THE CRESTON REVIEW

VOL XXI. CRESTON, B. C., FRIDAY, MAY 24, 1929 No. 12

20-Year Light Franchise Given

Creston's "Off again, on again, gone again." electric light situation is once more in a state of "on again," insofar as an agreement to supply "juice" to the village is concerned. After three special sessions of the commission rs a twenty year light and telephone franchise was, on Saturday night, gived to Howard S. Amon. The outstand ing features of the agreement are: That it is an exclusive franchise; that light is to be delivered at Sep tember 1st, 1929; and that the said Howard S. Amon agrees to supply the village with street lights at a rate of $20 per light per year. There is no stipulation as to the rates to individual users, and there is no penalty in the agreement—if Mr. Amon fails to have light here by September 1st then the franchise is cancelled automatically.

On motion of Commissioners Cherrington and Comfort the chair man was authorized to execute the agreement and it has since been regularly signed, sealed and deliv ered. Mr. Amon has assured the commissioners that there is ample power and plant at Boundary Creek to give the required 24-hour service, and Commissioner Jackson, who was at Nelson consulting C. R. Hamilton, K.C., apparently brought back legal advice that satisfied the council that it was within its rights in giving the 20-year exclu sive agreement.

At the regular meeting of the council on May 13th, accounts for April were passed for paying run ning to about $670. This is partly made up of labor charges against bridge repair work on Fourth street, but does not include the lumber. Authority was given to make some needed repairs on the Park road bridge.

In reply to the request of the business men that Canyon street in the business section be oiled to abate the dust nuisance, the coun cil decided to give that thorough fare a thorough sweeping and to have the merchants keep down the dust by using their hose every day, or as required.

A by law was passed ratifying the purchase of eight lots on Fourth street from the Canadian Pacific Railway. Two of these have been used for a pound, and five of the balance sold to Mr. Hills for $175, on a payment basis of $10 a month without interest, and so for the dues have been met, the clerk rep orted.

The council is preparing to cope with the weed nuisance this year. In case of all properties but one notice will be served, and if no action is taken by the owner then the council will promptly do the cutting and charge it up for collect ion in the 1930 taxes.

Spring Sale of Work

Under the auspices of the Ladies' Guild of Christ Church, in the

Parish Hall

SAT., MAY 25

2.30 to 5.00 p.m.

AFTERNOON TEA

EVERYBODY WELCOME

Lister

Col. Latta, who is at the head of the Land Settlement Board, arrived on Wednesday from Victoria on an official visit.

This week will see the work completed on the job of gravelling the road between the old experimental farm and the Bird ranch.

Mr. Church, representing the P. Burns Company, was a business visitor here on Tuesday.

Rev. A. J. Doull, Bishop of Kootenay, was a visitor to Lister on Tuesday and held service at the schoolhouse at 4 p.m. He was accompanied by Rev. A. Garlick.

John Hewitson left a few days ago for Calgary, Albeata, where he is at present a patient in the Belcher military hospital.

Mr. and Mrs. Pat Holland of Kimberley were here for the weekend, the guests of the latter's mother, Mrs. Yerbury.

Jos. W. Bell was another Kimberley visitor to spend the weekend with Lister friends. He was a guest of Col. and Mrs. Lister.

An afternoon of old time sociability was in evedence ot the home of Mrs. Frank Baker on May 8th, when she entertained in honor of the seventy-ninth birthday of her mother, Mrs. Charlotte Ross, the guests including Mrs. W. Mitchell, Mrs. Gordon sr., Mrs. Delbridge, Mrs. Knott and Mrs. Jacks. Refreshments were served and the table was strikingly decorated with tulips. Mrs. Ross was the recipient of hearty congratulations and many happy returns of the day, old friends in Nova Scotia being amongst those sending felictous messages.

Canyon City

BIRTH—On May 17th, to Mr. and Mrs. John Bedry a daughter.

Mrs. McRobb was a weekend visitor at Kimberley, a guest of her daughter, Mrs. Houle.

W. Abbott left at the the end of the week for Lethbridge Alberta, where he expects to work for the summer.

Geo. Davie spent a couple of days at Kimberley on a business visit this week.

Jack McRobb left on Friday for Cranbrook, where he will be on the city police for a couple of months.

Misses Eleanor Blair and Muriel Thurston made the rounds here on Saturday selling tags for the Crippled Children's Hospital fund. The drive was under the auspices of Creston and District Women's Institute.

Principal Kolthammer was taken to Cranbrook hospital on Monday and underwent an operation the following day, from which he is making a satisfactory recovery.

A concert, sale of work and dance was held at the Community Hall on Friday night, proceedings winding up with a dance and the serving of a cafteria lunch by the ladies. J. W. Wood presided at the concert, which was given by local talent. The proceeds were about $90.

FOR RENT—5-room bungalow furnished; including garage, chicken house, nice strawberry bed, a few hives of bees; near school. Enquire Review Office.

A. Manuel Meets Tragic Death

A. D. Manuel met a sudden and tragic death at the C.P.R. depot on Tuesday afternoon when he was run over by the west bound passenger train and his right shoulder and head completely severed from his body, the shocking fatality occurring within sight of the usual crowd that gathers at the station at train time.

The unfortunate man arrived at the west side crossing just as the train was pulling in, and although several who were on the platform shouted at him not to attempt to cross ahead of the train their shout ing was of no avail as the dead man apparently was convinced he could make it, and all but succeed ed as he had got one foot upon the platform, which is about a foot higher than the rail, when he was struck down by the engine and thrown head and body partially across the track.

When engineer John Birce, who was in charge of the train, saw the possibility of an accident he put on the air brake full on but to no effect. Coroner Dr. Henderson was im mediately summoned and a jury of A. L. Palmer, foreman; R. Walms ley, M. J. Beninger, Fred Hale, R. A. Palfreyman and Dolf Weir empanelled, and after viewing the scene of the fatality adjourned for hearing of the witnesses including the engineer and fireman and on Wednesday afternoon brought in a verdict that the late Mr. Manuel came to his death by being hit and killed by a C.P.R. engine while crossing in front of the train, and that no blame attaches to the train crew for the accident.

The late Mr. Manuel was about 65 years of age. He was a native of Newfoundland, and over 40 years ago came west and for a time followed his trade as carpenter at Vancouver, where he worked for a number of large firms. Later he came to Nelson, where he worked at his trade for a number of years and again shifting east to Moyie where he was in the carpenter business on his own. From Moyie he went to Frank, Alberta, and in company with Charlie Clayton and Louis Cribb he built the Frank Hotel, being in that town at the time of the historic Frank slide in 1903. He remained at Frank until 1916, when the persistent rumors of a second slide caused an exodus from the town with a consequent falling off in business and Mr. and Mrs. Manuel and family removed to Creston where they have since made their home. Deceased was married in 1906 at Frank and his widow and two sons, Herb, in California, and Will, a first year student at British Columbia University, survive him. The figure of the late Alfred Dalton Manuel was a well known one in Creston and his quiet, unassuming manner made him edually popular with everyone and in her sud den and tragic bereavement Mrs. Manuel and the two boys have the very deep sympathy of all.

Awaiting the return of Will Manuel, who is with the Creston company of the Kootenay Regim ent, in training at Vernon, the fun eral is set for 4.30 p.m. today (Thursday), from Trinity United Church, with interme nt in Creston cemetery.

Geo. H. Kelly.

Alice Siding

Harry Compton, who is now assistant to the C.P.R. agent at Kimberley, spent a few days last week with his porents here.

Mrs. O'Neil has returned to Calgary Alberta, after a short visit with her mother, Mrs. Stace-Smith.

Mr. and Mrs. Tom Dickson are now occupying the old Miller home on the Alderson ranch, and will have charge of the ranch work this year.

Mrs. A. Anderson, of Victoria, has arrived on a visit with her son and daughter in law, Mr. and Mrs. Tom Anderson.

A number from here were at the K. K. Klub dance at Wyndel on Saturday night last at which Bob Marshall handled the drums in the three piece orchestra of which Misses Pedersen and Penson were the other members.

Victor Carr and son, Rudolf, who have been in charge of the Attwood ranch at West Erickson for the spring work, have returned home.

Jim Taylor and Jack Miller are also home from Creston where they have been in camp while doing a land clearing job at the Cherrington ranch on Goat River bottom.

Bob Miller has just taken delivery of a new 1929 Chevrolet six from the Kootenay garage.

Erickson

Mr. and Mrs. Denholm of Coleman, Alberta, have just arrived and are occupying the house on the Frank Celli ranch.

Mrs. H. A. McKowan and four daughters of Cranbrook, were weekend guests of her mother, Mrs. Geo. Cartwright.

Mrs. Robert Hetherington and two children of Snolqume, Wash., have been on a visit with her parents, Mr. and Mrs. McMasters.

All danger of a killing frost would appear to be past. Planting out of ten acres of tomatoes at the R. B. Staples ranch commenced at the first of the week.

Mrs. Frank Celli was here from Coleman, Alberta, for a few days at the ranch last week.

Mr. and Mrs. J. E. Webster and daughter of Cranbrook were weekend visitors at Erickson guests of Mr. and Mrs. T. W. Bundy.

Mrs. Cowling of Vancouver arrived at the end of the week on a visit with her daughter, Mrs. W. R. Long.

Frank Staples has just taken delivery of a new 1929 Ford truck from the Premier garage at Creston, and will be on the tie haul from one of the local mills this season.

Idaho Fighters Appear Tuesday

Local fight fans will be glad to hear that the boys of Creston will be matched against the pick of Idaho, at Creston on Tuesday night, 28th, at the Grand Theatre. In the three preliminaries lads from Bonners Ferry will be matched against local boys and this trio of events will be very interesting as there are some real boxers in Creston's rising generation.

The main event stars 'Chuck' Mason of Bonners Ferry, who will travel the six round route against Ted Bush of Creston. Bush is finding it hard getting back to oldtime form after his recent illness, but with a week's training should be a fair match for Mason. Bonners Ferry is looking for a win but Bush will be a hard opponent.

A good second fight will be Spiers of Nelson and Brockley from Bonners Ferry. Brockley has a good reputation and this bout should be good.

Louis Anderson takes part in this international fistic festival and Bonners Ferry is looking up the likelys just to show Anderson all the good fighters are not on this side of the line. Kitchener will be very much interested in this set up. Louie is a favorite at Creston, too.

"Rnster" Ross is the surprise of the evening. What he can do is yet to be proven and he meets a likely opponent.

The Knights of Pythias are staging the program this time and promise the crowd a fine evening's entertainment. Ringside, $2; reserve seats, $1.65; general admission, $1.

A. Verch of Yahk was a weekend guest of Mr. and Mrs. Lee Heric at the ranch.

Miss Beth Putnam left at the first of the week on a short holiday visit with friends at Kimberley.

Jim White of Fernie was a weekend guest of his sister Miss Jessie White, principal of Erickson school.

Mr. Packenham left on Thursday for Cranbrook, where he is receiving medical attention.

Mrs. Clarence Bundy of Cowley, Alberta, is a visitor here this week, a guest of Mrs. T. W. Bundy.

Lee Heric was here from Yahk to spend the weekend with Mrs. Heric and children at the ranch.

Bill Leadbeater, who returned last month from a holiday visit with old friends in Nova Scotia, has gone to work at the Winlaw sawmill just south of Creston, where he is sawyer.

Science in Service of Mankind

When the real story of human progress is told, probably the salient contribution credited to the present generation will be the alliance of science with pursuits of peace and the mobilization of scientific minds for the common good.

This generation, more than any previous generation in human history perhaps, has effected a divorcement of science from war. In the past, the best scientific minds were directed to the chemistry and physics of warfare, industry and commerce for the most part having to content themselves with the second-best or rely upon adaptation of some invention or process originally devoted to war.

That is a broad generalization which, in the specific case may not be true, but which, in the main, can be substantiated; and the fact remains that war has been the great stimulus to scientific research and invention and, until the present generation, a greater stimulus than industry, commerce and the pursuits of peace. It might also be said that science in its first alliance with industry and commerce had a background of war—of economic war. Now, however, the science laboratory is a workshop, in the true sense of the word.

Illustrative of this idea is the little country of Denmark, where agriculture has reached a scientific plane higher than in any other country. The great stimulus to scientific agriculture in Denmark was war. Following the war with Germany, in which Denmark lost the provinces of Schleswig and Holstein, the Danes turned their attention to the intensive cultivation of their very limited resources recognizing that, only by high commercial development of these resources, could they hope to survive as a people, and Denmark as a nation. That they have succeeded is proved by the fact that agricultural countries now look to Denmark for leadership and guidance in certain advanced phases of agriculture.

The aeroplane, too, now occupying a supremely important role in the development of Canada's remoter areas and great mineral-bearing zones, and serving to "devour distances" which hitherto occupied weeks, sometimes months, of arduous and hazardous travel, made its greatest advancement during the hectic days of the World War. There was less material difference between the original Wright aeroplane, or the plane in which Bleriot first crossed the English Channel, and the planes used in the early days of the war, than between the planes of 1914 and those which patrolled the front areas in the days immediately preceding the Armistice. That process of development which gathered so much impetus throughout the war, has been carried into this post-war period, a fact which is abundantly manifest.

The World War saw a general mobilization of science not only in Germany where, for some years previously, industrial research had been encouraged in that country's efforts to wage successful economic war against its rival neighbors, but also in and throughout the British Empire and the United States. There was no demobilization of the forces of science after the war in these countries. There was imperative need of retaining the best scientific minds available in the work of reconstruction and of meeting competition in world trade. Science thus has come into its own.

Canada came late into the movement, but having entered, is now displaying the energy and enthusiasm characteristic of its youth and growing power. With agriculture as the basic industry of the country, it is natural that the mobilization of science in Canada should be directed in large measure to the advancement of that industry. Within this movement, the chemist has turned his attention to the milling qualities of wheat. The biologist is studying the theory of breeding crosses of the different kinds of wheat, the causes and remedies of plant diseases, the insect pests and their control. The physicist has begun to investigate soil temperatures and the engineer to consider power problems, water supply and waste in farm houses. The economists have concentrated on marketing problems, and so on.

Noteworthy already have been the achievements of the scientists at work in the Dominion Rust Research Laboratory, at Winnipeg. The progress already made toward the production of a rust-resistant wheat that will meet requirements as to milling and yield, have been so impressive as to presage an epoch-marking development in the near future.

Canada's Largest Organ

Installation of the Royal York Hotel Casavant organ, the largest in the Dominion, has begun after months of preparation made for it. It was made in the world-famous workshops at St. Hyacinthe, Quebec, and its parts conveyed to Toronto in five railway cars.

Canadian Graphite

Canadian graphite is marketed as refined flake, the product of concentration of disseminated ore. The mines and mills are situated in the Perth, Bancroft ,and Calabogie districts in Ontario, and in the Buckingham, Guenette, and St. Remi districts in Quebec.

Guard Against FLU — Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerviline. The antiseptic properties of Nerviline quickly destroy the germs in the throat. Of course if the chest is sore Nerviline should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerviline will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerviline and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

A Big Business

Postal Department In Canada Handles Millions Every Year

Rural routes have been extended and the inauguration of the air mail service has made it possible to deliver mail in the winter time to many isolated spots which have never before received mail during that season; thus bringing comfort to the people of the Magdalen Islands, the north shore of the St. Lawrence River, northern sections throughout the Mackenzie River district, Cold Lake, Flin Flon and north to the Yukon. The postal department has some 38,750 employees in the Dominion of Canada. Of these, between 12,000 and 13,000 are postmasters. The department handles resources of revenue somewhere in the neighborhood of $50,000,000, approximately $50 for every person in Canada in one year.

DO YOU VALUE HEALTH?

Sickness Almost Always Due To Weak, Watery Blood

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headaches or backaches; if there are touches of indigestion, or twinges of rheumatism, you may depend upon it that these symptoms come from an impoverished condition of the blood, and that unless this condition is remedied a complete breakdown may follow. To any who are in this condition, Dr. Williams' Pink Pills will be found the perfect medicine. The whole mission of this medicine is to build up the blood, promote appetite and good digestion, and strengthen tired, frayed nerves. Men and women alike benefit through the use of this medicine. Therefore if you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

Among the thousands who have found Dr. Williams' Pink Pills a real blessing is Mrs. Geo. M. Andrews, Halifax, N.S., who says:—"My first experience with Dr. Williams' Pink Pills was as an anaemic young girl, when they completely restored my health. Then a few years ago I became pale and run down, and my husband got a supply of the pills for me. I gave them a good trial and when my baby was born she was a big healthy baby and I did not have a day's sickness. My friends all tell me how well I look and I certainly feel that way, and I give all the credit to Dr. Williams' Pink Pills. I hope my experience will help some other woman who needs a good medicine."

You can get the pills from your druggist, or by mail at 50 cents a box from The Williams' Medicine Co., Brockville, Ont.

A leading authority on steel has stated that the world loses $2,500,000,000 yearly due to the corrosion os steel.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the forms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Melting of the Antarctic ice cap, according to an Australian scientist, would raise the levels of the oceans by fifty feet.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Eclectric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Women Archaeologists

This archaeological season in Palestine shows a new feature of social interest. For the first time archaeological excavations are being carried on by a staff of women. This plan has been initiated by the British School of Archaeology, Jerusalem, which sent a party consisting of Miss Garrod, Miss Eubank, of Cambridge; Miss Kitson Clark, of Oxford, and one American woman to continue the work near Athlit, South Haifa. The direction is in charge of Miss Garrod.

Work joined with courage enables us to overcome all obstacles.

The Wonders Of Chemistry

Will Be Used To Build and Change Character Is Prediction

The American Chemical Society, meeting aat Columbus, Ohio, held out a few alluring prospects for the future.

For instance, the time may be coming when a man won't have to build his own character, but can depend on chemistry to do it for him.

Then persons owing cows, if they're fortunate enough to have a little woodland, will have the cow-food problem solved for all time because cows will eat wood.

Wood, chemically treated, is already being used for cow-fodder in some countries, according to C. L. Esselen, Boston chemical engineer, who addressed the society.

Dr. J. S. Matthews, of the University of Wisconsin, predicted that chemistry would be used to change and build character and in this connection he believes the insane will be made well and that the seasoned criminal will become a law-abiding citizen.

Future generations may be giants, one chemist said, if scientists can discover, by synthesis, the cause of growth which lies hidden in the cell nuclei. The discovery, he said he believed, would hinge upon the balance of atoms.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

The prairie provinces with manufactured products during last year valued at $327,000,000 begin to have tall chimneys of their own.

Many a man learns to shift for himself when he buys his first car.

Origin Of National Anthem

Is One Musical Mystery Nobody Has Solved Yet

The origin of the British National Anthem is a musical mystery which has never been solved. It is known that it was first sung in public at Drury Lane and Covent Garden in 1745, when the news of the defeat of Sir John Cope's army at Prestonpas reached London. But it was written a few years earlier than this. One thing students of the subject are fairly sure about is that it was written as a national prayer for the safety of George II. against the Jacobites, and the version given in the "Gentleman's Magazine" in 1745, makes it peculiarly applicable to the fervent prayer of today, though for a very different reason.

Could Hardly Live For Asthma, writes one man who after years of suffering, has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Altitude Of Banff

Banff, the headquarters of Banff national park, Alberta, has an altitude of 4,538 feet above sea level and enjoys a climate which is in many respects, ideal. The air is exceedingly pure and has a most exhilarating effect.

EXPLOSION IN HOSPITAL TAKES A HEAVY TOLL

Cleveland.—Poison gas and two explosion which followed burning of X-ray films in the Cleveland Clinic claimed nearly 100 lives.

There were 98 known dead, and hospital authorities worked desperately to administer artificial respiration to 43 more who were overcome. Victims from the disaster were dying at short intervals, and physicians sent out appeals for additional oxygen for fear that the supply in the city might prove insufficient.

Nearly all the deaths were attributed to the deadly gas which filtered through the four-storey brick building—slowly at first, and then augmented by a second and greater explosion than the first, rushed up from the basement and cut off escape down the stairways and elevators.

It was ironic that the disaster occurred in a very place where the most advanced instruments and laboratories of science had been turned against pain and death. The clinic was owned principally by Dr. Geo. W. Crile, nationally-known physician, who was too occupied with relief work to comment on the catastrophe.

Identity of the powerful gas which wrought one of the worst tragedies in the history of the city had not been determined.

It is probable, however, it was a mixture of gasses coming from many forms of chemicals in the building. In addition, the burning films gave off a gas said to be bromide.

Although doctors and nurses got out a few patients at the start hardly a minute went by before the fumes filtered out from every opening, forcing rescuers back. When the gas began to lift, they rushed into a scene of shrieking horror.

Bodies littered the floor like flies that had been sprayed with poison. Some of them were scarred by flames, their clothing still smouldering. Others who had not lost consciousness were crying out in agony.

Among the most pitiful sights of the disaster were suffering patients who in agony dragged themselves to windows seeking fresh air, and who were too weak to break the glass to get it. They clawed their hair and shrieked, but their voices were drowned out by other noises. For a moment they stood at the windows beating helplessly, then slid down to the floor out of sight to die in horrible fear.

The Cleveland Clinic is a separate building from the Cleveland Hospital. The Clinic, a four-storey building, houses many laboratoreis of physicians, and the death toll was from both the staff and patients who come for consultations.

Will Tour Western Canada

New Head Of Salvation Army To Make Visit Next Fall

Toronto.—General Edward J. Higgins, recently chosen head of the Salvation Army, in succession to General Bramwell Booth, will tour western Canada in the course of his first visit to the Dominion next fall.

Accompanied by his wife, he will arrive at Montreal on August 20, and after visiting a number of eastern centres, will proceed west. His western itinerary, however, has not yet been planned.

General Higgins will attend the National Congress of the Salvation Army in Canada, to be held from October 11 to 16, inclusive.

Shares For Workers

Chicago, Ill.—The Standard Oil Company of Indiana announced the distribution among 15,000 employees of 240,000 shares of company stock worth approximately $14,400,000. The employees purchased the stock in installments over a three year period, earning an average profit of 123 per cent. the announcement said.

Nobile Appeals

Prague.—Umberto Nobile, commander of the dirigible Italia on the ill-fated Arctic cruise, has appealed to Mussolini for a ruling on his demotion.

W. N. U. 1786

Urges Outlets For Peace River Country

Railway Would Lengthen MacKenzie River Season Says General McRae

Ottawa, Ont.—Construction of railway outlets for the Peace River country from the Mackenzie River to Vancouver, through Peace Pass, which is claimed would increase the present season on the Mackenzie to the Arctic from two and one-half, to four and one-half months, was advocated in the House by General A. D. McRae, Conservative, Vancouver North.

The railway, as advocated by General McRae, would be joined in its course by the present railway from Peace River Crossing and Edmonton and would meet the MacKenzie River somewhere below Great Slave Lake in the vicinity of Fort Providence. It would give, General McRae estimated, a 40-hour rail service from Edmonton to that point. This would compare with the present "infrequent boat journey of eight days downstream and 12 days return, and that for a limited time each year.

"The railway, by missing all boat delays due to ice in Great Slave Lake in the spring, would make it possible," he declared, "to reach the MacKenzie River six weeks earlier in the spring and two weeks later in the fall, increasing the present season on the MacKenzie to the Arctic from two-and-one-half to four-and one half months, thus opening up a new Arctic for us."

With such a railway line the MacKenzie River season would be from May 15 to early in October, General McRae stated.

Ask Higher Duty On Eggs

Poultrymen Have Made Application To Tariff Advisory Board

Ottawa.—For the first time on the records of the tariff advisory board, the western provinces have produced an application for an increase in duty.

There are 40,000 poultry men of the western provinces and many more from Ontario, as well as more than 2,000 merchants from British Columbia and the prairies in sympathy with the application placed before the tariff advisory board recently for 200 per cent. increase of duty on imported eggs.

The increase asked in the applications is from 3 cents to 9 cents on every dozen of eggs brought into Canada in the "extras" class. The item probably affects more individual producers than any other which has ever come to the attention of the commissioners.

Parliament Will Sit On Wednesday Evenings

To Put Through Balance Of Session's Business Without Delay

Ottawa.—Prorogation of parliament begins to loom on the horizon. With a view to expediting the remainder of the work of the session, Premier W. L. Mackenzie King has given formal notice on the order paper of the House of a motion for the Commons to sit on every Wednesday evening, beginning at once.

The usual practice is for a six o'clock adjournment each Wednesday evening, but towards the end of each session Wednesday night sittings are introduced for the purpose of putting through the balance of the session's business with as little delay as possible.

Phillips To Retain Post

Ottawa.—Hon. William Phillips, first United States minister to Canada, will continue here during the Hoover administration. Mr. Phillips returned from Washington where he conferred with President Hoover, and Henry L. Stimson, Secretary of State. There was no indication, he said, that there would be any change of representation in Canada.

Postal Bill

Ottawa.—The House of Commons gave second reading to the bill which provides for adjustment of salaries of the postal employees who participated in the Winnipeg strike of 1919 and were subsequently re-employed at reduced wages. The bill now stands for third reading.

PRESIDES AT NEWSPAPER GATHERING

Henri Gagnon, president of the Canadian Daily Newspapers' Association, who presided at the tenth annual meeting of that organization.

All-Canada Telephone Line

Plan Would Link Up East and West On All-Canada System

Edmonton.—Planning an all-Canadian telephone line between east and west, which might be in operation this summer, prominent telephone company officials arrived in the city for a conference with the provincial government. In the party are H. L. Harris, executive vice-president of the Associated Telephone and Telegraph Co., Chicago; W. N. Curtis, vice-president and general sales manager of the Automatic Electric Co., Inc., Chicago, who are accompanied by G. H. Halse, chairman of the British Columbia Telephone Board.

At present Alberta and British Columbia are the only two provinces that have inter-provincial telephone service. Now it is planned to link up all the provinces so calls can be handled on an all Canadian line without having to utilize services in the United States.

After leaving here the officials will confer with the governments in Saskatchewan and Manitoba. Mr. Halse will go on to Ottawa, while the others will return to Chicago.

Pay Fines On Instalments

Bill Before Senate Would Amend Criminal Code

Ottawa.—A bill sponsored by Senator Beaubien amending the criminal code so as to provide that fines may be paid on the instalment plan, was given third reading in the Senate.

The Senator pointed out that there were 220,000 people convicted and fined last year in Canada. Of these 40,500 paid and the remained went to jail. He thought it unfair to brand as jail birds many who were unable to pay their fines.

Feed Grain For Poultry

Alberta Wheat Pool To Assist Poultry Raisers Of B.C.

Vancouver.—With the object of supplying British Columbia poultry farmers with feed grain at prices lower than those now charged, the Alberta Wheat Pool is turning its attention to this phase of marketing and is expected to institute a service which will benefit the poultry industry, particularly in the Fraser River Valley.

This makes the gist of an announcement made by G. G. McGeer, K.C., before the Saskatchewan Royal Grain Enquiry Commission. The sitting was devoted to the hearing of witnesses from among British Columbia poultry raisers. Mr. McGeer intimated that he would call witnesses to bear out his announcement regarding the plans of the Wheat Pool.

Two farmers who had retired from the prairies to raise poultry in the Fraser Valley, painted a gloomy picture of present conditions in the industry. They agreed that without cheaper feed British Columbia farmers faced ruin.

Would Cost Forty Million

Charter Being Asked For Manitoba Line To Hudson Bay

Winnipeg.—Approximate cost of the proposed Emerson-Churchill Colonization Railway, which would act as a feeder to other railways and bring Winnipeg 260 miles nearer Churchill, terminus of the Hudson Bay Railway, is $40,000,000, Charles F. Gray and Fred C. Hamilton, directors of the company seeking a charter for its construction from the Manitoba government, told members of the law amendments committee at a special session held here.

The committee ordered the bill reported to the legislature with an amendment providing that construction be commenced within three years and completion of the line in seven years.

The line would be constructed from Emerson, 60 miles from Winnipeg on the Manitoba-Minnesota boundary.

Coal Rates From Alberta

Edmonton.—Coal from Alberta mines will move to Ontario at the special freight rate for the same period in 1930 as this year. A. Chard, freight traffic supervisor for the province, has received notice from the Canadian Railway Board, of an order setting January 15 to July 15 as the coal movement season for next year, thus continuing the present arrangement for one year more.

Celebrated Liberation

Sofia, Bulgaria.—Tens of thousands of Bulgarians from the most remote towns and villages of this little kingdom were on a pilgrimage here May 15, to participate in the fiftieth anniversary of Bulgaria's liberation from secular Turkish rule.

KING GEORGE RETURNS TO WINDSOR CASTLE

Windsor, Eng.—The King came back to his own friends in this ancient home of British sovereigns like a conquering hero.

All Windsor and the surrounding countryside were out to welcome their monarch back after his long illness, which for many weary months had kept him from them.

Windsor was decorated as seldom before. Not a single house or shop on Castle Hill or in the main street of the city was without gay decorations.

The King, accompanied by Queen Mary, had a remarkable reception throughout their 2¼ hours' trip from Craigwell House, near Bognor, where the King had spent several months of convalesence. But it remained for the "old home town" to outdo all the others as it welcomed again its most prominent resident.

Thousands of cheering spectators, including two thousand school children and one thousand Eton boys in silk hats and quaint jackets lined the ancient thoroughfare. As the royal car drove through, bags of rose petals were emptied from windows and fell in a crimson cascade about the machine.

It was the first time most of the inhabitants of Windsor had seen the King since the beginning of his illness late last year. All along the line there arose cries of "God bless your majesties!" and "Welcome home!"

The King and Queen were smiling happily as they bowed towards the white sea of fluttering handkerchiefs and once or twice the Queen brushed moisture from her eyes.

At the bottom of Castle Hill, which rises steeply up towards the ancient grey stone pile, were waiting the mayor in his golden chains of office with his aldermen. The royal car halted and the door near which the King was sitting swung open. His smiling face appeared and he grasped the hand of the mayor as he said:

"Thanks very much. We are pleased to be back in Windsor and I am very glad to see so many citizens here."

The King shook hands with the rest of the delegation and the car then swung up the hill towards home.

It was officially stated at the castle that the King bore the journey well and that His Majesty showed no signs of undue fatigue. Soon after arriving at the castle the King and Queen lunched together.

Announcement has been made recently that Queen Mary would hold courts at Buckingham Palace on June 26 and 27.

Honorary Degrees

Five Degrees To Be Conferred By University Of Manitoba

Winnipeg.—Five degrees of doctor of laws, honoris causa, will be conferred by the University to the list prepared by university officials.

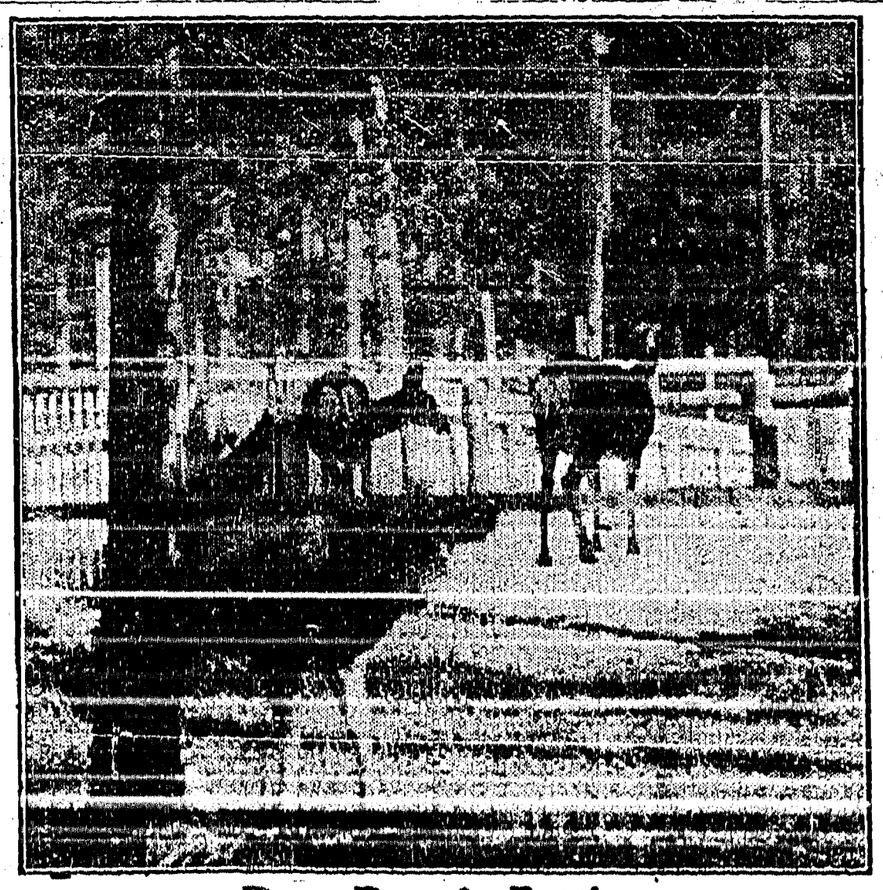
Those who will receive the honorary degree are: Henry Mark Ami, director of Canadian school of prehistory in France; David M. Duncan, superintendent of schools, Winnipeg; Rev. R. G. MacBeth, pastor of St. Paul's Presbyterian Church, Vancouver; Chester Martin, professor of history, University of Manitoba; Walter C. Murray, president, University of Saskatchewan.

Death Of Pioneer

Winnipeg, Man.— William Elliott Macara, K.C., 70, registrar-general of Manitoba, and pioneer of the province, died at his home here, May 15. He had been ill for several months. Mr. Macara was born in London, Ontario, and he came west in 1882. He had been connected with the land titles office here for more than 42 years. Mrs. Macara survives.

Cruiser At Victoria

Victoria.—H.M.S. Colombo has arrived at Esquimalt naval base here from Bermuda in command of Captain C. C. Dodson, D.S.O. The cruiser will remain in British Columbia waters until August.



Deer Permit Petting

This photograph is submitted by W. E. Round, of Banff, Alberta, as evidence of what protection does in the way of overcoming timidity. These deer, native to Banff National Park, will use either back door or front when visiting and now have so much misguided confidence in humanity that they allow themselves to be petted.

B.C. Government Building Urged

A great variety of subjects engaged the attention of the Creston Board of Trade at the May meeting on the 14th, which was in charge of President Col. Mallandaine and enjoyed the best attendance of the year.

Notice was received of the 1929 meeting of the Associated Board of Trade of Eastern B.C. to be held at Nelson about the middle of June. President Mallandaine, C. O. Rodgers and Geo. Johnson were seleeted as delegates, with C. F. Hayes, S. A. Speers and C. O. Rodgers named a committee to draft resolutions.

A communication was read from the village commissioners in which council decided not to co-operate with the board in issuing a pamphlet to be used in an effort to attract new residents, the village intimating that the commissioners were preparing to issue a pamphlet of their own for distribution. West Kootenay Power & Light Company notified that they were again applying to the government for authority to erect a dam at Granite Creek, below Nelson, which it is claimed will raise the level of Kootenay Lake a matter of six feet.

Everyone took a shot at the public works department in a general discussion of highway matters, and the opinion was unanimous that never in the Valley's history were the roads in such bad shape as they are right now. The minister of public works will be communicated with direct and copies of the letter sent the district engineer as well as Col. Fred Lister, M.P.P. Immediate action on the North and South highway will be particularly stressed.

C.P.R. Supt. Flett of Cranbrook will be communicated with asking that the company distribute a couple of cars of cinders along side the team track opposite the depot in order to improve travelling for trucks and teams unloading freight direct from the cars.

The board was definitely informed that the B.C. Telephone Company has taken an option on a central site for a telephone central at Creston to better handle their long distance business, and the secretary was instructed to write Mr. Nicholson, the Kootenay manager of the company, at Nelson, asking him to make a survey of the village and district with a view to giving a local telephone service as well.

For some time past the village has felt that it is entitled to a public building to give better accomodation for the many provincial government departments. It was pointed out at this meeting that with the promise of a government liquor store the administration will find itself paying rent for the vendor, the registrar of voters, the local horticulturist, and with quarters having to be provided for the new game warden, the forestry officer, road superintendent, and the altogether inadequate quarters now available for the police work the government at Victoria could earn good interest on money invested in a government building. Too, if the structure were centrally located it might be possible to have the postoffice located in the same building. The whole situation will be presented the minister of public works by letter, and will be followed up by an interview with that gentleman on his approaching visit to the district.

Local and Personal

FOR SALE—Two Toggenburg billys, two weeks old, from purebred stock. Mrs. R. Dalborn, Wynndel.

Another boxing tournament is announced for Tuesday night at the Grand Theatre when the pick of the local and Bonners Ferry fistic talent will mix. There are four main bouts, and three preliminaries.

This is blossom time in Creston Valley and pear and cherry trees especially are carrying a wonderful show of bloom. Pollenization should also be most effective as bees never were more numerous than this season.

Up to the middle of the month 270 auto licenses have been issued at the Creston office of the provincial police. This figure is as large as for all of 1928, and prospects are that the even 300 plates will go out before December.

The weather this week has been of the good old summertime variety. Since Saturday the mercury has hit over 80 in the shade every day. The flood from Goat River is unexpectedly high considering the light snowfall of the past winter.

Capt. and Mrs. Venus, former residents of Creston, who have been living at Penticton for the past few years are moving to Calgary, Alberta, where Mr. Venus will be associated with his brother, who is Alberta manager for the Union Oil Company.

Popular prices of $1.50 per couple prevail for the dance in the Grand Theatre ballroom tonight, May 24th, under the anspices of the ladies of the Holy Cross Church. This price includes supper, and dancing is from 8.30 to 2 a.m. Music by Mrs. Lister's orchestra.

Creston had the long expected visit from the Liquor Control Board inspector at the middle of the week. There is no definite announcement as to who will be vendor but it is all but assured that the Lamont building, formerly occupied by the Imperial Bank, will be the store used.

Mr. and Mrs. W. M. Archibald of Rossland were here at the first of the week, and it is expected that they will almost immediately take possession of their new home C. O. Rodgers has commenced the erection of the pole line and wires to supply electric light from the Rodgers plant.

Messrs. Paulson & Johnson of the Creston tourist camp, report that the fine weather of this week has started the 1929 auto visitors and every night this week they have had one or more cars in camp. Finishing touches are being put on the camp this which will be ready for all comers next week.

The motor bus service between Creston and Bonners Ferry and giving a same-day connection through to Spokane, commenced on Tuesday. A. D. Morton is again in charge. Bus leaves the Premier garage at 12.15 noon and passengers arrive at Spokane at 7.25 p.m. The same courteous and efficient service will be given this year, and a special feature will be a $9 fare for the Creston to Spokane and return trip, good for 30 days.

The fall fair directors at both Canyon and Wynndel are out to make the canvass for membership a success. At Wynndel the growers are being seen and the need of supporting the fall fair impressed on each. At Canyon the directors, in addition to selling membership tickets, have arranged with the Farmer's Institute to have a discussion on the best means of making the fair a success and also how it can be used to help the valley growers. The president and secretary have promised to be present and address the meeting.

Mrs. Jas. Carr and Miss Lyda Johnson were hostesses on Tuesday night at the home of the latter at a bridge and shower in honor of Miss Lillian Cherrington, whose marriage takes place early in June. There were three tables of cards at which the prize scores were made by Mrs. W. R. Long and Miss Evelye Bevan, and prior to lunch being served the bride elect was "showered" with many miscellaneous gifts for the new home. The affair was attended by the girl friends of the guest of honor and proved a most enjoyable evening throughout.

Wynndel

BIRTH— On May 18th, to Mr. and Mrs. L. A. Davis, a daughter.

BIRTH—On May 18th, to Mr. and Mrs. Glazier, a son.

Mr. and Mrs. Percy Lunt of Calgary Alberta, are visitors with the former's parents at Wynndel.

C.P.R. Branch Lines

Heavy Programme Of Extension For the Season Of 1929

Under its policy of development and expansion, the Canadian Pacific Railway has already this season let contracts for 286 miles of branch lines construction in Western Canada, according to D. C. Coleman, vice-president, western lines.. This figure was reached following the announcement of four additional contracts totalling 112 miles, and it is expected that when the contracts for the newly authorized Lanigan-Prince Albert branch are let, that the construction programme for the season of 1929 will call for slightly more than 400 miles. Work on these contracts will be commenced immediately.

Contracts announced follow:

Nipiwin, toward Prince Albert, 25 miles; contractor F. Mannix, of Calgary.

Kootenay-Landing to Proctor, 35 miles; contractor Dutton and Grant, of Winnipeg.

Archive to Wymark branch from Lake Johnson to Wymark, 27 miles; contractors, Riley, Reid and Sandgren, of Edmonton.

Suffield to Blackie, branch from Arrowwood to Blackie, 25 miles; contractor Tomlinson Construction Co., Ltd., of Winnipeg.

Contracts already given this spring and which call for 174 miles of construction follow:

Acme, northeasterly, 25 miles; contractor, F. Mannix, of Calgary.

Willingdon to Vegreville, 25 miles; Brooks Construction Co., Prince Albert.

Lake Alma, west, 18 miles; contractors, Riley, Reid and Sandgren, Edmonton.

Lloydminster, northeasterly, 25 miles; contractors, Rosa and Wickstrand.

Unwin, westerly, 20 miles; contractors, Rosa and Wickstrand.

Coronation, Youngstown, 41 miles; contractor, F. Mannix, of Calgary.

This company will also proceed with the Lacombe northeasterly, a distance of 20 miles. Stewart & Cameron, of Winnipeg, are the contractors.

In making the announcement Mr. Coleman stated that Royal Assent had recently been received to the legislation authorizing the construction of the branch line from Lanigan to Prince Albert, and that it was proposed to let contracts for this work at the earliest possible moment, and immediately following the acceptance of the plans by the Board of Railway Commissioners, at Ottawa. This line will be 117 miles in length and will form an important link in the western branch line system. The programme, Mr. Coleman said, indicated that the Canadian Pacific Railway was proceeding actively with its projected branch lines and, further, that it was going ahead with its plans for the opening of the northern country. This was particularly emphasized by the letting of the contract to build from Nipawin toward Prince Albert, and by the fact that during the winter the company devoted a great deal of energy to the construction of a combined highway and railroad bridge over the Saskatchewan River at Nipawin. The piers for his bridge are now in place, he stated, and the structure will be completed as soon as possible. The company's keen interest in northern development was further indicated by the announcement that the Lanigan-Prince Albert branch would be proceeded with this season. Another important line was that scheduled from Kootenay Landing to Proctor, in British Columbia. This line when completed will give an all rail southern route to the Pacific Coast. The line, a connecting link, was made necessary by the growth of traffic and will do away with the necessity of using boats on Kootenay Lake. The construction work itself will be one of the most difficult since early construction days in Western Canada as the line will be built through mountainous country. It will be necessary to put in two tunnels, one 400 feet and the other 1,000 feet, and one bridge over the Kootenay Lake at Kootenay Landing which with approaches will be 3,500 feet in length.

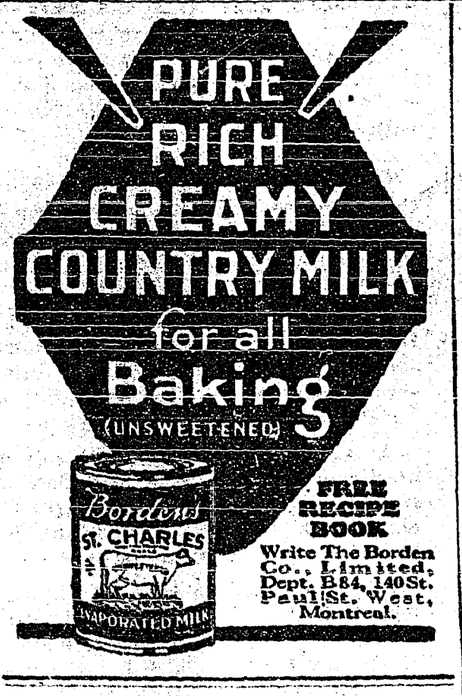
The branch lines on the prairies will, he stated, prove of immense value to the agricultural communities and will greatly facilitate the movement of grain to markets and manufactured commodities of the farmers and distributing centres.

Negotiations with the Canadian National Railways are proceeding effecting the entrance of the Canadian Pacific Railway to Battleford and North Battleford, and negotiations for an exit for the Canadian Pacific Railway from Prince Albert northwesterly will shortly be undertaken.

Ship Muskrats To England

What is stated to be a record consignment of muskrats in one batch to the Old Country was shipped on April 16th from Lindsay to Southend-on-Sea, England, in the care of the Canadian Pacific Express Company. The rodents are to form the nucleus of another muskrat farm in England, where the industry is thriving under an increasing demand for furs.

Minard's Liniment for cuts and bruises.



Canadian Honored

Medical Council Of London Nominates Ontario Man For Presidency

Donald Armour, M.D., C.M.G., F.R.C.S., a native of Cobourg, Ont., has been signally honored by receiving the unanimous nomination of the council of the Medical Society of London, for the presidency of the body.

Dr. Armour is a son of the late Hon. J. D. Armour, a chief justice of Ontario. His election will mark the first occasion upon which a graduate of an overseas university has held the office of president of the historic British society.

BABY'S OWN TABLETS WIN GREAT PRAISE

Many Mothers Always Keep Them In the House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets, Mrs. Donat Ploudre, Tingwick, Que., writes:—"I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so, safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Good Lamb Crop

Southern Alberta flock owners are harvesting one of the best lamb crops in years, it was revealed at the annual meeting of the Southern Alberta Sheep Breeders' Association at Lethbridge, Alta., recently.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

How many people do you know who are spending money they have not yet earned for things they don't need to impress people they don't like.

Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugsley, East Southampton, N.S., writes.—"I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night.

I decided to try

and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves."

Price 50c. per box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

SUNDAY SCHOOL LESSON

MAY 26

GOD'S LAW IN THE HEART

Golden Text: "Thy word have I laid up in my heart, that I might not sin against Thee."—Psalm 119.11.

Lesson: Jeremiah 31.1-40; John 1. 17; Hebrews 8.7-13.

Devotional Reading: Psalm 119.9-16.

Explanations and Comments

Individual Responsibility For Sin, Jeremiah 31.29.—There was an old saying among the Jews that the fathers have eaten sour grapes, and the children's teeth are on edge. The proverb puts the responsibility for the sins of one generation upon the preceding generation. In Jeremiah's day the people were complaining that they were being punished, not for their own sins but for the sins of an earlier generation. In the future, Jeremiah declared, individual responsibility would be recognized, a man would realize that he was judged for his own sins, not for those of others, and this proverb would no longer be repeated. The fathers had sinned, but the children had sinned, too, and the children would be held responsible for their own sins. To express this, Jeremiah amended the proverb to read, "Every man that eateth the sour grapes his teeth shall be set on edge."

Most people like to lay the blame for their misfortune or faults upon anyone or anything rather than upon themselves. It is the fault of circumstances that they are not more successful in life. It is their unfortunate heredity that has made their chaarcter what it is. Some one else to bear the blame is "a long-felt want" of humanity. Jeremiah placed the blame where it usually belongs.

In our soul God is constantly speaking to us—He warns us against evil, He exhorts and encourages us to good. Suppose a boy has done another a bad turn. The one who has been wronged has been brooding over his wrongs, when suddenly he learns something about his companion, the knowledge of which by others will do him immense harm. He will have his revenge, he thinks; but while he is comforting himself in this way, a voice is heard, soft but most persistent, saying to him: "It is a mean thing that which you have in mind to do, it is a cruel thing; don't return blow for blow, leave him to his thoughts, keep your own unstained." That is the voice of God.

Perhaps you are out somewhere bent upon your own amusement, when you see some sad accident happen. Your first impulse, after you have gratified your curiosity, is to go after your pleasure, shut from your mind the thought of the sufferings of others, and just follow the rule of "everybody for himself." But then you hear a voice saying: "What are the pleasures you give up compared with the suffering you might help to relieve? Come, make some sacrifice for the good of others, and don't think all your time misspent because it isn't spent upon yourself." That, too, is the voice of God in your soul, urging you on to be unselfish and merciful.—Simeon Singer.

Yet still there whispers the small voice within,
Heard through God's silence, and o'er glory's din,
Whatever creed be taught, or land be trod,
Man's conscience is the oracle of God.—Byron.

Minard's Liniment relieves pain.

"Just a Slice Of Ham" But With New Flavor

"They all said they weren't hungry—but look at the platter!" That's how it goes when you cook your slice of ham in Borden's St. Charles Milk, according to the recipe below.

The mustard flavor is cooked in, and there's a suggestion of cloves, too — besides the extra-rich milk which gives every dish a superior savor and nutritive value. Be sure to use St. Charles milk — ordinary milk is too thin.

You'll be surprised how different this dish is from just plain ham.

Baked Ham With St. Charles

1 slice ham cut about 1 inch thick, with rim of fat.
1 tablespoon sugar.
1 cup Borden's St. Charles Milk.
1 teaspoon mustard.
1 tablespoon flour.
½ teaspoon ground cloves.
¾ cup water.

Trim off rim of fat and cut in very small pieces. Thoroughly mix flour and mustard and pat into ham. Place in rather deep pan. Mix together cloves and sugar and rub through the fat; place over top of ham. Dilute milk with water and pour over ham to cover. Bake in a moderate oven until ham is tender, about one hour. Add more milk as needed to cover ham while baking.

Minard's Liniment—good for tired feet.

MINARD'S "KING OF PAIN" LINIMENT

May Make Polar Trip

Graf Zeppelin Likely To Make Expedition Next Year

In addition to being groomed for a round-the-world trip this summer, the Graf Zeppelin is destined to show its silver sides to the white wastelands of the Arctic before another year has passed.

The International for the Exploration of the Arctic Regions by means of aircraft, has entered into a contract for the use of the big ship for an expedition from Leningrad to either Nome or Fairbanks by way of North Polar regions. The trip will take place in April or May of 1930.

Simple and Sure.—Dr. Thomas' Eclectric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young and old.

The easiest way to judge some men is to discover how much they expect to be allowed on their old ears.

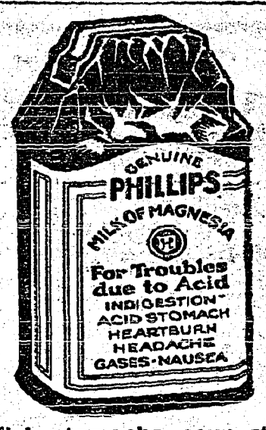
Every sower must one day reap from the seeds that he has sown.

It May Be *Urgent*

When *your* Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA



Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

THE CRIMSON WEST

— BY —

ALEX. PHILIP

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

As dusk fell over lake and mountain, Donald returned from Wainwright's cabin. Andy glanced up expectantly as his friend appeared, but quickly averted his face as he saw Donald's features. Donald sank disconsolately to a seat outside the kitchen door. He had found Wainwright alone and wondered if Connie had purposely absented herself. Her treatment of him since her return puzzled him sorely and had filled him with a great despondency. As he rose and walked toward his cabin, Andy gazed after the retreating figure, eyes filled with compassion, then turned to speak to one of his helpers in such an irritable tone that the flunkey's mouth opened in astonishment.

For three evenings it was the same. Donald failed to find Connie at home; nor did she come to the mill. He regretfully decided that it was no coincidence, but that she was deliberately avoiding him.

On a Sunday afternoon Andy saw Donald gaze yearningly toward the bluff, then turn up the trail leading to the dam.

At Donald's request Gillis had diverted logging operations to circle the little oasis in the heavy timber, so that Connie's sylvan glade still held its primeval charm and beauty.

Donald stood for a moment gazing reflectively into the white foam at the foot of the tiny cataract, then threw himself on the soft bed of moss and closed his eyes. But this time the fairy spot did not bring the usual delicious languor to his harassed spirit. Birds sang as sweetly; flowers filled the air with the same odour; the wind sighed as softly through the tree-tops, and the small brook still sang its rippling song. The rapid tattoo of a woodpecker's bill on a hollow tree jarred his nerves and he tossed restlessly.

A cedar tip floated through the air. Blown by the wind, it fluttered in circles, then gently on the hands lying on his chest. His eyes opened, then, with trembling limbs, he came to his feet.

Connie, clad in faded overalls and cotton shirt, stood on the edge of the "nest." Her breast was heaving, her loosened golden hair flying in the wind. The softness in her blue eyes made Donald gasp, and his heart thumped as though it were in his throat.

"Connie!" he cried huskily, "I love you, dear! Don't you care for me a little?"

She sprang lightly to the ground and came toward him, her arms outstretched. Tears of joy coursed down her cheeks. "Oh, Donald, Donald, you big stupid!" she sobbed, "I have been waiting here for you every day. I—I have loved you always."

With a shock of incredible rapture Donald gathered her in his strong arms, where she cuddled like a weeping child. He kissed her red lips, her eyes, hair and throbbing throat. "My little Connie," he said, in a voice vibrant with feeling, "do you really love me?" He pressed his cheek to hers and felt the flutter of her long lashes as she pressed the softness of her own closer. The quick, exquisite indrawing of her sobbing breath were lovely answering things, and he thrilled to hear her whisper: "Yes, Donald! Yes, Donald!"

Andy came walking meditatively up the path, his hands clasped behind him, his blond head bowed in deep thought. Not finding Donald at the dam, he walked up the hill to enter the meadow just as Donald clasped Connie in his arms. For an instant the little Australian stood rigid, his eyes bulging, then retreated hastily to the shelter of the trees. Any one seeing Andy at that moment would have thought him suddenly gone mad. He whirled about in a wild dance, hugging himself in an ecstasy of joy. Ceasing his mad gyrations, he dashed his hand across his eyes and bolted like a runaway down the hill.

Gillis and his "redshirts" sat sunning themselves on the steps of the dining-room. They sprang to their feet as Andy came tearing down the hill. Breathlessly Andy told them of the scene he had witnessed. "We'll give them a blinkin' good reception when they come down," he panted. He issued several sharp orders and the men scurried happily to execute his commands.

The train that was to carry the excursionists to the Coast was being made up on the siding. While they were awaiting this, the visitors watched with curious interest the mysterious preparations being made by the loggers.

At this moment, hand in hand, Donald and Connie turned the corner of the building. As they did so they came to a sudden halt and stared at the odd scene before them. The men stood in two orderly rows. The ground between was carpeted with wildflowers, and each logger held a mass of blooms in his hand. At the far end of this lane of men stood Andy, a wide smile on his droll face. Connie lowered her eyes in confusion. Donald shook his fist at Andy. "You little beggar! You are responsible for this."

Andy chuckled. "Come on, Donnie, be a sport," he coaxed.

With flushed faces Donald and Connie walked down the aisle, while the men pelted them with flowers. The crowd of visitors clapped their hands in appreciation of this beautiful scene. As they neared the end of the gauntlet, Andy sprang to a stump.

"Three cheers for the 'appy couple!" he yelled. A roar of cheering followed. "A tiger!" shouted Andy. And again the air trembled to the hoarse shout of brawny throats.

Donald led Connie straight to his mother. "Mother," he said bashfully, "meet your future daughter."

Quick tears came to his mother's eyes as Donald made this announcement. "My dear," she said tenderly, as her arms folded about Connie, "you are all love and tenderness."

The train's whistle screeched its warning and the crowd moved down to the station.

"Will you be coming home to us soon, Donnie?" asked his father as he was leaving. Donald looked down at Connie.

"We'll visit you on our honeymoon, Dad," responded Donald happily. He swept his arm toward the mountains. "I could never leave this. The spell of the Great West has entered my blood."

Janet had spent the afternoon paddling idly on the lake. When she received the news of Donald's engagement she concealed the ache in her heart by an outward air of indifference. The pretence of a headache enabled her to keep in her cabin and she did not appear for dinner. She wanted to be alone with her thoughts.

When the shadows lengthened, Donald and Connie moved slowly along the path toward the bluff. As they turned a curve in the trail Janet came to the window of her cabin and stood watching them until they disappeared from sight.

Andy, sitting a few feet distant with his back against a tree, noted the look of despondency on Janet's face. He came to his feet and walked slowly toward the kitchen. "As Methusalem said through 'is whiskers. ''e who 'olds 'is 'ead too 'igh will 'it 'is blinkin' toe.'"

As the lovers were about to turn up the mountain trail, the trapper emerged from the woods with his old pack-horse. The cayuse was piled high with luggage.

"Where are you going, John?" queried Donald.

"I'm hittin' the trail, ol' timer."

"I hope you are not leaving us," said Connie.

"Yes, I'm quittin' the country."

"Why?" questioned Donald.

"Gettin' too thickly settled. I feel that I ain't got room to breathe. I'm goin' way back into the Cariboo somewhere so's I kin be by myself."

The race of mediaeval hermits is not dead. The spirit that led the first pioneers into the forest guides others there today. There are men whose souls long for a place untamed, who yearn to breathe the wild free air. They want a home straight from the hands of the Creator, unspoiled by man. They may be trappers, who brave cold and hardships to clothe milady in warm furs; they may be prospectors, who search out the hidden gold for others to use. Whatever they may be, these hardy men blaze the trail for others to follow.

When Donald told the trapper of the coming wedding the old man's eyes softened. "I'm glad. It's jest right. I hoped you two would git married." He shook hands gravely then clucked to his horse.

"Goodb-ye, Connie! Good-bye, ol' timer! God bless ye!" he shouted over his shoulder.

Donald and Connie stood watching the patient old figure as he trudged behind his cayuse. At a turn of the trail he stopped and for a long interval gazed back at the log cabin by the stream, which had been his home for so many years. He waved his hand in farewell, then horse and man disappeared from view.

When Donald and Connie reached the bluff the sun had sunk in the crimson west, leaving a rich afterglow that spread across the horizon from west to east, the rich colours merging by slow degrees into that pure pearl-grey which makes the long and lovely twilight of the British Columbia mountains. Down on the lake mists were gathering, but in the upper sky and on the glaciers a vivid orange glow still lingered. The trees stood stiff and motionless in the quiet air. From afar, subdued but clear, came the hoot of a blue grouse, and from mountain gorges came the faint sighing sound of distant waterfalls. Sweet and pungent odours of wild flowers came from the woods about them. A star of silver brilliancy sparkled suddenly out in the sky over the massive snow-clad peaks.

"Venus," whispered Connie.

Donald's gaze swept from the camp, nestled at their feet, to the darkening heavens, to the star of love, then down to the girl by his side.

There are moments in the lives of all men—regardless of creed or religion—when they feel the nearness of God. Such a moment came to Donald. He uttered no sound, yet his soul was crying out its great thankfulness.

Connie sensed his feeling. She bowed her head, her eyes misty with joy and gratitude. "Oh, God," she murmured softly, "we thank Thee for Thy many blessings."

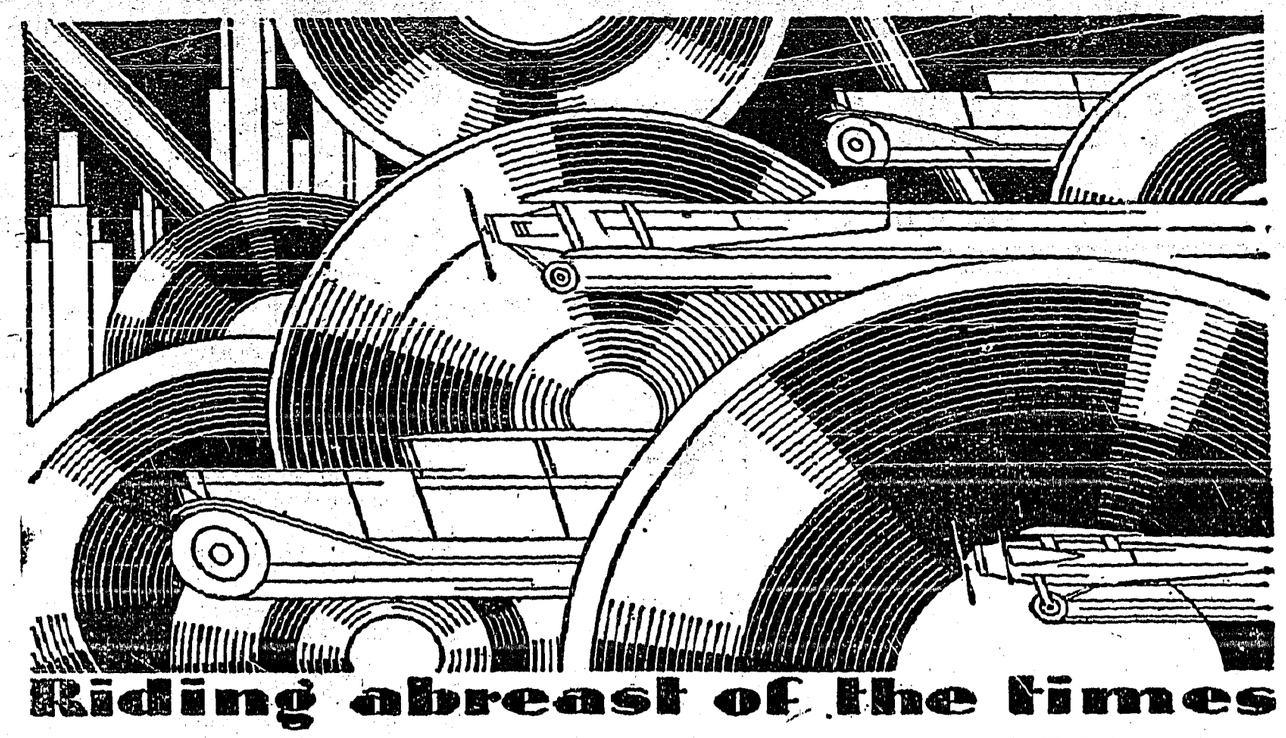
THE END.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—*Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.*

Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Med. Co., Lynn, Mass., U. S. A. and Cobourg, Ontario, Canada



Riding abreast of the times

You expect more from your motor car today than you did ten years ago. And you get it. Greater speed, smoother power and more responsive performance are common to modern cars as a result of the development of higher speed, higher compression motors.

These improved engines demand a better oil—fuller-bodied, with greater resistance to heat and wear.

To ensure a better motor oil, Imperial Oil Limited goes all the way to Peru for the crude from which to make Marvelube. Marvelube is made from a base that is rich in all the qualities necessary for better lubrication of the modern motor. It is today the oil standard for high-speed motors from coast to coast.

Marvelube is preferred by over half a million motorists in Canada and is the choice of aircraft operators because of its superior lubricating qualities.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. Consult the Marvelube Chart at Imperial Oil stations and dealers.

Marvelube

From far Peru comes a better crude to make a better motor oil
