LEGISLATIVE ASSEMBLY

THE LADYSMITH DAILY LEDGER

VOL. 2, WEDNESDAY OCT. 4, 1905. PRICE FIVE CENTS

A PARTY OF NOTED MINING MEN

Party That Left for Nanaimo To-day are Mining Men of Standing

They Are Traveling Around the World Inspecting Mines and Mining Conditions

Messrs. J. G. Dixon, of Sheffield, England, J. A. Peacock, of Montreal, and A. Archibald, of Vancouver, left Ladysmith today via Nanaimo for Vancouver, and the two former will sail on the Empress of the 22nd. for Japan. The latter gentleman, who is only with the party temporarily, will not go further than his home at Vancouver. During a pleasant conversation with Mr. Dixon last night, he stated that with his associates he had visited every coal and quartz mine of note from Cape Breton to the Pacific. They will continue their trip, visiting and inspecting mines through China, Japan, Russia and other sections of Asia and Europe. They are simply gathering information for financial syndicates, Mr. Dixon being the metallurgist and Mr. Archibald the Mining Inneer. They visited the Wellington coal mines. They satisfied themselves from personal knowledge of the extent and great value of the Extension mines. They also visited the Tyee Smelter and yesterday, with General Manager Livingston visited the Moune Sicker mines. Without doubt, said Mr. Dixon, the Tyee Company have a more than valuable property, the ore averaging $22 per ton and of a quality easily smelted, gives magnificent returns. In the 1000-foot shot shaft at the Tyee mine Mr. Dixon says conditions are more than promising. The ore found at that depth gives evidence of permanence, high grade and large bodies. These, Mr. Dixon thinks, will be realized as work goes on. In fact, he stated that in his opinion the Tyee Company stood to make a very large amount of money out of their island properties.

Of the Britannia mines, he stated that the plant is the best and the engineering work in laying out the workings, the best in Canada.

Of the famous Nickle Plate groupe in the Similkameen country, only a shortage of water curtails the output, only 10 stamps are now running when there would be 120 or more if water were obtainable. As it is, he thinks other properties in that immediate vicinity are practically valueless beca se of this lack of water, as the Daly Company have all obtainable water controlled, and even then have not half enough for their own use.

Speaking generally, Mr. Dixon said that the mines of British Columbia have not yet reached the prominence in the mining world that Australia's have, but he believed with development and proper handling it would not be very many years until the Province would be in the first rank as a mining country. His reports are made to financial bodies with which he is connected, and they are used generally, when the time arrives. At any rate, judging from their earnest and enthusiastic statements last night, British Columbia will have firm friends in the persons of Messrs. Dixon and Peacock, now that they have seen its mineral richness for themselves.

THE ELECTRIC LIGHT PLANT OF KAMLOOPS

The following article, which was published in The Ledger a month since, is again published below, in order that any of our subscribers who did not look it over closely may do so now if they feel interested:

F. S. Reynolds, Esq., Ladysmith, B.C., Dear Sir,—In reply to your inquiry of the 30th ult., I would say that it is rather difficult to give you the information you desire. Our electric light plant is run in connection with our waterworks, both buildings using the same oilers, and are operated by the same staff. I send you, however, a copy of our financial statement, which shows how the operating expenses are divided between the two plants.

The main generating plant is capable of supplying 2,500 lights at one time, and although some 4,000 lights are installed, there will probably be no more than 2,000 lights in use at one and the same time. The auxiliary generator has a capacity of 2,000 lights, and is only used when the load is light.

The cost of installing the main and auxiliary plants, with switch-boards, pole lines, transformers, meters, and share of power house and boilers, was $35,000,000.

The current is supplied by meter, and the price charged is 25 cents per 1,000 Watt hours (which is equivalent to 1 per cent. per hour of a 16-candle-power lamp) with a discount of 25 per cent. for prompt payment, before the 10th of the month; but large consumers, such as hotels, which burn lights all night, get further discounts, according to the amounts of their bills.

The revenue for last year was $12-570.00, and the operating expenses $9,593.00, to which should be added interest and sinking fund.

The population of Kamloops is, I should judge, about 2,200, although the last census, in 1901, gave it as considerably less. Yours truly,

J. CARMENT,
City Clerk, Kamloops.

In the statement the balancing expense, by which it is shown that the cost of fuel is considerably more than half of the operating expenses, fuel in Kamloops being high.

Electric light working account:—Engineers, $2,518.75; fuel, $5,082.71; labor, $281.98; material, $948.72; oil, and waste, $115.72; insurance, $138.-58; freight, $144.13; repairs, $33.80; teaming, $225; blacksmith, $5.50; printing and stationery, $57.20; testing meters, $12.15; duty, $1.80; siding, $83.58; testing boilers, $15.45; postage, $2.25; expense, $14.35; sundries, $21.85; total, $9,592.97.

ARE CONSIDERING THE TREATY OF PEACE.

Tokio, Oct. 5.—A prolonged meeting of the privy council was held here this morning which was not concluded at noon.

The unusual length of the sitting shows that the matter before it is of unusual importance and it is believed that the treaty of peace with Russia is under consideration. Should the treaty meet with approval of the Council it will be ratified soon.

Edgington, West Va., Oct. 3.—Two women and four children were burned to death in a cabin home last night. The two husbands of the women escaped. Those burned were Mrs. J. Algo and her three children and Mrs. Jos. Cardelli and one child. Their charred bodies were found in the smoking ruins of the cabin.

DESPERATE EFFORT TO SAVE FATHER AND HUSBAND.

New York, Oct. 4.—Notwithstanding a desperate struggle of his wife and son to hold him by the feet after he had fainted and toppled over the sill of an open window, George F. Krapp, cashier of the Cooper Exchange Bank, fell to the street from the fourth floor of his home today and was killed.

DOES NOT LIKE CHINESE METHODS

Washington, D.C., Oct. 4.—Geo. L. Dobson, of Iowa, formerly a secretary of state there, has resigned his position as Consul General at Hang Chow, China, after but a very few weeks of work. He has written to friends here complaining of the mode of life of the Chinese, which he cannot stand.

PAT CROWE SAYS THE BOY

Put up the Job to get Himself Kidnapped

Thought His Father Would Come Down Handsomely

New York, Oct. 4.—A Butte, Montana, despatch to the World says that the man calling himself Pat Crowe, who was arrested in Butte monday night by two detectives after he had been about thecity for a week, made a statement last night relative to the kidnapping of Eddie Cudahy, declaring that the proposition to "work" the boy's father for a ransom came from the boy himself.

Edward A. Cudahy, jr., was 15 years old at the time he was kidnapped, Dec. 18, 1900, but, according to the account given by Crowe, the boy disappeared Novermber 18, 1900. Crowe gives the story of his life and says he was a prosperous butcher in South Omaha when the elder Cudahy came there, built a packing house, and drove him out of business. After that he went to work for Cudahy and thus became acquainted with the family. On Sept. 6, 1900, he met young Cudahy on the street, and Crowe says the boy at first broached the subject of working upon his father's feelings for a big ransom.

At first he paid no attention to the proposal, but it was repeated later, he says, and with such detail that he concluded togo into the alleged plot with the boy.

A third party was taken in, but he got frightened, believing that the scheme was a trap. The Cudahy boy, it is asserted by Crowe, proposed demanding $50,000 from his father, but Crowe and Callahan, the second party he took into the scheme, thought $25,000 was enough. The story of Crowe as to how the kidnappers worked, and how Cudahy was a leading spirit in the adventure, and never a prisoner is given. The three divided the $25,000, young Cudahy being given $6,000 as his share. He was then taken to his home and left a few blocks from the Cudahy house, Crowe says.

An Omaha special to the World says that Mrs. E. A. Cudahy ridicules the statement made by Crowe that her son Eddie himself was a party to the kidnapping, and that he received $6,000 of his father's money.

STEAMBOAT LINES HAVE THEIR TROUBLES.

New York, Oct. 4.—The cable announcement of the sailing of the Royal Mail steamer Packet Company's steamer Tagus from Southampton on Saturday for New York via the West Indies, inaugurated the new service of that Company between this port, Jamacia, Central and South Africa, and the Windward Islands, created considerable comment in transportation circles. Amil L. Boas, manager of the New York office of the Hamburg-American line, yesterday said:

"The Hamburg-American line considers this an interference with their business and in order to protect their interests they have given notice of withdrawal from the West Indian Conference, to take effect on Oct. 9th. The West Indian Conference includes all the lines from England and the continent to the West Indies, and the withdrawal of the Hamburg American line it is said, may precipitate a rate war on both sides of the Atlantic in the West Indian firld.

Although the agents of the North American Commercial Company, the lessees of the sealing rights on the Pribyloff islands in Behring sea, have periodically spoken of a decline in the seal herds, the number of sealskins taken on the rookeries and shipped from the islands during the past season totalled 74,368, as compared with 13,218 sealskins shipped during the proceeding yeae of 1904. These figures are given in a report of W. I. Lempsky, the United States agent on the rookeries of Behring sea. During last winter the company took 239 blue foxes and 135 white foxes on the islands. A close season will be declared this winter on St. Paul island.

BOMB THROWERS.

Tien Tsin, Oct. 4.—Six men, supposed ro be bomb throwers, including two without queues from Pekin, were handed over to the viceroy for investigation on Tuesday, Oct. 3.

A MATCHLESS PEARL IN A RING

A Potentate of Malabang, the Sultan of Yolo

Given to Miss Alice Roosevelt While on Her Travels

San Francisco, Cal., Oct. 3.—A matchless pearl, set in a ring worn by the Sultan of Yolo, was presented to Miss Alice Roosevelt by the potentate of Malabang, P.I., and he made the presentation because he thought he had been outdone in courtesy by a rival tribal ruler. The Sultan tore the ring from his finger and offered it to Miss Roosevelt. Her refusal would have meant offense to the Oriental ruler, so she gracefully accepted the gift.

Members of the Taft party told of the incident on arrival, and added that the daughter of the President almost became the innocent cause of a tribal war. When the Taft party arrived at Malabang, the Sultan took great care that the party was properly entertained. The tribesmen gave an exhibition of sports and games and the Sultan was dressed for the occasion in a suit of American clothes. In the evening he appeared in his full royal regalia, and presented Miss Roosevelt with several splendidly embossed bolos, spears and krisses. Miss Roosevelt seemed very much pleased.

Then came Jokanin, a rival chieftan, and with much ceremony offered a string of pearls as a gift. The gift of Jokanin seemed to please Miss Roosevelt more than the spears and bolos, and she danced away to show the pearls to her friends.

The Sultan faitly snarled at his rival and strode to Miss Roosevelt. He made a low obeisance and then offered the gold circlet that he had taken from his finger. Miss Roosevelt's smiles seemed to brush away his rage, for he cast a sidelong glance of superiority at the hated Jokanin.

TREATY PASSES.

Tokio, Oct. 4.—The peace treaty passed the Privy Council today.

A. SHRUBB IS SUSPENDED

New York, Oct. 4.—A special cable despatch to the Sun from London says: The Ameteur Athletic Association has permanently suspended Alfred Shrubb, the English champion distance runner, for malpractice in sports. Last August the Association refused him permission to go to Canada and the United States to compete for the championship there. Their reasons for the refusal were not made public. On August 7th, Shrubb won the five-mile run at Horsham in 24.51 1-5, which was .03 4-5 better than his own world's record. Then it was announced that he was going to Canada and the United States. Later Shrubb lost a half-mile race to J. McGough, the Scottish distance champion, and it was stated that Shrubb ran in very listless style. On August 15th the Association refused permission to make the trans-Atlantic trip.

TROUBLES OF THE GRAND TRUNK R.R.

Chicago, Ills., Oct. 4.—High officials of the Grand Trunk Railway have been called to Chicago to prevent a general strike of switchmen on the system, growing out of the walk-out of 75 men in the yards at Elsdon. Local officers last night admitted that the labor situation is growing more critical hourly. Fourth Vice-President McGuigan and General Superintendent Brownlee, of the Grand Trunk, will arrive from Detroit today and will confer with Division Superintendent F. W. Egan and his assistant, W. E. Costello. It is expected also that a conference will be held with a committee from the strikers in an endeavor to adjust the dispute.

Vice Grand Master James B. Conners, of the switchmen's Union, still hopes for peace, although the Grand Trunk officials have refused to consider the chief demand of the men—the re-instatement of the discharged members of the grievance committee.

BOARD OF TRADE SESSION LAST NIGHT

Transport ation Questions Discussed and Correspondence Directed

The Conditions of Wharf Road Discussed and Recommendations Made

There was a short session last evening of the Board of Trade, at which the President, Mr. W. A. Cornwall, presided. The minutes of last meeting were read by the Secretary, Mr. Robert Allan, and approved.

Some discussion followed the reading of Captain Troupe's letter, which was published a week since re the S.S. Joan. The secretary read his correspondence with Captain Troupe re the selection of Tuesday instead of Saturday for a steamer service to Vancouver; also relative to train connections with the boat at Nanaimo on Wednesday and Saturday evenings, all of which was approved by the Board and a vote of thanks tendered to the Secretary for his promptness in the matter.

The subject of the road across the C.P.R. tracks from the wharf was discussed, as was the repairing of the roadway up from the wharf. It was reported to the board by a member that Marshal Bray, government agent, would soon begin the work, having been so directed by the Government engineer, Mr. Gamble.

The Secretary was instructed to write Mr. Parker Williams, M.P.P., relative to the Gazetting the road as a government highway.

Correspondence in relation to keeping open the telephone officce until 10 o'clock, instead of eight, was read, a letter from Superintendent Kent saying that the revenue in Ladysmith was so small that he could not see his way clear to incur the necessary $25 or $30 per month extra for so arranging until the revenue is larger. Some further correspondence in reference to this matter was ordered, and the Board adjourned.

THE RACE WHEEL AT SPOKANE.

One of the many games for enticing a man into separating himself from his cash at the fair was a race wheel. The banker set three arrows going and the crowd threw its bets on the space taken by the horse on which he wanted to place his money. If the arrow pointed to his space he got his money back, and the banker paid him a similar sum out of the till. If two of the arrows stopped on one horse he got double the amount of his bet. This was the busiest of all the games. One girl went up against the game, placing her money on Hamburg. Hamburg won, and she chose Hamburg for a steady bet. Time after time she won, sometimes doubling the winnings, and it was observed that the young men about her followed her tip on Hamburg. At the last she was winner perhaps $8 or $10, and jumped the game.

"Not going to quit me?" said the race-track man, in a hurt tone.

"Well if you must, please bring some money back when you come again."

EVERYBODY INVITED to the Reception at the Opera House tonight. Admission and Supper Free.

Boston, Oct. 3.—What the police consider and important and promising clue to the solution of the Windhrop dress suit case mystery developed tonight. The mystery of the dismembered body of a young girl found in a suit case in the harbor remains unsolved.

The officers believe they have learned the name of the man who bought the two dress suit cases at the south end pawn shop and they have secured a photograph of the suspect.

It is possible they say that an arrest will be made tomorrow. The man whose name the police do not care to make known at this time is the manager of the office of a Tremont street doctor who is of doubtful reputation, and whose place of business has for some time been under the surveillance of the authorities. The police claim to have evidence that illegal operations have been performed at the doctor's office.

The photograph of the physician's manager has been shown to Timothy Howard a cab man all have identified the photo as that of the man for whom the police have been searching.

ALDERMEN DISCUSS THURSDAY'S MEETING

And Having no Quorum Spend an Hour in Talking Electric Light

All Agree That we Need and Should Have a Good, Water-power System

There was no quorum last evening so there was only an informal discussion of the electric light question at the council chambers, and the public meeting to be held on Thursday night. It seemed to be the opinion of the aldermen generally that a sufficient supply of water can be secured for running a plant, and it is quite likely that some declaration from the entire council on the subject will be made at the Thursday evening meeting.

All agree that it is in the interest of the city to secure, if at all possible, water power. In any case, the taxpayers can rest assured that every member of the council is anxious that no mistake be made, and will look closely into the question.

All who attend the meeting on Thursday evening will be well repaid by what they will learn, as to how plants are operated in other cities in the Province.

It is regretted by the entire council that the terms of holding the election are mandatory, and that the polls must be closed at four o'clock. Quite likely some arrangement will be made that the train arrive from the mine in time on Saturday so that all may cast their vote.

WHO ARE THE LADYSMITHMEN

A quiet but persistent report is going the rounds of two Ladysmith Nimrods who went hunting in the mountains back of town and made camp. After a reasonable rest, they started out hunting, and after searching for deer and grouse for a while, they began to search for camp. They slept in the open that night. The next day, half famished, they found their way to the city declaring like the big chief, that "Wigwam lost, not Indian." A few days after another party came across the outfit and, it is said, enjoyed themselves well. Now comes a Nanaimo story. As told by the Herald, it is as follows:

Constable Stephenson received word last evening that Jack Pearson, of this city, who had been lost on Black Jack Mountain since Monday, last night turned up safely at Wellington, after spending two days in the woods. It appears that the three brothers, Jack, Tom and Fred, went out early Monday morning for a day's hunt on Black Jack. During the course of the day Jack became separated from the other two, lost his bearings and was unable to get out of the timber before nightfall.

When he failed to put in an appearance before dark, Tom and Fred came to Wellington on Monday night with the news, and then went out again the next morning to see if they could find any trace of him, but none was to be found. Mr. Pearson's father, who resides at Wellington, informed Constable Stephenson yesterday afternoon of the facts and a search party was being organized to go out this morning in an effort to locate the missing man. This was not necessary, however, as Mr. Stephenson received word last night that Mr. Pearson had just turned up, having emerged from the bush at a point near Wellington.

Mr. Fred Bland who injured his knee some time ago and has been under the care of Dr. Wasson will be about again in a few days.

JOHN IS A GOOD MAN

Chicago, Ills., Oct 4.—"I would rather be John D. Rockefeller today divested of his wealth and with his lovable personality, than any of the crew, saints or sinners, who are attacking him." The foregoing is a quotation from an interview published today with Dr. D. K. Pearsons, a Chicago millionaire, nationally known as a philanthropist. Mr. Pearson continued:

"To the popular mind, excited now by socialistic outcries, there is no wealth that is untainted. This cry of 'Tainted money' is no gert. It is unfair, and not American. It has become the rallying cry of the Socialist, and the discontented member of society, who hates those whose wealth exceed their own."

Mr. Pearsons, after talking in this strain with vigor for some time, showed a recent letter which he had received from Mr. Rockefeller. Divested of personalities, it concluded: "Thank you for your kind words, good friend. I appreciate them. Life is short and you and I have too much to do in the world to be diverted from our purpose to try to make things better. Let us keep right on and do our best in our day and generation, rejoicing in the beautiful sentiment expressed by our lamented Lincoln 'With malice towards none and charity for all.' Sincerely your friend, John D. Rockefeller."

FINANCE MINISTER LASSEN SUBMITS BUDGET.

Copenhagen, Oct. 4.—Minister of finance Lassen today submitted the budget for 1906-7 to the Lower House. He estimated the revenue at about $21,427,000 and the expenditures at about $20,750,000. Minister Lassen is the first Minister of Finance to recognize in his budget the international chamber of agriculture, started under the auspices of the King of Italy, on the initiative of David Lubin, of California. The minister asks for an appropriation to enable Denmark to participate in the establishment of a chamber.

HOME BUT, LIKE McGINTY, VERY WET

Yes, said Mine Host Beveridge, of the Grand, cheerfully, last evening, we are home again, and excuse me, I will have no more Salt Spring hunting trips in mine. "Had a good time, didn't you?" queried the reporter. "Well," said Mr. Beveridge, "if you call it a good time to sit in an old, abandonted cabin without a door or window in it for two days, eating canned goods and watching it rain, yes. I had a way up time, still I've had enough. Now," he continued, as he cast a withering glance at Wm. Fraser who was comfortably sipping hot lemonade at the bar, "what do you think of a man who calls himself a friend and who deliberately abandons his party and strikes for a private boarding house where he can eat pie, drink tea, and have a mutton chop and eggs for breakfast, and sleep in a bed, who comes back to the old camp after the weather has cleared up and hopes we had a good time? That's Fraser, when he adds insult to injury by bringing in a bunch of pheasants and tells about shooting them through the window or off the porch of his boarding house." "Well," said Fraser, slowly and deliberately, for he is a man of few words, "I admit I struck it rich and rather forgot about the rain, and the rest of the party, but I am well pleased with the results of my trip. I left my rheumatism over at the Island and gained four pounds on the trip. I have no use for a man who goes out for a trip and comes home growling about the weather and other trifling discomforts. Next time I go for a little trip I shall select more genial company. good evening," and the Salt Spring hunting trip discussion was ended.

WEDNESDAY OCT. 4, 1905.

A PECULIAR CASE

Victoria is, as would naturally be expected, very much exorcised over a peculiar case which has just occurred nearby.

Henry Monteith, of Victoria first, set out on Saturday with John Russell on a shooting excursion in the vicinity of Goldstream. While asleep in the night he was shot in the foot by parties unknown. It was believed from circumstances connected with the shooting that it was due to an an accident, but tht person who fired the shot is unknown. The wound in itself is not regarded as serious providing no complications set in

Harry Monteith and John Russell went out on Saturday to near Goldstream. In the evening they selected a point off the Sooke or Nanaimo road as a place for spending the night. It had been used before apparently as a camping ground, and was about fifteen or twenty feet from the road. They had no tent, but had sleeping bags.

Making themselves comfortable for the night, Mr. Russell says he went to sleep to be aroused about 10:30 by Monteith, who was very much excited, and cried out that he was shot in the foot and that the dog lying between them was shot.

Russell found upon investigating that this was true. He could hear no one but suspected some one had inflicted the wounds accidentally. He shouted out, "You might come back and help us now," but no one responded.

Mr. Russell says they met on their way on that day two men in a cart, and Mr. Monteith knew one of the men. Mr. Ross, caretaker at the Goldstream waterworks, also saw a cart pass with two men about 10:10 that night. They had pit lamps. The bartender at the Goldstream hotel heard what he took for a cart drive past about 11 o'clock.

Sergt. Murray acting on the information available, is investigating the case.

THE HEIR TO THE THRONE OF JAPAN.

Royal names in Japan are not so easy to roll off the tongue as Togo and Ito. The crown prince is named Harunomiya, and his sisters are the Princesses Tsunenomiya, Kanenomiya, Fuminomiya and Yasunomiya. The crown prince had two elder brothers, but they died. He himself was unmanageable as a boy. A professor of Chinese literature, who used to give private lessons in the Chinese classics (which include Confucius' Book of Precepts), in the palace, was a stern disciplinarian. One day Prince Harunomiya refused to receive the lessons from the professor, because he takes the higher seat in the room than himself, who is the Crown Prince. The professor said: "I am taking the place of Confucius in teaching you the Book of Confucius, your highness. Confucius is above his scholars, whether they are ordinary men or imperial princes." But the crown prince did not acquiesce, and the professor had to resign. He was afterwards decorated highly by the Mikado.

When the young Prince was in the Peers' college he was a terror to the young fellow students, who, being sons of the feudal daimyos and other notables, had to submit to him in any quarrel, no matter whether he was right or wrong.

The crown prince is a daring young man. He has a consumptive tendency, and it is doubtful whether he would be alive today but for his out door dings. At 26 he is a splendid horseman. He is fortunate in his wife—Crown Princess Sadako. At 21 this sensible, robust and charming woman had borne him three sons. The elder, Michinoiya, is in line to succeed to the rulership of Japan. According to a writer in the Independent, the crown prince's household is conducted on the most refined European plan, adapted to the best Japanese customs.

All native born and naturalized Danes over 60 years old receive pensions of $2.50 to 14 a month, if unable to support themselves or their families.

LADYSMITH AERIE NO. 686, F. O. E. :—: :—: :—: :—:

Meets in the Opera House 1st and 3rd Tuesday at 7.30 p.m. Worthy President B. Forcimmer; Worthy Secretary, C. H. Rummings.

SYNOPSIS OF CANADIAN NORTH WEST MINING REGULATIONS.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—A free miner's certificate is granted upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet. The fee for recording a claim is $5.00

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the descretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

NOTICE.

From this date the undersigned will not be responsible for any indebtedness incurred except on a written order signed by the secretary Rowland Machin.

SEA GOLD

The salving operations at Tobermory recall other instances at attempts to win back lost treasure from the sea. A notable instance in which the efforts were crowned with success, occurred in the reign of James II., when some English adventurers fitted out a ship to explore the scene of the wreck of a rich Spanish vessel off the coast of South America. In this case £300,000 worth of bullion was recovered, after lying perdu at the bottom of the sea for 44 years.

The commander of the expedition, a Captain P hipps, had £20,000 for his share, while the Duke of Albemarle, one of the principal guarantors had £90,000.

Two other famous wrecks which have attracted the notice of speculators were those of the frigate Lutine lost on the bank of the Fly Island passage in 1790, and a Dutch East Indiaman, wrecked off the Texel in 1767. The first named had £140,000 in specie on board, while the Indiaman's treasure consisted of half-a-million sterling.

The Royal Charter, wrecked off the Welsh coast in 1859, was the best known instance of the loss of a modern treasure ship. Her bullion cargo from Australia amounted to about from Australia amounted to about £660,000, of which a large amount was recovered.

A different kind of hidden treasure was that discovered on board a Spanish register ship captured by the British in 1793. Part of the cargo consisted of bars classed in the invoice as fine pewter, which were found to be gold ingots, thinly coated with the commoner metal, in order to avoid a heavy duty on gold. Other items of the cargo consisted of 694 cases of silver, 33 cases of gold, besides plate and jewels.

A "CURE" THAT KILLED.

A terriable story comes from Campodi Marti, in Northern Italy. A fifteen year old boy, the son of a farmer named Emilio Conti, suffered for several years from paralysis and epileptic fits. The father, after numerous attempts to cure the boy, went to consult an old neighbor. This man bade him bury his son in soft earth, leaving nothing uncovered except the eyes, mouth, and nose, and to leave him in that position for five days.

Conti went home, dug out a hole in his garden, and covered up the body of his boy with the earth. He then mounted guard to prevent anyone from coming to release his son, and occasionally poured alchol into his mouth.

At the end of two days the police heard of the matter, and came to release the boy. It was then too late, however, for the boy died on his way to the hospital.

The father and his old advisor have been arrested.

MR. BALFOUR'S ADVENTURE.

The story of an incident which happened during one of Mr. Balfour's motor journeys is going the round of the press. With him was a friend, formerly in the House of Commons, and now recorder of a certain city. The chauffeur was signalled by a Surrey constable to stop. Mr. Balfour was his own chauffeur. The constable insisted that the speed was over the limit. The Prime Minister was sure it was not. "Well, look at your indicator." "Er—haw—well, I haven't an indicator," said the Premier sweetly, "but," with emphasis, "I've got a recorder." As the policeman did not know what that might be, and fearing to show his own ignorance if a prosecution should follow, he withdrew his hand, and Mr. Balfour and the recorder, all smiles, continued their drive. The constable heard them laugh, and scratched his head; but it was too late to do anything.

"These crooked councilmen of ours are just as bad a counterfeiters said Knox; "in the same class, in fact."

"Think so?" asked Dubley.

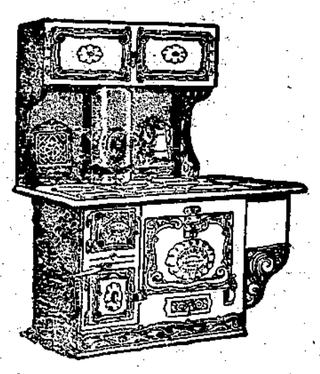
"Sure! They're forever making and passing bad bills." —Philadelphia Press.

Kootenay Steel Range

SAVES FUEL

It is not the first cost of a range which makes it cheap or expensive, but the amount of fuel it afterwards consumes.

If you buy a range a few dollars cheaper than a Kootenay, and it burns from 15 to 25 per cent. more fuel, what do you gain? Nothing; but you actually lose money, besides putting up with all the inconveniences of an old-style range.



The Kootenay is equipped with every known device for reducing the consumption of fuel.

Sold by all enterprising dealers.

Now the long evenings have come, get your reading matter at Knight's Book Store.

Mrs. J. Bland, wife of Superintendent Bland, of the water works system, received word last evening of the death of her father, an old pioneer. Jogn Crather, 78 years of age who died at his home in Victoria after a long period of poor health.

The boy who took the bicycle off the porch of a residence on First Avenue last week and, after using a day or two, left it near a road, where it was found, would do well to avoid such things in future. He will be more than likely to see the inside of a jail before many months if he continues to borrow things after such a fashion.

"THE HILL CLIMBER."
(With apologies to Wm. H. Longfellow)

Note—The writer was moved to write the following lines after listening to the complaint of a leading young financier, whose duties took him in the neighborhood of 4th Avenue after office hours to present a bill of exchange, on a wet, boisterous day, recently:

—o—

The Autumn rain was falling fast,
As up broad Roberts Street there passed
A youth, who had a little bill,
Drawn on a merchant, up the hill,
and
marked
N.
P.
"Try not the Pass," said B. and A.
'Tis really wrong to try today
To cross yon rushing stream, the which
Has burst its confines in the Glitch
I
must,
he
said.
"Oh stay!" one fair adviser said;
Dark lowers the tempest o'er head:
A rain-drop glistened on his nose,
And still he answered "Really, Rose,
I
must
go
on.
Thro' cold and rain he reached the store,
His manly form filled porch and door,
He got his bill accepted, and
Started, with Alpenstock in hand,
to
reach
the
town.
At breaking dawn, as up the heights
The miners came with pitlamp lights,
Our hero was at length revealed,
Damp and dispirited, and half congealed.
on
his
way
Home.

MUNICIPAL BYLAW

A bylaw of the Corporation of the City of Ladysmith to authorize the raising by way of a Loan a sufficient sum of money to construct an Electric Plant for the said Municipality.

Whereas it is necessary and expedient that the Corporation of the City of Ladysmith should construct a system of Electric Plant for the purpose of furnishing Electric light to the said City and inhabitants thereof,

AND WHEREAS a petition under Section (69) of the Municipal Clauses Act has been presented to the Municipal Council signed by the owners of more than one-tenth in value of the real property in the City of Ladysmith as shown by the last revised Assessment Roll, requesting the said Council to introduce a By-law with the objects herein set forth,

AND WHEREAS it will incurr an expenditure of the sum of $20,000 to construct the said Electric Light system and it is desired by the Council of the Corporation to raise such sum by way of loan upon the credit of the Corporation of the City of Ladysmith,

AND WHEREAS the whole rateable land and improvements of real property of the Corporation of the City of Ladysmith, according to the last revised Assessment Roll for the year 1904, was $407,265.00

AND WHEREAS the total amount required to be raised annually by rate, for paying the debt which will be created hereunder, and the interest thereon, and for creating an annual sinking fund for the payment off of the said debt and interest within 20 years is $1,800,

AND WHEREAS it will require an annual rate of 4½ mills in the dollar for paying such new debt and interest,

AND WHEREAS this By-law may not be altered or repealed except with the consent of the Lieutenant Governor in Council,

THEREFORE, the Municipal Council of the Corporation of the City of Ladysmith enacts as follows

(1.) It shall be lawful for the Mayor of the Corporation of the City of Ladysmith to borrow upon the credit of the said Corporation by way of debentures hereinafter mentioned, from any person or persons body or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of $20,000, currency, and to cause all such sums so raised or received to be paid into the hands of the Clerk of the said Corporation, for the purpose and with the object hereinafter recited.

(2.) It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sums as may be required, not exceeding, however, the sum of $20,000 in currency as may be required, each of the said debentures being of the amount of $500.00, and all such debentures shall be sealed with the seal of the Corporation and signed by the Mayor thereof, and countersigned by the Clerk of the said Corporation.

(3.) The said debentures shall bear date the 1st day of October, 1905, and shall be payable in 20 years from the said date at the office of the Corporation of the City of Ladysmith, Province of British Columbia, and shall have attached to them coupons for the payment of interest and the signatures to the said coupons may be written, stamped, printed or lithographed.

(4.) The said debentures shall bear interest at the rate of not exceeding 5 per cent. per annum from the date thereof which interest shall be payable half-yearly, at the office of the Corporation of the said City on the first days of January and July in each and every year during the currency of the said debentures as expressed in the debentures or coupons.

(5.) There shall be raised and levied in each year during the currency of the said debentures the sum of $1,000 for the paying of interest and the sum of $800 for the purpose of creating a sinking fund for the payment of the debt due under the said debentures, making in all the sum of $1,800.

(6.) For the purpose of payment of the said sums in the next preceeding paragraph mentioned there shall be levied in each year a special rate of 4½ mills in the dollar on all rateable land or improvements or real property in the municipality of the said Corporation of the City of Ladysmith during the continuance of the said debentures or any of them.

(7.) It shall be lawful for the said City to redeem all or any of the said debentures at par at any time after the expiration of five years from the date thereof upon giving six calendar months' notice, which notice shall be deemed to be sufficient given by a publication thereof four times in the British Columbia Gazette and although the holders of the debentures mentioned in such notice be not specifically named, and after the expiration of the said period of six months all interest on the said debentures, the numbers of which shall have been published as aforesaid, shall cease.

(8.) This By-law before the final passing thereof shall receive the assent of the Electors of the City of Ladysmith in the manner provided in the Municipal Clauses Act and amending Acts thereto.

(9.) This By-law shall take effect on the 9th day of October, A.D., 1905.

This By-law may be cited for all purposes as "The Electric Light By-law.

Read first time 11th September, 1905.
Read second time 11th day of September, 1905.
Read third time 25th day of September, 1905.

JOHN W. COBURN,
Mayor.
J. STEWART.
Clerk.

NOTICE.

TAKE NOTICE that the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at the City Hall on the 7th day of October, A.D. 1905, from 8 a.m. to 4 p.m.

JOHN STEWART,
City Clerk.

J. Stewart will be returning officer.
