THE CRESTON REVIEW

VOL. XXI. CRESTON, B. C., FRIDAY, AUGUST 2, 1929 No. 22

Erickson

Mrs. Shaver and son of Hamilton, Ontario, are guests of Mr. and Mrs. R. M. Telford, arriving on Tuesday.

Mr. and Mrs. Aubrey Kemp and young daughter of Trail, are visitors here this week, at the home of the former's father, W. H. Kemp.

Mrs. E. Cartwright left on Thursday on a month's visit with relatives at Dundas and other Ontario points.

Miss Wilma Campion of Nelson has just arrived on a visit with Miss Kathleen Bundy.

B. Barrett, who has been here for some months, left during the week for Fernie, where he has secured a position.

Mrs. Ron. Lidgate of Calgary, Alberta, has been a visitor the past week with her mother, Mrs. McKelvey.

Miss Ruby Martin left on Tuesday for Ginol's Landing, where she is cherry packing at the Ginol ranch for a couple of weeks.

Misses Kitty and Edith Littlejohn of Victoria and Vancouver respectively, arrived this week on a visit with Erickson friends, and are guests of their father, W. G. Littlejohn.

Eric Craigie, who has been at Kamloops for some time past, is home on a visit this month.

It is expected that a start will be made on the big irrigation main ditch before the end oi the week.

Miss Clara Walker, who has been teaching on Vancouver Island, has been secured as teaches of Division 2 of Erickson school, replacing Miss Reid.

Lewis Littlejohn got back on Sunday from a two weeks' holiday visit in Washington and Victoria. He says that now water is assured all that is required is electric light and power and Creston Valley would be as good as the best of them.

Lister

Alf. Letoille pulled out at the first of the week for Kimberley, where he is expecting to land a job for tho fall and winter.

Mrs. R. G. Helme and young son of Vancouver, have been visitors at the Hobden ranch the past couple of weeks.

Mr. and Mrs. A. E. Krygsveld and family have just arrived from Aiberta and are oocupying the Camp 2 property at present.

Anglican Church service will be sesumed on Sunday morning at 11 o'clock, when Rev. Philip Hayman will take the service.

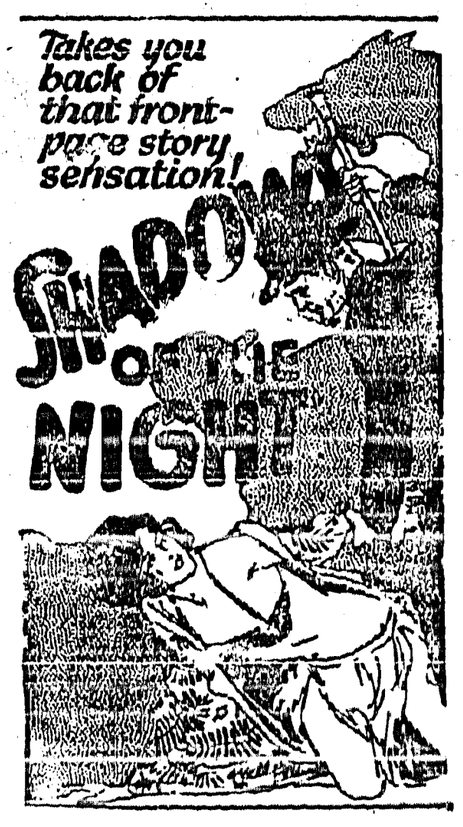
Mrs. Wardle and Mrs. Aylet of Sandy, Utah, are here on a visit with Mr. and Mrs. Jas. Huscroft. The former is mother of Mrs. Huscroft and Mrs. Aylet is a sistei.

Mr. and Mrs. A. H. Malthouse and daughter and Mr. and Mrs. Fred Trevelyan and daughter of Calgary, Alberta, are Lister visitors this week with Mr. and Mrs. E. J. Malthouse,

Unemployment is unknown in this section. All the available man power has been rounded up for the forest fire fighting at Kitchener.

The continued dry weather is shortening up the raspberry crop and shipping will cease in a few days if no rain comes. Up till Wednesday the Alf. Wellspring ranch had shipped 40 crates, and Geo. Jacks is also a shipper this season.

GRAND THEATRE
Saturday, Aug. 3



Canyon City

Mr. and Mrs. Geo. Niblow and family are just back from a motor holiday with friends at Calgary and other Alberta points.

Misses Frances and Muriel Knott the weekend with their sister at Glenlily.

Ernest Hickey left a few days ago for Alberta, where he will help with harvest and threshing operations in southern Alberta.

Rev. Mr. Helquist spent a few days here at the end of the week and on Sunday left with John Anderson for a vacation at Waterton Lakes.

John Nygaard arrived on Saturday to attend the special meeting of the ratepayers. He is working on railway construction east of Proctor and returced there early in the week.

Congratulations are in order with Miss Muriel Knott who was among the successful students at Creston passing the third year high school examinations with a total of 581 marks, taking good standings in practically all subjects.

Gus. Oberg has just purchased the Fleming place, which adjoins John Anderson's on the main highway. It is ten acres and was one of the first ranches developed at Canyon, though of late it has been neglected. Mr. Fleming, the owner, lives in Victoria.

There was a large turnout for the special meeting of the school district ratepayers on Saturday night called for the purpose of voting money to carry on educational affairs for the next twelve months. Geo. Davie was elected chairman, and after trustee F. Knott had explained why the meetiug had been called there was a considerable discussion as to whether anything done at this meeting would be legal. F. H. Jackson, of Creston, and also a property owner here, who has served as school trustee for several years in that town, was present and spoke advising the meeting that it was entirely illegal and on a motion by Messrs. Spencer and Humble that the meeting adjourn to obtain further information the motion carried by 30 to 27. However on Tuesday the trustees received word from the education department that the meeting was quite in order and it is expected another meeting will be called as quickly as possible to finally settle things.

Crestwood

Ted Smith, who is in charge of one of the draglines, has rented one of the houses on Cloverdale ranch.

W. Burleng and Joe Stephens now are at work on a contract to put up 200 tons of hay at the Reclamation Farm.

Mrs. Larson and daugnter, Lillian, left last week for Spokane, where the latter is having special medical treatment.

A number of the Crestwood young people were at Porthill for the dance on Saturday night.

Frank Leslie. who is with the Spokane Power Company, accompanied by his wife and son, were visitors with his mother Mrs. Swoop, a few days this week.

Tom Barrington of Morrin, Alberta, has completed the purchas of the Chas. Fass place, south of the Cloverdale ranch and expects to move here in the fall. The place embraces 160 acres and is fairly well timbered to cedar poles, etc. The timber will be taken off this winter and then the land will be used for mixed farming it is expected.

Creston Defeats Cranbrook 15-3

Game Much Better than Score Indicates—Fortin-Watson Battery Work Brilliant—Lumberton Here Sunday, August 4th.

Hitting more opportunely and playing a better defensive game enablhd Creston to win at baseball on Sunday afternoon beating Cranbrook 15 to 3.

The game was by no means as lopsided as the figures might indicate. Although Creston went to the front in the first innings and never headed; up till at least the fifth the visitors were always threatening, and it was largely due to the stellar box work of Fortin that heavier scoring was prevented.

This was particularly noticeable in the third frame when with all bases occupied and no one out, the Creston hurler forced the next two batters to hit weakly to the snfiled for easy outs at the plate, while the third out came on a long fly to right which Boffey handled easily.

Another satisfactory innings for Creston was the eighth when with all bases tenanted, Watson obliged with a long fly to deep centre for the circuit, acount for a cluster of four runs. In addition to hitting well, Watson caught a mighty fine game.

McKelvey at first is playing a better game than ever before, and in righn field Fred Boffey's work was sparkling. He and Telford were the pick of the hitters on the Creston lineup.

Argue was the outstanding occupant of a Cranbrook uniform. He got two of the ffve hits credited the visitors and he was equally reliable in the field. Steve Clark was as reliable as ever at the initial corner, but his batting is not up to the oldtime standard.

Having strengthened a couple of weak spots on the defense Lumberton will be here on Sunday for the return game confident of reversing the 17-10 score Creston registered against them at Lumberton a couple of weeks ago. The game will get under way at 2.30 prompt.

Local and Personal

Full Gospel Mission (Pentecostal) in Canadian Legion Hall, Sunday, Aug. 4th. 11 a.m., subject, "Paul's Exhortation to Timothy" (2 Tim. ii. 1). 7.30 p.m. "Father's Business." All welcome.

Permits to cut hay on Creston flats will be issued at Creston on Friday next, August 9th, and at Wynndel the day previous. H. A. Browne, grazing ranger, will again be in charge this season.

Mrs. Hayes and her sister, Miss Helen Robinson, left on Wednesday on a visit with friends in Vancouver, Victoria and Seattle. From the coast the latter returns to her home in Markham, Ontario.

Scorching hot weat er still prevails, though there has been a little less wind this week. Since Sunday the temperature has been above 90 in the shade. It was 99 in the shade Tuesday afternoon.

Misses Margaret Blinco, Margaret Stapleton, Aileen Spratt, Joan Hilton, Mary Murrell and Marjory Hamilton comprise a holiday party who left at the end of the week for a ten day vacation at Kootenay Bay.

Mr. and Mrs. Donald Merrill (nee Thelma West) were Creston visitors for a few hours on Thursday returning by motor from their wedding trip to Yellowstone National Park to their new home in Stirling, Alberta.

Due to the absence of electrical storms the district has had only one serious forest fire this month. It is still raging in the Kitchener area, with about 150 men holding it from spreading into valuable standing timber to the east.

J. C. Rykert is modernizinfi his commodious residence at Rykerts by the installation of a steam heating system and by adding of a couple of bathrooms. The contract for the whole work has been taken by Sam Steenstrup.

Wednesday was the last day for the forwarding of resignations from the school teaching staff, and as none have come to hand it is expected both the high and public school corps of instructors will be the same as last term.

H. A. Brown of Nelson, provincia grazing ranger, is here this week on an official visit. At a meeting of the executive of the Stockbreedors' Association Monday night it was decided to start the flats hay cut on Monday, August 12th.

Congratulations are being extended Ivan Staples and Miss Nadine Bell, who were married at Bonners Ferry on Saturday returning the sollowing day and wi l reside in Crerton, where the groom is on the mechanical staff at the Premier Garage.

Mrs. Bolton, has been in charge of the Wilson Avenue boarding and rooming house for the past year, left at the end of the week on a visit at Cranbrook, and goes from there to be with her daughter in Seattle. Miss Eva Bolton accompanied her.

In the neighborhood of fifty autos were in evidence at exhibition park for Sunday afternoon's ball game. If the rush continues some one should be on duty at each game to look after the parking so that all car owners can get a good look at the play.

Mrs. R. Stevens left on Thursday last on a few weeks' visit with friends at Vancouver and coast points, and will renew acquaintances at Arrow Lakes centres on her return. She is accompanied by her sister, Mrs. Smith, who is returning to Vancouver.

Mr. and Mrs. T. E. Edmondson and their daughters, Misses Mildred and Gladys, of Toronto. arived on Wednesday on a holiday visit with Mr. and Mrs. T. M. Edmondson. It is almost twenty years since the brothers had previously renewed acquaintance.

Many friends here of Mr. and Mrs. Sam Burnett, who moved to Nelson to reside a little over a year ago, will greatly spmpathize with them in the death of their goungest son, Jackie, which occured on Saturday, after a very brief illness. He was in his seventh year.

Lumberton team will be here on Sunday afternoon, August 4th, for the return baseball game with Creston, with play to start at 2.30. Creston won the previous engagement by a safe margin but Lumberton team has peen strengthened and the contest should be an exciting one.

Mr. and Mrs. G. M. Argue and family of Cranbrook are visitors this week with Mr. and Mrs. C. H. Hare at their summer cottage at Kuskanook. After seeing Creston baseball team in action on Sunday Mickey is of the opinion that the locals are the best ball team in East Kootenay this year.

Of the three candidates who were writing for promotion from Grade 9 to 10 but one was successful, Agnes Sinclair passing with a supplemental. All students in this grade were from the Lister school. For promotion from Grade 11 to Grade 12 Margaret Fraser, Mary Goodwin, Dora Healey, Laura Holmes, Clara Hunt, Muriel Knott, Madeline Putuam took a full pass, while Jessie Learmonth and Ruby Martin passed with supplemental. Five candidates granted partial standing. In Grade 12 Byron Willis, who took psivate study, was successful in making a full pass.

Chas. Moore on Thursday last received word of his appointment to the position of city engineer at Revelstoke, and left on Monday to take over the work. The appointment is an important one as Revelstoke is right now about to build a 3,000,000 gallon concrete water reservoir, a new high school building as well as a new municipal building. Mr. Moore comes well qualified for the work as he has had wide experience in these lines since graduating as a land serveyer in 1896 and in the intervening 30 years has been employed at railway construction and location, waterworks and sewage installations as well as building designing and construction.

Alice Siding

Guy Constable was a businese visitor in Calgary, Alberta, a couple of days the latter part of the week.

Jeff. Collis was a weekend visitor with Mr. and Mrs. Percy Watson at Ymir

John Parkin, jr., has arrived from Michel and will be staying with his parents, Mr. and Mrs. J W. Parkin, until after haying.

Mr. and Mrs. Kelly got back this week from their motor holiday visit with friends in Saskatchewan.

Mr. and Mrs. Ivan O'Neil are visitsrs this week, guests of Mr. and Mrs. Dick Smith.

Miss Gwen Webster left on Friday for a short holiday visit with her sister, Mrs. H. McDonald, in Calgary, Alberta.

Mrs. Constable and family spent the weekend with friends at Bonners Ferry.

Mrs. Tom Anderson and children with her brother, Tom Anthony of Victoria, have gone to Kimberley, where they will reside for at least the winter.

The Mrs. Lister-Constable Bob Marshal orchestra played for their third Saturday night dance of the season at Deer Park, Idaho, last week.

Cranbrook Courier: Mrs. Jas. Norgrove returned home on Monday, after spending the weekend with Mr. and Mrs. R. Alderson of Creston. Her daughter, Sybil, accompanied her.

Sirdar

Mrs. Lora, who has been visiting with her parenes, Mr. and Mrs. Parento, for the past three months, has returned to her home in Wayne, Alberta,

Mr. and Mrs. Elwood Shultz of Spokane, were visitors with Mr. and Mrs. Heap over the weekend.

Miss Lillian Wilson arrived from Nelson on Sunday, to spend the vacation with her parents, Mr. and Mrs. Jas. Wilson.

Mr. Swannell of Vancover was a visitor with his sister, Mrs. R. Bleumenauer, on Friday.

Mrs. Hopwood and Misses Hazel and Helen were weekend visitors with the former's sister, Mrs. Heap.

Mrs. E. W. Ryckman and family who have been visiting with Mr. and Mrs. J. Cameron, returned to their home in Spokane on Saturday.

J. Lombardo arrived from Revelstoke on Tuesday to take over the work of fireman on the yard engine.

Mr. and Mrs. S. Pascuzzo had visitors over the weekend from Cranbrook.

Mr. Windland from Wisconsin, U.S.A., was a weekend visiter with Mr. and Mrs. Heap.

WANTED—Stump puller, hand or horse power, at once. V. Brixa, Creston

Another Great Game!

Baseball

Lumberton vs. Creston

EXHIBITION PARK
CRESTON

SUN., Aug. 4th

Starting 2.30 p.m. Prompt.

Since the game two weeks ago Lumberton has strengthened the weak spots and will be in the game all the way.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

The Right Community Spirit

Every once in a while in the strenuous, and more or less selfish days of this modern, highly organized period of the world's history, some little incident of downright unselfishness, of the practical application of the Golden Rule, comes to light which does all good who hear of it, and revives our belief in the innate goodness of the majority of our fellow men, a belief which is frequently in danger of being wholly destroyed when we read of so much deceit, dishonesty, cruelty and crime.

Such an incident, causing a warm glow in our hearts, occurred in the Carievale District, of Saskatchewan, a few weeks ago. When Stanley Dugan and his eldest son, Garfield, died within three months of each other, leaving Mrs. Dugan and eight small children, the neighbors decided to help put in the crop. Therefore, on a given day, eighteen tractors gathered at the Dugan farm and plowed 160 acres in seven hours. The following day other neighbors harrowed and seeded the field. Neighbor women provided the "eats" for the "bee." While the "bee" was organized and managed by the Carievale I.O.O.F. No. 20, it was carried out as a community enterprise and is typical of the community spirit which prevails in the Carievale district.

It was this same spirit that animated the early pioneers in Eastern Canada who joined forces in conquering the virgin forests, built roads, schools, churches, grist mills, and in one "bee" after another assisted each in turn to build houses and barns. And when this "last great west" was opened to settlement, the same spirit prevailed, neighbor assisting neighbor through their difficulties,, and in times of sickness and disaster. Only so was the settlement of Canada made possible, and the foundations laid for the successes of today.

It was the cultivation and practice of this neighborly community spirit of self-sacrifice and co-operation which established for the West its reputation of open-handed friendliness and generosity. But as population increases, cities and towns grow up, modern means of communication expand, the vacant spaces fill up, and a more highly organized and mechanical development takes place, there is danger of this fine old feeling of neighborliness disappearing. It would be a pity if this should happen, and it is vastly encouraging to learn of such a happening as that at Carievale.

And if we are losing something in actual practice of the community spirit in our larger centres of population, it is gratifying to know that it still prevails in the hearts of Western men and women. It is as strong as ever in the more remote and pioneer districts of the West, finding expression in the building of small community hospitals and Red Cross Outposts, in community clubs and halls, homemakers' clubs, and numerous co-operative efforts for the welfare of all, regardless of race, language, creed, or worldly possessions.

Helpful as the neighborly assistance extended by the people of Carievale district undoubtedly was to the bereaved Widow Dugan and her children, alleviating her sorrow and removing worry from her mind, we venture to say that those who participated in extending that assistance found a glow of satisfaction, a joy, in rendering this service far greater than any realized by them from any successful venture undertaken in their own behalf.

Furthermore, the neighborly spirit and co-operation thus displayed, and the uniting of forces in the performance of a splendidly unselfish effort, cannot fail to leave its impress upon the whole community. It must inevitably make easier the settlement of those little disagreements and differences of opinion which arise in all communities regarding school, church, municipal, and other local affairs. It means that not Widow Dugan alone, but the whole community has benefited, because the right kind of a community spirit burns more brightly than before.

Find Canadian Wood Useful

London Firms Using Mill Waste For Making Linoleum

That shavings and other planing mill waste are being used experimentally in the manufacture of linoleum, in place of "wood flour," which is at present imported from the continent, was revealed in the annual report of the Department Of Scientific Industrial Research, issued at London, England.. The report dealt in particular with the development of the empire's timber resources. One London firm sought a suitable wood to make boot lasts. The department experimented and finally recommended that Canadian or home-grown birch would serve the purpose.

You'll sleep in comfort if you apply Minard's.

MINARD'S "KING OF PAIN" LINIMENT

W. N. U. 1798

A Golf Triumph

First Amateur To Make Par On Famous Jasper Golf Course

For the first time in its history, an amateur has played the famous Jasper Park Lodge Golf Course in par. The triumph belongs to B. Tait, of Pasedena, California, scion of one of the most noted golf families of Scotland. Par for the Jasper Golf Course, where the Canadian Amateur Championships will be played in August, is 70.

Mr. Tait's first visit to Jasper was a quarter of a century ago, when, as a surveyor he went through that country in advance of the railway.

Agricultural School For Lethbridge

Development of the plan to establish an agricultural school in Lethbridge with the Federal Experimental Farm at Lethbridge, Alberta, as the basis for the practical demonstrations, is being proceeded with, according to Hon. George Hoadley, Minister of Agriculture.

Sugar Beet Crop

Sugar beets in Southern Alberta, are making good progress. Indications are that there will be about 8,500 acres thinned this year, spring losses being less than last year.

Women Control Wealth

About 41 Per Cent. Of Individual Wealth Of U.S. Held By Fair Sex

Approximately 41 per cent. of the individual wealth of the United States is controlled by women, so a recent bank survey shows. Should this proportion increase at the present rate, financial matriarchy would be established by the year 2025. Women are receiving 70 per cent. of the estates left by men and 64 per cent. of the estates left by women. In addition they are the beneficiaries of 80 per cent. of the $95,000,000,000 worth of life insurance policies in force in this country. According to income tax reports the majority of incomes of over $100,000 are in feminine hands, while over 41 per cent. of the entire income tax is paid by women. As a result of their financial ascendancy women comprise an actual majority of stockholders in the largest corporations in America, and constitute from 35 to 40 per cent. of investment house customers.

A TIRED OUT FEELING

Is a Sure Sign That the Blood Is Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says:—"Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I had been taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A scientist has discovered that housecleaning is caused by a microbe.

A total of 576 films was shown in Finland in 1928. Of this number the United States supplied 364.

Chief Submarine Disasters

Appalling Loss Of Life In Last Fourteen Years

Submarine risasters have taken a heavy toll of life in the navies of the world. Some of the major accidents to undersea sraft follow:

March 24, 1915—United States submarine F-4 sunk in Honolulu Bay, loss of life 21.

1921—British submarine K-5 disappeared off the Scilly Islands while in diving practice, 57 dead.

March 23, 1922—British submarine H-42 sunk by a British destroyer near Gibraltar and 26 men killed.

August 21, 1923—Japanese submarine foundered beside a dock at Kobe, Japan, 85 dead.

January 10, 1924—British submarine L-24 sunk by British battleship, Portland, England. Death list 43.

March 19, 1924—Japanese submarine sunk by Japanese battleship off Sasebe, Japan, 49 dead.

September 25, 1925—U.S. submarine S-51 sunk off Block Island, R.I., by steamer, "City of Rome," 33 dead.

December 17, 1927—United States submarine S-4 sunk off Provincetown, Mass., by coastguard-cutter Paulding, 40 dead.

August 6, 1928—Italian submarine F-14 sunk in Adriatic Sea in collision with destroyer, 31 dead.

July 9, 1929—British naval submarine H-47 collided with the British submarine L-12, 22 miles off the coast of Pembroke, Wales, in the Irish Sea, 24 lives lost.

The worst post-war British submarine disaster recorded took place in 1925, when the H-1 was sunk off Star Point with the loss of 68 lives.

Many British Premiers Came From Scotland

Ramsay MacDonald Makes Fifth In Last Thirty Years

The Scotch appear to have a strong hold on the British premiership.

J. Ramsay MacDonald is the fifth prime minister from Scotland in thirty years. The others were Lord Roseberry, Sir Henry Campbell-Bannerman, Earl Balfour, and Bonar Law.

During the same period, the Welsh have had one premier, David Lloyd George, and the English two, Lord Salisbury and Stanley Baldwin.

Keep Minard's Liniment always handy.

"Dad, what are ancestors?"

"My boy, I'm one of yours and your grandpa is another."

"Well, then, why do people brag about them?"

ATTENTION, WOMEN OF MIDDLE AGE!

Mrs. Goodkey Tells Her Experience with Pinkham's Compound

Byemoor, Alberta.—"The Change of Life was the trouble with me and I wasrun-down, thin, and weak and could not sleep, had a poor appetite and could not do much work. I am taking Lydia E. Pinkham's Vegetable Compound now and I feel like a well woman. I saw it advertised in the papers and tried it and Lydia E. Pinkham's Sanative Wash. I have recommended it to a lot of women friends." MRS. WM. GOODKEY, Byemoor, Alberta.

Northern Alberta Railways

Two Transcontinental Railways Take Over Lines In Alberta

On July 2nd last, the four Alberta Government-owned railways — the Edmonton, Dunvegan and British Columbia Railway, the Central Canada Railway, the Alberta Great Waterways Railway and the Pembina Valley Railway—were taken over by the Canadian Pacific and the Canadian National and merged into one concern to be known as the Northern Alberta Railways.

LONG SLEEP MAKES BABY HAPPY AGAIN

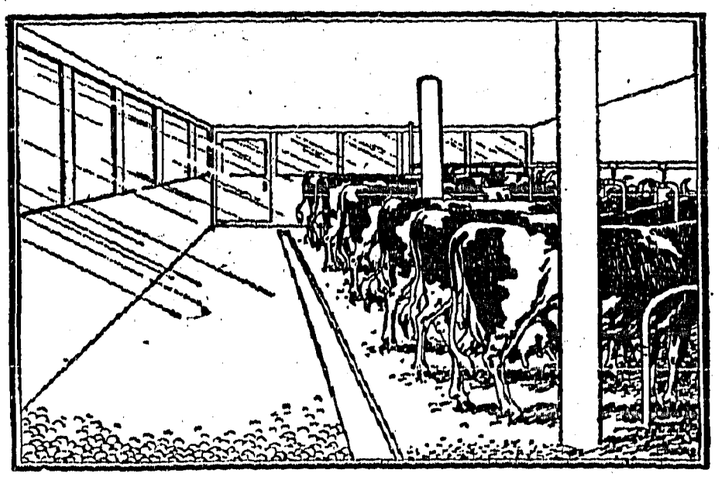
"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better.' Baby specialists endorse Flecher's Castoria; and millions of mothers know how this purely-vegetable, harmless preparation helps babies and children, with colic constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

"Von" Is Not Title

Prohibition of the use of titles in the post-war republic of Czecho-Slovakia does not apply to the word "Von," an approximate social equivalent to the English "Sir." The constitutional supreme court ruled in the case of Ferdinand Zdenko Von Lobkowitz, the Czecho-Slovak minister of interior, that the "Von" was part of a name and not a title.

WINDOLITE *The Improved Glass Substitute*

MADE IN ENGLAND



WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold —will not crack or chip,—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 130 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price $1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let
YOUR PLANTS

YOUR CATTLE
Bask in 100 % Sunlight
Send for Booklet "WINDOLITE"

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

CRUISER BUILDING PROGRAM OF U.S. TO BE CANCELLED

Washington.—In a formal statement, President Hoover announced that the construction of the cruisers included in this year's naval building program would not be begun until there has been an opportunity for consideration of their effect upon the final agreement for naval parity which, he said, he expected would be reached between Great Britain and the United States.

The President declared he had read with "real satisfaction" the statement of Premier MacDonald made in the House of Commons. Mr. Hoover declared the American people were "greatly complimented" by Premier MacDonald's proposed visit and that he would find a universal welcome in the United States.

"Mr. MacDonald, the president said, "has introduced the principle of parity which we now have adopted and its consummation means that Great Britain and the United States henceforth are not to compete in armament as potential opponents, but to co-operate as friends in the reduction of it."

Asserting that he could not but be responsive to the principles enunciated by MacDonald, Mr. Hoover declared the United States joins the British premier in his efforts toward disarmament in the same spirit.

Mr. MacDonald has indicated the good-will and positive intention of the British Government by suspension of construction of certain portions of this year's British program,

"It is the desire of the United Mr. Hoover said.
States to show equal good-will in our approach to the problem.

"We have three cruisers in this year's construction which have been undertaken in the government navy yards, the detailed drawings for which are now in course of preparation.

"Actual keels would, in the ordinary course, be laid down some time this fall. Generally speaking, the British cruiser strength considerably exceeds American strength at the present time and the actual construction of these three cruisers would not be likely in themselves to produce inequality in the final result.

"We do not wish, however, to have any misunderstanding of our actions and therefore we shall not lay these keels until there has been an opportunity for full consideration of their effect upon the final agreement for parity which we expect to reach, although our hopes of relief from construction lie more largely in the latter years of the program under the law of 1928."

Need Great Empire Policy

Otherwise Great Britain Will Sink To a Second Class Power, Says Conservative Candidate

London, England.—Unless a great Empire policy is adopted, Great Britain will sink to the position of a second class power, said Sir John Ferguson, Conservative candidate in the by-election in Twickenham, in a statement to his supporters at Hounslow explaining his Empire free trade policy.

Conservative headquarters declined to support Sir John because his Empire trade policy is inconsistent with the general party program and their action has given rise to a lively debate within the Conservative party.

Grain Standards Board

Winnipeg.—The newly appointed Grain Standards Board, which will designate the new 75-25 out-turn standard for grain shippers, met here and approved, with one exception, standards for all grades from number one northern to number six wheat.

Appointed Acting Judge

Ottawa.—Charles Morse, K.C., registrar of the exchequer court of Canada, has been appointed an acting judge of that court for the purpose of dealing with appeals arising out of the revaluation of soldier lands.

Hoyt Returns To New York

'Plane Only Slightly Damaged In Making Forced Landing

Winnipeg. — After successfully breaking the record flying time from New York to Nome, Alaska, Captain Ross G. Hoyt, of the United States army, who was forced down by fuel trouble recently, on his return journey, at Valemount, British Columbia, about 40 miles from Jasper National Park, passed through Winnipeg over Canadian National Railways on his way to New York.

Fying by way of Minneapolis, Edmonton, White Horse, Yukon, Fairbanks, Alaska, and thence on to Nome, Hoyt made the flight, a distance of 4,300 miles, in 32 hours' actual flying time. It was on the return journey, near Valemount, when he first noticed the trouble, and not having sufficient altitude to make the closest landing ground at Henry House flats, near Jasper, he was forced to land in a little valley, which damaged his 'plane. The 'plane, although only slightly damaged, was beyond Valemount's facilities for repairs, and the 'pane was loaded on a freight car for shipment to New York.

"My disappointment in not being able to fly home," said Capt. Hoyt, "was offset by the wonderful kindness and the many courtesies which the Canadian National Railways extended to me."

Steamers En Route To Hudson's Bay

To Carry Out Government Plans For Northern Development

Ottawa.—Canada's annual advance on the north is now in full swing. Four steamers are hurrying north in connection with the government's plans for the development of that great territory. Three of them are bound for Hudson Straits, and Hudson Bay, to provide aids to navigation so that all will be ready when the port of Churchill is opened. The fourth, the steamship "Beothic," is on her annual cruise to the Canadian Arctic archipelago, where the various outposts will be visited.

The department of marine has sent the steamer "Arranmore" to Hudson Straits accompanied by the steamship "Sambro" to construct a direction-finding station on Resolution Island. The steamship "Acadia" is on her way to Churchill with a hydrographic party to survey the approaches of that port.

Severe Earthquake In Iceland

Was Worst Shock Country Has Experienced In Years

London, England. — Reykjavik despatches to the London Daily Mail said the southwest coast of Iceland had experienced its most severe earth shock in years. Big concrete buildings in the capital swayed and terror stricken inhabitants abandoned all houses in a few seconds. The shock was most severe near Mount Hekla. No casualties have been reported. Many of the island's residents spent the night under the open sky.

New Flying Instructor

Ottawa.—A. H. Wilson was approved by the civil aviation branch as instructor of the Vancouver Flying Club. He replaces Percy Hainstock, who was killed in the crash of the club's 'plane two days ago. Wilson formerly conducted a flying school for the British Columbia Airways at Victoria, B.C.

QUEBEC CONSERVATIVE LEADER

Mayor Camillien Houde, of Montreal, on July 10, was unanimously elected leader of the Conservative party of Quebec, by the 1,000 delegates gathered in convention. Mr. Houde succeeds Arthur Sauve, leader since 1916. He was nominated by Laurent Barre, of Rouville, and seconded by Winfred Hackett, of Stanstead County.

No Extra Harvesters Needed For West

Sufficient Help In Canada Says Minister Of Immigration

Winnipeg.—With a light grain crop in Western Canada this year, the Canadian Government has decided to extend no call to Great Britain for the unemployed there to come to the Dominion and help in the harvesting, declared Hon. Robert Forks, Canadian minister of immigration, who was in Winnipeg recently. He stressed the fact that there is sufficient help in Canada to successfully harvest this year's crop.

"I have been through the west," he declared, "and I found crops rather light. This means that we will not need as many harvesters this year as last. There are sufficient men in Canada to harvest this year's crop."

Canada's Population

Total Poplation Placed At 9,796,000 As At June 1st, 1929

Ottawa.—Canada's total population stood at 9,796,000 as of June 1, 1929, according to an estimate issued recently by the Dominion Bureau of Statistics. This is an increase of approximately 38,000 persons over the same date last year, when the estimated population was 9,658,000.

The report, covering the years 1921-29 inclusive, further showed that the Dominion's population had increased by more than 1,000,000 persons during that period. In 1921, the census recorded 8,788,483 persons.

Save for Prince Edward Island and the Yukon, all provinces enjoyed population increases during the last year.

Carried Patriotism Too Far

Winnipeg.—A. Kristjanssen, a visitor from the United States, was fined $25 and costs in police court on a charge of being disorderly in a public place. He complanied noisily in a local theatre when the audience failed to applaud the American flag when a news reel parade picture was flashed on the screen.

British Naval Reduction

Will Suspend Work On Cruiser and Submarine Construction

London, England.—In an intensely dramatic atmosphere, Rt. Hon. Ramsay MacDonald revealed to the House of Commons the policy of the Labor Government in the matter of naval reduction. He declared that his ministry was prepared to walk hand in hand with the government of the United States to avoid competitive armament and finally, after a final agreement had been reached, it was planned to summon the nations of the world into conference on the subject of general paring down of armed forces and materials by land and sea.

Premier MacDonald first told of his conversations with the United States ambassador, General Charles G. Dawes, who was himself seated in the distinguished strangers' gallery along with other diplomats.

The government's purpose, he said, was to make the Kellogg anti-war pact an effective influence in international relations.

For the present the government proposed:

1—to suspend all work on the cruisers Surrey and Northumberland, now under construction.

2—To cancel the building of the submarine depot ship, Maidstone.

3—To cancel the building of two submarines already contracted for.

4—To slow down dockyard work at other naval stations.

With regard to the 1929-1930 building program, the premier said in any case no further commitments would have been entered into before the autumn, but that no steps at all would be taken to proceed with it until the whole matter had received further consideration.

Premier MacDonald intimated October looked a likely month for his proposed visit to Washington for a conference with President Hoover for the purpose of advancing the objects of disarmament and world peace.

Rust Resisting Wheat

Results From Experiments Are Being Confidently Expected

Ottawa.—The experiments looking towards a variety of wheat which will be "real wheat" and at the same time have complete rust-resisting qualities are being continued, said Dr. J. H. Grisdale, deputy minister of agriculture, here recently, and results are being confidently hoped for.

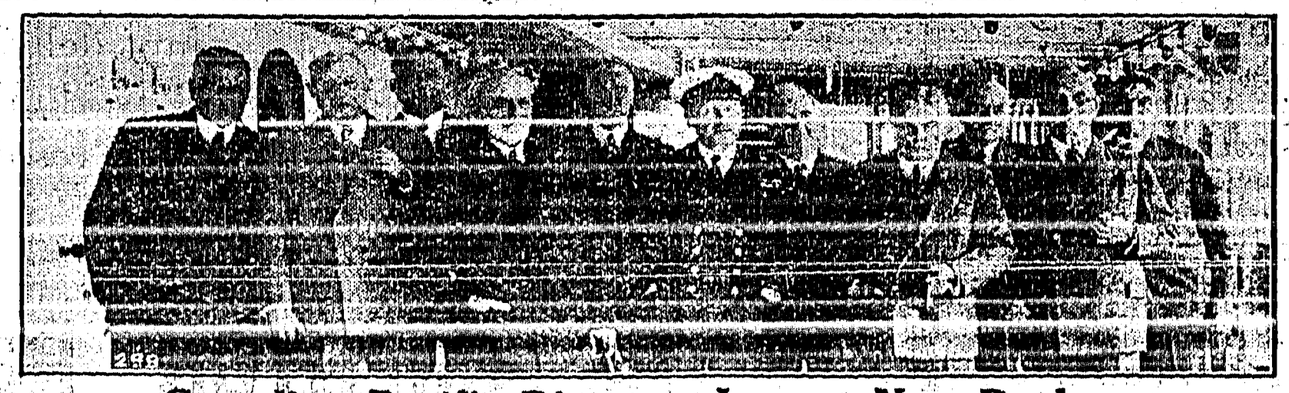
While there are a number of rust-resisting varieties, certain difficulties have stood in the way of their development generally. At present those varieties are being experimented with in conjunction with the higher grades so that the results might produce a top grade of Canadian wheat to which the rust-resisting properties may adhere.

New President Elected

Native Of Winnipeg Honored By British Medical Association

Manchester, Eng. — Dr. Harvey Smith, a native of Winnipeg, was formally elected president of the British Medical Association. The association will meet in Winnipeg next year, and Dr. Smith remarked the invitation to visit Winnipeg had first been extended when the association met in Montreal 33 years ago.

"It seems a long time to wait, but ultimately the great reward comes to us," he said.



Canadian Pacific Directors Inspect New Duchess

Following the annual meeting of the Company, the president and directors of the Canadian Pacific paid their first official visit to the "Duchess of York," latest of the 40,000 ton liners built for the St. Lawrence route to fly the red and white chequered flag. Left to right: Col. Henry Cockshutt, Sir Charles Gordon, James A. Richardson, Senator F. L. Beique, Ross H. McMaster, Captain R. N. Stuart, V.C., D.S.O., and bar, U.S.N.C., R.N.R., commander of the vessel, W. N. Tilley, K.C., E. W. Beatty, K.C., chairman and president, W. A. Black, Sir Herbert S. Holt, and Grant Hall, senior vice-president.

CHINESE ANXIOUS TO AVERT WAR WITH RUSSIA

London, Eng. — Rt. Hon. Arthur Henderson, foreign secretary, told the House of Commons that he had reason to hope that the danger of war would be averted in the Russo-Chinese situation.

He said he had received from the Chinese charge d'affaires assurance from the Chinese Government that it was anxious for a pacific solution, that it would take no aggressive action and that it was ready for a round table conference with Soviet representatives.

The assurance added, said Mr. Henderson, that if Soviet Russia should resort to forcible measures the Chinese government would appeal to the League of Nations under articles of the Covenant.

Suggestions were made in London that the Chinese nationalists government has asked the Japanese government to intervene in its controversy with Soviet Russia to avert actual hostilities between them.

The visit of the Chinese minister, M. Wangfi upon Baron Shidehara, Japanese foreign minister at Tokyo, was believed to have offered the opportunity for such a request. There was some speculation as to whether the Chinese authorities in the reported arrest of 300 other Russian employees of the Chinese Eastern had not further complicated the situation which had begun to appear much less tense than formerly.

It was believed in any event that the Japanese action, which Reuters said it had learned authoritatively had been taken, in closing the Manchurian southern railroad to troop movements, would deter militants among the Chinese who would thus find their way into northern Manchuria greatly hampered.

Attention still was centred here upon attempts of the United States to intervene. General belief was that the invoking of the Kellogg anti-war pact would be successful in averting hostilities.

London, England. — The British Government has no intention of increasing the number of British battalions in China in the near future.

Answering questions in the House of Commons, Right Hon. Thomas Shaw, secretary for war, gave this assurance. The minister declined to say whether he considered the present British forces in China adequate or too large.

At present there are six British battalions and one battalion of Indian troops stationed in China, the minister said.

Aid For Wainwright

Supplies Sent To Stricken Town By Alberta Government

Edmonton.—A carload of emergency supplies, consisting of groceries, clothing and furniture, was sent to Wainwright by the provincial government for the relief of a number of families left in difficult circumstances by the big fire. This action was taken on the basis of a report submitted by G. B. Henwood, deputy attorney-general, and H. A. Craig, deputy minister of agriculture, who visited the stricken town and conferred with a committee of the town council as to necessary relief measures.

Grants Permission For Flight

Tokio. — Official permission has been granted by the Japanese Government to Lt. Harold Bromley, a native of Victoria, B.C., who plans a Tacoma-to-Tokio flight to fly over Japan and land at Tachikawa air field, 25 miles west of Tokio.

Centenarian Dies

London, England.—At the age of 102, Lady Noble, widow of Sir Andrew Noble, famous armaments manufacturer, died, July 23, at Bath. Lady Noble was born in Quebec, the daughter of Alexander Campbell, a notary of Lower Canada.

Killed By Bandits

Buffalo, N.Y.—A cablegram from Han Yano, China, reports the killing by bandits of Rev. Timothy Leonard, missionary with the Chinese Misson Society. Father Leonard was from Country Limerick, Ireland

THE CRESTON REVIEW

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, AUG. 2

School Heating Contract

The Review has little sympathy with criticism that is heard in some quarters on the action of the school board in disregarding the resolution of the annual meeting and proceeding to let the contract for the new steam heating plant without calling for competitive bids.

In turning the work over to a local firm working in conjunction with the well known house of Metals, Limited, the trustees have made a connection that should assure a satisfactory heating plant and at a cost that in the last analysis will most likely figure out less expensive than would have been the case had the oldstyle system of tendering been adopted —to say nothing of the time that has been saved, which is something that must not be overlooked with school due to reopen in just about a month.

The enterprise of Mr. Steenstrup in placing at the board's disposal the services of an authority on heating is to be commended, because the plans as originally drawn were not prepared from firsthand information on the local situation, but were based simply on certain information the department had on fyle at Victoria in connection with the placing of the original plant eighteen years ago, which plant has never been satisfactory. Any estimate on a new system worked out on the plans available would, of necessity, be faultv and subject to upward revision as to cost on account of "extras" when needed changes had to be made to provide a plant that would give satisfaction.

In doing business through a local firm that is out to build up a reputation for doing first-class work the trustees have the best possible guarantec that the installation will be satisfactory and should there be any occasion for adjustments these can be much the easier arranged through a home concern, than by mail with a firm miles away—and no chance to really test the plant until some severe weather arrives.

. . . . . .

At the annual meeting it was given out that the department had refused to commit itself as to just how much of the cost of the new system it would bear until such time as it was definitely advised just exactly what sort of plant was being installed.

It was hinted that the authorities at Victoria might bear up to 50 per cent. of the cost, and if such generosity is forthcoming we believe the trustees will be well advised not to borrow any money in this connection but to have the needed $2000 included in this year's estimates and get the plant paid for at once, rather than spread it over four or five years with accompanying interest. Let's have one good tax raise and be done with it, rather than the smaller but always-aggrevating tax increase from now until 1934.

. . . . . .

With arrangements for equipping the plant with grates adjusted to take care of just whatever rooms are in use, and with an instructor to spend a week breaking in the local janitor at firing up to best advantage, there can be no doubt as to a great saving in both labor and fuel being effected. And after observing an expenditure of $264 for kalsomining last year and provision of $250 for the same sort of work this year it would look as though a considerable saving per annum will also be accomplished in this quarter by the installation of the modern system of heating.

Wynndel

Miss Margaret Bathie left last week for holiday visit at Castlegar.

Miss Alice Davis has gone to Boswell where she is helping with the chesry harvest.

Miss L. Webster of Cranbrook has been a visitor here, a guest of Miss A. Rosindale.

Congratulations are extended the two pupiis, Alice Davis and Whitfield Abbott on their success in passing the examinations for entrance to high school.

D. Butterfield was a business visitor at Nelson at the first of the week.

E. Williams is home on a visit with his family here at present.

An important meeting of the Co-Operative Fruit Growers Association is called for Saturday evening August 3rd. J. A. Grant, markets commissioner of Calgary, Alberta, will be present and speak.

Kitchener

Miss Beatrice Molander has been spending a week in Cranbrook. a guest of her sistes.

Mr. and Mrs. Cyrille Senesael and Misses Vera and Hazel McGonegal spent Sunday at Jaffray, where they were visiting Mr. and Mrs. Bill Belanger

Mrs. B. Johnson, Mrs. Hunt and Clara, spent a few days at Kuskanook visiting Mrs. McLaren and Mrs. Henderson.

Mrs. Langlois and family were motor visitors to Cranbrook on Sunday.

Richard Molander and Edith Nelson, the two local pupils of Miss Ford, were successful in pasing the entrances to high school examinations which were written on at the end of June. Richard Molander took the highest marks of the pupils writing at Creston centre.

Clara Hunt is another of the successfnl students from Kitchener, passing her third year high school examinations.

The big forest fire between Hazel and Kid Creeks is now under control. About 150 men are still employed keeping it in check.

The New Delicious

Charles L. Trotter, president and managing director of the B.C. Nurseries Co., Limited, Vancouver, paid a flying visit to Creston district last month, after having made a tour of the Dominion in the interests of thc company. He is enthusiastic as to the possibilities afforded apple growers in connection with the new strain of Delicious known as the Richared, which is identical in all hoints with the old Delicious, but the Richared colors up two or three weeks earlier, and colors solid red, without a trace of stripes, and therefore can be picked "hard ripe," with full color. This new strain of Delicious has excellent storage qualities and is the most glorious apple ever seen.

B.C. Nurseries Co., Limited, have exclusive growing rights for Canada, and trees of this new attrain can only be procuren through this firm. The business of the company is growing to large proportions, and shipments of nursery stock are being made to other countries, including China and Mexico. A shipment of 2000 apple trees to New Mexico about a year ago was the first shipment of fruit trees ever made by any Canadian nursery firm to that country.

This company are very large growers of roses which is likely to increase to large proportions for rose lovers everywhere in Canada are beginning to realize that roses grown in our own province excel those grown in any other country and therefore a very large new industry is developing in British Columbia,

The company has been fortunate in securing as their local representative Mr. Percy Boffey, who will be pleased to serve all who wish to plant fruit trees, shrubs, roses, ornamentals or evergreens. Mr. Trotter states that quite a number of municipalities are purchasing shade trees for planting on the highways, thus encouraging tourist traffic, which always follows the most beautiful and well kept roads and towns.

TURNER'S All Red Delicious

I have just been advised by the RIVERSIDE NURSERIES at Gradd Forks that they will have the

Turner All Red Delicious

trees for sale this season. This variety is a B.C. grown tree and is vouched for by M. S. Middleton, district horticulturist at Vernon.

I will be able to supply all orders for the New RED ROME BEAUTY Apple this season.

See me before placing your 1930 tree order. I can save you money on the above varieties.

V. MAWSON

Agent for Riverside Nurseries
Creston District.

Crops on Dyked Land Excellent

BONNERS FERRY, July 26—Congressman Burton L. French of Moscow. Idaho, arrived here on Sunday and spent Monday visiting the reclaimed districts of the Kootenay Valley.

The party left Bonners Ferry about 11 o'clock Monday morning and drove to Copeland, where Congressman French had his first glimpse of the big wheat crop now being grown in the valley. Fields along the east side of District No. 6 and District No. 8 were inspect ed as the party proceeded to Port hill

After lunch at Porthill the party circled District No. 8, taking the river road, crossing back through District No. 6 and on to District No. 4.

Congressman French was very favorably impressed with the fine showing in these districts. He said he had never seen better crops anywhere. The fields are practically all large, the acreage being from 200 to 700. The land in District No. 8 is owned by a group of Bonners Ferry business men and is being farmed on a crop share basis. The present crop is reported the best since the district was organized, the wheat at its present stage indicating a yield of from 40 to 50 bushels per acre.

Drainage district No. 6 which was flooded three yeays ago is this year experiencing its first bumper crop. Among the large land-owners are S. L. Houck with 700 acres of wheat which will yield between 40 and 55 bushels an acre, accord ing to present astimates; Geo. Andrews with 550 rcres of wheat which will no doubt average better than 40 bushels per acre, and many smaller tracts, principally in wheat estimated to yield from 40 to 55 bushels.

The crops in District No. 4 are also in excellent condition with a prospective yield heavy as in the other two districts. Mr. Des Voi gne has 450 acrse of wheat which yielded from 40 to 50 bushels last year. This year's crop looks equally as good, or perhaps a little better. If favorable weather contiuues during the filling out stage the crop may average 50 bushels straight through.

An 80-acre field of Perfection seed peas in District No. 4, owned by Wm. Krause, drew the attention of Congressman French and his party. This field has just recently been rogued and presents a remarkabl appearance, with a good healthy growth to the vines and the pods just filling out. Members of the party examined the soil for moisture content and found moisture about three inches under the surface. Pea vines were in spected and found to have a sturdy root system that extented six inches into the soil. or deep enough to get plenty of moisture.

After visiting District No. 4 the party continued down the river road to Drainage District No. 5 owned by A. Klockmann. Owing to a deep drainage ditch between the fields and the road it was not possible to examine the crops at close range. The district is in wheat, about 450 being in winter wheat and an equal acreage of spring wheat. The crop looks good from the roae, with the winter wheat showing signs of ripening.

Below Disfrict No. 5 the party had the first real contrast between reclaimed and raw valley land as they passed Drainage District No. 11, which has not been thoroughly drained. Some work was done this spring—enough in faot to keep the district from flooding. Several hundred acres are in crops, but these put in on new ground, were planted too late to make much of a showing at this time. With favorable weather for another month good crops may be harvest-

Taking Long Hike

Newfoundland Man Making World Trip For $40,000 Wager

Andre R. McWhyte, a Newfoundland Scout, who two years ago set to do a round-the-world tramp for a wager of $40,000, has just completed his tour of England and Scotland. Mr. McWhyte, who is 43 years of age, is the son of a Scotsman who emigrated to Newfoundland. Mr. McWhyte hopes to complete his tramp in North America within the next six years. He is carrying equipment weighing 38 pounds, and endeavors to obtain the autograph of the Chief Magistrate or Mayor of every town he passes through. The signature of the Lord Provost of Glasgow is among those in his log-book.

IMPERIAL ECONOMIC CONFERENCE

Right Hon. Philip Snowden, chancellor of the exchequer; announced in the House of Commons that communications were going forward to the dominions looking to the summoning of an Imperial Economic Conference. Its purpose, he said, would be consideration of ways and means of extending intra-empire trade.

The Need Of the Hour

Appears To Be Better Driver Than Better Cars

Good automobile driving is essentially a matter of good manners. They are one and inseparable, suggesting that "distinction without a difference."

If more good manners among motorists would make good drivers, and that would be inevitable, users of the highways and streets would desire nothing more than a great rebirth of chivalry and strict adherence to the rules of etiquette.

Is not the need of the hour better drivers rather than better motor cars?—Montreal Herald.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Information Wanted

"Suppose, Bessie," (the teacher was trying to explain the meaning of recuperate), "suppose your papa has worked very hard all day; he is tired and worn out, isn't he?"

"Yes, teacher."

"Then when night comes and his work is over for the day, what does he do?"

"That's just what mother wants to know," replied Bessie.

Minard's Liniment for Neuralgia.

Women first appeared on the stage during the latter part of the seventeenh century.

SUNDAY SCHOOL LESSON

AUGUST 4

BELSHAZZAR'S FEAST

Golden Text: "Be not drunken with wine, wherein is riot."—Ephesians 5. 18.

Lesson: Daniel 5.1-31.

Devotional Reading: Psalm 1.

Explanations and Comments

Belshazzar's Feast, verses 1-4. — Belshazzar invited a thousand of his lords to a great feast, at which they drank wine from the gold and silver vessels which his father Nebuchadnezzar had taken from the temple in Jerusalem. And as they drank they praised the gods of gold and of silver, of brass, of iron, of wood, and of stone.

Quick the king spoke, while his proud glance burned.
Quickly the servant went and returned.
He bore on his head the vessels of gold
Of Jehovah's temple the plunder bold.
With daring hand, in his frenzy grim,
The king seized a beaker and filled to the brim,
And drained to the dregs the sacred cup,
And foaming he cried, as he drunk it up,
"Jehovah, eternal scorn, I own
To Thee. I am monarch of Babylon."

Thus the German poet Heine pictures the scene. Even to a pagan mind such a use of sacred vessels was sacrilege. It was a bold defiance of the Most High God.

The Writing On the Palace Wall Which the Wise Men Fail To Interpret, verses 5-9.—While they were thus revelling, they saw the fingers of a man's hand write upon the wall. Belshazzar trembled and called for the enchanters and soothsayers to interpret the writing, but they could neither read nor interpret it.

On the Queen's Advice, Daniel Is Brought Before the King, verses 13-16.—The queen entered the banquet house and tried to calm the king by telling him that there was a man in his kingdom whom Nebuchadnezzar his father had made master of all the wise men, and he could interpret the dream. So Daniel was sent for. The king told Daniel that he had heard of him, and his wisdom, and if he would read and interpret the writing, he should be clothed with purple (the royal attire), have a chain of gold about his neck and be clothed third ruler in the kingdom.

The Interpretation Of the Writing, verses 25-28.—This is the writing Tekel, Upharsin," that is, "Numbered, Weighed, and Divisions," as the words given literally in the margin of our Bible.

"We too, shall be weighed in the balances and found what? If we put our lives into God's hands now, we need have no fear of passing into His hands then. We have our temptations, but they are not greater than those of Belshazzar. We have our endowment and our opportunities and they may be even greater than his because of the age in which we live. But this is certain: we have what Belshazzar had not—the example and teaching of Jesus Christ and the grace that never fails those who avail themselves of help divine." — J. W. G. Ward.

Mothers Value This Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Eclectric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Peace River Crop

Wheat production in the Peace River District may reach 10,000,000 bushels this year, barring frost and hail, according to L. A. Giroux, M.L.A., who is back from that region. He expressed his belief that the crop of wheat will be the best in twelve years.

New Wonders Of the Air

Amazing Development Shown In Planes Now Under Construction

With aeroplanes that travel at a speed of over three hundred and fifty miles an hour and giant air ships that house restaurants and ballrooms, few of us dare probe into the future of aviation. Every day sees some great new wonder of the air, and here are a few that we may expect in the course of the next few months.

A colossal flying hotel, with even more room and comfort than the Graf Zepplin, is being built in Germany. With accommodation for eighty passengers, the aeroplane will weigh fifty tons and will be four times larger than any machine yet constructed.

Work has been already commenced on a huge air liner which is to carry fifty passengers. Some idea of the size of the new machine is obtained when it is learned that the passengers will travel in the wings, which are to be eight feet thick.

A seaplane measuring one hundred feet from wing-tip to wing-tip has already passed its flying trials in America. With accommodation for thirty-two passengers, it has been built to compete against the huge new European flying boat.

Interesting Exhibit By Experimental Farms

Several New Features Seen On Western Fair Circuit

Several new features were seen in the exhibit from the Dominion Experimental Farm on the Western Fair circuit.

The animal husbandry section consists of a central device which points out the relation between high milk production per cow, and low milk production per 100 lb. on the other. This information is accentuated by photographing of dairy cows with legends calling attention to the fact that the high producing and low producing cows can only be determined by the use of the milk scales and Babcock test. On the tables are shown types of suitable milk scales and also a Babcock test outfit with instructions for use, milk recording sheets and case, etc.—in fact, everything necessary to conduct the testing of a herd of cows for milk and fat pproduction.

The botanical section of the exhibit illustrates, by means of rusted plant material and otherwise, the life cycle of the stem rust organism. It shows the types of injury caused to the living plant, and the effects of the rust on the grain. Another phase of the exhibit is a demonstration of the methods used in controlling stem rust. This shows the effectiveness of sulphur dusting as a measure for the prevention of rust, and likewise the results which are being achieved by the plant breeders in developing rust resistant varieties of wheat and oats.

Chief—You want time off to be married? You only returned from holidays yesterday. Why didn't you get married then?"

"I didn't know the lady then."

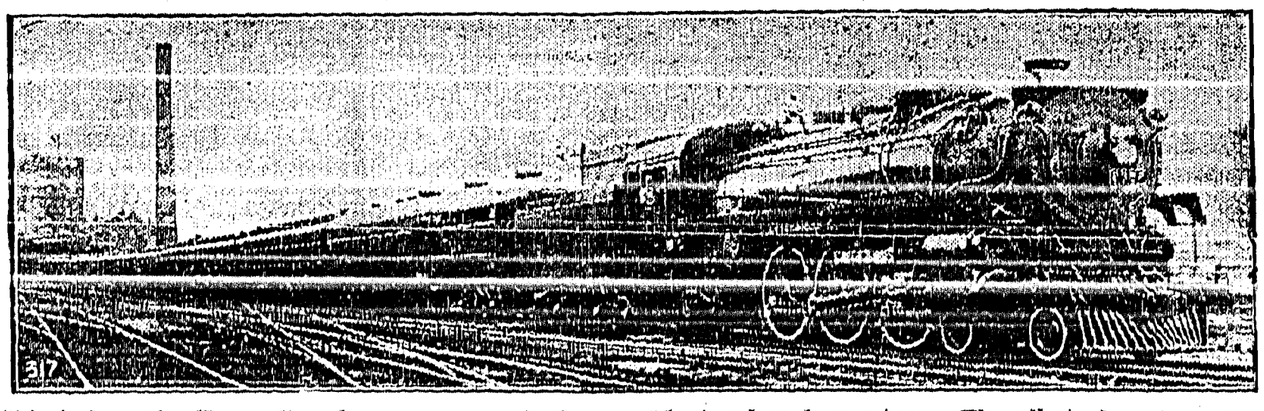
It Testifies For Itself.—Dr. Thomas' Eclectric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

"Should we be happier if women ruled?" asks a writer. The question is, are we?

"Why did you cut the throat of the prima donna ?"

"I was told she had a fortune in her throat."—Moustique, Charleroi.

Finest Limited Train on Continent



This is how the Trans-Canada appears as she leaves Montreal each evening. The all-steel equipment of this train, which was built at the Angus Shops of the Canadian Pacific Railway is epitomized in the Solarium car which is carried at the rear end. With a vita-glazed solarium, two shower baths, men's and ladies' smoking-room and a large observation lounge, this car is the most luxurious to operate over Canadian lines and is open in its entirety to patrons of the Trans-Canada Limited.

IT'S folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago. Gargle it for a sore throat or tonsilitis. Proven directions for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, takes a party of four to Blackie Joe's New York night club. Al Stone, Blackie's chief comedian and singing waiter, is desperately in love with Molly, the ballad singer, and begs her to read a song he nas written for her. After scornfully refusing and telling him she will never marry a waiter she goes to the Marcus table and tries to ingratiate herself with the great producer. Blackie seeing Al dejected, urges him to sing the song himself — to Molly. Al says he can't sing a love ballad, but finally he consents. Grace, the cigarette girl, who is deeply and unselfishly in love with Al, encourages him.

CHAPTER VI.

The room was filled with careless chatter as Al took his place beside the pianist, at the edge of the dance floor, to sing the heart song he had written to Molly. No one in the gay crowd seemed to notice him; no one except himself, Blackie Joe and Grace knew that the next few moments meant to him success or failure with the girl he loved. He was plainly nervous at trying a ballad; his face went white and one hand gripped the side of the piano.

The pianist struck the opening bars and Al began the verse, haltingly but determinedly. He had located the one face he wanted to keep before his eyes throughout the song—Molly's. But Molly was busy talking to Marcus; she didn't even know Al was singing.

As he continued the people at the tables nearest him stopped talking and gave him their attention. Then it seemed as if he caught the merry-makers a little farther away and they, too, became silent. He was singing as he had never sung before, throwing his whole soul into the words.

When he finished the verse and swung into the chorus the pianist whispered up at him, "Good boy, Al!" And as the pianist ran his fingers swiftly up and down the ivories he marvelled at this singing waiter who had been a comedian up until this moment and now suddenly unleashed a voice vibrating with sentimental appeal.

Al relaxed when he reached the chorus. It was the chorus that would put him over or reveal him as a failure to Molly, but he felt it so deeply that he seemed to sing it without effort. Every person in the audience was blocked out from his vision except Molly— her vivacious face stood out alone in a sea of darkness. Yet he could not help but see that she was still talking to Marcus. She, among all the listeners in that big room, seemed to be heedless of his presence.

But as she whispered to Marcus a strange thing happened. The astute revue producer heard the song and, although he hadn't paid much attention to it at first, now he suddenly became all interest. His hand came up in a quick gesture, demanding silence, from her. He whispered curtly:

"Sh-h! I want to hear this."

It was the first time that evening he had flattered the floor show by the least bit of attention, so Molly was astonished. She followed his gaze, fixed on Al, and she, too, began to listen. At first she sent a glance of amusement Al's way—what did that comic waiter mean by trying a ballad? Then, after a moment, Molly also realized that Al was putting some new quality into the song. It was as if he had discarded the ordinary technique of ballad singing, and was creating his own method, the supremely natural method, as he went along. At times his voice dropped to a low, pleading croon; again he talked the words with all the fire at his command; and now his voice suddenly rose to a startling and passionate crescendo of appeal. Molly was not stupid; she realized that the singing waiter she had scorned so recently was really creating a living song. Like the call of fate his full, resonant voice repeated the title—"Always"—which occurred so frequently in the ballad. She stole a look at Marcus; he was leaning forward, giving Al his rapt attention.

As Al felt Molly's eyes on him the floodgates of his soul opened and, to all intents and purposes, he was alone with her, adoring her, telling her of his love that would last — always. He thought the song was going home—it seemed to him her eyes grew gentle.

But the person most deeply affected was Grace, the cigarette girl. She stood, quietly leaning against the wall at the back of the room and, in the semi-darkness, no one saw the tears come to her eyes and trickle, unheeded, down her pretty cheeks. Oh, what wouldn't she have given to have Al sing that song, in that way, to her! Everything she possessed, her life itself!

Now for the first time she realized with what passionate devotion she loved him. Her lovely young bosom rose and fell rapidly and in her heart was a consistent stabbing ache that seemed to grow more intense with every word Al uttered. Dear little Grace, so loyal and so lovely, yet forced to stand aside unnoticed and see another woman, who didn't appreciate Al Stone, receive the homage that he tossed so eloquently at her feet. It was maddening to Grace but—there was nothing to be done about it except go on loving him and endure the pain in her heart.

Now she saw Blackie Joe approaching. She furtively tried to dry her tears. Blackie saw and understood her feeling at first glance but, like the good, understanding fellow he was, pretended not to notice. "Poor kid," he thought. "Well . . . . that's the way it goes." Then he turned to Grace and whispered confidentially:

"Our comic's not so bad after all, is he?"

Grace looked up and forced herself to smile happily.

"He's wonderful!"

Finally the last notes of the music died away—the song was ended. Al stood for a moment as if in a trance, then quickly turned and walked toward tthe dressing rooms. The room was as silent as a desert night, not a crackle of applause broke the stillness. Al's chin came down on his chest; he felt he had failed and he wanted to get out or the room as quickly as possible.

At the Marcus table Molly's eyes were fixed on his retreating figure. She was obviously affected, a faint stir that she didn't understand had risen in her heart. At any rate, she knew what Al meant now.

The reaction of Marcus to the song was decidedly different. He saw it as a piece of work, a medium for thrilling audiences. Turning to Molly he almost shouted: "That's—a—song! One of the best ballads I've heard!"

In a flash Molly realized that Al had a real hit, a heart-throb number that might put him over on Broadway and make him famous. Her eyes became intensely brilliant; she was thinking fast.

As Al approached the dressing room doorway he encountered Grace and Blackie. Swiftly he spoke:

"You see, it's no use— I knew I couldn't put over a ballad. For a moment it seemed I had Molly interested, but I couldn't hold her. And not a peep from the crowd—"

But Al stopped, dazed. From the crowd came the slow rise of applause They had been too closely held by the song to give vent to their emotions as he walked rapidly away, but now their feelings were released in a storm of appreciation. He had reached every one of them and their strenuous hand-clapping rode toward him like a great wave. They had never given him such a reception before.

As he swung about, facing them, his dejected look passed, and a smile crossed his features. Then he saw Molly's face turned toward him, while Marcus rose, leading the thunderous applause.

At Marcus's table Molly heard the celebrated producer say:

"That waiter's a singing fool — he's great! And who wrote that song? I want it for my revue."

Not for a moment did Molly doubt now. Al's future was assured, with the great Marcus determined to have his song. She began to lay her plans swiftly.

"The waiter wrote it," she answered. "The boy who just sang."

"The waiter wrote it?" repeated Marcus, amazed.

"Yes, but—" Molly smiled coolly— "I gave him the idea."

Tracing Sea Currents

British Meteorological Office Securing Data By Drift Of Bottles

After having floated 2,500 miles in 434 days at sea, a bottle was recently picked up at North Queensland. It had been dropped overboard on October 7, 1927, by a British vessel while in a most desolate part of the Pacific Ocean, 1,000 miles north of the Fiji Islands. In it was a message asking that it be returned to the Meteorological office of the British air ministry, which is having 494 ships sailing the seven seas drop similar bottles every day in a plan of securing data to be used in tracking sea currents.

Growing Sugar Beats and Tobacco

Not only is the sugar-beet industry being tried out on quite a scale in the Sumas district, British Columbia, this season, but there will be considerable area of thee reclaimed land devoted to the growing of tobacco.

Good For Many Years

Although the sun is burning itself up at the rate of 250,000,000 tons a minute, says a European scientist, it is so large that it will not be reduced to the size of the earth for approximately 100,000,000 years.

Minard's Liniment for aching joints.

Adopting Western Ideas

Chinese Youth Have Good Times But Still Respect Parents

Although they may not say "Whoopee" in China, the modern Chinese youth makes it, and they call it "Poowhee." "The younger generation in South China, are reaching for and adopting Western ideas," said G. P. Hamsworth, general agent of the Canadian National at Hong Kong, who passed through Winnipeg on his way to Hong Kong after spending a holiday in Europe and England.

"At the better entertainment places," continued Mr. Hamsworth, "you see the modern Chinese flapper with short skirts, bobbed hair and silk stockings, while the boys wear double-breasted suits and wide pants. They dance fox trots to our music, and have adopted English foods and eat it the way we eat it. The young people are also very fond of movies and Hong Kong and Shanghai have excellent theatres.

In spite of this change to Western ideas, it is very noticeable that the respect and admiration which the Chinese youth holds for his parents and older people is not disappearing.'

SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Prospect North

H. M. Eakins, Toronto, arrived in Edmonton recently en route to the north country in charge of a group of prospectors who are going in for Dominion Explorers, Ltd. Waterways will be used as a base by the party, said Mr. Eakins.

Paper That Would Last

The suggestion that some copies of all modern newspapers be printed on linen for purposes of permanently recording valuable news of the time was made at the annaul meeting of the Canadian Historical Society.

Minister, Run-down in Health, Gains 7 lbs. in 3 Weeks

Rev. W. H. Taylor writes, "After a 7 weeks' revival campaign I was entirely run-down and losing flesh rapidly. I decided to give Ironized Yeast a 3 weeks' trial. After 2 weeks I found my strength reurning and the tired feeling gone. In 3 weeks I had gained 7 lbs. and was myself again."

Imagine just 3 weeks to change from a "skinny," tired person to a strong, well-filled-out man or woman. Ugly hollows vanish. Broomstick limbs become round and chubby. Tired feeling disappears. Blemished skin clears.

Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant-tasting tablets. Safe for everybody. Never cause gas or bloating, no harmful drugs.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back from druggist or manufacturer. If inconvenient to buy from druggist, send $1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont., Desk 426-BX.

Little Helps For This Week

"Hearken unto the voice of my cry, my King and my God; for unto Thee will I pray."—Psalm v. 2.

Lord! who art merciful as well as just,
Incline Thine ear to me, a child of dust.
Not what I would, O Lord, I offer Thee,
Alas! but what I am.
Father Almighty, who hast made me man,
And bade me look to heaven, for Thou art there,
Accept my sacrifice and humble prayer.
Four things which are not in Thy treasury
I lay before Thee, Lord, with this petition,—
My nothingness, my wants,
My sins, and my contrition.
—Robert Southey.

The man who can pray truly is richer and more blessed than all others.—Crysostom.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Miette Hot Springs

The waters of Miette Hot Springs in Jasper National Park, Alberta, resemble those of the Sulphur springs at Banff, but are several degrees hotter. These springs art situated about 12 miles from the railway and are reached by a good trail.

Every shadow in life is evidence of a sun somewhere.

Had Diarrhoea
Bowels So Active
Feared For His Life

Mrs. S. J. Jago, Canoble, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

D. L. FOWLER'S EXT. OF WILD STRAWBERRY

and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved.

"I have used it for the other children, and my husband and myself. My husband gives it great praise, and when he goes away from home to work he always takes a bottle with him."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.
