

LOCAL MILL WILL HANDLE LOGS

Machinery has been installed by Ladysmith Lumber Co. to Cut Logs into Shingle Bolts. Will be in Operation by Tomorrow. Installation has been Necessary Owing to Scarcity of Bolts.

The first boom of logs ever brought in to the local shingle mill, owned by the Ladysmith Lumber Co., were brought in today from Nanaimo, and tomorrow will be cut up into shingle bolts, and from them converted into shingles as heretofore.

The handling of the logs themselves has been rendered possible by the installation of a log-haul, drag-saw, etc., which has just been completed.

The machinery for the cutting of the logs was installed by the Schaake Machine works, of New Westminster, and yesterday Mr. H. Rushton arrived to inspect the work and see that everything is in readiness for commencing operations tomorrow.

An addition has been built to the old shingle mill, and a long arch-shaped log-haul constructed. The logs are taken from the boom and automatically hauled up to the drag saw, where they are again automat-

ically caught and held in position by two large iron dogs. A cut of six or eight inches is made, and the severed piece rolls over from the drag saw to another, known as the feed bolter, where the bolt is cut lengthwise, released and placed before the knee roller, or trimmer where the rough outside edges are trimmed off. The bolt is then ready for the saws in the shingle mill itself, and is soon converted into shingles. This machinery is all worked automatically and only requires a few men to handle the logs and get them cut up in the desired lengths. It is something new in the shingle industry on the island, and has been rendered necessary owing to the growing scarcity of shingle bolts.

The machinery is being tried today and a few last repairs made, and tomorrow morning will be handling the logs as fast as they can be disposed of in the shingle mill.

MAY LOSE THEIR JOBS

Salt Lake, June 14.—Friction has arisen at the Copper camp at Bingham between the Western Federation of Miners and the mine owners. Six hundred miners have decided to attend an annual outing in this city yesterday, the Utah Consolidated and the Boston Consolidated companies, have given notice that men who fail to appear for work on that day will be discharged. A majority of the men will undoubtedly go on the outing.

REBELLION EXTENDED

London, June 4.—The Daily Telegraph correspondent at Tokio sends the following: "The Korean rebellion is extending. The insurgents have looted Tanyang and Sunchan and are threatening other towns. Japanese warships at Yokohama have been ordered to assist the protected cruiser Chi Yoda and the torpedo flotilla to suppress pirates off the south east coast of Korea."

A GOOD YARN.

"Lefty" Boyle, the young Algonquy southpaw pitcher, who was with Niles last season, tells a good story on a baseball team that was supposed to be composed of girls. "This bunch of fairies blew into Niles one day last summer and Charlie Crowe selected me to pitch against them."

"I looked the crowd over and I thought I would have it easy, and began to lob the ball up to the plate and they began to shoot them back to the outfielders. For a while I thought the outfielders would run themselves bowlegged. The climax was capped when when one of the darlings slapped the ball over the right field fence with as much velocity as though it was hit by a mill hand."

"I then had my suspicion, and it was verified when I heard one of the girls say to the other when we were exchanging sides, 'Hurry up Mike, and slide me a chew.' There were some girls on the team."—Pittsburg "Gazette."

London, June 14.—The Morning Post's correspondent at Lagos reports a political rising in southern Nigeria. The British assistant commissioner Oswald has been murdered in the Asada hinterland. Heavy fighting is expected.

TACOMA AT LEAGUE ISLAND

Philadelphia, June 14.—The United States cruiser Tacoma and the tug Potomac, part of the drydock Dewey on its journey to the Philippine islands, arrived at the League Island navy yard today, having left the Dewey and its escort at the Suez canal. The Dewey, it is said, broke drift five times, and in each instance a line was fastened to the big floating object in the way of the greatest danger.

WRESTLING IN NANAIMO

Speaking of Saturday's big wrestling match in Nanaimo Saturday, the Vancouver Province says:

"A large crowd of local sports will leave here on Saturday on the Comox, which has been chartered for the occasion, to witness the wrestling match in Nanaimo between Sinclair Swanson and M. Matsuda. The sale of seats in Nanaimo is already very large and people are coming in there from all the surrounding towns to see their man throw Matsuda. But local men who know the Japanese expert say that they will be very much disappointed, and have it figured out that Matsuda ought to win from the Nanaimo man. The Japanese has learned a lot since he tackled Swanson the last time, and is also stronger and faster. Anyway, it will be the best match that has been held around these parts for some time, and those who go over to Nanaimo will be well repaid for their trouble."

In referring to the same match yesterday's News Advertiser says:

"When Matsuda, the local Japanese wrestler, goes up against Swanson in Nanaimo on Saturday next, he will be backed heavily by a number of local sports who are confident that he can land the miner on his back at any stage of the game. The Jap has been working out with Murdoch and Wilgress, both heavier and more experienced men but he has had no trouble in throwing them. Con. Jones, Manager of the English Bay Bathing & Athletic Club, has placed \$200 on Matsuda, and he says that he is sure that the little brown man can deliver the goods."

FERNWOODS VS. LADYSMITH ON SUNDAY

The secretary of the local baseball nine has received a letter from the Victoria Fernwoods, giving the line-up of that team when they play here on Sunday afternoon next. E. Clarke will be behind the bat for the locals, while J. Kerr will do the twirling. While they are not looking for an easy victory, the home team see no reason to doubt that they can give the Victorians a hard game and come out with the long end of the score. In any event, it will be a good match, and well worth seeing. Following is the line-up of the two teams:

FERNWOODS.
Robertson—Catcher.
Holmes—Pitcher.
Potts—First base.
Moore—Second base.
Carne—Shortstop.
Shaw—Third base.
Malcolm, Left field.
Blackburne—Centre field.
Castro—Right field.
Randolph—Sub.

LADYSMITH.
Clarke—Catcher.
J. Kerr—Pitcher.
T. White, First base.
J. Dunbar—Second base.
Mannal, Shortstop.
A. Morrison—Third base.
J. Crossan, Left field.
J. Richards, Centre field.
A. Crossan—Right field.

MRS STANDER TELLS OF CRUEL TREATMENT

Seattle.—Antonius F. Stander, the builder and owner of the Stander Hotel and holder of several hundred thousand dollars' worth of other valuable Seattle realty, was sued for divorce in the superior court on Monday by Violet L. Stander. The complaint not only asks for a divorce, but for an injunction restraining Stander and F. M. Jordan, his agent, from disposing of any of the Stander holdings until the determination of the divorce proceedings. The divorce is asked for on many grounds of cruelty and infidelity.

The complaint sets up that in 1897 at Dawson, Stander entered into an agreement with the woman suing for a divorce that if she would live with him as his wife he would give her one-half of all the mining claims that he owned in the vicinity of Dawson. It was further agreed that at some convenient time a legal marriage ceremony should be performed. The couple lived together as man and wife until January 27, 1901, when they were legally married in San Francisco.

For four years the wife declares that Stander has been on a continued spree and that during that time he had treated her cruelly. The cruel treatment began in Dawson, according to the complaint, when, after the woman had fled from the cabin to avoid being seriously injured he pursued her, throwing rocks at her. On another occasion complaint is made that Stander severely beat her in the Dawson cabin, and while she was lying prostrate on the floor threw a lighted lamp at her which exploded. The woman was obliged to spend the night in the hills back of the cabin while the husband went to the Forks, where he shot up the town and landed in jail.

In June of last year the wife alleges that her husband threatened to take her life with a revolver unless she would sign a deed transferring to him all her interest in the Stander Hotel.

When she refused he said that he was going out to get a drink, and upon his return would carry out his threat. The wife says only the intervention of the police saved her life. For several days the wife accused Stander of carrying a revolver about the streets looking for her.

Last March, the complaint sets up, that Stander chased her from the corner of First Avenue and James St., to the corner of Madison street and assaulted her. A police officer who witnessed the assault placed Stander under arrest. Since that time the couple have not lived together. Since that time, the wife alleges, Stander has been living with another woman as his wife.

WORK BEING PUSHED ON THE GOVT. ROAD

Road Foreman Trudell, in charge of a gang of men at work on the new government road leading to the beach from the Esplanade, stated today that he will have the work finished by the end of the month. At present ten men are working, but more will likely be put on next week. There will be no bridge work necessary to cross the tracks, and Mr. Trudell said today that it will be an excellent grade all the way to the beach.

While he had no definite information on the subject, Mr. Trudell was of the opinion that the road is to be finished by the first of July, in order that it may be used by the contractor whose tender is accepted for the construction of the wharf in hauling material for building.

Mr. Trudell thinks that tenders will be called for, and work on the structure commenced just as soon as the road is finished.

The road, while not, of course, graded, etc., is already across the main line of tracks, and is being pushed on down the hill to the last crossing, which will be reached in a day or two.

RECOVER BODY OF C. ROSS

At 2:30 today, word was telephoned down from Extension to the effect that the body of Chas. Ross has been found.

It will be remembered that Mr. Ross was drowned in the Nanaimo River, just below the falls, on April 21st, while attempting to jump from one ledge or rock to another. The unfortunate man's foot slipped, and he disappeared beneath the water. Although an almost constant search has been kept up since the accident, it was not until this afternoon that the searchers were rewarded and the body recovered. It was found in what is known as Prospect Hole, about half a mile below where the accident occurred.

Provincial Constable Cassidy has left for the scene of the discovery.

BOUGHT BY JAMES HILL

St. Paul, June 13.—It is reported here that James Hill, President of the Great Northern railway, has bought the controlling interest in the Midway & Vernon Railway, expecting to use this as a link in the new line between Kootenay and the coast.

Last week fourteen thousand tons of rails were ordered for this line from Cape Breton. It is expected that the line will be rushed through without delay. The line which is to be about a hundred miles in length was originally projected by New York capitalists.

CONDEMNNS MUCK RAKERS

Princeton, N.J., June 14.—The late raduraote sermon of Princeton's commencement was delivered today in Alexander Hall by Rev. Henry Van Dyle.

"Voices of despair are heard," he said, "crying that all is rotten. On the other side," he said "conservative and soothing voices are heard protesting against the tempest."

He condemned the "muck raker," and said:

"If, indeed, the age be critical, suspicious, censorious, let us then strengthen ourselves by the contagion of virtue to play the better part. Let us cast in our lot not with the destroyers, but with the fulfillers."

London, June 14.—A game of billiards has been played at Stoke, Staffordshire, in a cage with six lions as on-lookers.

S. S. FARALLON BOUND FOR NORTH

Has on Board 150,000 Feet of Lumber for Mining Camp in North Freight Will be \$10 Per Thousand. Wellington is Discharging Ore at Crofton Today - Tepic Takes 600 Tons of Coal for Mainland.

S.S. Farallon arrived in port this morning from Seattle for lumber coal and will proceed from here to Skagway, calling in at Ketchikan. The Farallon has on board about 150,000 feet of red-wood lumber from California, for Dawson, which will be used for ditching purposes on one of the big placer in that vicinity. The cost of shipping this lumber from Seattle to Skagway alone will be in the neighborhood of \$10 per thousand, and this, in conjunction with the present price of lumber and other shipping bills, will bring the cost up to pretty high figures by the time it reaches its destination. The steamer has on board eleven steerage passengers for Skagway, and one

first class. Her lower decks and hold are laden with lumber, while steel rails, small cars, etc., occupy the upper deck.

The Tepic, with two scows laden with about 600 tons of coal, left for Vancouver this forenoon.

The Jesse Mac was in this morning with a scow for coal, leaving shortly after noon.

The small coaster Tere Novre was in at the wharves this forenoon for lumber coal.

The S.S. Wellington is at Crofton today discharging ore for the smelter there. She may call in here for coal after discharging at Crofton.

BOND COPPER CLAIMS

Nelson, June 14.—Louis Pratt, the manager of the Last Chance mine, and N. J. Cavanaugh, of the Biocan Star, Sandon, have rounded some copper claims on the west of Okanagan lake for \$20,000 and will arrange for an early start on development work.

Mr. Pratt informed the Vernon News that the deal was entered into on behalf of a New York syndicate. Although the claims were now a mere prospect, very little development work having been done, the samples of ore taken from different parts of the workings, looked very promising. If further development should reveal a large body of ore as good as the samples, there was no doubt that the property would be very valuable. The preliminary work, however, would cost a great deal. Probably from \$50,000 to \$100,000 would have to be spent before it would be known whether it was worth while to put in a plant at all. The shipping facilities were good. The lower workings of the mine were only about two and one half miles from the lake shore and could be connected with the shipping point by a gravity tramway.

"The eastern people for whom we are acting," said Mr. Pratt, "will proceed at once with the work of development. An engineer will be on the ground inside of thirty days, and will commence very shortly after his arrival. The bond arrangements we have entered into call for the first payment in six months, so we will have to do some hustling to accomplish what we wish by that time."

STRONG LIKE SAMPSON

Walla Walla, June 14.—To win a \$20 bet, Joe Montana, a muscular Italian gardener, carried a hundred-pound sack of sugar from the Walla Walla Produce Company's warehouse to the Henry ranch at West Walla Walla, and back, a distance of six miles, this morning in less than two hours. Montana was not allowed to lower the sack to the ground and accomplished the feat without becoming excessively exhausted.

W. S. Offner, president of the produce company, followed the Italian in a buggy to see that the conditions of the match were carried out. So far as known this is the greatest feat of strength ever exhibited in Eastern Washington.

STATUE OF HARCOURT.
London, June 13.—Premier Campbell-Bannerman unveiled in the lobby of the House of Commons today a fine statue of the late Sir William Harcourt.

EATEN BY HIS DOGS

Halifax, N. S.—William McKay, formerly of Halifax, now assistant manager of a lumber company in Labrador, is home on a visit. Mr. McKay says that on his way here, while at Indian harbor, straits of Belle Isle, he heard of a tragedy which had occurred there just previous to his arrival, when a man named Robert Crumby had been killed and eaten by the dogs he was driving. Crumby lives in a region several miles from firewood supplies, and he was on his way for a load with a sled drawn by nine dogs. When out of sight of the village he had left and about twenty minutes in advance of another dog team that was following, his dogs turned on him and tore him to pieces. When the other team came up Crumby was dead and the pack were devouring him. So intent and fierce were the canines, Mr. McKay says, that two of them, before they would cease tearing at the human flesh had their heads stricken off with axes. Subsequently the dogs were all shot. The pack of dogs was known to be bad, and it was not customary for one man to go alone with them. Crumby on this occasion, however, did so, and the poor fellow perished, die was about 35 years old and unmarried.

Some time ago, John Laine, his wife and grand daughter started for Nain, a Moravian settlement north of Gillisport. They were never heard of again, and the supposition is that their dogs killed and devoured them.

SCIENTISTS ARE HURT

Boston, Mass., June 13.—Thirty-four Christian Scientists were injured through the overturning of a large sight-seeing automobile in the Brighton district today. Every person on the car received injuries. Most of the party sustained nothing more serious than scratches and bruises.

THE BRISCO STRIKE
San Francisco, June 13.—No progress was made today toward a settlement of the marine strike, and the lockout, seems to be permanent. National Guardsman Laurence N. Bechtel was held to answer today, after preliminary hearing, for the killing of Frank Riordan, a young athlete who was shot down during the progress of the fire last April. A charge of manslaughter was fixed against Bechtel and bonds fixed at \$5,000.

TRICKS IN RUNNING.

"Long distance runners have many little tricks to keep themselves from tiring when on an endurance test like a Marathon run," says Louis Marks in the Chicago News.

"One of the first things a runner must learn if he wishes to be a long distance man is to handle his feet in the right way," said Marks. "When running the feet should never be lifted far from the ground, but the run should be a sort of 'skating' slide. All Indians run in this way, and so avoid the fatigue which would be caused by the exertion of lifting the feet higher than is necessary."

"A new runner always starts out with that fault, especially if he has had his start in the sprints, where almost without exception the athletes lift the feet and legs much higher than long-distance men do."

"I have found in the many Marathon races in which I have run that I experienced no trouble of fatigue in my body except in my feet and the call of my legs. That is, unless I was physically unfit for the race. Sam Miller and Tom Cook, of New York and Boston are the cleverest runners in America to my notion, and Schrub, of England, is another who takes advantage of every little point in his game. His run at top speed resembles the glide more than that of any other man's I have ever seen compete in a distance race, and he has been as successful as any other runner in America."

Smoke Big B. Cigars.

Washington, June 13.—The House Committee on Agriculture, tonight agreed on a meat inspection amendment to the agricultural appropriation bill, placing the cost on inspection on the government and making an automatic appropriation for the year to pay all cost. All meat and meat products pertaining to interstate Commerce must bear government labels which guarantee that products have been made of healthful meat and has been put up in a sanitary manner.

A BIG TROUT

Nanaimo, B.C., June 14.—(There was in The Herald Office last night, and which is now on exhibition in the Windsor bar the largest trout ever caught in British Columbia.

The trout, which is of the Rainbow variety, tips the scales at sixteen pounds and was brought into town last night by Mr. E. Aitken, formerly Manager of the Herald Printing and Publishing Co. The trout was given to Mr. Aitken by Mr. Percy Good, proprietor of the Arlington Hotel situated at the head of Nanouso Bay, about sixteen miles distant from town.

The trout was caught by Mr. J. Turner, a resident of Nanouso Bay, in Hamilton's Creek, the stream which crosses the Alberni-Nanaimo wagon road about a hundred yards distant from the Arlington Hotel. Mr. Turner who caught the monster trout with a rod and line, using a fly, had an exciting time in landing his prize. After playing with it for a considerable time, and being unsuccessful after several attempts to land it, Mr. Turner sent his boy home after a gaff hook, with which the lucky fisherman finally landed his fish.

The stream in which this monster trout was caught, has long been noted as one of the best in the country, and many are the baskets of trout that have been brought to Nanaimo from this famous retreat both of fishermen and hunters as well.

The Arlington Hotel, which is at present under the control of Mr. P. Good, formerly of this city, has long been famous as situated in the centre of one of the best fishing and hunting districts of the island, and

At the Yarmouth Y.M.C.A. Boys' Camp, held at Tuskat Falls in August, I found MINARD'S LINIMENT most beneficial for sun burn, and immediate relief for colic and tooth-ache.

ALFRED STOKES,
 General Secretary.

the catching of the record fish of British Columbia, not more than 200 yards from the front door will go far to add an additional lustre to its already famous name to sportsmen and travellers.

The large trout which we have mentioned above is now on ice in the Windsor Bar and will be on exhibition until the arrival of the steamer Waialeale with the excursion crowd on board from Seattle. The sight to the tourists of such a large trout will no doubt give some of the party a longing to cast a line in the noted streams around Nanaimo and we may expect to see in a very short time a party of American tourists "hiking" off for Hamilton's stream, and endeavoring to hook the mate to the record breaker caught in the vicinity of the Arlington.

It has been suggested, and it is possible that the suggestion may be acted upon, to have the trout taken up to the Union Brewing Company's freezing plant and have it frozen inside a solid cake of ice and then placed on exhibition in Seattle, as one of the attractions and inducements offered by Nanaimo for tourists to visit its shores.

A PERSIAN HORSE

"Persian horses," says Mrs. Bishop in "Journeys in Persia and Kurdistan," "are to be admired and liked. Their beauty is a source of constant enjoyment, and they are almost invariably gentle and docile. It is in vain to form any resolution against making a pet of one of them. My new acquisition, 'Boy,' insists on being petted, and his enticing ways are irresistible. He is always tethered in front of my tent, with a rope long enough to give him considerable liberty, and he looks advantage of it the very first day to come into my tent and make it apparent that he wanted me to divide a lemon with him. Grapes were his preference, then came cucumber, bread, and biscuits. Finally he drank milk out of a soup plate. He comes up to me and puts down his head to have his ears rubbed, and if I do not attend to him at once, or if I cease attending to him, he gives me a gentle, but admonitory thump. I dine outside the tent and

he is tied to my chair, and waits with wonderful patience for the odds and ends, only occasionally rubbing his soft nose against my face to remind me he is there. A friendly snuffle is the only sound he makes. He does not know how to fight, or that teeth and heels are for any other uses than eating and drinking. He is really the greatest and most docile of his race. The point at which he draws the line is being led; then he draws back and a mulish look comes into his sweet eyes. But he follows like a dog, and when I walk he is always with me. He comes when I call him, stops when I do, accompanies when I leave the road in search of flowers, and usually puts his head on my shoulder or under my arm. To him I am an embodiment of melons, cucumbers, grapes, peaches, biscuits and sugar, with a good deal of poling and carting thrown in."

HOW TO BREAK UP A COLD.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold is a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough Remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. **Synopsis of Canadian Homestead
 Regulations.**

Any available Dominion Lands
 within the Railway Belt in British
 Columbia, may be homesteaded by
 any person who is the sole head of
 a family, or any male over eighteen
 years of age, to the extent of one-
 quarter section of 160 acres, more
 or less.
 Entry must be made personally at
 the local land office for the district
 in which the land is situated.
 The homesteader is required to per-
 form the conditions connected there-
 with under one of the following
 plans:

- (1) At least six months' residence upon and cultivation of the land in each year for three years.
 - (2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.
 - (3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.
- Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa in intention to apply for patent.
- Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
 Deputy of the Minister of Interior.

NOTICE.
 I, the undersigned Jane McMillan, administratrix of John Hugh McMillan, deceased, hereby give notice that I intend at the next sitting of the Board of License Commissioners for the district of South Nanaimo, to be held at Ladysmith on the 15th day of June, 1906, to make application to that honorable body for a transfer of the hotel licenses to sell intoxicating liquors under the provisions of the Statutes on that behalf, in the premises known and described as the Tunnel Hotel at Extension, British Columbia, from the said John Hugh McMillan to Alexander J. McMillan.
JANE McMILLAN,
 Administratrix of John Hugh McMillan.
 Keep Minard's Linctant in the house.

**NANAIMO
 NEWS NOTES**

The secretary of the Nanaimo baseball club is arranging for games to be played in this city in the near future with the Port Townsend Colts, the Anacortes team and the Mariners and Electrics of Seattle.

The Board of License Commissioners, consisting of Mayor Planta, chairman, Ald. Handlen, and Mr. J. Fisherwood, met last night in the council chambers.

The only business transacted was the renewing of the various hotel licenses in the city for another year.

In discussing the renewal of the license for the Queens hotel, Chief Crossan complained of a noise in the bar room after prohibited hours. Chairman Planta in speaking about the complaint, stated that the chief should have laid a charge against the house and had the matter settled in the courts. After the members of the board expressed themselves on the matter the renewal was granted, but with the distinct understanding that if any further complaint was made, it would not be looked over again.

In reference to the application of Sam Jones for a renewal of the Eagle hotel license, the chief reported of a game of poker having been played there, on the night of May 13th, also of a game being played in the Central on April 19, and one in the Provincial on April 14.

Paisley Dye Works
 Paisley Dyeing and Cleaning. Charges reasonable, etc. Work Guaranteed.

**THE VERY BEST REMEDY
 FOR BOWEL TROUBLE**
 Mr. M. F. Burroughs, an old and well-known resident of Bluffton, Ind., says: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost sure to be needed before summer is over. Why not buy it now and be prepared for such an emergency? For sale by Ladysmith Pharmacy.

Ask for Minard's and take no other

**Sunshine
 Furnace**

It does not require an expert to clean out the flues of the "Sunshine" furnace—the only tool needed is a brush which is supplied with every furnace.

Clean-out doors are placed in the casing, and the brush can easily be inserted.

This heater just bristles with exclusive features such as automatic gas dampers, large double feed-doors, steel dome, double shakers and steel radiator.

If you want the best furnace made get the "Sunshine."

Sold by enterprising dealers everywhere. Booklet free.

The Ladysmith Hardware Co., Sole Agents

In reference to the complaint against the Eagle Hotel, the chief reported that constable Neen had gone in early on Sunday morning and found a crowd playing poker. He would have laid a charge against the house, but as the men were playing with chips it would have been hard to prove in court that a game of chance was being played. The Chairman of the Board was of the opinion that while it might not have been possible for the court to convict the offenders on the charge of gambling, the complaint of the chief stated that the game was played during prohibited hours and he could not see but that a charge could be sustained on that score. He (the chairman) strongly objected to a game of poker, or any other game of cards being played in the open saloon. Personally he could not see why the license should not be renewed. At the same time he thought that if the matter was of sufficient importance to report to the License Board, it should have been of sufficient importance to lay a charge against the house and have the matter discussed in court. Commissioners, Fisherwood and Handlen concurred with the views expressed by Chairman Planta and would set their foot down on any kind of gambling with cards, what ever.

The renewals in all three cases were granted.

The applications of the Old Flag and the Dew Drop, not having been in the stipulated ten days received a little attention, but as it was shown to be a case of misunderstanding on the part of the applicants, the matter was overlooked and the renewals granted.

There being no complaint against any of the other hotels in the city, the renewal of their licenses were granted.

In speaking on the question of Chief Crossan's complaint about poker being played, the chairman remarked that it would be well for the License Victualors' Association to know that if any of the hotels in the city persist in running games it will be necessary to pass a by-law, on the same lines as the one in force in Vancouver, where card games of no kind are allowed. He (the speaker) would take steps to pass such a by-law, for the only way to stop one game was to stop them all.

Mr. Simpson, counsel for the Association stated to the board that he would inform the Association of the Board's decision, and he was sure that they would only be too glad not only to discountenance gambling during prohibited hours, but also during legal hours as well. The Board then adjourned.

The fare was seven cents. I asked, and had a row with the conductor. When I got uptown the landlord of the only hotel refused to receive me as a guest.

"What's the row?" I asked.

"We are both named Robinson and related."

"I went out to the restaurant but that was run by a Robinson, and I could get nothing to eat. There were three merchants in the town, and they wanted my goods, but they were named Robinson and refused to buy. When I wanted to get back to the depot I could hire no boys to carry my grips. Too much Robinson. The conductor refused to leave me on the car. Same old Robinson. I was making for the train and carrying my luggage, when I met a shoving man and I stopped to say to him:

"You don't look like a Robinson."

"Well, no, I'm not," he replied.

"Then I want you to listen while I cuss the whole caboodle of them. I never saw such a blamed town in my life. Why, sir—"

"Please don't!" he interrupted.

"But why?"

"Because I'm Jones — the only Jones in town—and if the Robinsons heard that I was agin 'em they'd put the price of kerosene up to 30 cents and better to fifty, and the only Jones would have to eat dry bread and sit in darkness. Ten or fifteen years hence, when the Jones got a foothold—"

"And he smiled and bowed, and waved his hand and passed on."

UNKNOWN FRIENDS.
 There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of the remedy. They have done much to make it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Ladysmith Pharmacy.

GLASS GLOBES
 When you want a Glass globe see that you get the globe with the rubber ring on it, as it is the only kind that can keep the water out — the globes without the rubber ring cannot keep out water, you can see that by examining them. The artificial flower that is put into the globes with the rubber rings, is guaranteed to be the best, and if you want a globe with a Rubber Ring, call at Mrs. T. N. Jones, agent for
HENRY CREW.
 The only place you can get them.
