THE ENDERBY PRESS

Enderby, B.C., September 4, 1913 AND WALKER'S WEEKLY Vol. 6; No. 27; Whole No. 287

Locals of Home Events of Interest Near Home and Far Away

Arthur Teece left for Edmonton on Monday.

R. Blackburn is absent on a visit to the prairie provinces.

Miss Gibbs is spending a few days at Lake Louise Chateau.

Mr. R. Mowat, of Kamloops paid a short visit to Enderby this week.

Mrs. J. J. Clarke and son left to join her husband in Manitoba on Saturday.

Mrs. Bishop left for Sicamous the past week, where Mr. Bishop is engaged in the lumber industry.

A business meeting of the Hospital Auxiliary will be held Thursday, (today)a 3.30 p. m. in the City Hall.

Mrs. Williamson and son Ray left the past week lor Everett, Wash., where they intend in future to reside.

A meeting of the Girls' Guild will be held in the basement ol the Presbyterian church, Friday evening at 8 p. m.

Mr. N. E. Landon, accompanied by his sister, Mrs. R. D. L. Long, left on Saturday on a visit to the coast cities.

Reg. Crane, A. C. Attenborough, C. Fravel and R. Ruttan left on a camping trip to Mabel Lake this week.

Miss Marion McInnis, of New Denver, will be married to Mr. Alfred Watson, on Monday, the 8th of September.

The following Enderbyites left for the Vancouver Exhibition on Friday: H. H. Worthington, Mrs. Kilby, W. and H. Golightly, Mr. and Mrs. Mitchell.

W. E. Banton came in from the coast on Wednesday on business and will remain a week or two. He anticipates having his law office in operation here in a few days.

The Lord Bishop of New Westminster will visit Enderby on Sunday morning next, Sept. 7th. The rite of confirmation will be administered during the morning service at 11 o'clock.

The Armstrong Growers' Association received last week $28,000 from the Provincial Government, the latter's share toward the farmers' cooperative association formed this summer throughout the Valley.—The Advertiser.

A little girl was telling about her holiday trip to the woods with her daddy on the day the shooting season. "Papa didn't get a deer. He went into the bush after a deer, but it wouldn't come out." A second later: "Papa shot one grouse, 'cause it was running along the road."

Bears have been frequently seen in the vicinity of the Mabel lake road recently. A mother bear with two cubs were encountered on the road by a settler the other day, who was driving a team of horses, walking behind them. The cubs came playfully up to the horses, and the mother bear showed fight. The man turned and made in the opposite direction.

A large number of Enderbyites visited Vernon on Monday, and all report that the celebration there was very fine. The parade was especially good. The first baseball game of a series of five games for a purse of $1,000 was played between Vernon and Kelowna, and was won by the Vernon team.

Mrs. Kilby, trained nurse recently from New York, has joined her mother, Mrs. Sewell, in the Enderby Hospital, and this popular institution will continue to receive patients as in the past. The Enderby Hospital was licensed some time ago and is now under government supervision.

MR. METCALF AGAIN

Editor The Enderby Press.

Dear Sir: In your last week's issue you state that my letter on the above subject does not require any reply from either you nor the city Board of School Trustees for two reasons; firstly being a resident outside of the proposed limit and having no children to be considered.

In reply to your first objection, I may state that as I am one of the trustees of the North Enderby School District, I am entitled to express the views of those of our ratepayers who are within the proposed three mile limit, and also as it will effect those like myself who are just beyond it.

If the great object of centralization of schools was the reason for the city of Enderby school trustees building their present eight-roomed school house, then why were the people of this district not approached in the matter when they were at the time without a school through the organization of the Grindrod School District? Why did they wait till we had our district reorganized and the one-roomed school house removed at great expense to a more central position.

The sole object of the city of Enderby school board being for the advancement of education in this district, why do they make it a three-mile limit instead of taking in all the North Enderby school district? No, they evidently prefer the three-miles which just goes to the north boundary of our school site and takes in the cream of this district financially so far as revenue for school purposes are concerned. What about the education facilities for the children that are left in the remaining part of this district?

The three mile limit also takes in the very people who a year ago got up a petition to be removed out of the Enderby district. I might state that they got up the petition themselves and were not sent type-written forms to sign by the North Enderby school trustees, as was done by the rustees of the Enderby district.

This petition ought to be proof enough that the writer is only expressing the views of those interested parties.

As regards our Editor's second objection to my criticism by which he evidently means children of school age, well I for one would like to know where he has a look-in, and if we accept the leading lights of the city of Enderby for our guide, this is not a necessary qualification for a school trustee.

In regard to wild land tax, experience has taught many in this district that it is preferable to pay the wild land tax on unimproved land in preference to the taxes that have to be paid under the assessment of the city of Enderby.

In conclusion I might say that I am led to believe that the three-mile limit scheme is only another of those mischievious bombs that are manufactured in our editor's laboratory, which generally do more harm than good to e ther the advancement or good of any, either city or rural district. I have the opinion that when the city of Enderby Board of School Trustees have any object in view for the advancement of this district on educational lines they will come forward in a straight-forward manner and consult the people interested,and unless they are prepared to do this their best plan is to keep within their present limit.

Your very truly,

J. C. METCALF,

Sec.-tras. North Enderby School Board.

This communication shows what a Board of School Trustees has to contend with. The whole trouble seems to be the result of misunderstanding. Mr. Metcalf, like a few others, for whom he claims to be speaking, is laboring under an imaginary grievance. He thinks the Enderby school board is endeavoring to extend the limits of the Enderby School District in order to benefit the members of the board, though in what way he does not make clear. There is much Mr. Metcalf is ignorant of in connection with the case. In the first place the North Enderby School District was organized to escape what some of the owners of outlying property feared would be excessive taxation when the new Enderby school was decided upon. This, of course, was a bugbear they had little to fear, for it is generally recognized that the cost of upkeep of a first-class graded school is very much less per capita of pupils in attendance than for the same pupils to be educated in the small one-room school houses scattered about here and there. After operating the school one season, this fact was brought home to some of these same property owners who had children attending. Then the children were sent to the Enderby school. The Enderby school board put it up to them clearly. In justice to our own ratepayers, they said in substance, we cannot provide education for children from outside school districts. You will have to either have your children educated in your own school district or pay the per capita required to educate the children in the Enderby school. These parents did not feel disposed to pay the school taxes in both districts, so the simplest way out of it was for them to apply to the Provincial Board of Education to be admitted into the Enderby school district. This petition is now pending. In the meantime the children of the petitioners are allowed to attend the Enderby school.

For this action, Mr. Metcalf has drawn up a bitter indictment against the Enderby Board of School Trustees. When the facts in the case are known, Mr. Metcalf's effusion appears somewhat out of joint. Mr. Metcalf also has an opinion in relation to the editor of this uaper and his bomb manufacturing proclivities, but Mr. Metcalf is as badly awry of the facts in this connection as he is in connection with the Board ol School Trustees. In fact, Mr. Metcalf appears to be up in a flying machine in connection with the whole matter.

Bob Peel has been so busy making sales this week that he has not had time to write his ad copy.

Earl Jr Continues to Beat the Big Ones on the New England Circuit

Earl Jr. is making a marvelous record on the Grand Circuit this season. He has entered in five free-for all pacing races—at Lewiston, Mr., Bangor, Me., Augusta, Me., Salem, N. H. and Hartford, Con.—and in each race he set a new record on the various tracks. Mr. P. H. Murphy, who is with the horse and si guiding his jockey in the handling of the grey, wires of the last great race, at Hartford, Con. This race was witnessed by a crowd of 60,000. It was paced on the favorite track for Braden Direct, the black hope of the Grand Circuit breeders, who is or was selected as the horse that was to stop the Earl in his sterling record for the season. Braden Direct paced the fastest mile for a 4-year-old on the Grand Cirruit for 1912. He was beaten by Earl Jr. at Salem last week, but on a half-mile track and soft at that. The backers of Braden Direct were sure the black horse would put it over the grey on the mile track at Hartford, but here the Earl *again* fooled them. Of this race Mr. Murphy wires:

Hartford, Conn., Sept. 1.—Earl Jr. won free-for-all; Braden Direct second; Branham Baugham third. Waller Cochato shut out out in last heat. Heats, 2.2¼, 2.3¼, 2.2¼. It was a great race. They are all trying to beat the Earl. P. H. Murphy.

From dispatches it is learned that Braden Direct won the first heat, while Earl Jr. carried off the 2nd and 3rd. It is noteworthy in reading the breeders' papers that when the Enderby horse wins and the favorites are beaten, the merest mention of the fact is made, followed by long predictions of what the favorites are going to do with the Earl in the next race.

The newspaper reports of the races are far more fair, and the great ittle grey is given full credit for the work he is doing.

Of the race at Augusta a report says: "Earl Jr. Wednesday, before a crowd of fully 7,000 people at the Augusta Driving Park, repeated his Lewiston and Bangor successes in the Hanks' Grand Pine Tree Circuit, by winning the free-for-all in three traight heats, and lowering the track record in the last heat to 2.08¼.

"Grand Circuit stuff or better!" was the declaration of many, for it was certainly a high-class exhibition."

Speaking of the race at Salem, N. H., the Boston Globe says: "The victory of Earl Jr in the free-for-all pace was not quite so unexpected, as the grey war horse has been making a sterling campaign over the double ovals of Maine, and New England turfmen figured he would be more at home in the soft footing than Braden Direct, who is off the parlor tracks of Michigan. The men who have been following the big line, however, could not be talked out of the notion that the Denver pony was not the best over any sort of going.

"Earl Jr had his work cut out, and it was only his ability to t mp through the stretch at better than a two-minute clip that enabled him to win the first heat in 2:04¼. His competitor was not Braden Direct, however, but Hal B. Jr.

"Earl Jr took the track at once in the fast pace and did not lose it the first heat, although it was only by inches that he flashed at the finish. Braden Direct went to a break when Eagan sent him after the grey fellow on the far turn.

"Braden Direct wade his followers feel well in the second mile by racing out in front on reaching the backstretch, but when Milloy driving the Earl, turned his sacing machine loose at the three-quarters, pacing in even time was more than Direct could attend to and mind the footing. As the horse from Western Canada overhauled him he took the challenge on the run, and when he caught, the race was over and Hal B Jr had secomh money tucked away."

SLOW REGISTRY WORK

It isn't much wonder that land sales in the inetrior of B. C have diminished to a whisper. We were shown a certificate of registration issued out of the Kamloops office on a title to a piece of property from the original Crown owner to the buyer, hence had never been held up for any error in the papers. The certificate showed that the application for registration had been made on the 30th of May, 1910f And it was registered on the 7th of September, 1912. At this rate, if it takes 16 months to get first papers registered under our registy system, how long will it take to get property deeds registered on property that has passed through many hands. Under our system of registration, it takes from a year to 18 months to get a paper through the registry office—something that should be done in 8 to 10 days. If a business house conducted itt business with the same amount of alacrity as is apparent in the registry offices of the Province, how long would he prosper?

STOLE A RAZOR

George Burnham walked in to Enderby last Friday morning, because he didn't have the price to ride. In about half an hour he walked into the Enderby hotel barber shop while the proprietor was absent and put a razor in his pocket. In a few minutes the proprietor returned and the man was accused of stealing the face cleaner. He denied it, and at the same time made steps for the rear as Officer Bailey was called. The Constable followed him. A sharp run down the Vernon Road headed the culprit off and he took shelter under he loading platform in the sawmill yard. The Constable quickly had him in the lock-up. The next day he was taken to Vernon to serve a 30-day sentence for petty larceny.

L. Tretheway, who has been visiting with Mr. G. L. Williams, left for the coast last Friday.

Two recruits were added to the local Boy Scouts at their last meeting. The boys are making good progress in their work, and there is room for more boys to join the troop.

If you want to make money surely and quickly, buy inside town property. For Sale, 180 lt. frontage on Belvidere St.; 7.roomed house, large stable, back entrance on Stanley St Price $3,750. Graham Rosoman, Enderby.

ENLARGING SCHOOL DISTRICT

There seems to be a great deal of misapprehension on the part of a few residents outside of the present Enderbay school district as to the action of the Board of School Trustees in agreeing to increase the limits of the district to three miles provided the required number of parents of school children within the three-mile limit desiring to take advantage of the better facilities offered in the Enderby school will sign the necessary petition to be presented to the Department of Education to enable the district to be so increased. It should be understood at the outset that for the past two years quite a number of children from neighboring school districts near Enderby have been taking advantage of the Enderby school without the districts from which they attend paying into the Enderby district anything in the way of school taxes for the education of the children so privileged. The members of the Enderby school board have taken this position: The law provides that all school children must be provided free education in the school district in which they reside and from which the school tax is collected. But the law does not provide that any school child shall be given educational facilities in an adjoining school district if the school district from which the child comes refuses to pay over to the adjoining school district the per capita tax required for the child's education. For some years past several children from the Armstrong municipality residing near Enderby have taken advantage of attending the Enderby school. Children from North Enderby School District have done likewise. But neither the Armstrong municipality nor the North Enderby School District will turn over to the Enderby School Board the per capita tax required for the education of these children. And the Enderby School Board takes the position that this per capita tax must either be paid over to the local school account or the children educated in the district from which the school tax is collected. Otherwise they will be loading upon the ratepayers of the Enderby district the expense of their education. This the Enderby Board of School Trustees is not prepared to do any longer.

The parents of these children still desire their children shall have the benefits of the teaching by Enderby's excellent staff of teachers and the better school facilities. "All right," say the trustees, "we have the room and will gladly take your children in; but if your district is not prepared to pay for them at the same rate as is collected for the education of the children within our own district, the only thing left for you to do is to come into our school district."

With this understanding, the parents in the adjoining school districts desiring to take advantage of the increased facilities in Enderby for their children have signed a petition asking to have the limit extended.

Much has been said in connection with this phase of the school question, and the members of the Board of School Trustees bitterly condemned in some quarters for taking the stand they have, but in justice to all concerned, there cannot be any doubt about the security of their position. They are not there to provide education for the children of one parent at the expense of another; nor are they there to collect by action of law—even if the school act made provision for it, which it does not—the school taxes from another school district which refuses to pay over the school tax collected for the education of the children.

The present school population of the Enderby school district is accommodated in six rooms. The new school building now nearing completion at a cost of $60,000, will have eight school rooms and assembly hall. The per capita school rate is approximately $23 per child. The per capita school rate in most of the little one-room country district schools where the attendance is from 5 to 10, amounts to something over $90 per child. And the nature of the education cannot be compared. It is this fact that is influencing the parents of the children in the neighboring districts in their effort to get into the proposed three-mile district.

THE POLICE MAGISTRATESHIP

The correspondence between the Enderby City Council and City Clerk Rosoman relative to the office of Police Magistrate, appearing in the council proceedings last week, was sufficiently clear and to the point to allow of no misunderstanding. As to the wisdom of the Council's action in demanding that the offices of City Clerk and Police Magistrate be separated time alone can demonstrate. Mr. Rosoman, as Magistrate, has ever been a careful, painstaking and conscientious official and his judicial mind made him particularly well-fitted for the magistracy. It was very convenient, too, to have the magistrate always on hand in the City Hall. These facts were appreciated by the members of the City Council quite as much as by anyone else. The only question confronting them was that of keeping the work of one officer down to where it could be handled by him, and as Mr. Rosoman is a most proficient City Clerk—recognized as one of the best in the Province—the Mayor and Aldermen desired to have his undivided attention given to this work.

The recommendation of Mr. Teece to fill the magistracy may be the best that can be made. Experience alone will have to demonstrate his fitness for the position. It is not an easy one to fill but Mr. Teece has unlimited patience and may fill the bill most admirably.

However, the resignation of Mr. Rosoman as magistrate has first to be accepted by the Attorney-General.

COAST-GROWN TREES

Mr. H. E. C. Harris, who has lately taken up his home near Enderby, is already booking orders for spring delivery of the well-known non-irrigated trees, etc., of the B. C. Nurseries Company, of Vancouver. Government officials at Vancouver have expressed themselves in no uncertain terms as to the excellence of non-irrigated stock, and there is naturally a big demand for it.

FOREST REVENUE INCREASING

For the first six months of the present year the forest revenue of the B. C. Government amounts to $1,443,650 as compared with $1,175,296 for the same period in 1912.

SPLENDID RECORD BEING MADE

In less than two years of office the Borden Government has to its credit a magnificent record of national development. The present government has made generous provision for all legitimate needs but at the same time has taken due care that in the expenditure of all moneys voted, business methods must prevail, capable officials must be employed and for every dollar of expenditure there must be a dollar's worth of return to the people of Canada.

Upon that basis the Government has undertaken and is pressing forward a program of development covering the whole of Canada. Important and long-needed harbor improvements are in progress on both oceans and upon the great lakes, the canal system of Canada is being extended and improved to meet the imperative demand for better facilities of water transportation, the National Transcontinental Railway leaks have been stopped, the road pressed to completion and the difficulty arising from the Quebec bridge disaster overcome by the establishment of a car ferry. The Hudson Bay Railway and terminals are to be completed by 1915. A system of public owned elevators is being established in Western Canada. A parcel post system will be in operation by the end of the year. The Atlantic steamship service has been improved and the cable service cheapened. Trade within the Empire has been extended and is being further extended. The Intercolonial Railway system is being improved in all its branches. Agriculture is being fostered and encouraged by the expenditure of millions of federal money in co-operation with the provinces. The St. Lawrence steamship route is being safeguarded and drydock facilities provided for the accommodation of the largest ships. An investigation of ocean freight rates has been undertaken.

To all this, but for the action of the Senate, would have been added provision for the construction and maintenance of good roads in all the provinces of Canada.

These are some of the outstanding achievements of the Government. The list is by no means exhausted. Yet with all this, the abounding prosperity has made it unnecessary for the Government to place the resources of the Dominion under the slightest strain. On the contrary, wise administration of the country's finances has resulted in a material reduction in the public debt, and the credit of Canada never stood higher before the world than it stands today

TOWN BEAUTIFUL IDEAS

Supposing every citizen in this community would subscribe to these suggestions from an exchange:

I promise to keep my sidewalk clean

I promise to keep the gutter in front of my premises free from weeds.

I promise not to throw fruit skins or paper on the streets.

I promise to keep the weeds cut down on my premises.

I promise to keep my backyard neat and clean.

I promise not to walk across other people's lawns and pathways.

I promise to do all in my power to keep the town neat and clean.

I promise to do all in my power to help others to keep this pledge.

I promise to keep my hens in my own back yard.

I promise to keep my cat shut up over night.

I promise to get rid of my dog if it annoys my neighbors or is a nuisance to others.

I promise to tend to my own business and not speak slightingly of my neighbors.

EXPIRED TIMBER LIMITS

Victoria, B. C. Sept. 2.—The Government is about to commence a survey of fifty expired timber limits in the Comox district. They comprise some 30,000 acres, and it is possible that a quantity of this land may be found suitable for settlement. If so these lands will be thrown open for pre-emption. Outside of the Comox district there are some 1200 expired timber licences which will be examined as speedily as possible. The policy of the forest branch is to ascertain exactly the nature of the land in these expired timber areas and to utilize it for the purpose for which it is best suited. In this policy the Lands Department is far ahead of any similar department in Canada.

PREAMBLE

Enderby Retail Merchants' Association

In order to foster and maintain a permanent social feeling among the merchants of Enderby; to obliterate distrust and inspire confidence among the members of the trade; to correct excessive and unmercantile competition; to remove by concert of action such evils and customs as are against good policy and sound business principle,—whether it be cutting of prices, selling of the wholesale house at retail, improper house-to-house peddling, the distribution and consumption of adulterated and unwholesome goods, the use of fictitious labels, the use of dishonest weights and measures, or whatsoever the evil may be,—to disseminate useful information, to watch and influence legislation towards the better protection of our capital; to assist our members in collecting delinquent accounts; to encourage the observance of the Sabbath and all legal holidays and to attain the results which experience has proved are not attainable by individual effort: for these reasons we hereby resolve ourselves into an organization to be known as the Enderby Retail Merchants' Association.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Jetty and Dredging at the North Arm of the Fraser River, B. C." will be received at this office until 4:00 P. M., on Tuesday, September 30, 1913, for the construction of Jetty and Dredging at the North Arm of the Fraser River, B. C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B.C.; W. Z. Earle, Esq., District Engineer, Winnipeg, Man.; J. S. MacLachlan, Esq., District Engineer, Victoria, B. C.; J. L. Michaud, Esq., District Engineer, Post Office Building, Montreal, P.Q., J. G. Sing, Esq., District Engineer, Confederation Life Building, Toronto, Ont., and on application to the Postmaster at Vaocouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to five per cent (5 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

A POOR PLACE FOR BOYS.

Jail is a poor place for boys. It is a particularly poor place for 'bad' boys guilty of nothing worse than mischief. Such lads have commonly an exuberant energy which will be useful in the world's work in later years if they get safely through their mischievous period. To lock them up in cells is the way to turn them into criminals.

A Handsome Edison Triumph Phonograph

(Value $97.50)

Given Away Absolutely FREE

A key given with every $1.00 cash purchase, or every $2.00 paid on back account. The key that will unlock and release the Phonograph takes the instrument.

We will advise you when the keys have all been distributed.

This offer includes also moneys paid for electrical goods, or paid in to us on Mr. H. G. Mann's account.

Lets Get Better Acquainted

¶ Perhaps you have worn Hobberlin clothes before you read this "ad." If you have not, and have read the statements we make from time to time you will know that we claim to make better garments, better tailoring, better styles, better fabrics, better values than you'll get elsewhere for the same money.

¶ If there be the shadow of a doubt, it's easy to put us to the test. Proving every statement will please us—and mean much better clothes satisfaction to you—than if you just came in and ordered without putting us to the real test.

¶ We know you will agree with us once you have seen the garments, the fabrics—the styles.

Department of Militia and Defence

New Drill Hall at Enderby, B. C.

NOTICE TO CONTRACTORS

SEALED TENDERS marked on the envelope "Tender for Construction of Drill Hall at Enderby, B.C.," and addressed to the Director of Contracts, Department of Militia and Defence, Ottawa, will be received until noon, September 15th, 1913, for the construction of a Drill Hall at Enderby, B.C.

Specifications may be seen and full particulars obtained at the offices of the District Officer Commanding Military District No. 11, Victoria, B.C.; Town Clerk, Enderby, B.C., and the Director General of Engineer Services Headquarters, Ottawa.

Tenders must be made on the form supplied by the Department and accompanied by an accepted cheque on a Canadian Chartered Bank, for ten per cent (10 p.c.) of the amount of the tender, payable to the order of the Honourable the Minister of Militia and Defence, which amount will be forfeited if the party tendering declines to enter into or fails to complete the contract in accordance with his tender.

The Department does not bind itself to accept the lowest or any tender. EUGENE FISET, Colonel.
Deputy Minister.

WILL INVESTIGATE ROYALTY ON TIMBER CUT

When the amendment of the Forest Act was under consideration last session the Government laid before the house certain proprosals for the re-adjustment of that portion of the price at which Crown Timber is sold known as "Royalty." After submission of the draft proposal to the house a representative committee of lumber men conferred with Hon. W. R. Ross, the Minister responsible for Forest Administration. As a result the royalty amendment was worked out in further detail and a tentative agreement reached which appeared to offer a satisfactory solution of the problem. After further consideration, however, the conviction was reached that so important and complex a subject as the sale price of Crown Timber rendered even fuller investigation necessary. Accordingly the Minister of Lands announced that time would be given for enquiry, action being postponed until the results of this enquiry were available. Plans have now been consummated for a series of hearings by the Hon. W. R. Ross and the following program has been issued for publication:

Hearing at Vancouver, Sept. 8th.
Kamloops, September 9th.
Revelstoke " 10th.
Nelson " 12th.
Cranbrook " 15th.

In addition to these public hearings members of the industry concerned will be encouraged to submit their views in writing. After this material has been compiled and carefully considered the next step will be an announcement by the Minister regarding the adjustment of royalty following which the necessary amendments to the Forest Act embodying these changes will be made at the forthcoming Session.

SHEEP RAISING FARMS.

Sheep raising on a large scale may be made an entirely successful and eminently profitable industry in the Okanagan valley, according to Mr. George Heggie, of Vernon, who has himself demonstrated the feasibility of the project.

In the spring of this year Mr. Heggie, as manager of a corporation which controls an immense acreage near Vernon, imported 1800 head of sheep from Maple Creek, Sask. Though they encountered a number of difficulties and adverse conditions at first, the sheep have thrived beyond expectation, and Mr. Heggie has determined to increase the flock to 2500 or 3000, and to keep at least 1000 ewes on hand every year for breeding purposes.

At first the sheep, which had come direct from the prairies, did not take kindly to the hills, nor to the long grass on the range, for they prefer short food; but once the range was cropped short they put on weight rapidly.

The success of the experiment will undoubtedly result in the establishment of a new industry in the Okanagan valley. Already a movement is afoot to urge the government to raise the coyote bounty from $3 to $5 in order to encourage owners of range lands to take up sheep raising.

Okanagan valley sheep growers will have a home market. The butchers of the town of Vernon alone express willingness to handle from 50 to 100 sheep each week. At present most of the mutton used in the valley is imported.

FRUIT PESTS.

Warnings against fruit pests are being given by Mr. T. Cunningham, provincial fruit pest inspector, in order to safeguard the British Columbia industry at a critical time of the year. Owing to practically all foreign fruit being wrapped with paper, the task of inspecting each piece for infection, says Mr. Cunningham, would be endless and he looks to the foreign grower, who should know if his fruit is infected or not, to guard against it. In the end, Mr. Cunningham points out, he is the one who suffers. The government, he states has already spent $35,000 on fighting the codlin moth during the last five years and more than that on the San Jose scale. The Colorado potato beetle, he says, has reached the eastern counties of Idaho and Montana and is marching west. The most stringent regulations, he declares, are necessary to keep this pest out of British Columbia.

MIGHT REMEDY MATTERS

Although they have not as a body engaged in any propaganda or meddled with matters outside their own affairs, the Okanagan Printers' Guild might well have taken up at the recent meeting the matter of mail facilities between the Okanagan and the Similkameen which are now about as stupid, unbusinesslike and unsatisfactory as they could very well be. If the members of the Guild in the upper end of the Okanagan Valley knew that their papers which come down the lake on Thursday of each week, never reach Hedley or Princeton until the next Monday, and often not until Wednesday, they would doubtless institute a crusade against an arrangement so palpably behind the times.—Hedey Gazette.

POSTOFFICE NOT BILLBOARD

Among the important notices recently issued by the Deputy Postmaster-General, is one which prohibits the posting of any notices other than those connected with the postoffice work, in the lobby of any postoffice. Hitherto the local postoffice has been a favorite place for the posting of advertising, and this order of the department will cause a big difference to the appearance of the postoffice lobby. Under the new order not even religious notices, or notices relating to lost articles will be permitted to be posted.

"Buy in the Path of Industrial Progress"

NOWHERE IN THE ENTIRE WORLD ARE THERE GREATER INDUSTRIAL ADVANTAGES THAN AT INDUSTRIAL MISSION

As Gary is to the Middle States; as Lowell and Lynn are to New England; as Jersey City or Paterson are to the Eastern States, so will INDUSTRIAL MISSION be to all Western Canada—the throbbing, humming, heart and soul centre of manufacturing industry.

HERE ARE SOME INTERESTING FACTS —SOME "REASONS WHY"

INDUSTRIAL MISSION is located at and is a part of MISSION CITY, B. C.—the very heart of the famous Fraser Valley in the most perfectly developed area in Western Canada.

INDUSTRIAL MISSION has the cheapest electrical power for manufacturing purposes on the North American continent.

INDUSTRIAL MISSION is the junction point of four Canadian and American railroads. On main line of Canadian Pacific, at the head of deep water navigation on the Fraser river, assuring unexcelled rail and water transportation.

INDUSTRIAL MISSION has all Western Canada and the Orient as a market. It will occupy the same position as an industrial district as the famous Okanagan Valley does to-day as a fruit and farm district.

YOU CANNOT AFFORD TO OVERLOOK INDUSTRIAL MISSION

WRITE TO-DAY FOR ILLUSTRATED BOOKLET.

Unquestionably, lots in INDUSTRIAL MISSION are the greatest investment in Western Canada. They will treble in value at the opening of the Panama Canal.

New Policy Adopted by Lands Department Covering Free Pasturage

In its progressive and vigorous policy for the development and conservation of the natural resources of British Columbia, the Department of Lands of the Provincial Government has not failed to recognize the great possibilities for the upbuilding of the stock industry through the utilization of the pasturage on the unoccupied public lands. Already there has been sufficient investigation to show that the vast natural stock ranges of B. C. offer excellent opportunities for the successful development of a large stock industry, with great benefit to the Province. At present only a very small part of this forage crop is used, and the problem has been to devise means by which stockmen might be encouraged to locate in British Columbia, and thus to convert this natural resource, now going to waste year by year, into beef and mutton, leather and wool.

One of the chief difficulties inherent to this problem, but which has been successfully overcome, was to work out a plan which, while allowing the ranging of sheep and cattle, on a large scale, would protect the range itself from injury by over-grazing, and above all, prevent range monopoly by large owners to the disadvantage of our settlers and pre-emptors. This problem necessitated not only broad consideration of the methods of utilization of the public range adopted by other countries and their results, but also a careful consideration of the local conditions, and the adaptation to the needs of this Province of the methods proved to be most successful elsewhere.

Hon. W. R. Ross, Minister of Lands, foresaw that the administration of grazing under the leasing system would offer serious disadvantages in locking up large areas against settlement and other forms of use, and the actual sale of grazing lands, would, on the one hand revite monopoly, and on the other require so large a capital investment by stockmen as to retard the development of the industry. He finally decided that under the permit system only, could full protection of the public interest be assured, since under this system the number of stock can be limited to the actual grazing capacity of the range, monopoly can be effectually prevented, and full provision can be made for keeping the grazing lands open for settlement and for the utilization of timber and of any other recources needed in the settlement and development of the country.

The application of the permit system will involve the division of the range into natural grazing districts suitable for sheep, for cattle, or for both; and the fixing of the number of head which may be allowed to graze in each, without impairing its productiveness and carrying capacity. Wherever necessary, for the protection of water supply or of game, stock will be excluded. The keynote of the policy inaugurated by Mr. Ross for the administration of grazing is the protection of the actual settler in the use of the range. In the issuance of grazing permits, first consideration will be given to small owners of stock, and the owners of improved ranch property. As Mr. Ross indicates, however, the extent of unused range is still so great that after fully providing for the needs of the settlers' stock, there will remain ample accommodation for large herds of sheep and cattle.

Under the liberal policy established settlers will be allowed to graze a reasonable number of stock free of all charge. For large herds, however, a grazing fee will be charged, which in the beginning will be merely nominal, the policy of the Government being to permit the industry to establish itself fully before making a charge, in accordance with the actual commercial value of the grazing privilege.—Victoria Colonist

SHOOTING SEASON OPENS

The shooting season is now open. Labor Day fell on Monday, the 1st, and every man with a gun and fortunate enough to have taken out a gun license, took advantage of the day to get his first game of the season. There was shooting heard in all directions bright and early Monday, and for the past day or two in the hills and valleys close to town, the birds are being toppled over quite regularly.

If you have a gun and carry a gun licence, which must be secured from the local provincial game warden or constable, then you may shoot—

Grouse of all kinds, from Sept. 1st to Dec. 31st, inclusive.

Prairie chicken from Sept. 1st to Oct. 15th, inclusive.

Ducks, geese and snipe, from Sept. 1st until Feb. 28th, 1914, inclusive.

Deer, over one year of age, of the Columbian or Coast species, from Sept. 1st to Dec. 15th, inclusive.

You may NOT shoot or trap—

Moose, anywhere south of the 52nd degree of latitude, except in the Columbia Electoral District.

Mountain sheep, until Sept. 1st, 1916.

You may sell—

Ducks, geese and snipe, from Oct. 1st to Oct. 31st, both dates inclusive.

Deer of the male sex, over one year of age, from Sept. 1st to Oct. 15th, inclusive.

Under the general provisions of the game law, no person may kill more than 12 prairie chicken in any one day, or have more than that number of such birds in his possession without satisfactory proof of the date of killing and taking.

Any game birds and deer killed lawfully during the open season may be kept for the private use of the owner for fourteen days, and no longer, immediately after the commencement of the close season; and ducks, geese, snipe and deer, if lawfully obtained during the open season for sale, may be exposed for sale and sold for five days, and no longer immediately after the period of sale expires. In all cases, however, the proof of the time of killing or purchasing will be on the party in possession.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or sub-Agent of the district in which rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee for $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

MRS. MOFFET SURPRISED

Mrs. F. V. Moffet and family left for Seattle on Monday. They intend to make their home there. A few evenings before their departure a party of fifteen or twenty Enderby ladies took possession of Mrs. Moffet's home during her temporary absence and upon her return gave her a surprise. In token of their high appreciation, Mrs. Harvey on behalf of the ladies, presented Mrs. Moffet with a handsome brooch, set with a sunburst of pearls. In their ten years' residence in Enderby, Mr. and Mrs. Moffet have given an expression to life that will be felt long years after their departure. There has not been a case where help was needed that it has not been forthcoming most cheerfully and without stint. Mrs. Moffet has taken an active interest in all helpful organization work, and her individual ministrations have been to all most kind.

It means a genuine loss to have them leave Enderby, and one that will be felt. But they go to Seattle for the benefit of their children and for that change in life that is essential to a well-rounded experience. Mr. Moffet will continue the management of the Columbia Flouring Mills

AUSTRALIA, PROVINCE OF VICTORIA
