AND WALKER'S WEEKLY

Vol. 6, No. 23, Whole No. 283

Local News of General Interest and General News of Local Interest

ENDERBY NEWS IN BRIEF

H. Chapman left for Nanaimo on Monday.

Miss Edna McMahon is visiting friends at Tappen.

The work of widening the Glen Mary road was started this week.

Mayor and Mrs. J. L. Rutten are spending a few days at the coast.

F. Christopher, brother of Mrs. W. Anderson, returned to Vancouver this week.

Mrs. E. B. Huffman left on a visit to her daughter in the East, Saturday afternoon.

The infant child of Mr. and Mrs. Jas. Scott died of whooping cough Wednesday morning.

Mr. Wiley, who has been visiting his son, C. R. Wiley, left for Nelson Tuesday evening.

Rev. J. A. Dow of Chase, returned home Monday after spending a few days in Enderby.

The Ladies Aid of the Presbyterian Church will meet at the home of Mrs. Duncan, at 2.30, August 14th.

J. N. Grant has his new residence on George street under roof and the cement-brick veneering is now in hand.

The City has taken up the problem of keeping the sides of the streets thistle-free; also the vacant lots and roadsides.

Postmaster Harvey and family, Mr. and Mrs. Proctor and Mr. and Mrs. Forster, are enjoying a few weeks' camping on Mabel Lake.

The Sacrament of the Lord's Supper will be administered at the close of the evening service in the Methodist church next Sunday evening.

J. S. Dickson has finished a pretty home of the bungalow type, on the high ground facing the home of Mr. Henniker, on the Enderby road to Mara.

J. E. Crane will give a demonstration of the new Edison disc machine in the Opera House this (Thursday) evening in connection with the regular picture show.

J. W. McDonald, who has been conducting the blacksmith shop of W. H. Hutchison for the past half-year, left for Calgary this week, after turning the blacksmith shop over to Mr. Faulkner.

Last Saturday night during a heavy electrical storm, a bolt of lightning followed the wires into the power house and burned out the armature. Repairs were made on Sunday and that evening the lights were on as usual.

Jas. C. Hogg, accountant of the Bank of Montreal, has been promoted from Enderby to Victoria, and will leave today. Mr. Hogg has made many warm friends in Enderby who will regret to lose him, though congratulating him on his promotion.

F. H. Hassard will bale 500 tons of hay this season. The yield has been larger than for several years. The same report comes from all our hay men, and they claim it is of excellent quality. Market quotations are low, but promise to be higher later.

The Government warning to farmers to induce them to cut thistles before they bloom, does not seem to have any effect on road foremen.

Along the sides of the road from Enderby to Armstrong after leaving the Indian church as far as Lansdown the thistles are so thick as to crowd out all other growth.

The managers of the Opera House promise something good for Saturday evening in connection with the regular special pictures. Granville, the wireless experimental expert and musical novelty artist, will appear. He will present a demonstration of the wonders of wireless, sending messages igniting explosives, ringing bells, lighting an electric globe and running a fan, all done by wireless. Everything will be explained and the audience is requested to ask questions and may inspect the delicate apparatus. He will also perform upon a number of musical instruments.

MERCHANTS' ASSOCIATION

An adjourned meeting of the Enderby Retail Merchants' Association was held in the City Hall on Monday evening to hear the report of the committee appointed to solicit the merchants of the town for members. President Crane was in the chair. The committee reported that the membership would be 18 to 20, and that the feeling was unanimous in favor of organizing. The meeting considered the preamble and by-laws and the same were adopted. The feeling of the meeting was strongly in favor of harmonious action in all matters affecting the public welfare, as well as the interests of the members, and the belief was expressed that in a short time after organization it would be found by the customers and public generally that the Association will work beneficially to all concerned. Another meeting will be held next Tuesday evening at the City Hall.

POLICE COURT NOTES

Antoine, an Indian from the reserve, was arrested on the Canyon road with a white man Sunday evening, both of them under the influence of liquor, by Officers Bailey and Oland. Antoine was tried before Magistrate Barnes on Monday and fined \$15 and costs.

Baptiste Quarin, was taken before Magistrate Barnes on Monday for being drunk on a railway coach. A fine of \$2.50 and costs was imposed.

William Beadle, the white man arrested in company with Antoine the Indian, was tried before Magistrates Barnes and Rosoman on Wednesday morning, and pleaded guilty of supplying the Indian with liquor. A fine of \$50 was imposed. Beadle applied for and was placed on the interdiction list.

BOY SCOUT NOTICE

Boys attending the Cadet Camp, Aug. 18th, will be requested to take following articles in their kit: 2 pr. stockings, change of underclothing, extra shirt, hair brushes, tooth brush soap, towels, shoe brush, spoon, knife, fork, tin plate, cup.

Blankets, etc., will be provided at camp. Bathing suits and baseball outfit to be packed separate. Any boys attending who do not belong to the Scout troop will be provided with Scout uniforms for camp upon application to the undersigned.

F. R. PRINCE, Adj.

ARMSTRONG'S SUMMER FAIR

A very good crowd attended the Armstrong summer fair last Thursday, and all seemed thoroughly satisfied with the day's exhibition and sports. Perhaps there was lacking that holiday spirit, but nevertheless the affair was a success, and great credit is due those who had the arrangements for the fair in hand.

The exhibition hall was not open to visitors until quite late in the afternoon; nevertheless the greater part of the crowd took advantage of the opportunity to see the display of all kinds of small fruits, field produce, early varieties of apples, flowers, etc. Considering the season the exhibits were splendid, small fruits and vegetables especially being of a very high quality, and the displays were very cleverly arranged.

The field sports occupied all of the afternoon. There was racing, jumping and tug-of-war, and one of the best base ball games ever played in the Valley, between Vernon and Kamloops. In this game the Vernon team took the lead in the second inning and held it until the end of the ninth. They struck some easy ball in the second and piled up three runs on well-placed hits. The score stood 6-3 in favor of Vernon when the Kamloops boys went to bat at the end of the ninth. It looked to be a sure thing for Vernon, but all of a sudden the Kamloops heavy hitters put it all over the Vernon twirler, hitting one for a home-run, another two-bagger and a base hit. The score was now tied. Vernon succeeded in getting one run in the tenth. Kamloops followed, and with one man out they had two runs and the game to their credit. They did not have any difficulty whatever in getting to Williams, who went into the box for Vernon in the tenth.

The lacrosse game which followed the baseball, between Armstrong and Kamloops, was a good exhibition of clean lacrosse. The Armstrong team had it all their own way the first half, making 4 goals to Kamloops' 1. But in the last half the visiting team got better acquainted, and did some very fast work. The score stood 3-4 in favor of Armstrong at the conclusion of the game.

ANOTHER FAKE

A company advertising to play "Uncle Tom's Cabin" was booked at the Opera House Saturday evening. They carried good paper and everything looked favorable for a good performance. A big house greeted the show. It proved to be the rankest performance ever seen in the Enderby Opera House, and we have suffered some mighty poor ones. Excepting little Eva, there was not a character that was not acted with about as much grace and intellect as is exhibited by a scare crow of sticks and old clothes hanging in the barn yard. The whole thing was rotten, and it is no credit to the management of the Opera House to allow Enderby patrons to be so imposed upon. We have had a number of these rank show propositions thrust upon Enderby—too many of them. And invariably it has proved that the poorest show is the best advertised and gets the biggest house, whereas we have had some excellent performances which were given a

frost. There ought to be some way of putting a stop to these fake show propositions. It is a downright shame that a show such as that of Saturday evening should be allowed to get into the patrons of the Opera House to the tune of \$125.

A BAD SYSTEM

It would seem that our system of charity is all wrong. Thousands of dollars have been given as grants to the excellent hospital at Vernon out of public funds, and other thousands of dollars have been granted to the same institution by the Provincial government. For the past year or thereabouts, the city of Enderby has granted \$25 per month toward the upkeep of the Cottage Hospital in Enderby. These moneys have been given out of public funds, and the intention no doubt is that should an indigent person be in need of hospital care the hospitals so assisted will give such care.

A pitiful case has been brought to our attention within the past few weeks. It is that of the Boyd baby, 14 months old. The little mite is slowly dying. It apparently is dying of tuberculosis. The babe is now and has been for weeks a little bundle of skin and bones. Its legs are not bigger around than a man's index finger. It wails pitifully night and day. The father is at work in the country, coming to Enderby once a week or less often. Its mother was taken away by consumption a few months ago. Application has been made to both the Vernon hospital and the Cottage hospital for the infant to be taken in. But neither institution has thus far been able to accommodate it. The father has had to leave it at the home of some motherly person tender hearted enough to take care of it. Promises have been made that it will be taken to the Vernon hospital and cared for by the Government, but this has been for the past month and still no instructions have been sent regarding it. As one mother is worn out by the constant care of the little one, the father must pick the infant up and carry it to some other friend's home where it may receive a mother's care.

We prate about our hospitals, government assisted and otherwise, and yet here has been this wee tot of a babe, dying and without a mother, pushed from one home to another too emaciated to be loved, and with each succeeding friend in need praying that it might die quickly, and not a hand turned by the authorities to take it off the hands of those sacrificing mothers who refuse to see it suffer without making some effort to ease its way.

LAWN TENNIS TOURNAMENT

The annual lawn tennis tournament of the Enderby Tennis Association will be held on the club grounds, commencing Wednesday, Aug. 13th. The events will be as follows: Ladies' singles, men's singles, ladies' doubles, men's doubles, mixed doubles. An entrance fee of 50c will be charged for each person for each event. All entries to be in the hands of the secretary by 6 o'clock, Monday, the 11th August.

Joe's ice cream parlors are the point of attraction in the evenings.

NEW HOSPITAL ACT

The following local item in the Summerland Review calls attention to a clause in the new Hospital Act which is not being as strictly observed as it might be:

"Mrs. A. H. Solly is this week in receipt of a license issued under the Hospital Act Amendment of 1913, authorizing her to keep a private hospital. This license expires next May. Mrs. Solly has been advised that a renewal of the license is contingent on her securing premises more suitable for carrying on the work of a private hospital."

In this connection it might be interesting to many to know that anyone conducting a private hospital without a license from the Provincial Department of Health, does so at his or her own risk and is liable to a heavy penalty for each day the hospital is running without a license.

TIE-POST REMARKS

Editor Enderby Press:

Dear Sir: Your remarks in last week's issue of your paper concerning tie posts and ranch horses move me to say something that has been simmering in my mind. The merchants of Enderby certainly do not seem desirous of encouraging the farmers' wives to shop in Enderby. I have been in town five or six times, and each time have resolved that only the direst necessity should drag me there again. There is not, so far as I know, a single place where a woman tired and weary can sit down for a few minutes' rest. In most of the stores there is not even a chair, and you feel that your purchases made, your presence is no longer desired. A woman must stand to do her shopping, and that done, must walk the streets until train time or until her menfolk have finished their business, although she may be almost dropping with fatigue.

M. A. P.

THE MACLAREN MILK CO.

A note from the city editor of the Vancouver Province regarding the denial of the MacLaren Imperial Cheese Company, of Toronto, that it has any connection whatever with the reported milk company which Mr. MacLaren contemplates establishing in this Province, says:

"This is easily explained. Mr. MacLaren has practically now no connection with the MacLaren Imperial Cheese Co., which he founded. He is now in the milk plant business. The interview was not 'purported' as you say; it was actual."

C. SQUADRON ORDERS

Corpl. P. Rawlison, C. Squadron 30th B. C. Horse, is discharged from the squadron at his own request.

E.C.J.L. HENNIKER, Capt.
O.C., C. Squadron.

TO LET—By the week-end, week or month; shack fully furnished, four miles from Mabel Lake; close to river; good bathing and fishing. For particulars apply Postmaster, Hupel.

Remember the date of Dr. Taube's visit to Reeve's Drug Store, on Monday, Aug. 11th, and if there is anything wrong with your eyesight do not fail to consult him.

MALT Extract

When that tired feeling comes over you, and your appetite goes on strike, it is an indication that you need a tonic. There is nothing better than Malt Extract to tone up the tired body.

AUGUST 6, 1913

TELEPHONE SERVICE

Subscribers of the Okanagan Tele-
phone system served by the Enderby
exchange, have received notice from
the company that beginning with the
present month the hours of service
will be reduced to: 8 to 12, 1 to 6 and
7 to 8, and at the same time the
phone rental has been raised from \$2
per month for private residences to
\$3 and from \$3 for business offices to
\$4. It is true the Company will
give a rebate of \$1 per month if the
account is paid within 15 days of
the beginning of the month, and un-
der this provision it is claimed that
there is no increase in the rates.

Both of these arbitrary rules of the
Company are directly contrary to the
25-year franchise under which the old
telephone company started business in
Enderby and under which the present
company holds the franchise then
given by the city.

Section 4 of the said agreement
provides that "the Company in en-
tering into contracts with the own-
ers and occupiers of dwellings, busi-
ness premises, hotels, halls, factories
shops and other places, to supply
telephone accommodation in connec-
tion with said system, shall charge
therefor a sum not more than two
dollars for private dwellings and not
more than three dollars for business
premises per month."

Section 6 of the agreement pro-
vides for a continuous daily service,
except Sundays and holidays, from 8
a. m. to 6:30 p. m., and the Company
"shall at all times between the said
hours keep ready for operation the
trunk system."

We call attention to these particu-
lar clauses in the franchise agree-
ment. The Company will no doubt
claim that it is not breaking any of
the terms of the agreement, since it
is prepared to make a rebate of \$1 if
the account is paid by the 15th of
the month. But, this is a mere
quibble. The charge is specifically
made at \$3 and \$4 instead of \$2 and
\$3, as called for in the franchise
agreement. But this is not the
worst of the new regulations. The
service heretofore given by the Com-
pany has been the same as that giv-
on elsewhere in the Valley—from 8 a.
m. to 10 p. m. daily except Sun-
days and holidays, whereas under
the new regulations the service is re-
duced from 14 hours continuous to 10
hours broken service.

The new regulations affecting En-
derby only are no doubt forced upon
the Company in order to reduce the
expense of operating, but it is not a
policy that is disposed to increase
the business of the telephone com-
pany in Enderby district. Under
these regulations the Enderby sub-
scribers are made to suffer for the
Company's inability to get more
business. The telephone service to
the individual subscriber would be
double the value if the Company had
been able to rustle 100 subscribers in
the town instead of sixty. As it is,
even under the rental allowed in the
franchise agreement, the subscribers
of Enderby are paying a higher rate
for service given than is paid else-
where owing to the limited number
of subscribers enrolled by the Com-
pany. It is not the fault of the
subscribers that the Company has
not more phones in commission. It
remains for the Company to increase
the usefulness of its telephone ser-
vice to its subscribers instead of in-
creasing the cost and at the same
time decreasing the hours of week-day
service.

While we do not wish to prophecy
as to what will follow the action of
the Company, it is pretty safe to
conclude that it will come out of the
present dispute with several phones
less on its list.

In raising its rate, the Company
breaks its contract with every sub-
scriber signed up under the old—the
franchise rate—and if the Company
insists on pushing its claim, many

subscribers will no doubt take ad-
vantage of the opportunity to order
the phones out.

CRIME A GOOD THING

Every once in a while the British
Medical Association comes forward
with a pronouncement of more or
less importance to the average citi-
zen. Some theories are advanced in
the discussions that occasionally
create more than passing interest,
though not always are they accepted
with any amount of faith by the
average nomad. In the course of a
recent discussion on Crime, some
theories were advanced that will
prove a shock to well-meaning people
known as reformers. Professor Ben-
jamin Moore, of Liverpool, said that
he considered crime was a good thing
because it brings us to understand
social problems. In his opinion,
perfect laws would show that we
were no longer progressive. Yet an-
other speaker, Dr. Bishop, said that
crime was necessary and that it
could not be avoided. What should
be done was not to eradicate it but
to limit its success. He further
believed that the administration of
criminal law should not be the ex-
clusive privilege of lawyers unless
they were experts in political econ-
omy and psychology. Captain St.
John, the honorary secretary of the
Penal Reform League, was very em-
phatic in his strictures. He said
that everybody knew that the law
courts were making criminals every
day, so that it was necessary to pro-
tect themselves, not only from crim-
inals but from people who deal with
criminals. The consensus of opinion
of most of the speakers was that the
treatment of criminals was not what
it should be. Prince Kropotkin, the
Russian agitator, who was among
the speakers, said: "Twenty-four
hours of bread and water and a
planed bed might be a deterrent to
people accustomed to good food, but
it is no deterrent to those who sleep
under bridges or by the shores of the
Thames. Prisons are the universi-
ties of crime and we must do some-
thing to change our system."

The laborer by the name of Thomas
Murphy, who was killed at the Step-
ney ranch ten days ago by being hit
in the head by a falling stack-pole,
was a comparative stranger in this
vicinity. He had a homestead, which
he was endeavoring to pay off, and
was to have left this week for the
Northwest where he hoped to put in
the summer in the harvest fields.

OKANAGAN SAW MILLS, Ltd. Enderby

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or sub-Agent of the district in which rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee for \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

Vice-President Bury of C.P.R. Hits Straight at the Need of Okanagan

Fred E. Trautman, press representative of the Canadian Pacific Railway visited Enderby last week, and while here took occasion to call upon the Press to give in a general way some idea of the magnitude of the big operations of the C. P. R. in the West this year and next. The one hundred millions of improvements which this great transcontinental railway company is to add to its system, as rapidly as the work can be accomplished will give some idea of the great future in store for Canada. Sir Thomas Shaughnessy and the empire builders associated with him in the development of the railroad system in their hands, are not visionaries. They may be dreamers—but of the type who make their dreams come true. They have not appropriated this one hundred millions without a thorough knowledge of what it will mean to the system, and a fuller knowledge of what the requirements will be by the time the one hundred millions is spent. If ever there was an act proving the foresight and confidence of Sir Thomas and his colleagues in this great Dominion, it is that of the hundred millions.

The same week of Mr. Trautman's visit came the private car of Mr. George Bury, vice-president of the C. P. R. out of whose department at Winnipeg Mr. Trautman works. Mr. Bury is described by a writer in an eastern magazine as the czar of the western lines of the big system. Mr. Bury is to the western what Sir Thomas Shaughnessy, J. W. Leonard, David McNicholl, G. M. Bosworth and all the rest of the head office potentates are to the easterner. He is all these officials rolled into one so far as influence is concerned, and as the power of the satrap used to increase in proportion to his distance from the court, so the hand of Vice-President Bury is mighty in the West.

Mr. Bury conforms in his career to the general rule by which men have become great in Canada. He began at the bottom and he climbed to the top. He wasn't born in the purple, nor did he inherit wealth or social prestige. His sole endowment from

his ancestors was a useful modicum of brains. These he invested profitably with the happy results that he got there and is today to be numbered among the nation builders.

On his way down the Valley last week, Mr. Bury stood apparently deep in thought on the pier at Kelowna, his attention being rivetted upon the unloading of many truck loads of beef. Turning to a newspaperman he remarked with no little emphasis: "There you are—thousands of dollars going out of the district, month in and month out, for produce which ought to be raised in the district itself. When are the people of the Okanagan going to take their 'blinkers' off and secure this avenue for themselves? Cattle raising, poultry, and hogs would yield a handsome profit."

"Look at that butter," he said, "shipped from New Zealand. Think of it for a moment, bringing dairy produce thousands of miles to what ought to be one of the best dairying districts in the whole Province. Worse than carrying coal to Newcastle. The finest fruit, it is admitted, can be grown in the Valley," he continued, "its soil is remarkable for productiveness, but why not combine with fruit growing the great sources of revenue from mixed farming?"

A RECIPE FOR PROGRESS

Somebody has said that the only way to build up a town is for everybody to go hand in hand—every man to the wheel. Banish all feelings of discord, if any exist, let harmony prevail and prosperity will follow. Talk about your town, write about it, speak well of it, encourage your men at the head of municipal affairs, choke the croakers, gag the grumblers and squelch the scolders. Beautify the streets in every way, patronize your home merchants, refrain from sending outside for goods, favor home enterprises always, and if you can't think of some good word to say, keep quiet. Be a hustler and keep it up.

Remember it's the Upton Parlor Grand.

Come and Take Part in the Seventh Annual Regatta and Water Carnival held at Kelowna August 13 & 14

Swimming Against the Stream

Is like trying to do a successful business without advertising. And it is not expensive to gain desirable publicity by the use of printers' ink. Our Classified Want Ads. cost little and are read by nearly everyone.

Try them as a system tonic for your business.

Copyrighted 1917 by R. W. McCurdy

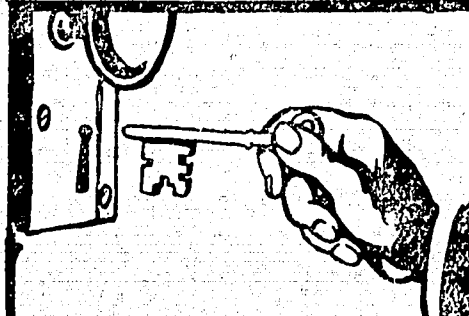

YEARS AGO people used to make themselves heard by shouting from the house tops.

If you tried that to-day you would probably have to appear before a commission in insanity.

NOW-A-DAYS the business man uses our Want Ads.

Copyrighted 1917 by R. W. McCurdy

The Key to the Situation

If you are looking for a situation a Classified Want Ad. is the key which will unlock the door to the private office of the business man. He is too busy to interview all promiscuous callers, but you can catch his attention and secure an appointment by a "Situation Wanted" ad.

Copyrighted 1917 by R. W. McCurdy

LUBRICATE
The Wheels of Business

Our Classified Want Ads. furnish a lubricant that is good for any kind of business machinery.

Do you want an employer or an employee? Have you something to sell or is there something you wish to buy?

No matter how large or how small your business is, Classified Ads. will improve it—Oil up.

Copyrighted 1917 by R. W. McCurdy

Dollar Doublers

Our Classified Want Ads. are real dollar doublers. In a few lines and nervous energy they will save you many times their small cost by bringing to your door what you require, whether it be efficient help, a desirable borrower for surplus cash, a position or a domestic.

A most convincing and inexpensive proof would be to try a Want Ad.

Copyrighted 1917 by R. W. McCurdy

A FORTUNE IN IT

If you could place an ad in the Moon millions of people would read it.

Even then it would only be valuable a few nights each month, whereas a Want Ad in this paper while more limited in its scope will cover this particular locality every day in the year.

Copyrighted 1917 by R. W. McCurdy

YOU CAN SELL ANYTHING YOU ADVERTISE

No doubt you have many things about the place that you do not want—have no further use for. Perhaps there are many people right around you—your neighbours, who would be glad to get the very things you have tired of, or want to get rid of. The way to find out is to ADVERTISE. Let the public know. Maybe you want to sell a piece of property, a piece of furniture, house and lot, or want to rent a place. Perhaps you want to find steady employment, or want a steady man or woman to help you. Advertisements of this nature are inserted in the Press at three cents a word first insertion, one cent a word each subsequent insertion

"Vessels Large May Venture More, but Little Ships Must Stay Near Shore."

The large display ads. are good for the large business and the Classified Want Ads. are proportionately good for the small firm. In fact many large firms became such by the diligent use of the Classified Columns. There example is good—start now.

Copyrighted 1917 by R. W. McCurdy

Money makes Money

Your money will work while you sleep if loaned at good interest, and you can find safe and satisfactory borrowers by placing a money-to-loan ad. in our Classified Want columns. A first mortgage is as safe as a bank and the interest is twice as big.

Copyrighted 1917 by R. W. McCurdy

Taking on the Pilot

Our Classified Want Ads. will pilot the ship of business to the safe harbor of commercial prosperity. People read the "Articles for Sale" ads. If you have something to sell tell them about it.

One large machinery firm in Toronto has built up its business by using Classified Want Ads. exclusively.

Copyrighted 1917 by R. W. McCurdy

A MIS-HIT

Did you make a mis-hit the time you employed the last "help."

Don't worry. There are lots of good fish in the sea, and a sure bait to catch them is a Want Ad.

Copyrighted 1917 by R. W. McCurdy

A SQUARE PEG in a Round Hole

You may be alright, but if you are in the wrong position you are like a square peg in a round hole. You want a position where you fit.

This paper is read by intelligent business men, and a Want Ad. in our classified columns will reach them.

Copyrighted 1917 by R. W. McCurdy

GIVE IT A TRIAL!

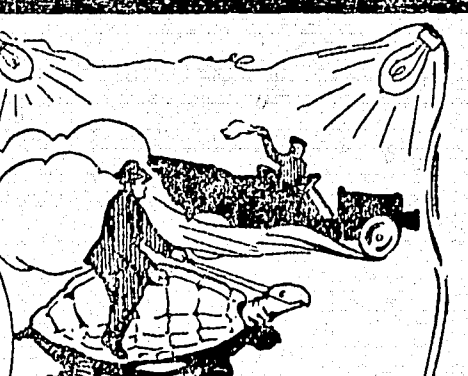

The Walker Press, Enderby

Getting into the Home

Women buy more than two-thirds the merchandise sold in retail stores and every woman reads the Classified Want Ads. Our paper goes into the homes and the Want Ads. will reach the Spenders.

Copyrighted 1917 by R. W. McCurdy

IN THE RACE FOR BUSINESS

The gentleman on the tortoise represents the man who does not advertise—the one who tries to do business as it was done in the days of the tallow candle or the oil lamp.

Are you in the glare of the electric light—in the automobile of Modern Methods?

Our Want Ads. are high voltage batteries, whether you want light or power—business publicity or competent help.

Copyrighted 1917 by R. W. McCurdy

The Landlord's Laugh

He has no more use for his "To Let" sign.

He used our Classified Want Ads. and found a good tenant.

Copyrighted 1917 by R. W. McCurdy

Attracts Attention

Classified Want Ads. are always noticed. They are read with interest by intelligent people who are on the look-out for favorable opportunities to fill their requirements. Whether your business be large or small the Classified Want Columns will help you.

Copyrighted 1917 by R. W. McCurdy

Find the Finder

If you found a purse your first impulse would be to look in the "Lost and Found" columns of our paper.

If you have lost a purse don't you think the finder would do the same.

If you wish to find the finder use our Classified Want Ads.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf at Vancouver, B.C.," will be received at this office until 4:00 P.M. on Thursday, August 21, 1913, for the construction of a wharf at Vancouver, B.C.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B.C.; J. S. MacLachlan, Esq., District Engineer, Victoria, B.C.; The District Engineer's Office, Confederation Life Building, Toronto Ont.; J. L. Michaud, Esq., District Engineer, Post Office Building, Montreal, Que., and on application to the Postmaster at Vancouver, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to five per cent (5 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, July 8, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from this Department.—44661.

Why Not Revive the Mines Department with Portfolio

Is the mining industry in B. C. on the decline? Is it of less importance than the lands department, the forestry department, the public works department, the agricultural department? Are we to see the mining industry of the Province pushed into the background, made little of—forgotten? If not, then why should not the industry see the creation of an independent portfolio of mines with an energetic minister—a man who could bring to the department some of the energy displayed by Hon. W. R. Ross as minister of lands?

The right man could bring new life into the mining industry of the Province. Under his guidance the mines department of the government soon would be as important as the forestry department has become under Mr. Ross. Sir Richard McBride has been most fortunate in choosing his ministers. He should find a man equally capable as minister of mines. By reviving the portfolio of mines and placing a capable man in charge the Premier would relieve himself of considerable of the responsibility of his dual position.

Condition of the Money Market Indicates that Squeeze is Beneficial

The last of the Dominion government loans which bears interest at the rate of 4 per cent, matures on October 1. All the others are at a rate below 4 per cent.

The loan in question totals \$8,273,000 and was floated in 1878 for general purposes. It carries the guarantee of the Imperial Government. In what manner it will be disposed of is now under consideration of the Government. Last year a six million dollar loan which matured was promptly liquidated and wiped off.

The federal revenues continue buoyant, and the surplus on the operation of the last fiscal year is more than substantial, but at the same time, heavy expenditures have been authorized by Parliament. In consequence, it is not yet determined whether the loan will be paid off or renewed. If the latter course should be pursued, it would be only as a temporary measure.

Next year a \$30,000,000 loan, bearing interest at 3½ per cent, falls due, but attached to it is the option of renewal till 1919.

After that is disposed of there will be no more maturing obligations until 1938.

Ottawa views the financial situation in an entirely optimistic light. It is a remarkable condition of affairs that while a financial stringency undoubtedly prevails in certain quarters, the trade of Canada keeps up steadily, with increases in nearly every line. Commensurate with trade development is the buoyancy of the revenues.

It is the conviction in the financial circles here that the fundamentals are absolutely sound, and that all staple lines of business are operating on a firm and economic basis.

It is the purely speculative end which is suffering, and the elimination of certain undertakings, owing to the banks shutting down on loans, is not regarded as an evil, or one from which the country generally will suffer. It is believed, at the same time, that the turn will soon come, and momentary conditions generally be vastly improved, once the international complications in Eastern Europe adjust themselves.

Meanwhile the daily assurances of bumper crops in the West, taken in conjunction with the greatly augmented transportation facilities, are regarded here as laying the foundation for another year of sustained prosperity.

WOOD-BUFFALO HERDS.

There are yet vast areas in northern Canada consisting of stunted forests and open grasslands and muskeg, of which practically nothing is known save

what can be gathered from the stories of trapper and explorers, who have penetrated this northern wilderness. Such a country exists on the extreme northern boundary of Alberta to the West of the Slave River, and from this country have come rumors of large bands of wild buffalo, the only remnants, not in captivity, of the great herds which once roamed the Western plains.

To verify these rumors and to take steps to prevent the extinction of these herds, the Forestry Branch of the Dominion Government sent out an investigation party, working under the direction of Mr. A. J. Bell, the Government Agent at Fort Smith in the North West Territories. The report sent in reads like a book of adventure and will be contained in the Annual Report of the Director of Forestry, which will shortly go to press.

The existence of at least three herds of buffalo was proved, each herd consisting of bulls, cows and yearlings to the number of about forty-five. In appearance they closely resemble the plains buffalo, of which they are the remnants, but, being forced by necessity to live in the hilly wooded regions remote from settlement, they have changed their habits somewhat, and are fleet of foot and more agile than their ancestors of the plains. In summer they may be found in twos and threes, roaming through the birch woodlands, but in winter they travel in large bands for greater security against the wolves.

In winter, when passing from one feeding ground to another, they travel in single file through the snow, making a narrow trail on which the snow is packed as hard as a rock. When they come to a grass-grown slough or meadow they stay there until all the feed is exhausted and the whole area is completely trampled down. Unlike the western horses, which paw the snow away with their front feet, the buffalo uses its huge head as a shovel and scatters the snow in clouds in order to reach the grass beneath. When alarmed the old bulls stand on guard in the rear, while the cows and yearlings make good their escape.

STILL DEAD.

A copy of a weekly German newspaper published in Berlin, Ontario, sent to a subscriber in a neighboring town, was returned to the office of publication with a pencil memorandum thereon, presumably made by the postmaster, "todt" (dead). This information was somewhat disregarded and the next week's issue was sent along and promptly came back with the words thereon "immer noch todt" (still dead).

BRITISH COLUMBIA WINS.

In the Horticultural Section of the Dominion Fair at Brandon the entries by the Province of British Columbia secured thirteen first prizes, two seconds and two thirds, out of nineteen entries of fruit, vegetables and honey.

The British Columbia exhibits practically swept the board. The extent of the exhibits from the Coast province was one of the surprising features of the Dominion Fair. They were located in three separate buildings and comprised displays of fruit, timber, fish, grasses and ores. The exhibits were strikingly displayed and caught the eyes of the thousands of prairie farmers who never fail to ply the attendants with many questions.

THE LOSER.

If each might be the chooser of destiny, I guess no man would be a loser, or languish in distress. But things are so adjusted in this sad mundane place that some one's hopes are busted whenever there's a race. Some one must sup in sorrow when'er the sun goes down, with boding that the morrow will also wear a frown. Mankind is ne'er embattled, there is no great advance, but some one's badly rattled, and some one's name is Pance. And so the luckless snoozer who can't keep in the van should be a patient loser, and smile the best he can. In all the bygone ages, since Adam flew the coop, the winner drew the wages, the loser drew the soup. A girl is never married, all orange-wreathed and gay, but that some guy has carried a brooding grief away. There is, I fear, no blessing, that hasn't got its sting; the loser's wails distressing haunt those who dance and sing. I sit and eat my dinner in circumstance and pride and doubtless some poor sinner is gnawing bones outside. Today I'm fat and happy, I eat and loaf and smoke; to-morrow's dawn, old chappie, may see your uncle broke. And if I am a loser knocked out by Fortune's game, I surely won't abuse her, that good old giddy dame, but bless her dear old picture, and when the wheel goes round, again a smiling victor I'll hope I may be found.

TENDERS

Tenders will be received by the undersigned up to noon of the 15th day of August next, for all hardware, including locks, hinges, etc., in connection with new Connaught school now in course of construction at Enderby. Particulars can be obtained from the Chairman of School Board, Mr. A. E. Taylor.

The lowest or any tender not necessarily accepted.

Chalkline Suits

It's as fashionable today to wear the Chalkline fabrics in suitings as it was during the winter days to wear the Shawl Collar Overcoat.

We show some exceptionally clever styles with the vests high cut, coats with rounded corners, and medium lapels.

These Chalkline fabrics are shown by us in both smooth and rough finish materials, on blue, gray or black backgrounds.

The shoulders are very narrow, trousers with or without the cuffs. Handsomely lined in the well known Hobberlin way—which assures you of high-grade materials both in cloth, trimmings and inner parts.

DILL BROS.

Enderby, B. C.

Sole Agents for Hobberlin Tailoring

Homesekers Should Come to Enderby

BECAUSE it is one of the healthiest spots on earth, only two children and no adults having died of disease in the last eight years.

BECAUSE when you arrive, the Board of Trade will take you in hand and make you feel at home and see that you are satisfactorily settled.

BECAUSE you will find here all the advantages and beauties of a magnificent river, ever green hills, grassy meadows and cool, delightful valleys.

BECAUSE if you prefer a home-site on the hills, in groves of birch and alder, cedar and pine, overlooking the river and valleys, you will find it here most ideally located.

BECAUSE we have the purest of water piped to every home from a sparkling mountain stream, a perfect system of electric lighting, and an abundant supply of wood.

BECAUSE, if you are a person of means, and wish to make a home for yourself on the banks of the soft-flowing Spallumcheen, you will find good roads already leading to the site, and all the materials necessary to build close at hand.

BECAUSE you will find here all the advantages to be found any place else in the Valley, and none of the disadvantages.

BECAUSE there is work to be had by anyone looking for it, in the mills, in the lumber camps, on the farm, in the lumber yards, in the brick yards, in the building trades or the orchards.

BECAUSE fruits, hay, vegetables and grain grow to perfection here without irrigation.

BECAUSE Enderby has never been boomed, therefore you can buy at reasonable prices and be sure of doubling your money.

BECAUSE this District has a climate second to none; not too wet or too dry; splendid growing summers and glorious healthful winters.

BECAUSE you will find the religious, educational and social advantages all you could wish.

Kelowna B. C.

FORT FRASER TOWN

Mayor J. L. Ruttan returned from a business trip to Fort Fraser last week. He was three days making the trip from his sawmill at Fort Fraser to his home in Enderby. The distance is 570 miles. For most of the distance the roads were fine, and he made good speed in his auto. The home trip was most enjoyable, but the trip from Enderby to Ft. Fraser, three or four weeks ago was a very difficult one owing to the soft and muddy condition of the roads.

Mr. Ruttan found everything progressing nicely at Fort Fraser. His townsite company will finish quite a number of buildings this season, and many others are going up, being built by the Provincial Government, for the accommodation of the land registry officers, and by other firms establishing in business there.

Mr. Ruttan reports a great demand for lumber. It is taken from the saws and slid over the river bank and there piled upon river rafts and floated down stream to the various railway construction camps or in the opposite direction by the river tug. No questions are asked as to lengths or finish. Everything is required, and \$50 a thousand is the price demanded. The Bank of Vancouver is established there, also a drug store, the real estate offices of the Fort Fraser Investment Co., the general store of the Fort Fraser Trading Co. There is a 24-room hotel with very good accommodations; several homes of resident engineers and officials, a Chinese laundry and a road house. The beautiful Nechaco river flows westward along the southern boundary of the townsite the circles around at the western extremity and flows due east to empty into the Fraser river at Fort George. To the south of Fort Fraser, on the other side of the Nechaco lies a magnificent range of low-lying mountains all rich in precious minerals and to the west lies a wonderfully fertile valley with the Fraser lake in the centre of it. The Fort Fraser district is destined to become one of the richest and most fertile in the Canadian west.

Six dollar shoes for \$4.25, five dollar shoes for \$3.25. Dill Bros.

Mid-Summer Clearing Sale

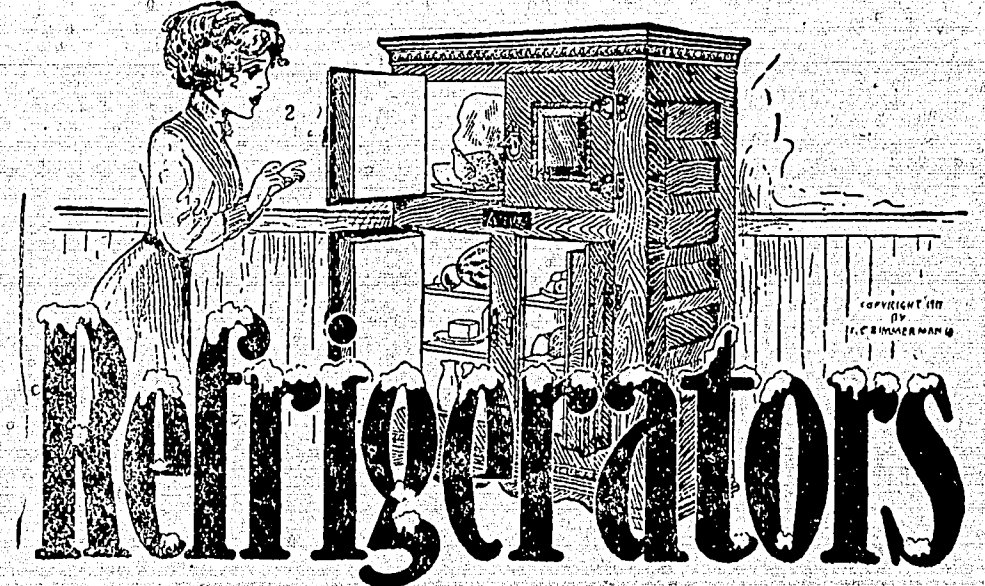

Refrigerators

Meat Safes

and

Windows

We still have over two months of warm weather, but we have planned to clear out our summer lines at reduced prices. We do not wish our annual inventory to show any summer lines carried over, and have decided to give our customers some special bargains in lines which can be used for over two months this season and still be in excellent condition for use next season.

Refrigerator Snaps

We have refrigerators on sale, they are strictly high-grade and are part of our regular stock. These refrigerators are sun-proof, fly-proof, and germ-proof. They will keep food in perfect condition. CLEARING PRICES:

Regular, \$70.00, NOW \$55.00 Regular \$50, NOW \$39.00

Regular, \$15.00, NOW \$11.00 Regular \$11.50, NOW \$8.50

Screen Windows Fly-time is not over by any means. There will still be considerable annoyance and sickness caused by this pest if proper preventive measures are not taken. The most effective preventive measure is to properly screen your doors and windows. We have decided to clear out our stock of these lines and while they last they will be sold at the following prices:

Regular, 35c; NOW 25c Regular, 40c; NOW 30c

Among other desirable lines on sale are HAMMOCKS, OIL STOVES & OVENS, Croquet Sets, etc.

FULTON HARDWARE COMPANY ENDERBY
