BUSINESS BEFORE THE BOARD OF PUBLIC WORKS

Streets, Vancouver—The following prposed work was recommended to the board of public works by the city engineer, or presented under cost estimates:

Three-plank walks—13th ave, Arbutus st. to B. C. E. R. tracks, $20; 14th ave., Arbutus st. to B. C. E R tracks, $20; 15th ave, Arbutus st to B. C. E. R. tracks, $20; 16th ave., Arbutus to B. C. E. R. tracks, $20; Yew st., 10th ave. to 16th ave., $350. Cedar st., 13th to 16th, $30; 25th ave, Slocan to Kaslo, $120; William, Rupert to Cassiar, $150; 25th, Windsor to Glen, $100.

Clearing & Rough-grading—Arbutus, 13th to 16th, $100; 16th, Arbutus to B. C. E. R. tracks, $30; Bismarck, Kootenay to Boundary, $550; Yew, 10th to 12th, $100; lane south of Charles, Kootenay to the lane west of Boundary, $200; lane west of Boundary, Charles to Bismarck, $150; continuation of Kootenay st, 25th to Government, $350.

Planking—Lane south of 12th, Yew to the barn west of Yew, $100.

Miscellaneous.

16th Ave.—City Engineer Fellowes reported that Point Grey should put in the improvement, grading and planking, or rocking, from Waterloo to Blenheim, which he estimated would be $1250 for grading and $850 for rocking.

Lane So. of 12th—It was estimated that to improve this lane from aLrch to Trafalgar would cost $200 for grading and $460 for planking.

Arbutus St.—To make the connection with 16th would cost, according to estimate, $60.

Broadway Cut Approaches — Estimate of cost was considered providing for various methods of improving the approaches of the Broadway strip across the G. N. cut from Commercial Drive to Victoria Drive.

1st. Allowing for a boulevard strip in the centre, or an unpaved strip 19.5 ft. wide, with two rocked strips on either side of 10 ft. in width, which would allow the traffic to pass back and forth without interfering, the cost would amount to $1,070.00.

2nd. Rocking one strip, say on the North side, 18 ft. wide to allow vehicular traffic to pass safely, would cost $908.00.

3rd. To asphalt the macadam, or the rock road treated with asphalt, two strips 10 ft. wide, with a wooden curb along the centre boulevard, to hold up the earth in the centre from being dragged over the pavement, would cost $2,928.00.

4th. One 18 ft. strip of asphalt macadam, with a wooden curb along both sides, would cost 51,906.00. The wooden curb to protect the centre strip would cost about $300.00. The earth strip in the centre would allow for car track and ties about 19.6 ft. in width.

If it is possible, and we are able to raise the funds, I consider that if we obtain the same guarantees for this strip as we have obtained for 14th Avenue, viz., a five year guarantee, with a 5 inch top, that the $1,900.00, which is an approximate estimate for this 18 ft. strip of asphalt macadam would be more economical in the long run, than if we put in one strip, 18 ft. wide, of ordinary rock.

MAY INVITE TENDERS FOR RAISING BUILINDGS

City Engineer Fellowes has recommended to the board of works that tenders be invited for raising and making addns. to the two houses at 1343 Maple St., also at 1310 Larburnum St.

Tenders were previously taken on this work, but not accepted.

Mr. Fellowes recommends that tenders close Sept. 1.

ARCHITECTS INVITED TO INTERNATIONAL COMPETITION

Melbourne, June 30, 1914—The Australian government announces an international architectural competition for the purpose of selecting the architect of the Parliament House and possibly incidentally additional architect for other government structures of the new Federal Capital City, Canberra.

Only tentative outline sketch designs for the building are requested, and eight (8) prizes are offered aggregating £6000, the first being £2000, in addition to commission for service at the scale of the Royal Institute of British Architects.

Designs may be submitted in either Melbourne or London before March 31, 1915, and wil be judged by the following jury of architects:

George T. Poole of Australia.
John J. Burnet of London.
Victor Laloux of Paris.
Otto Wagner of Vienna.
Louis E. Sullivan of Chicago.

The decision of the jury will be final.

A program will be issued to any practicing architect on application to the High Commissioner for Australia in London. Works Departments of British Colonies, or British Embassies at Berlin, Madrid, Paris, Rome, St. Petersburg, Stockholm, Vienna, Washington, from whom also copies of text in French or German may be had on request. Copies in Esperanto may be obtained from the High Commissioner or from the Esperanto headquarters at Geneva.

The importance of this event is not to be measured by that of the foremost building of the commonwealth, but by the opportunity to establish an architectural standard not only for the entire future seat of government in Australia, but for a great new democracy of scope, scale and modern advantages as well as the climatic conditions differing radically from any prototype in Europe or elsewhere.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself suited for everything but to make a living. Here are the heart-throbs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foreman or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
