Bridge, Victoria—The Bridges & Railway Committee will meet today to discuss the proposal of the B. C. Electric Co. to have the proposed Johnson St. bridge widened to provide for an additional track to handle the Company's freight.

At the last meeting the committee refused to comply with the request unless an additional $100,000 be granted for the const., which the company refused to do. It is expected that some definite decision will be reached today.

RATEPAYERS OPPOSED TO NEW WESTMINSTER PAVING

Paving, New Westminster — About twenty ratepayers of Fifth Avenue and Queens Avenue waited on the city council in special session this evening, when the local improvement schemes for the paving and sewering of these streets were discussed at considerable length. The Fifth Avenue deputation were strongly opposed to the scheme as proposed, while the Queens Avenue delegation suggested modification of the paving and illuminating schemes. Mayor Gray pointed out that as the contracts had already been let, and in fact some of the money expended, the proposition must be proceeded with, but possibly could be somewhat modified.

DEPT. OF PUBLIC WORKS STARTS WORK ON DOCK

Dock, Port Coquitlam—Yesterday a crew from the Dept. of Public Works commenced the construction of a new dock at Port Coquitlam, alongside the mill of the Coquitlam Shipbuilding & Marine Railway Co.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.
