THE CRESTON REVIEW

VOL. XXI. CRESTON, B. C., FRIDAY, NOVEMBER 29, 1929 No. 39

Erickson

Mr. Sanford arrived on Wednesday from Champion, Alberta, and is a guest of his daughter, Mrs. Roy Telford.

Ray Crisler was a Cranbrook visitor on Wednesday, making the trip by motor and returning next day.

Miss Winnie Palfreyman arrived home on Thursday from Cranbrook, on a visit with her parents.

H. Speaker of Vancouver, who has been here for about a month on a visit with his brother, Fred Speaker, left for home on Friday.

Miss Charlotte Speaker, who has been on the Creston Fruit Exchange apple packing staff, left for Trail on Saturday.

Basil Pakenham arrived home on Tuesday from Cranbrook, where he underwent an operation for appendicitis, and is making a satisfactory recovery.

Miss Beth Putnam arrived home on Sunday after a few days' visit with Cranbrook friends.

Edward Martin, Jr., was a weekend visitor with friends in Yahk, arriving home on Tuesday.

W. V. Jackson returned last week from the Arrow Lakes district, where he has been for almost three months on Dominion fruit inspection work.

By a margin of 14 to 10 the Erickson-Creston badminton team triumphed over Yahk in a series of doubles played in the C.P.R. hall at that point oa Thursday night last. Those making the trip were Mr. and Mrs. C. W. Allan, Mr. and Mrs. Frank Staples, Mr. and Mrs. Roy Telford, Mr. and Mrs. W. R. Long, Miss Brown and Principal Stallwood. At the close of play a substantia lunch was served. The duty of expressing appreciation of the reception accorded the visitors devolved upon Mr. Allan, who did in splendid after-dinner form and with many original witticisms and graceful phrases acknowledged the open-handed hospitality, the delicious viands, splendid sportsmanship and real badminton talent displayed by the losers; closing with a kindly reference to the ezhibition of skill of a couple of the budding novices amonst the visitors.

Canyon City

REWARD—A substantial reward will be paid to anyone who will furnish information leading to the conviction of the party or parties who stole a wet battery from my Ford truck stored in barn on the Axel Bergrren ranch, Canyon, on or about November 15th, 1929. GUS. OBERG, Erickson.

The Farmers' Institute have their first meeting of the season at the hall on Saturday evening.

Axel-Berggren and Gordon Vance are about the only Canyon hunters who have had any luck with the deer so far this season. They have taken one each.

Canyon Trading Company have secured the building formerly used as a cookhouse by Canyon City Lumber Company, and are moving it into a site next to the community hall and will fit it up for a store.

Col. Mallandaine of Creston was here on Tuesday night when he delivered an address on "Early Days in East Kootenay," at the meeting of the young people's society that evening.

It is reported a compressor has just arrived and will be put to work next week widening out the rock cut on the Canyon side of the high level bridge.

Geo. Leach was a business visitor here from Spokane at the end of the week and durrng his stay leased his ranch to a German newcomer who has been living in Creston for the past month, and who has already taken possession.

At the annual meeting of Canyon Water Users Community on Saturday night, Jas. Turner and Jas. Bateman were elected to the vacancies on the board of management due the retiring of G. E. VanAckeran and T. R. Mawson. The two former along with F. Knott, H. Young and W. G. Wearmouth comprise the executive for this year.

Kitchener

Fritz Molander of Cranbrook was a weekend visitor with his parents in Kitchener.

Mr. Weir of Spokane has just arrived here and is to spend the winter on the Paulson ranch.

Mrs. E. Driffil was at Creston on Friday night for the L.O.B.A. bridge whist, and carried off first prize.

Mr. Geroux, who has been on the sick list, is now on the mend.

Marcel Senesael, who has been in Cranbrook hospital for some time, has returned home and is feeling real well.

Misses Harrop and Brown of Creston pnblic school teaching stafi were motor visitors to Kitchener on Sunday, and were guests of Miss McDonald.

Sirdar

Mrs. Arthur North returned on Monday after a very pleasant visit with Mrs. E. J. Brawn and other Cranbrook friends.

Jas. Wilson is a business visitor at Cranbrook and Kimberley this week.

M. P., and Tony Lombardo, Mr. and Mrs. S. Pascuzzo, Mrs. Talerico and Mrr. Parento were at Michel for the funeral of Mrs. Sam Lombardo.

Mr. Gillie was combining business with pleasure on a visit to Nelson on Friday.

Mrs. Snell and daughter, Thelma, of Cashmere, Wash., are visitors with Mr. and Mrs. Gillie this week.

Fr Choinel of Cranbrook was here for Roman Catholic Church service on Saturday morning.

N. Backus got back on Monday from a visit to Spokane.

Dominic and J. Lombardo of Revelstoke were visiting with their father, P. Lombardo, Sunday and Monday.

Sirdar was plunged into gloom on Monday, November 18th, when word arrived of the death of Mrs. Sam Lombardo, who died that morning at Michel. Complications that developed the day previous necessitated her removal to the hospital, where she passed away the day following. Deceased was quite a favorite in Sirdar, where she came as a bride last January. She always had a pleasant smile for everyone and will be missed by all. The sympathy of all goes out to the sorrowing husband and baby daughter who are left to mourn the loss of a fond wife and mother.

CARD OF THANKS

Mrs. Evans and family take this means of expressing a sincere appreciation of the sympathy and many kindnesses shown them in the death of their son and brother, Tommy Cannady.

FOR SALE—Lloyd baby carriage. Also first-step baby walker. Mrs. Geo. Mawson, Creston.

EGGS—We pay the highest market price for fresh graded eggs and make prompt payment. Webster's Table Supply Co., Kimberley.

Alice Siding

Miss Mary Barraclough of Calgary, Alberta, is a visitor here at present a guest of her sister, Mrs. T. Trevelyan.

Now that the rush of ranch work is over school attendance is back to normal, with an enrollment close to 30.

Amongst the lucky deer hunters during the week are Dick Smith and Jonah Brubacher who got a couple at Corn Creek, while Harry Webster and Edward Clark bagged a pair at Kuskanook.

R Stewart is busy this week putting a basement under the barn of the former Pendry place. He also plans improvements to the residence on the Churchill ranch which place he purchased about four years ago.

There were sounds of revelry by night at the R. Stewart ranch on Wednesday when a large gathering of friends and neighbors dropped in unexpectedly to help Mr. and Mrs. Stewart celebrate their golden wedding. We hope to have a full report of the celebration next week.

Tom Cannady Died Saturday

Accidental Gunshot Wound is Fatal After Ten-Day Fight to Save Young Life—Burial at Creston Cemetery, Tuesday.

After the gamest kind of fight for life over a period of ten days, death at an early hour on Saturday morning claimed Tom Cannady, at the hospital at Kellogg, Idaho, to which institution e was taken on November 13th, after being shot in mistake for a deer while out with a party of five others on a hunting expedition in the vicinity of Kellogg, the fatal bullet entering the back and finding lodgement in the liver.

The remains were brought to Creston arriving here on Sunday, and the funeral took place from Trinity United Church on Tuesday afternoon, with the pastor, Rev. R. E. Cribb, conducting the last sad rites at the church and Crestrn cemetary, where interment took place, with William Carrigan, James H. Cunningham, and Earnest Wilson of Kellogg; and Douglas Speirs, Mike Haptonstall and Jack O'Neil officiating as pallbearers, with many friends of the bereaved out to pay a last tribute of respect, and many floral rememberances both from Kellogg, Creston and other points bearing mute testimony to the esteem in which deceased and family are held.

The late Tommy Cannady, who had but reached his sixteenth year, was the youngest son of Mrs. A. Stuart Evans of Camp Lister, and came with his mother and brothers and sisters to reside in Creston about eight years ago. He was a boy everyone liked and his untimely death on the threshold of young manhood cuts off a youth of much promise To mourn his passing he leaves mother; three sisters, Mrs. Ed. Gardener of Creston; Mrs. Martin Byrnes of Allenby; and Leah at home; and two brothers, Dowd and Sherman, both of Kellogg, all of whom were here for the funeral, and to whom is extended the sympathy of all. Others from outside points who were here for the burial were B. R. McMullen of Barnwell, Alberta, and Mr. and Mrs. Tom McMullen of Granum, Alberta, two brothers of Mrs. Evans; and William Carrigan, Jas. Cunningham, Ernest and Miss Wilson and Mr. and Mrs. Walter Leamy of Kellogg.

Those sending flowers were: Mother, Cannady family, Mr. and Mrs. Edward Gardener, Mrs. Arrowsmith and Effie, Mr. and Mrs. J. D. Speirs, Mr. and Mrs. Jas. Davis; B. R. McMullin and family, Barnwell; Mr. and Mrs. Tom McMullin, Granum; and from Kellogg flowers were sent by Kellogg Furniture Company. Mr. and Mrs. W. B. Scrafford, Mr. and Mrs. Andy Houge, Mr. and Mrs. Walter Leamy, L. C Wilson, George Newsome, Ted Wruble, Claude Bennett, Wm. Carrigan, J. H. Cunningham, Paul Crawford.

Local and Personal

FOR SALE— Light dray. Enquire at Review Office.

FOR SALE—Singer sewing machine, good as new. Mrs. J. E. Hayden, Creston.

Full Gospel Mission services: Tuesday and Friday at 8 p.m. Sundays at 11 a.m. and 7.30 p.m.

CABBAGE—For sale cabbage, good stuff, $4 per 100 pounds, delivered in the village. Foot, Fairview ranch, Creston.

CUTTER FORSALE—Portland cutter with pole or shafts, good as new. Will take any reasonable offer. Bert Boffey, Creston.

TURKEYS FOR SALE—Selling pure-bred Mammoth Bronze Turkeys, well grown, healthy birds. Toms $7, hens $5.50. Mrs. J. C. Martin (Alice Siding) Creston.

An auction sale of the furniture and effects of the late John T. Elstone is announced for tomorrow morning at 10 at his late ranch (the former Gibbs place) near the cemetery. Terms are cash.

Miss "Peggy" Blinco was taken to St. Eugene hospital on Thursday morning, where she is to undergo an operation for appendicitis. Her condition was rather critical and she was motored to Cranbrook by Dr. Henderson.

Creston Orange Lodge elected officers for the ensuing year at the November meeting on Thursday night last, and the following will be in charge of affairs for the next twelve months:

I.P.M.—John Spratt.
W.M.—John Sherwood.
D. M.—L. Moberg.
Chap.—M. Samuelson.
R. S.—H. Tooze.
F.S.—Jas. Downes
Marshal—Arvid Samuelson.
Lecturers—E. Olsen, J. Spratt.

Installation of officers will take blace at the regular meeting in December.

Crestonites will be much interested in the announcement that came last week of the wedding at Edmonton, Alberta, earlier in the month of Miss Lily May, daughter of Mrs. Jos. Wilson of Olds, Alberta, and formerly of Creston, to Warden Browitt of Vegreville, Alberta. The ceremony was performed in All Saints Pro Cathedral by Canon Cornish. After a few days visit in Edmonton the young couple returned to Vegrevill, where they are to reside. The bride has a host of friends in Creston and vicinity who will extend heartiest good wishes to Mr. and Mrs. Browitt.

Commendable community spirit and excellent hospitality were happily combined on Monday night when friends and neighbors of Mrs. Truscott, sr., to the number of about 25 gathered at her home for a farewell party and presentation prior to her leaving on a holiday visit with her sons and grandchildren at prairie points. A feature of the evening was the presentation of a travelling bag from her friends which was presented by her grandsons, Donald and Louis Truscott, with T. Goodwin making a timely presentation address, which was gracefully acknowledged by the recipient. A very happy evening, indeed, was spent with music, games chat, and an appetizint midnight lunch.

Wynndel

Rev. A. Garlick, Anglican rector at Creston, was a visitor in the Wynndel district a few days last week.

Mrs. Dolbom, Mrs. Rudd and G. Ruda were auto visitors to Bellvue, Alberta, laat week.

G. Payette, who has been working at Boswell, returned home last week.

Ole Ringheim was a business visitor at Nelson last week.

Miss G. Mackie of Boswell was a visitor here for a few days, a guest of Mrs. R. Andestad.

Birth—On November 16th, at Nelson to Mr. and Mrs. VanKougnet, a son.

Father Choinel of Cranbrook was here for Roman Catholic Church service one morning last week.

The Women's Auxiliary dance on Saturday evening was quite a success. The elimination waltz was won by Miss E. Lunt und A. Andestad. The novelty dance was won by Mr. and Mrs. Cherryblossom. The picture was won by Mrs. M. Hagen. The cash intake at the dance was about $44.

At Butterfield's store there's now on view
—too numerous to mention,
Articles beautiful, useful and new—for Christmas presentation.
Don't go elsewhere till you have been and taken a look at what's there to be seen—
At the WYNNDEL "BON MARCHE."

Progress at Wynndel

Everyone knows about the steady progress of the Co-Operative Fruit Growers Association at Wynndel from the days of very small things to its present prominent position amongst co-operative selling agenciss in British Columbia. But everyone is not so well acquainted with the continued steady development of Butterfield's store, now known as the Wynndel "Bon Marche." From the time, some 15 years ago, when E. Butterfield started storekeeping in what was little more than a big cupboard, with a couple of boards on some boxes for a counter, and a small stock of staples amounting to about $50, until the present time when he is carrying a stock of about $4000, of a most varied description—from a pin to a pickaxe; from a package of cereal to a stock of flour and feed of approximately $1000. From its small beginning to the present time Mr. Butterfield's great ambition has been to serve the community he lives in to the best of his ability—to offer them the best merchandise at the lowest possible price and all wish him continued success in his efforts to cater to the requirements of the people of Wynndel.

FOR SALE—Buggy, cutter, and one Lloyd baby carriage. All in good condition, Walter V. Jackson, Box 53, Creston.

PIPE FOR SALE—About 1500 feet one-inch galvanized and iron pipe. Best offer accepted. Geo. Davie, Canyon.

WORLD HAPPENINGS BRIEFLY TOLD

Announcement is made by the minister of National Revenue, Hon. W. D. Euler, of the coming into effect of the trade treaty between Canada and the Baltic Republic of Latvia.

The British Government will establish agricultural schools to train idle coal miners to be farmers, preparatory to their migration to the Dominion to settle upon free land.

Lord Sailsham, Lord Chancellor of Great Britain, heads the nineteen delegates from Westminster on the trans-Canada tour of the British Empire Parliamentary Association.

Plans under consideration of the New York Central Railroad call for the co-operation of the Canadian Pacific Railway in establishing air mail routes between Minneapolis, St. Paul and Winnipeg via Duluth.

Miss Amelia Earhart, the first woman to fly the Atlantic ocean, has sent a cheque for $1,500 to Commander Richard E. Byrd as her contribution toward the Byrd Antarctic expedition.

Believing that Alfred Lowenstein might have been poisoned, the family of the dead man has requested permission to file suit charging an unnamed persoon with poisoning Lowenstein, in the event traces of poison are found in the body.

Sir Austen Chamberlain, foreign secretary, announced in the House of Commons that Great Britain had reached a compromise with France over the naval disarmament question which would be submitted to the other naval powers and eventually to a disarmament conference.

The cabinet council has confirmed the appointment of the commission to enquire into the return of the natural resources of Manitoba to the province. The personel will be Mr. Justice Turgeon, supreme judge of the Saskatchewan court of appeal; Hon. T. A. Crerar, and C. M. Bowman of Waterloo, Ont.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

Seeking Information

A witness was being examined. "My Lord," he said, "you can believe my statement, for what I have said is absolutely correct. I've been wedded to truth since my childhood."

"Quite possible," replied the Judge, "but what the court wants to know is how long have you been a widower."

Stings and Bites.

The pain of insect bites disappears quickly with the application of **Minard's**. Try a bottle.

Modernizing E.P. Ranch

Electric Plants Furnish Light and Pump Water For Ranch Buildings

The ranch of H.R.H. the Prince of Wales, has been electrificd. Two large individual electric plants, of the type used by thousands of Canadian farmers, were installed recently on the E.P. ranch, completely electrifying the many buildings which form a small city on the farmstead. Two electric residence water systems were also installed to supply drinking water, so that kerosene lamps and water from a pump are as rare at the ranch house as they are in the Prince's home in London.

Stabilizing Easter

Hoped That International Agreement Will Be Reached For Fixed Dates

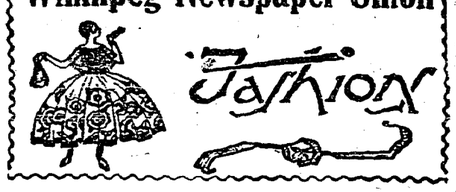
The measure stablizing Easter in Great Britain and Northern Ireland, given third reading in the House of Lords recently, will not be effective until an international agreement has been reached, it is stated.

The bill provides for observance of Easter on the Sunday after the second Saturday in April, instead of determining the date by the phases of the moon.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates They cannot possibly do harm—they nor narcotics or other harmful drugs. always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Winnipeg Newspaper Union



A Chic Frock For the Junior Miss

The little one-piece frock shown here is a smart and practical style for all daytime wear. The skirt has an inverted plait in the centre front, and the sleeves are long and gathered to narrow wrist-bands, or short and finished with shaped cuffs. A note of contrast may be introduced in the shaped collar and set-under vestee, and the belt fastens with a buckle in front. No. 1808 is in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2½ yards 32-inch, or 2⅛ yards 39-inch material, and 1-3 yard 39-inch contrasting (cut crosswise). Price 25 cents the pattern.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

We bade London an early farewell, being on the way to Cambridge by 8.30 a.m., passing through Waltham Cross with its Abbey of the Holy Cross, re-founded by King Harold, in 1060, Cheshunt, which was invaded by the Danes in 893, and Epping Forest, the former royal game preserve, which is now the Londoner's favorite playground.

It would be impossible to describe the charm of the colleges of Cambridge University, its peaceful setting among the wonderful lawns through which runs the River Cam, or the beauty of the time-worn masonry. Nor could one hope to convey the sense of atmosphere that time has given to this ancient seat of learning, something of which we caught even in our hurried trip through the grounds. Fortunately, we had the opportunity of visiting King's College Chapel. The towering vaulted roof of this poem in stone, the softened light mellowing through the stained glass windows, the dim shadows, the beauty of the organ poised high in the centre of this noble building, spoke to heart and mind, and soul, of man's aspiration to Divine things. King's College Chapel is acoustically, as well as architecturally, marvellous; an anthem heard in it is unforgetable.

Proceeding to Caius College we had lunch in the dining hall, the Vice-Chancellor, Dr. Weeks, sitting at the head of the table. Again we felt the sense of privilege, of "atmosphere," for surrounding us were portraits of some of the famous men of Caius, dating from the Middle Ages, visible evidence of her continuity with an illustrious past.

A delightful luncheon was followed by an address of welcome from the Vice-Chancellor, and a short talk from Sir Ernest Rutherford, whom some of us remembered as a one-time professor at McGill University.

Repairing to one of the lecture halls of the Animal Nutrition Institute, we listened to Professor T. B. Wood, General Director and Director of the Chemical Section, who described the work of the Institute and some of the experiments which had been conducted with a view to finding standard maintenance rations for hogs, cattle, horses and poultry.

Professor Sir R. H. Biffen, Director of the Plant Breeding Institute, then discussed the experiments which had led to the production of Yeoman Wheat, a wheat of high yield and possessing some of the qualities of the harder wheats of Canada.

Visiting the Forestry Section, we saw specimens of our own Douglas Fir, Bird's-eye Maple, Canadian Poplar and one of the finest specimens of English oak panelling in the world.

The calorimeter with a hog inside it, the chemistry room and the Low Temperature Station were examined. This last was full of interest to us. Here meat hanging experiments and tests for discovering the best methods of carrying apples and rabbits in low temperatures were being conducted. These and the work of the station were explained by Sir William Hardy at a meeting in the University Arms Hotel, after which undergraduates entertained us to a musical programme.

The itinerary for the following day provided for a visit to one of the most remarkable concerns in the world, Chivers & Sons, Ltd., of Histon. Fifty years ago Chivers were orchardists, selling fresh fruits on the London and Bradford markets, but a glut which forced them to sell to the jam manufacturers, changed their whole policy. They determined that they would themselves make jams. They enlarged their orchards. Insect pests led them to keep poultry. The failure of hens to keep down the orchard pests induced them to add ducks. Then they went on to cattle, pigs, sheep and bees. Today Chivers farm 6,000 acres of land and raise annually 12,000 chicks, 6,000 ducks, and 2,000 pigs. Histon cattle have won four championships, one reserve, seven firsts and four second prizes at the last Royal Show of England, and five championships were included among the awards won by Chivers at the 1925 and 1926 Royal Shows. They have been no less successful with their Yorkshires and Middle Whites in winning championship awards. They also keep Suffolk sheep and Percherons.

It was our pleasure to spend half a day inspecting as much of the farms and orchards as could be covered in that time. Among the animals we saw was Histon Wild Queen, champion of the Royal Show, whose average milk yield with her first five calves was 11,064 lbs. The Histon Dairy Shorthorn herd is a genuinely dual purpose herd. Many of the cows exceed 1,000 gallons annually. There is also a Lincoln Red shorthorn herd of 150 females. Their Yorkshires and Middle Whites are the most outstanding to be found anywhere and it was an inspiration to see the remarkable size, smoothness and finish of these animals.

But famous as the concern is as a farming organization, it is the combination of farming, manufacturing and marketing which makes this firm unique. From Chivers factory a whole trainload of goods leaves every day. The factory is the last word in efficiency. The pans in which the fruit is boiled are lined with silver. Jam jars are filled by machines at the rate of 150 to 200 jars per machine per minute. Miniature trains carry the products from department to department. Everything is kept moving. Not a moment is lost, yet there is no hurry, while the workers were evidently contented and happy, thanks to the personal interest that is taken in their welfare and the institution of co-partnership and profit-sharing. What a contrast from the little barn, still standing, in which the first boiling was made.

Before leaving we were entertained to tea in the company's dining hall, when Mr. J. R. Chivers and Mr. W. B. Chivers told us something of the history of their famous firm and presented every one of us with two tiny jars of jam, exactly like those which were specially made for the Queen's Doll's House, exhibited at the Great Wembley Exhibition, in 1924. These little jars of jam are the smallest in the world.

No finer lesson in the marketing of farm products, and for that matter in the growing of them, could have been given to a party of farmers or more pleasure afforded us in the learning of it.

(To Be Continued.)

SUNDAY SCHOOL LESSON

AUGUST 12

THE COUNCIL AT JERUSALEM

Golden Text:—If therefore the Son shall make you free, ye shall be free indeed."—John 8.36.

Lesson: Acts 15.1-35; Galatians 5. 1-15.

Devotional Reading: Psalm 133.

Explanations and Comments

Trouble-Makers From Jerusalem, verse 1. Jewish synagogues were composed of Jews and proselytes, the latter being Gentiles who had received the Jewish rite of circumcision. Other Gentiles who attended the synagogue services were called "God-fearing" or "devout," but were not in "full fellowship" with the rest because they had not been circumcised. We have seen how Paul and Barnabas preached to the Gentiles and founded churches among them at Pisidian, Antioch, Lystra, Iconium and Derbe on his first missionary journey, and how he reported to the church at Antioch of Syria, the church which had sent them on their mission, that "God had opened a door of faith unto the Gentiles." The church at Antioch, itself composed largely of Gentiles, rejoiced over the good news, and did not realize the far-reaching effect of this new departure. When the report reached the church at Jerusalem, however, it was not so welcome. In fact, it aroused violent opposition. "Certain members" of that church, upon their own responsibility, went from Jerusalem to Antioch and declared there that Gentiles must first become Jewish proselytes before they could become Christians—must be "circumcised after the custom of Moses" in order to be "saved."

For their stand there is much to be said. The rite had been observed since the days of Abraham, and no law abrogating it had been voiced. Who had authority to declare it unnecessary? What right had Paul to adopt his revolutionary procedure and say that "Circumcision is nothing and uncircumcision is nothing?" Paul had the right of a revelation from God, a revelation shown, not by vision nor by word of prophet, but by results which proved God's will and purpose. God had borne the Gentiles witness, giving them the Holy Spirit even as He did unto the Jews; and he had made no distinction between Jews and Gentiles, cleansing their hearts by faith. God's will is shown in His ways with men as well as through His words to men.

"The Jews of the first century eschew the Gentiles, but we of the twentieth century, eschew the Jews. They were wrong, and so are we."—George W. McDaniel.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Eclectric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Wanted the Usual Bonus

"MacGregor," said the butcher to the thrifty one, who was planning to make an exit from the neighborhood, "I have every reason to believe that you will nver pay me the amount due. It would be very foolish of me to sue you and you have nothing of value that I care to attach. I'll just give you a receipt and call it paid in full."

"That's awfully nice of you," said Mac.

A few moments later the merchant noticed that Mac was still resting his pedantic extremities in the store.

"Was there somthing you wished to speak to me about?" asked the merchant.

"Well, not exactly. But isn't it customary to give a fellow a cigar when his account's been settled?"

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueller pangs of colic, or constipation, or diarrhea; effective, too, for older children. **Twenty-five million bottles were bought last year.**

Fletcher's CASTORIA

Sees Good Market In Canada

Great Britain Waking Up To the Importance Of Canada As Trade Centre

"In the past two years the British manufacturer has been waking up to the importance of Canada as a trade centre, and for this reason the Overseas Trade Department is reorganizing and improving its system in this country in an effort to bring the necessary facts before the manufacturers of the Old Country," said W. J. Glenny, Inspector General for the organization in question, upon his arrival in Montreal. "We are not here to wave the flag, and ask Canadians to buy British goods merely because they are under the Union Jack, but we want to create an organization here that will enable the manufacturer in England to become acquainted with the problems and requirements of Canadian importers," he stated.

Raise English Pheasants

Experiment Is Being Made To Introduce Game Bird In Saskatchewan

An attempt is being made in the Alsask and Loverna districts in Saskatchewan, to raise English pheasants of the ring-necked variety. It is not many years since Hungarian partridge was introduced into Western Canada. The experiment will take take some years, it is said, and if successful will furnish an added attraction for bird hunters.

SUMMER COMPLAINT

Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

BRITISH MINERS COMING TO ASSIST WITH HARVEST

London.—Arrangements have been finally concluded for 10,000 men to go from Britain to Canada to assist in this year's harvest, stated Rt. Hon. L. C. M. S. Amery, Secretary for the Dominions, in the House of Commons.

The Dominion Government especially wished that the men be recruited from the mining areas and the British Government would carry out these wishes, the minister said. He concluded amid cheers:

"The British Government is greatly indebted to the Canadian government for the readiness with which they co-operated in this arrangement."

Ottawa.—The Canadian Government is not assuming any financial responsibility for the movement of the British harvesters either coming or going, it was stated at the immigration department recently. The department, however, has expressed its willingness to co-operate in every possible way in placing men who wish to stay in Canada after the harvest is over.

Under the arrangement reached, men who wish to return will have the benefit of the reduced rate they paid westward. But it is assumed that most of them will wish to remain in Canada, and the problem will then arise of their absorption without increasing winter unemployment in the cities.

Mine Workmen Killed In Ontario Accident

Crushed By Falling Steel Gate On Welland Canal

St. Catharines, Ont.—The crash of the steel gate of lock number six of the new Welland Canal, at Thorold, Ont., caused the deaths of at least nine workmen and injuries, some of which have proved serious, to about 30 others. About 40 workmen were in the vicinity of the lock when the disaster occurred, and none is believed to have escaped death or injury.

The accident was caused by the boom of one of the cranes slipping when an effort was being made to raise a huge 500-ton steel gate into place on the West side of the lock. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held but the boom of the crane at the lower end slipped.

The huge gate crashed into the steel gate fabric at the east of the lock and smashing the steel work fell to the bottom of the lock, crushing the workmen as it fell.

Must Keep Arctic Rescue Films

Moscow.—The Russian relief committee approved recently the refusal of aviator Chukhnovsky, of the Russian ice-breaker Krassin, to hand over to General Umberto Nobile films he took when he sighted two men of the dirigible Italia on the ice off Northeast Land. In refusing to give Nobile the originals of the film, the relief committee said Chukhnovsky was right, for he had been ordered strictly as had been other Russian rescuers, to retain all material and data gathered.

Death Of Mrs. W. S. Fielding

Ottawa.—Mrs. Hester Fielding, wife of Right Hon. W. S. Fielding, former Canadian minister of finance, one of the capital's most distinguished women in social and philanthropic circles, died at the family residence here. She had been failing in health for nearly four years and had been almost entirely confined to her home throughout that period. Mrs. Fielding was soon to have celebrated her 80th birthday.

On Way To Far East

Montreal.—His Royal Highness, Prince George, the King's youngest son, will arrive in Quebec City on August 16, aboard the Empress of Australia. Prince George is on his way to the far east where he is going to join the China flagship. From Quebec he will journey by train to Vancouver.

W. N. U. 1745

Crowds Welcome Nobile Party

Meet Train At Every Stop In Italian Territory

Rome.—"Viva Nobile!" was the slogan of Italy as countrymen of the Polar explorer welcomed him and five other survivors of the dirigible Italia to their homeland.

Enormous crowds met the train at each stop in Italian territory, showering the returning explorers with flowers and gifts of wine, and shaking rafters of railway stations with their roars of encouragement.

The demonstrations constituted a veritable march of triumph from the northern frontier.

Premier Mussolini sent the prefect of Bolzano to welcome Nobile and his men at the Brenner pass in the name of Fascist Italy. There also were striking demonstrations at Rento, Verona, Bologna and Florence.

Lieut. Alfredo Viglieri, navigator of the dirigible Italia, who was in command of the red tent encampment on the ice after Nobile himself was rescued, was the centre of demonstration all his own. He left the train soon after passing the frontier and went to his home in the little town of Borghetto Santo Spirito. En route, however, he had to stop at Milan, where the prefect and an enormous crowd welcomed him.

The crowd shouted "Viva Viglieri!" and "Viva Nobile!" and added: "Down with the jackals of the anti-Italian press!"

Grant For Class "B" Fairs

Will Receive Same Assistance From Government As Given Last Year

Ottawa.—It has been decided by the government that class "B" fairs will receive the same grant in 1928 as they did in 1927. This was stated by Dr. J. H. Grisdale, deputy minister of agriculture, when asked respecting a report that the government was contemplating giving these fairs some measure of assistance.

During the last session of Parliament no appropriation was made for the class "B" fairs as had hitherto been done, the entire government grant in this connection going to the class "A" expositions. Considerable opposition to this has developed among the farmer element of the House of Commons and the agricultural estimates were subjected to severe criticism on this account both by friends and opponents of the government.

The deputy minister's announcement restores the former status of the class "B" fairs for the current year.

Scores Double Victory

Vancouver Boy Wins Twice In Olympic Sprinting Event

Amsterdam.—Percy Williams, of Vancouver, sent the Canadian flag to the top of the Olympic pole for the second time in three days, in token of a world victory in the Olympic games. The youthful sprinting marvel won the 200 metres final against some of the finest and most experienced sprinters in the world, including Jackson Scholz, of the U.S., the title holder. Williams is the Olympic champion at 100 and 200 metres, the first double sprint winner in the Olympiad of 1928.

Fire-Eater Burned

London, Ont.—Essaying to entertain a few companions by igniting with a match a mouthful of gasoline, Alex Johnstone, young Irish farm hand, was badly burned about the head, chest and arms when the liquid lighted too suddenly. He was blowing the gasoline toward the match flame when the liquid ignited.

Law Suits Total Millions

Budapest, Hungary.—Lawsuits totalling $300,000,000 have been instituted in the international tribunal at The Hague against the Jugo-Slavian Government by the former Archduke Frederick of Austria and 25 others. The suits are based upon confiscation of property. Frederick claims a loss of $17,000,000.

Kellogg Going To Paris

Paris.—Secretary of State, Frank B. Kellogg, has sent word to M. Briand, Foreign Minister, that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France, on August 18.

HEADS RETAIL MERCHANTS ASSOCIATION

J. T. Crowder, Toronto, was re-elected president of the Retail Merchants' Association of Canada at Regina. He was elected over J. E. Sansregret, Montreal, who was vice-president last year.

Ottawa Crowds Greet Lieut. Desmond Burke

Rousing Welcome Given To Member Of Bisley Team

Ottawa.—With the plaudits of his fellow citizens ringing in his ears, Lieut. Desmond Burke, of the Governor-General's Foot Guards, who at the Bisley meet in 1924, won the King's Medal, and this year came within one point of duplicating the feat, came home.

He was accorded a spontaneous welcome by large crowds which thronged the central station, blockaded his entrance and stretched several blocks along nearby streets. Among those on the platform to welcome him in addition to his parents and relatives, were Premier Mackenzie King, Mayor Arthur Ellis, and members of the board of control and the city council.

Plans Visit To Canada

Bisley Winner May Take Part In Dominion Rifle Meet

Montreal.—Arthur C. Hale, winner of the King's Prize at Bisley this year, is coming to Canada according to the eight members of Canada's 1928 Bisley rifle team, who arrived here from England. Hale, a 23-year-old gunsmith, of Birmingham, intends it is said, to take part in the Dominion Rifle meet at Ottawa. He has been shooting eight years. His father and brother are crack shots. It is understood that six members of the Australian team also will come to Canada for the same meet.

Initial Pool Payment

Statement Made That Payment On Current Year's Crop Will Be Same As Last

Saskatoon.—The initial payment by the Wheat Pool on the current year's crop will be the same as last year, according to B. Catton, of the Central Selling Agency, representatives of district nine of the Saskatchewan Pool. This means that the first payment on No. 1 Northern wheat delivered at Fort William will be one dollar per bushel; 97 cents for No. 2; and 92 for No. 3.

Despite the fall that wheat has taken in price during the past few weeks, the pool is not worrying, Mr. Catton stated, and it has every hope of marketing the crop to advantage. Discussing the cut-off date that is in demand by so many farmers, he said that he was not in favor of it except in the exceptional circumstances of wheat falling to such a low level that the non-pool farmer, sensing the opportunity to better himself by joining the pool, attempted to come in at the last moment.

Fewer Leaving Canada For United States

Figures For Year Just Closed Show 11,448 Less

Montreal.—Emigration from Canada into United States along the eastern section of the boundary decreased in substantial manner during the fiscal year ending June 30, 1928. Figures for the year are announced by H. R. Landis, United States Commissioner of Immigration at Montreal, head of District No. 1, which extends from Halifax to Kingston. In this district, which roughly covers the eastern boundary, emigrants admitted to the United States from Canada for permanent residence totalled 34,383 during 12 months ending June 30, 1928. For the previous year the total was 45,831 emigrants, or 11,448 more than in the year just closed.

Civil Service Council

Hon. Peter Heenan Wants Representatives To Meet the Government

Ottawa, Ont.—Hon. Peter Heenan, minister of labor, stated that he is issuing invitations to civil service organizations to select representatives to meet with the government in order to draft a constitution for a national civil service council. This action is in line with the report of the select standing committee on industrial and international relations, which devoted some considerable time during the recent parliamentary session to this matter. The minister has left the capital for Winnipeg.

Master "Kawin" and Miss "Nichin," photographed near the Windsor Station in Montreal with their mistress, Mrs. E. Roncarelli, who is having them sent to Italy for presentation to Marquis de Pinedo, the famous Italian round-the-world flier. They form a "No Good" combination. "Kawin" meaning "No," and "Nichin" meaning "Good," in Indian dialect. Needless to say, the latter is the lady bear cub with a sunny disposition, and the former a young gentleman with a rather bad temper at times. They were obtained by the General Tourist Department of the Canadian Pacific Railway from Fred. Arnott, who captured them in the Lake Temiskaming district. The two bear cubs are being sent over to Italy, where they will be met by de Pinedo in his plane, and flown to their new home.

C. P. R. REVISED BRANCH LINE HAS BEEN SANCTIONED

Ottawa.—The Board of Railway Commissioners has handed down a judgment approving the route map showing the revised general location of the Canadian Pacific Railway's Swift Current Northwesterly branch, which projects northwesterly in a direction which, it is intended, will ultimately have as its terminus, Willingdon, Alta.

In delivering the judgment, Hon. H. A. McKeown, chief commissioner, details the history of the construction of the company's branch lines, and notes the objection of the counsel of the Canadian National Railways that this would be really an extension of the Cutknife-Whitford Lake branch, from which, the National lines contend, the Canadian Pacific has not obtained parliamentary authority. Counsel for the Canadian National advanced that the terminus of the Cutknife-Whitford Lake line was at Willingdon and that the road to Strathcona could not be built as an extension of this branch.

It was further argued that the Swift Current Northwesterly branch was originally projected from Swift Current to Edmonton via Empress, Cereal, Coronation, Chaton and Camrose. Of this only the portions between Swift Current and Empress, and Coronation and Lorraine had been built.

A revision of the Canadian Pacific Railway Company's plan was acceded to in 1919, and the Canadian National contends that the rival company is taking advantage of this nine-year-old revision to extend the Cutknife-Whitford Lake line from Willingdon to Edmonton. Exception is taken on the ground that this is an extension of a branch line already constructed.

The chief commissioner reviewed the matter of branch line construction and recommended the diversions asked for.

All-Canadian Phone Service

Gap Between Sudbury and Fort William Has Been Bridged

Toronto.—An all Canadian telephone line linking Ontario and Quebec with the Twin Cities at the head of the lake and Manitoba was officialy opened and the necessity of switching calls through the U.S. will thereafter be eliminated.

The Canadian Pacific Railway, Bell Telephone Co., Manitoba Government Telephone system and the municipal systms of Fort William and Port Arthur co-operated in the all Red route.

The gap to be bridged was the sparsely populated section between Sudbury and Fort William, and the connection between existing long distance telephone systems was made via the C.P.R. right-of-way.

Message From Lost Aviators

Note Found In Bottle Signed By Names Of Elsie Mackay and Capt. Hinchcliffe

London, Eng.—A bottle washed up on the shore near Flint, North Wales, Tuesday, contained a note on which was written, "Goodbye all." Beneath the brief message was signed the names Elsie Mackay and Captain Hinchcliffe, and beneath the names the words "Down in fog and storm."

Held For Obregon's Death

Mexico City.—Sister Conception Acebdo de la Lata, 32, is under arrest charged with having induced Jose Toral to assassinate General Alvaro Obregon. She is quoted by newspapers as saying: "I hope to be executed. I want to be punished." She did not admit influencing Toral to kill Obregon, but added: "God must have wanted, otherwise He would not have permitted the crime."

No Car Shortage For Crops

Winnipeg.—There is no shortage of cars for handling of this year's grain crop, the railway association of Canada has announced, but there was every possibility that the harvest will be the heaviest in years and all of the 80,000 cars now in Western Canada, probably will be needed

CRESTON, B.C., FRIDAY, NOV 29

Review Editorials Effective

Again we rise to remark that Review editorials get results occasionally. Lest ye forget let us remind that this paper was the only one in the Kootenays to jump into the fight that the fruit growers made to have commissioner W. Sanford Evans extend his enquiry to cover the Kootenays which he eventually did.

And hardly more than a month ago we argued that the heavy rock formation that obstructs the view of autorists on the Canyon side of the high level bridge should have attention, and this week we are informed that a compressor has been shipped in and the first job it will be put at will be to rectify matters at this rather dangerous point on the highway as demanded by the Review.

The Hard Winter of 1930

Householders who have not given their water pipes cold-weather consideration, as well as those who are fignring up fuel costs for the next four or five months, will be well advised to be prepared for the worst, or at leat something on a par with last winter.

According to F. Napier Denison, in charge of the observatory in Victoria, we are to experience a winter as cold, or colder, than its immediate predecessor. And Mr. Denison's opinion is worthy of serious attention, as it was he who predicted that the summer of 1929 would be the hottest and dryest on record. The bible says something about all signs failing in adry season, and it is devoutly hoped that holy writ will be vindicated in this particular instance. Local orchards are not in shape to stand a repeat of last winter's temperatures unless the Valley is speedily favored with a heavy blanket of snow.

Abandon Income School Tax

One good thing was accomplished at the big Tory party conference at Kamloops on Saturday. By a very considerable majority those present decided the government should have nothing to do with Hon. Joshua Hincliffe's impossible proposition to do away with levies on land and substitute a tax of one half of one per cent. on all incomes to provide the necessary revenues to carry on the educational affairs of the province.

The one great big drawback to the new idea is the utter impossibility of collecting income taxes. In the dominion the income tax is so successfully evaded that today just about 98 per cent. of those in receipt of income either don't make returns, or have evolved a system of bookkeeping that enables them to escape income tax payment.

LETTERS TO THE EDITOR

About Plebiscites

Editor Review:

Sir,—What with being village commissioner such a thankless job, and with so few citizens willing to serve on the council, it is probably just as well that such little public criticism has been heard of the work of the present board of village governors, but, Mr. Editor, after reading the report of the November council meeting, I just can't refrain from breaking into print to express my surprise at the action the commissioners took in connection with the public library. Not that the move they made is unsatisfactory, but rather that such action is entirely at variance with the stand they took earilier in the year in connection with Mr. Amon's electric light franchise.

At the time this 20-year franchise was under consideration I discussed the reasonableness of submitting the matter to the people by way of a plebiscite, a d was quite frankly told by one of t e commissioners that he was elected to run the affairs of the village and he did not require any plebiscite to guide hi m.

And prior to that the commissioners were waited upon by some ladies asking that the village go on record as being opposed to the establishment of a liquor store, which a majority of them decided not to do, seemingly knowing what village opinion was without any plebiscite.

But now the end of their term is in sight and a request comes (from a delegation of non resident) to take over a library something no other village or town in B.C. has anything to do with—and the commissioners experience a wonderful change of heart; probably a sort of death bed repentance following the disastrous experience the council have had with Mr. A on.

I am, Mr. Editor, quite in accord with your editorial of last week, that the council lend assistance to keep the library open, but the very fact that the present library management want to drop the library ought to convince that it is likely to be a white elephant and therefore something the village should have nothing to do with. And, surely, if no plebiscite was needed in the matter of electric light these same commissioners should have been able to face the library delegation in the same "business" like way they scorned to consult the ratepayers in the matter of light. Or easier still, have pleaded that their term of office was about up and that the library matter be taken up with the new council. Such a sudden and unnecessary reversal of policy requires an explanation which I am hoping this letter will be effective in extracting from the council.

OBSERVER.

NEWS OF KOOTENAYS

Kaslo hunters are demanding that the deer season be extended at last 15 days.

The Courier believes Cranbrook aldermen should be paid at least $5 per meeting.

The Miner believes 25.000 cedar poles have been shipped from that point this year.

A six piece orchestra is now assisting the choir at Grand Forks United Church.

While the scarlet fever scare is on Penticton streets are pretty well deserted of children.

Rossland has experienced the most delightful November weather in the history of that city.

In the matter of telephones Cranbrook leads Fernie by a margin of 590 to 345. Trail has 1141.

Fernie school board will have a profit of almost $300 on its night school, which has 77 students.

All four hotels at Grand Forks have been granted beer licenses and commenced selling early last week.

Rossland has had an epidemic of measles this month. Over 150 casss were reported to the authorities.

Penticton public school will be closed till the end of the month due to a severe outbreak of scarlet fever.

Cranbrook was unusually law abiding during October. Police court fines for the month were only $135.

J. E. Kennet, a New Denver hunter, killed two bear with one shot one day last week—a mother and cub.

The prevailing water shortage is shutting down mining operations at points in the Slocan and Kaslo districts.

While improvements are being made in the Vernon creamery buttermaking is being carried on at Enderby.

At November 7th the 1929 apple shipment from Okanagan points were 335,253 boxes less than at the same date in 1928.

Although Cranbrook fall fair was a money loser to the extent of almost $700. it has been decided to have an exhibition in 1930.

Of the 77 night school pupils at Fernie 21 are taking dressmaking, 21 take bookkeeping, 11 arithmetic, 12 English and 12 woodwork.

Last week the Vernon creamery turned down an order for a carload of butter figuring the butter could be sold locally at a much better price.

Grand Forks Roman Catholic ladies gathered in $741 at their bazaar last week, $538 of this was from raffles and drawing contests.

The Herald figures the 1930 estimates of the provincial government should show about $100,000 for a new government building at Penticton.

Messrs. Green and Pitner of Nelson are likely to erect a commodious and fully modern moving picture theatre at Rosslnad in the spring.

The balance of the Jonathan apple crop in the Okanagan has just been sold in bulk to a Winnipeg firm, with no rebates to be claimed.

At Vernon high school students over 17 years of age who are not showing the desired advancement will be excused from further attendance at Christmas.

To stimulate congregational singing the Unitd Church at Grand Forks is having the hymns thrown on a canvas with the aid of illustrated lantern slides.

The Kootenay Lake General hospital at Nelson went behind $600 durng October. Due to so few auto accidents revenues slumped badly.

Penticton is to have a new auto tourist camp with with modern stucco cottages, community kitchent laundry, bath showers; etc. I, will be located on Lakeshore Drive.

A piece of rusty wire halted service

A piece of rusty wire swinging from a drain pipe under the sidewalk on the north side of the Connaught Bridge, Vancouver, came in contact with long distance telephone lines and put two of the direct Vancouver-Seattle circuits out of order on October 14.

The trouble developed at 11.40 a.m. A telephone repairman was speedily on the scene. He had to climb over the bridge railing and underneath the sidewalk and from this precarious position got rid of the troublesome wire and restored service.

C. Hamilton is taking full advantage of the present frosty weather and is well away at getting a sheet of ice in the rink on the fair grounds. Skating will start early in December if cold weather continues.

Final returns on the sale of Armistice poppies shows an intake of about $96 at all points in the valley. Including the sale of wreaths Creston village contributed $61 of this amount.

John Barnes of Kimberley, who is supervising the Full Gospel Mission in the Kootenays, was a visitor here on Tuesday, and reports the local work enjoying increased Sunday attendance from week to week.

Mr. and Mrs. W. C. McFarland and children arrived on Thursday last from Vulcan, Alberta, and are now occupying the Fred Klingensmith house on Barton Avenue. Mr. McFarland is in partnership in Creston Motors with Geo. Merrison.

Sam Steenstrup has been at Kitchener the past week where he has the contract of overhauling the Larson dragline which will start work at once dyking in the Paulson meadows about four miles east of that town, and which embraces about 1200 acres.

At the annual meeting of the curling club on Wednesday evening a new slate of officers was elected. with M. J. Boyd, president; A. L. Palmer, vice president; and H. W. McLaren, secretary. The club closed the season with a cash balance of $1.23.

The Premier Garage is this week announcing an electric wiring service and will be pleased to give you an estimate on this class of work. At present they are at work wiring the residences of A. Anderson on Hillside Road, Victoria Avenue and Vancouver street.

Word reached Creston on Tuesday of the death of Geoffrey, eldest son of W. P. Stark, which took place in a hospital in Victoria that morning. Older residents of Creston will recall deceased who resided for a time with his parents when they first located in Creston.

REWARD—A substantial reward will be paid to anyone who will furnish information leading to the conviction of the party or parties who stole a wet battery from my Ford truck stored in barn on the Axel Bergrren ranch, Canyon, on or about November 15th, 1929. GUS. OBERG, Erickson.

L,O.B.A. had about a dozen tables of players at their bridge in the lodgeroom on Friday night, at which the high score prizes were made by Mrs. Driffil and E. W. Klingensmith, and the consolation honers went ro Miss Bumstead and Harold Beninger. A delightful lunch was served at the close of play.

To secure funds to purchase supplies for the Christmas hampers, Creston and District Women's Institute are having a bridge whist in the Parish Hall on Friday night next, December 6th, with cards to start at 8.15 prompt. The admission is 50 cents. The cause is certainly a good one and the ladies look for a large turnout.

Telephone central was shifted at the middle of the week to new quarters in the former Reg. Watson residence on Victoria Avenue, which has been reconstructed to suit the purpose. The new switchboard is modern and capable of handling 105 pairs of wires. All the telephone wires in the village are now in cable' and it is the intention of the company to supply subscribers with a temporary directory, at which time users will oblige by calling numbers instead of names.

Hard times whist drives are proving popular at Fernie.

WORLD HAPPENINGS BRIEFLY TOLD

Announcement is made by the minister of National Revenue, Hon. W. D. Euler, of the coming into effect of the trade treaty between Canada and the Baltic Republic of Latvia.

The British Government will establish agricultural schools to train idle coal miners to be farmers, preparatory to their migration to the Dominion to settle upon free land.

Lord Sailsham, Lord Chancellor of Great Britain, heads the nineteen delegates from Westminster on the trans-Canada tour of the British Empire Parliamentary Association.

Plans under consideration of the New York Central Railroad call for the co-operation of the Canadian Pacific Railway in establishing air mail routes between Minneapolis, St. Paul and Winnipeg via Duluth.

Miss Amelia Earhart, the first woman to fly the Atlantic ocean, has sent a cheque for $1,500 to Commander Richard E. Byrd as her contribution toward the Byrd Antarctic expedition.

Believing that Alfred Lowenstein might have been poisoned, the family of the dead man has requested permission to file suit charging an unnamed persoon with poisoning Lowenstein, in the event traces of poison are found in the body.

Sir Austen Chamberlain, foreign secretary, announced in the House of Commons that Great Britain had reached a compromise with France over the naval disarmament question which would be submitted to the other naval powers and eventually to a disarmament conference.

The cabinet council has confirmed the appointment of the commission to enquire into the return of the natural resources of Manitoba to the province. The personel will be Mr. Justice Turgeon, supreme judge of the Saskatchewan court of appeal; Hon. T. A. Crerar, and C. M. Bowman of Waterloo, Ont.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

Seeking Information

A witness was being examined, "My Lord," he said, "you can believe my statement, for what I have said is absolutely correct. I've been wedded to truth since my childhood."

"Quite possible," replied the Judge, "but what the court wants to know is how long have you been a widower."

Stings and Bites.

The pain of insect bites disappears quickly with the application of Minard's. Try a bottle.

MINARD'S "KING OF PAIN" LINIMENT

Modernizing E.P. Ranch

Electric Plants Furnish Light and Pump Water For Ranch Buildings

The ranch of H.R.H. the Prince of Wales, has been electrificd. Two large individual electric plants, of the type used by thousands of Canadian farmers, were installed recently on the E.P. ranch, completely electrifying the many buildings which form a small city on the farmstead. Two electric residence water systems were also installed to supply drinking water, so that kerosene lamps and water from a pump are as rare at the ranch house as they are in the Prince's home in London.

Stabilizing Easter

Hoped That International Agreement Will Be Reached For Fixed Dates

The measure stablizing Easter in Great Britain and Northern Ireland, given third reading in the House of Lords recently, will not be effective until an international agreement has been reached, it is stated.

The bill provides for observance of Easter on the Sunday after the second Saturday in April, instead of determining the date by the phases of the moon.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates They cannot possibly do harm—they nor narcotics or other harmful drugs. always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Winnipeg Newspaper Union Fashions

A Chic Frock For the Junior Miss

The little one-piece frock shown here is a smart and practical style for all daytime wear. The skirt has an inverted plait in the centre front, and the sleeves are long and gathered to narrow wrist-bands, or short and finished with shaped cuffs. A note of contrast may be introduced in the shaped collar and set-under vestee, and the belt fastens with a buckle in front. No. 1808 is in sizes 6, 8, 10, 12 and 14 years. Size 8 requires 2⅛ yards 32-inch, or 2⅛ yards 39-inch material, and 1-3 yard 39-inch contrasting (cut crosswise). Price 25 cents the pattern.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

We bade London an early farewell, being on the way to Cambridge by 8.30 a.m., passing through Waltham Cross with its Abbey of the Holy Cross, re-founded by King Harold, in 1060, Cheshunt, which was invaded by the Danes in 893, and Epping Forest, the former royal game preserve, which is now the Londoner's favorite playground.

It would be impossible to describe the charm of the colleges of Cambridge University, its peaceful setting among the wonderful lawns through which runs the River Cam, or the beauty of the time-worn masonry. Nor could one hope to convey the sense of atmosphere that time has given to this ancient seat of learning, something of which we caught even in our hurried trip through the grounds. Fortunately, we had the opportunity of visiting King's College Chapel. The towering vaulted roof of this poem in stone, the softened light mellowing through the stained glass windows, the dim shadows, the beauty of the organ poised high in the centre of this noble building, spoke to heart and mind, and soul, of man's aspiration to Divine things. King's College Chapel is acoustically, as well as architecturally, marvellous; an anthem heard in it is unforgetable.

Proceeding to Caius College we had lunch in the dining hall, the Vice-Chancellor, Dr. Weeks, sitting at the head of the table. Again we felt the sense of privilege, of "atmosphere," for surrounding us were portraits of some of the famous men of Caius, dating from the Middle Ages, visible evidence of her continuity with an illustrious past.

A delightful luncheon was followed by an address of welcome from the Vice-Chancellor, and a short talk from Sir Ernest Rutherford, whom some of us remembered as a one-time professor at McGill University.

Repairing to one of the lecture halls of the Animal Nutrition Institute, we listened to Professor T. B. Wood, General Director and Director of the Chemical Section, who described the work of the Institute and some of the experiments which had been conducted with a view to finding standard maintenance rations for hogs, cattle, horses and poultry.

Professor Sir R. H. Biffen, Director of the Plant Breeding Institute, then discussed the experiments which had led to the production of Yeoman Wheat, a wheat of high yield and possessing some of the qualities of the harder wheats of Canada.

Visiting the Forestry Section, we saw specimens of our own Douglas Fir, Bird's-eye Maple, Canadian Poplar and one of the finest specimens of English oak-panelling in the world.

The calorimeter with a hog inside it, the chemistry room and the Low Temperature Station were examined. This last was full of interest to us. Here meat hanging experiments and tests for discovering the best methods of carrying apples and rabbits in low temperatures were being conducted. These and the work of the station were explained by Sir William Hardy at a meeting in the University Arms Hotel, after which undergraduates entertained us to a musical programme.

The itinerary for the following day provided for a visit to one of the most remarkable concerns in the world, Chivers & Sons, Ltd., of Histon. Fifty years ago Chivers were orchardists, selling fresh fruits on the London and Bradford markets, but a glut which forced them to sell to the jam manufacturers, changed their whole policy. They determined that they would themselves make jams. They enlarged their orchards. Insect pests led them to keep poultry. The failure of hens to keep down the orchard pests induced them to add ducks. Then they went on to cattle, pigs, sheep and bees. Today Chivers farm 6,000 acres of land and raise annually 12,000 chicks, 6,000 ducks, and 2,000 pigs. Histon cattle have won four championships, one reserve, seven firsts and four second prizes at the last Royal Show of England, and five championships were included among the awards won by Chivers at the 1925 and 1926 Royal Shows. They have been no less successful with their Yorkshires and Middle Whites in winning championship awards. They also keep Suffolk sheep and Percherons.

It was our pleasure to spend half a day inspecting as much of the farms and orchards as could be covered in that time. Among the animals we saw was Histon Wild Queen, champion of the Royal Show, whose average milk yield with her first five calves was 11,964 lbs. The Histon Dairy Shorthorn herd is a genuinely dual purpose herd. Many of the cows exceed 1,000 gallons annually. There is also a Lincoln Red shorthorn herd of 150 females. Their Yorkshires and Middle Whites are the most outstanding to be found anywhere and it was an inspiration to see the remarkable size, smoothness and finish of these animals.

But famous as the concern is as a farming organization, it is the combination of farming, manufacturing and marketing which makes this firm unique. From Chivers factory a whole trainload of goods leaves every day. The factory is the last word in efficiency. The pans in which the fruit is boiled are lined with silver. Jam jars are filled by machines at the rate of 150 to 200 jars per machine per minute. Miniature trains carry the products from department to department. Everything is kept moving. Not a moment is lost, yet there is no hurry, while the workers were evidently contented and happy, thanks to the personal interest that is taken in their welfare and the institution of co-partnership and profit-sharing. What a contrast from the little barn, still standing, in which the first boiling was made.

Before leaving we were entertained to tea in the company's dining hall, when Mr. J. R. Chivers and Mr. W. B. Chivers told us something of the history of their famous firm and presented every one of us with two tiny jars of jam, exactly like those which were specially made for the Queen's Doll's House, exhibited at the great Wembley Exhibition, in 1924. These little jars of jam are the smallest in the world.

No finer lesson in the marketing of farm products, and for that matter in the growing of them, could have been given to a party of farmers or more pleasure afforded us in the learning of it.

(To Be Continued.)

SUNDAY SCHOOL LESSON

AUGUST 12

THE COUNCIL AT JERUSALEM

Golden Text:—If therefore the Son shall make you free, ye shall be free indeed."—John 8.36.

Lesson: Acts 15.1-35; Galatians 5. 1-15.

Devotional Reading: Psalm 133.

Explanations and Comments

Trouble-Makers From Jerusalem, verse 1. Jewish synagogues were composed of Jews and proselytes, the latter being Gentiles who had received the Jewish rite of circumcision. Other Gentiles who attended the synagogue services were called "God-fearing" or "devout," but were not in "full fellowship" with the rest because they had not been circumcised. We have seen how Paul and Barnabas preached to the Gentiles and founded churches among them at Pisidian, Antioch, Lystra, Iconium and Derbe on his first missionary journey, and how he reported to the church at Antioch of Syria, the church which had sent them on their mission, that "God had opened a door of faith unto the Gentiles." The church at Antioch, itself composed largely of Gentiles, rejoiced over the good news, and did not realize the far-reaching effect of this new departure. When the report reached the church at Jerusalem, however, it was not so welcome. In fact, it aroused violent opposition. "Certain members" of that church, upon their own responsibility, went from Jerusalem to Antioch and declared there that Gentiles must first become Jewish proselytes before they could become Christians—must be "circumcised after the custom of Moses" in order to be "saved."

For their stand there is much to be said. The rite had been observed since the days of Abraham, and no law abrogating it had been voiced. Who had authority to declare it unnecessary? What right had Paul to adopt his revolutionary procedure and say that "Circumcision is nothing and uncircumcision is nothing?" Paul had the right of a revelation from God, a revelation shown, not by vision nor by word of prophet, but by results which proved God's will and purpose. God had borne the Gentiles witness, giving them the Holy Spirit even as He did unto the Jews; and he had made no distinction between Jews and Gentiles, cleansing their hearts by faith. God's will is shown in His ways with men as well as through His words to men.

"The Jews of the first century eschew the Gentiles, but we of the twentieth century eschew the Jews. They were wrong, and so are we."—George W. McDaniel.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Eclectric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Wanted the Usual Bonus

"MacGregor," said the butcher to the thrifty one, who was planning to make an exit from the neighborhood, "I have every reason to believe that you will nver pay me the amount due. It would be very foolish of me to sue you and you have nothing of value that I care to attach. I'll just give you a receipt and call it paid in full."

"That's awfully nice of you," said Mac.

A few moments later the merchant noticed that Mac was still resting his pedantic extremities in the store.

"Was there somthing you wished to speak to me about?" asked the merchant.

"Well, not exactly. But isn't it customary to give a fellow a cigar when his account's been settled?"

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueller pangs of colic, or constipation, or diarrhea; effective, too, for older children. **Twenty-five million bottles were bought last year.**

Fletcher's CASTORIA

Sees Good Market In Canada

Great Britain Waking Up To the Importance Of Canada As Trade Centre

"In the past two years the British manufacturer has been waking up to the importance of Canada as a trade centre, and for this reason the Overseas Trade Department is reorganizing and improving its system in this country in an effort to bring the necessary facts before the manufacturers of the Old Country," said W. J. Glenny, Inspector General for the organization in question, upon his arrival in Montreal. "We are not here to wave the flag, and ask Canadians to buy British goods merely because they are under the Union Jack, but we want to create an organization here that will enable the manufacturer in England to become acquainted with the problems and requirements of Canadian importers," he stated.

Raise English Pheasants

Experiment Is Being Made To Introduce Game Bird In Saskatchewan

An attempt is being made in the Alsask and Loverna districts in Saskatchewan, to raise English pheasants of the ring-necked variety. It is not many years since Hungarian partridge was introduced into Western Canada. The experiment will take take some years, it is said, and if successful will furnish an added attraction for bird hunters.

SUMMER COMPLAINT

Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

BRITISH MINERS COMING TO ASSIST WITH HARVEST

London.—Arrangements have been finally concluded for 10,000 men to go from Britain to Canada to assist in this year's harvest, stated Rt. Hon. L. C. M. S. Amery, Secretary for the Dominions, in the House of Commons.

The Dominion Government especially wished that the men be recruited from the mining areas and the British Government would carry out these wishes, the minister said. He concluded amid cheers:

"The British Government is greatly indebted to the Canadian government for the readiness with which they co-operated in this arrangement."

Ottawa.—The Canadian Government is not assuming any financial responsibility for the movement of the British harvesters either coming or going, it was stated at the immigration department recently. The department, however, has expressed its willingness to co-operate in every possible way in placing men who wish to stay in Canada after the harvest is over.

Under the arrangement reached, men who wish to return will have the benefit of the reduced rate they paid westward. But it is assumed that most of them will wish to remain in Canada, and the problem will then arise of their absorption without increasing winter unemployment in the cities.

Mine Workmen Killed In Ontario Accident

Crushed By Falling Steel Gate On Welland Canal

St. Catharines, Ont.—The crash of the steel gate of lock number six of the new Welland Canal, at Thorold, Ont., caused the deaths of at least nine workmen and injuries, some of which have proved serious, to about 30 others. About 40 workmen were in the vicinity of the lock when the disaster occurred, and none is believed to have escaped death or injury.

The accident was caused by the boom of one of the cranes slipping when an effort was being made to raise a huge 500-ton steel gate into place on the West side of the lock. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held but the boom of the crane at the lower end slipped.

The huge gate crashed into the steel gate fabric at the east of the lock and smashing the steel work fell to the bottom of the lock, crushing the workmen as it fell.

Must Keep Arctic Rescue Films

Moscow.—The Russian relief committee approved recently the refusal of aviator Chukhnovsky, of the Russian ice-breaker Krassin, to hand over to General Umberto Nobile films he took when he sighted two men of the dirigible Italia on the ice off Northeast Land. In refusing to give Nobile the originals of the film, the relief committee said Chukhnovsky was right, for he had been ordered strictly as had been other Russian rescuers, to retain all material and data gathered.

Death Of Mrs. W. S. Fielding

Ottawa.—Mrs. Hester Fielding, wife of Right Hon. W. S. Fielding, former Canadian minister of finance, one of the capital's most distinguished women in social and philanthropic circles, died at the family residence here. She had been failing in health for nearly four years and had been almost entirely confined to her home throughout that period. Mrs. Fielding was soon to have celebrated her 80th birthday.

On Way To Far East

Montreal.—His Royal Highness, Prince George, the King's youngest son, will arrive in Quebec City on August 16, aboard the Empress of Australia. Prince George is on his way to the far east where he is going to join the China flagship. From Quebec he will journey by train to Vancouver.

Crowds Welcome Nobile Party

Meet Train At Every Stop In Italian Territory

Rome.—"Viva Nobile!" was the slogan of Italy as countrymen of the Polar explorer welcomed him and five other survivors of the dirigible Italia to their homeland.

Enormous crowds met the train at each stop in Italian territory, showering the returning explorers with flowers and gifts of wine, and shaking rafters of railway stations with their roars of encouragement.

The demonstrations constituted a veritable march of triumph from the northern frontier.

Premier Mussolini sent the prefect of Bolzano to welcome Nobile and his men at the Brenner pass in the name of Fascist Italy. There also were striking demonstrations at Rento, Verona, Bologna and Florence.

Lieut. Alfredo Viglieri, navigator of the dirigible Italia, who was in command of the red tent encampment on the ice after Nobile himself was rescued, was the centre of demonstration all his own. He left the train soon after passing the frontier and went to his home in the little town of Borghetto Santo Spirito. En route, however, he had to stop at Milan, where the prefect and an enormous crowd welcomed him.

The crowd shouted "Viva Viglieri!" and "Viva Nobile!" and added: "Down with the jackals of the anti-Italian press!"

Grant For Class "B" Fairs

Will Receive Same Assistance From Government As Given Last Year

Ottawa.—It has been decided by the government that class "B" fairs will receive the same grant in 1928 as they did in 1927. This was stated by Dr. J. H. Grisdale, deputy minister of agriculture, when asked respecting a report that the government was contemplating giving these fairs some measure of assistance.

During the last session of Parliament no appropriation was made for the class "B" fairs as had hitherto been done, the entire government grant in this connection going to the class "A" expositions. Considerable opposition to this has developed among the farmer element of the House of Commons and the agricultural estimates were subjected to severe criticism on this account both by friends and opponents of the government.

The deputy minister's announcement restores the former status of the class "B" fairs for the current year.

Scores Double Victory

Vancouver Boy Wins Twice In Olympic Sprinting Event

Amsterdam.—Percy Williams, of Vancouver, sent the Canadian flag to the top of the Olympic pole for the second time in three days, in token of a world victory in the Olympic games. The youthful sprinting marvel won the 200 metres final against some of the finest and most experienced sprinters in the world, including Jackson Scholz, of the U.S., the title holder. Williams is the Olympic champion at 100 and 200 metres, the first double sprint winner in the Olympiad of 1928.

Fire-Eater Burned

London, Ont.—Essaying to entertain a few companions by igniting with a match a mouthful of gasoline, Alex Johnstone, young Irish farm hand, was badly burned about the head, chest and arms when the liquid lighted too suddenly. He was blowing the gasoline toward the match flame when the liquid ignited.

Law Suits Total Millions

Budapest, Hungary.—Lawsuits totalling $300,000,000 have been instituted in the international tribunal at The Hague against the Jugo-Slavian Government by the former Archduke Frederick of Austria and 25 others. The suits are based upon confiscation of property. Frederick claims a loss of $17,000,000.

Kellogg Going To Paris

Paris.—Secretary of State, Frank B. Kellogg, has sent word to M. Briand, Foreign Minister, that he will come to Paris to sign the multilateral treaty renouncing war, sailing from New York on the French liner Ile de France, on August 18.

HEADS RETAIL MERCHANTS ASSOCIATION

J. T. Crowder, Toronto, was re-elected president of the Retail Merchants' Association of Canada at Regina. He was elected over J. E. Sansregret, Montreal, who was vice-president last year.

Ottawa Crowds Greet Lieut. Desmond Burke

Rousing Welcome Given To Member Of Bisley Team

Ottawa.—With the plaudits of his fellow citizens ringing in his ears, Lieut. Desmond Burke, of the Governor-General's Foot Guards, who at the Bisley meet in 1924, won the King's Medal, and this year came within one point of duplicating the feat, came home.

He was accorded a spontaneous welcome by large crowds which thronged the central station, blockaded his entrance and stretched several blocks along nearby streets. Among those on the platform to welcome him in addition to his parents and relatives, were Premier Mackenzie King, Mayor Arthur Ellis, and members of the board of control and the city council.

Plans Visit To Canada

Bisley Winner May Take Part In Dominion Rifle Meet

Montreal.—Arthur C. Hale, winner of the King's Prize at Bisley this year, is coming to Canada according to the eight members of Canada's 1928 Bisley rifle team, who arrived here from England. Hale, a 23-year-old gunsmith, of Birmingham, intends it is said, to take part in the Dominion Rifle meet at Ottawa. He has been shooting eight years. His father and brother are crack shots. It is understood that six members of the Australian team also will come to Canada for the same meet.

Initial Pool Payment

Statement Made That Payment On Current Year's Crop Will Be Same As Last

Saskatoon.—The initial payment by the Wheat Pool on the current year's crop will be the same as last year, according to B. Catton, of the Central Selling Agency, representatives of district nine of the Saskatchewan Pool. This means that the first payment on No. 1 Northern wheat delivered at Fort William will be one dollar per bushel; 97 cents for No. 2; and 92 for No. 3.

Despite the fall that wheat has taken in price during the past few weeks, the pool is not worrying, Mr. Catton stated, and it has every hope of marketing the crop to advantage. Discussing the cut-off date that is in demand by so many farmers, he said that he was not in favor of it except in the exceptional circumstances of wheat falling to such a low level that the non-pool farmer, sensing the opportunity to better himself by joining the pool, attempted to come in at the last moment.

Fewer Leaving Canada For United States

Figures For Year Just Closed Show 11,448 Less

Montreal.—Emigration from Canada into United States along the eastern section of the boundary decreased in substantial manner during the fiscal year ending June 30, 1928. Figures for the year are announced by H. B. Landis, United States Commissioner of Immigration at Montreal, head of District No. 1, which extends from Halifax to Kingston. In this district, which roughly covers the eastern boundary, emigrants admitted to the United States from Canada for permanent residence totalled 34,383 during 12 months ending June 30, 1928. For the previous year the total was 45,831 emigrants, or 11,448 more than in the year just closed.

Civil Service Council

Hon. Peter Heenan Wants Representatives To Meet the Government

Ottawa, Ont.—Hon. Peter Heenan, minister of labor, stated that he is issuing invitations to civil service organizations to select representatives to meet with the government in order to draft a constitution for a national civil service council. This action is in line with the report of the select standing committee on industrial and international relations, which devoted some considerable time during the recent parliamentary session to this matter. The minister has left the capital for Winnipeg.

WALKING THE BEARS.

Master "Kawin" and Miss "Nichin," photographed near the Windsor Station in Montreal with their mistress, Mrs. E. Roncarelli, who is having them sent to Italy for presentation to Marquis de Pinedo, the famous Italian round-the-world flier. They form a "No Good" combination. "Kawin" meaning "No," and "Nichin" meaning "Good," in Indian dialect. Needless to say, the latter is the lady bear cub with a sunny disposition, and the former a young gentleman with a rather bad temper at times. They were obtained by the General Tourist Department of the Canadian Pacific Railway from Fred. Arnott, who captured them in the Lake Temiskaming district. The two bear cubs are being sent over to Italy, where they will be met by de Pinedo in his plane, and flown to their new home.

C. P. R. REVISED BRANCH LINE HAS BEEN SANCTIONED

Ottawa.—The Board of Railway Commissioners has handed down a judgment approving the route map showing the revised general location of the Canadian Pacific Railway's Swift Current Northwesterly branch, which projects northwesterly in a direction which, it is intended, will ultimately have as its terminus, Willingdon, Alta.

In delivering the judgment, Hon. H. A. McKeown, chief commissioner, details the history of the construction of the company's branch lines, and notes the objection of the counsel of the Canadian National Railways that this would be really an extension of the Cutknife-Whitford Lake branch, from which, the National lines contend, the Canadian Pacific has not obtained parliamentary authority. Counsel for the Canadian National advanced that the terminus of the Cutknife-Whitford Lake line was at Willingdon and that the road to Strathcona could not be built as an extension of this branch.

It was further argued that the Swift Current Northwesterly branch was originally projected from Swift Current to Edmonton via Empress, Cereal, Coronation, Ohaton and Camrose. Of this only the portions between Swift Current and Empress, and Coronation and Lorraine had been built.

A revision of the Canadian Pacific Railway Company's plan was acceded to in 1919, and the Canadian National contends that the rival company is taking advantage of this nine-year-old revision to extend the Cutknife-Whitford Lake line from Willingdon to Edmonton. Exception is taken on the ground that this is an extension of a branch line already constructed.

The chief commissioner reviewed the matter of branch line construction and recommended the diversions asked for.

All-Canadian Phone Service

Gap Between Sudbury and Fort William Has Been Bridged

Toronto.—An all Canadian telephone line linking Ontario and Quebec with the Twin Cities at the head of the lake and Manitoba was officiaaly opened and the necessity of switching calls through the U.S. will thereafter be eliminated.

The Canadian Pacific Railway, Bell Telephone Co., Manitoba Government Telephone system and the municipal systms of Fort William and Port Arthur co-operated in the all Red route.

The gap to be bridged was the sparsely populated section between Sudbury and Fort William, and the connection between existing long distance telephone systems was made via the C.P.R. right-of-way.

Message From Lost Aviators

Note Found In Bottle Signed By Names Of Elsie Mackay and Capt. Hinchcliffe

London, Eng.—A bottle washed up on the shore near Flint, North Wales, Tuesday, contained a note on which was written, "Goodbye all." Beneath the brief message was signed the names Elsie Mackay and Captain Hinchcliffe, and beneath the names the words "Down in fog and storm."

Held For Obregon's Death

Mexico City.—Sister Conception Acebdo de la Lata, 32, is under arrest charged with having induced Jose Toral to assassinate General Alvaro Obregon. She is quoted by newspapers as saying: "I hope to be executed. I want to be punished." She did not admit influencing Toral to kill Obregon, but added: "God must have wanted, otherwise He would not have permitted the crime."

No Car Shortage For Crops

Winnipeg.—There is no shortage of cars for handling of this year's grain crop, the railway association of Canada has announced, but there was every possibility that the harvest will be the heaviest in years and all of the 80,000 cars now in Western Canada, probably will be needed

Modern Gas Service no Matter Where You Live!

Gasolene LAMPS, LANTERNS and HEATERS

Gasolene Lamps and Lanterns bring the "sunlight of night" to your home with portable gas lights that give you more illumination than 20 oldstyls oil lamps. No greasy wicks to trim, no dirty chimney to clean, or filling necessary. In addition to cleanliness you have many other conveniences. Gasoline Lamps and Lanterns operate for 2 cents a night—give over 40 hours brilliant service per gallon of fuel used. Perfect illumination for sewing or reading—for any kind of work inside or outside the house.

Gasolene Heaters—You will like the new American Gasolene They are regular gas-making and gas-heating plants. They bring you healthful heat for every room. Ideal for cold winter mornings when it is too cold for comfort. You can use them where they are needed—they're portable. Create a gentle circulation of warmed air that maintains an even temperature from floor to ceiling. They make and burn their own gas at a cost less than ¾c. an hour. They operate safely and economically with any good grade of clean gasoline.

Ask for a Demonstration.

There is no such thing as "luck" in Baking

It is merely the effect that follows the use of the best flour, the best ingredients, and the proper methods.

For Christmas, particularly, everything in the culinary line must be the very best, and for the Pies, Cakes, Puddings, etc., this store can not only serve you best, but can save you real money.

CITRON CAKE

2 eggs.
2½ cups brown sugar.
1 cup (heaping) butter and lard mixed.
1 cup sour milk.
1 cup citron.
1½ cups currants.
1½ cups raisins.
A little lemon peel.
Pinch of salt.
1 teaspoon cinnamon.
1 teaspoon nutmeg.
1 teaspoon soda.
4 cups flour.

This season our lines of Christmas Groceries is the best we have ever been able to offer. In all the "needed" lines, as well as Fancy Groceries, nothing has been overlooked. We invite your most careful inspection.
