

# THE CRESTON REVIEW

VOL. XXI.

CRESTON, B. C. FRIDAY, OCTOBER 4, 1929

No. 31

## Erickson

Mr. and Mrs. Fenton Smith and sons, of Kimberley, were weekend visitors at Erickson, guests of Mr. and Mrs. Fraser.

Miss Kay Edwards of Nelson is visiting with Miss Beth Putnam, and will remain until after the apple season.

Mr. and Mrs. Heric and family were Sunday visitors with friends at Yakk.

Mrs. Fraser left on Monday on a holiday visit with friends at Kimberley.

D. A. MacDonald of Cranbrook is a visitor this week with Mr. and Mrs. Geo. Cartwright.

Frank Staples was a business visitor at Cranbrook a couple of days at the end of the week.

Frank Celli of Coleman, Alberta, spent a few days at the ranch last week, and took in Creston's fall fair.

A wedding of great interest in this section was solemnized at Christ Church, Creston, on Saturday evening, when Miss Murphy of Procter, formerly of Erickson, became the bride of W. H. Kemp. The ceremony was performed by Rev. A. Garlick. After the ceremony a reception was held at the Kemp residence. Mr. and Mrs. Kemp have the best wishes of all for future success and happiness.

## Lister

Sam Lazachuk, who has been spending a week at the ranch, returned to Kellogg, Idaho on Monday.

T. D. Pattullo of Victoria, leader of the Liberal forces in the province, was looking the Lister area over on Monday, on the occasion of a visit to Creston.

Jack Malthouse, jr., left on Saturday for Calgary, Alberta, where he expects to secure employment and remain permanently.

Rev. P. Hayman is announced to take the harvest thanksgiving service at Lister on Sunday morning at 11 o'clock, with Sunday school at 10 a.m. The school will be decorated for the occasion.

Angus Hay, who is in charge of the C. M. & S. farm at Marysville, was a visitor here on Friday and purchased 40 tons of alfalfa from John Huscroft. This will be baled and shipped later in the fall.

Frank Baker, who is now located at Calgary, Alberta, is here on a visit at the ranch for a few days.

A splendid job has been made of repairs to the Huscroft bridge where a complete new upper works has been installed and the bridge widened.

Construction work on the Lister domestic water system is due to start this week. A steam ditcher has been shipped

in and will be at work before the week is out it is expected.

Mr. and Mrs. Jock McConachie (nee Annie Yerbury), who were married at Kimberley on Sept. 24th, spent part of the honeymoon with the bride's parents, Mr. and Mrs. Bert Yerbury, here, leaving for Kimberley on Monday.

Heartiest congratulations are extended the students of Huscroft school in the great showing they made at the Valley school sports at Creston last week, where they won the championship shield with a net score of 83 points, Creston coming second with 29. Full credit must be given the principal, Miss Hazel Hobden, who saw to it that the athletes got a thorough training for the different events.

The Community Society had six tables of bridge and two for court whist at the card party on Saturday night. At bridge the high scores were made by Mrs. E. H. Smith and B. R. Bohmer, and the prizewinners at court whist were Mrs. Bert Yerbury and Billy Yerbury.

Kimberley Press: A quiet wedding was solemnized on Tuesday morning at the Presbyterian Church when Miss Annie Yerbury was united in marriage with Jock McConachie, Rev. McLean Bell of Cranbrook officiating. The bride was beautifully arrayed in a mauve and white ensemble gown with hat to match, and carried a bouquet of carnations. Miss Bessie Scott was bridesmaid, while Angus Scott supported the groom. Following the ceremony a wedding breakfast was served at the home of Mr. and Mrs. Pat Holland, after which the happy couple left by motor on a honeymoon trip to Spokane and other points west. Mr. and Mrs. McConachie are both well known in Kimberley, and their many friends here join in hearty congratulations.

Miss Hobden, principal of Huscroft school, has issued the following report for the month of September: Highest standing, Grade 8—Minnie Huscroft. Grade 6—Margaret Huscroft. Grade 5—Thomas Tedford. Grade 4—Rupert Bohmer. Grade 3—Alciah Bohmer. Grade 2—Warren Huscroft. Grade 1—Ikey Krygsveid. Perfect attendance—Alciah Bohmer, Rupert Bohmer, Alex Demchuk, Arthur Hurry, Bobby Huscroft, Warren Huscroft, Waddy Huscroft, William Krygsveid, Ranny Smith, Bert Tedford, Marjorie Tedford, Tommy Tedford.

## Wynndel

Mrs. McNish of Winnipeg, Man., is a visitor here at present, a guest of her sister Mrs. John Bathie.

T. A. Cory of Medicine Hat, Alberta, was renewing acquaintances on a business visit here last week.

Mrs. Reg. Price left last week for Rossland, where she will spend a few days with friends.

Mr. and Mrs. T. Watson were auto visitors to Spokane last week.

Mrs. Rumsey and family have just arrived from Cranbrook and will spend the winter on their ranch at Wynndel.

Mrs. T. Dunsenath left on Sunday for Vancouver, and will likely spend the winter on Vancouver Island. Mr. Dunsenath is with the Sash & Door Company mill near Cranbrook for this season.

The W.A. have their October meeting at the home of Mrs. Davidge on Wednesday afternoon, 9th at 2.30.

## Kitchener

Miss Elsie Nelson, who is working in Cranbrook, spent the weekend at her home in Kitchener.

Claude Simpson who is attending high school at Creston, was home at the weekend.

Marcel Senesael, who has been a patient in Cranbrook hospital, arrived home on Tuesday.

Mr. and Mrs. Neligh, who have been at the Leadville mine for some time, left for Lewiston, Idaho, last week.

Richard Molander is a Cranbrook visitor this week, a guest of his sister, Mrs. Sloan.

Mrs. Hayden and Mrs. Young of Creston were Saturday visitors with Mrs. E. Drifill.

## Alice Siding

Mr. and Mrs. Kelly and Mrs. McDonald were visitors at Kimberley a few days last week.

Mr. and Mrs. Tom Marshall got back on Thursday last from a two weeks' visit with his sister, Mrs. Kelly at Elko.

The house on the former Vaness ranch was destroyed by fire on Saturday. The blaze broke out between 10.30 and 11 that night, and the home was completely destroyed. This season the ranch has been leased to Mr. Wright who came here from Kimberley.

Mrs. Jas. Compton is a Nelson visitor with her daughters, Ruth and Mrs. Valentine.

Mr. and Mrs. Carter and Mrs. Bill Kelly of Elko were motor visitors here on Saturday, guests of Mrs. J. Marshall.

Bill Vaness of Armstrong is a visitor here this week, a guest at the home of Mrs. Fred Taylor.

Mrs. Stace Smith who left here a few weeks ago en route for Calgary, Alberta, is now in Ontario, where she will spend the winter.

## School Heating Plant Satisfactory

Provincial Boiler Inspector Likes Installation Throughout—New System is Noiseless—Great Fuel Saver—Cost Under \$4000

S. H. Excell of Victoria, provincial inspector of steam boilers, was here last week for the purpose of making an official inspection of the new steam boiler and heating plant which has been installed in central public school, and after giving the new plant his usual thorough investigation Mr. Excell has issued the official certificate to the school board stating that the boiler and equipment throughout is well up to the standard and that first-class work has been done in installing the system.

The boiler is a brand new 8-section high pressure Ideal with sufficient steam capacity to drive an 18 h.p. engine, and in order to install it was necessary to lower the school basement almost two feet. For the four-room school only two-thirds of the firebox grate area is utilized, with steam from the boiler conducted throughout the rooms in a four-inch pipe, and a 2½ inch pipe used for the return of the condensed steam from radiators to boiler.

There are three large radiators in each classroom, two large radiators in hallway, and another large radiator in each of the lunch rooms at the east and west sides of the school. In the two basement play-rooms there are four of the flat type radiators in each, which will assure more than ample heat throughout the whole building on the coldest of days.

Ample safety is assured with the boiler

S. A. SPEERS

equipped with a 5-inch safety valve and but 10 pounds steam pressure required for heating. It is estimated that about 15 tons of coal will be required for an ordinary winter which will serve a steam pipe area of 1100 feet.

The boiler capacity is around 2000 gallons of water which is required for the original filling, after which about 25 gallons daily is all the plant requires. Caretaker W. E. Barner has been approved as capable of handling the plant by the inspector. A notable feature to the equipment is that it is absolutely noiseless—the usual clanking of pipes when fresh steam is turned in being entirely absent.

The new plant throughout was installed by Sam Steenstrup, with whom was associated John Balfour of Trail, on appearance and according to the inspector's certificate Mr. Steenstrup has completed his contract throughout in first-class shape and is to be congratulated on the excellence of his workmanship and equipment, in addition to which he has kept the total cost well within the \$4000 appropriated by the board.

## Sirdar

Sid McCabe returned on Sunday from Cranbrook, where he had been visiting Mrs. McCabe, who is a hospital patient in that town.

Miss Roba Sage, R.N., of Lethbridge, Alberta, who has been visiting with Mrs. Heap for the past two weeks, left for home on Sunday.

Mr. and Mrs. J. Cameron were visitors at Creston on Saturday.

A. Kometz of Cranbrook is relieving agent for R. Bleumenauer, who is having two weeks vacation.

Reg. Johnson and Mr. Neil of Kingsgate were Sunday visitors with Mr. and Mrs. Cam.

Mrs. and Miss Eileen Heap left on Sunday for Nelson where the latter is taking a commercial course in Nelson Business College.

Mrs. Cam left on Monday for Nelson, where she is visiting her daughters, Misses Dorothy and Lily Cam.

Miss Lillian Wilson, of Nelson, was a Sunday guest of her parents, Mr. and Mrs. Jas. Wilson.

R. Bleumenauer left on Tuesday on a visit to Cranbrook.

Mr. and Mrs. Dennes, Mrs. Neil, and Mrs. Dibley left on Tuesday by auto to spend a holiday in Spokane.

## Local and Personal

Art. Reid has just arrived from Trail and is now in full charge of the tinmith and plumbing work at the Sam Steenstrup shop. He is a first class mechanic and Creston is now assured prompt and efficient service in these lines.

Saturday afternoon at 2.30 and in the evening at 8 o'clock the Georgian Singers and Players will be heard at Trinity United Church under whose ladies' aid they will appear in Creston. They are entertainers of a very high order.

C. C. French made his first appearance as an auctioneer, at the sale of Mrs. Midgley's effects at the ferry on Saturday. Those who were present say he showed real ability and certainly the prices obtained were quite satisfactory.

R. B. Staples was in from Kelowna on Saturday, leaving on the Sablowa for Calgary, Alberta. He states that over 400 carloads of McIntosh Red apples rolled from Okanagan points on the opening day of the season, September 21st.

A feature to the Sunday school rally day exercises at Trinity United Church on Sunday morning was four baptisms by the pastor Rev. R. E. Cribb of infant children of Mr. and Mrs. R. E. Pridham, Mr. and Mrs. Herb Lewis, and Mr. and Mrs. R. A. Comfort.

T. D. Pattullo, leader of the opposition in the provincial legislature, in company with Major Moodie, Liberal organizer, were in Creston on Monday night, and both spoke at the public meeting with Frank Putnam occupying the chair. During his stay Mr. Pattullo had a look over the whole district.

R. G. Le Clarke of Vancouver, chief B.C. Dominion fruit inspector, accom-

## Crestwood

Mrs. J. F. Morris left last week for Cashmere, Wash., where she is visiting relatives.

Mrs. E. Larson motored in from Bonners Ferry on Saturday.

The last few days of fine weather has helped out harvesting operations at the Reclamation Farm, and the combines are going at top speed. In view of late planting, new ground and very dry season returns per acre are much better than one could have hoped for.

We understand that Messrs. Holben and Bishop, who have the crop on the Reclamation Farm, intend discing the land as soon as harvest is over and this will assure a bumper crop for 1930.

Beans, cucumbers, tomatoes and corn have not as yet been touched by frost at Cloverdale ranch, and as part of this land is on the flats it shows how late in season this sort of stuff can be grown at Crestwood.

H. Myers was a Bonners Ferry visitor at the weekend.

Duck shooting is not at all good at Crestwood as yet. In fact duck and other wild fowl seem to be very scarce this season.

A bear that has done considerable damage at Cloverdale ranch, in breaking off limbs on plum and pear trees, was shot on Tuesday last. Its companion made a getaway.

Ted Smith and family were motor visitor at Bonners Ferry on Sunday. Mrs. Smith and her mother, Mrs. Shoop, are remaining for a few days, but Mr. Smith has returned.

The attendance at Mrs. Midgley's sale at the ferry on Saturday was not very large, due, no doubt, to the very busy season. Under the circumstances things sold quite satisfactory.

panied by R. Robertson, provincial horticulturist, Victoria, were here on official visits at the end of last week. The former states that the show of Delicious apples on the R. J. Long ranch is not excelled anywhere in B.C. this season.

TO WHOM IT MAY CONCERN: This is to give notice that I will not be responsible for any debts contracted by Frank Miloux. EUGENE MILOUX, Creston.

FOR SALE—Jersey cow 8 years old, freshened July 18, and one veal calf ten weeks old, \$75. 1 Jersey heifer 17 months old, \$40. Will take \$100 for the three. E. A. Gross, Canyon.

A. K. Klockmann of Spokane was a visitor here on Friday and was interviewing some of the businessmen regarding electric light for the village. He contemplates moving his plant from the Idaho Continental mine to a point on Boundary Creek near Porthill, and will be in a position to supply "juice" to both villages.

Columbia Lodge, Windermere, is making a visit to Cranbrook Masonic Lodge on Saturday night, and for the benefit of those two lodges a degree team from Creston Lodge will attend and exemplify the work of the Master Mason degree. It is expected about fifteen from here will make the trip in charge of W. Fraser, W.M.

## WORLD HAPPENINGS BRIEFLY TOLD

Great Britain in 1923 had the lowest infant death-rate ever recorded. Out of every 1,000 children who lived to be one year old, only 65 died.

The population of Saskatoon is nearing the 50,000 mark, according to 1929 issue of Henderson's Directory. It is now estimated by the publishers that this city has 47,653 residents.

The Aero Arctic Association has announced that financial backing has been obtained for the Arctic expedition of the Graf Zeppelin next spring. Dr. Hugo Eckener, commander of the dirigible, will have 45 persons with him on the flight.

Some of the first issue of Danish cancer stamps have been seen in London. These stamps issued by Denmark to benefit the Danish cancer fund, are in three colors, red, green and blue, in three denominations. All bear the Mercury wand design.

A reward of \$1,000 has been offered by the provincial government for information leading to the arrest and conviction of person or persons in the Doukhobor district responsible for the burning of schools throughout the area. This announcement was made by M. A. MacPherson, attorney-general.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

### Edmonton Building Permits

Building permits in Edmonton topped the \$4,000,000 mark this year, up to the end of August, being \$4,188,299 or more than a million above the similar eight-month period of last year.

The Man With Asthma almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

### Extending Radio In Arctic

Russia is rapidly radiofying its Arctic possessions. The radio and meteorological station at Franz Joseph Land already is functioning, and another is being constructed on Rangel Island.

## Her Little Boy Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lebrat, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

"Discouraged and in despair I sent for a bottle, not expecting any more benefit than from the many other medicines I had used, but to my surprise I noticed a change after he had taken a few doses, and before the bottle was half used he was the same happy, healthy boy he was before he took sick."

## Germany Planning World Plane Lines

Company Aims For Regular Flying Boat Service Over Atlantic In Two Years

A gigantic network of air lines which will cover the entire world is being planned by Lufthansa, Germany's most important air company.

The plans are being worked out by Otto Merkel, who has given up his post as head of Lufthansa to devote himself to founding an international company, which promises within two years to open regular air lines between Europe and the United States.

Working jointly with the Hamburg-American steamship line, preliminaries have been completed. The details of the new company are still somewhat uncertain, but the approximate direction of developments has been mapped out.

"Not only is the world's interest concentrated in air travel, but in all countries the best technical experts are working out the details," said Herr Merkel. "The experimental stage is behind us and the goal is clear. We have fine planes and, especially in America, excellent motors, and everywhere responsible pilots and dependable instruments which will result in an even higher standard soon."

**A Household Medicine.**—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

## SUNDAY SCHOOL LESSON

OCTOBER 6

### RECOGNIZING OUR DEBTS TO OTHERS

Golden Text: "Not looking each of you to his own things, but each of you also to the things of others."—Philippians 2:4.

Lesson: Nehemiah 4:15-23; Mark 12:28-34; Romans 15:1-7; Philippians 2:1-8; Colossians 3:12; 4:1; James 2:14-17.

Devotional Reading: Psalm 40:5-10.

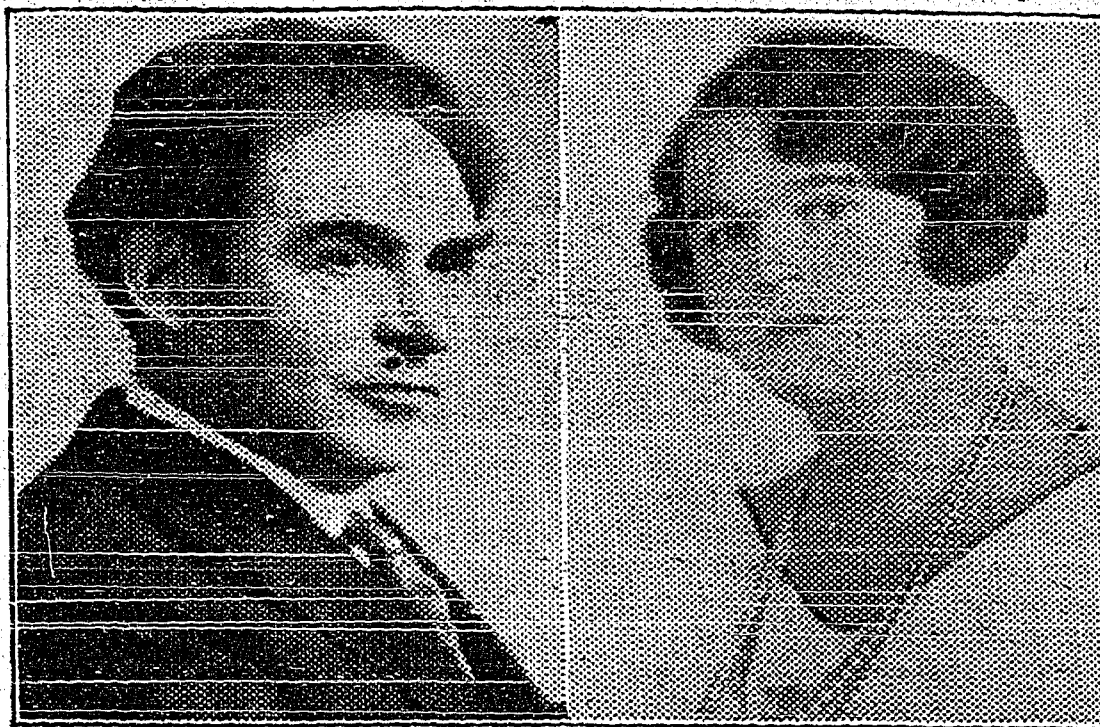

### Explanations and Comments

**Recognizing Our Debt To Others,** Mark 12:28-34.—A scribe who was standing by, and knew that Jesus had answered wisely the question put to Him, asked Jesus, "What Commandment is the first of all?" Jesus replied by quoting Deuteronomy 6:4-5: "Hear, O Israel: the Lord our God, the Lord is one; and thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength"—that is, with all thy powers. "In these terms some interpreters recognized the language of a primitive psychology, an attempt at a threefold or fourfold division of human nature, 'soul' referring to emotion, 'mind' to intellect, and 'strength' to will. But whatever may be thought of this suggestion, it is manifest that the words are intended to claim for God the affection of human nature in all its extent and in all its intensity."—James Stalker.

"The second is this," continued Jesus and quoted Lev. 19:18: "Thou shalt love thy neighbor as thyself." The chief service rendered by Jesus to this second commandment was to associate it so closely with the first. In the Old Testament the two Commandments lie far apart with no indication of any connection between them; but He brought the two together in such a manner as to suggest that they have an intimate relation to each other. In reality they are twin commandments; and so closely are they connected that they cannot exist, or, at all events they cannot have a healthy existence, apart."—James Stalker.

**Fulfilling Our Debt To Others,** James 2:14-17.—"What doth it profit, my brethren," James asks (the Greek means literally, what is the use), "if a man say he hath faith, but have not works? can that faith save him?" When Ruskin says, "What we think, or what we know, or what we believe is, in the end, of little consequence; the only thing of consequence is what we do," he is speaking of a mere doctrine, a barren belief that does not lead to action; and so is James when he says, "What doth it profit if a man say he hath faith, but have not works?" Moreover, the "faith" referred to here, as the Expositor's Greek Testament explains, "faith is expressed in the 'Shema' (Deu. 6:4 etc.); 'Hear, O Israel, the Lord our God, the Lord is One'; this was the fundamental tenet of the Jewish faith, and that it is this to which reference is made, and not the Christian faith, is obvious from verse eleven, which contains the essence of the 'Shema.'"

## World Famous Artists On Canadian Radio

HAROLD BAUER

FLORENCE AUSTRAL

Florence Austral, the world's greatest dramatic soprano and Harold Bauer, one of the outstanding pianists of all time, two of the world famous artists who will be heard on the air this season during the Imperial Oil Hour of Fine Music, to be broadcast from Toronto every Sunday evening, beginning on October 6th, from 8 to 9 Central Standard Time. Miss Austral opens the series on Sunday evening, October 6th and Mr. Bauer will be heard on October 20th.

Announcement of a series of concerts by world famous artists on a Canadian radio chain was made yesterday by F. J. Wolfe, Director of Imperial Oil, Limited. The series will begin on October 6th and will continue for twenty-six weeks. It will be broadcast through stations at Montreal, Ottawa, Toronto, London, Waterloo, Winnipeg, Saskatoon, Regina and Red Deer and, with the completion of hook-up facilities at the end of the year, at Vancouver.

Among the universally known artists who have been engaged for this series are Florence Austral, the world's greatest dramatic soprano; Sophie Braslau, the great contralto; Harold Bauer, one of the outstanding pianists; Richard Crooks, the American tenor who, though only twenty-eight years of age has scored notable triumphs in Europe and America; Lea Luboshutz, who is said to be the greatest of all women violinists; Hans Kindler, the famous Dutch cellist; The London String Quartet; Albert Spalding, great violinist; Luella Malius, one of the most famous coloratura sopranos; Josef Lhevinne, the great Russian pianist; Richard Bonelli, leading baritone of the Chicago Opera; The Kedroff Quartet, formerly of the Imperial Palace at Petrograd, and others.

The series will consist principally of symphony concerts at most of

which one or more of these famous artists will assist. A great symphony orchestra of more than fifty players has been engaged and will be under the direction of Reginald Stewart, who has lately returned from a concert tour in Europe, and who has been engaged as a guest conductor for the London Symphony Orchestra in April next. The concerts will originate in Toronto and will be offered from 10 to 11 o'clock Eastern Standard Time for twenty-six consecutive Sunday evenings, beginning October 6th.

"Our object in promoting these concerts," Mr. Wolfe said, "is to bring to people within reach of available hook-up facilities in Canada, music and artists which, without the medium of radio, could not be heard outside the great metropolitan centres. We do not regard radio broadcasting as a direct advertising medium and feel that it can function most usefully in purveying entertainment of educational and artistic merit. The aim of the orchestra and guest artists will be to broadcast classical music and modern novelties of more than ordinary merit."

The series, which will be known as The Imperial Oil Hour of Fine Music, will go on the air through stations CHYC, Montreal; CNRO, Ottawa; CKNC and CFRB, Toronto; CJGC, London; CKCR, Waterloo; CJK, Winnipeg; CHWC, Regina; CFQC, Saskatoon; and CKLC, Red Deer.

## Take Off Over-weight

Modern science says sugar supplies energy that lets you carry on with less food and safely reduce weight.

WRIGLEY'S is pure chicie, sugar and flavor. Chewing the chicie dissolves the sugar and releases the flavor.

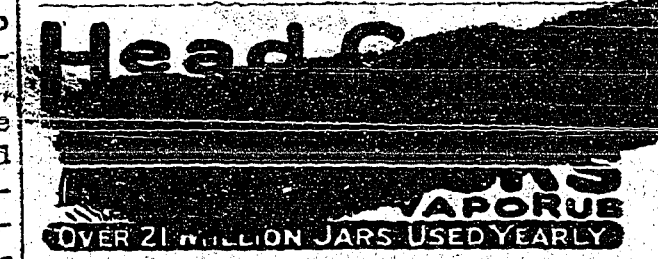

In this pleasant way you get needed body fuel and reduce the pounds.

## The Newspaper Guide

### Advertisements Are To Shoppers What Time-Table Is To Traveller

The newspaper that carries a good line of advertisements is to the shopper what the time-table is to the traveller and the published guide to the tourist. Busy people start to study these advertisements in the home or in the office, and before they start shopping they know where they are going. In fact, business places are points of interest to all tourists, and the non-advertiser puts himself outside the pale so far as strangers are concerned.

## The Best Thing Out

Save your Tonsils—Mrs. Sybilla Spahr's Tonsils are unequalled for Coughs, Bronchitis, Catarrh, Head Colds and Sore Throats. Absolutely harmless, good results or money back. \$1.50 postpaid.

## WINDOLITE

MADE IN ENGLAND

## The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

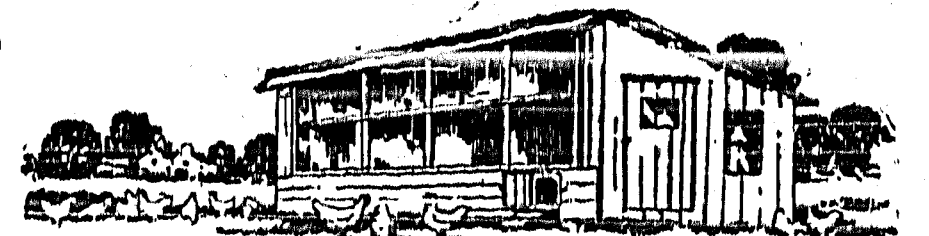

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of ordinary glass of thickness, weighs about 135 to 120 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

### The Singing Fool

By HUBERT DAIL  
Copyright, 1928, Warner Bros. Pictures, Inc.

#### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club wins fame on Broadway as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes romantically interested in John Perry, Al's close friend, and Perry begs her to leave Al. On the third anniversary of his marriage Al takes Molly home from the Club Bombo, where he is part owner. She is moody; her conscience bothers her because of her behaviour with Perry. This is intensified when Al goes to the nursery and she sees how ardently he loves Junior. Later, in a burst of rage, she tells Al she doesn't love him any more. As Al recoils, Molly hears Junior calling her.

#### CHAPTER XV.

Junior had awakened to find that his toy, his wooly dog, had dropped out of bed. So he was calling to Molly to come and get it for him. As his high childish voice drifted through the rooms to Molly and Al they gave a start. The expression on Al's face softened in an instant. Molly's remained the same as she brushed by Al to look after Junior. Al turned, looking after her retreating figure, still in a daze from her harsh words. He had lost her love, she actually said so herself! Her words and the heart-breaking scene he had just passed through seemed fantastic and unreal to him. What had he done to deserve her indifference and her scorn?

Then, like a man in a dream, he followed her toward the nursery. Standing in the doorway, he saw her pick up Junior's wooly dog from the floor, replace it in the child's arms, and carefully tuck him in.

"Go to sleep, now, Junior. Then Mamma can sleep too."

How strangely contrasting was that soothing voice to the tone Molly had just used in addressing Al! And how kind the expression on Molly's profile as she bent over Junior's bed! Surely this was not the end, thought Al. He suddenly determined that he would not let their life together be blasted by her whim; he would fight to reawaken Molly's love!

As Molly came toward him he raised his hand with an apologetic gesture. "Darling, can't we talk this out? If I've done anything tell me!"

"No—no more talk!" Molly passed him, entering her bedroom. He heard her door close with a snap of finality.

But now Junior was sitting up, holding out his arms to his father. "Daddy, please sing me to sleep."

Al came forward swiftly, picking up Junior, holding him close as if to drive away the wound Molly had inflicted. Here, at any rate, was someone who loved him, trusted him, and always greeted him with

the same adoring, happy smile. For a moment Al choked up and couldn't speak. Then he said huskily,

"What do you want me to sing, baby?"

"You know," whispered Junior confidently, "that one about a little boy like me."

"Little Feller?"

"Yes, that one."

Slowly Al began to sing, rocking Junior gently to and fro. There was only an audience of one to hear—and that a very sleepy audience—but the tenderness and appeal of Al's words had not been matched since that night three years ago when he had sung the love ballad "Always," to touch Molly's heart. As the song continued Junior's head drooped in drowsiness and presently his eyes closed. When Al knew that he was really asleep the rhythmic words trailed off into a whisper and silence. Then, pressing the little form close to him for a last good-night hug, he put his son back in the bed.

Once more the tip-toeing from the room. Then Al stopped and gazed wonderingly at Molly's closed door. She was still up; in the semi-darkness of the hallway he could see a faint narrow line of light under the door?

Perhaps she was already repenting of her quick, unkind words—how passionately he wished that could be true! Her pride wouldn't let her make up to him now, but, perhaps in the morning.

Until the long black hours of the night faded into the gray dawn Al sat up in bed, gazing out over the lights of the city, smoking one cigarette after another, wondering, hoping, planning.

In the morning Molly's manner was still cold, but her whip-lash tongue was silent. She avoided meeting his eyes and when she spoke it was about necessary things concerning Junior or the household. Al watched her, hoping to detect a softening glint in those icy blue eyes, but there was no sign of relenting. Finally he left the apartment for his work.

All through the day and evening there was an actual sharp pain in Al's heart as if a knife had been driven swiftly into him and withdrawn. But he went about his work the same as usual, trying to forget the scene of the night before. When he saw Molly after her performance that evening he thought she was in better humor. She was not cordial, by any means, but she made some attempt to treat him courteously. His heart gave a bound; in a few days, he told himself, this mood of hers would wear off and she would be her own lovely self again. Their life together would not be smashed, after all.

So the days passed, with Molly avoiding Al most of the time, and maintaining a certain secrecy of manner when she did talk to him. Then New Year's Eve arrived, the New Year's Eve that Al was to remember always.

It was the big night in the city's life of revelry; snow blanketed the streets, embellishing the roofs and facades of the houses and skyscrapers, emphasizing the dazzling fantasy of brilliant Broadway.

At the Club Bombo the cause of "whoopie" had its most devoted adherents. The crowd in evening dress wore tiny carnival hats and danced with the true spirit of abandon as midnight approached. Long streamers of confetti in brilliant red, green, blue, yellow and purple were shot across the room, describing graceful curves before they fell across the dining tables and the shoulders of the dancers. It was the biggest crowd the Bombo had ever entertained

ed and on the raised orchestra platform, stood Al, wearing a fantastic head-piece, a megaphone in his hands. He was leading the merriment, but the ache in his heart was still present.

Perhaps, he thought, the unrestrained gaiety of this night would change Molly's mood so she would become her old, friendly self. He gave a hurried glance toward her reserved table; she should be here by now. Then came the distracting business of introducing the celebrities, and once more he glanced at the vacant table and consulted his watch. Molly was at least a half hour late. He nodded toward the orchestra leader, signalling for another dance.

As the dancers swept toward the floor he retreated among the tables. What was keeping Molly? He could hear the shrieks of the sirens from outside—the New Year had arrived, the time when feuds and misunderstandings are forgotten, new resolutions are made, and life begins anew. All this, he hoped desperately, would influence Molly.

The orchestra was playing with staccato briskness and abandon, the couples swayed and snuggled and called to one another.

"Choose a partner yourself!" cried a friend in passing, clapping Al on the shoulder. Al laughed in answer, but a moment later he moved toward the phone room at the rear. Perhaps Molly had gone straight home from the theatre—he must find out!

The phone room was a sort of alcove, with three or four booths. Al entered one, pulling the door shut and calling his apartment number. But the door suddenly drifted open, allowing a roar of happy sounds to enter. Just then he heard a feminine voice at the other end of the wire Molly's voice, he thought. He quickly pulled the door shut again and said:

"Molly, dearest, I've been holding your table for you—hoping you'd come."

But again the door flew open and he missed the answer.  
(To Be Continued.)

## THE RESPONSIBILITY OF EVERY MOTHER

The child in the home is a never-failing source of joy, but, at the same time a never-failing responsibility to the fond mother. It is not infrequently happens that minor ailments of the child distress and puzzle her. She does not know just what to do, yet feels them not serious enough to warrant calling in the doctor. At just such times as these it is found that Baby's Own Tablets are the mothers' greatest help and friend.

Most childhood ailments arise in the digestive tract—the bowels become clogged and the stomach sour. Baby's Own Tablets are a never-failing relief for this condition. They are a mild but thorough laxative and through their action on the stomach and bowels they banish constipation and indigestion; break up colds and simple fever; allay the pain accompanying the cutting of teeth and promote health-giving sleep. Concerning them Mrs. W. Jennings, Mackay, Ont., writes: "I have used Baby's Own Tablets and think so highly of them that I would not be without them. Please send me your little booklet on the care of children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

#### Works Both Ways

You will find, young man, that as long as you have to work for a living there will be something about the job you are on, or somebody working with you, that you don't like. Forget it and look to the future. Some other fellow may feel the same about you.

#### Minard's Liniment for Warts.

England has had only one king who grew to manhood and who never married. He was William Rufus, or William II., son and successor of William the Conqueror.

## Real Dyes are easier to use

**DIAMOND DYES** are used by practically the same method as any other dye. They go on easier, though—more smoothly and evenly; without spotting or streaking. That's because they are made from real anilines, without a trace of fillers to injure fabrics or give things that redyed look.

Diamond Dyes contain the highest quality anilines that money can buy. That's why they give such clear, bright, new-looking colors, which keep their depth and brilliance so remarkably through wear and washings.

Next time you have dyeing to do, try Diamond Dyes—at our risk. See that they are easier to use. Then compare results. You will surely

agree Diamond Dyes are better dyes. The white package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

## Diamond Dyes

Sun Proof

EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the anilines that count. They are the life of dyes; the source of their rich colors; brilliance and permanence.

#### Strange Aerial Cargoes

Airplanes Are Now Used To Carry Every Kind Of Shipment

Fifty tons of milk are being carried every week by aeroplane between London and the Continent, says a Tit-Bits writer.

Recently a consignment of sea-horses for the Zoo arrived by aeroplane at Croydon. Great care was lavished on these fantastic creatures, half horse and half dragon, which were caught in the Bay of Biscay, and throughout the flight air was pumped into their tanks at ten-minute intervals.

Delicate goldfish are often transported in this manner, but the most valuable fish cargo by air was a number of very rare, rainbow hued specimens from the East Indies, some of which were valued at \$180 per inch.

A barred cage was recently built inside the fuselage of an aeroplane which left Croydon for Le Bourget, where it picked up a fully grown lion, complete with trainer, and brought them back at over 100 miles an hour.

Another special compartment was fitted in an aeroplane to accommodate a performing circus horse from Paris to London; while an air-freighter arrived recently from Amsterdam with a bear, a monkey and a consignment of parrots.

Twenty years ago it would have been impossible to build a road to the site of the new observatory on Mont Blanc. The aeroplane has made it possible to convey the stones and materials to a height of over 13,000 feet on the mountain side; but when the road is completed it will be one of the most expensive in the world.

It seems strange that milk, easily obtainable in all great cities, should be carried by air, but mysterious zinc-lined boxes were once regularly carried from Croydon to Paris, and these contained two gallons of milk in glass bottles, packed in ice.

The American visitors to whom the boxes were addressed had been so impressed with the purity of English milk that they cheerfully paid 80c. a pint to have it delivered to them in Paris!

#### Applies To Every Nation

If China and Russia should go to war ninety-five per cent. of the population of either country wouldn't know what it was all about. But that is pretty nearly the case with a war in any nation.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

Friend—You think then that the heathen are slow to adopt the white man's religion.

Globe Trotter—Yes. You see, they have to adopt his vices before they see the need of it.

Many would put the world right, but forget to start with themselves.

For Sprains—Use Minard's Liniment.

#### Little Helps For This Week

"He will be very gracious unto thee at the voice of thy cry."—Isaiah xxx. 19.

Father! before Thy footstool kneeling, Once more, my heart goes up to Thee; For aid, for strength, to Thee appealing, Thou who alone canst succor me. And oh! in my exceeding weakness, Make Thy strength perfect; Thou art strong! Aid me to do Thy will with meekness, Thou to whom all my powers belong.

There is no good in praying for anything, unless you will also try for it. All the sighs and supplications in the world will not bring wisdom to the heart; that fills itself with folly every day, or mercy to the soul that sinks itself in sin, or usefulness and honor to the life that wastes itself in vanity and inanity.

—Henry J. Van Dyke.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

#### Opinion Wasn't Worth Much

It is told of a popular solicitor that he called upon a brother in the profession, and asked his opinion upon a certain point of law. The lawyer to whom the question was addressed drew himself up and observed: "I generally get paid for what I know." The questioner drew a half dollar from his pocket, handed it to the other and coolly remarked: "Tell me all you know and give me the change."

**DOCTORS** quite approve the quick comfort of Aspirin. For these perfectly harmless tablets will ease an aching head without penalty. Their increasing use year after year is proof that they do help and can't harm. Take them for any ache; to avoid the pain peculiar to women; many have found them marvelous at such times. The proven directions found in every package of Aspirin tell how to treat colds, sore throat, neuralgia, neuritis, etc. All druggists.

## THE CRESTON REVIEW

Issued every Friday at Creston, B.C.  
Subscription: \$2.50 a year in advance;  
\$3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, OCT. 4

## Now What's Coming?

What's coming off? That is the question orchardists in the Kootenays are asking one another these days, and it would appear as if there was good reason for the suspicion that prompts the enquiry.

It will be recalled that several weeks ago Sanford Evans of Winnipeg was named as a special commissioner to enquire into the fruit growing and marketing situation; the order-in-council empowering him to do such work setting forth that the enquiry should be in the Okanagan and "other districts if deemed necessary."

Right from the start it seemed odd that where such an important investigation was being made that part of the province might be overlooked. In Creston it has always been felt that the fruit problem here was not on all fours with the Okanagan and that any recommendations that would be made based on an Okanagan investigation only might easily be unwarranted insofar as the industry in the Kootenay is concerned.

Recent developments in connection with Mr. Evans' work have given rise to a great deal of fear that he is likely to not "deem it necessary" to continue his investigation outside the Okanagan district.

And as corroborating the impression that there may be a nigger in the woodpile, a few days ago came the announcement that Premier Tolmie had secured a reduction in freight rates on Okanagan apples shipped to Vancouver for export.

The new freight tariff gives Okanagan points a flat rate of about \$1.00. But the rate on Kootenay export apples still remains at a figure between \$1.25 and \$1.35.

Under Board of Direction regulations Kootenay growers must export their quota of stated varieties as well as the Okanagan. Why this new rate discrimination against the Kootenays? Why this official intimation to Sanford Evans to investigate the Okanagan first—and the Kootenays if Mr. Evans "deems it necessary?"

Most every local grower is convinced that when he gets mixed up with the Okagan he invariably fares worst. The facts submitted ought to convince that here is another instance where special benefits may easily be conferred on the Okanagan, and no harm can come of every orchardist hereabouts making it his business to discuss this matter with the local member—and stay with it until definite advice is received that Commissioner Evans will give this part of Kootenay exactly the same attention he is according Okanagan fruit districts.

## HOME BREW

In some quarters there is a tendency to criticize the village commissioners for their alleged generosity in making a grant of \$100 to the 1929 fall fair. In this rather narrow view the Review does not concur. In our opinion the council would be well advised in making the grant about \$300 and thus enable the fall fair management to do away with the annual passing of a subscription list in the business section to secure funds necessary to assure the successful financial conduct of

the exhibition. Unquestionably the fair is a community enterprise which the community as a whole should encourage in practical fashion, and the fair and square way to accomplish this by taking the village contribution from village revenues toward which most all of us contribute.

Mention of the village commissioners reminds that at midnight on Monday last Howard S. Amon's franchise to supply Creston with light and power again lapsed. At the time this new agreement was negotiated a majority of the commissioners insisted that no obstacles of any sort should be placed in Mr. Amon's way, and on that score no provision was made for penalizing him in case of failure to fulfill his agreement. In this regard the commissioners showed such a measure of good faith that no one can justly complain if the council now acts strictly upon the old adage, "He who does me once, shame on him; he who does me twice, shame on me," and before conceding a further extension insists on executing an amendment to be attached to and forming part of the original agreement that will give the village possession of the pole line that has been erected throughout the village in case the "juice" is not delivered on a date, certainly not later than November 1st. With the Deisel engine and other equipment now on the ground light by hallowe'en night should not be impossible of delivery. In case of another default, with a pole line in its possession, the village will be in remarkably fine shape to talk business to any and all who wish to go into the light and power business—including the municipality itself.

## NEWS OF KOOTENAYS

At present Nelson's water supply is the lowest in the history of the city.

The Miner reports grouse very scarce in the Rossland district this season.

August was a record month at Nelson hospital. 234 patients were treated.

Cranbrook has a Radio Club with 28 members. Chas. Pocock is the president.

Provincial police. Donohoe of Wardner has been transferred to Courtenay.

Forest fires in the Bonners Ferry district this season destroyed over a million feet of merchantable timber.

Penticton now has such an abundant supply of water that all restrictions on its use have been withdrawn.

In the hottest weather Kaslo consumes about 300,000 gallons of water daily, according to the Kootenian.

Nineteen certificates of naturalization were issued at a sitting of county court at Rossland one day last week.

At Penticton the council has just passed a by-law to prevent two houses being erected on an ordinary size lot.

The Canadian Legion at Grand Forks meets weekly. Cribbage is a feature of the social department of its work.

J. E. Webster, who travels East Kootenay for Swifts, has just purchased the Anderson meat market at Kimberley.

No auto parking is allowed on Main street, Penticton, and on other thoroughfares cars must not project more than 15 feet from the curb.

The Herald is demanding that the Conservative member for Similkameen "show his stuff" by inducing the government to erect a new public building in Penticton to cost about \$100,000.

Irrigation monies collected at Penticton this season will be \$13,000 short of meeting cost of operating the system.

Kaslo is to vote on a by-law to raise a loan of \$18,000 to provide the town with a new water supply from Kemp Creek.

Three 100 per cent. babies were judged at the Women's Institute clinic at Penticton last week. There were 31 entries.

Fernie's brand new brass band has 24 musicians. The city has just made a grant of \$125 to help the band along for this year.

A start has been made toward formulating plans for an apple blossom festival to be staged in the Okanagan Valley next spring.

Kelowna has a broadcasting station that purports to put on an evening and Sunday afternoon broadcast each week this season.

Kaslo will this month lose one of its best known and very useful citizens in the departure of James Anderson to reside in Vancouver.

According to the Gazette the Canadian Colonization Association intends to locate a number of settlers in the Grand Forks district this fall.

The Roman Catholics at Fernie have just opened a new school which will accommodate 300 children. It has eight classrooms and a big auditorium.

The worst is feared at Kaslo with the departure of Mayor Anderson to reside at the coast. The council is considering appointing a police magistrate.

## LAND ACT

## Notice of Intention to Apply to Purchase Land

In Nelson Land Recording District of West Kootenay, and situate West Creston.

Take notice that I, Monrad Wigen, of Wynndel, B.C.; occupation, rancher; intend to apply for permission to purchase the following described lands: Commencing at a post planted at the southeast corner of Block 8624; thence 40 chains west; thence 20 chains south; thence 40 chains east; thence 20 chains north, and containing 80 acres more or less.

MONRAD WIGEN.

Dated Sept. 26, 1929.

MINERAL ACT  
SECTION 28

IN THE MATTER OF THE MINERAL ACT; and in the Matter of a Delinquent Co-Owner; and in the Matter of the Bellevue Mineral Claim; and in the Matter of Rose Mitchell.

To MRS. ROSE MITCHELL, Boswell, B.C.

NOTICE IS HEREBY GIVEN by John Desireau of Wynndel, in the Province of British Columbia, co-owner with Rose Mitchell or any person or persons to whom she may transfer an interest in the Bellevue Mineral Claim, situate at Wynndel, recorded on the 20th day of July, 1921, in the office of the Mining Recorder at Nelson, B.C., that unless you, the said Rose Mitchell, or any person to whom you may have transferred any interest, within the period of ninety (90) days after the first publication of this notice, pay to me the sum of One Hundred Dollars (\$100.00), your proportion of money expended by me in performing two years' assessment work on said claim, together with the cost of this advertising, your interest in the said claim will become vested in me who has made the required expenditures in the said claim under Section 48 of the Mineral Act. This notice is published under Section 48 of the Mineral Act.

Dated at Nelson, British Columbia, this 1st day of October, A.D. 1929.

JOHN DESIREAU.

THE CRESTON REVIEW

COMMERCIAL PRINTING DEPT.

## Huscroft School 1929 Champions

Frances Moore and Norman Nickel are Individual Champions—Sports Best Staged—High Jumping Big Feature.

The school sports, which have now become one of the principal attractions at the fall fair, were the most successful held yet. Each year the competition becomes keener. We welcome a new competitor this year in Huscroft school, who also had the good fortune to win the Jubilee Cup by 4 points. Wynndel school owing to scarlet fever was unable to compete.

The handicapping, always a difficult task and which is based solely on the previous year's score sheet, worked out well. To impartial observers it is evident that the village school must be heavily handicapped as it is certain that with proper picking and training of a team from the Valley's big school their chances of winning are good. It is also unfortunate that very little school spirit is in

evidence in the village school and that the principal is handicapped by boys refusing to take part. Probably if the advantage of being able to put fresh men in each event was fully realized it would help combat this lack of effort.

The organization was the most complete yet and teachers are to be congratulated on the way they had their teams on hand so that there was no delay. A straight course roped off was used this year and was a great improvement over the circular course previously used.

From the score sheet it would seem that Canyon school will have to be reckoned with next year. In the junior events they won most points, in fact winning half their score in the first 7 races. There is very little to choose between the three larger schools and the score sheet shows consistent scoring on all three occasions. The village school won 79 points against 82 last year and but for a mishap in the junior relay would have equalled their last year record. Huscroft is to be congratulated on their fine showing. The winners:

50 yards, boys 8 and under—George Carr, Mauney Powers, Carl Nygaard.

50 yards, girls 8 and under—Phyllis Abbott, Ruby Palmer, Merle McMaster.

3-leg race, girls 12 and under—Molly

Moore and Nellie Payne, Clara Nygaard and Anne Berggren, Margaret Huscroft and Vergene Boehmer.

50 yards, boys 10 and under—Tom Tedford, Bruce Niblow, Irwin Nickel.

50 yards, girls 10 and under—Jean Speirs, Ethel VanAckeran, Margaret Huscroft.

First pull tug of war—Huscroft won from Creston. Erickson won from Canyon.

Relay race, 9 and under: 1st Canyon—Ethel VanAckeran, Bruce Niblow, Bab Spencer, Earl Browell. 2nd Creston—Irwin Nickel, Jean Speirs, Harry Williams, Maizie Ferguson.

100 yards, boys 12 and under—Norman Nickel, Alfred Nygaard, Tom Tedford.

100 yards, girls 12 and under—Dorothy Collis, Betty Kemp, Clara Nygaard.

100 feet, boys 7 and under—Campbell York, Sidney Gartland, Jimmy Carr.

100 feet, girls 7 and under—Marguerite Grant, Aloah Boehmer, Olive Speaker.

Boys to 15 years—Maurice Kelsey, Norman Nickel, Clyde Huscroft.

Girls to 15 years—Minnie Huscroft, Frances Moore, Eleanor Blair.

3-leg race, boys 10 and under—Norman Nickel and Harry Williams, Bruce Niblow and Bud Browell, Tom Tedford and Herbert Boehmer.

3-leg race, girls 10 and under—Jean Speirs and Doris Ferguson, Vergene Boehmer and Margaret Huscroft, Jessie Hook and Ethel VanAckeran.

Final tug of war—Erickson beat Huscroft.

Relay, open—Norman Nickel, Frances Moore, Earl Rentz, Raymond Bevan 1st. Clyde Huscroft, Arthur Hurry, Marjorie Tedford, Minnie Huscroft 2nd. Eleanor Blair, Roy Benson, Bob McMaster, Maurice Kelsey 3rd.

Long jump, boys—Norman Nickel, Maurice Kelsey, Sidney Abbott.

Long jump, girls—Frances Moore, Eleanor Blair, Clara Nygaard.

High jump, boys—Maurice Kelsey, Lambert Spencer, Sidney Abbott.

High jump, girls—Minnie Huscroft, Frances Moore.

Pole vault—Lambert Spencer, Maurice Kelsey, Arthur Hurry.

Points, nett—Huscroft 33, Creston 29, Erickson 17, Canyon 15.

The K.P. cup for the best boy athlete has been awarded to Norman Nickel. With proper training this trophy should be the first of many as Norman has the making of a fine athlete.

Frances Moore again won the girls' cup making a much better record than last year with Minnie Huscroft as a close competitor.

Messrs. Forbes and Oakeley again acted as Judges, assisted by Hilton Young and Chas. Huscroft. Mr. Lucas of Alice Siding school was starter. All these gentlemen had a strenuous time and their services are much appreciated.

### Canyon City

Mr. and Mrs. Geo. Davie and family are Spokane visitors this week, making trip by auto.

Mr. and Mrs. A. Walde of Fernie arrived at the end of the week on a visit with Mrs. Walde's parents, Mr. and Mrs. Wearmouth, and the whole party left this week for a few days in Spokane.

Jim Huscroft has had his hay baler at work at the Frank Putnam ranch at the Browell corner baling the 1929 cut of alfalfa.

"Dad" Browell got back a few days ago from a six months' visit with old friends and relatives at points in North Dakota.

Fred Browell, who has been at Dorr for the past two years, is a Canyon visitor at present.

Tom Hickey is home again after an absence of about two months at forest fire fighting, at which he was in charge of a crew.

Rev. R. E. Cribb was here on Sunday evening for special service in connection with the annual Sunday school rally of the United Church, and was assisted in the exercises by Manford Samuelson.

Dr. McInnes, a Calgary, Alberta, chiropractor, is making a professional visit here this week. We hear he intends to locate permanently in Creston for practice of his profession.

Jas. Little of Agincourt, Ontario, was a visitor here for a few days, at the end of the week, a guest of his uncle, Hilton Young. He is making a tour of British Columbia and goes from here to the coast.

E. Searle of Kelowna is spending the month at Canyon, a guest of his uncle, W. E. Searle.

G. Kifer and W. Witherhead will this winter be in charge of logging camps on C.F.R. timber operations at Yahk. For several years past the latter has worked under contract.

E. Nougier has qualified for the valley champion big game hunter with the capture on Saturday of a black bear and two cubs, which he got on the hills back of Canyon.

## Canadian Anomalies

Following the close of the Great War by the signing of the Armistice, Canada demanded and was accorded a place of equality with other nations of the world at the Peace Conference, and, with the creation of the League of Nations, Canada entered that League on exactly the same terms as all other nations. That is to say, Canada was recognized as a nation. And in signing the League Covenant, Canada accepted the responsibilities of a nation.

At the last Imperial Conference, in London, with all the self-governing Dominions of the Empire and the British Government fully represented, a formal declaration was adopted setting forth that Canada and the other self-governing Dominions were fully autonomous nations within the British Commonwealth of Nations, possessing exact equality with Great Britain.

As a logical outcome of these declarations, Canada has established her own legations in certain foreign countries, appointed her own ministers, and, in turn, these countries have named ministers at Ottawa. Thus, as a nation, Canada has direct representation at Washington, Paris and Tokio, in exactly the same manner as any other country. Equally significant is the fact that the British Government has appointed a High Commissioner to Canada, while Canada maintains a High Commissioner in London.

But while Canada is thus recognized as a nation, it is the only nation in the whole world which has no nationality of its own, and no distinctive flag of its own. These are anomalies which other people find it extremely difficult to understand.

In England, people born in that country are recognized and officially listed as English; if born in Scotland, they are listed as Scottish; in Ireland, as Irish; in France, as French; in Germany, as German; in the United States, as American. Born in Canada, on the other hand, a person may be listed as of any nationality under the sun except Canadian. Officially, there is no such person as a Canadian.

The writer of this article was born in Canada as were his father and mother. His mother's parents were both born in Canada. His father's parents were born in Ireland, their ancestors having crossed to the Emerald Isle from Scotland. So the writer becomes, in Canada, an Irishman although neither he nor his parents ever saw Ireland. If his grandfather had been born in Siam, then the writer would be a Siamese.

In the face of such an anomaly, such a ghastly absurdity, it is little wonder that the people of other countries laugh in the face of any person born in Canada who is bold enough to lay claim to his country being a nation.

Every nation in the world, except one, has a distinctive flag of its own. The exception is Canada. Australia, New Zealand, South Africa, Newfoundland, the Irish Free State all have their distinctive national flags, as well as the Union Jack, the flag of all of Great Britain and the Empire. Canada has a distinctive flag for its merchant marine, and by Orders-in-Council it has been decreed that this shipping flag shall be flown over Canadian Government buildings in the British Isles, and in foreign lands, but it is not officially recognized anywhere else.

Thus, while a Canadian may fly a distinctive Canadian flag over a ship owned by him, he may not fly it over his office building or his residence, and while such a flag may be flown over a Canadian Government building in London, Washington, Paris, or Tokio, it cannot be flown over a Canadian Government building in Halifax or Vancouver, or anywhere between these two points.

A person born in Canada is, therefore, that peculiar individual among the peoples of the world who has no nationality he can call his own, and no distinctive flag that he can properly fly in his own land and over his own home and public institutions.

And yet the people of Canada find pride in calling Canada a nation. Why, this so-called nation of Canada has not even the right to amend its own constitution, a power possessed by other self-governing dominions of the British Commonwealth.

Canada is, and is proud to be, and desires to remain, a part of the British Commonwealth of Nations. It is proud of and loyal to the Union Jack as the flag of that great Commonwealth, and will ever retain it. But just as the Dominion has its own Coat of Arms, and each Province its Arms, and each city its Arms, so do the people of Canada desire to establish and retain their own nationality, have their own distinctive flag, and enjoy full autonomy in their domestic affairs.

Much as a native born Canadian may love England, or Scotland, or Australia, or New Zealand, he does not desire to merge his identity or lose his individuality. He is a Canadian and desires to be known as such, not as an Englishman, a Scotsman, an Australian or a New Zealander.

If Canada is a nation, let it display the qualities and the insignia of a nation.

## Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acid, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any druggist.

## All Weather Road Promised

From International Boundary To Prince Albert National Park

An all-weather highway from Regina or the boundary to Prince Albert National Park will probably be put into condition, F. R. MacMillan, of Saskatoon, president of the Saskatchewan Conservative Association, told members of the Kiwanis Club at Prince Albert. He thought that this should be the policy of the government, and the fact that a cabinet minister in the Anderson Government, Hon. J. A. Merkley, was on a trip to the park was an evidence of the government's interest.

## Escape From Submarine

Men Leave Submerged Craft In Record Time During Experiment

Ten men emerged from the sunken submarine T-17 in forty-eight seconds during a submarine experiment in Italy, making what is called a world record for such a feat.

Half of the participants used head pieces, while the others were not especially equipped. The submarine carried a new device consisting of a large bowl beneath a torpedo tube permitting the men to leave the submarine without water entering the hull.

## HEALTH REGAINED

Mother and Daughters Restored Through the Use of Dr. Williams' Pink Pills.

"Contrary to what my friends once thought, I am still living," says Mrs. Norman White, New Canada, N.S., "and I give the credit to Dr. Williams' Pink Pills. I had been a sufferer for some years. I was weak and run-down; my heart would palpitate violently at the least exertion. I grew so weak that I could not do my housework. I was under a doctor's care, but it did not benefit me. A second doctor was called in, but with no better results. I was told that I was almost bloodless, and I became so weak I was forced to remain in bed. My friends did not believe I could recover. While in this condition a neighbor strongly urged me to try Dr. Williams' Pink Pills. It was like grasping at a straw, but six boxes of this medicine were got for me, and by the time I had taken them I was able to sit up. Another six boxes were got and soon I was able to go about, my health steadily improving. I continued the use of the pills until I felt my health fully restored. I still take the pills occasionally as a safeguard. My two daughters have also used the pills with the most beneficial results. The trouble in both cases was the anaemia that so often comes when girls are entering womanhood. Under the use of this medicine both fully regained health, strength and activity. You can see, therefore, that it is impossible for me to praise Dr. Williams' Pink Pills too highly, and I hope every weak person who may read this will benefit by my experience."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Five hundred years before the birth of Christ, Hippocrates, a Greek, wrote a book on medical science which is still studied by students in America and Europe.

Externally Or Internally, It Is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

## Romanian Scientist Designs "Space Rocket"

Hopes To Carry Mail To America In Thirty Minutes

A "space rocket," designed to shoot upward for 32 miles, and, it is hoped, be the forerunner of a rocket that will carry mail to America in 30 minutes, is to be built at once, it has been learned.

Prof. Hermann Oberth, a Roumanian scientist, designed the rocket. It will be built under the supervision of the U.F.A. Film Company. Its object, for the first flight, is to measure the physical and chemical properties of the atmosphere. Instruments will be enclosed in it to this end.

A Reliable Antiseptic—Minard's Liniment.

W. N. U. 1805

## From Youth To Old Age

THERE are three trying periods in a woman's life: when the girl matures to womanhood; when a woman gives birth to her first child; when a woman reaches middle age. At these critical times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor. Countless thousands testify to its worth.

## Artificial Silk From Acetic Acid

Combined With Cellulose Will Make Fine Fabric Is Predicted

Prediction that the sour taste in vinegar will be used to make artificial silk was made to the United States Chemical Society today by Professor D. B. Keyes, of the University of Illinois. The sour substance with which chemistry's magnetic touch may make finer dresses was called by Prof. Keyes by its scientific name, acetic acid. He told of a newly-developed process at Illinois for making it, developed in co-operation with E. P. King and Sherlock Swanne, of the university. For making artificial silk it is combined with cellulose to form cellulose acetate.

## Minard's Liniment for Neuritis.

What's In a Name?

An Englishman's home is his castle, but whether he is able to call his castle what he likes is a matter of some doubt. The thought arises because the Bank of England officers have decreed that the words "Bank of England" on a building in Burnley must be removed. The words, carved in bold letters in stone, have adorned this building for over a hundred years. Why they are there on one knows.

## World's Grain Show

National Committee Will Meet In Toronto In November

Hon. W. R. Motherwell, Minister of Agriculture, is calling a second meeting of the national committee of the world's grain conference and exhibition. The meeting will be held in Toronto on November 21.

Considerable work has been accomplished in preparing for the world conference which will be held in Regina in 1932. The tentative prize lists will soon be ready and will be so arranged that every province will have good chances in some of the classes. As soon as the lists are completed copies of them will be sent to all foreign countries with invitations to compete.

"Evil is wrought for want of thought as well as want of heart."

## GRAIN EMBARGO IS REQUIRED TO EASE CONGESTION

Winnipeg.—Serious congestion in the lake head's mammoth grain elevators brought suggestions that the placing of an embargo on western grain shipments appeared to be the only remedy to the situation.

Port William and Port Arthur terminal elevators, with a storage capacity of 86,000,000 bushels today are housing practically 70,000,000 bushels, leaving a comparatively small storage space through which to move the incoming crop.

Lack of demand for Canadian grain in the world markets and the resulting congestion at Montreal, is responsible for the situation at the head of the lakes, and railway authorities here intimated that the placing of an embargo probably will be necessary.

E. B. Ramsay, chairman of the board of grain commissioners, commenting on the situation, said an embargo seemed to be the only remedy.

A similar situation arises every fall, pointed out the grain board chairman. He indicated, however, that last year at this time the shortage of cars to handle the heavy prairie crop had itself acted in the nature of an embargo, preventing progress of grain to the lake head. This season, with sufficient cars available to move the wheat east of Port Arthur and Port William elevators are reported plugged almost to capacity, while harbor conditions do not point to an early rush east of lake boats.

## Balloon Found Unmanned

Believed To Be One Piloted By French Flier

Paris.—A tragedy of the air was indicated as a balloon without passengers floated to the ground near Kamenice, Jugoslavia.

The Aero Club of France was advised the balloon carried the club's flag, and that blood spots were found on the torn basket. An altimeter registering 5,000 meters (about 19,000 feet) was found by peasants nearby.

It was believed the balloon was the one in which Pilot Nuguer left St. Cloud, near Paris, to compete in the Aumont-Thierville Cup race. The place where the bag was found is 850 miles from Paris.

## Convicted Of Manslaughter

Mrs. Pantages, Wife Of Theatrical Magnate, Found Guilty By Jury

Los Angeles.—Mrs. Lois Pantages, wife of the theatrical magnate, was convicted of manslaughter by a jury which heard her trial on a charge of second degree murder.

The jury of five women and seven men made no recommendation for leniency. The sentence for manslaughter is fixed by California law at from one to 10 years in the penitentiary. Three women jurors wept as the verdict was read.

Mrs. Pantages was charged following the death of a Japanese gardener, killed when their automobiles collided last June.

## Denies Dirigibles Are Obsolete

London, England.—Emphatic denials of the statements in London newspapers that the dirigibles now under construction for the British Government—the R-100 and the R-101—were obsolete, was made by Commander Sir Charles Burney, head of the Airship Guarantee Company which is building the R-100.

## Favors Canadian Flag

Nanaimo, B.C.—After debating for more than an hour, whether or not Canada had a distinct national flag of its own, the British Columbia School Trustees' Association decided that she had not, and that the proper authorities should be informed that the association favored a distinctive emblem.

There are only about 40,000 Eskimos in the entire Arctic.

W. N. U. 1805

## Colony For Doukhobors

Two Hundred and Fifty Members Of Sect Transferred From Jail To Colony In B.C.

Nelson, B.C.—Some 250 Doukhobor men, women and children who have been confined to the provincial jail here, were transported by the provincial police to Porto Rico.

Porto Rico is a former Christian community lumber camp which is situated some 15 miles south of Nelson. Last Friday when these Sons of Freedom were camping on the outskirts of the city, Peter Veregin offered this old camp site to the Doukhobors as a permanent habitat.

Starting early in the morning trucks and buses carried loads of prisoners from the jail to Porto Rico until 4 p.m., when all the Doukhobors had been safely landed. Each bus in addition to the prisoners, carried a couple of deputies to preserve order if necessary. This measure was not necessary.

When all had arrived at the camp it was noticeable that many of the Doukhobors directly started to pick out living quarters from among the camp buildings.

The majority of the buildings at the camp are windowless and doorless, and the more industrious of the Doukhobors began to repair their future homes to protect them against the cold nights that are setting in.

## Will Start In December

Preparations Almost Completed For Western Air Mail Service

Ottawa, Ont.—The western air mail service will be inaugurated early in December and the tentative date for the first flight has been set for the second week of the month.

This announcement follows the statement of the Department of National Defence that the radio and light beacons and the emergency landing fields will be installed and ready for use by December 1. The Post Office department is fully prepared to put on the service at that date, and the Western Canada Airways, it is understood, have completed preparation and should begin the flying end of the service on short notice.

The bi-weekly air mail service from Edmonton north along the Mackenzie River will begin earlier than the main service across the prairie provinces. This northerly service will commence as soon as the winter season sets in and the planes can use skis with safety.

## New Airway Mapped

London To Capetown Will Be Longest In World

London, England.—The longest airway in the world—an 8,000-mile route from London to the Cape—is to be inaugurated by the Imperial Airways early next year.

As a result of the great 20,000-mile aerial survey of Africa, made by Sir Alan and Lady Cobham in their big Short, Rolls-Royce flying boat, a route through the heart of tropical Africa, passing over deserts and jungles, has been mapped out.

Agreements have been made with the various governments concerned for supporting the air line, and preparations are now being completed for its opening. Passengers and mails will leave London every Saturday in a giant, triple-screw Armstrong-Siddeley air liner, and will arrive in Capetown nine days later, having flown by a combination of big air liners and all-metal flying boats.

## Discuss Coal Prices

English Mine Owners Consider Question For Canadian Trade

London, Eng.—A dozen large coal mine operators from various parts of the country met Rt. Hon. J. H. Thomas, at the treasury, to discuss the question of prices of coal for the Canadian trade. The minister for employment who has just returned from Canada pointed out the great possibilities of the Dominion for British exporters. It was stated the deputation was not officially representing the mining association of Great Britain, but it was noticed that Evan Williams, chairman of the association and W. Lee, its secretary, were among those present. No statement was issued immediately.

## CHAIRMAN OF ROYAL COMMISSION

Phillip D. Ross, proprietor of the Ottawa Citizen, has been appointed chairman of the royal commission, announced by Premier Ferguson, which will study the welfare needs of the province.

## Will Remain In Canada

No Truth In Rumor That Sir Henry Thornton Was Leaving

Ottawa.—Sir Henry Thornton will remain in Canada as president of the Canadian National Railways. Any doubt on this point was settled by Premier Mackenzie King, following a recent meeting of the cabinet. In the absence of Hon. C. A. Dunning, minister of railways, who is in the West, the Prime Minister was unable to say whether or not a renewal of Sir Henry Thornton's contract with the government had been signed.

There was no question, however, about Sir Henry remaining in Canada, the prime minister said.

Recently there have been rumors that the president of the Canadian National might go to England.

## Ban Religious Holidays

Soviets Dispense With All Religious Holidays, Including Sundays

Moscow.—All religious holidays, including Sundays, are abolished under the new 24 hour system of labor introduced throughout the Soviet Union. Workers are given one day of rest every five days.

The only holidays not abolished are October 25, anniversary of the October revolution; January 9, anniversary of Lenin's death, and May 1st and 2nd, international days of labor celebrations.

## Reparations Bank Shunned By League

Committee Withdraws Resolution To Establish Intimate Connection

The League of Nations will not seek, for the present, to establish close relationship between itself and the international reparations bank provided by the Young plan.

This became clear when a resolution envisaging the establishment of an intimate connection between the two was withdrawn from consideration in the Assembly's committee that deals with economic questions.

But its authors, Norway and Denmark, in withdrawing are believed to have gained part of their purpose.

Their move was interpreted in some quarters as a signal by the countries not concerned directly with reparations payments that they will not be greatly pleased if the proposed bank seeks to assume too dominant a function in the economic life of Europe.

## No Canadian Race

But Bureau Of Statistics Accepts "Nationality—Canadian"

Ottawa.—There is a Canadian nationality but no Canadian race, and any government form filled with nationality as "Canadian" is accepted, it was learned at the Dominion Bureau of Statistics.

Complaint was made in Toronto of a father who three times entered his child as Canadian and the form was returned, Ottawa being blamed. It is pointed out here that the vital statistics forms are made to the provincial authorities, and not to Ottawa.

If the form was returned because the new baby was termed Canadian, it must have been returned by the provincial authorities. The Bureau of Statistics accepts "Nationality—Canadian," but also seeks racial origin, which has nothing to do with nationality.

## New Zealand Showing More British Pictures

Quota Has Been Set By Regulations Of Government

Wellington, New Zealand.—A greater proportion of British moving pictures will be shown in New Zealand in the future, according to new government regulations. From October 1, exhibitors will be required to screen a fixed quota of British films.

The government says it has been assured ample supply of both the talking and silent films from British studios will be available during the coming year.

## Edison's Pupil Visits Canada

Walter Huston, Seattle boy who won the special prize donated by Robert Idelson, for research and inventive potentialities, was a visitor to Canada recently, when he took Canadian Pacific coast steamship "Princess Marguerite" in a round trip from his home city to Victoria and Vancouver, Huston who is likely to become a second Edison, will devote his life to scientific research, he says, following the example of his famous friend and mentor.

## LABOR PARTY IN ONTARIO HAS ENTERED LISTS

Toronto.—The Ontario Labor party officially entered the lists for the coming election when it issued as the first step of its campaign, a manifesto giving the following by way of a minimum program:

Unemployment insurance.

Extension of the public ownership principle.

A law to permit the election of police commissions.

A liquor referendum.

Compulsory public liability automobiles insurance.

Amendments to the Old Age Pension and Mothers' Allowance Acts.

The manifesto criticizes Premier G. Howard Ferguson, leader of the Conservative party, for bringing on an election "long before it was necessary to appeal to the country. Posing as an advocate of responsible government he has not thought fit to use the British method where the Premier announces on the floor of Parliament before the elected representatives of the nation that on a certain date an election will be held."

The Labor party has always stood for the discussion of the liquor problem free from party politics, says the manifesto. "It recognizes that the solution of the problem is the taking of the manufacture of liquor away from private capitalists. If there is to be government control, it must not only be control of the retail sale of liquor but also of its manufacture. It is therefore of the opinion that in a question like the liquor issue, where centuries of prejudice exist on both sides, that the question should be submitted to the people in the form of a referendum."

## Issue Interesting Report

Grain Commissioners Publish Baking Tests Of 1929 Flour

Winnipeg.—Low weight per bushel, lower flour yield, higher protein content; lower water absorption of the flour and excellent baking quality are features of a preliminary report on the milling and baking characteristics of western Canada's 1929 wheat crop, issued by Dr. F. J. Birchard, chief chemist to the Board of Grain Commissioners for Canada, and his assistant, T. R. Aiken.

Milling and baking tests conducted at the Dominion Grain Research Laboratory, in Winnipeg, indicate that, on the whole, the milling yield is inferior, but the baking quality, grade for grade, is fully equal to if not superior to that of last year, states Dr. Birchard, in the report. The effect of frost and immaturity is not a serious consideration as was the case last year; practically all the wheat is sound and mature, but each grade contains an increasing number of undeveloped kernels and consequently the weight per measured bushel would appear to be the chief factor in determining the grade.

## Tariff Board Application

Ottawa.—Initiation of investigations based on ten or more new applications will feature the first fall sittings of the tariff advisory board which will open on Tuesday, October 29. Chinaware, glassware, linoleums and wall papers are among the commodities that will come under review at the hearings, which will extend over two weeks.

## Birds Lured To Death

Toronto.—Lured by the brilliance of the beacon at Long Point, on Lake Erie, near Port Rowan, more than 800 song birds migrating to warmer climes for the winter, met death recently. Flying through a fog the birds were attracted by the bright light and dashed to death against the walls of the lighthouse.

## Exhibiting Canadian Pictures

Ottawa.—Four pictures from the National Gallery of Canada will be sent to London shortly as the Dominion's contribution to the exhibition of Italian art, which will be held at the Royal Academy early next year. The exhibition is to be one of the most comprehensive ever held, embracing Italian art from the 12th century to the present day.

## Local and Personal

**WHEAT STRAW FOR SALU**—\$1 a load at the Reclamation Farm.

**FOR RENT**—Two rooms for light housekeeping. Apply Arrowsmith Ranch, Creston.

**FOR SALE**—Saddle horse, 5 years old, will drive double, \$50. Harry Smith, Creston.

In the absence of Manager Forbes a Nelson at the end of the week D. L. Gilman of Kamloops was on the staff at the Bank of Commerce.

The Women's Institute have taken the evening of Friday, October 25th, for anniversary bridge whist.

Mrs. Reg. Harris and children left this week on a short holiday visit at her home in Lethbridge, Alberta.

Thanksgiving Day has been officially proclaimed for Monday, November 11th. This is also Armistice Day.

The ice cream season is over at Creston, W. Fraser closing down this department at Creston bakery yesterday.

Jos. Speers left last week for Cranbrook, where he is undergoing treatment in St. Eugene Hospital at present.

**FOR SALE**—Saddle pony, the best offer buys. Apply Putnam, Palmes & Staples sawmill, Creston. J. B. Winlaw.

**FOR SALE**—Young pigs, Chester Whites, healthy stock, ready October 7, \$5. J. W. Parkin (Alice Siding) Creston.

**LUMBER FOR SALE**—6 to 12 inches wide and 8-foot lengths. \$14 per thousand delivered. Monrad Wigen, Wynndel.

The new C.P.R. winter schedule that went into effect on Sunday makes no change in time of train arrivals at Creston.

Ernest Davis, who is training at the naval school near Seattle, was a visitor here this week with his aunt, Mrs. W. K. Brown.

Due to pressure on available space this week we are compelled to hold over till next issue a list of the prizewinners at fall fair.

Progress is being made with the erection of the Deisel engine which is to supply power for Creston's new electric light plant.

Dr. and Mrs. Lillie left on Tuesday on a two week's motor trip during which they will holiday at Spokane and Coeur D'Alene, Idaho.

**LOST**—Between Porthill and Kitchener leather hat band with metal Bull Durham tag in front. Reward to party leaving at Review Office.

**FOR SALE**—Coal or wood heater, good as new. Also Congoleum rug, 8 x 9 feet, almost new. A. Anderson, Victoria Avenue, Creston.

Real oldtime indian summer has been much in evidence the past week, and the orchardists are taking full advantage of it at apple picking.

The Community Players are re-organizing for the season at an annual meeting called for Tuesday night in the Bank of Commerce rooms.

Mr. and Mrs. W. Muirhead of Proctor, former residents of Creston, were here for the fall fair last week, guests of Mr. and Mrs. A. Comfort.

**LOST**—On September 26th, between Trinity Church and ranch, white gold bracelet wa. ch. Reward paid. Mrs. Fred K. Smith, Creston.

Donald Spiers, after an extended holiday with his parents, Mr. and Mrs. J. D. Spiers, returned to resume his position in Vancouver on Monday.

Wheat cutting was completed on the Reclamation Farm yesterday, but some threshing has yet to be done of wheat and flax that was cut by binder.

Mr. and Mrs. Weigand of Olds, Alberta, accompanied by Mr. Weigand, sr., were visitors with Mr. and Mrs. Morrison for a few days at the first of the week.

Rev. Philip Hayman will be here for the harvest thanksgiving service in Christ Church on Sunday evening at 7.30. He will also officiate at Lister at 11 a.m.

Rev. G. G. Webber, field secretary for the Lord's Day Alliance, was the speaker at the Presbyterian Church, on Sunday morning, and at Trinity United in the evening.

**TO WHOM IT MAY CONCERN:** This is to give notice that I will not be responsible for any debts contracted by Frank Miloux. EUGENE MILOUX, Creston.

Mrs. Rumsey and children of Cranbrook spent a few days here last week with her mother, Mrs. M. Young. They are to spend the winter on their ranch at Wynndel.

Rev. A. Garlick will be at Michel on Sunday, where he is taking the harvest thanksgiving services in the Anglican Church at that point, where he was formerly rector.

Creston Board of Trade has its October meeting on Tuesday night when it is expected the Roberts and McAvoy new hotel proposition will be submitted for consideration.

The Sacrament of the Lord's Supper will be observed at the Full Gospel Mission on Sunday. Services at 11 a.m. and 7.30 p.m. A message to Christians. Read 1 Cor. xi. 30.

**FOR SALE**—Jersey cow 3 years old, freshened July 18, and one veal calf ten weeks old, \$75. 1 Jersey heifer 17 months old, \$40. Will take \$100 for the three. E. A. Gross, Canyon.

Mrs. B. Richardson and children are leaving this week to spend the next few months with Mr. Richardson at Kimberley, and have leased their ranch at the north end for one year.

Due the annual conference of Kootenay and Boundary Women's Institutes taking place in Nelson next week, the October meeting of Creston Institute is changed to Friday, 18th.

**FOR SALE**—Blocks 66, 74, 75 and 76, containing 34 acres, half mile from Porthill on K. V. road; barn and other buildings on property, price \$300. Monrad Wigen, Wynndel.

A ditcher for use on the Lister domestic water system installation arrived at Creston at the end of the week, and has been taken out to construction, which got under way on Tuesday.

The Ladies' Guild of Christ Church are having a silver tea and sale of home cooking at the home of Mrs. F. H. Jackson on Saturday, October 12th from 3 to 5.30 p.m. Everybody welcome.

C. F. Hayes, D.D.G.M. of District No. 8, leaves this morning on an official visit to the Masonic Lodge at Fernie tonight, and is accompanied by Col. Mallandaine, Rev. A. Garlick and Hilton Young.

R. J. Forbes was a Nelson visitor on Saturday where he was attending a conference of Bank of Commerce managers in Kootenay-Boundary. At which was A. R. Rumsey western general manager of the bank.

Heartiest congratulations are extended Miss Phyllis Hamilton, who was one of

the seven nurses who graduated at the Kootenay Lake General hospital, Nelson, on Friday last, on completing the three years' training course. In addition to taking an excellent standing at practical nursing Miss. Hamilton also received three of the four medals given in special awards. These were for obstetrics, surgical nursing and the "Mat-eria Medica" medal.
