GRAND TRUNK PACIFIC AWARDS DOCK CONTRACT

The Grand Trunk Pacific R. R. has awarded the contract for the preliminary work on the construction of the dry dock and wharves for Prince Rupert, amounting to $260,000, to the British North American Construction Co. of Vancouver. The award is for the piling construction, amounting to 72,000 creosoted piles being used and mill work construction amounting to three million feet of lumber, the contract for which has been given to the Ocean Falls Lumber Co.

The completion of this preliminary work will be followed by the work on building the steel and reinforced dry docks and wharf building, the contract for which work has not been awarded but which will involve the expenditure of an additional million and a quarter dollars. The dry dock when completed will be the largest and most modern in Canada. All the material to be used will be purchased in Canada and most of it in British Columbia. The creosoted piling will have to be purchased in the United States, as there are not facilities for the handling of that amount of work in Canada.

There will be an oil burning steam heating plant installed, and the building will be finished with buff pressed brick. The architect is L. E. Gordon, Hutchinson bldg. The general contractors will handle all the minor contracts and figures will not be called for materia, etc., until announced.

CITY WILL ASK ARCHITECTS TO COMPETE FOR PLANS FOR POLICE BUILDING

The city council has decided to invite architects to compete for plans for the new police headquarters building to be erected on the site of the present building. This competition will be formally announced not later than the first of next week, or as soon as the building committee can agree on enough details of the building to submit to the architects. This much information is already given out that the building will have a frontage of 75 feet on Cordova and will have a depth of 122 feet.

The building will be six stories, and the plans will call for a morgue and emergency hospital quarters besides the usual police offices and jail. The sum to be expended is $200,000 for the erection of the building, and $40,000 for equipment.

This competition will comply with all the rules of the B. C. Society of Architects in regard to open competitions. There will be three prizes awarded. The first prize will be the building, and the architect's commission, a second and third cash prize, probably of $2000 and $1000 respectively. An independent assessor to be appointed meets with the approval of several members of the council. The time limit for the plans to be completed will not exceed one month.

VICTORIA—Chief Engineer Griffiths, who was despatched to Nelson to investigate conditions regarding the proposed construction of a bridge, has telegraphed to the department that he will recommend a steel and concrete bridge over the Kootenay river, to cost about $250,000, instead of a pile structure, as originally contemplated.

BEST BUILDING BRICK

THE process of manufacturing brick is a very important matter. Every brick turned out of our latest improved Berg press is made under a pressure of 400 TONS. They are also cured in cylinder under 120 pounds steam pressure.

ABSORPTION of moisture is only from 8 to 10 per cent. This is a very important feature in this climate. Our brick is being used in many important buildings.

WE can supply brick of all kinds and colors. Our prices are right. Be sure to get our figure before closing order. You will save money.
