THE LADYSMITH DAILY LEDGER

VOL., 2 THURSDAY June 21, 1906 PRICE FIVE CENTS

WILL BOX ON DOMINION DAY

Jeff Hannay has Made Arrangements to Pull off Boxing Match with J. Morton July 2nd

Jeff Hannay has completed arrangements for a boxing contest with Joe Morton, champion welter weight of Chicago, the contest to take place here on July 2nd, probably in the Finn Hall.

Mr. Hannay has had considerable difficulty in securing permission, etc., to pull the event off on celebration day, but yesterday he made a special trip to Wellington, where Mayor Nicholson is at present, and arranged with His Worship that the match take place. That is, Mayor Nicholson stated that if the city police were satisfied that no trouble would ensue in the way of disturbances, etc., caused by the match, it could be pulled off. Regarding the use of the Opera House, of which Mr. Nicholson is owner, he was more reticent, and stated that Mr. Hannay would have to make his arrangements with the sports committee. This morning the members of the committee were seen by Hannay, and he was informed that it would be impossible for the boxing match to take place there on the evening of the second, as the committee intends to start the ball at an early hour. Accordingly, Hannay is obliged to abandon the idea of the Opera House, but says he can fight just as hard in the Finn Hall, and will be there with the goods.

Kelly, the man with whom Hannay at first intended to box, has been taken sick, and is unable to appear, but after considerable correspondence he has arranged that Joe Morton, the Chicago man, take his place and as Hannay was agreeable, the match will come off. Morton is good, all right. He weighs 145 pounds, and has been seen in action on the coast. In Vancouver he fought Joe Summers to a standstill, and according to the press reports, he was in the game all the time.

The bout is to be a ten-round affair, and will be refereed by a man who understands the business. It will be preceded by two good preliminaries.

In order that all excursionists may catch their return trains, the match will be pulled off at an early hour, and will be over by 9:30 at the latest.

JOE MORTON, of Chicago.

KILLED BY FALLING TREE

Vancouver, June 21.—Warned by his comrades to look out for a falling tree, Wesley Haynes, a logger in a camp on Howe Sound, stepped, as he thought, out of danger, but a moment later the very tree he was avoiding fell in a different direction hurling him to the ground, where subsequently his comrades picked up the crushed body and did all they could to alleviate his sufferings. But his back was broken, and all their kindly efforts were performed in vain. He lingered for a few hours, and then death came as a merciful release. The remains were brought down in a rowboat to this city on Monday, on which day the accident occurred, and left at Kemp & Simpson's parlors, where an inquest was held in the afternoon at 4 o'clock. The deceased, who was about forty-five years of age, was an American citizen, his home being in Iowa, U. S.A. He was well known in this city, having been a resident in the province for 14 years.

"When boating with a stout damsel," remarks an urban philosopher, "never speak of the boat's precious freight. The precious part may sound pleasant, but the freight part is apt to make her mad."—

LOCAL SCHOOL PROGRAMME

Tomorrow the examinations at the public school for high school entrance will be completed. There are about sixteen pupils trying for entrance, and Principal Shaw, of Nanaimo is conducting the examinations. The programme which appears below will be in effect tomorrow, and one at all interested in school work, will pass a very interesting day by attending tomorrow. The programme is as follows:

1.—School Work. Various rooms, 9 a.m., to 10 a.m.
2.—Programme. Various rooms, 10 a.m., to 11 a.m.
3.—Exhibit. 11 a.m., to 12 m.
4.—Exhibit. 2 p.m., to 5.30 p.m.

All are cordially invited.

1,304 MINERS KILLED.

The number of persons killed in the mines and quarries in the United Kingdom last year was 1,304, according to the blue-book just issued. This is an increase of 102 compared with the previous year.

Nearly a million persons were employed in the mining industries. The output of coal for the year was 236,128,936 tons, the largest ever recorded.

EAGLES MAY HANDLE EXCURSION FROM VICTORIA

At their meeting last evening, the local aerie of Eagles decided to take over the management of the excursion trains from Victoria to Ladysmith on July 2nd, provided they can obtain the same terms with the railway officials as were offered to the Victoria Eagles, but which were rejected by that body. Today Messrs. Davis and Stewart are in Victoria, having gone down today, and will interview Mr. Courtney of the Railway Company, and if terms can be made they will at once notify the local lodge. A committee was appointed last evening to act in the event of arrangements being made with the railway company, and they will take charge. It will probably be necessary for at least one committee man to be on each excursion train run on that day, and one or two will spend some time in Victoria previous to the second, making the final arrangements, advertising the excursion, etc.

SWALLOWS A MOUSE

An English exchange says: On going into the pantry of her parents' house at Swansea on Friday, Olive Dring, a child of four, found a little mouse on the shelf, and as she was in the act of coughing the animal jumped into her mouth.

The mother, hearing the child's smothered screams, ran to her help. The girl pointed to her mouth, murmuring "mouse," and then fell panting to the floor, as the horrified mother saw the mouse's tail disappear down her throat.

A doctor was sent for and the next night the child seemed little the worse for her strange experience.

LOVE-LETTERS OF A KING.

A collection of 335 love letters written to an English King has been sold at Sotheby's. They were written by Dorothy Jordan, the once famous actress, and the recipient of the missives was the Duke of Clarence, known to history as William IV.

These letters were given to Lord Frederick Fitzclarence by Queen Adelaide on her taking possession of the Bushey House, the residence of the Duke of Clarence, and they give a full and minute description of Mrs. Jordan's theatrical life, as well as much curious information on the political and Court life of the period. They abound with expressions of her attachment to the Duke and her solicitude for the welfare of her children.

Towards the close of 1811 it was agreed that she and the duke should part, and the concluding letters give a minute account of the circumstances attending this, to her sad event, and of her taking leave of Bushey House.

Receiving an annuity of £4,400, Mrs. Jordan died five years after the separation in a shabby house at St. Cloud.

Practically all the letters are unpublished, and the other day they were acquired by a Mr. Dale in competition with Mr. Quaritch for £335 or just £1 per letter.

"INVASION" OF ENGLAND.

During next year the public will have an opportunity of seeing foreign soldiers, uniformed and under arms, marching through the streets of English Towns.

These soldiers will be the Albany Burgesses Corps from the city of Albany, New York, who are passing through London and some other English towns during 1907. The privilege of wearing uniforms and arms has been specially granted by the Army Council.

£400 FOR A STAMP.

Of all Australian stamps the rarest is the 1d blue of the first issue with the swan inverted. Its rarity is so great that only nine specimens are known, one of which raised £400 some time ago.

Another copy came to the hammer at a sale held by Messrs. Venton, Bull & Copper, when the bidding, which commenced at £100, ceased at £400.

REFORM POLICY IS BEING PUSHED IN SEATTLE

Seattle, June 21.—Carrying out his policy of reform, Chief Wappenstein has decided that owners in the restricted district will be fined as well as those who run houses of ill-fame. The chief's investigation has disclosed the fact that of the thirty-one houses of ill-repute in the restricted district, twenty-seven are owned by William Chappelle, and the others are owned by H. B. Kennedy, Eugene Levy, Adam Orth and Frank Buty.

These men are to be assessed the same as the other landlords and denizens of the tenderloin. With the new system of assessment the tenderloin revenues to the city will foot up $4,196 monthly, which is practically twice the amount which was formerly collected.

In connection with the above it is agreed that this policy of reform is all right for Seattle, but may be bad for some of the neighboring cities. Former residents of the restricted district are evidently leaving the city for other fields, as this morning two arrived in Ladysmith, who claimed they had come over on the Seattle boat to Nanaimo, and from there had taken train for Ladysmith. Evidently Ladysmith did not appear good to their taste, as they returned to Nanaimo on the noon train, after having paraded the streets and making themselves generally conspicuous.

"BLOODLESS SURGERY"

The statement that the Armour child is again back at Dr. Lorenz's private hospital in Vienna may mean much or little as to the success of "bloodless surgery" in her case. The congenital malformation from which she suffered seems to have been of a aggravated type, difficult to cure with any variety of treatment, blood less or otherwise.

She may have returned simply for an examination as to results, or for further treatment in continuation of the original replacement. It certainly seems improbable that if Dr. Lorenz's treatment was considered a failure by the family, they would continue to patronize him. The widespread publicity which attended the Vienna surgeon's visit to this country gave currency to some rather absurd opinions regarding the efficacy of his so-called bloodless surgery.

This method of treatment has not a few disadvantages and dangers arising from the rupturing and bruising of the tissues which inevitably accompany the replacement of the dislocated bones. It is further stated by the old-fashioned surgeons that cutting operations were at least as successful as the Lorenz method, and really less dangerous. Statistics regarding the results of Dr. Lorenz's operations in this country seem to bear out these statements, his cures ranging from but fifteen to twenty per cent.

The justifiable conclusion, therefore seems to be that bloodless surgery is useful in families where there is a prejudice against the knife, possible also that in careful selected cases, it is preferable to the cutting operation; but in the main its percentage of cures of congenital dislocations or malformations is not materially higher than that obtainable by the older forms of surgical treatment.—New York Globe.

To enable busy married women if they become anxious to telephone home and inquire as to the condition of their children, telephones are fitted in every private box at the London Coliseum.

"ZOO" REFUGEE.

A fine black vulture which recently escaped from the Zoological Gardens, London, has been captured at Waltham Abbey by means of a cunning ruse.

The bird was seen hovering about the roof of Carr's Mill. Attaching a dead pigeon to the end of a string a Mr. Bell placed the bird on a board outside one of the mill windows. The lure being gradually drawn back into the mill, the vulture followed suit near enough for Mr. Bell to seize it around the neck. The vulture was turned loose in the lion's paddock at the Zoo some three weeks ago, with one joint of his wing tied up with a tape. This he succeeded in unwinding, and then flew off.

Last year he also escaped, flying over his keeper's head as he entered the cage. On that occasion he was caught in a rather unsportsmanlike way, for his wife was brought from her cage, her wing was "hobbled," and when he came to greet her affectionately he was netted.

This time, however, his wife's presence proved no inducement to him to return. There was a serious family quarrel this spring. The lady laid her eggs, and, as is usual among black vultures, called upon her spouse to "sit" and hatch them out. This he declined to do, and his good lady had this additional responsibility thrown upon her hands, while her lazy husband looked on with his hands in his pockets, so to speak. She was so irritated that a series of fights resulted, and much blood and feathers were lost.

VANCOUVER MAN DISAPPEARS MYSTERIOUSLY

Vancouver, June 21.—William Shearer, a well known young man who until recently was employed at the Cascade laundry, and who is a member of the local regiment, has disappeared from his home and his absence is causing much anxiety and uneasiness to his young wife and his parents. Shearer left the house, 528 Helmcken street, where he and his wife roomed, on Sunday morning at eight o'clock, remarking to Mrs. Shearer as he went out of the door that he would be back in an hour for breakfast. Since then, no trace can be found of him. His pareatives on Richards street and are utterly at a loss to understand what can have become of him. The disappearance was reported to the police by Mrs. Shearer's father, who lives at 600 Prior Street. So far as can be learned by his relatives and friends there was no possible reason why he should have left home in such an unexpected fashion, but it is not thought that he has met with an accident, and they expect to hear from him at any time.

THE NEW TUG CLAYBURN

The new tug Clayburn, Capt. Foeliner, arrived in port this morning to bunker coal, from Vancouver. This is her first trip out, and she has proved more than satisfactory in every way.

The Clayburn was built at the yards of Wallace Bros. on False Creek, Vancouver, for Armstrong, Morrison & Co., and her name would indicate that she is to be used in connection with the brick and tile plant which her owners have established at Clayburn on the Fraser river.

The new steamer which was built at a cost of $22,000, is 86 feet over all, with a beam of 18 feet and a draught of 11 feet, and is equipped with a Board of Trade boiler which carried 200 pounds of steam. Her engines, which were furnished and installed by Messrs. McKee & Baxter, of Glasgow, Scotland, are of the triple expansion type, 8½ x 14x23, with a 16 inch stroke, and an indicated horse-power of 200. In addition to this she is equipped with a patent steam capstan, which is set in the deck well forward, and a steam winch aft for shortening up and hauling in the towline.

The most prominent feature in the construction of the Clayburn is the wide departure that has been made from time-honored custom of attaching the steering gear. She has no rudder post, and the whole weight of the rudder is borne by the quadrant, which in turn revolves in a groove fitted with a roller-ball bearing. This and other features which have never been adopted on this coast renders the Clayburn the most modern and up-to-date towboat operating from this port.

The Prince and Princess of Wales tour through India cost more than $500,000.

The King of Siam's palace is surrounded by high white walls which are a mile in circumference.

ATTRACTION IN OPERA HOUSE THIS EVENING

Miss Olivia Dahl, the great Norwegian singer, whose music has taken critical Victoria by storm, came up to Ladysmith by this morning's train with Miss Gina Smith, the pianiste, and Mr. C. H. Gibbons, under whose management the ladies are touring. Yesterday was very pleasantly spent at Duncans, where a concert was given to the capacity of the hall, and still another triumph added to the singer's goodly score. Miss Dahl was in splendid voice and aroused her auditors to an unwonted pitch of enthusiasm as demonstrated by double and treble encores, and continued beers after her more popular numbers. Parties attended the concert practically from all points within a radius of 20 miles, one group of ladies and gentlemen, twelve in number, came 12 miles by hand-car for the greatest musical event in Duncan's history, and others by bicycle, and horse, from 15, 18 and even 20 miles away. And all would welcome an opportunity to again hear the singer, even with a repetition of the incidental inconvenience. After the Duncan concert, an informal reception for Miss Dahl and Miss Smith was held by the ladies of St. Peters, which continued until almost midnight, and enabled many to form the acquaintance of the famous artiste. This evening Miss Dahl and Miss Smith appear in the Ladysmith Opera House, which should be crowded as it never was before. It is a significant testimonial to the growing importance of Ladysmith that a singer of the standing of Melba, Gadski or Dolores should appear here, and adequate recognition should be made from civic patriotic motives as well as for the love of music. Although Victoria is asking for still another concert by Miss Dahl, it is expected that the concert tonight will close Miss Dahl's Vancouver Island engagements, as she requires some rest before embarking on what promises to be a very busy Eastern tour. Concerts are arranged or in view for Chicago, St. Paul, New York, Cincinnatti, and all the other big population centres; while in Boston it is most probable that she will again appear as festival soloist with the Boston Symphony Orchestra—the greatest musical organization in America.

MISS DAHL.

New York, June 20.—A special cable despatch to The Herald from Panama says:

The Herald correspondent in Guatemala cables that Gen Lopez, from Salvador, invaded Guatemala near the Pacific coast, with 2,000 men mostly Salvadorean and partly Guatemalan rebels. They met a superior Guatemalan force and retreated into Salvador after a short action.

The rebels' invasion from the Mexican side near Autlan was a disastrous failure 200 being killed or drowned in seeking to recross the frontier river. The rebellion has been crushed on both frontiers. There are no enemies on Guatemalan soil. The interior towns and the capital are perfectly quiet.

The rebels are watching for a raid from Salvador, but there is no chance of success. The American government is trying to oblige the Salvador government to stop the rebels covertly.

CHINESE OUTBREAK FEARED

Victoria, June 20.—General Dessino, a noted Russian military officer who was stationed at Shanghia in charge of the Russian Far Eastern Intelligence bureau during the war, arrived here today on the steamer Empress of China, accompanied by his family and Lieutenant. Col. Bondareff. In an interview, General Dessino said he expected another Chinese outbreak before long, not so mush a rising similar to the boxer outbreak, as a general patriotic movement to free China from foreign restrictions. Within the last two years there has been a growing movement to secure China for the Chinese without foreign interference and before he left Shanghai this movement was assuming an alarming phase. The Russian evacuation of Manchuria, he said, was proceeding satisfactorily and affairs were peaceful in Manchuria and Siberia, the reported rioting at Harbin and Vladivostok, mainly due to social propoganda, having been settled settled. Reports of the brigandage in Manchuria and North China was being circulated, he said, by the Japanese in order to furnish excuse for their delay in losing Manchuria. The Japanese were causing considerable annoyance to merchants in the Far East by their manner of restricting the trade of Manchuria from all others but their own nationals although professing to open various cities to general trade.

TWELVE MILLIONS FOR SAN FRANCISCO

Washington, June 20.—A tacit agreement was reached today by President, Secretary Shaw and the delegation of representative citizens of San Francisco by which substantial aid will be given San Francisco by the government.

It is proposed that the United States treasury deposit with the San Francisco banks $12,000,000 of government money with bonds of the city as security for the deposit the money to remain in the banks until such time as the government may call for it. This is not to be before a number of years, so that the banks have practical assurance that they may retain the deposit for such a period as will be of value in the reconstruction of the city.

Under the law, the secretary of the treasury has the authority to depos it government funds in this way.

He cannot, of course, bind his successor to leave the money on deposit, but he himself may leave it there until it is needed by the government. It is proposed in California to organize a corporation with a capital of several million dollars, composed of prominent and influential men throughout the state of California and other states and to issue bonds to guarantee government against loss through the banks.

Other plans have been suggested for the raising of money to enable the people of San Francisco to rebuild their homes and business houses, but thus far nothing has been proposed that will meet the ideas of Congress.

Franklin K. Lane, former attorney for the city and county of San Francisco, and once a Democratic candidate for governor, and Judge W. W. Morrow, of San Francisco, headed the San Francisco delegation which called on President Roosevelt today. They told him that it was important that the banks should have assurance that the government money deposited with them could remain there for several years.

With the assurance of the secretary of the treasury that he will leave the money with the banks for a period of time, it is expected that the banks will purchase the city bonds to be used as security for the government deposits, thus releasing government bonds now held for similar purpose.

HOW TO BREAK UP A COLD
It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold is a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's Cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by Ladysmith Pharmacy.

NANAIMO B. C.

NOTICE TO CONTRACTORS.

Ladysmith Wharf.

SEALED TENDERS, properly endorsed "Tender for Ladysmith Wharf and Approach," will be received by the undersigned up to noon of the 30th inst., for the erection and completion of a wharf and approach at Oyster Harbour, Ladysmith, B.C.

Drawings, specifications and conditions of tendering and contract may be seen at the office of the Public Works Engineer, Victoria, B.C., at the office of the Government Agent, Nanaimo, B.C., and at Ladysmith, B.C., on and after June the 18th.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the undersigned, in the sum of two hundred ($200) dollars, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so.

The cheques of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer will be required to furnish bonds himself and two sureties, satisfactory to the Chief Commissioner, in the sum of eight hundred ($800) dollars each.

Upon the execution of the bond the cheque above mentioned will be returned to the contractor.

Tenders will not be considered unless made out on the forms supplied and signed with the actual signature of the tenderer.

F. C. GAMBLE,
Public Works Engineer.

SUNSHINE FURNACE

When you retire you know your house will be comfortable during the rest hours if you have a "Sunshine" in your cellar.

Will burn all night without using much coal, and in the morning you need only pull up the damper chain to produce a quick, strong fire, and enough hot air to heat your house from garret to cellar in a short time.

The "Sunshine" has labor and fuel saving features not found on any other furnace. You should examine them before buying.

Sold by all enterprising dealers. Booklet free.

TRIAL STILL PENDING

So much interest has been manifested in this city and district over the trial of Western Federation of Miners officials on the charge of complicity in the murder of Ex-Governor Steunenberg of Idaho, that an account of the present status of the famous case would not be out of place.

The following story in reference to the affair clipped from the United Mine Workers Journal of recent date is as follows:

The trial of Charles H. Moyer, president; William D. Haywood, secretary and treasurer and George A. Pettibone, former member of the executive committee of the Western Federation of Miners charged with the murder of former Governor F. Steunenberg of Idaho began last Monday before Judge Frank T. Smith, and it promises to be one of the most sensational trials ever held in this country.

Organized labor of the entire country is vitally interested in the trial believing that the charged are the result of a conspiracy on the part of the mine owners and the state officials to hang the leaders of the Miners' Federation for the purpose of breaking up the union and dealing organized labor a death blow.

The fact that the men were kidnapped from their homes in Colorado lends color to the suspicion.

The state bases its case on the alleged confessions of Harry Orchard and Steve Adams, who were also under indictment. Orchard and Adams are expected to swear they were paid assassians, and that the death of Steunenberg was part of a vast conspiracy formed by the inner circle of the Miners' Federation, and that among the crimes committed as a result of the conspiracy was twenty-six murders. Orchard declares he was alone in the execution of Steunenberg. He says he first planned to shoot Steunenberg with buckshot, but he abandoned this plan and hid a number of shot cartridges under a sidewalk where they were found by a detective.

Orchard is also expected to tell of his selection to assassinate a justice of the Supreme court of Colorado. He buried a bomb at the justice's gate, and when he pulled the string it failed to explode. He took the string away and gave up the attempt. A detective since dug up the bomb.

After Steunenberg's death a reward of $10,000 was offered, and Orchard and Adams were arrested and made alleged confessions.

On the other hand the defense will endeavor to show that the entire prosecution is a plot. They will introduce evidence to show that the bomb dug up and the cartridges found under a sidewalk were plants. Prof. A. H. Lowe, one of the leading experts on explosives in the West will testify that had dynamite been buried as Orchard alleged, it would have been transformed into nitroglycerine and would have exploded when being dug up by the Pinkerton detectives.

"I should hate to dig up a wooden box containing nitroglycerine," the professor remarked recently. "old dynamite is always more explosive than new dynamite. Nitroglycerine is apt to go off at the slightest jar."

Other witnesses will show that Moyer Haywood and Pettibone always opposed violence in settling labor troubles.

Upon the opening of the case attorneys for the prisoners filed notice of twenty-six alleged disqualifications which should prevent District Judge Frank Smith from sitting as trial judge, and gave notice of a motion for a change of venue.

Among other points, it is alleged that Governor Frank R. Gooding has issued a public manifesto, declaring the guilt of the defendants and that he has the proof of their guilt. Attention is called to the fact that Judge Smith is an appointee of the Governor, and it is asserted that he is subject to the influence of the Governor. The manner of drawing the grand jury in this county is also attacked.

Before taking any notice of the motion in behalf of the defendants, James R. Hawley, the chief prosecutor, filed affidavits setting forth the present status of the habeas corpus proceedings taken to the United States Court on appeal from the Federal court for the District of Idaho. He said the trial of the defendants could not proceed until the habeas corpus matter should be disposed of by dismissal or final decision in the Supreme Court.

The Judge took the matter under advisement and adjourned the court.

Mrs. Moyer and Mrs. Pettibone were present, but the three defendants were not brought into court.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father, (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of Interior

LEAVE RUSSIA ALONE.

London, June 20.—In the House of Commons today, Walter Runciman, parliamentary secretary to the local Government board, on behalf of the Foreign Secretary again declined to inform the government of Russia of the views of the British people concerning the anti-Jewish outrages. He said that the impression made and the sympathy aroused not only in this country but everywhere by the disturbances and loss of life in Russia were well known to the Russian government, and they were not matters in which official diplomatic intervention was usual or desirable.

GIVES WAY TO FRANCE.

Tangier, June 20.—The Morrocan government today announced that it yields to the French demands for an indemnity for the murder of M. Charbonnier, a French citizen as the result of which a French squadron was despatched to Tangier.

London, June 20.—The Tribune's correspondent at St. Petersburg asserts that Emperor Nicholas is urging General Trepoff to organize a cabinet, and that the Emperor has summoned M. Podonsoeff, former Procurator of the Holy Synod to an audience tonight. A despatch from Rissean to the same paper reports that the Bolchieff regiment has mutinied and killed several of its officers.

TRACKED.

"What do you mean by our 'running expenses' being 'too heavy'?" demanded Mrs. Gayboy.

"Er—racehorses," reluctantly explained Mr. Gayboy—Chicago Tribune

UNKNOWN FRIENDS.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of the remedy. They have done much to make it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by Ladysmith Pharmacy.

"I notice that in some of those Down East towns they recommend pepper for strawberries to increase their digestibility."

"Well, any man who will stop to think about digestibility when eating a strawberry deserves to eat the pepper alone."—Cleveland Plain Dealer.

DOINGS OF A "GHOST"

Strange unaccountable things are befalling in the neighborhood of Lamberhurst, Kent. The villagers are convinced that they are sheltering one of the most enterprising, audacious working "ghosts" recorded in the annals of the unseen.

At the Furnace Mill, owned by Mr. J. C. Playfoot, a well-to-to farmer and hop-grower, the "ghost" has established its headquarters.

Mr. Playfoot, interviewed by a press representative, said: "It is important to know that I have not discharged anyone, that the approach of any stranger would be disputed by two watch-dogs that would not stand on any ceremony, and that I carry in my own pockets the key of the mill, stables, hayrooms, and other buildings.

"Despite all these precautions locked and bolted doors swing open, the horses are changed from stable to stable, are sometimes turned round in their stalls so that their backs are against the mangers, and are often seen to run shivering and startled into the road."

Then Mr. Playfoot detailed what was perhaps the strangest "manifestation" of all. "About noon a few days ago," he said, "in the presence of my son I locked and bolted every building on the premises and went into the mill-house for dinner. Suddenly I heard a startled cry from the lad, and rushing into the yard saw the door of the dining-room, only about ten yards away wide open. Within the room I heard the shouts of the lad, but before I could reach him the door silently closed. I seized the handle. The door was locked! My son was a prisoner inside. The key of the room was in my pocket. I unlocked the door and entered the room. Nobody was there except my son standing on the stairs frightened and pale.

TENDERS.

Tenders will be received by the undersigned up till June 26th, for permission to erect and conduct refreshment booths, etc., on the Bunker Grounds, and also a separate tender for same privileges on the Spit on Monday, July 2nd. Tenders for each place must be entirely separate.
