ATHLETIC MEETING.

Schedule of Games to Be Played in the Valley.

On Tuesday, April 13th, the athletic games of the valley were discussed and arranged by a special committee chosen from Vernon, Kelowna, Enderby aand Armstrong. Kelowna was very well represented having sent three cars with delegates.

The first question to be discussed was the admittance of the Penticton lacrosse team into the Northern Okanagan League. All present agreed that it was a serious problem to arrange a schedule whereby each team would have to play two games in Penticton, as the expenses involved would be almost prohibitive. In order to encourage the sport in Penticton, however, it was decided that each team be asked to pledge themselves to give home and home exhibition games with that town—which means that Penticton would play one game in each of the other towns and in turn meet each of the other teams on her home ground.

Since some of the towns were unevenly represented one member for each club with power to vote was chosen from each place. The list follows: Lacrosse—I. MacRae, Kelowna; W. Holston, Vernon; H. Murray, Armstrong. Baseball—E. Sparroy, Enderby; N. DeHart, Kelowna; G. F. Reinhard, Vernon; E. Shaw, Armstrong. Football— Jennens, Kelowna; R. Ley, Vernon; R. Ley, Lumby.

N. DeHart of Kelowna was chosen president of the association. H. Murray of Armstrong was chosen as league secretary. The executive chosen to act with the president and secretary were as follows: Dr. Wright of Kelowna (baseball); R. Ley, of Vernon (football); R. Douglas of Vernon (lacrosse).

Registration—Each player must be registered thirty days before playing in any game.

A fee of twenty-five cents for each registration was imposed.

Protests—Any protests re players or games must be sent to secretary by registered mail within three days after game and the decision of the executive and president on such protest would be final.

Defaults—All defaults will be left to the executive to decide and it was urged that the secretary of each team defaulting notify their opponents as soon as possible, that they are defaulting.

It was decided that the B. C. Amateur Rules be adopted for lacrosse, Amateur Association rules for football, and American League rules for baseball.

Referees — Referees and umpires from towns which are idle are to act at each game. Each club in league will appoint two referees or umpires and send in their names to the secretary who will notify the other teams. Expenses of referees are to be pooled and paid in proportion.

Annual Meeting— Two members from each team will be chosen to attend the next annual meeting.

It was also decided that the association communicate with the B. C. Amateur Association and endeavor to line up with that body and procure their rules.

Schedule.

Baseball—May 24th, Vernon at Kelowna, Armstrong at Enderby; May 27th, Enderby at Vernon, Kelowna at Armstrong; June 10th, Armstrong at Vernon, Kelowna at Enderby; June 17th, Kelowna at Vernon, Enderby at Armstrong; June 24th, Armstrong at Kelowna, Vernon at Enderby; July 8th, Enderby at Kelowna, Vernon at Armstrong; July 15th, Kelowna at Vernon, Armstrong at Enderby; July 22nd, Enderby at Vernon, Kelowna at Armstrong; July 29th, Armstrong at Vernon, Kelowna at Enderby; Aug. 12th, Vernon at Kelowna, Enderby at Armstrong; Aug. 19th, Armstrong at Kelowna, Vernon at Enderby; Aug. 26th, Enderby at Kelowna, Vernon at Armstrong.

Lacrosse—May 24th, Vernon at Kelowna; June 3rd, Armstrong at Vernon; June 10th, Kelowna at Armstrong; June 17th, Armstrong at Kelowna; June 24th, Kelowna at Vernon; July 1, Vernon at Armstrong; July 8th, Vernon at Kelowna; July 15th, Armstrong at Vernon; July 22nd, Kelowna at Armstrong; July 29th, Armstrong at Kelowna; Aug. 5th, Kelowna at Vernon; Aug. 12th, Vernon at Armstrong.

ENDERBY BRIDGE COMPLETED

Today Will See the Last Spike Driven—Final Inspection on Saturday.

Bridge Contractor Carson and his staff of builders will finish the Enderby bridge today. Contractor Carson has received instruction not to open the bridge for traffic until it is inspected. Government bridge engineers will be here on Saturday to pass upon it, and the bridge will be immediately thrown open. Owing to the serious condition of the road approaching the temporary bridge it is most necessary that the new bridge be passed upon as soon as possible, as traffic has been seriously held up for the past two weeks and the temporary road is now a bog hole.

The new bridge is of the Howe truss type, 720 feet in length with a 125-foot span. It is a fine piece of workmanship and a credit to Contractor Carson and his bridge gang.

Some complaint has been heard because the bridge is some eighteen inches narrower than the old bridge but it is pointed out that the slight reduction in width has increased the strength of the bridge greatly, and its width is ample for all traffic purposes.

If the Department of Works will now see that the bridge is painted it will complete a job that should not be left unfinished. If paint preserves the wood and adds to the life of the property of the individual it will do so for the government and should not be left undone if the life of the bridge is prolonged thereby.

BASEBALL FANS

A Chance for All to Do Their Mite to Encourage the Sport.

For the past year or two Enderby's baseball players and a few friends have financed the "going" of t lappriH'hos mae. OUanTebTa of this popular sport. The load has allen heavily upon a few, yet all have enjoyed the games, and all have been with the boys in heart if not in pocket.

This year an effort is to be made to better equip the sport and enlarge the circle of those contributing to its development. The season is backward. Little interest has yet been awakened. But a meeting for the purpose of organizing is to be held within a week when the question of procuring new suits for the team will come up together with that of adopting some definite plan for the raising of funds to pay for the suits and carry on the sport this season.

Enderby's baseball boys deserve the active support of the public. Now that they are soliciting that support we feel confident it will be given in full measure.

John Brennan, pioneer lumberman of Kamloops, died at his home April 19th.

KILLED BY A BLAST

Five Men on C. N. R. Construction at Salmon River Blown Up by Shots that "Missed Fire"

A tragic accident occurred last Friday afternoon on the C. N. R. construction work at Salmon River, resulting in five deaths. The fatal blast took p'ace in connection with the heavy rock work at that point. This class of work in railway construction is always considered to be the most dangerous.

Inquiry at the Armstrong office of Carlton & Barber, head contractors, revealed the following facts in connection with the distressing accident: The men killed were engaged on a sub-contract from Paget, who holds a sub-contract from Carlton & Barber. The men laid three shots on Wednesday to be fired by electricity, but for some reason only one of the shots went off. Later in the day they found the safety fuse of No. 2 shot and it was fired. It was thought at the time that this was the only shot unfired, but on Friday the foreman, Thomas Vanello, was looking over the blown rock preparatory to clearing away the debris, and discovered a piece of fuse. This he lighted and gave the warning cry, running for cover as he did so. Instead of waiting the required 15 minutes, Vanello and his men returned to the spot five minutes later and were standing over the charge looking at the fuse when the shot went off.

They were blown across the river, one of the men being thrown high into the air and had a sheer drop of 150 feet, yet lived for two hours. Three of the men were instantly killed, one died two hours later and the fifth, Kenneth Potter by name, and a returned soldier, died on Sunday at the Grand Prairie hospital.

Mr. Kneller, near whose place the terrible affair occurred, was the first on the scene to give aid. He pulled the bodies of the men out of the river and hurried in his car to report. Dr. Keith was summoned and a coroner's jury was drawn, their verdict being that the men had come to their death through the carelessness of the foreman, who himself was killed.

The body of the foreman, Vanello, was shipped to Vancouver on Tuesday. Three others, Pasquale Greco, Antonio Intrani, and Dominic Frascatory, all Italians, were interred in the Armstrong cemetery, service being conducted in St. Joseph's Church by Rev. Father Carroll.

MAY 24th CELEBRATION

Officers and Committees Named to Arrange Sports.

A citizens meeting was held in the City Hall Thursday evening for the purpose of taking up the question of Empire Day celebration. Mayor Barnes stated the objects of the meeting and said the city had appriated the sum of $500 to the Enderby Hospital to be used by the Hospital Board as the Board saw fit, and that the entire proceeds of the 24th of May celebration were to go to the hospital. He urged the cooperation of all citizens in making the celebration a success and hoped to see the Hospital Board realize the objecive set out upon in the Drive soon to be started.

Mr. Barnes declined to act as president of the celebration committee and A. Reeves was elected, with E. R. Peel, vice-president, and H. M. Walker, secretary-treasurer.

The following committees were named:

Sports—E. B. Dill, C. Fravel and Gordon Duncan.

Decorations—S. H. Speer, Herb Wilson and Chas. Oppertshauser.

Music—R. J. Coltart, Wm. Duncan and Ernest McMahon.

Advertising— Graham Rosoman and H. M. Walker.

It was decided at adjournment that all committees should submit estimates of their requirements at a general meeting of the committee on Friday, April 23rd, and that the members of the Hospital Board be asked to be present on that occasion.

ENDERBY EDGINGS

A. A. Faulkner returned to Enderby this week.

The Northern Okanagan Creamery at Armstrong is paying 72c per lb. for butterfat.

Mrs. (Capt.) Julien Monteith (nee Miss Mowat) of Victoria, is visiting her parents in Enderby.

F. S. Stevens returned to Seattle last Friday after enjoying a week with his host of Enderby friends.

Enderby's orchestra is providing good music that is much appreciated at the regular Saturday night shows.

W. J. Lemke returned from Seattle on Monday where he spent a week or ten days with Mrs. Lemke and son.

The United Farmers' social evening in the U. F. Hall this (Thursday) evening promises to crowd the hall to its full capacity.

Anor Matthews, who was a resident of Enderby several years ago, s reported seriously ill at his home n Victoria of pernicious enemia.

Duncan Bros. have greatly facilitated the handling of business in their popular store by adding office and packing room in the rear end of the store.

"Checkers" drew a full house in the Enderby Theatre Saturday night. It was an excepitonally fine production and greatly pleased the large audience.

Messrs. Kisby and Allen, who have bought the Brash farm, are preparing early to get a crop in. They finished ploughing their first 40 acres last week.

Ernest Evans was in Enderby this week from Victoria attending to the transfer of the Evans residential property on Regent Street which has been sold to F. J. Bossley.

Mr. and Mrs. Samuel Polson announce the engagement of their aughter Jean, to Mr. William Arthur Behrend of Chicago, Illinois. The marriage will take place the early part of June.

The season's cut was started at the Okanagan Sawmills on Monday. Manager Marley is starting with many of the old force on the machines and a large number of local young men handling to and from the saws. It is a force that promses a big season's cut.

VETERANS' ANNUAL BALL.

The first annual ball given by the Enderby branch G. W. V. A. last Friday evening in Enderby Theatre was well patronized and proved that the returned men can make a real success of an event of this character. The music by the Enderby orchestra was of the best and the refreshments provided by the ladies of the town and district were of the usual excellent quality, daintily served. A "Lucky Spot" souvenir was given during the evening, it being won by Mrs. Roy Wheeler who, with her dancing partner, Mr. Geo. R. Sharpe, stood on the lucky spot when the music stopped for the award to be made. The objective of the Veterans is to provide funds to establish a club room and hey hope to give other social events in the near future.

Get your bread, pies and cakes at the Enderby Bakery and you get satisfaction.

ENDERBY HOSPITAL DRIVE

The General Public Already Awake to the Need and Willing to Help.

Enderby District's Hospital Drive to raise the sum of $2,500 for the erection and equipment of an isolation ward in connection with the General Hospital will not open in earnest until May 13th, but at that time it is hoped to have upwards of $1000 pledged, to be turned over t the duly authorized committee when canvassing begins.

With this as a starter there can be no doubt as to the ultimate objective being attained. Twenty-five hundred looks big when we stand off and look at the work of raising it, but when we forget the work and tackle the job in dead earnestness, lifficulties faded away and the job becomes easy.

The pleasing thing about this drive is that it is popular. And another feature is that nearly everybody has already determined that the objective is going to be reached. There isn't any question about that part of it. The question now is to raise the first $1,000, and to have t ready when the Drive starts. Subscription lists are now to be found at A. Reeves' drug store, The Enderby Hardware store, Leonard's Billiard Parlor and the Walker Press. Don't wait to be asked to put your name down. Go to any of these places named and add your subscription to the list.

The following amounts were subscribed Wednesday afternoon by a cw of the businessmen who were given an opportunity of going on the list.

City appropriation	$500.00
F. H. Barnes	25.00
H. M. Walker	15.00
Enderby Supply Co.	15.00
J. F. Murphy	15.00
A. C. Skaling	15.00
Duncan Bros.	15.00
A. Reeves	15.00
S. Teece & Son	15.00
Fulton Hardware Co.	15.00
E. B. Dill	15.00
S. H. Speers	10.00
	$670.00

These amounts were given as a 'starter." As one businessman said: "Come again if more is needed in order to reach the objective. We must raise the amount required.

COMING MOVIE EVENTS

Saturday, April 24th—June Caprice in "Miss Innocence." 35c and 15c.

Monday, April 26th — Special features including the famous talking film. Admission 50c and 25c.

Saturday, May 1st—George Walsh in "On the Jump."

Monday, May 17th—Mary Pickford in "Daddy Long Legs."

SUNFLOWERS FOR SILAGE.

The North Dakota Agricultural College has been conducting experiments with sunflowers and corn for silage and according to the few analysis they have made so far sunflower silage has much the same feeding value as corn silage, but the trials made at the Williston and Dickinson substations indicate that one can expect one-fourth to one-half heavier yields from sunflowers than from corn. Dr. Walster of the North Dakota Agricultural College states that mammoth Russian or Giant Russian is probably the best variety but the Black Beauty and White Beauty are also good. He also states that the seed costs 18 to 20 cents per lb. by the 100 pounds, that it takes 5 to 7 pounds per acre and can be sown with the corn planter. He advocates if the land is clean, to seed in rows, if weedy better plant in hills and cultivate

No Prospect of Hydro-Electric Project

It would seem that all the efforts put forth last year by the municipalities of the Okanagan and Salmon Arm, Kamloops and other towns on the mainline, to induce the Government to take up the project of developing the hydro-electric possibilities of the locality so as to link up the while district under one system, are to result in nothing. In a letter addressed to the secretary of the Kamloops Chamber of Commerce, F. W. Anderson, M.L.A. for Kamloops, quotes the Minister of Lands as follows, in regard to the Adams River power project, seemingly the only project the Government engineers looked into. From this letter it would seem that the engineers who looked into the Adams River project ignored the possibilities of the Skookum Chuck, near Enderby. Mr. Anderson says:

"When the delegation waited upon the Government, I informed the delegation that we had not had time to thoroughly consider the report of Mr. Porter. In a measure, we are still in the same position. From such examination as has been made, however, I may say, for the information of the City Council of Kamloops and others who are keenly interested, that there seems to be no prospect whatever of undertaking the development at this time.

"It seems to me to be a pity that people should upon insufficient information and without proper investigation, work themselves up into a state of mind that a given project must and will be carried out, because, if the project is not carried out there is sure to be misunderstanding and disappointment.

"The number of spheres of activity calling for money at this time is simply appalling. It is absolutely impossible for the Government to undertaking any measures other than those of a moderate character and which will show a reasonable prospect of carrying themselves."

Mr. Anderson quotes some passages from the report of Mr. Porter, the engineer employed by the Government to make an economic survey of the power requirements of the district from Kamloops to Kelowna. Mr. Porter bases his estimates on a 10,000 h. p. development, placing the cost of the power house and all equipment, including the dam, at $1,000,000, with $710,000 more for high tension transmission lines, transformer stations, etc., a total of $1,710,000. He estimates the cost of operation, interest and depreciation at a total of $262,960 per annum, and says:

"The total capacity in k. w. installed, not including auxiliary plants, at Kamloops, Salmon Arm, Armstrong, Enderby, Vernon and Kelowna is 2,830. The total k. w. h. sold in 1918 at the same places was 4,191,284. The total population of these towns is 15,000. The estimated total available revenue of the towns is $161,344.

"The total revenue earned by these towns at their high rates per k. w. h. is far below the estimated operating charges, as above set forth, and it is obvious that a very much larger market would have to exist to merit this development, and it is the opinion of the writer that at the present time such a market does not exist. The recommendation is made that the proposed hydro-electric development to serve the area from Kamloops to Kelowna be not undertaken at the present time.

"All the towns referred to, with the exception of Enderby, now own and operate an electric supply system. It is practically certain that they would all take, if offered, a supply in bulk from the suggested hydro-electric development and continue their methods of distributing under the existing distribution system. This would naturally necessitate the hydro-electric selling at bulk rates, which, at existing market conditions, could not give sufficient returns to cover operating expenses."

Misdirected Energy

What we know as "sin" is largely nothing more than misdirected energy. Give a man or woman plenty to do, and of the right kind of work and "sin" will fade away. Useful work is the individual's and the nation's surest and sanest road to salvation. A religion of service is better than any religion of services. We develope into better men and women in the measure that we do useful work unselfishly.

Just now the legislature of Manitoba hasn't much else to do than act as Canada's purity squad. And purity squads everywhere and always, have always been the greatest offenders against the laws of common sense and freedom. After cleaning up Canada's "Reds", half a dozen of whom are now in prison—and, by-the-way, they look to be as fine a lot of labor-leaders—clear-eyed, level-headed, intelligent—as ever spoke for freedom—after cleaning them up, the purity squad of politicians is now going after the farmers' party and the laboring party by introducing in Parliament a bill prohibiting the collecting of campaign funds. This purity business becomes really funny when it is attempted by suddenly reformed (temporarily of course) old gamesters. The object of the new law is so obvious it becomes ludicrous.

After a meeting of the executive of the U.F.M. W. R. Wood, secretary of the organization, said: "The province is now being canvassed for cash pledges by scores of farmer boosters, and it is estimated that a fund of $100,000 will be raised in Manitoba and double that amount in Saskatchewan. The bill is aimed to crush the farmers' political movement, and it will not succeed. In my opinion, the authorities will think twice before applying this law to purely democratic movements."

The blue denim wave is not likely to be serious nor of long duration for with it up will go the price of overalls and down will come the demand for blue denim. It will, however, prepare the way for that which is to follow, in all probability. Today that which is a fad will later become a necessity if we are to save on that which goes on the outside to pay for that which goes inside.

A TALE OF TWO CITIES.

The taxpayers of Toronto who pay nearly three per cent. in taxes should compare their position with that of the citizens of Sydney, New South Wales, the most populous state in Australia. In that city there is no tax on the products of industry or on business. The man who puts land to its worst use is taxed as much as the man who puts it to its best use. There is no penalty for improving.

Toronto taxpayers pay nearly three per cent taxes on the assessed value of their houses, shops, factories, and offices, and also on their business.

Sydney taxpayers pay no taxes on houses, shops, factories, workshops, offices or business.

A Toronto manufacturer puts up a factory at a cost of $50,000 and pays a tax of $1,500 on his improvement, besides a tax of $750 on his business.

A Sydney manufacturer puts up a factory at the same price, and pays not one cent on the improvement or on his business.

A Toronto merchant rents a shop costing $10,000 and pays a yearly tax of $300, besides his business tax, which varies according to the business.

A Sydney merchant pays not one cent tax on his building or on his business.

A Toronto resident erects a house costing $2,500 on a lot costing $1,000. On the house he pays a tax of $75.00, and $30.00 on the land.

A Sydney resident pays no tax on his house, and only about $20.00 on his land.

All municipal expenses are met in Sydney by a tax rate of two per cent, whether the land is kept vacant or used for a factory, a store, a home, an office or a workshop.

For more than sixty years the Toronto method of taxation existed in Sydney. Then a partial application of reduction of taxes on improvements was tried with such success that on April 13th, 1916, the City Council, with only two opposing, abolished all taxes on improvements.

SPRAYING TIME.

If the fruit grower, vegetable grower, or flower grower does not spray nowadays, he is almost certain to have inferior products in his orchard, small fruit plantation and garden. There are so many injurious insects and diseases which affect a large proportion of the plants he grows that if they are uncontrolled there will either be no crop left or else the value of the crop will be very much reduced.

Spraying must, however, be thoroughly done if good results are to be obtained. Materials are expensive, and the cost of labour is high, and money will be wasted if the work is improperly done or not done at the right time.

The early sprayings are, as a rule, the most important, and those who contemplate spraying as all should who have orchards or gardens, should get everything in readiness to begin at the right time as delay may mean much loss. Spray Calendars are issued by the Dominion and Provincial Departments of Agriculture, in which several sprayings are recommended to be applied at certain stages in the development of the leaves, flowers, and fruit. In the case of fruit trees the spray should be applied so that every leaf, bud, and fruit will, if possible, receive some of the material, not only on one part of it but as nearly all over a possible. Every leaf, flower and bud or young fruit missed means a possible starting point for disease or insect pests. In the case of vegetables promptness in the application of a good spray is just as important as with fruits. One does not need to be convinced of the value of promptness in using poison in controlling the Colorado potato beetle as the results of the spray are immediately apparent in the death of the "bugs", but more faith is required when dealing with diseases and insects which are not so readily seen but which do much harm, and usually the grower is well rewarded for such faith.

QUALITY
SERVICE AND SATISFACTION

As we carry one of the largest stocks in British Columbia of Diamonds, Watches, Jewellery, Imported China, Sterling and Plated Silverware, Clocks, French Ivory, Leather Goods, Novelties, Etc. We also have a large stock of rare jewels, all of which we are able to mount to order in our own workshop. For these reasons we can confidently say that we are in position to give you Quality, Service and Satisfaction.

If living out of town we can supply you any goods as shown in Jewellery Mail Order catalogues, at same prices and terms. If out of town all you need to do is state name of catalogue, page and number complying with catalogue conditions, we will do the rest to your complete satisfaction.

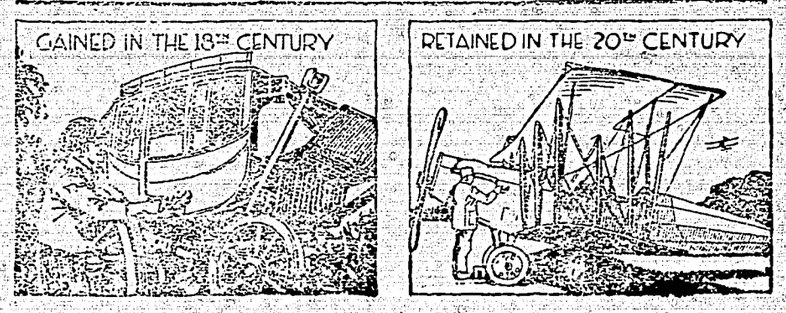
WORLD ASCENDANCY



Brandram's Genuine B B WHITE LEAD

THEY used it for the stage-coach of olden days in England—we use it in Canada today. Compare it with any other white lead or white paint, and you will decide that your house—or anything you wish to have truly white and remain white—must be painted with this brand which has survived as the leading white lead for nearly two centuries.

Thinned with linseed oil and turpentine, it makes a perfect white paint. Combined with coloring matter, it makes the satisfactory tinted paint of any shade. It is the basis for that finest of ready-mixed paint, B-H "English" Paint.

Made in a modern Canadian factory, and by the same process as was employed for its manufacture by its inventor in England, it is today the only survivor of all the patented white lead processes of that earlier generation. It has survived because it results in a white lead of exceptional fineness, whiteness and durability.

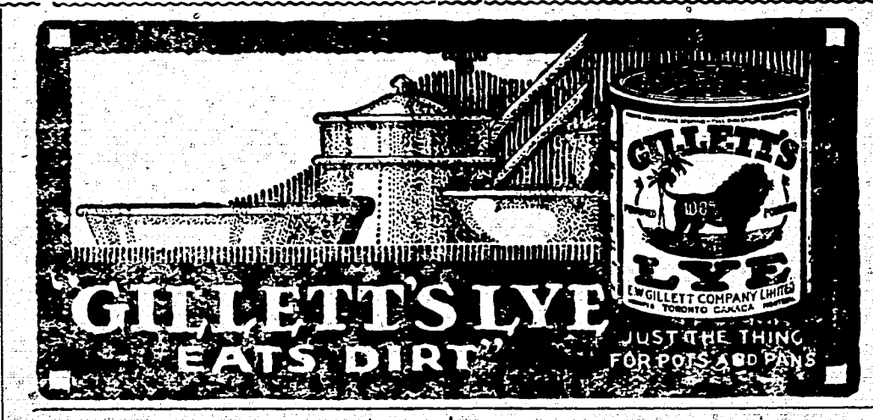
SEEKING TO BETTER CLYDESDALE STOCK.

Wednesday, April 7th there arrived at Colony Farm one of the best Clydesdale stallions ever shipped from Scotland.

There is at Colony Farm reserved for the University at the time of their Clydesdale dispersion sale about two years ago the best group of Clydesdale mares in America. In the group are Peggy Pride and Nerissa both showyard winners in keenest competition in Scotland, in Canada, and in the United States. Fully as good as brood mares are Colony Lady Begg, Opal, and Colony Opal. Other really attractive young mares make up the group which will be transferred to the University as soon as the horse barn which is now in course of construction is completed.

In order to make these brood mares of greatest service to the horse industry of British Columbia, the Department of Animal Husbandry this winter set about obtaining the best possible sire that a limited expenditure would secure. After carefully studying the Clydesdale exhibit at the Brandon Winter Fair at which were some very excellent, recently imported stallions, and inspecting the outstanding animals in Ontario, Quebec, and the eastern United States, the aged horse, Baron's Best, was finally chosen and immediately brought to the province.

Baron's Best holds an enviable record established before he left Scotland. As a two-year old, he was second at the Glasgow Spring Show, second at Ayr, first and champion at Barrhead, first and champion at Paisley, and first at the Highland and Agricultural Society Show at Dumfries. The next year he was second in the open three-year old class at Glasgow and won the Junior Premium, was first at Glasgow Summer Show, and second at the Highland and Agricultural Show at Perth. As a four-year old he held the Moroyshire Premium. As a five-year old he was again first at the Highland and Agricultural Show, and that year he held the Kilsyth and Cumberland Premium. Three years later he held the same Premium. From the foregoing we can readily see that few horses have had as distinguished a showyard and breeding record in Scotland. Baron's Best was imported by Senator Robert Beith, Bowmanville, Ontario. He was never shown in America until 1919. He was then champion at Toronto and had a number of offspring winning first and second prizes at the same show. He also stood a very close second to F. L. Ames' renowned Fairholme Footprint at the International Show in Chicago, and by many astute judges at the ringside Baron's Best was conceded the place of highest honor.



Where Barnum Went

P. T. Barnum delighted to tell of his thousand and one amusing experiences, especially some that happened during his first tour of England with "the greatest show on earth." One of the best is a joke on the "champion humbugger" himself. Barnum on a leisure evening bought a ticket to an English music hall. Imagine his keen delight as he heard the usher, as he took the tickets of the people ahead say: "Letter Hay, first row," "Letter Hee, fifth row," "Letter Heff, sixth row," and so on, and then in response to Barnum's enquiry, "Where do I go?" he said, "You go to Hell, sir."

Prospective Wives

A London despatch says 150 demobilized members of the British nurses, all prospective wives of Canadian farmers, recently sailed for Canada. While these girls are finding homes and happinoss, the report says, they will be found profitable employment by arrangement between the Canadian Government and the overseas settlement department.

A. Bryan Williams, former chief game warden of British Columbia, is the latest addition to Rod and Gun in Canada's splendid list of sportsmen writers. In the April issue he takes his readers on a big game hunt into Northern British Columbia.

In men whom men pronounce as ill
I find so much of goodness still;
In men whom men pronounce divine
I find so much of sin and blot:
I hesitate to draw the line
Between the two, when God has not.—Joaquin Miller.

OVERLAND CARS ARE HERE

Telegraphic information has been received by Willys-Overland Limited of the completion at Indianapolis of a record run of an Overland 4. The car was driven 5,452 miles, continuously, in seven days and nights, over frozen country roads —and finished ready to do it again. This is an average speed of 772 miles per day and an average speed of 32.45 miles per hour was attained. On this speed endurance test the car had only one puncture. According to the wire, the car was one from stock, and the trip was made with the thermometer around zero. Neither power plant nor transmission had to be touched on the whole run.

We handle the Overland 4 in Enderby, and will be pleased to show you its many good points and to demonstrate its standard quality as a utility car as well as one of stylish lines and easy riding.

If you want your new OVERLAND FOUR this Spring place your order NOW.

ENDERBY

If your eyes hurt you

You require Glasses or you require different Glasses.

If your eyes are in perfect condition, or if you are wearing the glasses to remedy a refractive error, you should not suffer pains in the eyes, nor eye-dizziness, nor eye-nervousness.

Don't allow anyone to tell you that you are obliged to continue suffering these things. If you are wearing glasses, sometimes after the proper glasses have been fitted to the eyes, there will be temporary discomfort, but that is for a short time only—refractive condition. If you continue to suffer, you have the wrong glasses. You have not been properly fitted. From the perfect eye, or eyes made perfect by the proper glasses, you can expect clear and distinct vision for all distances—

A natural restful strain;

The ability to read or do close work long periods without discomfort;

Freedom from dizziness and eye headaches.

I do not say that although you may see perfectly you do not require glasses ground and fitted for you and expect,—because there are some phases of eye trouble which although causing organic derangement throughout the nervous system, do not reveal themselves by defective vision, but you may be sure that if you do suffer like this your eyes or your glasses are to blame; if your eyes are to blame allow me to fit you with the proper glasses; if your glasses are to blame allow me to tell you what is wrong and how the error may be remedied.

Permit me to check up your correction.

N. A. KOURY,
Eye Specialist Armstrong, B. C.

MARA NOTES

N. Pavlos is out on the main line on business.

Irene Cadden motored down from Armstrong to visit her parents last week.

Joe Dean of Vernon is paying us a visit, coming in on Monday's train train.

Rupert Davy and Ed. Robertson were passengers to Enderby on Monday.

Matt Weir left Mara on Monday's train for the coast to try and recuperate.

The spell of damp weather is at last helping the feed to show, much to the relief of the farmers.

Our enterprising storekeeper is fixing up for the coming summer's big business. He already has a specialist in decoration and painting in the person of William Coell at work which promises to bring trade.

Lt.-Col. Langdon, D. S. O., is leaving for the east to meet his financee who recently left her home in England. We wish the gallant colonel the best of luck and will welcome them in the good old time style when they return.

A fully representative meeting of the settlers was held in the hall Saturday night to consider ways and means of reviving the celebration of Mara Day, which was generally held before the war. Committees were appointed for music, sports, refreshments, etc., and judging by the interest shown at the meeting we are going to have an enlarged old-fashioned get-together out-door picnic which was so much enjoyed in former times.

More silos are to be built in the district this year than ever before, indicating that the farmers are realizing the need of conserving feed and getting it in more concentrated form to be handled with as little labor as possible.

Leisure is that profitable time of opportunity to get far enough away from your business to see it as it is

GRINDROD NOTES

Mr. J. Monk was in Enderby on business this week.

A. Tomkinson purchased a new "Chev." car this week from Salmon Arm.

Miss Harriet Beddington of Vernon was in Grindrod visiting friends for a few days.

An expert gardener was in Grindrod to see what could be done with the school grounds and the committee decided to have one-half of the play ground planted in potatoes.

A church concert will be held in the G. F. Hall on Friday, May 7th. Most of the numbers on the programme are comic. Mr. C. B. Winter has consented to sing on that evening, also a number of other popular performers. Admission, adults, 50c, children, 25c.

The ladies of the Enderby Methodist church will hold a candy and home-cooking sale in the U. F. hall on Saturday, May 1st. 2t

Enderby Hospital Drive

We need your help.

It is our intention this year to raise the sum of $2,500 to build and equip an isolation ward in connection with the present hospital building.

We are confident the people of Enderby, Grindrod, Mara and Mabel Lake districts are prepared to back up our efforts.

If all will do so the objective will be reached without hardship to anyone.

To start with, it is our purpose to canvass the districts named above for members. The membership fee is only $1.00. Anyone so disposed may contribute more than the membership fee.

An isolation ward is necessary if the effectiveness of the Enderby Hospital is to be maintained.

You know this as well as we do.

Knowing it, we feel you will be only too pleased to help us.

It is our purpose to start a "Drive" for the amount necessary to build and equip the isolation ward.

In aid of this drive a subscription list has been opened

This list will be open up to May 13th.

On May 13th canvassers will cover the Grindrod-Mara-Mabel Lake districts.

To enable them to do so four automobiles will be required one day each. Automobile owners willing to contribute will kindly notify the Hospital Board.

Between May 15th and 24th canvassers will cover Enderby city and district.

The "Drive" will end on May 24th, TAG DAY.

As already stated, we require the assistance of ALL.

Help us and we will soon have one of the most completely equipped little hospitals in the Interior of B. C.

Don't say "No."

Enter this Drive with the interests of the district at heart and see how quickly and easily the objective will be reached.

ENDERBY HOSPITAL BOARD.

CHAS. HAWKINS, President. MRS. GEO. R. SHARPE, Secretary-Treasurer.

MEN'S CLOTHING

We carry the best in each line that can be procured in Canada.
Stanfield's Underwear needs no introduction.
