*Pa says: "You never can tell how hard a flea can bite by the distance it can jump."*

## FROM ONE MAN'S POINT OF VIEW

THE action of the Water and Light Committee in doggedly ignoring the request of Ald. Forbes for more street lights, and particularly the placing of three or four along the road leading to the residences of Messrs. Dobson, Gibbs and Teece, is neither fair, just or businesslike. The lights are needed on this piece of road; the citizens named have been paying taxes into the city treasury since the town was incorporated and have not been given even so much as a foot-path. The statement of Chairman Evans that the summer season is coming, when the lights will not be so badly needed, is hardly worthy of anyone in his position. The season of all seasons when lights are needed in these unprotected places is at the breaking up of winter. The mud along this street-road in the spring of the year would disgrace an ill-kept barnyard, and yet the City Council has stubbornly insisted on making these ratepayers walk through it to their homes, unassisted by even a toe-path or a street light. It is time these properties were either being exempt from city taxation or given some of the benefits of such taxation. Enderby needs to encourage people to build handsome homes in the city suburbs for other reasons than that the city may draw increased taxation from them. The policy that is miserly, giving as little as possible of what is received, will not do. Last year these ratepayers petitioned the Council for a three-foot sidewalk. They were promised a foot-path. But the city procrastinated from month to month, and the promised foot-path is still through the mud. For heaven's sake, gentlemen, cut out this putting off from spring to fall and fall to spring. Patience has ceased to be a virtue on the part of these ratepayers. It is anything but creditable to the city to persistently ignore their needs as it has.

THE Okanagan District is extremely fortunate in being represented at Victoria by a man so well acquainted with the District's needs and one so sound in his judgment and impartial in his demands as the Hon. Price Ellison. Not only is Mr. Ellison a man who has the confidence and esteem of all classes in his constituency, but he stands high in the council of his party and is in close touch with the Government leaders. No man realizes better than he the magnitude of the Okanagan and the splendor of its possibilities. That he is not over modest in representing to the Government the needs of the District, is evident from the liberal treatment accorded the Okanagan. And that the Government is fully awake to the great future opening to us, is indicated by its readiness to meet every progressive move, and assist where it can. Eighty thousand dollars will be spent on roads and bridges in the Okanagan this year. This is the largest appropriation made for any one district in the Province. The Enderby-Mabel Lake road is to be completed; also the road giving Trinity Valley an outlet this way. The Grindrod bridge and the Trinity Valley bridge will also be built this season. These roads and bridges will give access to districts close to Enderby that have been retarded for years. They will open to settlement many thousands of acres and reduce the distance to railway transportation from 50 to 16 miles in the case of Trinity Valley, and from 8 to less than 2 miles in the case of the Grindrod settlers.

THAT the McBride Government is fully alive to the requirements of the Province, and has boundless faith in its future development, is strongly in evidence in the estimates handed down last week by the Hon. Mr. Tatlow. The estimated revenue for the year is placed at $5,948,626. Of this amount, nearly $3,000,000 will be spent on public works, half of which in the building of roads, streets, bridges and wharves. The cost of bridges alone throughout the Province will be $225,000.

# NEWS IN AND ABOUT THE TOWN AND DISTRICT

Tree planting is next.

Then will come the 24th of May.

Geo. Hale returned form the coast Saturday morning.

Mrs. V. C. Brimacombe and baby returned to Enderby last Thursday.

The Knights of Pythias will go to church, Sunday, March 7; at the Baptist church.

Rev. D. E. Hatt, B. A., is to give a Drummond recital in K. of P. Hall, March 11th.

Prepare for surprises at the mask ball to-morrow night and you'll not be disappointed.

Walter Robinson returned on Monday from a business trip to Kootenay points and Calgary.

Mr. and Mrs. Robt. Waddell entertained a party of friends at their country home last Monday evening.

A petition is being circulated asking the Government to open the season for grouse from Oct. 1st to Dec. 31st.

Rev. Mr. Estabrook, B. A., of Summerland, will assist in the Sunday services in the Baptist church, morning and evening.

The Enderby Trading Co. has placed in stock a full line of poultry supplies, to meet the requirements of this rapidly growing industry.

Enderby's Mayor can skip a rink made up of aldermanic curlers that will venture to clean up the ice with any aldermanic rink in the Valley.

The Union choir will lead the song service in the Baptist church next Sunday, morning, afternoon and evening. All members of the choir are asked to kindly meet at the church Saturday evening for practice.

Real estate transfers at Mara are of daily occurrence. Chas. W. Little has put through several deals the past week. The Messrs. Ahier, Pearce and the Attenbough Bros., late arrivals from the Old Country, are well pleased with the district and are buying such snaps as they can get in touch with.

The Poultry Associations of B. C. are petitioning the Railway Commission to have the express rate on exhibition fowl reduced from double merchandise rate to single merchandise rate.

Hon. Price Ellison writes to C. S. Handcock, chairman of the Grindrod bridge committee, that he has succeeded in getting from the Government a pledge that the bridge will be built this season. Mr. Ellison has also assured the Board of Trade that the Enderby-Mabel Lake, and Trinity Valley roads will be finished this season.

## *Entertained Vernon Curlers*

The Enderby Curling Club entertained two Vernon rinks on the Enderby ice Tuesday night. Hamilton Lang skipped one of the visiting rinks, T. E. Crowell the other. Skip Lang played Bridgman, McPhail and Duncan; Skip Crowell, Jaques, Smith and Watt Mack. Each rink was given two games, Enderby making up four rinks, as follows: Scott—Wm. Jones, Hutchison, E. Evans. Murphy—Keith, Reeves, Taylor. Bell—Ira Jones, J. Evans, Peel. Matthews—Pyman, Jas. Evans. McClure. The Vernon curlers were evidently not accustomed to a heavy ice, for they made a poor showing against the Enderby rinks, the score of the evening being, Enderby 58, Vernon 22. At the completion of the games, the players adjourned to the King Edward where Host Murphy had prepared a lavish supper for 30, and here a few hours were spent in placing the good things close to the button. It was an evening of genuine pleasure to all.

## *Urgently Needed*

If ever a Government had the opportunity offered it to save an important industry, and thereby add wealth to the country and honor to its name, that Government is the McBride Government and the time is NOW. Everyone acquainted with the conditions knows that the fruit industry in this province is at a critical stage. To compete with the shippers of other fruit sections, the supply must be handled by one selling head, similar to the Central Exchange. Owing to the unfortunate circumstances which the Central was up against last season, the confidence of the producers was shaken in the institution, and the private jobbers are taking advantage of the circumstances to inaugurate the cut-throat game that has been operated so disastrously to the shippers elsewhere in times past. What must be done now is to restore confidence in the Central. This can only be done by the Government stepping in, and lending active support to the enterprise. We understand Mr. Jas. Johnston, president of the Central Exchange, is in Victoria this week, endeavoring to induce the Government to set aside the sum of $10,000, from which shall be taken money to pay for the services of Government Inspectors to be stationed at Calgary, Regina and Winnipeg, whose duty it shall be to inspect and report on condition of fruit on arrival at these points. In the case of adjustment having to be made and rebate allowed, owing to condition, the inspector shall assist in making said allowance and report on same to grower and Exchange. The grower will then inquire into the cause of his fruit arriving in poor condition, and will find a remedy for same, instead of laying all the blame on the unfortune agent of the Central Exchange.

25

# STREET IMPROVEMENT BY-LAW INTRODUCED

The City Council met in regular session Monday evening; present the Mayor, and Aldermen Lawes, Evans, Peel and Forbes.

Mayor Bell reported on the matter of City Hall, giving the result of his trip to Victoria to lay the proposition before the Government. While he could report nothing of a definite nature as the result of his interview with the Executive, still, the proposition of the Government joining with the city in the erection of a court house and city hall combined was well received, and now awaits the submitting of definite plans and a definite proposition from the City to get the Government's final answer.

Ald. Peel introduced a by-law to raise the sum of $2,500 for street improvements, and the same passed its first reading. The by-law provides for the laying of sidewalks on all streets where there are dwelling houses; the taking up of all two-plank walks and replacing them with 4-foot ones; the proper grading and gravelling of Cliff street from the bridge to George street; the grading of Railway street; the laying of permanent cement crossings at the following places: on Cliff St. from west to east side of Belvedere; on Cliff, from west side of Belvedere to south side of Cliff; across Cliff on west side of George; across George on north side of Cliff; across Cliff from west side of Maud to east side of Vernon Road; across Vernon Road on south side of Cliff. The by-law provides further, for the grading of an approach on Sicamous St. to a road to be constructed on the Lawes addition; the grading and gravelling of a pathway along the west side of Salmon Arm road to the city limit; the straightening of the sidewalk on Knight street, and to make other improvements in various places.

It is proposed to make the debentures cover a period of 10 years, bearing 6 per cent interest.

In the matter of additional street lighting, Ald. Evans stated that the committee had no report to make; the summer season is coming when street lights will be less needed, and he intimated that perhaps the matter would come up again in the Fall.

Ald. Forbes suggested a compromise, but the question was lost in the next order of business.

The finance committee reported the current accounts and they were ordered paid.

A letter was read from Ald. Jones stating that he would be unable to attend the Council if Monday was to be the meeting night. Wednesday being agreeable to all, it was the night settled upon.

A letter from City Clerk Rosoman asked the Council to segregate the offices of City Clerk and Collector and that of Police Magistrate, and allow the salary of $85 per month to apply to the post of City Clerk and Collector, and grant an additional salary of $15 a month to the post of Police Magistrate; explaining that the work in connection with the offices named had so increased as to warrant the increase in salary he was asking. The question was laid over until the next meeting, the Mayor and Aldermen recognizing the full importance of Mr. Rosoman's statement, and appreciating the excellent services Mr. Rosoman has rendered the city in the past, but feeling that they could better decide the matter after fuller deliberation.

## *Hall Opening*

Fully 250 people gathered at the Hullcar-Deep Creek hall last Friday evening to enjoy the hospitality of the good people of that District. The dance, to which all were invited, was enjoyed in the fullest measure, and the supper, served bountifully and free to all, was relished as a supper can be relished only when the appetite has been sharpened by a 10-mile drive in the brisk night air. The hall is a commodious, well-built structure; a great credit to all having anything to do with its construction, and is a lasting monument to what can be done by a few public-spirited people when they make up their minds to do it.

*A Broken Watch*

Is seldom beyond repair by a skillful watchmaker. No matter what the trouble is, we can repair it. Dake, Enderby.

# A Seasonable Talk on Poultry

By H. E. Waby

Fellow Fanciers: Twelve months ago I should have said fellow poultrymen, but the enthusiasm shown at our recent show makes one think that we of the Northern Okanagan can boast of quite a few fanciers and would-be fanciers. The latter class, of course, is always in the majority. Ten years from now it will be the same, the only difference being that we hope those of today will be the fanciers by at least five years. Five years seems a long time, does it not, but anyone who enters into this field with the expectation of sweeping the board from now on is apt to be like the man who took first on Barred Rock cockerels three years in succession and then quit because he was beaten the fourth year. There are none of us but what must expect to meet our Waterloo at some time. This may read a little discouraging to those who are chicken-hearted, but there is some consolation in the fact that the back-bone of the Northern Okanagan Poultry Association rests with men who are there to stay and will not whine if they don't produce the winner every year. Remember, the writer has exhibited a good many fowl, but could not produce one which would score higher than Mr. Smedley's champion male. Our own champion female may easily get beaten another year.

Now that our first show is over we must not sit down and wait till fall before we make a start for our next. The man who goes along this year in a happy-go-lucky way is the man who is going to get left next winter, because we are going to have good stuff here, and everyone must come in next year on an equal footing. If you have the other fellow handicapped by being on the spot, remember he may beat you by experience. This, of course, is meant generally speaking on fancy lines. Don't forget that hatching early gives you a strong lead. It gives you a greater choice besides a mature bird.

Those Manitoba Rock cockerels were hatched before June.

You will have seen by an earlier issue of this paper the fine list of specials already donated for the benefit of those who are lacking somewhat in experience. We are now going after a good list for members only and hope that the members of our association will do themselves and the men who contribute justice by working hard and bringing out a string of their favorites next winter, early hatched, well matured and in the pink of condition.

Another thought: don't forget that there are a lot of birds in your locality capable of producing winners.

## Standard Bred S.C. White Leghorns

From CAPT. MITCHELL'S famous laying strain, Santa Barbara, Cal. Selected for great layers by the HOGAN System.

Average clear profit per bird. 1906.....$ 2.70
" " " " 1907 ..... 3.20

This year I expect to do better still

All drones severely weeded out. You get eggs from nothing but heavy layers.

## *Mr. Pyman Off for Princeton*

F. Pyman left Enderby for Princeton Wednesday morning, where he will engage in the jewelry business. Mr. Pyman's departure from Enderby will leave a place unfilled, for there are few men of his stamp doing time on this terrestrial ball, flat at the poles and shaped like an orange. For originality of metaphor, and a heart filled with the milk of human kindness, F. Pyman can touch the best in the best of us and leave us lank and lean upon the scab rock of every-day service. The children of Enderby will miss Mr. and Mrs. Pyman. Unblessed with children of their own, they are mother and father to the community's children. In business, social and religious circles they have always taken a prominent part, and their going will mean a loss to Enderby in many ways. On Tuesday the teachers of the public and high schools presented Mr. Pyman, as retiring member of the school board, with a handsome gift and letter of appreciation, and in the evening a number of friends gathered at the home of Mayor Bell to say good-by to him.

## *Dedication of Baptist Church*

Sunday next, the morning service in the Presbyterian church and the evening service in the Methodist church will not be held, and the presence of all church people will be directed to the Dedication Day services to be held morning, afternoon and evening in the new Baptist church. This week the finishing touches are being put upon the interior and when it is formally opened on Sunday morning the church will be finished, with the exception of the baptismal basin to be placed beneath the choir stage, and the painting of the exterior. The erection of this splendid edifice, in six week's time, and all by the work of the members of the congregation, gratuitously given, is one of the finest examples of loyalty to purpose that was ever seen. The church, when opened, will be absolutely free from debt. Its erection was undertaken by the faithful few, in the face of tremendous difficutlies. The subscription paper was not passed, and the public of Enderby has not been asked to contribute a penny to pay for it. When money was needed, it was forthcoming; but more important than money, was the labor, and this, all gave liberally. Where the women of the congregation could help, they were there and the work was done. The church is complete throughout; with choir room and stage, dressing room in connection with the immersion platform, and platform and pulpil directly in front of the choir. The building is plastered throughout, with a 4-foot wainscoting. The auditorium is 28x42, and is lighted by electricity.

## *What are You?*

Do you come nearer day by day
To the port where your dreams all anchored lie?
Or do you sail farther and farther away
On an angry sea with a sullen sky?
Do you come nearer the Ought-to-be
In the wagon you hitched to a distant star?
Or do you drift on hopelessly,
Content to bide with the Things-that-are

Are you a Drone or Do-it-now?
A Hurry-up or a Wait-a-while?
A Do-it-so or an Anyhow?
A Cheer-up-boys or a Never-smile?
It's none of my business, that I know,
For you are the captain and mate and crew
Of that ship of yours, but the Where-you-go
Depends on the What-and-how-you-do.

Are you a Yes or a May-be-so?
Are you a WILL or a Guess-you'll-be?
A Come-on-lads or a Let's-not-go?
A YES-I-WILL or an Oh-I'll-see?
It isn't the least concern of mine,
I know that well, but as time endures,
When they thresh the wheat and store the wine
*You'll find it's a big concern of yours.*
—J. W. Foley in Youth's Companion.

## PRO BONO PUBLICO

(Correspondents will please be brief and avoid personalities. The Editor reserves the right to reject any correspondence or part of correspondence that does not bear on the question at issue, or treats the subject in a personal interest rather than in the interest of the public. Be brief. *Words do not make thought. Write over a nom* de plume if you wish, but sign your name also.)

The Editor, Walker's Weekly:

Dear Sir: Why have we not a branch of the Society for the Prevention of Cruelty to Animals in this district? This society has done noble service in all parts of the world, not only in protecting the dumb creatures, but also in leading people to take a kindly interest in our humble fellow-beings; in fact, it might well be called: The Society for Humanizing Humanity.

The prosecution which took place recently for working horses when in an unfit condition, a brief report of which appeared in your last issue, is an encouraging sign, and it is earnestly to be hoped that the police will search out as many of such cases as possible, and bring the offenders to justice. I was in Court during the trial, and heard Mr. Murphy, counsel for the defence, say that he had seen many horses worked in a worse state than the Linton Bros.' horses were in. If this is so, it is a shame and a scandal that the law is not more strictly enforced. Cruelty is debasing both to those who practise it and to those who witness and tolerate it, and we cannot afford, as a community reaching out towards the light of a better day, to allow this canker of cruelty, this lingering legacy of evil from the dark ages, to fester in our midst. More power to the arm of the Provincial Constable, say I! But it is the duty, not only of the police, but of everyone, to do his or her part in asserting and enforcing the law of justice and mercy to the animal creation, and in inculcating by precept and example the practice of universal benevolence and kindness. Let us try to understand and take an affectionate interest in the intelligent creatures which Infinite Love and Intelligence has placed in our care, let us help them to manifest fully their lowly but beautiful lives, and great shall be our reward, for the spirit of love and kindness is the sunshine of life.

CARITA.

## ANALYTICAL CHEMIST TELLS OF PATENT MEDICINES

A graduate in organic chemistry, who has made a study of many of the best-known patent medicines on the market, states that many have virtue, but as a rule people have to pay for a lot of unnecessary expense. The following is the recipe of a well-known secret preparation, and is known by authority to be one of the best stomach and liver tonics. It is prescribed by many of the best physicians.

This mixture cures constipation and biliousnes. The recipe: Fluid Extract Cascara, ½ oz.; Compound Syrup Rhubarb, 1 oz.; Fluid Extract Carriana Compound, 1 oz.; Compound Syrup Sarsaparilla, 5 oz. Take a teaspoonful after each meal and at bedtime.

An eminent authority, who has made a careful and scientific study of the relative value of drugs having a specific action on the kidneys, bladder and liver, pronounces this an excellent combination.

You can buy the ingredients separately and mix at home.

Cut this formula out and save it.

**John S. Johnstone**

## *An Editor's Sorrows*

The editor who can please every one is not suited for this earth, but is entitled to wear wings. Human nature is so constituted that some of our readers would like to have us feed them on scandal; some would like to have us tell the unvarnished truth about them, while others would kill us if we did. It is a comforting thought to the editor to know that the Lord himself did not please every one while on earth. We labor hard to entertain and please our subscribers, but that we should occasionally fail is to be expected,—but you will always find us ready to be forgiven.—Kaslo Kootenain.

## *Sick of Being Sold Like Sheep*

The Empire is inclined to the opinion that the people of the North, from this time on, will do most of their own thinking, and men who aspire to leadership will be judged on their own merits, and not on their political affiliations, or their family connections. It will be a good thing for the North if this be so, for the more independent people are, the freer will communities be from graft, a disease that must be cured before Canada can be a self-governing Nation.—Prince Rupert Empire.

It is reported that Duncan Ross has bought a $9,000 residence in Vancouver and a third interest in the World. His many friends in Greenwood would be pleased to have the rumor confirmed.—The Ledge.

*Alarm Clocks*

## PHYSICIAN GIVES ADVICE

**Tells Why So Many Suffer from Catarrh and Rheumatism.**

A distinguished physician, famous for his successful treatment of catarrh and rheumatism, kidney and bladder troubles, states as follows:—

"Our climate being more or less damp and changeable, is bad for catarrh and rheumatism, and care must be taken not to let these troubles gain headway. In addition, he states that a great many Canadians are careless in their habits, and to this as much as climatic conditions is due a great deal of the trouble. Insufficient clothing and improper eating will cause rheumatic and catarrhal troubles in any climate.

This eminent authority gives the following as the simplest and best treatment known to science, and to it he gives credit largely for his success: Fluid Extract Cascara, ½ oz.; Fluid Extract Carriana Compound, 1 oz.; Compound Syrup Sarsaparilla, 6 oz. Directions: One tasspoonful after each meal and at bedtime.

The ingredients are all vegetable, and have a direct and specific action on the liver, kidneys and bowels, eliminating all poisonous matter from the system. Any druggist can dispense this, or you can buy the ingredients separately and mix at home by shaking in a bottle.

Many of our readers should benefit by this article. Save the recipe.

The Provincial Government has granted $8,000 towards the erection of a new wing to the hospital at Revelstoke.

## *Hard to Believe*

When the bare news that Mr. Manson had defaulted at Prince Rupert was received in Alberni on Monday night the Conservatives refused to believe it and there were some who offered to wager that it was untrue.

When confirmation was received indignation was rife, and the time that has passed since then has done nothing to soothe the feelings of the bitterly disappointed ones.

Twice in close succession have the loyal Conservatives of this part of Comox-Atlin been betrayed, and this, the second betrayal, is worse than the first.

Never before in the history of Alberni was there such a united, determined and hopeful effort, in a political cause, as that which was being made in opposition to candidature of Hon. William Templeman. The movement began with spontaneous enthusiasm, and bore the stamp of success right up to the minute the fatal news arrived.—Alberni Pioneer News.

# Protect the Weak
