A permit has been issued to C. Roberts for a 3 sto brk bldg, for stores and apmts. The estimated cost of the bldg is $30,000. It will have a frontage of 50 feet, and a depth of 103 feet. A contract has been awarded to the Zenith Construction Co. A. W. Cowley, archt, prepared the plans.

Messrs. Sanderson and Porter of New York have submitted a proposal to the city of Edmonton to construct a hydro-electric power plant, costing $3,500,000, at Moose River, B.C. A Montreal syndicate also has submitted an offer, under the terms of which Sir John Jackson and associates will expend $6,000,000 on a power plant 40 miles west of here. These offers are contingent upon the city purchasing power from the companies.

One hundred and fifty thousand dollars is the estimated cost of a building to be erected for M. Adams. The permit, issued a few days ago, calls for a four-storey structure, [illegible] by 130 ft. Provision is made for 10 stores on the ground floor and offices on the other floors of the building.

E. W. Morehouse, archt. has completed plans for a four-storey office building of modern construction, costing $100,000, to be erected in Edmonton for Hugh McPhee. The structure willl be 54 by 143 feet, built of steel, with pressed brick and cut stone facing. The foundation will be of sufficient strength to carry six storeys. It is to be completed by February 1, 1915.

Building Inspector McIvor has issued a permit for a factory bldg, to cost $68,000, to be erected by the Swift-Canadian Company. The building will be 90 by 120 feet, two storeys in height.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
