

MORE BODIES ARE RECOVERED

Tug Lorne Bound For Victoria With Seven Bodies of Wreck Victims Aboard

Commission Opens Investigation on Monday Next—The Kaier Island Scandal

Victoria, Feb. 2. (From Our Own Correspondent)—Victoria, Feb. 2.—The tug Lorne left Bamfield at six o'clock this morning with four bodies from the wreck aboard. She called in at the scene on her way down and has taken on three more bodies. She will arrive here this evening. Two of the bodies taken from Bamfield are identified as P. Erickson and J. P. Grahame, and another is thought to be that of Miss Van Wyck. The inquest on Sibley, one of the victims, to be held by Coroner Hart was opened this morning and adjourned until tomorrow morning. The Commission appointed by the government to investigate the wreck will hold its first session on Monday. Captain Gordon presiding. Capt. Newcombe, whose absence caused delay in the opening of the investigation, is now in Vancouver and will be here in time for the first session.

POLICE ATTACKED BY FRENCH CATHOLICS

While Putting Into Operation Clause of French Church And State Separation Bill

Paris, Feb. 3.—Everywhere in the city the actual putting into operation of this clause of the church and state separation bill which provides for the making of the inventories of the property of the churches, has aroused a storm of protest. In several provincial parishes Catholics have gathered in the churches and made such strong resistance that the government commissioners were unable to enter. In Paris today violence occurred in several churches, notably those of St. Roche and St. Clothilde. An inventory of the property of the church of St. Roche has not yet been made, owing to the opposition of the congregation but the defenders of the latter succumbed before the energetic assault of the guards. In the chamber of Deputies this afternoon Premier Rouvier's reply to an interpellation on the subject by a socialist deputy M. Allard, was given amid great uproar. The government, however, secured a vote of confidence by 242 against 186, after the premier had assured the chamber that the government was desirous of using tact and moderation in carrying out the laws, but that it was fully determined to perform its duty. The energetic measures taken by the police had the effect of almost completely clearing the church except at the altar, where a few of the congregation and some priests stood fervently brandishing sticks. These were allowed to remain. The ejection of the remainder of the crowd resulted in the juring of many persons of both sides, including fifty policemen and guards, and a still higher number of the militant Catholics. One hundred and fifty members of the congregation were arrested. During the struggle some of the guards had their rifles snatched from them and they fought with their hands against the people some of whom were armed with swords. One of the barricades erected in the church was thirty feet high. After the police had been driven out, Prefect Lepine, to prevent further intervention of the Peasantry, placed a triple rank of guards armed with rifles around the church. The commissioner was thus enabled to proceed with the work which he had about completed tonight. Paris, Feb. 2.—A Socialist deputy M. Allard, interpellated the government in the Chamber of Deputies this evening, relative to the measures which it was intended to take to prohibit the government commissioners in carrying out their instructions to take inventories of the property of the churches. Premier Rouvier replied that the authorities had orders to use tact and moderation during the operation, but that the government was determined to do its duty at all costs even employing armed force if necessary. Scenes violent in the extreme were transpiring in the meanwhile at the church of St. Clothilde, near the chamber of deputies. The church has been filled since early morning, the congregation including many prominent members of the nobility, senators and deputies. Before the government commissioner appeared a police officer attempted to induce the clergy to permit the inventory to be taken and received severe maltreatment, while outside the policemen and mounted guards were compelling to adopt the sternest measures in order to disperse the turbulent crowds. Fifty arrests were made, among them being two priests. Many persons including some policemen were injured during the fighting. Eventually two fire engines were ordered to take up a position near the churches so as to be ready if necessary. The women showed the greatest determination, taking their umbrellas for their protection and chanting psalms. M. Lepine, the prefect of police, finally ordered the municipal guards and police to enter the church. Under a shower of broken chairs the officers broke down the railings in front of the entrance, while the crowds rained blows upon them. Then the firemen burst in the doors and the municipal officers entered the buildings. One of the principal officers was severely injured. Inside the church, the congregation had erected barricades, which had to be taken by assault while the men and women fought. After the church had been cleared the commissioner proceeded to take the inventory. The Catholics outside were singing. The prefect of the department of the zone issued an order of the clergy instructing them to give up the keys of their churches and added that in case of refusal the commissioners were instructed to call on the armed force for assistance.

What was your name before you married? queried the Chicago census taker. Which time? asked the lady. "What are the principal places of interest about New York?" "You'll have to ask some stranger. I've lived here all my life."

MINERS INSIST ON INCREASE IN WAGES

Indianapolis, Feb. 1.—The joint scale committee of the Central competitive district consisting of West Virginia, Pennsylvania, Illinois and Indiana came to a final agreement today. It was decided to report the disagreement to a joint conference later. The operators submitted a final proposition to continue the present scale and conditions. The Illinois operators insisted upon a clause, placing on the miners the additional cost of mining coal caused by shot fires' bills and other legislation. The miners rejected the proposition unanimously and stood united against any proposition that did not give an increase in wages. The joint conference held at a twenty minutes session after the committee adjourned. The report of the scale committee announcing a disagreement was read. President Mitchell then asked the operators if they had any other proposition to make, and F. L. Robbins replied for the operators that they had not. The secretary of the Illinois union urged that no agreement be signed by any union unless the agreement were signed in all the districts. Patrick Dolan, of Pennsylvania urged caution. An amendment was offered giving any district power to sign an agreement independent of the national organization. This was opposed by Vice President Law. President Mitchell took the floor and said: "There is no man who better appreciates the gravity of this question than myself and when you vote I want you to do it with the full appreciation of the responsibility that rests upon you." The amendment was defeated by a standing vote, and the resolution was adopted. Patrick Dolan asked leave to be recorded against the resolution and was greeted with hisses from all parts of the hall. Secretary Wilson said "according to my understanding the adoption of this motion means a strike 'an industrial war'." Mr. Wilson said that the finances of the National organization at present were not in a condition to take care of the entire membership in a long strike.

WOULD BAR JAPANESE

New York, Feb. 1.—Representative Duncan E. McKinlay, of California, who is leading the fight on the Pacific slope to have the provisions of the Chinese exclusion act extended so as to include the Japanese and Koreans, stopped over in New York yesterday to look into the immigration from the eastern point of view. He spent the day at Ellis Island as the guest of Commissioner Robert Watchorn. "So far as the white races are concerned," he said, "there is no immigration problem. The country is the better for every white man, who is strong and willing to work, who seeks shelter here. It is only in dealing with the Asiatic races that the bars should be put up and kept up. There should be no discrimination between the Japanese and Chinese. They are both cut out of the same cloth." "There are probably 60,000 Japanese already in the country," and they are pouring in at the rate of 1,000 per month. Personally, I do not believe that the extensions of the provisions of the Chinese Exclusion act to exclude the Japanese would offend the government of the country in the least. When I was in Japan with the Taft party I had an extended talk with Marquis Ito, and he said that the Japanese government was anxious to keep its people at home."

E. McMillan and R. Wright, of Vancouver are registered at the Abbotsford. "I promised to make a call tonight," said the man, preparing to go out. "Very well," replied the wife, "but don't call unless you have the cards."

IMPORTANT FOOTBALL MEETING

All members of the Football Club and all who are interested in the Club, are requested to attend a meeting called by the secretary of the club this evening. The meeting is to be held in Campbell's Barber Shop, Esplanade and will be called to order at seven o'clock sharp. Business of importance is to be brought up, and it is hoped that the attendance will be very large.

THIRTY FOUR WHALES TAKEN IN ONE MONTH

Victoria, Feb. 2.—Steamer Queen City, Capt. Townsend, reached port last night with fifty tons of whale oil and fifty tons of fertilizer to be added to a large shipment on the ocean dock for loading on the liner Tel-el-ehach which was yesterday discharging her inward cargo at the ocean dock from Liverpool via ports of the Orient. The Queen City, which brought 3 bodies of wreck victims, reported that the steamer whaler Orion had a most successful month, having taken 34 whales, with one more day to work. Three a day had been taken for some days past. The whalers are filling as many barrels as the steamers Queen City and Otter can keep the station supplied.

VICTIM OF A PLOT

Chicago, Feb. 1.—Chas. E. Yerkes, of this city, son of the late Chas. F. Yerkes, declared today that Mrs. Yerkes (Mrs. Misner) is the victim of a plot and that the publicity which has been given her affairs within the last two weeks is the result of trickery. Early today Mr. Yerkes received a telegram reading as follows: New York, Feb. 1. Story is ridiculous.

After reading the message Mr. Yerkes said: "That is a response sent by me. We are sure now that this great publicity is being played as a game in New York by some people who are conspiring to a certain end. 'What is their motive if their story is not true?' he was asked. 'I cannot discuss motives,' said Mr. Yerkes." New York, Feb. 1.—Dr. Edward Sternberg, who has been attending Mrs. Yerkes for some days said this afternoon that Mrs. Yerkes had told him positively she had not been married to Wilson Misner nor any one else. Dr. Sternberg said Mrs. Yerkes is very ill and not able to leave her house. Her conditions are not serious however. The Rev. Andrew Griller of the Methodist Episcopal said he performed the ceremony, and Wilson Misner was quoted today as confirming the news of the marriage.

FOR SOLES, NOT SOULS

A short time back, certain missionaries were elated at the fact that Bibles published by the mission societies they represented found a ready and immense sale in the interior. In their enthusiasm the missionaries reported to headquarters in Canton that a grand opportunity presented itself for the work of proselytizing the Chinese, who were now most responsive and begging for Christian Bibles. They described the avidity with which they displayed the Bibles, and indeed it seemed as if the Opium had just awakened to the value of the scriptures. But also for human hopes. When this rush for Bibles came to be probed to the bottom it was found that the smallness of the cost of the Bibles, which the missionaries were sure were being used for the purpose of converting the Chinese to Christianity had really induced the Chinese to buy the Bibles for their intrinsic value as paper. Instead of being used to convert souls to Christianity the Bibles were being converted into soles for Chinese feet. The Chinese found the paper of the Bibles was cheaper than the Chinese hand-made paper used for making soles of shoes, and so the demand for Bibles arose.

D. H. DAVIS THE SUCCESSFUL TENDERER

At a special meeting of the Recreation Ground committee last evening a portion of a portion of the ground loaned by the C. P. R. to the people of Ladysmith for athletic grounds, were opened, and the contract was awarded to the lowest tenderer, D. H. Davis, who agrees to do the work according to specifications for \$647.50. The tender nearest in price to that of the successful bidder was for \$650.

THIRTY FOUR WHALES TAKEN IN ONE MONTH

Victoria, Feb. 2.—Steamer Queen City, Capt. Townsend, reached port last night with fifty tons of whale oil and fifty tons of fertilizer to be added to a large shipment on the ocean dock for loading on the liner Tel-el-ehach which was yesterday discharging her inward cargo at the ocean dock from Liverpool via ports of the Orient.

The Queen City, which brought 3 bodies of wreck victims, reported that the steamer whaler Orion had a most successful month, having taken 34 whales, with one more day to work. Three a day had been taken for some days past. The whalers are filling as many barrels as the steamers Queen City and Otter can keep the station supplied.

The Queen City passed the wreck of the Valencia on her northbound trip during thick weather and did hear of the disaster until arrival at Bamfield on the afternoon of the 23rd. The steamer was at Clouose at 1 p. m. on the 23rd, an hour before the news was telegraphed to Victoria of the wreck. There was then rain and fog, with a fresh breeze and the sea was rising. One of the canoes which came alongside was upset when going ashore, but the occupants made their way to shore in safety. The steamer round Cape Beale not long after the wreck survivors had arrived there and there was then a strong southeasterly breeze, with thick fog. At Bamfield the news was given to Captain Townsend. The storm was then increasing.

A HINT TO WIFE SEEKERS

London. M. Paul Doumer, one of the candidates for the French Presidency, has written, under the title "Livre de mes Fils," a book which is dedicated to his own sons, primarily, but to young men generally, when they arrive at man's estate. With regard to the formation and training of character, M. Doumer draws a comparison between the methods of French and British schools, and declares himself in favor of the latter: "The English have quite a different conception from us as to the value of man. It is character which they place before everything else. In choosing a wife, he exhorts young men to eschew mere good looks if not accompanied by a healthy mind. This is the ideal young woman, of whom, fortunately there are still many: Demeanor simple and dignified; clear eyes that look straight at you—modestly but frankly—which permit you to read the very soul, loyal, good and true. Little matter whether she is pretty or no, she is beautiful physically, because she is morally so."

BRIGHT FUTURE OF CITY OF LADYSMITH

Captain McIntosh, Real Estate Man and Owner of Property Locally

Speaks of the City's Future—Advocates Electric Lighting of the Town

Mr. D. McIntosh, a real estate man of Winnipeg, and who has been visiting Ladysmith, a guest at the Frank Hotel, was a visitor at the Ledger office yesterday afternoon. Mr. McIntosh has great interest in this city, owing to his heavy real estate holdings. He is on a pleasure trip and expresses himself as having great faith in the future of the city of Ladysmith. Mr. McIntosh was one of the first to purchase property here after the townsite was surveyed and for eighteen months was a real estate agent, his office being the small building next the Frank Hotel. In speaking about the city, McIntosh said, "One of the first things that strikes a visitor in your city is its want of light. Coming as I do from the East, where the darkness is never so intense as on Vancouver Island, I notice this particularly and I cannot understand how the residents of a prosperous city of this size can tolerate dark streets at night. I understand an electric light bylaw was voted down last year. It was foolish, and by doing so the property owners lose a great deal. I have property here and would be only too glad to pay any extra taxes. An electric light plant would involve, for I am convinced if the town is properly lighted it will be a matter of only a very short time before real estate here would be of greatly increased value. I know the country around this city well, and I believe sufficient water power could be procured with ease to operate a plant. If it can, the city by installing a plant is undoubtedly making a safe investment. The idea that some people have that a steam power plant would not be a paying proposition is absurd. In a little town in Manitoba called Dauphin, with a population of 2,000 a steam power plant was installed a year ago and is now paying splendidly. There we have to pay as high as \$10.25 for coal, and \$2.25 for fuel for the plant, and Stewart. The opinion of Mr. McIntosh is worthy of note, for he is one who has had great experience in real estate dealings. He is better known on the coast as Captain McIntosh, having been a royalist in the Northwest Rebellion. Speaking of the City Council Mr. McIntosh said for his own interests he was glad to see such a reliable set of men elected as a local government. He knew nearly all the members, from the mayor down, and in expressing the opinion that they will do good work for the city, denominated them as steady, progressive business men. Mr. McIntosh left on the morning train for Victoria, where he will spend some time before leaving for his home in the East. His business interests in Ladysmith are looked after by Mr. John Lattier, and Stewart.

VANCOUVER STILL TALKS CHEAPER LIGHTS

Those Who Profess to Know Say that Mill Refuse is Cheaper than Water Power

Vancouver is still talking cheaper electric light and figuring on a Municipal plant. The following press report indicates that these who have given the subject some study think that very cheap power can be produced by mill waste. The press report is as follows: "The City Comptroller is delighted at the favorable character of the replies he has already received from local mill men in response to his official inquiries of the probable cost of buying the waste products of the sawmills in order to use them for generating electricity for power and light purposes. 'It has already been demonstrated to me that there is at present going up in smoke, absolutely wasted, enough fuel to supply sufficient power to operate the street car and electric light systems,' remarked Mr. Gilson. 'And I have the data to show that power generated in this manner can be produced more cheaply and economically than by water-power. Of course this is due to the merely nominal price of the waste products from the mills. In a number of instances the mills can each furnish enough fuel to generate a thousand horse-power. But the city by acquiring the refuse from all the mills and by establishing a number of auxiliary stations would be in a position to provide all the power that would be required. The ordinary fuel burners now in use are very expensive.' In my opinion, a plant to generate electricity could be erected for about \$25,000."

BORN—To the wife of Walter Carter, First Avenue, a son. Mrs. Dowdney, wife of ex-Lieut. Governor Dowdney, was buried at Victoria yesterday. Mrs. Dowdney was a lady highly respected and had many friends in the capital city. Only a few days ago the mother of Mrs. Dowdney was buried, having reached the advanced age of ninety-six years. The Watson Stock Company are arranging to visit Ladysmith again, probably soon after the 20th of the month. The company will meet with a warm reception, as its work is artistic and good.

The Boy Wonder.

New York, Feb. 1.—Victory for Willie Hoppe of this city for the B.B.C.C. trophy emblematic of the 18.1 balking championship of the world, caused much surprise among experts in this city. Few had any idea that Hoppe the youth could outlay Maurice Vigoreaux, the veteran, hero of many world's championships.

The result of the match seemed all the more surprising because Hoppe is only a mere boy. It seemed only yesterday that he was playing exhibition matches in the academies here, wearing knickerbockers, and being so short that he had to ask concessions from opponents to crawl upon the table whenever occasion called for his making a shot which he could not make when standing on the floor. Known as the boy billiardist, Hoppe's career had been little short of meteoric. He has been calm and cool in all his contests, against Thomas J. Gallagher, Ora Morningstar, Edward Morningstar, and others of the shortstop brigade, and he was just as calm and cool according to news from Paris in this big match. He and "Cave" Schaefer a year ago toured the west, and many times Hoppe defeated the veteran.

Plasterers at Pittsburg were granted an advance of 20 cents per day, making \$4.50 per day of 8 hours.

Plumbers at Boston, Mass., and Hartford, Conn., have been granted an increase from \$3.50 to \$4 a day.

Japanese barbers in California are working for about \$5 a week, and are actually driving the white laborers out of business.

The strike of union chain makers, in York, Pa., has been approved by the Executive committee of the American Federation of Labor.

Twenty-four iron molders and core makers struck against unsanitary conditions in the Mechanic's iron foundry at Roxbury, Mass.

The stone, lime and cement teamster's Union of Chicago has made an agreement with their employers which calls for last year's scale.

Blacksmiths employed on Rock Island railroads have made a new agreement for the ensuing year. A slight increase in wages was granted.

To Write a Story of the West

That would have the true ring to it, the author would of necessity require to live there for a time at least. He must study the characteristics of the western people—have to become one of them, living their daily life, sharing their joys and sorrows. He would have to mix with them socially and in a business way, in short be a "Westerner." It is a question of knowing local conditions. The same reasoning applies to the "Leckie Boot" for Western Miner, the Prospect or the Lumberman.

The makers of the "Leckie Boot" are Westerners with Western experience. They know what to make and how to make it. It is not so much a question of price as of quality. Their sole aim is to make a better boot for the same money—and the "LECKIE BOOT" is it.

MISS BERTRAM,

Ladysmith, B. C.

For high class stationary call at Knight's Book Store.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children, as it is pleasant to take and contains nothing injurious. Mr. E. A. Humphreys, a well known resident and clerk in the store of Mr. Locke, of Alice Lake Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it very satisfactory and it gives me pleasure to recommend it." For sale by The Ladysmith Pharmacy.

SUNLIGHT SOAP

Wash oilcloths and linoleums with warm water and Sunlight Soap, rinse clean and wipe dry. The colors will be preserved and the surface unharmed.

Common soaps fade the colors and injure the surface. Sunlight Soap cleans, freshens and preserves oilcloths and linoleums.

Sunlight Soap washes clothes white without injury to the most delicate fabrics, or to the hands, for it contains nothing that can injure either clothes or hands.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Equally good with hard or soft water.

Invitations for the Eagles' Ball on the 21st are being sent out today.

Smoke Little B. Cigars.

Mr. Joseph Hunter passed through to Victoria on the morning train.

Mr. J. J. Bland, superintendent of the Waterworks Company, went down to Victoria on the morning train.

As an advertisement elsewhere in this issue will show, the City Band give a dance in the Opera House tomorrow night.

Remember the City Band Dance in the Opera House Sat. Feb. 3rd, commences at 8 p.m. sharp. Usual price.

City Clerk John Stewart's new office on Roberts Street is, with the exception of the painting, which will be left until the spring, completed, and he will be moving his effects from his old quarters in a day or two. The new office is commodious and well located and will undoubtedly prove very comfortable.

Only one or two men are left work on the streets now. Until the Finance Committee present the estimates of the year to the Council it will not be known how much money there will be for street work, so for the present the street committee will not commence any great repairs but when they know what sum will be at their disposal for improvements plans will be made and work started in earnest.

A thick fog enveloped the lower part of town and covered the bay last night and the officers of boats coming into harbor late experienced difficulty in making the wharf. Whistles were kept sounding the night through. There was an unusually heavy fog on the gulf yesterday, and Captain Cutler, of the Wellington, thought it advisable not to start on the trip to Frisco until the weather cleared somewhat, so the Wellington anchored at the point.

SINCERE THANKS

Mr. Wm. Smith desires The Ledger to thank, in the name of his bereaved children and himself, all those friends, including his fellow employees at the Tye Smelter, for their kindness and sympathy in their recent and never to be forgotten loss of wife and mother, and to Supt. and Mrs. Watson for the beautiful floral gifts so thoughtfully provided at the burial.

Mr. Muir, who has held the position of secretary of the Ladysmith Lumber Company for the past several years, leaves Ladysmith today, having resigned his office here. Mr. and Mrs. Muir will in future reside at South Wellington. Mr. Muir being managing director of the South Wellington Lumber Company, will immediately take over the management of the mill at that place. During the years of their residence in this city Mr. and Mrs. Muir have made many friends who hope to have the pleasure of seeing them in Ladysmith frequently in the future, and that their new place of residence will be in every way congenial to them.

NOTICE

Notice is given that teamsters or any other person throwing garbage on the E. & N. property, Victoria Road, after this date, will be prosecuted.

CREATES SENSATION.

The Soo, Ont. Feb. 1.—A rich discovery of copper has been made two miles from Dean Lake station, on the Soo branch of the C. P. R. It has created a sensation.

HURLED TO ETERNITY

Vancouver, Feb. 1.—A Japanese workman fell 100 feet from the top of the Capilano canyon to the jagged rocks below today. His body being terribly mangled. This is the first accident recorded at the canyon. The man was walking along a plank on the flume when the plank slipped and the unfortunate man was hurled to eternity.

THE GRIP.

More we can sympathize with them, we must have suffered ourselves. No one can realize the suffering attendant upon an attack of grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by the Ladysmith Pharmacy.

January magazines at Knight's Tablet of writing paper at all prices from 10c up at Knight's Book Store.

After this date the price for bread delivered at my Customers' houses will be FIVE CENTS per loaf—20 loaves for a dollar. My bread is guaranteed the best made. Shuns can by white help should receive white peoples' patronage so long as they are properly conducted. I solicit a trial as your Baker.
C. R. DOYLE,
THE WELLINGTON BAKERY

Montreal, Feb. 2.—Ald. Ekers was elected Mayor of Montreal today by a majority of 3505 over W. A. Doran, the Irish Catholic candidate, who also had the support of the Temperance party which opposed Mr. Ekers because he is a brewer. In Montreal there is a race understanding by which French Canadians leave the field every alternative term to English speaking candidates. This year it was the English term and Mr. Doran declared that it was time Montreal had an Irish Catholic chief magistrate and he made this and a temperance platform his base of contention. Mr. Ekers was opposed by every Irish Catholic and Protestant church and temperance organization in the city, but he was supported by all the daily newspapers except the Witness. The French Canadian vote was largely responsible for the majority.

MURDERER

ATTEMPT TO CONCEAL CRIME

Norfolk, Feb. 1.—The body of W. D. Dolson, aged 26 years, discharged from the United States Marine Corps here on Sunday last after an honorable service of five years was today found in a trunk which had been purchased by the alleged murderer into which it is thought he intended to pack the murdered man's clothes and ship the whole away from Norfolk before the murder could be discovered. Chas. F. Taylor, aged 26 years, with whom Dolson had been rooming in a Norfolk lodging house where the murder occurred has fled. The crime is laid to him as the police are now bending every energy to capture him.

No Pressure in it.
Mrs. Chase—Oh, I don't like to go to that store! It's so unsatisfactory to do our shopping there.
Mrs. Shoppen—Why, they have everything there.
Mrs. Chase—That's just it. No matter what you ask for, they can suit you right off.

Very Queer.

"Well, well, that's a funny thing."
"What is?"
"Miss Passany was an old maid before she married, and now that her husband is dead she has become a young widow."

As to Kit's Complexion.
Maud—Have you seen Kit Garling's seal skin? It's nothing but an imitation on the face of it.
Irene—Well, so's her own skin.

COUGH REMEDY

Mr. E. G. Case, a mail carrier of Canton Centre, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied on every time. We also find it the best remedy for coughs and colds giving certain results and leaving no bad after effects." For sale by The Ladysmith Pharmacy.

Dangers of Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effective medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by the Ladysmith Pharmacy.
