WILL DO PIPE LINE WORK BY DAY LABOR

Victoria Council Adopts This Method of Relieving Itself of a Difficult Situation.

Waterworks, Victoria—Acting upon the advice of its engineers, the City Council has decided that the construction of the steel pressure pipe line on the Sooke water works system should be carried out by day labor. The decision was arrived at unanimously after several of the aldermen went at length into their reasons why they were forced to adopt this attitude.

The report of Mr. Wynn Meredith, consulting engineer for the city on the Sooke work, and Water Commissioner Rust pointed out that the two bids recently received from McDonald, Godson & Co. of Vancouver, for $485,203, and that of Mr. David A. Chesney, for $426,080, were regular and guaranteed by satisfactory bonding concerns. The McDonald, Godson Co., the report stated, has the plant and financial standing necessary, but owing to the high price bid the water commissioner did not feel warranted in accepting it, and the engineers expressed their regret that the Council had seen fit to throw out the first bids and refuse to accept that of the McDonald, Godson Company at $444,998, which they (the engineers) had recommended for acceptance.

PLANS SHIPPED WEST FOR VICTORIA BLDG.

Two Weeks Will Be Allowed Contractors to Figure Hudsons Bay Job.

Store Bldg., Victoria.—Fifteen sets of plans for the first 4 sto. of the proposed Hudsons Bay Co.'s new Victoria store bldg. are now being shipped west and should be here by the first of the week. Tenders will be called for upon their arrival.

Contractors will most likely be given two weeks to figure on the job. H. E. Burbidge, chief stores commissioner of the company, will come to Victoria to award contracts.

Ultimately, it is intended to erect the full ten storeys planned.

As was the case with the Vancouver bldg., it is likely that separate tenders will be taken on various types of special equipment required in the bldg.

Luney Bros., contrs., will have the excavation finished in January, so that general construction can be undertaken immediately after the contract is awarded.

MAY AWARD CONTRACTS AT TODAY'S MEETING

Sewers, Vancouver—The Burrard Peninsula Joint Sewerage Commission is scheduled to hold a special meeting today, and it is thought that contracts will be awarded for constructing the China and Canoe Creek sections of the propose system of sewers.

There were six tenders entered, which it is said, do not vary greatly in their totals. Consulting Engineer A. D. Creer is now tabulating the figures before placing them before the commission.

SUB-CONTRACT FIGURES WANTED ON RESIDENCES

The owner, at Room 2, 525 Pender W., is inviting proposals covering the plumbing and hot water heating on three houses, for which he wants to pay part cash.

Tenders for plastering, plumbing and wiring a 6-room house are being invited by an owner, at 2135 10th avenue west.

CONTRACT IS AWARDED FOR COQUITLAM HOTEL

Contractor Wants Figures For Plastering, Roofing & Sheet Metal Work.

Hotel, Port Coquitlam—From plans by Archts. Parr McKenzie & Day, Vancouver Bldg., a contract has been let to W. H. Mueller, 407 Hastings W., for the erection of a 2-storey building at Port Coquitlam, for H. C. Thornton. The amount of the tender was about $52,000.

The contractor will now take figures for plastering, roofing and sheet metal work. When Mr. Mueller is ready he will call for figures on other work in the Building Record.

The contract for the plumbing and heating will be let later separately by the architects. The figures are all in.

The structure is of a very fine type and will occupy a triple corner. It will be entirely modern, spacious and well equipped throughout.

ARCHITECT HOOPER PREPARING PLANS

Dawings for Wharf and New Soap Factory Bldgs. Under Way.

Factory & Wharf, Vancouver—Thomas Hooper, architect, Winch bldg., has been commissioned to prepare plans and detail drawings for the proposed factory bldgs. and a wharf for the Royal Crown Soap Co., of Vancouver, to be constructed on the foreshore of Burrard Inlet near East Vancouver Heights.

The structures now contemplated will comprise the necessary factory, warehouse and office accommodations and a wharf which will be required.

The plans for the wharf, it is expected, will be ready for contractors to figure on about Jan. 1, and it is thought that tenders can be invited for the factory bldgs. proper about Feb. 1.

While no definite amount has been stipulated, it is thought that the total improvements will aggregate in cost about $250,000.

The company owns a site embracing seven acres.

PLANS ARE COMPLETED FOR BRIDGE AT VICTORIA

Bridge, Victoria—At the last meeting of the City Council, a special committee composed of the Mayor and Aldermen Porter and Gleason presented a report on the status of the Johnston Street bridge project. Accompanying the report were three plans showing proposed locations of the bridge. The committee favored the one showing a dual approach, one from Johnson street and the other from Cormorant st.

Estimated cost of bridge is $450,000.

NOVEMBER BUILDING PERMITS.

The total value of the building permits issued in the Oak Bay municipality during November was $24,150, as compared with $53,550 for the corresponding month last year. The total for the eleven months to November 30 is $802,833, as against $1,053,646 for the same period in 1912.

Esquimalt (Victoria)

Regina.

The Value of Spare Moments

From every section, and from all sorts and conditions of men, messages come to tell of earnings increased and futures brightened through study of I. C. S. Courses during spare time.

One letter gives the romance of a young man in California that began with little or no education; another tells the story of a high school graduate in Maine that found himself educated for everything but to make a living. Here are the heart-trobs of a fellow that toiled 12 hours a day and studied his Course as best he could; of a foremen or superintendent that enrolled because his ambition aimed at still bigger things.

No matter where you live, how little spare time you have, or how brief your schooling, the I. C. S. can raise your salary. That statement is backed with 20 years of success and a record of 400 or more advancement letters received every month.

I. C. S. Courses have made draftsmen, foremen, and superintendents of shop hands; building contractors, architects, structural and concrete engineers of carpenters and masons; advertising men, window trimmers, chemists, illustrators, and designers of clerks; electrical, mechanical and steam engineers of laborers; mine inspectors, foremen, and mining engineers of mine workers; bridge engineers, surveyors and mappers, civil engineers, gas engineers, automobile runners and civil service employees of young men willing to use their spare time to mold a career.

Suppose you were to increase your earnings only $20 a month—what a fine return that would be on your spare-time investment! Yet some have increased their earnings $250 a month.

Mark and mail this coupon and you will receive free information how you can increase your earnings by spare-time study.

Plans, specif, etc., may be obtained from the offices of the district engineers at Chase, New Westminster, and on application to the postmaster at Pritchard.

Piers, Victoria—An Ottawa dispatch announces that proposals have been invited by the Dept. of Public Works, at Ottawa, for the construction of two piers for Victoria; tenders to close at Ottawa on Dec. 9, 1913, 4 p.m.

The harbor scheme calls for two additional piers. One will be next the breakwater and the fourth between Pier Three and Rithet's wharf.

The first plans called for the construction this year of Piers One and Two but owing to the work now proceeding on the breakwater it was afraid it might interfere with construction there, so it was decided to build Piers Two and Three.

The two piers will have four slips—three being eight hundred feet long; and one a thousand feet.

The piers are 250 feet wide and each slip has a width of 300 feet.

The specifications call for reinforced concrete work throughout so that the piers will be thoughly modern in every respect.

The arrangement will be as follows: On the east the breakwater, then a space that will be left vacant until that great work has been completed; then will come a pier, then a slip 300 feet wide; then another pier and then a vacant space where a fourth pier will be built. The two piers now to be built will give 3,400 feet of dockage and this will be at east doubled when the others are built, so that the present plan provides in all for a mile and 1,500 feet, approximately, of dockage.

COMPETITION OPEN.

Dept. Bldgs., Ottawa—The commission of architects appointed by the government to direct the preparations of designs for the new departmental buildings at Ottawa has just submitted its report outlining the conditions of the competition.

It will be open to competitors throughout the British Empire. There will be at least two buildings and probably a third one for the courts. Half a million superficial feet of floor space will have to be provided.

Designs of a general character will first be submitted and from this number the best six will be selected and the authors of these will be asked to elaborate their designs. The one finally selected will get the job of superintending the work based on his plans and will be given a five per cent commission. The cost of the buildings will probably aggregate five million dollars.

The other five competitors who will be asked to develop their general designs will each receive $3,000. The sketches will be received up to April 2 next. Then three months will be given for the best half dozen to develop their plans.

The competitors whose plans are accepted will be given a further period of four months to prepare working plans. Afterward tenders will be called for, but, in view of the time allowance, this will not be before next autumn.

The cost of the building will aggregate $5,000,000 dollars. The other five competitors will be asked to develop their general designs and each will receive $3,000. The sketches will be received up to January 2, next. Then three months will be given for the best half dozen to develop their plans.
