U. S. DEMANDS REPARATION FROM SULTAN

New York, Sept. 29.—A Madrid despatch to the Sun says: A despatch from Tangier announces that an official of the United States legation at Tangier has gone to Foz under instructions from Washington to demand immediate reparation from the Sultan for the refusal of Mohammed Elterres, commissioner of Foreign Affairs at Tangier, to release an imprisoned man who is under American protection.

TRAIN WRECKED AL LOGGING CAMP SIX

News reached town this morning of a bad accident at Camp 6 early in the day. A locomotive drawing cars loaded with heavy logs was descending a steep grade, when it jumped the track and was percipated into a ditch, dragging all the cars with it. As far as can be learned, no one was injured, the engineer jumping from the locomotive before it fell. Particulars of the disaster are lacking.

SPORT

THE TURF—

Lexington, Ky., Sept. 29.—One of the greatest sales of thoroughbreds ever held will take place in December in New York, when the Ratchedelpaso stud, the great breeding establishment, will be disposed of at public auction. News of the determination of J. B. Hagging to sell his California property was received last night. Thirty-five stallions and over 600 brood mares, and a lot of young horses will be offered.

Athletics—

At the annual meeting of the Canadian Amateur Athletic Union, held at Montreal, it was decided to allow amateurs to play with professionals. As the result of this, the action of the Shamrocks in playing for the Minto Cup with the professionals of the S. L. A. and that of the capitals, in playing with the Tecumsehs, of Toronto, was sanctioned.

THE RING—

Said Joe Gans, the colored fighter, in Baltimore:

"Now that Nelson has defeated Britt I would like to have a chance with the victor. Nelson can claim the lightweight championship title all he pleases, but he will have to beat me to make sure that he holds it. I won the title fairly and squarely from Frank Erne in May, 1901, at Fort Erie, Canada, and I have never been defeated. I beleive that I am Nelson's master. When Sulivan fought Jimmy Britt on the Coast only a few months ago, I tried to get on a match with Nelson, but the latter would not talk business with my manager. I will fight Nelson under any conditions he wants, but he will have to be square with me in the matter of the referee."

Manager Al. Herford, speaking for Gans said that he would bet $5,000 to $4,000 that Gans can beat the Dane.

Bellingham, Wash., Sept. 29.— A Bellingham man who has lately returned from Spokane, declared that the forthcoming fight between Gotch and Weeks promises to be one of the greatest "dub" exhibitions ever pulled off in the Northwest.

"I watched both men at work," declares this prophet, "and it really looks to me as though some benevolently inclined persons or society should step in and have the fight stopped before it begins.

"Gotch is a wrestler, all right, but when it comes to handling himself in the ring he is not there. His opponent —Weeks—is a big fellow, but would probably put up just such an exhibition against a good man as the sports here witnessed when John L. Sullivan was in town.

"It looks to me as though the fight was a cooked-up affair and somebody is due to get bumped."

Both Gotch and his opponent, according to news received from Spokane, are working out with such men as Ashley, Joe Galaski, well known to Bellingham, and Barney Mullins. Barney is also remembered here as the pug who came from Sedro-Woolley.

Witnesses at training quarters say that Gotch works out with his trainer just the same as though he had to score a knockout every two minutes and handles his men rough. Galaski put on the gloves with him the other day and in the mix-up he took the count. When he got back to life again, he insisted that someone had hit him on the head with a scantling. Weeks performed about the same ceremony for his trainer, Ashley.

MARINE

S.S. Mystery was in with a barge for coal this morning.

S.S. Princess May arrived here for coal last evening. The steamer sailed south from Skagway on Saturday night last, and made a quick trip. Ninety-one passengers came south on the steamer, three of whom came from Ketchikan, five from Port Simpson and the remainder from Skagway. All the passengers were booked through to Vancouver. The Princess May sails for the north this evening.

YELLOW FEVER IN VERA CRUZ.

Mexico City, Sept. 29.—The superior board of health reports that there was one death from yellow fever yesterday at the hospital at Vera Cruz and that there are two other cases.

LIVES LOST AND PROPERTY DAMAGED

Fearful Havoc Wrought by the Typhoon in Island of Sagon

In Wreck of Leyte 11 Americans and 24 Natives Were Drowned

Manila, Sept. 29.—Reports now coming in from places along the path of the recent typhoon in the island of Lazon and the southern islands tell of great loss of life and property. In the waters surrounding Samar and other islands, many coasting vessels and island transport have been wrecked. The coast guard cutter Leyte is a compete wreck and eleven Americans and 21 natives were drowned.

At the town of Sorsogon 15 natives were drowned. The loss on hemp plantations is estimated at $1-000,000. The army transport Juan is ashore at Legaspi, *in the interior* of the Island of Samar.

Thousands of natives are homeless and the same report comes from many of the other small islands.

The army posts in the southern Islands have been destroyed. The civil military authorities are rushing aid to the suffering people in the form of supplies of food and shelter. Owing to the destruction of the telegraph system, reports arriving from other points are very meagre.

"How can I get the ladies of my congregation more interested in heaven?" sighed the earnest young rector of the fashionable church.

"You might intimate that things will be very exclusive there," replied the old preacher, sadly. "By such means you may be able to rouse a mild interest."

GAMBLERS BECAME TOO VENTURESOME

Owners of "City of Travellers" Sold Pools in Illinois Waters

Bills are Now Returned Against Promoters of the Scheme

Chicago, Ills., Sept. 29.— True bills were returned against the promoters and owners of the City of Travellers' gambling boat, charging the keeping of a common gambling house, and two indictments for conspiracy. Fourteen defendants were named in the bills. The evidence on which the indictments were voted related to a single occasion when the boat was said to have been in Illinois waters, when pools on horses were sold.

THE MAN WHO CAPTURED SAKHALIN ISLAND.

Tokio, Sept. 29.—(noon.)—Lieutenant-General Haraguchi, commander-in-chief of the Japanese military forces on Sakhalin Island, accompanied by his staff, arrived at the Uyeno railroad station this morning and was met by the minister of war and the Japanese consul general at New Chwang, representatives of the army and navy, and Viscount Tanaka, the household minister. Among those present were delegates from the different societies and representatives of the Ladies' Association who, in welcoming the General upon his return from Sakhalin, said: "We are sorry that only one half of the island has been taken, but that is no fault of yours." A statement which created much merriment.

General Haragushi took luncheon at the Imperial Army headquarters and then proceeded to the palace.

AGREE ON MOROCCAN QUESTION

Paris, Sept. 28.—The Franco-German accord upon Morocco signed today arouses the keenest satisfaction not only on account of Morocco, but chiefly because it terminates the suspense of months which cause disturbed the peace of Europe. Both the foreign office and the German Embassy were equally gratified to close the controversy. The accord is interpreted as a compromise in which each side secures advantages. Councellor Von Beulow's proposition to submit the Moroccan questions to a conference is finally realized, and M. Rouvier has carried his point of keeping France's special interests from the conference and restricting the questions within exact limits.

The diplomats considered the result highly advantageous in removing obstacles to a reapproachment between France and Germany. The official text of the accord says:

The negotiations between France and Germany on Morocca affairs have successfully terminated. Accord is reached upon a brogram comprising the organization of the police, the regulation and repression of contraband arms; financial reforms consisting principally of the organization of a state bank and also the best means of collecting duties and the creation of new means of revenue, and also the termination of principles destined to safeguard the economic liberty of Morocco.

The agreement then makes a special reservation to the frontier region between Angiers and Morocco where the maintainance of police will be regulated directly between France and the Sultan without submission to contraband in the same region also remains for France to determine with the Sultan. The two governments unite in asking that Spain accept Algeciras as the place for the conference. Upon the question of the recent loan to Morocco it is agreed that French bankers will participate with the Germans and there is to be a similar participation of French firms in building the harbor works at Tangier, if a French company offers terms equal to those of German contractors.

Finally the accord provides for the submission of the program without delay, to the Sultan and the signatories to the convention of Madrid. Upon the submission to the Sultan both the French and German missions now at Fez will return to Tangier.

NEW MOVE IN RAILROAD WAR

Oregon R. R. and Navigation Co. Make New Agreements

Admit C. P. into Columbia Basin to Compete With Hill Lines

Portland, Ore., Sept. 29.—The Oregonian today says: Retaliation on the Hill lines for building the Portland and Seattle Railroad to reach Portland by the water level route along the Columbia will come in the form of new traffic agreements, by which the Oregon railroad and Navagation Company will admit the Canadian Pacific into the Columbia Basin, through the Spokane gateway, it is said, and through such an arrangement use it as a weapon to combat the Northern Pacific and Great Northern, their most aggressive competitors for northern trade.

By such an adjustment, the present traffic agreement with the Great Northern would be abrogated and the Harriman lines would be in the advantageous position to offer northern routing where desired; either for freight or passenger traffic, and prevent either of the rival competing roads sharing in earnings derived by such service. It is claimed that Harriman interests have found it possible to enter into a sort of offensive and defensive traffic alliance with the line across the boundary, and will make the connection by means of the link now building and known as the Spokane International.

COMPANY HAVE STRUCK IT RICH.

Mr. Alex Johnson was one of the passengers on the steamship Princess May from Skagway. He says that the Marion Steam Pump Company, which is operating a gold dredge forty-nine miles up the Yukon River from Dawson, at the mouth of Bear Creek, is making a fortune every day of operation. The company did not expect to do anything but experimental work for the first season, but turned in such enormous heaps of yellow dust that the workmen kept right on digging away in the one spot, and have recovered over $200,000, or on an average of $5,000 a day. Mr. Johnson says the members of the company on the ground, who are from Detroit, say they are more than satisfied, and now that their success is assurred and they have acquired what ground they want, they are indifferent who knows it. He was told that some days the cleanup would be $3,500, which would, perhaps, be the lowest, and the highest was $7,500. The plant is operated by electricity, a powerhouse being erected on the bank.

CHANGES CONTEMPLATED ON THE E. & N.

While October 1st has been looked forward to as the date when the C. P.R. wage system and scale go into effect on the E. & N. it is considered by some very doubtful if such will be the case, for the change involves a great deal of labor, and it is thought questionable if this could be done in the time intervening. There are approximately 1,000 men employed on the road in various capacities, and this means that countless books have to be looked over. The time table, too, is a matter requiring much attention.

Heretofore wages on the E. & N. have been paid on a fixed monthly allotment; with no such things as extra mileage or detention time. By the adoption of the C.P.R. system of payment, the passenger train crews will each—that is each man—it is expected add materially to the monthly wage, while the freight train crew will benefit even more. The run from terminus, if the information is correct, is to be counted, the 100 miles to be accepted as the basis of a day's work. It is reported that when the crew, as is often the case, "double back" to houl a heavy train in two sections up the grade from Koksilah and Koenigs, and from Shawnigan to the Summit, here after extra mileage will be counted, and when the train is obliged to wait for some other train in order to get track, to complete the run, detention time is to be awarded. Between the two the freight crews will greatly benefit.

LADYSMITH DEFEATS PORTLAND

The Ladysmith team have won their first match in the Association football tournament at Portland. A wire from a member of the club was received locally last evening, stating that the game was won by Ladysmith, the score being 6-1.

Just before going to press, the following special was received at this office from Portland:

Ladysmith defeated Portland 6-1 yesterday in an exciting game of Association football. Ladysmith plays the Kilvinbank team today.

TROUBLE WITH THE LADRONES.

San Francisco, Sept. 27—In an interview with an associated press reporter, U. S. Secretary Taft who arived today on the Korea from the Philipines, narrated the story of the trip taken by the party, much of which has already been told in press despatches from points visited. Telling in detail of some of the recent improvements noted in Manila, the Secretary said.

"The political situation in some respects is not as good as it ought to be. A wave of Ladronism has swept over the province of Cavite, and it has been found necessary to suspend the writ of habes corpus in Savite. The same was true about Somar, but the use of troops on Somar and the use of constabulary on Cavite has put an end to the business. Whenever there were two or three men responsible for the keeping up of Ladronism, who had not been captured

Complaints were made against the constabulary and while many of them were unfounded, was pretty true that a change in the constabulary ought to be affected and it is now under consideration.

The distressing agricural depression due to the loss of 75 per cent of agricultural cattle by drought locust and cholera as well as other causes will probably not cease to be for several years. This naturally subjects the government to criticism, because this government is more likely to be criticised for existing conditions, however free from blame in respect to them than a native government.

FAME'S PATHWAY.

A German journalist who had occasion a few weeks ago to attend a lecture given by Maxim Gorki at the Finnish summer resort Kuokola, was painfully impressed by the famous novelist's appearance. His chest was hollow, his eyes deep in their sockets and bordered with dark blue shadows. His whole appearance was that of an invalid. His awkward movements and gestures made a lady in the audience exclaim: "Comme il est maladroit(" His voice was so weak that it could hardly be heard in the back part of the hall.

Dr. S. Suzuki, surgeon general of the Japanese army, is coming to Detroit, Mich., to attend the meeting of the Association of Military Surgeons. now in session. He comes at the request of President Roosevelt, who invited Japan to send a representative to this important meeting. Surgeon General Suzuki is a giant physically among his countrymen. he has with him a number of stereopticon views taken at the hospital in Sasebo, showing the havoc wrought by modern war devices on Jap and Russian.

MARVELOUS FEATS OF ROYAL ATHLETES.

A story which was told a short time ago in the Spanish newspaper El Correo, furnishes a striking illustration of the strength of human muscles. Fermini Arndi, a Spanish giant famous for his stature and strength, was hunting in Pyrenees when he encountered on his way home a gigantic bear, which came toward him erect, with forepaws outstretched.

Arndi's rifle was not loaded and he feared to break it by using the butt end upon his adversary. He put the rifledown upon the ground, and, going straight up to the bear, dexterously grappled it in his powerful arms. Huncer and animal rolled over in a terrible struggle until Arndi succeeded in drawing his knife and despatching the bear, which weighed 300 pounds. Then he placed it across his shoulders and returned with it to his native town.

Such a feat as this, however, wonderful as it seems, would not have been thought much of by Charles

MAN EATING HORSE IS ON EXHIBITION

"The Man-eater," a horse which has won an evil reputation, has been captured at last and is even now in durance vile at New Westminster for the ignominious purpose of being exhibited to the crowds who flock to the Dominion fair. Three times has the equine terror of the Blue River country felt the halter on his neck, making his last escape when the Indians who had lassoed him were putting him to death by the Chinese method of taking off small slices.

According to the story told by Mr. Frank McDowell, of Vancouver, who has just returned from a hunting trip to Louis Creek, 50 miles north of Kamloops, the wild horse now known as "The Man-eater," was foaled seven or eight years ago, and after being branded was turned loose in the Blue River country. It was six years before he was seen again, and he was then so magnificant and fearless an animal that the Indians determined on capturing him. A party of fifteen set out to round him up, but he eluded them by jumping over a fifty-foot precipice into the Thompson river. It was "Moustache Joe" who led the expedition which was finally successful. The tribes assembled from far and near to witness the "busting," but after killing and trying to eat two of the "busters" the horse broke away. A blood fued was now declared against him and once more the Indians rounded him up and tied him down in readiness for the horrible death he had been condemned to die. The cutting began with the ears and tail. The latter was docked in brutal fashion and the beautiful silky ears were being mutilated when, exerting the strength with which his frenzy endowed him, "The Man-eater" again broke away. He was now declared an outlaw, which meant that notwithstanding his brand, anyone on the range was at liberty to shoot him at sight. Mr. Alexander McLean, however, with a party of ranchers, went after him and took him alive, and he is now on view at the Dominion fair.

Topman, the Long Island Innkeeper, whose muscular performances were one of the marvels of the early part of the last century. Topman was a man of but ordinary physique to all appearances, but he could perform feats of strength which Hercules himself might have envied. He made light of walking off with three hogsheads of water, for instance, which could not have weighed much less than three-quarters of a ton; and when he came to a turnpike gate he would playfully heave his horse over it instead of troubling the gate-keeper to open it for him.

He snapped a rope which had borne a ton weight without breaking; lifted with his teeth an oak table two yards long, with a 56 pound weight at the other end of it, and broke broomsticks by striking them against his bare arm. He would take a massive pewter dish, seven pounds in weight, and roll it up as if it were a cup in his fingers as easily as most men would break an egg shell, and wave a couple of hundred-weights over his head with his little finger. Once he twisted a kitchen spit around the neck of an impertinant hostler, and he could smash the toughest cocoanut by striking it against his ear.

Such performances of professional strong men are sufficiently startling but there have been great kings who could rival some of them. Thus Augustus the Strong of Saxony, in his playful moods would seize a couple of courtiers, one in each hand, and hold them out at arms' length; he would twist stout iron bars around their necks for collars and straighten horseshoes with a wrench of his muscular fingers; while, on one occasion, when the horse of one of his attendants refused to budge, he put his herculen shoulders under it and walked away with horse and rider together.

George Castriat, Prince of Albania, wielded such a powerful sword that he could sever a bull's head at a single stroke; while once, for a wager, he walked off with ten of his courtiers standing on a platform. Charlemange, who was reputed to be the strongest man of his time, was able to snap the strongest horseshoe between the fingers of one hand; and Don Sebastian, merely by the pressure of his knees, could make his charger groan with pain.

LEGENDARY DEVICES.

Early writers on natural history subjects make mention of many strange creatures that never could have existed save in the superstitious mind of the age in which they wrote, and of the many that did exist the accounts of their structure and habits are so ludicrous that one may wonder if it was possible, even in the middle ages, that people could be so credulous. Many of these strangely garbled records of the animal world were, no doubt, due to travellers' tales and probably had a certain foundation in fact, but it is difficult, indeed to account for the creation of such things as the phoenix, the cockatrice, the wyvern, the griffin and the dragon. The belief in the existence of the unicorn may have originated from the fact of the early African travelers meeting with certain antelopes that had lost a horn, for it is a peculiarity with most antelope that their horns are never shed and if injured or broken never grow again.

The horne, growing out of the forehead betwix the eyelids, is neither light nor hollow, not yet smooth like other horns, but hard as iron, rough as any file, revolved into many lights; sharper than any dart, straight and not crooked, and everywhere black, except at the point.

Bartholomew asserted that there were many varieties of unicorn, and this would be feasible if this creature had been created from those horned beasts that had accidentally lost one of the horns.

How the phoenix was called into being it would be impossible to hazard a guess. It was popularly supposed that there was only one such creature existing in the whole universe and that there was only one tree in which it built its nest. We find mention of the phoenix as far back as Pliny, who says, "Howbeit, I cannot tell what to make of him; and, first of all, whether it be a tale or no, that is never but one of them in the whole world, and the same not commonly seen."

In the fifteenth century we find Bartholomew writing of this imaginary bird:

"Phoenix is a large bird, and there is but one of that kind in all the wide world, therefore lewd men wonder thereof. Phoenix is a bird without make (mate) and liveth 300 to 500 years. When the which years he passed she feelith her default and feebleness and maketh a nest of sweet smelling sticks that be full dry, and in summer when the western wind bloweth the sticks and the nest be set on fire with burning heat of the sun and burneth strong.

The bird then allows itself to be reduced to ashes in this fire—on th point all the writers agree—and in due course rises again from the ashes in the full glory of renewed youth "and is the most fairest bird gathereth his meat of clean greens that is, most like to the peacock in feathers, and loveth wilderness and and fruits.

NANAIMO.

On Thursday, Sept 28th. the wife of T. J. George of Milton Street gave birth to a daughter.

Mr. J. Newbury, for some time an employee of D. Spencer has resigned his position and will leave shortly for Vancouver.

At a recent meeting of the trustee board of the Wallace St. Methodist Church it was decided to hold the anniversary services on Nov. 12th and 13th. This has been uniformly set apart for such exercises for many years. This will be the forty-sixth anniversary of the church.

Mrs. D. Scales, of Kennedy Street is in the local hospital suffering from injuris received in an accident on Wednesday. Her condition is not serious.

SEYMOUR CREEK BRIDGE WASHED AWAY.

The new bridge being built across Seymour Creek in the Municipality of North Vancouver has been washed away. The bridge was being built by the municipality, though the actual work of construction has been conducted by men who at one times were members of the Finnish colony at Malcolm Island.

It seems that the bridge, which according to the plans shows it as the largest in the North Vancouver Municipality, was almost five hundred feet long, had been built and practically completed. The approaches though had not been constructed, and a team had never crossed the structure. The scaffolding on the span was being taken down, and had been mountains and the creeks have been left over for the next day bundled together, as it were, for packing to either side for the approach building. There has been little snow on the rivers and creeks have been rising. abnormally low during the summer

Then came the flood. For days the The steady rain though for the past several weeks has sent the water down the water sheds of the different streams in qualities that made the streams rise rapidly. Last night the bridge was washed out, and all that now remains is amass of wreckage.

A CONCLAVE OF BIRDS

It is generally supposed that man only possesses the gift of speech; this supposition, however, must apparently be accepted in only a limited sense, for there can be no question that some animals and birds have the facilty of communicating intelligibly with other; though probably in such a rudimentary degree that perhaps the term speech is a misnomer. Amongst the most remarkable evidence of this is the court of justice held by rooks which may occasionally be witnessed. (The writer can bear testimony to the first stage of these extraordinary sessions, which he witnessed from a train, though unfortunately he did not see it strange, and perhaps tragic, termination.)

A large flock of several hundred rooks forms a great circle two or three deep, almost perfect in shape, and perhaps about 300 feet in circumference. In the centre of the circle stands a solitary rook, attended by a guard—this latter, however, the writer did not see—appearing in an abjectly cowed and frightened condition. The whole of the birds surrounding the wretched, motionless culprit were in a most excited state violently flapping their wings as if in a paroxysm of wrath and fury, and from time to time raising their beaks upward, though they all retained their position in the ring, and made no attempt to interfere with the miserable prisoner.

Probably the accusing bird had recounted the offence committed against it, perhaps the appropriation of the nest occupied by it and its mate for years, perhaps an insult offered to her, or perhaps some more serious offence committed against the community.

Now all this excited and angry scene must indicate that the birds possess some means of communicating their ideas to each other, and that all that violent cawing cannot be mere unintelligible jargon.

IN THE WORLD OF LABOR.

Many of the women in England are choosing gardening as a means of livlihood.

A child labor law was passed by the Florida state legislature at the last session.

In the United States the total number of women organized is already over 100,000.

Many Los Angeles, Cal., contractors have signed the eight hour agreement, and the movement is a success.

"My baby," said the husband of a prominent club and society woman, "had a narrow escape yesterday."

"Indeed!" exclaimed the friend of the family, "How was that?"

"The nurse girl thoughtlessly left it alone with its mother for nearly an hour," explained the husband and father.

Sealed Tenders addressed to the undersigned and endorsed "Tender for Indian and Fisheries office Bldg., New Westminster, B.C." will be received at this office until Saturday, October 21, 1905, inclusively, for the construction of Indian and Fisheries office Bldg., New Westminster.

Plans and specifications to be seen and forms of tender obtained at this department, at the office of G. A. Keefer, Esq., Resident Engineer, New Westminster, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,
FRED GELINAS,
Secretary.

MUNICIPAL BYLAW

A bylaw of the Corporation of the City of Ladysmith to authorize the raising by way of a Loan a sufficient sum of money to construct an Electric Plant for the said Municipality.

Whereas it is necessary and expedient that the Corporation of the City of Ladysmith should construct a system of Electric Plant for the purpose of furnishing Electric light to the said City and inhabitants thereof,

AND WHEREAS a petition under Section (69) of the Municipal Clauses Act has been presented to the Municipal Council signed by the owners of more than one-tenth in value of the real property in the City of Ladysmith as shown by the last revised Assessment Roll, requesting the said Council to introduce a By-law with the objects herein set forth,

AND WHEREAS it will incur an expenditure of the sum of $20,000 to construct the said Electric Light system and it is desired by the Council of the Corporation to raise such sum by way of loan upon the credit of the Corporation of the City of Ladysmith,

AND WHEREAS the whole rateable land and improvements of real property of the Corporation of the City of Ladysmith, according to the last revised Assessment Roll for the year 1904, was $407,265.00

AND WHEREAS the total amount required to be raised annually by rate, for paying the debt which will be created hereunder, and the interest thereon, and for creating an annual sinking fund for the payment off of the said debt and interest within 20 years is $1,800,

AND WHEREAS it will require an annual rate of 4½ mills in the dollar for paying such new debt and interest,

AND WHEREAS this By-law may not be altered or repealed except with the consent of the Lieutenant Governor in Council,

THEREFORE, the Municipal Council of the Corporation of the City of Ladysmith enacts as follows

(1.) It shall be lawful for the Mayor of the Corporation of the City of Ladysmith to borrow upon the credit of the said Corporation by way of debentures hereinafter mentioned, from any person or persons body or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole the sum of $21,000, currency, and to cause all such sums so raised or received to be paid into the hands of the Clerk of the said Corporation, for the purpose and with the object hereinafter recited.

(2.) It shall be lawful for the said Mayor to cause any number of debentures to be made, executed and issued for such sums as may be required, not exceeding, however, the sum of $20,000 in currency, as may be required, each of the said debentures being of the amount of $500.00, and all such debentures shall be sealed with the seal of the Corporation and signed by the Mayor thereof, and countersigned by the Clerk of the said Corporation.

(3.) The said debentures shall bear date the 1st day of October, 1905, and shall be payable in 20 years from the said date at the office of the Corporation of the City of Ladysmith, Province of British Columbia, and shall have attached to them coupons for the payment of interest and the signatures to the said coupons may be written, stamped, printed or lithographed.

(4.) The said debentures shall bear interest at the rate of not exceeding 5 per cent. per annum from the date thereof which interest shall be payable half-yearly, at the office of the Corporation of the said City on the first days of January and July in each and every year during the currency of the said debentures as expressed in the debentures or coupons.

(5.) There shall be raised and levied in each year during the currency of the said debentures the sum of $1,000 for the paying of interest and the sum of $800 for the purpose of creating a sinking fund for the payment of the debt due under the said debentures, making in all the sum of $1,800.

(6.) For the purpose of payment of the said sums in the next preceding paragraph mentioned there shall be levied in each year a special rate of 4½ mills in the dollar on all rateable land or improvements or real property in the municipality of the said Corporation of the City of Ladysmith during the continuance of the said debentures or any of them.

(7.) It shall be lawful for the said City to redeem all or any of the said debentures at par at any time after the expiration of five years from the date thereof upon giving six calendar months' notice, which notice shall be deemed to be sufficient given by a publication thereof four times in the British Columbia Gazette and although the holders of the debentures mentioned in such notice be not specifically named, and after the expiration of the said period of six months all interest on the said debentures, the numbers of which shall have been published as aforesaid, shall cease.

(8.) This By-law before the final passing thereof shall receive the assent of the Electors of the City of Ladysmith in the manner provided in the Municipal Clauses Act and amending Acts thereto.

(9.) This By-law shall take effect on the 9th day of October, A.D. 1905.

This By-law may be cited for all purposes as "The Electric Light By-law.

Read first time 11th September, 1905.
Read second time 11th day of September, 1905.
Read third time 25th day of September, 1905.

JOHN W. COBURN,
Mayor.
J. STEWART.
Clerk.

NOTICE.

TAKE NOTICE that the above is a true copy of the proposed by-law upon which the vote of the Municipality will be taken at the City Hall on the 7th day of October, A.D. 1905, from 8 a.m. to 4 p.m.

JOHN STEWART,
City Clerk.

J. Stewart will be returning officer.

LADYSMITH AERIE NO. 686, F. O. E. :— :— —: :—

Meets in the Opera House 1st and 3rd Tuesday at 7.30 p.m. Worthy President B Forcimmer; Worthy Secretary, C. H. Rummings

SYNOPSIS OF CANADIAN NORTH WEST MINING REGULATIONS.

Coal—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz—A free miner's certificate is granted upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet. The fee for recording a claim is $5.00

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the descretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

NOTICE.

From this date the undersigned will not be responsible for any indebtedness incurred except on a written order signed by the secretary Rowland Machin.
