time on record the trustee was elected by a standing vote and Mr. Murrell nosed out R. Crosby by a 17-14 margin. J. W. Hamilton was re-elected auditor. The gathering was ably presided over by Rev. A. Walker.

At the opening the meeting went along smoothly. The board chairman, Jas. Cook, presented a very carefully prepared statement reviewing the activities of the year just closed, and no trouble was encountered in getting the meeting to approve of the board's action in buying some additional land to complete the school grounds and to consent to a raise of \$100 per year for public school principal E. Marriott.

When approval was asked of a payment of \$252 in excess of the \$15,500 previously agreed upon for the new four-room school some opposition was encountered and there was a very wide discussion of the action of the board agreeing to the contract being let to an outside firm, in spite of the fact that the local contractor's bid was only \$550 higher than the successful bidder's price. There was some considerable feeling that the Creston contractor should have had the preference, but in the end the \$252 was voted. The secretary of the board read a telegram from the department at Victoria that satisfactorily disposed of the stories that had been afloat all week that the contract had been sub-let to a firm of Doukhobors.

The most exciting episode of the session was a letter from the Legion requesting the meeting to rescind a motion passed by the old board engaging R. R. Roebuck as janitor at a salary of \$1200 per year. The letter was followed by a motion by J. B. Holder and F. H. Jackson asking that the motion be set aside and that tenders be called for the work.

The board chairman, Jas. Cook, strongly resented the resolution, pointing out that the board had acted within its rights and that the resolution constituted one of censure and if passed he would tender his resignation, which he did a little later in the rather heated discussion that followed. Trustees McLaren and Nickel also stated they would consider it a want of confidence motion and would resign School Act and also a letter from the deputy minister of education were produced and these making it quite clear the board had acted within their right, the chairman ruled the motion was out of order and refused to put it to the meeting, and in this action he was supported by a show of hands. Trustee Cook then withdrew his resignation.

Commencing with the 1937 term only students who have senior matriculation standing will be admitted to Normal School. At the present time only junior matriculation can be had at Creston, those wishing to take the higher standing having to go out of town to take this extra year. It was felt this would prevent many local students from going through for the teaching profession and the meeting unanimously agreed to have the board take up with the new high school staff the matter of teaching senior matriculation work at Creston, provided there are sufficient pupils.

Under the old system of raising taxes it was figured the money required for 1935-36 could be got on a 12 mill rate, but this is likely to be raised to at least 14 mills, as the meeting by a large majority agreed to ask the provincial assessor to discontinue taxing personal property. No one was quite sure what this would subtract from the present assessment roll, but it was predicted the rate would have to go up two mills to make up the deficit.

The establishment of what is termed a union library was discussed by trustee-elect Murrell for Mrs. Chas. Murrell, who is chairman of a Women's Institute committee handling this matter. The proposal was very concisely presented and the meeting adopted a motion that it was in favor of Dr. Helen Stewart being sent in by the government to more thoroughly present the case. Where it has been introduced it has proven very satisfactory and the cost per ratpayer has been modest.

The retiring trustee and the old board were tendered the usual hearty vote of thanks for services rendered. During the meeting it was announced the construction foreman for the new school would be here before the week is out, and that it will take ten weeks to complete the new four room school.

H. Mather make up the trustee board, with Guy Constable as auditor.

Mrs. Lipalek of Nelson is here on a visit at the home of her parents, Mr. and Mrs. E. Ostronsky.

**WORLD HAPPENINGS BRIEFLY TOLD**

A Soviet scientific expedition headed by George Uschikoff, assistant manager of the Russian Northern sea route has started to seek an Arctic passage from Asia to Europe.

The giant machinery in the plant of the Manitoba Paper Co., was turning for the first time since February, 1932, bringing new life to Pine Falls as 200 men returned to work.

H. G. Wells, historian, novelist and sociologist, intends to devote the next three years to the films, he says, "good films, serious, imaginative, artistic films."

The second conference on Canadian-American affairs — unofficially known as the "North American Community Council"—will be held at Queen's University in Kingston, Ont., next June.

The Soviet government has ordered the construction of 16 airplanes of the type of the Maxim Gorky, which—until it crashed May 18, killing 49 persons—was the largest land plane in the world.

Dr. Allen Peebles, London, Ont., has been appointed as technical adviser to the investigatory committee on state health insurance, Hon. G. M. Weir, British Columbia provincial secretary, announced in Victoria.

"The growth of bureaucracy in Canada is something that should be watched," said J. W. Deb. Farris, K.C., in delivering the inaugural address at the opening of the annual convention of the Law Society of British Columbia.

Manitoba highway accident toll for the first half of this year is 20 dead, 62 seriously injured and 77 injured to the extent of requiring medical attention. Figures were revealed by Hon. W. J. Major, K.C., attorney-general.

Canada's ties with Great Britain can be measured only "in a brotherly and friendly spirit and not in dollars and cents," Hon. Raymond Morand of Windsor, Ont., deputy speaker of the Canadian House of Commons, declared at a luncheon for delegates to the Empire Parliamentary Association in London.

**League Representation**

Sir Robert Falconer Wants A Foreign Minister For Canada

Hope that Canada would establish a separate "ministry of foreign affairs," was expressed by Sir Robert Falconer, president of the League of Nations Society, at Ottawa.

"As Great Britain has appointed a minister of League of Nations affairs, Canada also might surely participate more fully in its affairs. While the effects of Italian and Japanese policies may seem remote from Canadians, we cannot be sure that they would not involve us in serious consequences, therefore, we should at once take our part as a people more fully in consideration of world affairs."

**Experimental Bridge**

A young man whose knowledge of cards was vague, was roped in to complete a bridge four.

He committed his first mistake by throwing away a king on a trick already taken by his opponent's ace.

"Good heavens!" followed the young man's partner, "a king doesn't beat an ace."

"I know," stammered the beginner, "but I thought I'd find out."

**The Trans-Canada Airway**

**Way Is Being Prepared For Coast To Coast Service**

The trans-Canada airway will be a reality within a couple of years if the appropriation made for civil aviation in the supplementary estimates brought down in parliament is amplified by similar votes in the next two years. What is being done now, is to prepare the way—physically. The operation of the service and its nature and extent will be a matter of policy to be determined when everything is ready. But the plans all contemplate an air service across the country handling mails and passengers. Depending upon the type of machine used and making allowance for landings, it should be possible to fly from Montreal to Vancouver in 15 hours or less.

The appropriations now made, however, are wholly for preparatory work—the construction of airdromes, landing fields, night lighting, wireless facilities and other accessories of the service. It will also be necessary to carry on extensive investigations through trial flights, the investigation of atmospheric conditions and the best routes for flying. The work is now well advanced with 49 landing places constructed while the new appropriation of almost \$500,000 will enable it to be actively prosecuted this year. The engineers have the whole plan laid out and this year's appropriations will simply fit in with what has been done previously.

In another branch of civil aviation—the air service performed for the different departments by the Air Force—there is an increased vote of \$305,000. This will allow the carrying on of extra preventive services for the Mounted Police aerial surveys and a variety of similar operations.

Similarly the military end of flying will have an impetus in the vote of \$500,000 for maintenance and training. This contemplates a certain addition of the personnel of the Air Force, but the exact number is not yet determined.

**Making Map Of Mars**

**Famous Astronomer's Work Being Completed By His Widow**

The monumental work of making a map of Mars, begun more than 50 years ago by the famous astronomer, Camille Flammarion, is being completed by his widow.

Madame Gabrielle Flammarion, who was the second wife of "the poet of the skies," works 15 hours a day to complete her late husband's life work. The observatory in which she works is in a garden where lie buried the bodies of her husband and his first wife.

Every night, when conditions permit, Mme. Flammarion focusses her powerful telescope on the red planet, studying all its phases and taking innumerable photographs. When atmospheric conditions are bad, she works at her charts of the planet, filling in the unknown spaces. It is said that she knows the "canals" of Mars better than she knows the streets of Juvisy, the Paris suburb where she lives.

**Recipes For This Week**

(By Betty Barclay)

**RED RASPBERRY JELLY**

4 cups (2 lbs.) juice  
7½ cups (3¼ lbs.) sugar  
1 bottle fruit pectin

To prepare juice, crush thoroughly or grind about 3 quarts of fully ripe berries. Place in jelly cloth or bag and squeeze out juice. Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard ½ minute. Remove from fire, skim, pour quickly. Paraffin at once. Makes about 11 glasses (6 fluid ounces each).

**PLUM RELISH**

3½ cups (1¼ lbs.) prepared fruit  
6½ cups (2¾ lbs.) sugar  
½ cup vinegar  
½ bottle fruit pectin

To prepare fruit, pit (do not peel), about 2 pounds fully ripe plums. Grind or chop fine; add 1 teaspoon each cinnamon, cloves, and allspice, or any desired combination of spices. Measure sugar, prepared fruit and vinegar into large kettle; mix well and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Skim; pour quickly. Paraffin hot relish at once. Makes about 10 glasses (6 fluid ounces each).

Anyone can tell you the way to invest money. It's the way you didn't.

**SUNDAY SCHOOL LESSON**

JULY 21

**DAVID (THE GREAT-HEARTED)**

Golden text: Not looking each of you to his own things, but each of you also to the things of others. Philipp.ans 2:4.

Lesson: I. Samuel 26:5-12; II. Samuel 1:23-27, 23:14-17.

Devotional reading: John 17:1-10.

**Explanations And Comments**

David Spares Saul's Life, I. Samuel 26:5-12. David himself reconnoitered the place where Saul was reported encamped, and found him asleep surrounded by his followers and within a barricade made by encircling wagons. He returned to his own men and asked, "Who will go down with me to Saul to the camp?" Abishai, the son of David's sister, was eager to go with him. They found the king still sleeping within the barricade of wagons, with his spear, the symbol of royalty, thrust into the ground by his head. "God hath delivered up thine enemy into thy hand this day," said Abishai as he begged permission to kill Saul with his own sword. But David forbade. "Who can put forth his hand against Jehovah's anointed and be guiltless?" he asked. There was a sacredness attached to Saul's office, and though David could not honor the man, he could honor the king.

With a solemn oath, "as Jehovah liveth," David declared that God would carry out his own purpose; Saul should meet his death as God willed, not as he, David, willed; Saul would die by a sudden stroke, or meet his death in battle (as he eventually did); God forbid that he should kill him.

David Derides Saul's Bodyguard and Wins for the Moment the Heart of Saul, I. Samuel 26:13-25. Orientals can make themselves heard from a great distance, and as day began to dawn, David, from a safe place on the mountain-top, called across to Abner, whose duty it was to watch over the king's life. "Who art thou that criest to the king?" Abner called back. With great sarcasm David answered; "Art not thou a valiant man? And who is like to thee in Israel? Wherefore then hast thou not kept watch over my lord the king? For there came one of the people in to destroy the king thy lord." How these words must have angered Abner! "The thing is not good that thou has done," David continued; "ye are worthy to die, because ye have not kept watch over your lord, Jehovah's anointed. And now see where the king's spear is, and the cruse of water that was at his head." With these words the objects were evidently held aloft, evidences of the fact that he who had taken them away from the side of the king could easily have taken the king's life instead.

Saul recognized David's voice, and then David appealed to him and asked him why he persisted in pursuing him. He, David, had been driven away from the land of Israel. "Let me not die a violent death in a foreign land," he urged, and added that it was unworthy of the dignity of the king to hunt him who was so insignificant and helpless: "for the king of Israel is come out to seek a flea, as when one doth hunt a partridge on the mountains," he said.

Then said Saul: "I have sinned; behold, I have played the fool; and have erred exceedingly." For the moment Saul was sincere, his better nature was aroused, and he promised that he would not harm David. When Tasso was told that he had a fair opportunity of taking advantage of a very bitter enemy, he replied: "I wish not to plunder him, but there are things I wish to take away from him—not his honor, his wealth, nor his life—but his ill-will."

**Pocket Knife For Dolls' House**

**Tiny Gift For Queen Mary Made From Steel 115 Years Old**

The Queen is adding to the Queen's Dolls' House at Windsor Castle a tiny pocket-knife, the blade of which weighs one-hundredth part of an ounce, or the equivalent of the weight of seven penny stamps. But it cuts as well as a full-size knife.

It is made from steel produced by Faraday one hundred and fifteen years ago. Sir Robert Hadfield came into possession of some of this steel and conceived the idea of having a number of miniature knives made from it.

Many distinguished people have accepted these knives, including the Prince of Wales, Signor Mussolini and President Roosevelt.

The Queen saw one of the knives in a shop, where a number of Faraday exhibits were on view, and was immediately interested.

When Sir Robert heard of her majesty's interest, he asked her to accept one, which she did, sending him a coin in exchange, according to tradition that the gift of a knife "cuts friendship" or brings some other form of bad luck. 2107

**Little Journeys In Science**

**PHOTOGRAPHY**

(By Gordon H. Guest, M.A.)

Photography enables man to preserve a record of events by means of pictures. Besides being an interesting hobby, it is of great practical use and has become a valuable scientific tool. Many important advances of recent years in science have been aided by the application of photography to record the phenomena studied.

Taking a photograph usually involves the making of two pictures, the negative and the print. The negative is generally made on a supporting sheet of glass or celluloid. The print or finished picture is made on paper.

The supporting celluloid, or glass plate, is covered with a layer of gelatin emulsion in which there are very small particles (known in science as colloids) of creamy crystals of silver bromide and silver iodide. In the case of negatives these particles may vary from eight to twelve one hundred thousandths of an inch in diameter. For prints, however, the particles are about one-fourth this size.

When the plate so prepared is placed in a camera and the image of some object is focused upon it, the silver bromide undergoes a complicated change which depends on the exposure. Too long or too short an exposure will prevent us from obtaining the proper contrast of light and shade. In this way an image of the object photographed is produced upon the plate. This image, however, is invisible and is therefore called latent. It can be made visible by the process of developing.

To develop the image the exposed plate is immersed in a solution called a developer which contains a chemical compound known by scientists as a reducing agent. This substance changes the silver compounds, on which light has acted but will not (within a reasonable time) change those in which action has not been started by the light, into very small particles of metallic silver. The silver so formed is deposited in the form of a black film which sticks closely to the plate. It is these black particles of silver which make up the dark part of the picture. The silver compounds which were not immediately acted on by the developer must be removed, or they will be changed to silver and thus the picture would be ruined.

To remove the unchanged silver compounds the developed picture is placed in what the photographer calls a fixing bath, which consists of a solution of a chemical known as sodium thiosulphate or more commonly as hypo. The unchanged silver salts in the gelatin dissolve in the fixing solution. The plate is then washed with water and dried. The plate is now called the negative because whatever in the original was bright is represented by dark silver and where the original was dark the negative has been washed clear.

The print is made on paper which is prepared in almost the same way as the negative plate. The negative is placed upon this paper and exposed to the light so that the light must pass through the negative before striking the paper. The least light comes through where the negative is darkest and hence this part will be the lightest part of the picture when the silver bromide has been dissolved out. Light passes through the lighter parts of the negative and strikes the sensitive silver bromide on the paper and this part on developing will be dark. The print is thus the reverse of the negative and as the lights and shades correspond with the original it is called a positive. The tint of the positive is sometimes changed by a process called toning.

**Ask For Extra Police**

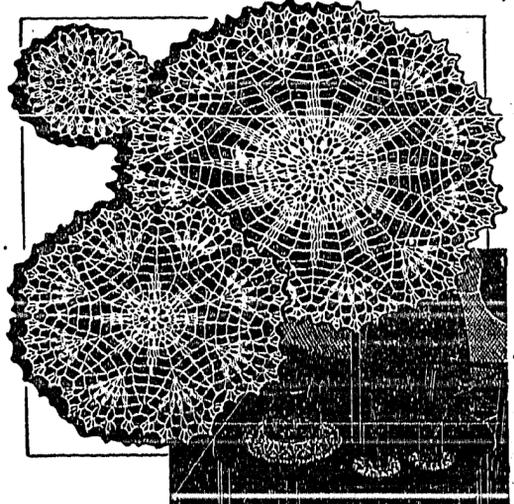

**Smallest County In England Wants Protection Against Speeding Cars**

For the twelfth year in succession there has been no assize court held in the county of Rutland, England. True, it is the smallest county in the country, the population being 17,400, mostly farming people, but it is quite remarkable to have no cases serious enough for a judge to deal with.

And yet the county authorities have asked that the police force be increased. There are 17 men now, and one recruit. The authorities want another hobby. The reason is that so many motorists go scorching across the county breaking the speed laws which keep the police force busy and the magistrates from stagnating for lack of something to do, that another policeman is needed to cope with offenders.

If it were not for the motorists, the present force of 17 policemen and one recruit would be about 17 too many.—St. Thomas Times-Journal.

Make a Luncheon Set or Doilies of String Crochet

PATTERN 5372.

These lacy doilies suggest that airiness that we all aim for in our homes in summer. Lovely for luncheon sets, doilies, refreshment sets as well as many other accessories, they are quickly made. You can use unbleached, white or colored string. You can starch them stiffly if you like and very pretty they look this way! The design is so lovely a one that these doilies will be something you'll want about all the time. They make excellent gifts or bazaar donations for even one alone has its uses. They measure 5, 11 and 15 inches in diameter.

In pattern 5372 you will find complete instructions for making the doilies shown; an illustration of them and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

## STOPS ITCHING In One Minute

D. D. D. Prescription Speeds Relief

For quick relief from the itching of pimples, mosquito or other insect bites, eczema, rashes and other skin eruptions, apply Dr. Dennis' pure, cooling, liquid, antiseptic D. D. D. Prescription. Forty years' world-wide success. Penetrates the skin, soothing and healing the inflamed tissues. No fuss—no muss. Clear, greaseless and stainless—dries up almost immediately. Try D. D. D. Prescription. Stops the most intense itching instantly. A 35c trial bottle, at any drug store, is guaranteed to prove it—or money back. D. D. D. is made by the owners of ITALIAN BALM.

CHAPTER VIII.—Continued

There followed a silence until Cousin Columbine exclaimed: "Dear me! Here I am dwelling on the past like an old woman; when what I started out to tell you was why I wrote that idiotic letter. You see, my mother instilled into me the knowledge that we came of gentle people—finer people, perhaps, than some of our good neighbors. She was an orphan, with no near relatives of her own; but she was very proud of the Nelson connections, and always kept us up to certain standards. If we lived in a cabin with a dirt floor, at least, there were spotless curtains at the windows, and we ate off a white cloth—a clean one too! I think her dream was to send me East for an education; and long as they lived she corresponded with Father's parents, something he might have neglected to do himself. Later she wrote down the names of the younger members of his family, among them your Grandfather Nelson's, Father's half-brother, telling me that if I were left alone and needed help, I was to appeal to them."

"Did you ever have to?" queried Nancy.

The old lady shook her head.

"But I kept in touch with them, as Mother would have wished. Many have died, of course; for Father was so much older than his half-brothers that he was almost of another generation."

"It must seem strange never to have seen any of your own people," commented Jack.

"Not only strange," said Cousin Columbine, "but sad, in a way. It was that sadness which caused me to make a resolution to see some one belonging to me—some one of my own blood, before I died."

"But why didn't you go East for a visit?" questioned the boy, forgetting the consternation he had felt at this idea when, weeks before, Aunt Louise had read aloud the letter from their distant relative.

"Because," responded the astute old lady, "I was not sure of a welcome! I realized that I was nothing to my Eastern cousins but a bit of family history—a queer old woman, perhaps, who was born in a covered wagon, and whose life had been lived in a little Colorado town. Besides, I dreaded to be away from home, even temporarily. My roots go deep, like the roots of an old tree that has never been transplanted. I admit I toyed with the idea; but gave it up; and the next thing was to get some of you to come to me."

She paused, and Jack said, smiling: "But how did you happen to pick out Nancy?"

"I could hardly expect the older members of the family to drop their work and come at the whim of a cousin whom they had never seen, could I? Besides, I had a yearning for some one young. But I've read about those modern girls, Nancy, and was just a bit afraid. Suppose, I asked myself, suppose I get her out here and find she is one of those—those flappers?"

Both young people gave way to

laughter, the word sounded so strange on the old lady's lips.

"Do you see now," asked Cousin Columbine, "why I wrote that letter?"

"You mean," said Jack with sudden inspiration, "that no flapper would have accepted your invitation?"

"That's it, exactly. No girl whose sole pursuit was pleasure and society, would have been willing to put up with such a situation. But a girl like Nancy, would, I was sure, be glad to help out a poor old lonely cousin. So I made the job as unattractive as I could. It's true that Aurora doesn't do everything my way; and that often I'm desperate for some one to take a stitch for me, since I loathe the very sight of a needle, and always did. Oh, there was enough truth in that letter so it didn't lie very heavily on my conscience! And when I read it over I said to myself: 'Columbine Nelson, no one but a good, sensible, old-fashioned girl would consider this proposition for a minute; and you don't want the other kind.' So I mailed the letter."

The room was silent for a moment. Nancy's cheeks flamed, not solely from her close proximity to an air-tight stove. What would Cousin Columbine think if she knew how impossible that proposition seemed to her—that nothing in the world save Dad's financial losses would have made her give it a second thought—that she wouldn't have considered it even if Jack hadn't thought out this scheme and put it through while she fought (or wanted, to) the last ditch? Nance knew she was sailing under false colors, and didn't like it. She even avoided meeting her brother's eyes as she responded: "I'm afraid you'll be awfully disappointed in me just the same."

"No," asserted Miss Columbine briskly: "I either like a person at first sight, or I don't like them. Been that way always. I'll admit you look rather ornamental; but that's nothing against you if there are brains in that pretty head of yours, and I don't doubt that, you being a Nelson. As for your brother, his brains were evident in the letter he sent me. Back in my father's day he would have been a pioneer."

Nance laughed.

"I can't see Jack driving a covered wagon, Cousin Columbine!"

"You don't have to in these days of automobiles. But he's got the spirit, and that's what counts, my dear."

Jack flushed now, not being as sure as Cousin Columbine that he possessed the courage of his forefathers.

"When do I go to work?" he questioned, in an effort to change the conversation.

The old lady hesitated, and then said: "Here's my second confession: When I sent that telegram I had a job for you on the McKenzie ranch over Divide way; but the next day Mrs. MacKenzie telephoned that her nephew from Boulder wanted the place after all. Don't look distressed, Jack. You'll have a job before the week is up. I hoped the Adams would have something for you to do, but there are so many boys in the family they seldom hire outside help."

Jack was frowning a little. He said: "I must get something as soon as possible, Cousin Columbine. I don't want to sponge on you for board."

"Fiddlesticks!" she retorted. "This is the first time I've had company in fifty years. But I've asked Mark Adam to be on the lookout, and he'll find something if anybody can. He's smart as a whip; and a good boy into the bargain. All the Adam boys are good. I've always said that if Eve Adam isn't much of a cook, she's a grand success as a mother. Four sons, and every one a credit to the name."

"Eve!" laughed Nancy. "How did she ever dare to marry a man named Adam?"

"Because," replied the old lady with a twinkle, "she'd set her heart on doing just that thing—always said that when she found an Adam she was going to rope him. What she wanted was to find one with Adam for his first name; but when John Adam came along she snapped him up—at least, that's the way she puts it. Eve was a Denver girl. Her

father made considerable of a fortune in gold in 1878, and lost it as many others did just then. After years of hardships, so much money went to their heads. Eve's father bought stock in fraudulent companies, and when the boom collapsed—well, he collapsed with it, you might say."

"Were they left with nothing at all?"

"Practically, but Eve's uncle in the East had money, and gave the girl an education. She was in Boston for three years; and on her way home she met John Adam on the train. He was going to California for his health; but when he saw Eve he decided that his health wouldn't be much use to him in California, if she was in Colorado. You needn't grin, Jack. It was just like that—love at first sight. And when she found his name was Adam, that settled it."

"Did he get well?" asked Nancy.

"Mercy yes! As for the boys—you've seen two of 'em. They don't look like invalids."

"And there are two more?"

Cousin Columbine nodded.

"Luke's eighteen, and John will be—"

"You don't mean," gasped Nancy, "that they're really named like that—Matthew, Mark, Luke and John?"

Jack rocked with mirth, and Cousin Columbine's eyes lighted.

"Indeed they are. Folks at Pine Ridge are used to 'em and never think about it; but I dare say it sounds queer to outsiders. That was Eve's doings. She's sort of fantastical and dreamy. But she's a wonderful woman and her husband worships the ground she walks on. I wish I could have got you a job there, Jack. They're fine people the Adams. Goodness gracious, children! it's almost eleven o'clock! I haven't sat up so late since 1902 when the schoolhouse burned down and Aurora pounded on the door to wake me up on her way to the fire. Breakfast's at seven. We'd better be getting settled for the night."

It had, Nance admitted, as she snuggled down under the heavy patchwork quilt, been an interesting evening. After all, she wouldn't write that letter to her father—not yet, anyway.

### CHAPTER IX.

More than two weeks slipped by with no sign of a job for Jack. This troubled the boy, though Cousin Columbine insisted that he more than earned his board by chopping firewood—new work to Jack, though when his sister consoled with him one afternoon, he declared he enjoyed it.

"But just the same, Nance," he added, lowering his voice that Aurora Tubbs, peeling potatoes at an open window, shouldn't hear, "I'm worried. I've got to earn some money; ried. I've got to earn some money; body 'round here needs a ranch hand? Mark's been inquiring everywhere and hasn't got so much as a bite. Say!" (tearing off his sweater and tossing it upon the ground), "can you believe it's December first?"

Nance couldn't. There was a tang to the air, but the day seemed more like late fall than winter; and the sky was as blue as it is possible for a sky to be.

"I think," Nancy confided as she perched precariously on the chopping block, "that this bright sunshine keeps us from being homesick. Since that first afternoon I've had

only a few twinges; though I rather dread the time when we're settled down and you away somewhere. Cousin Columbine says we ought to be seeing some of the points of interest around here. I'm going to climb that hill off to the north. Do you want to come?"

Jack glanced at the wood pile. "Can't just now. You run along alone, Sis. Look here!" (as she started off), "haven't you got anything but those silk stockings?"

"That's exactly what I asked her this morning." Aurora's voice came through the open window. "Like as not that handsome pair of hose will be full of runs when you get back, Nancy Nelson. Why not borrow a pair of Miss Columbine's black cottons?"

Jack was obliged to hide a grin at a vision of his fastidious sister in cotton stockings; and Nance replied, almost impatiently: "Oh, see here, Aurora, didn't Juanita have on silk stockings at the post office this morning?"

"If she did, I'll paddle that girl when I get home," asserted the good woman. "Juanita Tubbs wearin' silk stockin's in the mornin'! What's the world comin' to?"

"Mercy!" gasped Nance. "Have I got Juanita into trouble? I hope not. Next time we go down to the Springs, Aurora, I'll buy some woolen sport hose. I thought I packed a pair, but can't find them. Now don't worry any more on that subject. How do I reached that hill—the one with the pine trees on it?"

(To Be Continued)

## THE RHYMING OPTIMIST

By Aline Michaelis

AFTER LOVE

Love may come a little while  
When care wanes, or strife;  
Love may walk with you a mile  
And an April hour beguile,  
Only, in your life.

But forever and a day,  
Echoing love's song,  
After love has passed away,  
After gods have turned to clay,  
Memories will throng.

Memories of love's kiss, love's  
glance,  
These will wake anew,  
With their aura of romance  
Bringing back, through change and  
chance,  
Joy again to you!

Three hundred chicks have been hatched and successfully reared at Eure, France, from the Canadian Record of Performance stock imported in 1934. As a consequence, representatives from France are to visit Canada this year to make more purchases of Canadian R.O.P. stock.

When we can not find contentment in ourselves, it is useless to seek it elsewhere. 2107

## Little Helps For This Week

"Who is among you that feareth the Lord, that obeyeth the voice of His seryant, that walketh in darkness and hath no light, let him trust in the name of the Lord and stay upon his God." Isaiah 50:10.

When we in darkness walk,  
Nor feel the heavenly flame,  
Then is the time to trust our God,  
And rest upon His name.

He has an especial tenderness for those who are in the dark and have no light, and His heart is glad when they say "I will go to my Father." For He sees thee through all the gloom through which thou cannot see Him. Say to Him, "I am Thy child. Forsake me not." Then fold the arms of faith and wait in quietness until the light goes up in the darkness. Think of something you should do and go and do it, if it be but the sweeping of a room, the preparing of a meal, or a visit to a friend, heed not your feelings, but do your work.

## Life Of Parliaments

Would Limit Length To Minimum Of Five Years

That five years should be the minimum effective life of parliaments in the empire was one of the suggestions made by Sir Arthur Weigall, chairman of the council, presiding over a luncheon tendered by the Royal Empire society to the delegates from empire parliaments meeting in London.

He also suggested civil servants in Britain and the Dominions should be inter-changeable; and that both in Britain and the Dominions the governments should include a definite number of ministers without portfolio.

With a parliament of less than five years, said Sir Arthur, the ministry was standing in the stirrups and looking for an election rather than settling down in the saddle. (Australian and New Zealand parliaments are limited to three years).

## Root Action Extracts Moisture

One foot of the heavier type of Saskatchewan soil will hold the equivalent of two inches of rain. A long series of experiments at Swift Current experimental farm by Mr. Taggart, minister of agriculture, had shown that wheat roots would extract moisture from the soil to the depth of six feet, provided no layer of dry earth intervened. There was practically no upward movement of soil moisture except through root action.

Traveller—"Can I get anything to eat in this dump?"

Waiter—"Yes, sah, you kin."

Traveller—"Such as what?"

Waiter—"Such as it is, sah."

### What a relief for the Frimwells

"We used to think that we didn't need a telephone because our neighbors had one," said George Frimwell. "Whenever we had to call we just ran next door.

"Then we began to wonder if it was fair to our neighbors. They were always very nice about it, but it must have been a great inconvenience to have members of our family barging in on them, morning, afternoon and night.

"Finally we decided to have a telephone of our own. What a relief! It's a great feeling to know that we won't be pestering our neighbors any more."

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, JULY 19

### HOME BREW

The statement just submitted by the B.C. Liquor Control Board for 1934-35 operations would indicate that either prosperity is on the way back, or more people during the last fiscal year took to drink to drown their sorrows. Sales of liquor for the year just closed were close to \$13,000,000, or more than \$20 per head of population, and a million dollars in excess of the sales of the previous twelve months. Profits accruing to the provincial treasury, as a result, were \$172,998 higher than in 1933-34 and exceed the budget estimate by more than \$785,000.

BE SURE YOUR FIRE IS OUT!

These are your forests . . . this your cigarette, a moment's carelessness . . . a wandering campfire may destroy them for years to come. Help preserve B.C.'s evergreen playgrounds . . . be careful with fire in the woods.

**SAVE YOUR FORESTS!**

Make Sure Your Match, Cigarette or Fire is Dead Before You Leave It.

cent for apples. The county of Herefordshire, the most important fruit region in this district, estimates losses of from 50 to 75 per cent. for cider and dessert apples.

And talking about the export apple deal recalls a report just issued by the Fruit Export Board of Canada dealing with the Nova Scotia apple crop of 1934. Showing the distribution of the crop during the season 1934-35 it discloses that 1,001,189 barrels were exported to England, 100,925 to Scotland, 60,020 to Wales and 133,466 to the European continent. At the same time Canadian markets consumed 356,456 barrels, 453,012 barrels were manufactured in Nova Scotia and it is estimated that 100,000 not reported were consumed at home and marketed locally. Shipments aggregating 15,237 to Newfoundland and 8,212 to the West Indies bring the total to 2,228,487 barrels.

### Our K. B. O. Broadcast

The Okanagan is looking for a 1935 apricot crop of 130,000 crates.

The Courier reports the first sweet peas in bloom at Cranbrook on July 10th.

Vernon Fruit Union is increasing its cold storage plant capacity to 175,000 boxes.

Damage by early July rains to the Okanagan cherry crop is not as serious as first reported.

The Idaho grand lodge Knights of Pythias will hold its 1935 annual meeting at Bonners Ferry.

The B.C. Tree Fruit Board has just ordered that Wealthy apples may not be shipped as cookers this season.

Talking picture shows have again been introduced at Nakusp, operating one night a week—Thursdays.

Salmon Arm Chamber of Commerce has 70 member, but no dues were collected during the year just closed.

The city owned tourist park at Cranbrook reports from 25 to 30 cars registered nightly, which is a slightly better showing than a year ago.

Kaslo is to have hospital week August 12th to 17th, when the ladies auxiliary will have some sort of money making entertainment each day.

Due to cutting the rate last season Grand Forks council collected \$1000 less from its light customers up to the end of June than for the same period in 1934.

Cranbrook Courier: Heavy hay crops are looked for in the district this year. The rain has been doing damage to some already cut. Crops on St. Mary's Prairie never looked better.

Fernie Free Press: At a large gathering of Conservative representatives from all over the federal constituency of East Kootenay held in Cranbrook on Thursday it was unanimously decided that no Conservative candidate be put in the field.

### Sirdar

J. S. Wilson was a business visitor to Canyon and Erickson, Saturday.

Miss Rosie Pascuzzo has left for Nelson where she will spend a holiday with friends.

Mrs. Taylor of Alice Siding is a weekend visitor at the home of T. Rogers and daughters.

Two water engineers were at Kootenay Landing moving the automatic water gauge to a new site.

Master Neil Richards of New Jersey is staying with Mr. and Mrs. C. Neil at their ranch, Kuskanook.

E. S. Jones, district public works engineer, Cranbrook, was a visitor to Atbara on his way to Nelson, Sunday.

Mosquitoes are not nearly so bad this year and with the hot weather it looks as if they will be past their worst very soon.

Dick Neal and Barry McDonald and party from Kingsgate were fishing at Hall Creek at the weekend with good results.

Mr. and Mrs. J. Harlow and daughter left for their home in Nelson, Wednesday, after spending a holiday with Mrs. Harlow's parents.

The Sukeroff truck took in two truck loads of hay from Creston during the week for the horses at the tie making mill at Goat Creek.

A. Millen of the Kootenay Telephone Company made an inspection trip over the line on Wednesday accompanied by one of the C.P.R. linesmen, going as far as Tye.

Adam Robertson, A. Hagen, and D. Benedetti were at Canyon Creek fishing over the weekend. Sport is reported good in all the creeks contingent to Kootenay Lake at present.

A C.P.R. work train was engaged between Atbara and Kootenay Landing depositing large rocks on the north side of the railway track, Monday. Twenty five cars were unloaded.

The most popular meeting place for the men folk in the evenings is at the out of doors bowling alley. Many keen contests are to be witnessed any evening. It is a good clean sport and requires much skill.

The water as indicated by gauge at Slough bridge reads 11.40 a fall of 2.60 for the week. The weather of the past week has been extremely hot but even with the weekly fall registered this week it will be late in the season before hay cutting on the flats will be practical.

The road grader was here, Thursday and put the road into good shape, later it proceeded towards Creston. The roads are in pretty fair shape considering the dryness that prevails. Motor traffic passing is very heavy with American and other provinces being chiefly represented.

Wild life was never known to be so abundant at this time of the year. Deer are very plentiful and tame. The passenger train killed one at Atbara junction, Friday. The crow killing campaign put on by the Rod and Gun Club is bearing good fruit as crows kill off much game life.

The compressor and crew have been detached from the Sirdar area and taken to Creston where they will be engaged on rock work on the K.V. section of the highway. Practically all the drilling necessary on the widening project east of Sirdar is finished and this portion should be in use shortly.

An important land deal was consummated this week when the Arthur North

ranch was acquired by Mr. Quigley from Alberta with immediate possession. The price reported was a substantial one. This is one of the best ranches in the district and has been in the hands of the seller for about 25 years.

The Cranbrook Homing Pigeon Club's big race took place from here on Sunday morning under ideal flying conditions. Liberation was made at 9 a.m. with a slight north wind. Eighty birds were engaged and upon liberation circled above the lake until an elevation of about three hundred feet was attained. Evidently testing out the wind, proceeding towards Wynndel, they again circled and soared to a height of about one thousand feet the flight was still bunched together. At Creston another elevating movement was performed until a height of about fifteen hundred feet was reached, when it was observable that the fast birds began to gain on the slower ones and it was obvious that they had got their sense of direction near Creston. It was expected the flight would have taken a course up the lake towards Crawford Bay and through Hazel May mountain pass as they have done on other occasions. But this race proves that the wind actuates the birds as to which route they will take. Any flights that went by Crawford Bay in the past had the wind with them. Many interested spectators viewed the liberation and this sport looks like coming very much to the fore as the thrill of pigeon racing gains a hold. The liberators were: Edward Fabio, John Rogers and James S. Wilson.

Miss Beryl Palmer got back on Monday, from a holiday visit with friends in Fernie.

Creston will play the return game with Cranbrook in the divisional city on Sunday afternoon.

Provincial assessor, J. A. Stewart of Nelson has been here on an official visit during the week.

Mrs. Lyon of Craigmyle, Alberta, arrived on Friday on a visit with her sister, Mrs. R. J. Forbes.

The dance under Roman Catholic Church auspices at Wynndel July 19th, has been cancelled.

Express shipments out of Creston are heavy to raspberries at present. The berries are now about at their peak.

The Grand has another stellar attraction in George Arliss in the "Iron Duke," which is showing tonight and Saturday.

Due to the prevalence of measles in the village the swimming pool at Exhibition Park has been closed temporarily.

Mr. and Mrs. B. Morabito got back on Saturday from a few days visit at Calgary, for the exhibition and stampede last week.

Mr. and Mrs. Howard Allan and son, Jim, of Trail, are holiday visitors here, guests of Mrs. Allan's parents, Mr. and Mrs. Jas. Cherrington.

Miss H. Sloan, of Nelson, district superintendent for the B.C. Telephone Company, was here on official business at the first of the week.

Creston's first streak of summer weather set in on Saturday, with the hottest day recorded Sunday, when the mercury hit 91 in the shade.

Mr. and Mrs. J. Stoult of Empress, Alberta, and Mr. and Mrs. Alex. York, also of Empress, are visitors here at the homes of Mr. and Mrs. Matt. York and Mr. and Mrs. W. S. Weir.

At the annual school meeting on Wednesday night, J. F. Murrell was elected trustee to replace Geo. Nickel, who refused to stand for re-election. \$10,194 was voted for expenses in 1935-36.

L. A. Cambell, vice-president and general manager of West Kootenay Power & Light Company, Limited, and R. C. Crowe, the firm's solicitor, were Creston visitors on Monday on Company business.

The Moncreiff firm at Vancouver has been awarded the contract for building Creston's new four-room school, and construction is expected to be under way next week. It will take ten weeks to complete it.

Friday evening, August 2nd, is the date of the dance under the auspices of Holy Cross Church, at which the drawing will take place for the four prizes on which tickets have been on sale for some weeks past. The dance will be at park pavilion, Creston.

Mrs. E. Christensen and daughters, Mrs. E. Breneman and M. S. V. Ersinger, of Moscow, Idaho, were here for the marriage of the former's son, Harry Christensen, to Miss Marion Learmonth, which happy event took place on Tuesday. The ladies returned on Wednesday.

The school trustees on Tuesday received the resignation of F. P. Levins as principal of Creston high school. He has accepted a similar position at Kimberley. A brand new high school staff will have to be secured as Mr. Sostad and Miss Smith had previously resigned.

At the election of members to the B.C. Tree Fruit Board, on which the ballots were counted at Kelowna on Friday, the old board—Messrs. Haskins, Barrat, and Hembling were re-elected. Of 212 registered voters in Creston-Boswell, 115 of whom voted for Haskins, 111 for Barrat and 100 for Hembling.

Employees of Creston Valley Co-Op. are putting in some overtime this week getting things in shape for the opening of their enlarged store, featuring the new and fully modern meat department. The opening is to-morrow, 20th, and an attractive lot of specials are featured in their advt. on the back page.

Vacancies on the Creston public school staff have now all been filled. Ben Crawford, who taught at West Creston the past two terms, succeeds Adam Robertson as vice principal. Miss Helen Moore, who has been at Lumberton the past two terms, takes Miss Learmonth's room, and Miss Gladys Webster, who has been on the staff of the Michel-Natal consolidated school the past four years, will have charge of the new room that is being opened.

**Erickson**

Master Henry Lemoigne is on a visit with friends at Yahk.

J. Comworth of Fernie is here on a visit, a guest of Bob Currie.

Stewart Penon was a Bonners Ferry visitor at the end of the week.

Miss Westly of Fernie is an Erickson visitor, a guest of Mrs. A. Mensinger.

Mrs. Murdoch McLeod and family of Vancouver are here, guests at the home of Mr. and Mrs. F. J. Klingensmith.

Mr. and Mrs. Fenton Smith and George, of Kimberley, were weekend visitors with Mr. and Mrs. Sam Fraser.

S. Cochrane, who has been operating a butcher shop here for some months, moved his family to Yahk, where he has opened a butcher shop.

The annual school meeting on Satur-

day night was very poorly attended. R. M. Telford refused nomination and succeeded as trustee by Mr. Hamilton. Mrs. M. Bean succeeds E. J. C. Richardson as auditor. \$1800 was voted as running expenses.

Erickson Ladies' Hospital Auxiliary report quite a successful lawn social at the home of Mrs. F. Putnam on Wednesday evening last, with which went a sale of home cooking, the affair enjoying a cash intake of almost \$40. Creston Band was most generous with its musical selections, playing until about midnight. A feature was the cherry tree which was brilliantly lighted with gaily colored globes—the work of the West Kootenay.

**Canyon**

Mrs. Kolthammer was a patient at Creston hospital a few days last week.

Mr. and Mrs. W. Ridd and H. Young were auto-visitors to Cranbrook on Friday.

C. B. Twigg, district agriculturist, is in the Canyon section this week, taking the orchard tree census.

Mr. F. and Miss Frances Knott spent a few days in Calgary last week at the exhibition and stampede.

Miss Nissie McRobb has again joined the office staff of Creston Co-Operative Fruit Exchange at Creston.

Mrs. Aubery Cross of Winnipeg, Mar., is a visitor at present, a guest of her sister-in-law, Miss Edna Cross.

Bing and Lambert cherries are being picked this week. The crop is hardly more than 50 per cent. of the 1935 yield.

Mrs. W. Cook, who is a patient in a Calgary, Alberta, hospital is making a nice recovery after her recent operation.

Jim Dodds and Bob Marshall have charge of the log skidding work in connection with the John Nygaard tie sawing contract.

At the United Church service Sunday afternoon the pastor, Rev. A. Walker's subject was, "Religious and Political Freedom."

Mr. and Mrs. Tom Young of Trail called on Mrs. Young's mother, Mrs. C. Robinson, on their return, Monday, from the Calgary stampede.

Sunday was the hottest day of the season so far. It was 90 in the shade at the West Kootenay Power & Light Company, Limited, power house that afternoon.

L. A. Cambell, general manager, and L. Crowe, solicitor, of the West Kootenay Power & Light Company, Limited, were visitors at the plant on Tuesday morning.

The Universal Motors, Creston, had a demonstration of Ford cars and trucks, and how to handle them, at the community hall, Tuesday night, which was largely attended.

Latest word from Cranbrook hospital is to the effect that Mrs. Cross is making a satisfactory recovery, but Mr. Lowerson's condition is not as favorable as could be wished.

The weather was too hot on Monday and, in consequence, the turnout for the C.C.F. Club meeting, at which Mrs. Angus McInnis of Vancouver was the speaker, was rather lightly attended. The chair was taken by R. D. Penson.

\$1600 was voted to finance Canyon school for 1935-36 at the ratepayers' meeting on Saturday night, over which W. E. Searle presided. \$150 of this will be required for a new woodshed. Mrs. G. Messinger was elected trustee to replace A. A. Bond, and Mrs. Messinger was elected auditor.

**A July Wedding**

Bannockburn ranch, the home of Mr. and Mrs. D. Learmonth, was the scene of a very pretty house wedding at high noon, Tuesday, July 16th, when their eldest daughter, Miss Marion Elizabeth, was united in marriage with Harry Paul, son of Mrs. E. Christensen, of Moscow, Idaho, Rev. A. Walker officiating.

The bride entered the room on the arm of her father to the strains of the wedding march played by the groom's sister, Mrs. Breneman, and was charmingly attired in a deep blue floor length silk crepe gown. She wore a large white picture hat with gloves and slippers to match, and carried a bouquet of pink and white roses. Miss Jessie Learmonth, sister of the bride, was bridesmaid, and wore a pale yellow silk organdie dress with white accessories, and a bouquet of yellow and white roses. Little Marjorie Breneman was flower girl and carried a bouquet of pinks. The groom was supported by his youngest brother, Clarence Christensen.

The ceremony was performed under an arch of evergreen and white wedding bells. Following the ceremony a buffet lunch was served on the lawn and was attended by just the immediate friends and relatives. A three tier wedding cake centred the bride's table.

After the reception Mr. and Mrs. Christensen left on a wedding trip to Banff, Calgary and other points in Alberta. The bride's travelling costume was of navy blue with trimmings of a lighter shade with accessories to match. The young couple wore the recipients of many and beautiful wedding presents. The bridesmaid was remembered with a silver bracelet; the flower girl a beaded purse; and the best man, a gold watch chain.

The bride is a graduate of Creston high and public schools and for the past four years has successfully taught Division 4 of Creston public school. The groom is a member of the firm of

Christensen brothers who, in addition to handling the contract of re-tying the old Reclamation farm is also operating considerable of the north end of the property. Both are deservedly popular citizens and have the very best wishes of a wide circle of friends for a long, happy and prosperous wedded life.

**Scouts Climb Mountain**

Creston troop Boy Scouts had quite a thrilling weekend outing at the forestry lookout station at the top of Thompson mountain, to which location they were taken by J. P. MacDonald, forest ranger and Ed. Gardiner, scoutmaster. The scouts turned out at the forestry office at 8 p.m. when roll call was taken and showed ten scouts present: Billy Craig, Egon Holm, Jimmie Lockhead, Edward Davis, Campbell York, Charlie French, Will Chappell, Bob Vigne, Wilfred LaBelle and Sam Nastasi.

Although the trail was very rugged and quite steep all the boys negotiated the trip to the top without much difficulty. Mr. MacDonald explained many things to the boys, including the proper way to load a pack horse, the construction of the diamond hitch, which is used to hold the pack in place. He showed how to distinguish the many kinds of trees as well as demonstrating other features of forestry work. Mr. MacDonald also instructed the boys how to tie many kinds of knots that are not in scouting, also other tricks. At dusk the boys lighted a huge bonfire at the top, which could be plainly seen from town.

Sunday morning the troop was up early and took a hike along the ridge of the international range and erected a flag at the highest point. On the return trip the troop left the outlook station at 3.45, and arrived at Canyon at 5.15, making the descent in ninety minutes. The troop greatly appreciates the effort of Mr. MacDonald, and Charlie Pipe, who is in charge of the lookout.

**Funeral of George Seymour**

In the death of George Seymour, which took place at Creston hospital on July 10th, Creston district has lost an oldtime resident, and one who had seen service with his majesty's forces both on sea and land. Deceased, who was in his fifty-seventh year, was a native of Hampshire, England, who, previous to coming to Canada, had served in the British navy, under the well known Admiral Beresford, more familiarly known as "Condor Charlie." He came to Creston about 1904 from Golden and followed logging and lumbering. He took up a pre-emption at West Creston, which he later sold to R. Lamont and then purchased which is known as the Barnett ranch in the same locality. He went overseas from Creston late in 1914 and served through many of the big engagements up to Paschendale, in which he was wounded in the head, terminating his service at the front. He returned to Creston in 1919 and resumed residence on his West Creston property. The late Mr. Seymour was the first to have charge of the ferry at the Reclamation farm when it was installed in 1908, and served on the trustee board of the first school opened at West Creston about six years ago. There was a large turnout for the funeral on Friday morning from the Presbyterian Church, under the direction of Creston Valley Post Canadian Legion, Student pastor, H. Ealer was in charge and the pallbearers were: C. Lowther, J. Hall, J. B. Holder, F. Lewis, H. Powell, C. Moore. Last post was sounded by Bugler H. E. Cox of the Legion. Deceased is survived by his mother, two sisters and one brother, all of whom reside in England.

**CHRISTIAN MISSIONS**

Golden text: Go ye into all the world, and preach the gospel to the whole creation. Mark 16:15.  
Devotional Reading: Psalm 67.

**Explanations And Comments**

**Power for Witnessing, Acts 1:6-8.**  
In their last interview with the Risen Christ, the apostles asked him when he would restore the kingdom to Israel. Their question shows how well-nigh impossible it still was for them to rid themselves of the common Messianic expectation of the Jews that the Christ would rule over a Jewish nation independent of Rome and herself dominant, politically and religiously, over the other nations of the earth. "It needed the Pentecostal outpouring of the Holy Spirit to teach the apostles that Christ's Kingdom is not of this world."

In his answer, "It is not for you to know times or seasons which the Father has set within his own authority," Jesus does not stop to teach his disciples once again what he had so often taught them, that they had a wrong view of his kingdom, that it had nothing to do with their subjection to Rome; instead, he warns them about speculation as to times and seasons. And then he promises them power through the coming of the Holy Spirit, and bids them be his witnesses in Jerusalem, and in all Judea and Samaria, and unto the uttermost part of the earth. "They were all thinking of 'kingdoms,' but the kingdom of the disciples was a little, vanishing splendor, while the Kingdom of Christ was the whole universe and purpose of God."

The Acts records the story of how the apostles carried out this commission. "The uttermost part of the earth" is represented by Rome, the capital of the Empire, the place where, as Irenaeus said, "All met from every quarter."

Whenever and wherever men and women are unitedly spiritual, prayerful, self-denying, carefully taught in Christian truth, and waiting upon the Spirit of God for his guidance in a matter of profound importance to His work, then and there the scene is laid for a mighty Christian enterprise to have its auspicious beginning or to advance its success.

**No Leather Shortage**

**Situation Here Not Parallel With United States**

Canadian consumers and boot and shoe manufacturers have no need for concern if a shortage of heavy sole leather due to drought and increased slaughtering of heavy cattle in the United States develops in the republic, Dominion government officials said.

"The feared United States situation is not paralleled in Canada and the slaughter of heavy cattle in the Dominion is almost negligible, as the tendency is to market our cattle earlier than formerly," officials said. Approximately 95 per cent. of boots and shoes worn by Canadians are manufactured in this country, it was estimated. Of those imported the great bulk was from the United Kingdom.

**Leave For Arctic Posts**

**R.C.M.P. Constables And Inspector Take Up New Position**

Three R.C.M.P. constables, who have already left Regina for Arctic posts, will shortly be joined by Inspector G. J. M. Curleigh and his bride. The latter was Miss Jean Stoddart, Regina.

Inspector and Mrs. Curleigh will go to Aklavik Constable G. Abraham, with a record of previous northern service, goes to take charge of Arctic Red River detachment. Constable D. C. Siln, a Regina, to Fort Resolution and Constable R. E. Medley to Cameron Bay. They will go "in" from McMurray by river boat.

**The Usual Place**

Possibly you, too, have wondered where King George puts his hat when he is in church. When His Majesty attended the thanksgiving service in St. Paul's Cathedral in London, he was wearing the special plumed hat that is reserved for such occasions. During the service, the hat was simply put on the floor at the King's feet, just where over other men usually puts his hat when he goes to church.

Zuni Indian women of the American southwest are so used to balancing large pottery jars on their head that some women can even run without touching the jar with their hands.

**Our Beautiful Snow And Blue Geese**

By JACK MINER  
Canadian Naturalist

Readers please pardon a few words of my wild goose history. The ancient facts are that I was from 1904 to 1908 getting the first 11 Canada Geese to alight at Kingsville, and by 1912 the flock had grown to be known all over the continent. That spring one blue goose came with the honkers and to tell the whole truth I had not been far enough from home to know what it was, but we named her dolly white head. In 1915 we started banding the Canada Geese and soon got in touch with the Eskimos and Missionaries of the far, far north. We found that the Eskimos called these Blue and Lesser Snow Geese, Wavies. Well gradually more and more wavies came until I found myself weaving and waving away into wavy anticipation as wavies were seen at Point Pelee, Rondeau, St. Clair Flats, Cedar Creek, and Anderson Marsh. In fact odd ones were seen for fifty miles around our sanctuary and I got the snow and blue goose fever so badly that I wrote Mr. Paul Reddington who was then Chief of the United States Biological Survey, at Washington, D.C., asking permission to go into the Louisiana Marshes to band the wavies. He replied at once stating he would allow me the privilege providing I would put the United States Biological Survey Bands on them. To this I made no reply, but in about two weeks I received another letter offering me the privilege to put my band on one leg and the United States Biological Survey band on the other. Readers please pardon my lack of grammatical education, but if Mr. Reddington had written me the last letter first I would have banded five thousand of those wavies in less than three years, and the results could have gone into all the schools in America. But by the time I received that last letter I had changed my plans and I planted an evergreen forest border two rods wide around a ten acre back field, then I dug a small pond in the centre of the field and named this ten acres the wavy field and I placed five wing-tipped wavies in this ten acres, and last spring, 1934, we caught and banded seven wavies, six blues and one snow, and according to a report I saw in the Toronto Globe there was a blue goose seen near London. This is fully one hundred miles east of my home, where we are gradually drawing the wavies from the West, but the report stated this goose had orange color on its head. Now this orange is not a goose color at all; it is an orange stain gathered from feeding in the dead flags and oat tails where they nose about for the tender roots below. Well, about May 10th, these seven banded wavies circled high and took the northern air line special for parts as yet unknown to me, and nothing worthy of mention happened until between one and two A.M., October 20th, when I was awakened by an ear-full of goose honks, and when daylight came we found that fifty-three honkers had arrived, and one young snow goose. We named this goose Lucy Snow and Lucy Snow is going to be banded. Monday, October 29th, was a beautiful cold morning and the bright blue sky was dotted here and

there with low dark scudding clouds. The sun shining through in different places gave the heavens a glorious—yes, I feel like saying a glorious whispering effect. I was, of course, out chumming with all nature, when my north eye picked up as thrilling a sight as I will ever remember. Here were about fifty honkers with their honks and motors shut off, planing down out of the Heavens. They were not moving a feather, but remained in their V. formation and apparently just sat down on the air with their wings bowed downward in a half circle, as perfect and as uniform as so many new moons with their faces down. Following them was not a flock, but a small swarm of wavies—yes, there were over five hundred of them. Some of the V-shaped lines would be most all snows, while the others would be blues. Some lines were mixed about fifty-fifty. The adult snow geese being pure white, all but about twelve flight feathers at the tips of each wing, which are dark; the young being a smoky white. The adult blues have a pure white head and slate colored breast. The young blues vary from light to dark slate color, and heads from smoky white to dark slate—seldom two alike. These lesser snows and blue geese are one and the same birds in habits and size. They differ only in color and in captivity they will cross as readily as Wyandotte chickens, and I am sure they cross in the wild state, for I have a high-bred wild one here right now. So it is plain to be seen there would be at least six different colors in that beautiful flock of wavies. Yes, the Eskimos have it right. They are wavies and how they did weave and wave in the sunlight and shadow as they passed over this sanctuary, and will you believe it, this swarm of wavies was followed by another flock, then later on another and another until five flocks passed over, and in all there would be at least fifteen hundred. They passed over Kingsville on Monday, October 29th.

I believe they were booked right through to Louisiana but had there been only fifteen or twenty in that first flock, my picked-up bird knowledge causes me to believe they would have landed here with the fifty honkers that they were following. I also believe they had rested somewhere between James Bay and here, as the majority were young birds, and they were all flying high and strong. In closing I just wish to say that the thrills I am getting out of knowing that the Canada Geese are gradually influencing these beautiful wavies to come here, and that I have been able to catch and band seven in my little brickyard mudhole, home and bird sanctuary, brings me more heart pleasure and thrills me with more wide-awake bubbling over anticipation of the possibilities of what can be done at home than if I had gone into Louisiana and banded seven thousand. Therefore I can conscientiously say I am thankfully glad I did not receive that last letter first.

**To Meet In Vancouver**

The next annual convention will be held in Vancouver, delegates to the Canadian Authors' Association in session at Montreal decided. Mrs. Hamar Jackson, of the Pacific coast city, advised the association Vancouver will celebrate its jubilee next summer and delegates would be able to see the celebrations.

**Soviet Divorce Laws**

**Feeling Held In Russia That There Should Be More Stringency**

The communist party's organ Pravda called for a campaign against "Don Juan" ideas and abuse of the easy Soviet divorce laws.

In line with the new Bolshevik "morality program" which the press has been preaching in recent weeks, Pravda said a woman must not be treated merely as a subject for flirtation, to be abandoned after a short-term marriage.

Both marriage and divorce are obtainable in the Soviet union merely by registering in the neighborhood civil registry office. Too many people, Pravda said, view marriage as they do taking a street car ride.

**Here Is A Definition**

**Berserker, Meaning Frenzied Anger, Comes From The Icelandic**

Here is a phrase connoting frenzied anger bordering on madness.

When it comes to appropriating what it wants for its own purposes, the English language plays no favorites.

So, we have this expression from the Icelandic, berserker.

The allusion is to the mythological Scandinavian hero, Berserk, who fought naked and regardless of wounds, while under the influence of intoxicating liquors.

**WORLD HAPPENINGS BRIEFLY TOLD**

L. F. Philie, director of finance for the city of Montreal, announced all of the city's \$12,943,000 loan had been subscribed.

The 1936 general assembly of the Presbyterian Church in Canada will be held in McNebb street church, Hamilton, it was decided.

The Prince of Wales has publicly endorsed a suggestion that a British Legion deputation should pay a goodwill visit to Germany.

Henry Ford, departing from custom, received in person an honorary degree of doctors of laws from Colgate University, Hamilton, N.Y.

Reports in diplomatic circles stated Germany in negotiations with Italy, had proposed a plebiscite for Austria to bring about final settlement of the Austrian question.

Cost of administering the United States N.R.A. in the two years ending this month is placed at \$93,884,595 by the National Industrial Conference board.

Twenty-eight civil servants under the age of 44 years have been retired on superannuation because of ill health since Aug. 1, 1930, according to a return tabled in the house at Ottawa.

Jerry Johnson, Minneapolis parachute jumper, who bailed out of an aeroplane 15 consecutive times, is now claiming a new world record for the most jumps in one day. The former mark was 14.

The first leather footwear for the Dionne quintuplets was selected at Chicago at the shoe manufacturers' fall opening. Of a fashionable type, the shoes are size No. 2, and the material white leather, with leather soles. They have "T-straps" with pearl buttons.

**Hay Fever Season Near**

**New York Doctor Has Treatment For Numerous Ailments**

With the hay fever "season" drawing near, Dr. William H. Dieffenbach, of New York, revealed what he believes is an effective treatment for that ailment, and also for common colds, abscessed teeth and certain types of tonsillitis.

The treatment, he said, is by ultra-short radio waves, and is administered by a small economical apparatus not unlike a short wave radio set.

Dr. Dieffenbach, speaking before the convention of the American Institute of Homeopathy, explained the machine was developed after a study of the reason why radio operators, working in close quarters on ships and subjected to short waves, did not have colds.

The patient is placed on a table, the physician explained, with his head between two electrodes which do not touch him. The cold treatments last from 10 to 15 minutes and are given daily for five or six days.

**Last Of The Commanders**

Death of Viscount Byng of Vimy removes the last of the commanders of the Canadian corps. Of these, two were regular soldiers, one—the citizen-soldier. Besides Lord Byng, Major-General E. A. H. Alderson commanded the Canadians. He took over the corps when first formed.

An eminent Baltimore physician has said that snake venom becomes harmless when exposed to ultraviolet light.

**Household Arts**

by Alice Brooks

This Will Be Smart For a Summer Evening

PATTERN 5360

If you're planning to go places and do things at all, even if it's just a neighborly visit, you want to add this adorable cape to your wardrobe. You'll immediately transfer all its adorableness to yourself, it's a most flattering accessory. You can make it in white, black or any of the pastel shades. And can't you imagine how lovely it will be over that summer georgette or chiffon? It is crocheted in cotton and its soft draping adds richness and charm to your appearance.

In pattern 5360 you will find complete instructions for making the cape shown; an illustration of it and of all stitches used; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

## MOORES' Greenhouse

is now equipped to do any kind of **FLORAL DESIGN** work at reasonable prices.

R. Sinclair Smith was a business visitor at Nelson this week leaving on Monday.

**FOR SALE**—Baby sulky and com-mode chair. Going cheap. V. Mawson, Creston.

**WANTED**—Large second hand cook stove or camp range. State price. Carl Wigen, Wynudel.

Elderly farmer wants lonely elderly lady partner; Protestant, educated. Happiness. Write English, French or German. Write Box 30, Review Office.

The CCC camp baseball team from near Troy, Montana, had the best of the game with Creston at Exhibition Park Sunday afternoon, winning by a 10-9 score.

Mr. and Mrs. C. O. Rodgers and Mr. and Mrs. F. C. Rodgers and son, Jim, were Spokane visitors during the week, making the trip by auto and leaving on Sunday.

Mr and Mrs. McRoberts and Vera McRoberts of Red Deer, Alberta, and Mrs. Waltham and daughter, Jean, of Calgary, Alta., were visitors with Mrs. Burgess and Mrs. Hills on their return from a visit at the coast.

Frank Putnam, M.P.P., and C. F. Hayes were Cranbrook visitors on Friday evening for a meeting of the executive of the East Kootenay Liberal Association. Friday, August 2nd, is the date set for the convention to nominate a standard bearer.

Chas. Edgar of Fernie, returning officer for East Kootenay, was here at the end of the week, making arrangements for the coming Dominion election, which is expected in September. He was appointing the deputy returning officers and arranging for the polling places.

William Christensen of Lewiston, Idaho, spent a few days here last week inspecting crops and developments on the Reclamation Farm. He is a member of the firm of Christensen brothers, who have the contract for drying the farm, and also have about 600 acres of it in wheat this year.

G. R. Sautler, trustee in bankruptcy, was here from Vancouver the latter part of the week, making an inspection of crops on the Reclamation Farm, and was accompanied by Mrs. Sautler and son. He predicts the average yield will not be less than 30 bushels to the acre for the 3500 acres in crop.

Col. E. Mallandaine was at Cranbrook on Thursday last for a meeting of the executive of the Conservative Association of East Kootenay. No definite action was taken in the matter of calling a convention. The Fernie delegates are said to be in favor of backing Hon. H. H. Stevens, leader of the new Reorganization party.

The July meeting of the directors of Creston Valley Hospital Association was held on Wednesday, with President F.V. Staples in the chair. The secretary's report showed that collections were poor, total revenue being insufficient to cover the monthly accounts. Final accounts were presented for installation of drainage disposal system which is now working satisfactorily. All of this work was done by patients in settlement of accounts. There were 343 hospital days in June, compared to 278 in May, and 338 in June, 1934. In the half year ending June 30th, there were 2033 hospital days, compared to 1338 in the first half of 1934. The thanks of the association were accorded to W. J. Avery, M. J. Boyd, W. Donaldson, R. R. Eastlake, G. H. Kelly and E. C. F. Murrell for gifts during the month.

Members of the Canadian Legion and the Legion Ladies' Auxiliary turned out in force at the opening of the new hall on Fourth Street, Thursday evening. Entertainment consisted of cards and dancing, which was in charge of Charles Moore and his committee. A radio, kindly lent by the West Kootenay Power and Light Company, was greatly appreciated. After supper, which was served by the Auxiliary, President John Bird expressed his appreciation of the efforts which had resulted in the Legion having a home of its own, and stressed the fact

that though much had been done, much remained to be done. Mrs. Walter Jackson, president of the Auxiliary, spoke in a similar vein, and expressed the enthusiasm of the Auxiliary to help the Legion. Frank Putnam, M.L.A., congratulated the Legion and Auxiliary on the progress the organization has made, and wished it every success.

## PRESERVING SEASON

The preserving season is here. Don't put up with time-to-be-discarded equipment when you can replace it with the better kind at very attractive prices at this store.

## HOW TO MAKE ICED TEA

Infuse six heaping teaspoons of Salada Black Tea in a pint of fresh boiling water. After six minutes strain liquid into two-quart container. While hot, add 1½ cups of granulated sugar and the juice of 2 lemons. Stir well until sugar is dissolved; fill container with cold water. Do not allow tea to cool before adding the cold water, otherwise liquid will become cloudy. Serve with chipped ice.

# "SALADA" ICED TEA

## Short Life-Stories

Now and then the writer who is responsible for this column each week feels impelled, instead of writing an article himself, to pass on something he has read which may prove helpful and encouraging to others. This is one of those times when two or three short stories from real life seem to call for repeating.

There has been a lot of talk, the last few years, about how the worker is exploited under capitalism. Not much has been said about the other side of the picture. Let us tell then of a man, a small manufacturer, who, when the crash came, employed twenty people. His business has shrunk during the depression, but the same twenty are still on his payroll. What is more, he is still paying them the same wages. He has done this by ruthless cutting of his own expense, and by dipping into his own capital. He has carried the people who work for him as a personal responsibility. He doesn't like to talk about it. When questioned, he merely shrugs his shoulders and insists that he has done nothing extraordinary. "It's like horses," he says. "When you come in after a hard ride, you see that your mount is fed and watered, don't you? I can't do less for the people who work for me. I can't sleep when I know they aren't sleeping well. That's all there is to it." Such men do more toward making this a better world than a thousand laws, enforced by a million policemen. The Golden Rule is the one code that seems to work.

Real life beats anything the fiction writer can invent. Take the case of another man who used to be branch manager for a big concern. He had an impressive suite of offices, and a number of people working under him. He belonged to the best clubs, drove a big car, and lived well. As the years passed, he grew to take his position for granted. He began to pay more attention to outside interests and less to his job. Times grew hard, but he still took things easily. The home office was troubled. Hints, increasingly broad, seemed to have no effect on him. Finally it was decided that he must be discharged. But the boss, remembering his long years of service, intervened, and, in compromise, he was recalled to the home office. There he was given a desk among the city salesmen. It must have been a hard dose for him to swallow, but if he felt humiliated, he did not show it. He never referred to his former grandeur as a branch manager. Always smiling, he was down earlier than any of the cubs; and stayed later. He took what leads were given to him—most of them considered too hopeless for a good man to bother with—and did his best. It was soon forgotten that he had been demoted. He was accepted as just another salesman. No one paid much attention to him. The younger men rather smiled at the zeal of "old" Blank, as they called him. When not on the street, he was always telephoning somebody, or busily thumbing over his prospect file. In the front office, however, a strange thing was noted. Blank's sales began to climb. Customers—big ones—appeared out of the blue, insisting that they must deal with Mr. Blank. The other day, Blank was made General Sales Manager.

It is doubtful if there is any better cure for the weariness of spirit which comes from endless discussion of economics or disputation over such things as politics, than an hour or two with a microscope. For a trifling sum of money, one gains admission to a world full of new and fascinating things. In a single drop of water, scooped from the nearest ditch, there is literally endless entertainment. After a time in this world, with its breathless dramas and life-and-death struggles between incredible creatures, the real world seems curiously remote and unreal. One returns to it refreshed, and with a saner point of view. There is the man whose whole life collapsed in disaster. He saw nothing ahead, and as he stood one night in the bow of the ship which was taking him back to the wreckage of his career, he resolved to throw himself into the dark waves. But he happened to glance up to the great arch of the skies, filled with timeless stars; and suddenly his own life, happy or otherwise, seemed oddly unimportant. He returned to his problems, solved many of them, built a new and successful career upon the ruins of the failure—and, incidentally, became famous as an astronomer.

This is the time of year when young men, just out of school and college, are trying to plan their futures. Many write to friends, asking advice. The advice given by one such friend to a young man was as follows: All I can answer is that if I were just starting out to hunt a career, I'd look for it as far away from the big cities as I possibly could. There is more glamour in city life—perhaps more of what is called "success". The money-making possibilities are greater. But from what I have been able to observe in my journey through this vale of tears, the small-town man gets the most fun out of life. He may earn less, in dollars, than his city cousin does; but his living costs less, and he has more time in which to enjoy the dollars he has. If I had my life to live over, I think I'd start out by heading for a small community, and dig in there. Every now and then I'd visit a big city just to remind myself how smart I'd been to become a small-town fellow.

### Expedition To Greenland

#### British Scientists To Spend Three Months In Arctic

Under the leadership of L. J. Wager, 14 members of the British East Greenland expedition left Aberdeen, Scotland, recently in Sir Ernest Shackleton's exploration ship, The Quest.

They planned to spend three months in the Arctic engaged in scientific work and will explore several mountains which have never before been visited.

The Quest is manned by a crew of Norwegians. Four members of the expedition were accompanied by their wives.

### The Hat Went Home

#### Story From Liverpool Could Be Used By Ripley

An astonishing hat trick was performed by a 77 miles an hour gale on Merseyside. A Bobington (Birkenhead) man bought a new hat at a Liverpool shop, put it on his head, and carried his old hat in a paper bag. When he reached Bebington Station the wind lifted his new hat from his head and sent it sailing over the tops of the houses and out of sight. On reaching home he was amazed to find his new hat on the kitchen table. It had dropped in his backyard.

## To Promote Highway Safety

### Ontario To Cope With Rising Tide Of Automobile Accidents

To cope with the rising tide of deaths from automobile accidents in Ontario, Hon. T. E. McQuesten, minister of highways and acting attorney-general, announced 12 constables had been added to the provincial police force, most of them detailed to the highway traffic patrol.

Provision for additional traffic police marked the latest step in Mr. McQuesten's campaign to promote highway safety. Possession of a driver's license has been made the basis for enforcing the traffic laws, said the minister, and he listed two other features of his safety campaign—police inspection of motor vehicles and equipment and an advertising campaign.

Departmental records showed 202 persons had been killed in automobile accidents during the first six months of this year, compared with 164 in the corresponding period of 1934. The June death toll was 44, an increase of 12 above the May total.

"A small fine does not quite meet the situation," said Mr. McQuesten. "We will get more attention to the law if we exercise freely the cancellation of the driver's license for a term."

## Giant Air Cruiser

### United States Army Air Corps To Test Out Machine

A giant "flying battle cruiser," claimed the fastest and longest range bombing plane ever built, will be tested soon by the United States army air corps at Wright Field, Dayton, Ohio.

Specifications demanded by the air corps included: A speed of 200 to 250 miles an hour at 10,000 feet altitude, an operating speed of from 170 to 220 miles an hour at the same altitude; endurance at operating speed of from 6 to 10 hours, and a service ceiling of from 20,000 to 25,000 feet.

The aerial battle cruiser has a wing span of approximately 100 feet, length of 70 feet, height of 15 feet, and gross weight of about 15 tons.

## Just a Coincidence

### Science Of Deduction Came As A Shock To Bus Conductor

A remarkable experience befell Col. Foley when he was traveling along Oxford street in a bus and heard the conductor telling a passenger the names of the shops that originally stood on the site of a large store. Surmising that the man had probably delivered letters there Col. Foley asked him: "How long ago were you a postman?"

"How did you know I was a postman?" the conductor retorted.

"Quite simple, my dear Watson," said the colonel.

The man who had evidently not read his "Sherlock Holmes", nearly fell off the bus. His name actually was Watson.

## New C.P.R. Liner

### New Sister Ship For Empress Of Britain Is Projected

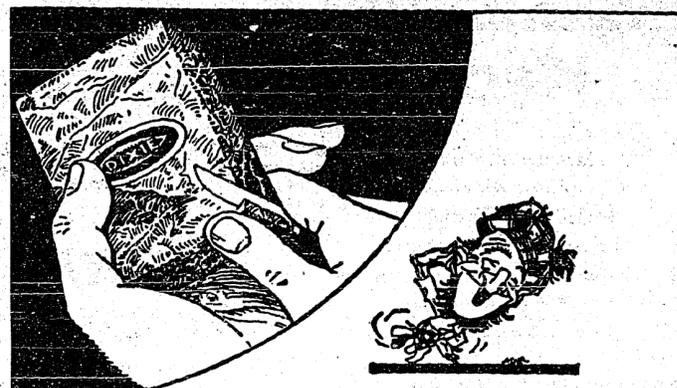

Sir Edward Beatty, president of the Canadian Pacific Railway Company, said before sailing to Canada from Southampton recently a sister ship for the Empress of Britain would be built.

"We shall need a new liner of the same type as the Empress of Britain," Sir Edward said, "to give a balanced service."

He added that an order would be placed two years before withdrawal from service of the Empress of Australia and the question of replacing that liner would come up within the next five years.

## Substitute For Wool

A process to turn silk into a wool substitute which may free Japan from wool imports is claimed to have been found by Tohei Sakamoto, 38, inventor. He has produced a fibre declared to possess the elasticity, lustre and strength of good grade wool. Use of the process would also raise the price of raw silk, a condition which is largely responsible for the depression in the agricultural communities.

### DARLING ONE-PIECE DRESS—REMOVABLE CAPE THAT BUTTONS TO FRONT OF DRESS

By Ellen Worth

Here's a darling little dress—and so unbelievably simple to sew. Well, it could almost be run up before breakfast.

Two ways to make! Smart either way—with or without the removable cape collar.

For playtime you'll probably choose from the very practical cottons as crinkly crepe prints, percale prints, broadcloths, gingham, etc., and trim with contrasting bias binds. For daintier wear, it is just as pretty as can be of sheer cottons as dimity, batiste, dotted swiss, organdy, etc.

Style No. 524 is designed for sizes 2, 4 and 6 years. Size 4 requires 2 yards of 36-inch material with 1½ yards of 1-inch ribbon for dress with collar and 1½ yards of 35-inch material for dress without collar.

Patterns 15c each. Address mail orders to: Pattern Department, Winnipeg Newsapper Union, 175 McDermot Ave. E., Winnipeg.

Summer Fashion Book contains many more smart, cool vacation clothes. Send for your copy to-day, the price is 15 cents.

The magnetic poles are the points on the earth's surface where the lines of magnetic force are vertical. They are the ends of the axis of the earth's magnetic polarity.

## For Prison Reform

### Borstal System Is Recommended For Canada

After studying in detail application and operation of the Borstal system in six English prisons, General D. M. Ormond, superintendent of Canadian penitentiaries, has reported to the Dominion government his opinion that similar training and treatment of youthful offenders can and ought to be put into effect in Canada.

Hon. Hugh Guthrie, minister of justice, tabled General Ormond's report in the House of Commons and declared the system may be made effective in Canada within 60 days. No legislation and no extra money vote would be necessary but there would be some staff additions and extra buildings needed.

The Borstal system, forecast for Canada in the speech from the throne at parliament's opening in January, "is a combination of mental, moral, physical and industrial training of a strenuous kind," for convicts under the age of 21 years.

Selected penitentiary inmates under the age of 21 would be housed separately and made the subject of this training with a view to correcting criminal instincts and preparing the youth for more useful effort on discharge.

## New Type Radio Sets

### France Is Installing Penny-In-The-Slot Machines

Penny-in-the-slot radio sets for the home have been introduced in France. Instead of buying a set, it is possible to have installed free a high-powered set with a small slot machine attached. On putting a franc into the slot 40 minutes' radio programme is assured. This may be either at a stretch or in several short programmes until the 40 minutes are exhausted. A maximum of ten francs may be put in at a time, thus ensuring nearly seven hours of music.

## HEALTH MEANS CHARM AND HAPPINESS

Sparkling eyes and smiling lips speak of health and vitality. Clear skin attracts. The healthy girl is both happy and popular.

Perhaps you are not really ill yet when the day's work is done you are too tired to enter into the good times that other women enjoy. For extra energy, try Lydia E. Pinkham's Vegetable Compound. It tones up your general health. Gives you more pep—more charm.

Remember that 98 out of 100 women report benefit. Let it help you too!

## TRADE SITUATION WITH JAPAN IS HARD PROBLEM

Ottawa.—Neither the department of external affairs nor the Japanese legation in Ottawa had received any confirmation when the offices closed for the day of reports cabled from Tokyo that a 50 per cent. surtax would be imposed by Japan on certain imports from Canada.

The cable stated the surtax would apply to lumber and wheat as well as certain other commodities and would come into effect on July 13 for one year.

For some weeks negotiations have been proceeding between this Dominion and Japan. Officials here believed they were still in progress. The situation is a difficult one from a Canadian standpoint, officials state. Japan has low production costs and vigorous trade policies. In addition, and more important than either of the foregoing, is the depreciated state of the yen.

On a parity basis, the yen should cost about 49 cents in Canadian currency but actually costs only around 29 cents. With such a pull in the exchange, Canadian manufacturers of rubber goods, particularly rubber footwear, manufacturers of silk goods, and electrical appliances, have found the Japanese competition disturbing not only in external markets but in Canadian markets as well.

Department of national revenue has followed its usual custom of levying duties on goods from Japan on a 49-cent valuation of the yen. The importer instead of paying duty on what cost for example 100 yen or \$29, has to pay duty on \$49.

## Peace River Floods

Continuous Heavy Rains Cause Serious Damage

Edmonton.—Continuing heavy rains in the Peace River district had brought flood waters near their peak of last week when serious damage was done. Traffic to the British Columbia Peace River block has been halted by washed out bridges and interrupted ferry service. Train service is at a standstill and plans for aerial delivery of mail are being made.

Latest flood is reported from Robb, in the Edson, Alberta, district, where the Embarras river is on the rampage.

## Farm Labor Shortage

Acute Situation Said To Exist In Rural Ontario

Ottawa.—An acute shortage of farm labor is being experienced in rural Ontario, according to government employment offices. The demand for experienced farm helpers exceeds the supply and many branches of the employment service of Canada in Ontario have long lists of jobs on file.

Besides the employment service of Canada the immigration and colonization department operates a placement bureau and reports the same conditions.

## Vancouver Police Protection

Additional And Special Police Costs City \$50,000

Vancouver.—Additional and special police employed this year have cost Vancouver \$50,000, Mayor G. G. McGeer told the city council.

The funds have been obtained from unexpended bylaw balances.

"A policeman has been killed in Regina, and constant agitation is going on in Vancouver which may lead to a clash at any time," said Mayor McGeer. "Under these circumstances I feel that we are justified in taking every precaution."

## Fewer On Relief

Toronto.—Families on relief in Toronto are decreasing approximately 500 a week, Welfare Commissioner A. W. Laver announced. For the week ended July 6, the number of families receiving full relief was 10,177 compared with 10,686 at the same time last year. 2107

## To Protect Population

Britain Takes Precaution Against Possible Air Raids

London.—A program for protecting Britain's population against air raids went to all local authorities in England, Scotland and Wales, accompanied by assurances "the need for these measures in no way implies risk of war."

The government already has made arrangements for an initial supply of respirators to be allotted partly for training in their use against gas and partly to build up reserves. It was announced the work would be begun along these lines:

Accumulation of reserve stocks of respirators and protective clothing for the use of those engaged in precautionary measures.

Building up of reserves of "bleach powder" for decontamination work.

Probable establishment of an anti-gas school for civilians.

Use of the Red Cross and the order of St. John Ambulance Corps to assist in the enrollment and training of an anti-gas medical emergency corps.

Air raid warnings, lighting restrictions, rescue and salvage work were left entirely up to local authorities.

## Baden-Powell Bids Farewell

Expresses His Regret In Message At Leaving Canada

St. John, N.B.—Regret at leaving Canada, and pleasure because the Boy Scout and Girl Guide movement "is now on a footing for further expansion to extend its influence over the under privileged youth of the country," were expressed here by Lord Baden-Powell, chief scout, in a farewell message, to Canada.

At Boston the 78-year-old scout leader will join Lady Baden-Powell, chief guide, and his daughter, Hon. Betty. Another daughter, Hon. Heather, is accompanying Lord Baden-Powell. The last public appearance in the Dominion was made in Charlottetown, P.E.I.

At Boston they will attend a scout and guide rally, later returning to England and staying there only one day before leaving for a scout conference at Stockholm.

## Calgary Stampede

United States Cowboys Have Winning Streak

Calgary.—United States cowboys came to the fore at the Calgary stampede, winning the North American bucking horse riding and the North American calf roping contests. "Buck" Buchanan of Boise, Idaho, took first prize in the bronk riding while second money went to "Hub" Whiteman of Fort Worth, Texas. Calf roping honors fell to Irby Mundy of Uitleyville, Colo., who had his animal roped and tied in 18 2-5 seconds. Ike Rude of Magnum, Okla., was second with a 20 1-5 second performance.

## Attends Luncheon

Prime Minister Of Australia Entertained At Ottawa

Ottawa.—Prime Minister Joseph A. Lyons, of Australia, arrived in Ottawa just in time to attend a luncheon in his honor, arranged by Prime Minister R. B. Bennett.

Accompanied by Mrs. Lyons and members of his staff, he was met at the station by Mr. Bennett, Hon. R. B. Hanson, minister of trade and commerce, and Dr. O. D. Skelton, under-secretary of state for external affairs.

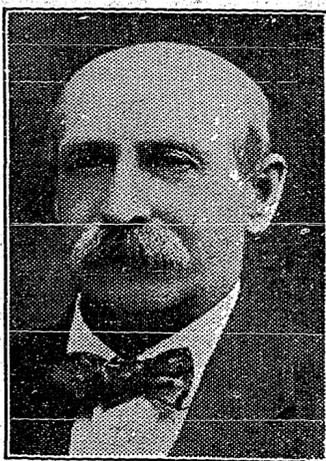

## For Japanese Navy

Tokyo.—The Japanese navy is preparing to demand in the next budget an appropriation of 712,000,000 yen (about \$178,480,000), which is 35 per cent. above the current year's 530,000,000 yen, the largest in the nation's history.

## Home Industry

Nanking, China.—Hereafter all Chinese officials must wear no garments of any kind that are not made entirely from materials produced in China, according to a joint decision reached by the ministry of finance and the ministry of industry.

## VISITS HOME

After spending fifty years in Canada, Dr. Seager Wheeler, famous wheat growing expert and former wheat king, has returned to his birthplace, Blackgang, Isle of Wight, England, for a visit. Born in a humble fisherman's cottage sixty-seven years ago, Dr. Wheeler started his interesting career at the age of 11 years.

## Coarse Grain Futures

Trading In December Is Authorized By Winnipeg Grain Council

Winnipeg.—Trading in December coarse grain futures was authorized by Winnipeg Grain Council. The order applies to oats, barley, flax and rye.

No change was made with respect to wheat in which July and August futures remain the only trading months on the board. Both options are pegged at 80 cents.

October coarse grain futures were posted April 24 at which time there was also a demand for October wheat. The government, however, has not authorized any trading in new wheat crop futures.

## Smuggled Watch Parts

Polish Rabbi Arrested With \$5,000 Worth In His Belt

New York.—With the arrest of Max Erlich, a Polish rabbi employed in the commissary of the liner Aquitania, treasury department officials said they had succeeded after several years in smashing a ring which smuggled hundreds of thousands of dollars worth of watch parts into the United States.

Government agents found 700 watch parts in a belt the rabbi was wearing. Total value of all parts found was estimated by treasury officials at \$5,000.

## Crop Conditions

At June 30, Given As One Point Lower Than At End Of May

Ottawa.—Condition of Canada's spring wheat crop as at June 30 was given as one point lower than at the end of May, in a crop report issued by the Dominion bureau of statistics. The condition was given as 96 per cent. of the long-time average. A month ago it was 97 per cent. The slight reduction was due largely to damage sustained in southern Alberta and southwestern Saskatchewan.

In Saskatchewan and Alberta, the condition of the principal cereal crops on June 30, 1935, was reported as follows, with the figures for May 31, 1935, and June 30, 1934, within brackets:

Saskatchewan: Wheat 97 (97, 77); oats 97 (95, 78); barley 98 (95, 77); rye 97 (99, 52); flaxseed 95 (—, 76).  
Alberta: Wheat 93 (96, 92); oats 91 (94, 92); barley 92 (94, 94); rye 93 (102, 77); flaxseed 87 (—, 89).

## Negotiate For Air Pact

Britain May Conclude A Separate Agreement With Germany

London.—Great Britain may conclude a separate air agreement with Germany if efforts for a five-power air pact fail, Anthony Eden, minister for League of Nations affairs, indicated before the House of Commons.

"It is the hope and intention of His Majesty's government that an agreement on all armaments shall be concluded among the five Locarno powers," he said.

A Labor member asked, "Can Mr. Eden give assurance there is no intention of concluding a bilateral air pact with Germany alone as they have done on naval armaments?" Mr. Eden said, "That is a different question."

## Foresees Stabilization

Possibility Predicted By Governor Of Bank Of France

Paris.—Jean Tannery, governor of the Bank of France, predicted "America, France and England soon will unite for stabilization."

Speaking at the American club luncheon, he said the United States aid in the recent French financial crisis was something for which "France will be forever grateful."

Tannery said that help indicated friendly feelings of the two countries and encouraged his confidence as to the possibility of stabilization which, he said, "will mark the end of the depression."

BLASTING THE LEDGE AT NIAGARA FALLS

An interesting photograph of the terrific dynamite blast which sliced 11,000 tons of rock from the historic Honeymoon Point at Niagara Falls and sent it tumbling into the Great Gorge 200 feet below. The ledge dynamited had been undermined by erosion and was considered a hazard to sightseers who crowded the edge to view the falls.

## THINK WARFARE IN ETHIOPIA IS NOW INEVITABLE

London, Eng.—London and Paris accepted warfare between Italy and Ethiopia as inevitable although the British government still hoped for some 11th hour development that would avert hostilities.

Grave concern for the future of the League of Nations and the whole laborious "collective security" system was expressed in both the British and French capitals, as diplomatic efforts to settle the dispute reach a complete impasse.

This was heightened by a report Ethiopia would demand immediate convocation of the league council.

Dino Grandi, Italian ambassador, was reported to have informed the British government Italy will be satisfied with no less than control of the Ethiopian hinterland, and fixing of an Italian political and trade zone of influence.

Rumors that the entire matter would be discussed at an extraordinary session of the League of Nations, were halted with the announcement by the league secretary, Joseph A. C. Avenol, that the problem would come before the league council July 25 in the ordinary course of events.

## Flood Followed By Fire

Hundreds Of Thousands Trapped In China When Dikes Collapse

Changteh, Hunan Province, China.—Fire followed flood as central China's rain-swollen rivers raged down to the sea, and famine stalked after.

With 25,000,000 persons in the path of the great Yangtze, and its toll of lives already counted in the hundreds, flood waters from the Yuan river and the Tung Ting lake besieging this city reached disaster stage.

Hundreds of thousands were trapped within the city walls as every dike outside, save one, collapsed. Fire broke out in various areas of the catastrophe, in which 100,000 Changteh homes already were submerged.

Official Chinese despatches said dikes along the north bank of the raging Yangtze river collapsed 150 miles above Hankow, letting the waters boil over the lowlands toward the Han river. The city of Kienli near where the breach in the dikes occurred was submerged.

Another important break in the dikes was reported at Mabukwi 20 miles below Kienli.

## To Reconstruct Moscow

Ten-Year Plan For Converting It Into Modern Capital

Moscow.—A 10-year plan for the reconstruction of Moscow, converting it into an ultra-modern capital for 5,000,000 inhabitants, was announced by Joseph Stalin, dictator of Soviet Russia.

The new city will cover more than double the area of the present one, which has a population of 3,500,000. It will be surrounded by a six-mile-wide zone of forests and parks to assure the populace clean air and furnish places for outings.

The size of the famous Red Square will be doubled, broad new avenues laid out, huge new hotels erected and 135,000,000 square feet of new housing space provided if the goal of the plan is achieved.

## Elected To Fellowship

Montreal.—Dr. J. C. Eakins, member of the medical board of the Royal Victoria hospital and professor of medicine at McGill University, has been elected to fellowship in the Royal College of Physicians, London, it has been announced.

## Labor Convention

Ottawa.—The fifty-first annual convention of the Trades and Labor Congress of Canada will begin in Halifax, Sept. 10, it was announced here by Tom Moore, president, and P. M. Draper, secretary-treasurer.

# Announcing the Opening of the CRESTON VALLEY CO-OP. ASSN. MEAT DEPARTMENT

IN THEIR ENLARGED AND MOST MODERN NEW STORE PREMISES

## SATURDAY, JULY 20th

Realizing the people of Creston and district are entitled to the advantages and services of a city meat market we have decided to open a fully modern Meat Department, to be operated in conjunction with our present up-to-the-minute Grocery.

The Meat Department will be operated along the lines of the most successfully conducted stores of this kind in all large cities. As manager of the new department we have secured the services of Mr. E. Gay, formerly of Regina, Sask., who has had a lifetime's experience in various cities and towns throughout Canada, in the wholesale and retail meat business.

Taking into consideration the splendid response the general public has given our present undertakings, we are quite confident that our new venture will also be appreciated to the full.

Visitors will notice that we have adopted the system in vogue in the large centres by combining our Butcher and Grocery departments, thereby greatly simplifying shopping.

The main feature of the Meat Department is the cooling equipment. We are sure this will be appreciated by the people of Creston valley, as it is the largest and most scientific equipment for handling meats of all kinds. A Walk In Cooler, measuring 12 x 8 x 9 feet high, with an Air Conditioned Counter, 12 x 4 feet, directly attached, provide a low, even temperature at all times, and keeps Meats, Fish, Poultry, etc., in such a condition as to be preferred by all housewives. This equipment makes this store stand out as the most modern of its kind in this district.

You are invited to inspect our various departments at all times. The modern facilities that we have installed are sure to prove of great interest.

Creston Valley Co-Operative Association is a home-owned organization, financed by local capital. It has shown steady and marked progress since its inception as a retail organization. The desire to adequately serve our many customers, and our own faith in Creston Valley is strikingly evidenced in our entirely new enterprise.
