THROW OUT TENDERS FOR TRUNK SEWERS

Sewers, Vancouver—Owing to the fact that the tenders were regarded as unsatisfactory, the Burrard Peninsular Joint Sewerage Commission yesterday rejected all proposals and decided to undertake the construction of the China and Canoe Creek sections of the Greater Vancouver sewerage system by day labor.

An official ad. will appear about Saturday, calling for applications for the position of construction superintendent.

The tenders submited for the work were as follows, the first figure being for "monolithic" and the second price for "concrete" pipe construction:

S. J. Lund & Co.	$240,098
	245,784
R. McLean	$264,350
"	258,800
John Galt & Co.	$264,370
	268,863
Storrie & Co.	$265,880
Union Constructing Co.	$283,745
	285,670
Ledingham & Cooper	$353,100
	359,612

AUTHORIZE BY-LAWS FOR 1914 PUBLIC WORKS

Municipal Work, Vancouver—The city council in special session yesterday authorized by-laws calling for a total expenditure of $264,000 to be used for street improvements that are regarded as absolutely necessary.

Of this the largest single amount is $150,000 for rocking and plank. The sum of $47,000 is allowed for planking.

PLAN TO CONSTRUCT FIREHALL IN HASTINGS

Firehall, Vancouver—The city council at a special session yesterday authorized a by-law providing $14,000 for the erection next year of a firehall at some point in Hastings Townsite yet to be selected. Of this amount $10,000 will probably be spent for the bldg. and $2,000 for the site.

AMEND BUILDING LAWS IN SOUTH VANCOUVER

The South Vancouver Board of Works has decided to amend the building by-law so that permits for dwellings costing less than $100 would cost the applicants nothing. Many residents, stated Building Inspector Young, were putting up houses costing small sums, in some instances not more than $25, and it was a hardship for them to pay the fee of $1.50 charged for a permit.

APPROVE PLANS FOR WHARF RE-ENFORCEMENT

Wharf, West Vancouver—The West Vancouver Ferry Board this morning approved plans submitted by Mr. Cartwright of Messrs. Cartwright, Matheson & Company for the re-enforcement of the wharf at the foot of Fourteenth St., D. L. 237, at a cost of $20,000.

NO CONTRACT AWARDED YET ON KETTLE VALLEY

Kettle Valley R. R.—Although tenders closed two weeks ago for the construction of a 65-mile stretch of the Kettle Valley railroad line, no contract has as yet been awarded.

While nothing is known definitely, it is not regarded as improbable that the work may go to the railroad contracting firm of Grant Smith and Co.

New Westminster Notes.

Permits for two new houses and for considerable additions to another house have been issued. Both houses are five roomed, one being planned on Fourth street for Mr. John D. Kay, costing $2000 and the other on McDonald street for Mr. J. A. Flager, costing $1500. The additions amounting to $1000 are to Mr. J. Anderson's house, Kennedy street. In addition to this the B. C. Telephone Company will build a garage on Clarkson street costing $200.

Engineer Clement Resigns.

Municipal Engineer Clement, of South Vancouver, has tendered his resignation to take effect Dec. 31. Mr. Clement is regarded as an extremely capable man and his loss will be keenly felt by the entire municipality.

WILL UNDERTAKE WORK ON FERTILIZING PLANT

Scotch Capitalists Preparing to Erect Buildings on Skeena River.

Fertilizer Plant, Skeena River—From plans prepared several months ago by Archt. J. D. S. Taylor, Bower Bldg., interests representing the James M. Davidson Fisheries, of Scotland, and which will probably be known as the Scottish-American Oil & Fertilizing Co., will undertake the erection of a large fertilizing plant on the Skeena River.

Mr. A. L. King, of Edinburgh, is now representing the backers of the scheme in this country.

Figures were taken on the construction of the plant some time ago by Mr. Taylor, the architect, and it has not been determined whether the contract will be awarded on the basis of these tenders or whther new figures will be invited.

Mr. Taylor says that work will be undertaken early in the new year, unless there is some change in the decision of the company.

The plant will be built in three units, the total cost probably being about $125,000. This is for the plant and equipment complete.

APPROVE INSTALATION OF GAMEWELL SYSTEM

Fire Alarms, South Vancouver—Subject to the approval of the finance committee, the board of works authorized the installation of the Gamewell fire alarm system at a cost of $10,375.

New work ordered includes sidewalks, plank roads, grading and box drains.

The engineer's recommendation calls for sixteen feet pavements, eight feet of water-bound macadam on the sides, and an eight-foot centre strip of bitulithic on a broken stone or bituminous base. The centre strip will carry all the wear and preserve a permanent crown. This roadway can be laid down at a cost of $2.60 a lineal foot, according to the engineer, as against $1.60 for the whole roadway of water-bound macadam, which would not have nearly the wearing quality.

VANCOUVER FIRM GETS PHOENIX LOCKUP JOB

Lockup, Phoenix—The contract for constructing the lockup and constable's quarters at Phoenix, B. C., has been awarded by the Department of Public Works, of Victoria, to the contracting firm of Davies & Sanders, 615 Hastings St. W., Vancouver. The amount of the contract is not given.

The work comprises the erection of the ordinary lockup quarters and stockade, of frame construction.

The contractors do not want any figures now, but may take prices later on lumber.

PLANS FILED FOR STORE AND OFFICE BUILDING

Plans have been filed at the building inspector's office for a three-storey store and office building, to be erected on Alexander Street, on the site of the proposed ferry subway, for E. Cook.

The structure will be of brick and mill construction and the estimated cost is at present withheld.

Application has been made to the city council to have their stores facing in the new subway but no decision has as yet been rendered.

SEAWALL PLANS BEFORE THE HARBOR COMMISSION

Seawall, Vancouver—The plans prepared by City Engineer Fellowes providing for the construction of a new seawall and slips on False Creek west of the Main St. bridge, are now before the Harbor Commission for consideration.

The plan calls for a seawall and two slips (concrete) each 150 feet in length by 100 ft. in width.

WANTS PROPOSALS FOR INSTALLING NEW BOILER

Boiler—City Clerk Wm. McQueen will receive proposals until 3 p.m. Dec. 11, for the installation of a new fire engine boiler at Engine House No. 2.

Specifications and particulars may be obtained from the Chief of the Fire Department at No. 2 Hall, Seymour St.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foreemen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.

Steamer—Alex. Johnson, Deputy Minister of Marine and Fisheries, Ottawa, is receiving proposals until Jan. 8, for constructing a twin-screw ice-breaking str., dimensions as follows:

Length B. P.	275 feet 0 inches.
Breadth extreme	57 " 6 "
Draft Mean	19 " 0 "
Indicated Horse Power	8,000 "

to be delivered at the King's Wharf in the City of Quebec.

Plans, tender forms and specifications of this steamer can be seen at the office of the Purchasing Agent of the Marine and Fisheries Department, Ottawa, at the offices of the Collectors of Customs, Toronto, Collingwood and Port Arthur, and at the agencies of the Department of Marine and Fisheries at Montreal, Quebec, St. John, Halifax, and Victoria, B. C.

All tenders must be made with the distinct understanding that the steamer must be built in Canada.

Plans, tender forms and specifications can be procured upon application from the Purchasing and Contract Agent, Ottawa.

Drill Hall, Victoria—Proposals for the new drill hall to be erected in Victoria are being received by R. C. Desrochers, sec. of the Dept. of Works at Ottawa, until 4 p.m., Dec. 11.

Plans, specifications and form of contract can be seen and forms of tender obtained on application to the office of Wm. Henderson, resident architect, Victoria, B. C.; on application to the Postmaster at Vancouver, B. C., and at Ottawa.

Wharf, Pritchard, B. C.—The Dept. of Public Works, at Ottawa, will receive proposals until 4 p.m., Dec. 15, for the erection of a proposed wharf at Pritchard (Yale Dist.), B. C.

Plans, specif., etc., may be obtained from the offices of the district engineers at Chase, New Westminster, and on application to the postmaster at Pritchard.

Piers, Victoria—An Ottawa dispatch announces that proposals have been invited by the Dept. of Public Works, at Ottawa, for the construction of two piers for Victoria; tenders to close at Ottawa on Dec. 9, 1913, 4 p.m.

The harbor scheme calls for two additional piers. One will be next the breakwater and the fourth between Pier Three and Rithet's wharf.

The first plans called for the construction this year of Piers One and Two but owing to the work now proceeding on the breakwater it was afraid it might interfere with construction there, so it was decided to build Piers Two and Three.

The two piers will have four slips—three being eight hundred feet long, and one a thousand feet.

The piers are 250 feet wide and each slip has a width of 300 feet.

The specifications call for reinforced concrete work throughout so that the piers will be thoughly modern in every respect.

The arrangement will be as follows: On the east the breakwater, then a space that will be left vacant until that great work has been completed; then will come a pier, then a slip 300 feet wide; then another pier and then a vacant space where a fourth pier will be built. The two piers now to be built will give 3,400 feet of dockage and this will be at east doubled when the others are built, so that the present plan provides in all for a mile and 1,500 feet, approximately, of dockage.

COMPETITION OPEN.

Dept. Bldgs., Ottawa—The commission of architects appointed by the government to direct the preparations of designs for the new departmental buildings at Ottawa has just submitted its report outlining the conditions of the competition.

It will be open to competitors throughout the British Empire. There will be at least two buildings and probably a third one for the courts. Half a million superficial feet of floor space will have to be provided.

Designs of a general character will first be submitted and from this number the best six will be selected and the authors of these will be asked to elaborate their designs. The one finally selected will get the job of superintending the work based on his plans and will be given a five per cent commission. The cost of the buildings will probably aggregate five million dollars.

The other five competitors who will be asked to develop their general designs will each receive $3,000. The sketches will be received up to April 2 next. Then three months will be given for the best half dozen to develop their plans.

The competitors whose plans are accepted will be given a further period of four months to prepare working plans. Afterward tenders will be called for, but, in view of the time allowance, this will not be before next autumn.

The cost of the building will aggregate $5,000,000 dollars. The other five competitors will be asked to develop their general designs and each will receive $3,000. The sketches will be received up to January 2, next. Then three months will be given for the best half dozen to develop their plans.
