CITY ELECTRICIAN HAS RESIGNED

City Council Decides on
Monday, April 26, as
the Annual Civic Clean-
up Day

The mayor and all the aldermen were present at the regular meeting of the city council on Monday evening.

A couple of communications were read, without action being taken. One from A. B. Buckworth in reference to a block of land was laid over until the next meeting.

An offer of \$400 from W. T. Meyer for some lots in the West end was accepted conditionally.

A letter from R. Barrow, inspector of municipalities, stated that the legislation in the house to permit municipalities to reissue their debentures was progressing favorably. The clerk was instructed to write to Solicitor McDiarmid, of the Union of B. C. Municipalities, and ask him to prepare the necessary bylaw for the refunding of the bonds.

A letter from the superintendent of the B. C. Telephone company, Vancouver, asked the council's approval of a tracing of telephone poles to be erected on Winnipeg and Cecil avenues. Referred to the water and light committee and the board of works.

The past month's accounts were ordered to be paid.

The chairman of the finance committee reported that his committee had discussed the bond question with the manager of the Bank of Commerce, and that arrangements had practically been made for the redemption of the bonds maturing on the 15th of May. The council endorsed the action taken by the committee.

The chairman of the finance committee reported that the committee had determined upon an upset price to be set upon the city property which will be offered for sale at the auction sale in June. On motion, an appropriation of \$50 was voted for advertising the sale.

The chairman of the board of works reported that some street grading was being done. He recommended that the board walk on Donald street from the fill to Winnipeg avenue be replaced by a cinder walk. Adopted. He also recommended that the wages of the city workman, James Walker, be increased from \$100 to \$120 per month. On motion the recommendation was approved, the raise to run from the first of April.

The board of works was authorized to advertise for tenders for the city teaming work.

The chairman of the water and light committee recommended that all meters be placed outside of buildings, the report being approved by the council. He also reported that there were a number of old buildings in the city which he considered as a grave menace to fires. On motion, a committee consisting of the mayor, the fire chief and the chairman of the water and light and the

board of works was appointed to inspect all old vacant buildings and to condemn those that are considered as dangerous from a fire protection standpoint.

The chairman of the water of the water and light committee reported that I. A. Spinks had handed in his resignation in writing as superintendent of the water and light department, the resignation to take effect in thirty days, and he handed the document to the council. After some discussion, on motion of Ald. McDonald and Miller, the resignation was accepted, and the clerk was instructed to advertise in the Nelson, Winnipeg, Vancouver and the local papers for applicants for the position, applications to be in by the first of May and duties to commence May 10.

The council decided to advertise the old chemical fire engine for sale in two issues of the Calgary Herald.

The chairman of the health and relief committee recommended that Monday, April 26, be designated as civic clean up day, and that the usual notices be inserted in the local papers. He also reported a couple of chronic charity cases, one of which had been supplied with a cord of wood and \$20 worth of groceries and the other with \$15 worth of groceries.

The clerk reported that the police commissioner had tendered him the cheque from the compensation board for the chief of police's recent illness, as the chief had been paid his regular salary by the city and as he (Mr. Hutton) had performed his services during his sickness, but that he had refused to accept the same and the cheque still remained to be disposed of as the council saw fit. It seemed to be the opinion of the members of the council that, as the city insures its employees and as the chief had been paid his salary and all expenses during his illness, the cheque was the property of the city. This view, it was felt, was further supported by the fact that the police board has no jurisdiction over the city's finances. On motion of Ald. Hull, a resolution was adopted setting forth that in the matter of the compensation board cheque, the council feel that the police commission acted outside their jurisdiction, and that they be requested to reconsider their action.

J. A. Fraser, chief of the provincial police, and Constable Steward, of Midway, were in town this week, working with George Stanfield, of the provincial police here.

Mrs. T. Brooks, accompanied by her daughters, Misses Vivian and Alice, left this week for a three weeks' visit to Seattle and other coast cities.

NEW PROGRAM FOR UNIVERSITY

Initial Cost of Erecting
Buildings Will Be Covered by Sale of Government Property

Special Correspondence of The Sun.

Victoria, April 15.—Vetted intimations have reached the government since its announcement to proceed with the erection of the University buildings at Point Grey indicating a species of disappointment that three million dollars are to be expended for the alleged benefit of one community. Suggestions have been advanced that the temporary premises are sufficient to meet the requirements of higher education until the province is better able to divert its financial resources from other more varied classes of development. It has been argued in some cases of objection that British Columbia might as well prepare itself to wipe off this three million dollars as a bad debt at the commencement, since the government property at Point Grey can not be developed in time for advantage to be taken of the present urgent demand for residential holdings.

The official mind, however, is by no means perturbed by these unintelligent and doleful predictions. Those who are in a position to detect the signs of the times are of the opinion that this move on the part of the government is one of the shrewdest pieces of business negotiated for some time. Critics of the proposal, moreover, should bear in mind that at the present time the three thousand acres in question are idle, non-producing and in consequence non-taxpaying. Lack of information as to the potentialities of the area adjacent to the university, perhaps, is responsible for the inability of some opponents of the plan to understand the prospect of lucrative sale once the lands in question are brought under the proper measure of cultivation and preparation for township purposes.

In this connection it should be remembered that Vancouver of its own accord has grown continually of late toward the university site. Neighboring subdivisions have sold like hot cakes almost as soon as they have been placed on the market, without the added attraction which invariably attaches to a university townsite. And apart from the purely commercial aspect of the undertaking from the government's point of view, there is value in the fact that the whole area under review is one of the most favored scenic and healthful spots that could be found anywhere on the continent. These are the more material and human aspects of the case which can not be gainsaid, while no reasonable argument will be advanced against the desirability of removing from the activities of the university the serious handicaps under which it has labored since the more extensive project gave way to the conditions imposed by the outbreak of hostilities in 1914. Indeed,

the usefulness of the institution has been impaired to a very considerable extent, and only by the inauguration of a program similar to that just outlined by the government is it possible to ensure its reaching the position among the educational establishments of the Dominion to which it is justly entitled.

The situation in a nutshell, therefore, is the decision to launch a new program, the consummation of which will give to this province a university of which western Canada may well be proud, while the initial expenditure will be completely covered many times over by the sale of government property adjacent to the site of the contemplated structure—a series of transactions which should benefit the provincial treasury to the extent of many millions of dollars.

There is another point worth mentioning: No less than two millions of acres, originally reserved to provide an endowment fund with which the cost of the university's maintenance could be met, will now be freed and made available for settlement in the ordinary way under the aegis of the land settlement board. The government, therefore, has no forebodings in respect of its decision to proceed with the construction of the institution in question and the development of its property in confident expectation of lucrative sales.

News of the City

J. W. Pycab, of Transcona, Man., this week purchased the farm of Gabriel Palek, near Clement's place in the West end, for the consideration of \$3500. The deal was promoted by Meggitt & Knight. Mr. Pycab expects to take up his residence here in June.

J. M. Leamy, consulting engineer for the province of Manitoba, accompanied by his wife and children, arrived in the city from Winnipeg Wednesday night, and will visit for a fortnight's visit at the home of his mother, Mrs. M. Leamy, and his brother. Mr. Leamy was formerly city electrician of Grand Forks.

W. Beach, of Christina Lake, has leased the Yale hotel, and he is now in charge. Commencing on May 1, the dining room and rooms will be under the management of Mrs. J. G. Murray. The house is now being repainted, repapered and renovated.

On the 29th inst., the case of Laws vs. The V. V. & E. Railway company will be argued in the county court in this city. Plaintiff is suing for \$600 damages. Pincott of Rossland will appear for the plaintiff and A. H. McNeill, K.C., for the defendant company.

At the last meeting of the school board Principal Stephens, of the high school, tendered his resignation. He asked to be relieved of his duties on the 10th of May. John A. Hutton was elected secretary of the board.

The case of Parry vs. Mundt, both of Bridesville, was heard in the county court on Wednesday before Judge Brown. The action involved a claim for rent, there being also a counter-claim. Judgment was reserved.

ANNOUNCE FORM OF REFERENDUM

Electors Are to Be Asked
Which They Prefer, the
Present Act or Government
Sale

Victoria, April 12.—The form of the question on the prohibition referendum promised by Premier Oliver was made known on Saturday, when the bill to provide for the referendum was brought into the house.

The act provides that the ballot shall be upon the question as follows:

"Which do you prefer:
"(1) The present prohibition act?
"(2) An act to provide for the government control and sale in sealed packages of spirituous and malt liquors?"

The vote is to be taken not earlier than August 1 or not later than September 30 of this year.

G.W.V.A. NOTES

The postponed meeting of the local branch of the G.W.V.A. was held last Friday, and although the attendance was smaller than usual, considerable business came before the meeting to be dealt with. By a unanimous vote, the association extended to the matron of the Grand Forks hospital, Mrs. M. Kingston, a life membership in the association, accompanied with the regulation badge, made into the form of a brooch, in recognition of overseas service.

Three new members joined the association, Comrades John Grassick, Richard Park and Laurie Riddell, which brings the membership up to about sixty.

It was decided to have the nominations for officers on the night of Friday, the 16th, and election will be held two weeks later.

The matter of better service by the soldiers' settlement board for the district was discussed. Several cases were cited where returned men were making an effort to secure homes in the valley through that department, but the want of a government representative in the Boundary district to supply information and deal with loans to returned men, makes it almost impossible for them to settle here. Some action will be taken along this line at the next meeting.

Mr. and Mrs. E. E. Gibson, of Hedley, were visitors in Grand Forks last week-end, the guests of Mr. and Mrs. N. L. McInnes.

Dan Matheson, foreman of the Rock Candy, was in the city on Wednesday. He stated that the breakdown of the tram line was being repaired as rapidly as possible.

The Grand Forks Sawmills, Ltd., at Lynch Creek, expects to ship ten cars of lumber weekly this summer. About three million feet of logs are now being banked on the North Fork for the spring drive.

The prorogation of the provincial parliament at Victoria will probably be made tomorrow. The session has been productive of a great deal of legislation, and some wholesome and advanced laws have been added to the statutes of the province. When the people become fully aware of the importance of some of these Acts, it is not unreasonable to suppose that the government will be considerably stronger with the electors than it was a few months ago.

It is expected that sailors and savages should be tattooed, and side-show performers are often notable examples of the art; but a French coachman originated the most extraordinary design ever worked on a human body. At the time of the Dreyfus trial he had at least one hundred and twenty illustrations of the case, including portraits of the leading persons connected with it, tattooed on himself. The tattooing took almost two years. It almost seems

that, when he dies, he should be not buried but filed.

According to the managing director of the Marconi system, it will be possible within six months to hold a wireless telephone conversation between New York and London. The charge, the director says, will be twenty-four cents a word, and it will be as easy to hear the other speaker as if he were in the same room. The Marconi system plans within a year to extend its wireless telephone service to Australia, India and Egypt. Twenty-four cents a word may be, and probably is, cheap for the service rendered; nevertheless, it will hardly encourage garrulity.

"Yist'day," says Uncle Zeke, "Ah drapped foah cents on de foah, an' dey made a big racket. Ef dey had er bin foah dollar bills nobody would 'a' heard 'em drap. People is jes' lak money: dem dat make de mos' noise ain't allus de mos' account."

The Salvation Army of the British Isles is cooperating with the government in helping women to emigrate to those colonies where there are more men than women. There are approximately 1,250,000 more women than men in the United Kingdom, which means that many more than a million must choose between emigration and spinsterhood. The records of the Salvation Army show that three-fifths of the girls who emigrated several years ago to countries where women were in the minority were married within three years of their arrival; and opportunities for work at good wages attract many women who would not leave home merely to find a husband.

The Art in Telephoning

Telephoning has become so matter-of-fact that most of us consider that to telephone properly is an art. In fact it is an art to do anything well. We should never let courtesy depart from an action, no matter how frequently it is performed.

In answering the telephone we should never forget that the person who called anticipates an announcement as to whom is making the reply. Particularly is this the case in business—announce your firm and your name, and the introduction is complete without any roundabout questioning.

It is a courtesy every one engaged in business can extend, a courtesy that is always appreciated.

Revival of the Ancient "Crier"

What's wrong with the United States? Is it, since it went dry, becoming fastidious, or has it nerves? More than one city is discussing the advantages of the old town crier as a permanent institution to offset the monotony of their "night life." Which recalls what Pepys wrote about that much maligned functionary: "A clyver devile he is," wrote Pepys, "wyth a deal of rhyme inne his noddle." It certainly would enliven some dull towns to the south of the line if the old fellow were suddenly to appear on the streets, ringing his bell, shouting:

"Twelve o'clock, looke welle to your lock,
Your fire ande lighte and so goode nite."

"'Tis eight o'clock, unlucky soul—
Go to bed and save your coal!"

"Past ten o'clock, a fairsome night—
Food costs will jump 'ere morning light."

Or this chant of seriousness (modernized):

"Past ten o'clock! Pat out the key,
Friend, wife, young son and daughters three
Have gone to see the movies!"

How It Happened

Sergeant—Why haven't you shaved this morning?

Private (rubbing his face in great surprise)—Ain't I shaved?

Sergeant—No, you are not. I want to know why.

Private—Well, you see, there was a dozen of us using the same mirror, and I guess I must have shaved some other man.

Humor in Letters

Extracts from letters to the war department:

"I ain't got no learning and am writing for inflammation."

"I have four months' old baby, and he is my only support."

"My husband is now in the constipated camp in Germany."

"He was the best supporter I ever had."

"I received my insurance polish and have since moved my post office."

"I am his wife and only air."

"You ask for my allotment number. I have two boys and four girls."

"Please correct my name as I could

not go under, a consumed name."

"Both sides of our parents are old and poor."

"You have changed my little girl into a little boy. Will that make any difference?"

Present-Day English

In a recent issue of the British Land Agents' Record, a Sussex land agent gives several interesting examples of spelling. How one of his men made up his weekly time sheet is worth reproducing:

Monday—Hoin up sisels in Paster field.

Tuesday—Wellen out dung and spreden.

Wednesday—Caren litter and geten it hom.

Friday—Heg trimmen. Rat huntin.

Saturday—Planten taters Hod gobs.

The foregoing words will be readily translatable by any Sussex man.

Meeting Difficulties

Mark Twain called on Grant by permission; but when he looked into the square, smileless face of the soldier, he found himself for the first time in his life without anything particular to say. Grant nodded slightly and waited. His caller wished something would happen. "General," he said, "I seem to be slightly embarrassed. Are you?" Grant's severity broke up in laughter. There were no further difficulties.

A negro was brought before a mayor a short time since for stealing chickens.

"Well, Toby," said his honor, "what have you to say for yourself?"

"Nuffin but dis, boss. I was as crazy as a bedbug when I stole dat ar' pullet, 'coz I might hab stole de big rooster, and I neber done it. Dat shows 'clusively to my mind dat I was laboring under de delirium tremendous."

Doing Well

When mother and her brood started for town the weather was threatening, so she did not go unprepared. In due time they stepped off the crowded train at the station.

"Have you got all the umbrellas, Johnny?" was her first question.

"I should say I had," said the boy.

"I had three when I started and now I've got five."

A Big Newspaper Bargain

The Prince of Wales has captured the hearts of all Canada. Rich and poor, old and young, are enraptured with his easy manner and happy expression. He is so different to what many expected.

No wonder a great demand has been created for a real life-like portrait of our popular future king. Photographers and artists have failed to secure a satisfactory snapshot of the royal visitor. He was not here to pose for them. It remained for The Family Herald and Weekly Star of Montreal to secure a portrait that would be satisfactory, and they have succeeded. Just before leaving for Canada the prince gave a special sitting to the celebrated London, England, photographer, VanDyke. The agents of The Family Herald were instructed to secure the right to reproduce it in Canada, and that great weekly is now offering it to its readers.

The Sun has succeeded in making an arrangement with The Family Herald and Weekly Star by which our readers may have The Sun, The Family Herald and Weekly Star for one year and a copy of the portrait for \$2.25. The demand for this portrait in Canada will be enormous, and we advise our readers to take advantage of this opportunity without delay.

If you don't see it in The Sun it didn't happen, or it wasn't worth mentioning.

YOU ARE IN GOOD COMPANY WHEN YOU ADVERTISE IN THE GRAND FORKS SUN

MR. BUSINESS MAN, have you ever thought that advertising puts you in good company? It is an old saying that a man is known by the company he keeps. When you join the ranks of the advertisers you join the ranks of the biggest and most successful merchants and manufacturers in the world.

How many large concerns can you name in any large city in the country? Name them and you will notice that all are big advertisers and all are leaders in their lines. Ask your friends to name the most successful merchants they know in the big cities, and in each case the name of a great advertiser will be mentioned.

The same rule is true of smaller cities and towns. The successful merchants are the advertisers. The advertiser stamps himself as one having confidence in himself and his wares, as one proud of his calling and seeking publicity and the test of patronage.

Dated Grand Forks, B.C.,
April 15th, 1920.

LAND REGISTRY ACT

To each of the parties whose names are set out in the first column in the Schedule hereto. TAKE NOTICE that applications have been made to register the Corporation of the City of Grand Forks as owner in Fee under certain Tax Sale Deeds issued by the Collector of the Corporation of the said City of the lands set out in the third column of the Schedule hereto. Further Take Notice that you are required to contest the Claim of the said Corporation of the City of Grand Forks as Tax Purchaser within 30 days from the date of the service of this Notice (which may be effected by advertisement in five consecutive issues in a newspaper circulating in Grand Forks). And Whereas applications have been made for certificates of indefeasible title to the above mentioned lands respectively in the name of the Corporation of the City of Grand Forks. And Whereas on investigating the title to the respective parties set out in the first column of schedule hereto it is found that prior to the 4th day of September, 1917, (being the date on which the said lands were sold for overdue taxes), each of you whose names are set out in the first column of the schedule hereto appears by the records of the Land Registry Office or the Assessment Roll of the Corporation of the City of Grand Forks to have the right or interest set out in the second column of the said schedule hereto. Now Wherefore Take Notice that I shall effect registration in pursuance of such applications and at the same time issue certificates of indefeasible title to the said lands respectively in the name of the Corporation of the City of Grand Forks unless you or any of you take and prosecute the proper proceedings to establish your claim, if any, to the lands set out respectively in the said schedule opposite your respective names or to prevent such proposed action on my part. Dated at the Land Registry Office, Kamloops, this 31st day of March, A.D. 1920.

H. V. CRAIG,
District Registrar.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.
Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.
Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre including clearing and cultivation of at least 5 acres, before receiving Crown Grant.
Where pre-emptor in occupation not less than 3 years, and has made portable improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.
Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.
Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.
Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.
Natural hay meadows, inaccessible by existing roads may be purchased conditional upon construction of a road to them. Robate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and surviving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.
No fees relating to pre-emptions are due or payable in addition to pre-emptions recorded after June 25, 1918. Taxes are remitted for five years.
Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.
Interest on moneys held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.
Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.
