GORED BY MAD BULL

Mr. Huntley, Aged Mara Citizen Dies of Wounds Received in an Attack by Beast

Dr. Keith was summoned to Mara Tuesday night to attend Mr. Huntley, the aged father of Mrs. Campbell, who recently came to Mara from near Larkin and purchased the Ritchie farm. Mr. Huntley was 70 years of age. The injuries from which he suffered were the result of a most distressing encounter with a Jersey bull. That afternoon Mr. Huntley went into the barn yard where the bull was. The animal made a rush for the gate and Mr. Huntley attempted to stop it. The bull got the best of the argument. He knocked the aged gentleman down and cruelly gored him, litterly battering his frail frame to pieces before assistance could get to him.

One of the boys attempted to drive the mad beast off with a club, but the beating only maddened it the more. A pitchfork was the only instrument the bull feared, but it was too late when he finally ran away. Death ensued a few hours later, Mr. Huntley being battered and torn beyond all hope of recovery.

The stricken family have the sympathy of the community in their great bereavement.

ROBINSON—SALVIDGE

A very pretty wedding between Mr. Thomas Robinson and Miss Winifred Salvidge took place at the St. George Church on Friday, Sept. 17th. The church was filled with invited guests who were entertained afterwards at a reception held by Mrs. J. E. Moore at the home of Mrs. Robinson, mother of the bridegroom.

The bride, looking most charming in white satin and veil, received her guests in front of the house, where, amidst friends and to the accompaniment of much gaiety, numerous photographs were taken.

Miss Isabel Moore, acting as bridesmaid, wore brightest pink.

Those present were: Mr. and Mrs. Moore and children, Mrs. Robinson, Miss Robinson, Mr. Walter Robinson, Mrs. Harrap, Mrs. Percy Chapman, Rev. and Mrs. Gretton, Miss Edgell, Mr. Cowan, Mr. and Mrs. Morris, Mrs. Harvey, Mr. and Mrs. Hadow, Mrs. Burton, Mrs. Glen, Mrs. Fortune, Miss Forester, Mr. and Mrs. Hopkins and children, Mrs. Bigge and Miss Robson.

After a very pleasant time the bridal pair left for southern valley points in their automobile. The bride wore a putty-colored costume with hat to match and a brown tweed coat.

Everybody will wish them prosperity on their ranch between Enderby and Armstrong, to which they will return after the honeymoon.

FOR GOVERNMENT CONTROL

It is doubtful if the general public of British Columbia was ever so unanimous on any question as it now is on the question of prohibition and government control. Unless some great change comes over the people between now and the 20th of October, there is certain to be a majority for Government control. This is the opinion of men of unbiased mind who travel the Province from end to end. People are disgusted with the operation of the Prohibition Act; they hate the pernicious bootlegger yet indulge in the folly of the game. The bootlegger follows. They dislike having to pay two or three prices for the stuff the bootlegger sells, and are sick of sweating under the fool law self-imposed. They want to make it possible to procure good liquor at the time they need it, and to buy it where they can depend upon its quality and where it can be bought at a price and in quantity reasonably controlled.

ENDERBY NEWS

Mrs. J. Austin returned home last week after visiting friends in Revelstoke.

Ernest Broom arrived Wednesday from Kisby, Sask., to join his mother and sisters here.

Theo. Adams and Davy Mowat returned from the Coast Tuesday, where they spent a brief vacation.

Last week Andrew Brown sold his

Loon Lake farm of 150 acres to a Mr.

Tedbolt, of Cardiff, Alta., through the

S. S. B.

Mrs. R. C. Carson received the sad news this week of the death of her sister, Mrs. Russell, at her home, Wheatly River, P. E. I.

City Clerk Rosoman has concluded his vacation, and the office at the City Hall is now open to the public for the transaction of business during the regular hours.

Mr. and Mrs. Jno. McMahon left last Thursday by auto to join Mr. and Mrs. Gordon Duncan at Midway, from which point all were going on a trip to Spokane and neighboring cities.

Miss Ruth Baxter motored to Salmon Arm last Sunday and after a brief stay with friends there will go to Vancouver, where she will visit her brother and attend business college.

Summerland is to have a box factory, according to the Review, the plant to be put in by the Summerland Lumber Co., which company is now operating a saw mill and box factory at Mineola.

The Messrs. Rands, Reeves and Speers returned from a big game hunting trip to Cariboo this week. They failed to reach their objective owing to the heavy rains of the past ten days or more, and came home empty of moose steak. The roads were rendered all but impassable by the downpour.

Twenty or more Knights of Pythias motored from Vernon Monday night to spend a social evening as visitors of the Enderby lodge. At the close of lodge work all adjourned to the King Edward where Mine Host Murphy served one of the meals that made Enderby famous.

A quiet wedding was performed in St. George Church Tuesday afternoon by Rev. Mr. Gretton, when Miss Rose Mullard, just arrived from Camberley, London, Eng., was made the wife of Mr. Thos. Ashton, of Mabel Lake road, the happy culmination of a friendship formed when the groom was serving Overseas.

It is conservatively estimated that the farmers of the Fraser alone will have to stand a loss of at least one million dollars worth of late grain, oats, etc., as the result of the heavy September rains. Other districts, including the Okanagan, have and are suffering heavy damage to the late grain and to that still in the field but unthreshed.

If the correspondent sending to the Commoner a communication on "Prohibition—the Other Side," will send her name, the communication will be published; otherwise it will be consigned to the waste basket. We are heartily in accord with the points raised by this correspondent, but believe if one has not the courage of his or her convictions, then it is better not to air them.

Mr. Marley and Mr. Winter returned last week-end from their trip to the big game country in the Cariboo. They saw one drove of about 30 moose, out of which they picked a bull and wounded him first shot. They were in a canoe. Immediately the animal was wounded it made for them. They opened fire on the approaching foe and emptied everything from which they could shoot into him—or in his direction. A log on the shore barred the way of the wounded animal and it turned into the timber. They followed its trail and found it not far distant.

WILL FIND THE MONEY

Enderby United Farmers Decide to Put up Share of Cost of Campaign if Candidate is Named

Enderby United Farmers do not intend to funk when it comes to putting a candidate in the field to contest the Yale riding. At a meeting of the Local last Thursday evening it was shown that the costs of carrying on the campaign would be in the neighborhood of \$4000 or \$5000 if it is to be fought to win, which would mean that each member should put up \$3 to \$5 to go into the fund for legitimate expenses.

The question created considerable discussion, but the feeling of all was that Enderby local, being the first to suggest that a candidate be put in the field, could not afford to balk at the expense. And it was decided that the Local should pledge itself to contribute its share of the legitimate campaign expenses and to support the candidate to be named at the Penticton convention on the 27th inst. The following were named as delegates to the nominating convention: R. J. Blackburn, Wm. Anderson, R. J. Coltart, G. H. Smedley, K. Glen, Herb Teece, R. Morris, R. E. T. Forester, Chas. Gardin, Mr. Cowan, Mrs. D. Jones, H. E. Harris, Chas. Parkinson.

Nominations were left open to provide for the naming of alternates should any of those named be unable to go at the last minute, no proxies being allowed.

It was decided to make an assessment of 25c per month for the purpose of getting funds to finance the Local.

It was decided to hold a social on the night of the next meeting of the Local, Sept. 30th, and a committee consisting of Mrs. Jones, Mrs. Teece, Mr. Smedley and Mr. T. Robinson was named to arrange details and handle the affair, with power to add to their number.

LIBERAL CONSERVATIVES

Nominate J. A. MacKellvie and Select Officers for Central Association for Yale

Mr. J. A. MacKellvie was the unanimous choice of the National Liberal Conservative convention held last Thursday at Penticton. The name of J. M. Robinson, who had been considered another probable candidate, was not presented to the convention, and Mr. Robinson moved to make the nomination of Mr. MacKellvie unanimous.

Delegates to the number of 65 were present from principal centres of the riding, embracing the five provincial electoral districts of Greenwood, Grand Forks, Similkameen and North and South Okanagan.

J. F. Burns of Kelowna, presided as chairman and was elected president of the Central Yale association; Mrs. Daly, Keremeos, first vice-president; F. Hassard, Enderby, second vice-president; W. E. Ashmans, Penticton, secretary; T. H. Boothe, Penticton, treasurer.

COST OF FOREST FIRES

To fight and extinguish forest fires the past summer has cost the Province \$182,408. The Vancouver district—which includes Vancouver Island—holds the record for number with 299 fires which covered an expenditure of \$45,500. Nelson comes next with 248 fires at a cost of \$65,000. In the Cranbrook area 98 fires were reported and \$40,000 expended. Kamloops district reported 75 fires and spent \$16,000 while in our own district—Vernon—76 fires reported cost the Province \$14,000 to fight them. Fifty-six fires in the Prince Rupert locality cost only \$458 to fight them, and in the Cariboo it took only \$600 to fight 50 fires. In the Prince George region it cost only \$1850 to fight 79 fires.

MARA NEWS

Miss Stewart and Miss Allan were visitors to Vernon on Saturday.

Quite a number from Mara are intending to take in the Armstrong Fair.

Those that attended the dance at Grindrod on Friday report a large and jolly crowd.

Harry Kellett had the misfortune to lose three head of cattle on the track Saturday night, they being killed by the train.

Many of the ranchers are anxiously looking for a change of weather, to save their late grain crops. There is still considerable cut and in shock, and quite a lot still to be cut. It is feared there will be considerable damage already.

Mn. Charlesworth is to be congratulated on his enterprise on his ranch here. His latest purchase is an Avery tractor, and he is also expecting a plow, to go with it, and later on will add other machines so that the tractor can be kept at work. This will be a decided advance here, and one that was urgently needed.

GRINDROD

Mr. H. Halliday was in Grindrod visiting friends over the week-end.

Mr. White of Kamloops has purchased Mrs. M. Kyles' property here.

Mr. and Mrs. T. Skyrme and family were in Vernon on business last Monday.

Harvest Thanksgiving service is to be observed in the Grindrod Church next Sunday, at 3 p.m.

The dance held here on Friday was a huge success, a large crowd coming from Enderby and Armstrong.

GRANDVIEW BENCH

Mrs. Baldwin and Mrs. Turner visited Salmon Arm last Friday.

Mrs. P. Bradshaw is visiting her sister at Okanagan Centre.

Miss McSherry and Mrs. Stapleton of Enderby visited friends here last Saturday.

The young people of Grandview Bench gathered at the home of Mr. and Mrs. Tomkinson last Friday night and spent a very enjoyable evening in dancing.

CRAZY TIMES

Strike and the world strikes with you, work and you work alone; our souls are ablaze with the Bolshevik craze, the wildest that ever was known. Groan and there'll be a chorus, smile and you make no hit; for we've grown long hair and preach despair and show you a daily fit. Spend and the gang will cheer you; save and you'll have no friends for we throw our bucks to the birds and ducks and borrow from all who'll lend. Knock and you'll be a winner, boost and you'll be a frost; for the old sane ways of prewar days are now from the program lost. Strike and the world strikes with you, work and you work alone; for we'd rather yell and raise blue hell than strive for an honest bone. Rant and you are a leader, toil and you're a nut; 'twas a bitter day when we pulled away from the old-time workday rut. Wait and there'll be a blowup, watch and you'll see a slump, and the fads and crimes of these crazy times will go to the Nation's dump.—Walt Mason.

The area planted to tobacco in the Okanagan this year is only 65 acres. Reports are that the crop is doing well. If our growers could add a cipher to the acreage then we'd have the start of an industry worth talking about, though it would go up in smoke.

TO ENLARGE BUILDING

Hospital Board Notify City Council that They are Prepared to Proceed With Work Laid Out

At the last meeting of the City Council, the Hospital Board notified that body that they were prepared to build the addition, contemplated early in the year and for which the necessary money was raised by popular subscription in April and May. The plans of the proposed addition were not submitted with the application to do the work but it was suggested that the matter would be taken up with the board of works.

Ald. Coltart spoke the feeling of the other members of the Council when he expressed pleasure at knowing the work was to go ahead, but thought it should be distinctly understood that there should be no further appeal to the Council for additional assistance in connection with the proposed work to be undertaken by the Board.

In this connection, a meeting of the women of Enderby was held at the City Hall Tuesday evening for the purpose of organizing an auxiliary to operate in conjunction with the Hospital Board. Mrs. Gretton was chosen president, Mrs. Nichol vice-president, and Mrs. Woods secretary-treasurer, with Mrs. Walker representative of the auxiliary on the Hospital Board. It is the purpose of the ladies to lend any assistance possible in connection with the betterment of the hospital and to make it of greater service to the people of the district.

List of Donations

Fresh eggs, Mrs. Dangle, Grindrod; cream and vegetables, Mrs. T. Gray, Mara; jelly, Mrs. Campbell; jam and tomatoes, Mrs. R. M. McDonald; crab apples, Mrs. Diamond; vegetables, Mrs. Pucel; pickles and flowers, Mrs. Carlson; lake trout, Mrs. Keith and Mrs. Walker; baby blanket and magazines, Mrs. D. A. Powell; milk and cream, Mrs. T. Skyrme.

Big Demand for Books

Mr. H. Killam, connected with the Provincial Library Department, in Victoria, was in Enderby the week-end, looking into general conditions in connection with the use and the method of handling the library books by the local association. Mr. Killam was pleased to report the most conspicuous revival of interest in the reading of good books by the general public served by the library department through the many local associations established in all parts of the Province. There was an insatiable demand for books—particularly reference books in relation to agricultural subjects, said Mr. Killam, and the Department was much interested in noting the eagerness displayed in this direction. Mr. Killam explained that the Department had recently established a closer touch with the general reading public by making provision whereby anyone desiring to get information along any certain line of reading or development, can send direct to the Department and get for the reading any reference book desired along that particular line, the book being sent by mail and returnable when read.

COMING EVENTS

St. George's W. A. will hold a Thanksgiving home cooking sale and tea on Saturday, Oct. 16th, at 2.30 p.m. in the Parish Room. 1

On Saturday, Oct. 2nd, the ladies of the Hospital Auxiliary will receive on behalf of the Hospital preserved fruits and jellies. Please leave at Mrs. Dunn's.

On Saturday night the Farnum special, "Wolves of the Night," will be shown at the Enderby Theatre.

THURSDAY, SEPT. 2, 1920

J. A. MacKelvie Nominated

The nomination of J. A. MacKelvie by the Liberal Conservative convention at Penticton last Thursday evening was looked for by all having an eye to what should be from the party view point. Editor MacKelvie has long been a staunch Liberal Conservative, and his service in the interest of the party surely entitled him to any recognition that could be given him. His long residence in the Okanagan, and his broad insight into the needs and possibilities of the district especially fit him for the position to which he is now an aspirant. No man could be better fitted to undertake the work laid down by the Hon. Martin Burrell.

His nomination does not mean a walk-over for the party he represents. If he is elected it will be by Liberal Conservative votes, though it cannot be said that Mr. MacKelvie will not have the support of many Liberals who, while recognizing his staunch adherence to Conservatism, still have confidence in his wisdom and open mind.

That he will be opposed by a farmer candidate now looks certain. This fact alone does not imperil his election, though in this constituency the United Farmers should stand a better chance of electing a candidate than in any other constituency in the Province. If they fail here they would fail anywhere in B. C. Mr. MacKelvie's strongest opposition will come from straight out-and-out Liberals, who cannot forget the past and scoff at the idea of coalition as it is camouflaged.

Next Monday at Penticton delegates to the United Farmers convention will gather to place in nomination one of their number to contest the riding. It is going to mean the expenditure of three or four thousand dollars to carry on the campaign, but they are prepared to go through with it, believing in the justice of their cause and that it costs money to get anything worth while.

It is not known what position the Veterans and Organized Labor will take. If an acceptable candidate can be chosen by the United Farmers—acceptable to both these parties—it is possible they will combine to elect the Farmer candidate as opposed to the Meighen group government.

Looks Like a Good Thing

A copy of the prospectus of the Okanagan Farmers' Milling Company, Ltd., with head office at Vernon, to which brief reference was made in these columns last week, states that the company's main aim at first is the installation of a local mill for grinding Okanagan wheat into flour and chopping or crushing other grain for feed. On wheat shipped to Vancouver, the freight is \$5.90 per ton, and on flour brought in the freight per ton is \$5.90. By grinding our wheat at home a saving of \$11.80 is effected on freight alone. The quality of Okanagan wheat for milling purposes is too well known to need assurances on this point. It is proposed to put in a Midget Marvel roller flour mill, made in two sizes, 25 and 50 barrels in 24 hours. Thousands of these mills, the prospectus says, are giving the utmost satisfaction and more than filling all claims made for them. Putting the price of flour at \$15 per barrel, it is shown in the prospectus that five bushels of wheat at \$80 per ton is \$12, and the cost of producing a barrel of flour is \$1.60, making the cost price \$13.60. From this must be deducted the price of 100 pounds of feed, at 3¢ per pound, \$3, thus leaving the price per barrel \$10.60, giving a total net profit on manufacture of \$5.40.

The capital stock of the company is now being offered in the Valley. When \$5,000 is subscribed the directors will proceed to allotment, and establish the mill. It is the intention to have the mill in operation so as to handle this year's wheat crop. The directors are: H. W. Knight, John R. Brown and R. A. Copeland, Vernon; C. O. Fulton, Okanagan Landing; T. J. Caron, and A. B. Derby, Lumby; Thos. Ward, Lavington.

The Climax Clothing Company, which has located at Arnprior, Ont., has all machinery installed and ready to commence operations on the manufacture of ready-made clothing. The Kenwood mills are also making an extension to their felt factory.

Group Form of Government

If we Canadians once accept as correct the group form of government, it most surely will lead us into all the trials and tribulations which have characterized the governments of Europe the past few years. Unstable, whimsical, weak and vacillating they have been, one group following another in power and out again.

We pride ourselves, or our leaders do, in having a coalition government. In point of fact, have we? We have not. Never have had, although we carry the camouflage. We have a self appointed group in power. They represent neither the Conservative party as a party, nor the Liberal party as a party. From the commencement of what we are pleased to term, our coalition government we have had the Liberal party standing in opposition to the Ottawa group. There cannot be a coalition unless the parties get together. This they have not done, and show no intention of doing. Our leaders may continue the subterfuge, but they cannot put it over. In attempting to do so they make way for other groups—farmer groups, labor groups, and the like. Logically, if we accept in principle group government—which our leaders are attempting to put over—then we must carry the principle to its logical end, and be prepared for all that group government implies.

It is all very well for the present group at Ottawa to declare it is the coalition government. It cannot get away with it while the Liberal party is not a party to the coalition. The grouping of a few men who were Tories and Grits a few years ago does not make a coalition. If they fail to carry their party with them they become a group, and one group simply makes way for another. It may be Meighen today and Crerar tomorrow.

The trouble we see in this group form of government is not in the men selected by the group, but in the method of the selection. And, further, it is leading to indifference and decadence in the political life of the Dominion. Men do not follow leaders as they follow party. Only now and then in the world's history do we read of a leader strong enough to hold his followers for any length of time. And few men will fight for a leader as they will fight for a cause. The group form of government takes away all incentive on the part of the people. They will not interest themselves on anything but selfish grounds.

We hear men talk of the farmer movement as a group movement, and the same of labor and the returned soldier. But the fact is, the group movement already has been established at Ottawa, and the electors of Canada do not seem to be much more interested in the legislation of one group than another.

During the first four months of this year there have been 564 new industries established in British Columbia according to report. This creates a provincial record. Many of the new concerns are returned soldiers' organizations.

Keeping the Dividends at Home

When Canada started to sell Victory Bonds to her own people it was one of the best moves ever made. The annual interest from these bonds coming back into every community has already meant a big thing, and will mean more as the sum accumulates, for every holder of the bonds feels it a duty to put the interest away in such a way as to make it produce more. The idea has been brought closer to home by many localities. Local school and other bonds are sold to residents of the district, and the interest from these comes back and stays at home, while the money borrowed on the bonds is spent in the home community and means further prosperity.

Following the national lead, local utility companies are placing stock before their patrons and urging them to get into the business with them. The latest to adopt this method is the Okanagan Telephone Company, which is entering upon a period of expansion in order to cope with the increasing population in the Okanagan and to open up new fields from which increased revenue may be derived. The par value of these shares is \$100, and they are sold at par, on terms either cash or 25% down and the balance to be arranged, 25% in 30, 60 and 90 days, interest to commence from the date the amount has been paid, either in full or on the amount paid from time to time. A great deal of this stock has been placed with a premium of 10% when sold some years ago. The last dividend paid for the first six months of the present fiscal year was at the rate of 8% per annum, and in addition to this some \$13,000 was spent on extensions from earnings. The telephone company contemplates extensive new work and must have the necessary working capital. At the present time it is out of the question to get money from the Old Country or from the United States owing to the prohibitive rate of exchange, and the directors are anxious to have as much stock held in the Valley as possible, as the interest will then be paid to the users of the service and the money will stay in the country. The company has a capital of \$500,000, of which some \$393,600 has been issued. The real property is conservatively valued at \$464,931.

CIVIC PRIDE

The more we have, the more we want.
The Proverb so decides.
Which quite explains why **SOME** folks flaunt
The stores this town PROVIDES.

They shop by mail, when right at home
Are things as good and cheap;
The more we have the more they roam,
Nor LOOK before they leap!

BUY WHERE YOU LIVE

Save the surface and you save all Paint & Varnish

THE purpose of paint is twofold—it should beautify of course; but, also, it must fully protect the surface to which it is applied. The high cost of repair-work has made us all fully realize the extravagance of letting a building "run down" for lack of a coat of paint.

It is equally important to understand the extravagance involved in the use of poor paint, and to know that there's one paint which leads all others in the matter of economy:

B-H PAINT
"English" 70% Pure White Lead (Equivalent to 100% Pure White Lead)
30% Pure White Zinc
100% Pure Paint

No other paint can match it in covering capacity—no other brand can equal its record of permanence. Affording real protection over a long period, it has removed the false notion that a house must be repainted every year. If you use this paint of extreme durability your house is protected for years.

WILL HIT IN THE RIGHT PLACE

In private business it may become advisable, even absolutely necessary, for a man to borrow heavily to enable him to carry himself over a period of crisis. But the business man must provide for the liquidation of his loans if he would remain solvent. It is no different with public business. A country may find it necessary—as Canada found it necessary—to borrow heavily to tide itself over a period of crisis. But the country must make provision for the liquidation of the loans.

That is exactly what the government of Canada has done; that is the object of the "luxury" tax—to pay our national way; to liquidate our indebtedness. In his address on the budget on the floor of the house, the Hon. Mr. Fielding, former minister of finance under the Laurier administration, said: "We must understand quite clearly that we have got to carry a largely increased burden of taxation."

This is certain. The national debt now amounts to about \$350 per capita, and a must contribute to its gradual liquidation. This is an inescapable obligation.

Criticism of the budget was to be expected, and if it were all constructive criticism it would be well. Unfortunately most of the demands on the government are simply that the luxury tax be thrown in the waste paper basket.

The retail merchants of Canada, if one is to take the recommendations to Ottawa is a criterion of their general attitude to the tax, resent being used as tax collectors. The merchants' association asks that the tax be applied at the base, that is, on the manufacturers and importers. This is natural, for undoubtedly the collection of the tax by retailers will be a burden, but hiding the levy at the base would not accomplish one of the prime features of the tax—its directness. Citizens, generally, will pay a hidden tax without much grumbling. When it is collected as a direct levy, however, they squeal. Quite a large minority of the people of Canada have been living carefully during the last few years. Many, have been, perforce, living stintedly. The majority have been living recklessly, the profiteers snuffing the while and taking on a bit more for profit.

The luxury tax need not be a permanent levy. It can be changed in form and application if found necessary. In the meantime, it will surely have the effect of bringing the consuming public to its senses, resulting in a lessening of the demand for high-priced goods. This will be reflected back and there is little doubt that the profiteer will receive a slap—Kamloops Standard.

ALFALFA VARIETIES.

Alfalfa has as many varieties and strains as fancy poultry. Experiments and tests under varied conditions show that some are more suited than others for different localities.

Superintendent Stevenson, of the Experimental Station at Sidney, Vancouver Island, finds that "Ontario Variegated" is the most desirable under such conditions as obtain on the Island.

It starts growing early in March and remains green until December. It is erect growing, leafy, and more

easy to cut when grown in rows than are the more spreading types. Hardiness, says the superintendent, is not a factor of great importance on the coast, since the winter temperatures are not low enough to cause severe frost injury to any strain of alfalfa.

The ever popular Grim alfalfa, so successful in close seeding, has the fault of going down when grown in rows wider apart than eighteen inches. The New Zealand varieties resemble the Ontario in character and may be grown in rows or mass. The yellow flowering kinds are low in habit and low in yield.

In three cuttings the Ontario Variegated has yielded five tons of dry hay per acre when grown in rows thirty inches apart.

The finest quality of hay, however, and the most satisfactory mowing has been done on areas where the row were twelve and eighteen inches apart.

Use Ontario variegated alfalfa seed, sow in rows thirty inches or less apart, cultivate and keep free from weeds the first summer.

When the plants are well established use a spring tooth cultivator across the rows, immediately the crop is off. This will remove all grass and weeds and cause no injury to the deep, strong-rooted, drought-resistant alfalfa plants.

To say of a man that he will make a good husband is much the same sort of a compliment as to say of a horse that it is perfectly safe for a woman to drive—Blighty.

Sometimes the most work-brittle thing about a hired man is his appetite.

Are You Prepared for Winter?

IT WILL SOON BE HERE

Enderby & District

So many inquiries are received almost daily for information relating to the resources and industries of the Enderby District, it has become impossible for the secretary of the Board of Trade to answer all the questions asked. The following general information relating to the district has been compiled covering the points upon which information usually is sought:

Q. Industries: How many, what kind and employing how many men in the town? **A.** Four: saw mill, brick and tile manufacturing plant, pole and post yard; 200 men employed.

Q. Water power available adjacent to town? **A.** 5000 horsepower.

Q. Railway connection with outside points? **A.** O. and S. railway branch of C. P. R. connecting the Okanagan Valley with the mainline of the C. P. R. at Sicamous.

Q. Yearly climate with extremes, hot and cold weather, together with average annual snowfall and average rainfall: **A.** Monthly mean temperature, Jan. 28; Feb. 26; Mar. 34; April, 48; May, 53; June 59; July, 67; Aug. 67; Sept. 56; Oct. 42; Nov. 30; Dec. 20; highest, 100; lowest -24. Average precipitation, 20.18; snowfall, 69.25, rainfall 9.35 inches.

Q. Brief mention of banks and schools, public buildings and churches? **A.** Bank of Hamilton, Bank of Montreal; 8-room brick school, with modern conveniences, high school, theatre, moving picture house, public library; best of water and water system; churches—English, Presbyterian, Methodist, Baptist, Catholic.

Q. Natural resources of district in timber, minerals, agricultural lands, fisheries, oil, natural gas, brick, clay, fire clay and all other natural resources. **A.** Timber—fir, pine, cedar, cottonwood, birch. Minerals—coal. Agricultural land—all varieties of soil suitable for mixed farming, stock raising and fruit growing, both large and small. Fisheries—Confined to trout fishing in lake and stream; not on commercial scale. Oil, none. Natural gas, none; brick and fire clay in large stratas.

Q. Kinds and qualities of soil in your district? **A.** Black loam, sandy loam and clay.

Q. Does land have to be irrigated or not? **A.** No irrigation required. **Q. Is good well water obtainable at moderate depths?** **A.** Well water plentiful and of good quality.

Q. Cost of full-sized house and necessary outbuildings for an intending settler? **A.** Lumber, lath and shingles are manufactured here therefore buildings can be put up for as little money here as anywhere in the Province.

Q. Cost of live stock, horses, cows, swine, sheep and poultry. **A.** Vancouver and Calgary market prices govern all line of stock.

Q. Nearest market to the district? **A.** Slokan district, Calgary and Vancouver. Have shipped apples direct to England and Australia.

Q. Market prices for farm produce of all kinds? **A.** Vancouver market governs prices here of farm produce.

Q. Wages of farm labor and other labor? **A.** Wages of farm laborers varies with other wages, averaging about \$50 per month and board. Other labor \$4.75 to \$5.50 per day.

Q. Prices of hay and feed grain? **A.** Prices vary; present price of hay, \$30 to \$35 a ton; mostly local grown.

Q. Condition of roads and trails in the country district? Roads generally good throughout the district.

Q. Principal agricultural products of the district. **A.** Hay, all kinds of grain, fruit, potatoes and other vegetables, dairying; creameries located at central points and cream collected by motor trucks.

Q. Prices of cleared land? **A.** From \$100 to \$150 per acre according to amount cleared, buildings, etc.

Q. Prices of uncleared land per acre? **A.** \$40 to \$65 per acre.

Q. Cost of clearing land per acre? **A.** Varies according to amount of

timber; in most cases the cord wood or timber taken off will pay for the clearing.

Q. Co-operative institutions of farmers and producers in the district, if any? **A.** United Farmers, Okanagan United Growers; co-operative creameries located at central points.

Q. Sport in your neighborhood; fishing, and hunting? **A.** Best of fishing, all kinds of trout; big game: deer, bear; fowl, grouse, duck and geese.

Q. Scenery, automobilizing facilities, hotels, etc. **A.** Scenery unexcelled; mountain, valley and pastoral drives; through wooded canyons and by winding river and green meadows. Best of roads leading to all parts of the district and the interior.

Q. Miscellaneous advantages? **A.** Agricultural and timber resources only wait fuller development. The measure of this development and the district's prosperity can only be gauged by the calibre of the men who go on the land and the working capital which may be at their disposal.

N. A. Koury, late of Armstrong, has established a jewelry and repair store in Enderby, next to the Scott shoe store. Mr. Koury is also an eye specialist. He is a young man and hopes to win a share of the patronage of Enderby citizens.

A negro was trying to saddle a mule, when a bystander asked,

"Does that mule ever kick you, Sam?"

"No, suh, but he sometimes kicks where I've jes been."

McSwiney has fasted forty days and forty nights—and is still going strong. That's the Irish of it.
