

DISCUSS ADVISABILITY OF ENDING WAR

Russian Press Alters its Tone and no Longer Insists on Strife

Japan, However, Must not Ask too Much or it Will Pay Czar to Fight on

St. Petersburg, June 8.—There is a significant change in tone in the Russian newspapers. The Novoye Vremya, which never before has admitted the possibility of the conclusion of peace until Russia had achieved a victory. Today the papers discuss calmly the advisability of ending the war, if Japan's terms are reasonable. The payment of a big indemnity, they declare, would be too humiliating. The Novoye Vremya says bluntly that if Japan asks too much, it will pay Russia to prolong the contest indefinitely, while the Russ argues that if representatives of the Russian people are called together, Japan will see herself confronted by the whole nation, and she will readily agree to reasonable terms. "Even the revolutionists," the Russ adds, "are not traitors. They are fighting the present rotten bureaucracy, and not the mother country. They would not tolerate a disgraceful peace."

Universal regret is expressed in official circles at the retirement of M. Delcasse, until recently French minister of foreign affairs. He was regarded as a true friend of Russia, and was a personal friend of Foreign Minister Count Lamsdorff, and was a sincere and unequivocal supporter of the dual alliance. The Novoye Vremya says: "We know how to appreciate true friends, we have so few of them." The Russ considers M. Delcasse to be the victim of trying to play the impossible role of a connecting link between two rivals, Russia and Great Britain. The Slovo says: "M. Delcasse's policy was ever directed towards the isolation of Germany, but he forgot that an alliance with Great Britain would ruin any political system aimed against Germany. The British alliance has not helped France in Morocco, but it has embroiled her with Germany. M. Delcasse pays the penalty by resigning as complications can be easier avoided with him out of the cabinet, and his retirement will not affect the dual alliance."

KAISER'S & ROOSEVELT'S VIEWS ON PEACE COINCIDE

Berlin, June 8.—The interviews between Kaiser Wilhelm and President Roosevelt, which have been the subject of much speculation, have resulted in the President and the Emperor finding that they had identical views on the subject of peace and were nearly of the same opinion as to the method of drawing Russia and Japan into negotiations. The joint view appeared to be that others, including France, and Great Britain ought to be left out because to be sure of a community of views all along would be a slow and cumbersome business and would impress Russia as taking on the character of outside pressure. This is precisely what the Associated Press is informed President Roosevelt and Emperor William wish to avoid. They wished the Emperor of Russia to take the initiative and sought only that he should avail himself of the American and German governments as instruments for making the first steps toward peace easier. The Russian government was informed through Count Cassini, Count Alvensleben, the German Ambassador at St. Petersburg, Mr. Meyer and Count von Ostensacken, the Russian Ambassador at Berlin, of what the United States and Germany were seeking, so that Ambassador Myers' audience of Emperor Nicholas was prepared for the fullest manner.

The understanding here is that Emperor Nicholas went so far as to say to Ambassador Meyer that he would like to know what Japan's terms would be. This inquiry was not to be construed as asking for peace, but only as telling friends that before taking so grave a step on their advice the Russian government might propose and naturally desire to know through these friends how Japan regards peace. Japan, it is believed in government quarters here, will lay down specific peace conditions, far more reluctant than at any stage of the war because preparations have been made to carry the campaign to Russian territory, take Vladivostok, and then exclude Russia from the Pacific. Unless her high conditions are completed, this is a crude expression of what is thought to be Japan's immediate policy.

THE COWBOY PREACHER TAKES A TRIP.

Bellingham, Wash., June 8.—"Cowboy Preacher," well known in northern Washington, has left for Newberry near here, at the invitation of fifty citizens.

Forty thousand dollars in gold, representing six weeks' clean-up of the fifteen-stamp mill at Postlambert Mine, Mt. Baker district, has just been brought to this city.

WHIPPING-POST LAW FOR WIFE BEATING.

Bellingham, Wash., June 8.—Despatches from Portland tell of the first enforcement yesterday of the whipping post law for wife beating, adopted by the State of Oregon last winter. Careless McMinimy was sentenced to twenty lashes. He was stripped to the waist, manacled and with his hands tied to a door, was whipped by Jailer Grafton of Portland, under the supervision of Assistant county Physician McCormack. The convicted man had brutally beaten his frail wife.

JAPS OFFERING BRITISH STEAMER'S CARGO FOR SALE

Nagasaki, June 8.—It is reported here that the Japanese are offering the cargo of the British steamer, Oldhamia, recaptured by them from the Russians, for sale.

SETTLEMENT OF STRIKE NOT IN VIEW YET.

Chicago, Ill., June 8.—Peace in the teamsters' strike seemed today as far away as ever. Settlement with the Express Companies and a demand by the unions that police be withdrawn from wagons and the calling off of the strike were apparently insuperable obstacles to an adjustment. With peace efforts again coming to naught, the prospective spread of the strike to truck stores, followed by members of the team owners' organization was today a vital issue again.

FITZSIMMONS AND SCHRECK WILL FIGHT ON JULY 3RD.

Salt Lake City, Utah, June 8.—The date of the Fitzsimmons-Schreck fight has been changed from July 4th to July 3rd.

SERIOUS CHARGES AGAINST EX-CASHIER

Philadelphia, Pa., June 8.—A warrant has been sworn out for Geo. G. Glenn, for many years cashier of the Postal Telegraph Company, in this city, who is charged with the embezzlement of \$12,000 from the company. He is a fugitive from justice and a warrant has been offered for his arrest. The warrant was issued at the instance of the Bankers' Surety Company, of Cleveland, which went on his bond. In the warrant Glenn is charged with having also forged a check for more than \$9,000.

LADYSMITH TOWNSITE & WATERWORKS INCLUDED IN E. & N. DEAL

BRITISH SUBMARINE BOAT LOST

Of Her Crew of Eighteen Fourteen Meet With Death

Three Explosions on Board Cause the Fearful Disaster

Plymouth, June 8.—Submarine boat "A 8" was lost off the breakwater here this morning. Three explosions are said to have occurred on board before she foundered. She had on board eighteen officers and men, including her regular crew of men who were training. Fourteen of the number were drowned, and the others were picked up. The disaster occurred while the "A 8" was proceeding to sea for practice, accompanied by another submarine boat and a torpedo boat. Three explosions were seen from the shore to occur on board the "A 8", which suddenly disappeared. Tugs and divers immediately proceeded to the scene.

The sinking of the British submarine boat recalls the sinking of the submarine boat "W 5" off Queens-town February 16, as the result of explosions on board that vessel, and the sinking of the submarine boat "A 1" off Portsmouth March 18 last year, as the result of being run down by a steamer while the submarine boat was submerged. The explosions aboard the "A 5" were reported as being so violent that it was heard ten miles away, and shook the submarine's convoy, the "Hazard", from stem to stern. Six men lost their lives and twelve were seriously injured in this disaster. The disaster to "A 1" was even more appalling. She was submerged near the naval lightship off Portsmouth when she was run down by a steamer of the Donald Curry line and all on board of her, eleven officers and men, were drowned. The loss of the submarine boat was not known for some hours after the liner had reported to the maneuvering fleet that she had struck a torpedo, and after a long search the ill-fated submarine was discovered. It was presumed that the steamer in striking the submarine boat upset her and spilled the gasoline in the tanks, rendering her helpless. The crew were battered down and were suffocated by the fumes of gasoline.

BREAKS IN THE CHAMPLAIN

Canal is Badly Damaged and Will be Tied up for Two Weeks

Port Edward, N.Y., June 8.—The whole Champlain canal will be tied up for at least two weeks and a large outlay of money will be required to repair damages as a result of breaks in the canal here and at Mosekill during the night. At this place the east and west banks of the river were washed out, the viaduct which conveys the water from East creek under the canal was seriously damaged and a hole 150 feet long and extending 20 feet below the level of the canal was torn in the embankment. All the water in the canal on the five mile level ran out, flooding lands in the vicinity, destroying crops and stranding many canal boats. The damage caused by the leak at Mosekill was of a similar nature but not so extensive as here.

IMPERIAL MANIFESTO DOES NOT MAKE ITS APPEARANCE

St. Petersburg, June 8.—(11.40 a.m.)—Ascension Day, one of the most important of the Russian religious holidays, was not marked by the appearance of the expected imperial manifesto on the subject of the projected national assembly.

BRITISH AMBASSADOR AT MOROCCO

Picturesque Ceremony Attends Presentation of Credentials to Sultan

Mr. Lowther Assures Moroccan Ruler of British Friendship

Tangier, Morocco, June 8.—Gerrard A. Lowther, British Minister to Morocco, presented his credentials to the Sultan today. The ceremony was attended by the customary picturesque Moroccan display. Mr. Lowther in his speech assured the Sultan of the sincerity of King Edward and of the British government in their desire for the welfare of Morocco and their earnestness for the maintenance of the power and authority of the sultan. The latter reciprocated the wish for a continuance of the traditional friendship between the two countries. Through the interview the Sultan was impassive, almost indifferent. The political situation remains belogged and will not be cleared up until Mr. Lowther has a private audience to the Sultan. It is reported that private offers have been made to the Sultan of a loan of \$25,000,000 and it is alleged that the offer is supported by American capitalists, but a suitable guarantee remains the difficulty, as the customs are pledged to France for the next fifteen years.

INSIDE OF TUNNEL ON FIRE

Timbers Catch Light and Traffic is Hindered

Denver, Col., June 8.—Word has been received at the general offices of the Denver and Rio Grande railway that a fire has broken out among the timbers in the tunnel at Ruby, 24 miles west of Grand Junction, and has temporarily stopped traffic between Denver and Salt Lake City. The tunnel is only 580 feet in length and arrangements for transferring passengers from one side to the other are being made. The origin of the fire is unknown and it is fast burning itself out. It will be several days before traffic through the tunnel will be resumed.

BRITISH AND AMERICAN YACHTS ENTER FOR RACE

London, June 8.—The British yacht Valhalla and the American yachts Atlantic, Autowana and Apache, which recently took part in the trans Atlantic race for the Emperor of Germany's cup, have been entered in the race for auxiliary steam yachts from Dover to Heligoland, which will take place June 17th.

VANCOUVER LIBRARY ROBBED

Vancouver, B. C.—A burglar stowed himself away in the Carnegie library last night after it had been closed for the night. He ransacked the museum, located on top floor, securing a number of coins, gold nuggets and gems, the latter being from the collection of Rev. Dr. Rowland D. Grant, formerly pastor of the First Baptist Church here and who is now engaged on a lecturing tour in the States. From this collection, which had been placed on exhibition as a loan, the burglar secured about \$5,000 worth, while many specimens cannot, probably, be duplicated. The burglar must have hidden away while the librarian was closing up as the front door was not tampered with and a window in the basement was found open through which he departed.

Ladysmith is Now a C. P. R. Town and the Great Railway Company is Identified With its Prosperity

With the Great Coal Mines Still Owned by the Wellington Colliery Co., Working Steadily This Should be the Best City in the Province

It is learned on authority that the sale of the Esquimalt and Nanaimo Railway's stock to the Canadian Pacific Railway Company includes the land grant and also the unsold portions of the city of Ladysmith, including the waterworks system complete.

What this means to the well wishers of this city can scarcely be at first appreciated. Who ever knew a town in which the C. P. R. was largely interested in that did not prosper, if prosperity was at all possible?

The transfer of the C. P. R. of the entire interests of the E. & N. took place yesterday. The employees now in charge of the Company's interests will continue as heretofore until July 1st. The deal is exactly as stated in The Ledger a week ago, on the authority of Mr. R. Marpole, although at that time details were not obtainable.

The Wellington Colliery Company retains certain water rights and a strip of land 50 feet wide each side of the washer flume. Also certain other water rights toward Nanaimo River. Also all lands lying along the water-front below the tracks, out as far as the gravel pit, except that the C. P. R. have certain wharf and brackage privileges. All present employees will be retained in the service of the C. P. R. so far as is now arranged.

Certain officials of the C. P. R. will be along the line accustoming themselves to the conditions, etc. for handling their new property during the balance of this month. After this month everything will be under the directions of the C. P. R.

The Colonist of this morning says: Transfers and agreements under which the C. P. R. obtained the stock of the E. & N. Railway Company from the owners were signed yesterday afternoon. The old board of directors, consisting of James Dunsmuir, president, Joseph Hunter, vice-president, and Messrs. J. Little, J. A. Lindsay and Hon. C. E. Pooley, resigned and a new board was appointed as follows: William Whyte, A. R. Creelman, R. Marpole, J. S. Dennis and J. W. Troup. Mr. Whyte subsequently being elected vice-president. The transfer includes the railway and land grant, the latter amounting to approximately one million and a half acres.

ELECTRIC EXPERIMENTS

Lynn, Mass., June 8.—To demonstrate how little danger there is in electrical force when properly handled, Professor Edith Thomson, of this city, yesterday permitted over half a million volts to pass through his body without displaying the slightest tremor or experiencing the slightest physical discomfort from the test. The demonstration was made for the benefit of the Commercial Club of Boston. Professor Thomson adjusted a special apparatus to his body and a high frequency current was used. Suddenly there was a flash from the finger tips, and great sparks flew in to the air, illuminating two incandescent lights that were held two feet from the fingers.

JOCKEY EXPERIMENT OPERATED

New York, June 8.—Jockey Eugene Hildebrand, who established last season a new record for winning mounts, will be allowed, it is understood, to resume riding when the meeting at Sheepshead Bay opens one week from today. Hildebrand was suspended recently for the remainder of the Gravesend meeting by the stewards' president because of his handling of H. P. Whitney's Duenna in a race won by a heavily backed filly named Last Cherry. Through investigation that followed reference to the case was made to the Jockey Club and it is now understood that the lad has been practically exonerated of any wrong doing. He claimed at the time that one of his stirrups broke, preventing him from riding out the Whitney filly.

MARINE

Tug Otter and scow are in for coal for Victoria.

S.S. Freighter came in last evening from Todd's Inlet. The cement was on C. P. R. cars and taken by the Transfer to Vancouver.

S.S. Venture will be in for lumber coal and cargo this evening.

Ladysmith was invested yesterday by a large swarm of bees. They came from the direction of Chemainus and settled in the sea garden belonging to Mr. Dunsmuir, at the top of the hill.

RUSSIA HAS INVITED PEACE OVERTURES

Desires to Learn Japan's Disposition and Terms of Peace

British and American Influence Relied on to Move Japan

St. Petersburg, June 8.—President Roosevelt, striving with excellent prospects of success to end the war, is now the central figure of the world's stage. One of the main obstacles, it seems, will be overcome once Japan and Russia have agreed to accept his good offices for the arrangement of peace negotiations. The belligerents are expected to be able to arrange peace terms direct. The President is believed to share with Emperor William the belief that the belligerents should be allowed to settle the actual terms without outside interference. Evidence also exists that President Roosevelt has secured the support of several continental powers and at the proper time they will stand at his back.

Just what is transpiring at Washington has been carefully guarded, and the outside world is at sea, but indulges in speculation. If Japan proves moderate in her demands peace seems at last to be close ahead. An armistice probably will be the first evidence the world will have that the belligerents have agreed to shake hands.

Paris, June 8.—It is definitely known that the Russian foreign minister, Count Lamsdorff, seconded by M. Witte, president of the committee of ministers, has invited overtures through the Russian representatives abroad to learn Japan's dispositions and terms of peace. These overtures, it is said here, began three days ago, and were the basis of the decidedly more hopeful view which the officials began to have.

The British and American influence are chiefly relied on to move Japan now that Count Lamsdorff and M. Witte have made the preliminary approaches. Diplomats here hold the view that Tokio would prefer to continue the war until Vladivostok is taken and all the territory up to Lake Baikal is under Japanese control. The diplomats also believe that Tokio will hesitate to lay down terms until it is clear that the Emperor is willing to treat for peace.

It now transpires that Ambassador Meyers' audience with Emperor Nicholas had been preceded by a family council at Tsarskoe-Selo, at which it is understood the decision was reached that peace was entertained if Japanese conditions were not too onerous.

THE WAR.

The war in the East would at first thoughts seem to be pretty well over, but is it? It is, as press despatches affirm, the determination of the Emperor of Russia to continue the fight he may prolong the war indefinitely, provided internal conditions in Russia do not force him to make peace.

The reports, not yet authentic, however, that Japan will demand Saghalien Island, to retain Port Arthur, that Vladivostok be surrendered, that Manchuria be given back to China, and that Russia pay Japan \$1,000,000,000 is a demand which Russia could not meet, and there is no reason why she should, for Japan has really got everything in the East which Russia had except Vladivostok, and that is only a question of time, but Japan could not successfully invade Russia, and the Czar's army could be kept below Moscow and yet in touch with its base of supplies and keep Japan constantly on the alert to protect her holdings in Korea and Manchuria. Of course, if Japan makes common cause with China, as might be done, it would be of vast assistance to the Mikado's men, but Russia cannot pay such a vast indemnity. It would be also late ruin for the Czar to attempt to make peace on such terms. While Japan has won everything and has all that she could hope to win in the East excepting to capture Vladivostok, she has not yet finished the fight. It would be far better for civilization if Japan would make terms with Russia which would give Japan what she requires, more territory for the growth of her vigorous people, and not demand of Russia the impossible, the payment of such a large sum of \$1,000,000,000.

The Economiste Français of Paris estimates the world's gold production for the current year at \$160,000,000. Last year's production amounted to \$358,000,000.

She—Has your wife improved since she began to have her voice cultivated?

He—Yes, considerably. When she calls me down I notice that it is in a more musical tone than it used to be.

A FIGHT WITH A COUGAR

As a result of a desperate conflict with a cougar, Mr. William Rogers, of Gladwin, near Lytton, has lost an eye, besides receiving other serious injuries.

Mr. Rogers took to the woods with the avowed intention of slaughtering wild cats, but the first animal that he met in an appearance was too much for the hunter, and when the clouds of battle had rolled away Mr. Rogers had come to the conclusion that he could get no more of the scoundrel. He was tramping through the bush when he saw an exceptionally large cougar a few paces ahead. He raised his gun and fired, but succeeded only in breaking one of the animal's fore-paws. Infuriated by the pain of its wound, the huge cat crouched to spring and like a flash of lightning Rogers saw the tawny body hurtled through the circumambient atmosphere in his direction. He dodged the furious paws, but the cougar lit heavily on his back, and then began the fight out of which the hunter came second best. In the struggle the animal's claws tore one of Rogers' eyes from its socket, ripped his clothes into shreds and left a number of painful scratches on his back, neck and arms.

The injured man tramped back to the settlement, where he had his wounds attended to. Quite a number of hunters are out looking for the scalp of the cougar, which is thought to be the same one that killed nine of Mr. L. D. Loring's sheep a week or so ago.

Bellingham, June 7.—The new laws passed by the Washington Legislature at its session last winter are going into effect today. Among them is Hunter's license act, state license issued by state auditor, residents \$5, non-residents \$10. Non-resident aliens, \$50. County licenses good only in the county issued. Residents of state, \$1.

FOR DISPOSAL OF MINERALS.
ON DOMINION LANDS IN MANITOBA THE NORTHWEST TERRITORIES AND THE YUKON TERRITORY.

Coal—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—Persons of eighteen years and over and joint stock companies holding free miners' certificates may

obtain entry for a mining location. A free miner's certificate is granted for one or more years, not exceeding five years, upon payment in advance \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the loc or vein. The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

WHITTOME

When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2 1/2 per cent. of the sales of the products of the location. Placer Mining—Manitoba and the N.W.T., excepting the Yukon Territory—Placer mining claims: generally are 100 ft. square, entry fee \$5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive, entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, \$10 per annum for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year and \$10 per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate. The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying a fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200. A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon official Gazette.

Petroleum—All unappropriated Dominion lands in Manitoba, the Northwest Territories, and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospecting, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth.

Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well will be sold to the prospector at the rate of \$1.00 per acre and the remainder of the tract reserved, namely, 1,280 acres will be sold at the rate of three dollars an acre, subject to royalty at such rate as may be specified by order-in-council.

VICTORIA, B. C.

HUSBAND IN JAIL

WOMAN IN JEANS
Helena, Mont.—While her husband is serving a forty-day sentence in the Silver Bow county jail, imposed by United States judge W. H. Hunt, for violating an injunction issued by that court restraining operations in certain mining property, Mrs. Charles L. Geyman is acting as manager of the property, and not with indifferent success, either.

Mr. Geyman is a member of the legislature from Silver Bow county, was a mayoralty candidate last spring, the nominee of the labor party, withdrawing in favor of John MacGinnis, the successful nominee, and is the first man to suffer actual imprisonment by order of court during the famous Butte copper mine controversy, which has raged with more or less lull for more than twenty years.

Geyman and the Boston and Montana companies have adjoining properties on the flat below the City of Butte. Adjacent property was in dispute between them, and until its final determination, Judge Knowles issued an injunction restraining the Geyman company from working therein. The Boston and Montana declared that this was being violated and Geyman was cited to show why he should not be punished for alleged violation.

A hearing was had lasting more than a week, but the evidence adduced by the respective litigants was so contradictory that Judge Hunt sent an expert and surveyor to Butte to make an independent examination. It was upon their evidence that Judge Hunt ordered his incarceration in jail for forty days, and assessed costs of the proceedings amounting to several thousand dollars, against the Geyman company. The Boston and Montana company charged that Geyman had looted the property of more than a million dollars worth of ore.

Geyman was in jail, and it was up to his wife to do something. Nothing daunted, she donned boots, overalls and jumper, and with a strap for a belt assumed command of the Geyman property, which would be heavily damaged if allowed to remain idle through water cave-ins, etc.

"Yes," said Mrs. Geyman, as she emerged from the Yankee Boy mine, dripping wet and with blue mud bespattered over her boots and jumper. "I'm running this mine and mill. I've got thirty men working for me and I'm making money. They may keep my husband in jail, but while I have health the Yankee Boy will run. Taking off an old slouch hat, Mrs. Geyman shook off the damp of the 300-foot level, showing a wealth of black hair coiled and knotted in artificial grace. Mud-besmeared, soaked to the skin with copper water, darkened by the powder smoke, Mrs. Geyman was still a strikingly beautiful woman.

"We have been under tremendous expense here," continued Mrs. Geyman, "but we are making money. Our output is sixty tons a day, with a value of about \$15 a ton gross. We mill our own ore. I've got thirty as good boys working for me here at there are in the world. I am operating the Larson mine with a force of ten men, the Yankee Boy with ten and ten men run the mill. There is nothing for me to do but wear men's clothes.

"The mill is full of revolving shafts, and you know what a skirt would be in the levels of a mine. These boys have every respect for me, no one need ever worry about me. I can take care of myself," and her large black eyes denoted more than words her spirit of determination.

"As far as Charlie's imprisonment is concerned, I am sure the court did what it thought was right, but we feel that we have been imposed upon in a shameful manner by the big company. It took the weight of evidence and Charlie lost out. These same people could come here tomorrow and swear that I was doing the same thing I suppose.

"Since I took the management of the mine I have done nothing but take out ore. I have done no development work as we need the money. I have to go down in both mines every day and superintend the work in the mill. We have two motor engines, one to operate the water power and the other for the crushers, as well as a steam engine for the crushers. The expense here is \$300 a day, but we are making money.

"Yes, I run the engine, too, when there's nobody else to do it. There's no trick about that with this little machine. I push cars and do anything that's needed just the same as one of the boys, although I'm not much good behind a shovel. It's a tough game, but I'm going to stick with Charlie and see this thing out."

And there was a suspicion of tears in Mrs. Geyman's eyes when she spoke of her husband, which spoke of the woman's warm heart beneath the blue jeans, but there was also a flash of fire in the dark eye, which carried conviction that she was there for business, and would protect her rights.

LOCAL ITEMS

FOUND

A ladies' fur coat, which was left in the Ladysmith Opera House about March 20. The owner can have the same by calling at the office of J. Stewart, identifying the same and paying for this notice.

Dr. R. B. Dier is again in Ladysmith and can be found at all hours at his office on High street.

The Rev. Boyle has had remarkable success this year at poultry raising. Some of his poulets, only four months old, have already commenced to lay.

The local Church of England Tennis Club has now a large number of members and is enjoying the splendid recreation the game affords. The court which the game affords. The court improves as time goes on, and is stated by those in a position to judge to be one of the best earth courts in the province.

Those people who require the services of a good dentist will do well to call on Dr. R. B. Dier, who from now on can be found at his office on High street at all hours.

Fresh Jersey Cream at 25 cents per pint at Simon Leiser & Co's, Ltd.

Photographs—Today and Monday, June 19th, the studio will be open at Ladysmith. Cabinets, \$2.50 per doz and up. Fricke & Snelmeck.

THE PETITION MADE TO THE CITY COUNCIL

Mr. J. Gould has requested the Ledger to publish a copy of the petition made to the council re telephone posts. It is as follows: Ladysmith, B.C., June 5 To the Mayor and Aldermen, Gentlemen—We, the undersigned, being property owners of Ladysmith and residents of the Esplanade, do positively object to any permanent obstruction being placed on the centre of the above street, and would ask your board to have them removed at once to the same lines as on other streets in Ladysmith.

ISAAC GOULD, D. R. Haggart, Mrs. A. STEVENS.

As reported in these columns on Tuesday, the council were also in receipt of a letter from the Lumber Co. asking permission to let the posts remain as they were. After some expression of opinion, the council decided, upon a motion by Ald. Bevi eridge, seconded by Ald. Malone, to file both letters and to grant the request of the Lumber Company providing that if the posts at any time became a public nuisance they should be removed at the expense of the Company.

FOR OR AGAINST IMPROVEMENTS

General discussion among taxpayers throughout the city indicates that a very large proportion of them are in favor of a streets improvement by-law. It is not, apparently, a question as to whether it would improve conditions—all agree on that—it is simply with some a question of fairness. A man, for instance, says: "I have done at least \$20.00 worth of work on the street in front of my lot; or I have built a trail from a point to another street up to my house; or, 'I have laid down or contributed so many dollars toward a sidewalk. How am I to get even when my neighbor has done nothing?" Others say: "In case such a by-law becomes operative all of the city money might be spent on street that do not benefit me." And yet almost every man who has been interviewed concludes by agreeing that until such a by-law is passed we can not have a prosperous city, that is, one with modern improvements and progressive.

There seems to be very little disagreement among the public except as to details. There should be no trouble about arranging them if men will be reasonable. A man who has put in a bridge or laid down a permanent sidewalk that is in general use could, perhaps, be allowed a certain per centage on the actual amount laid out. The city would have to borrow a sum of money by issuing

debentures and streets and sewerage improvements provided for. If this were done, undoubtedly private enterprise would install an electric lighting service on terms reasonable to consumers, and, as is now usual, under a charter whereby at any time the city can acquire the plant on terms reasonable. Usually this clause reads "At not more than 20 per cent. of actual cost of construction."

All citizens will agree that good streets and sidewalks, proper sewerage and an electric light service is what is required. Are the improvements worth making the effort to secure? Surely no good citizen is going to let an affair of a few dollars more than their neighbors have expended, or the fear that the street they do not live on will be more forward, stand in the way.

SPORT

JIU JITSU PROFESSOR

Yanagata, the jiu jitsu professor, begged for mercy after a bout which lasted about eleven minutes, at Sohier Park, Montreal, recently. Trembley, the French-Canadian, was entirely too much for him, and when the two most murderous jiu-jitsu tricks were barred, catch-as-catch-can methods proved far superior to the Japanese ones. It took Trembley about three minutes to get Yanagata down hard, and then with a sort of combination hold and half-nelson he kept him down, pressing his head and shoulders sideways on the Jap's body with such force that he virtually choked the latter into submission.

Get your Sunday Colonists at Knight's

JAPANESE HEADQUARTERS REPORT SMALL SKIRMISH Tokyo, June 5.—Imperial army headquarters made the following announcement today. At 11.30 o'clock on the morning of June 7th a body of Russians, some 100 strong, advanced from the direction of Smolensk about a mile and a quarter east of Vinnytsien, but were met and repulsed by us on an eminence lying north of that place. The enemy fled in confusion towards Nemyrly, seven miles northeast of Vinnytsien. One soldier and two saddle horses were captured. With the exception of skirmishes between scouts on both sides there is no change of report.

HOW THE JOCKEY CLUB ACTS TOWARD THE RING

The English Jockey Club ignores the bookmaker and his claims, and although there are rules governing betting and all classes of wagers, no mention is made of the layer of odds or what his qualification must be to figure in the ring. Any man can make a book provided he is able to pay his debts; it is not necessary for him to have the sanction of the paddock, and there is no synchro to dictate to him where he may pitch his stool, in the "front" or otherwise. Still, there is the regular army of men who follow bookmaking as a livelihood and who among themselves observe certain rules

turf. H. H. Fry, a big bookmaker, was delegated to lay the project before the stewards—Lord Durham, Lord March and Mr. Holdsworth. Furthermore, Fry stated that the reputable bookies were willing to pay a high fee for the licenses, and should be devoted to the raising of a detective force to be placed at the disposal of the Jockey Club. The scheme came before the stewards at the Houghton meeting and was immediately referred to the executive. At the same time the stewards wanted to know if the denizens of the "ring" were unanimous in agreeing to the fee, and on learning that there was a kick in some quarters, the matter fell through. This was the first and last attempt made to register bookmakers in England, or to gain any recognition from the Jockey Club.

But although the Jockey Club pays no heed to betting there are two courts, which handle all bets. These are the committee of rooms at Newmarket and the committee at Tattersalls. They have a code of law which, though never included in the book-catalogue, are referred to on all occasions necessary and are considered binding by everybody in connection with the turf.

NEWFOUNDLANDERS USE WHALE MEAT

Whale meat is coming in on the market, says a St. John's despatch. The flesh of the deep sea leviathans looks and tastes so much like beef that the difference is scarcely noticeable. It is so cheap that if competition makes it necessary it can be sold for a cent a pound, and still leave a margin of profit. There is as much meat on a seventy-ton whale as on 200 fat steers. If the public takes kindly to it the beef trust may have competition from an unexpected quarter.

The meat may be a little coarse in quality, but it is claimed to be as nutritious as beef. The company preparing whale meat for the market has already sold several lots to merchants in the West Indies, and the poor natives have bought it without hesitation. It is really better food than they have been accustomed to having. If it were not for prejudice it is certain that the consumption of whale meat would have been universal before this, because it is both nutritious and cheap. Now that the process for curing the flesh of the monsters has proved successful, it is likely that the promoters will begin an advertising propaganda to educate the people to its use. It seems as if good meat at a cent a pound could find a ready market.

The whale stations in Newfoundland are the first to attempt to save all portion of the sea monster, by saving having doubled its value. Formerly the blubber was cut away and then the carcass set adrift, but now the entire body is saved, including even the bones and blood. One of these modern stations will kill one of four seventy-ton whales in twenty-four hours, having the oil ready for shipment in barrels, the meat pressed in casks, and the blood, bones, and refuse reduced to powder in a packet in sacks.

This is extraordinary when the price of the prey is taken into consideration.

and regulations which take the place of a code of printed laws.

In 1832 an attempt was made to get the Jockey Club to sanction a license system for bookmakers, in order, it was said, to protect the public from the wretched and dishonest characters that follow the

has an opening big enough to accommodate even larger objects than the body of a man. It is not unusual to find portions of an octopus weighing several tons when the stomach of one of them is dissected.

PHILADELPHIA WOMAN ON PHILADELPHIAN WOMEN In the current number of Lippincott's Magazine there appears a deliciously keen sketch called "Philadelphia in June," by an ex-member of Philadelphia's smart set who now lives in England. In it she expresses herself as follows:

"The average Philadelphia woman is surprisingly wide. Hawthorne's description of the stout Englishwoman is far more applicable to the Philadelphia of mature age. She carries about the broadest of evidence of good living, while surely most Englishwomen look abstemious and athletic. The happy Englishwoman can exercise at all seasons; her

Ah Wing & Co. Merchant Tailors

PERFECT FIT GUARANTEED LADYSMITH, B. C.

athletic energies are never squelched by such unendurable heat as now poured down on the sunny side of the 'train, where I shared a bench with one of the broadest specimens of our sex. My face streamed, my kid gloves became soaked and stained and had to be thrown out of the window, the sleeves of my organdie dress printed their flowery pattern on my arms, a scorching, cinder-laden wind blew in at the windows and powdered all these damp places with ashes. I became a limp, dirty, dilapidated scarecrow. Pleasant villas flew past our sight, clusters of villas in villages all new, consisting mainly of wide verandas furnished with rocking chairs and sun blinds. In the gardens were great beds of canna's and hollyhocks, hydrangeas and many flowering trees, and the low wire fences were covered with honeysuckle. No inhabitants are visible, for it is their wise custom to spend much of the day in darkened retreats and dressing gowns while the glaring sun scorches down his track. At last my station!
