NEW STRIKE IN MAPLE LEAF

New Body of Good Shipping Ore Encountered in Cross-Cut Tunnel. Will Work All Winter

This week the Maple Leaf mine, in Franklin camp, struck the copper ore in their cross-cut tunnel. A short time ago a large fissure of lead ore was encountered in the main tunnel and in the cross cut for forty feet. The face of the tunnel is still in ore. Another cross-cut tunnel was then started toward the copper ore in November, at right angles to the main tunnel, and at seventy feet in broke into a fine body of shipping copper ore. This tunnel will be continued until the copper body is crossed. Work will the continued all winter with eight men and two machine drills. Supplies are being hauled into the camp on sleighs.

A splendid strike of shipping ore has been made on the Union mine. This strike puts that property much ahead of its origional good showing. The mine will work all winter with four men.

H. W. Young, manager of the Maple Leaf mines, left yesterday for Franklin camp, where he will remain until spring.

THANKS PRESS FOR ITS ASSISTANCE

"Now that the Victory loan campaign has closed with such a magnificent subscription—over 100 per cent more than the government asked for from the people of Canada—Mr. Wilkinson and myself wish, on behalf of the Dominion press news and feature committee, to express our appreciation of the generous support given by all the weekly newspapers in Canada to the Victory loan, 1919," says W. J. Taylor, of Toronto, chairman of the special Victory loan committee, in a letter to the editors of the Dominion. "Backed by a nation wide advertising campaign, editorial and news articles in all the newspapers of Canada, there never was any doubt but that the campaign would be a success. To the weekly newspapers of Canada in no small measure must be given credit for the success of the loan. Let us again thank you for the assistance you have given and remind you once again that the success of the loan, primarily, was due to the advertising and publicity campaigns carried on through the columns of the newspapers of Canada."

A Western Favorite

It is said The Family Herald and Weekly Star of Montreal reaches over ninety thousand homes in the four western provinces each week. There must be a reason for this. The reason is not hard to find. To farmers in this Western County The Family Herald and Weekly Star is regarded as almost indispensable and each issue is worth to them more than the whole year's subscription price. It is a most wonderful production of a weekly newspaper, family magazine and agricultural journal. It costs only $1 25 a year (after December 31st the price, we understand, will be $1 50) and each subscriber receives free a large handsome portrait of the Prince of Wales, 16x22 inches. It is wonderful value and no home in the West should be without it.

Reynolds-Kerman

Lieut. E. S Reynolds, son of Judge Reynolds, of Brockville, Ont., and Miss Marjorie Kerman, daughter of Mr. and Mrs. H. C. Kerman, of this city, were united marriage yesterday at the home of the bride's parents, Rev. Hillis Wright performing the ceremy. The groom is a Great War veteran and the bride was raised in this city. The young couple left last night on an extended wedding tour to Mr. Reynold's former home in Ontario.

AN ENJOYABLE FAREWELL PARTY

L. G. Fowler, of the Granby company, left Tuesday night for Vancouver and Anyox. Mrs. Fowler will continue her residence here for a short time at least. Mr. and Mrs. Fowler have beeu residents of Grand Forks for twenty years. They have always taken a deep interest in church work, and anything else tending to the advancement of the district. A party of friends gathered at the family residence in the Ruckle addition in the evening before Mr. Fowler's departure to bid him fare well, and a very enjoyable social evening was spent. Before going home the guests presented their host with a very nice rocking chair as a small token of the esteem in which he is held by them. The presentation was made by E. C. Hennigerin a few well chosen words, Mr. Fowler making an appropriate response.

Our Royal Visitor

The Prince of Wales has captured the hearts of all Canada Rich and poor, old and young, are enraptured with his easy manner and happy expression. He is so different to what many expected.

No wonder a great demand has been created for a real life-like portrait of our popular future king. Photographers and artists have failed to secure a satisfactory snapshot of the royal visitor. He was not here to pose for them. It remained for The Family Herald and Weekly Star of Montreal to secure a portrait that would be satisfactory, and they have succeeded. Just before leaving for Canada the prince gave a special sitting to the celebrated London, England, photographer, VanDyke. The agents of The Family Herald were instructed to secure the right to reproduce it in Canada, and that great weekly is now offering it to its readers.

The Sun has succeeded in making an arrangement with The Family Herald and Weekly Star by which our readers may have The Sun, The Family Herald and Weekly Star for one year and a copy of the portrait for $2.00. The demand for this portrait in Canada will be enormous, and we advise our readers to take advantage of this opportunity without delay.

A full sized whiskey still was discovered by the provincial police near Greenwood last Friday, also a fair stock of the "moonshine," on hand ready for sale. The offender was caught in the act, and he was placed in the provincial lockup. At the trial in that town yesterday morning he was fined $500.

WILL NOT BUY IMPROVED LAND

Land Settlement Board Lays Down Its Policy Following the Vernon Meeting

Questions of great importance to prospective soldier settlers who contemplate going in for fruit growing in British Columbia were discussed at a conference held at Vernon last Friday. when F. C. Brown, head of the federal land settlement scheme on the mainland; R. L. G. Clarke, chief fruit inspector for British Columbia undsr the Dominion horticultural department, and others connected with the board, were present.

Mr. Brown, on his return to Vancouver from Vernon, said that the conference had been the means of clearigg up a number of points which had been obstacles to the smooth working of the board in the past.

Of first importance, probably, was the decision of the board to discourage as far as possible the purchasing for the new settlers of existing orchards. In future only experienced orchardists who hold certificates A and B from the qualification board will be considered for the purchase of such orchards.

"This decision was made for several reasons," said Mr. Brown. "In the first place, it is consequent upon the recent change in the regulations whereby fruit trees may be considered as part of the stock and equipment for the purposes of a loan, and repaid on the seven year basis, or as part of the land value as hitherto. The risk of handing over a valuable orchard to an inexperienced man is too great, both in the interests of the man and in the interests of the tax paysrs, who back the government's policy. In the next place, it is felt that there has been to much 'swapping' owners in the working of the Soldier Settlement act in British Columbia, and we are getting away from the spirit behind the whole scheme, which, after all, is to get more people on the land. It is not of much advantage to the country that a comparatively inexperienced man should be placed on the same farm which has been worked previously by an experienced man. Indeed, if such a policy is allowed to continue there will be a decrease rather than an increase in production.

"Some difficulty has been experienced hitherto in setting a value on fruit trees of various ages for purposes of loans. It was decided that the basic value should be taken as $1.00 per tree per year of age. In addition the varieties suited to different localities have to be considered when estimating the value of the stock."

While at Vernon Mr. Brown was met by a delegation of R.A.F. officers from Calgary, who were there with the intention of taking up a block of fruit land together. To them he pointed out the advantages to be gained by taking up virgin irrigated land rather than paying high prices for existing orchards. This phase of the board's policy appealed to them and it is probable that their plans will be revised and they may decide to take up a large piece of land for fruit and mixed farming which will not place them under such heavy obligations to begin with.

For the information of those who propose to settle in the upper country it is pointed out by the board that no assurance of inspection of lands until spring can be given for those regions, owing to the fact that in most parts of the country the presence of snow and climatic conditions in general make it impossible to carry out proper inspection of the land. It is unwise, therefore, for men to take options on property unless they will hold good for some time to come.

WOOD ALCOHOL KILLS G. N. COOK

John May, a cook employed by the Great Northern Railway company's bridge crew, died in the Phoenix hospital on Friday last. It appears that May had found some "booze," which turned out to be wwod alcohol in the vicinity of the old Brooklyn hotel, Phoenix, and the drinking of this was the cause of his death. Dr. Driver attended the unfortunate man, but nothing could be done to save his life. The provincial police were notified, but it was decided that an inquest would be unnecessary. The remains were interred in the cemetery in this city on Monday.

Those Rural Profiteers

And men relate that Mrs Newly wed went to the grocery store to do her morning marketing. And she was determined that the grocer should not take advantage of her youth and inexperience.

"These eggs are dreadfully small," she criticized.

"I know it," he said. "But that's the kind the farmer brings me They are just fresh from the country this morning."

"Yes," said the bride, "and that's the trouble with those farmers. They are so anxious to get their eggs sold that they take them off the nest too soon."

Seed Grain Distribution

The annual distribution of samples of seed grain is being conducted at the Central experimental farm, Ottawa, by the Dominion cerealist.

The following kinds of seed grain will be sent out this season:

Spring wheat (in about 5-pound samples), white oats (about 4 lbs.), field beans (early ripening, only for districts where the season is short—about 2 lbs.) flax for seed (about 2 lbs.), and flax for fibre (about 2 lbs.).

Only one sample can be sent to each applicant.

Applications must be on printed forms which may be obtained from the Dominion cerealist at any time after September 1.

As the stock of seed is limited, farmers are advised to apply early to avoid disappointment. No application forms will be furnished aiter February 1, 1920.

Geo. C Egg left on Monday for Nelson, where he intends to remain during the next three months

TO INCREASE PRODUCTION

Lieut.-Col. Davis Explains the Government's System of Promoting Land Sertlement

Lieut.-Col. R. D Davis, of the provincial land settlement board, who went overseas with the 54th battalion and who had charge of the 44th battalion in the battle of the Somme and stayed with the game until the end, arrived in the city last Sunday, and Monday evening he addressed a gathering of veterans and citizens in the G.W.V.A. rooms on the aims of the land settlement project.

Col. Davis gave a detailed account of the work that had already been done in the various soldier settlement areas of the province, and of the work which the board now has in hand. The original object of the scheme, he said, had been to increase production. To accomplish this object, it was only natural that the board should desire to develop raw lands in preference to buying improved farms for this purpose. The colonel's address was the most lucid and instructive presentation of the land settlement question that has been heard here, the speaker going into every minute detail of the subject. Although he was averse to talk for publication in advance of any action that the government might take in regard to the extension of the scheme, he made it quite clear to his hearers as to his own views on this point. After the conclusion of his address, the colonel's was kept busy for some time answering questions relative to soldier land settlement areas.

On motion of Judge Brown, an unanimous vote of appreciation was tendered Col. Davis for his able address.

On motion, a permanent land settlement committee of seven members to work in the interest of the returned men in this district was appinted. The members are composed of veterans, business men and ranchers, as follows: Capt. Clinton Atwood, R. Campbell, Dr. Acres, Geo. D. Clark, F. J. Miller, C. Oxley and W. Pearson.

Monday afternoon Col. Davis was taken for a drive through the valley by R. Campbell and shown some of the land suitable for a soldier land settlement area here

THE WEATHER

FRIDAY, DECEMBER 5, 1919

Premier Drury, of Ontario, has inaugurated his administration by reducing his own salary. This was one of his first official acts, if reliance can placed in a press dispatch from Toronto. In a recent address the Farmer premier said: "Public service and not private advantage is the motto of the United Farmers of Ontario. The Farmers will be safe, sane and deliberate. They will endeavor to unite city and country. Wild experiments in legislation will be shunned. Prohibition will be sympathetically enforced." He had faith in the labor alliance, he also said. The labor men, he realized, wanted good home conditions, and, in this view, there was not much difference between them and the farmers. There was no class so opposed to bolshevism as the farmers, he also assured his audience, and that the farmers would endeavor to get legislation back to sanity and safety and would serve the people. This is not a bad program.

Among the individual tragedies of the war none was more conspicuous than that of the Russian royal family. Grand Duke Nicholas Nicholaievitch, former commander in chief of the Russian army, about whom many conflicting stories have been circulated, is now living with his wife, the Grand Duchess Anastasia, in a villa by the Gulf of Santa Margherita at a little distance from the estate of Due Pini, where his brother, Grand Duke Peter, and his wife are living. Retiring to the comparative solitude of a beautiful Italian village, the grand dukes ask only that the world respect their silence and their sadness.

It has been proposed to kill the bolshevik movement with ridicule. Good idea. More fools have been killed with ridicule than with any other weapon.

In order to handle traffic more rapidly and to keep goods from being lost or damaged, the American Railway Express company, which as agent of the government conducts the express business of the entire United States, has issued new rules that will become effective on December 10. Thereafter all articles that weigh more than twenty-five pounds must be packed, if they are to be sent by express, in containers made of wood, fibrewood, pulpboard or corrugated strawboard of strength proportionate to the weight of the contents. Only articles that weigh less than twenty five pounds may be wrapped in paper or shipped, wrapped or unwrapped, in paper boxes.

A few years ago silver was an all but despised metal. Today it occupies the centre of attraction on every market in the world. The Bank of Commerce monthly report says that the present shortage of silver is attributable in part to the hoarding instincts of the native East Indian, and to the acceptance of the rupee in Mesopotamia, and in Egypt and other African countries, as legal currency. Germany must, perforce, turn to silver, as gold is not within her reach, and without exception the use of silver coinage has greatly increased in all European countries. The result of the advance in the price of silver bullion has in some instances been to make the bullion value of silver greater than the legal value, hence many restrictive measures. The British chancellor has announced that the melting or exporting of British silver coins has been made illegal and that silver bullion is not to be exported except under license. The same restrictions apply in France also. These developments will favorably affect the mining industry of Canada. Two thirds of the world's production of silver is a by-product of the lead, copper and zinc industry, but in Canada only 16 per cent of the output is thus obtained, the balance being obtained from the mines at Cobalt. From the Cobalt and outlying camps 17,661,694 ounces, having a value of $17,341,790, were produced in 1918, and since the opening of these camps in 1903 up to the end of 1918, 292,056,976 ounces, valued at $169,241,387 have been produced by them. The stimulus which high prices will give to exploration, and to the application of more highly developed processes to all grades of ore, will do much to increase the output.

Mexico had a parcel post system long before either Canada or the United States. On one occasion at least the post office carried such a "parcel" as probably never was mailed north of the Rio Grande. A traveler who wished to return a hired mule to the owner addressed a tag and fastened it to the mule's bridle, paid the postmaster $2.50 and gave the carrier a fee. The mule was delivered by parcel post.

On October 17 the secretary of the United States treasury signed a check for $2,648,349,171.53—the largest ever drawn, it is said. Because it was made payable to the treasurer of the United States for redeeming certificates of indebtedness and other obligations, the money really was not transferred. The largest check ever drawn on the treasury for money that went out of the country was one for $200,000,000, which the United States lent to Great Britain.

There is an epidemic of strikes all over the world. The clocks are striking two every day.

According to a report from a traveler in Germany, which appears in the Chicago Tribune, the peasants in the occupied sector liked the Americans, but regarded them as lunatics and millionaires. One peasant told me, said the traveler, that you might never know an American was mad unless a fly came into the room. When the American sees a fly, a strange, hard glitter comes into his eyes. Then you see that he is crazy. His mania makes him want to hit the fly. He folds up newspapers and tiptoes over behind the fly and strikes at it with great viciousness. If it does not die, he pursues it and calls in more soldiers and strikes at it again. Some German farmers are willing to make allowances. They say that probably in America flies are large and their bite causes instant death; therefore, Americans have formed the habit of killing all the flies they see. But another proof that Americans are stark, raving mad is that they open their windows at night and let in the deadly night air, which every German peasant knows is poisonous. They say that, according to American soldiers, it is one of President Wilson's fourteen points that all Germans must have their windows open at night. Some think this proves that the Americans want to kill the Germans off with consumption; others think it shows that Wilson is as mad as the rest of the Americans.

Looking After the Children's Eyes

Several weeks of long winter evenings are ahead of us. With the use of artificial light, it is a trying time for the eyes. If slight defects already exist, a dim or unsteady light will greatly aggravate the situation. This is particularly true among children, whose vitality and power of resistance is much lower than grown ups. Inflamed lids, styes, headache and watery eyes are almost sure indications of some sort of eye trouble. If your child has trouble with his eyes, bring him in and let us examine his eyes.

Busier Telephone Lines

The number of telephones in the province has been increasing rapidly of late, and naturally, particularly in the cities, there is more telephoning. With many more users, it is no wonder that telephones are more often in use. This may be one of the reasons why Central says, "Line's busy," more often than formerly. Remember it is easier and more convenient for Central to complete than to tell you the line is busy.

Ancient History

News Items and Comment Which Appeared in The Sun for the Corresponding Week Eighteen Years Ago

Get your runners and sleighbelles. Saturday morning winter came off the mountains, where it has been threatening us so long, and from all appearances it proposes to abide with us for some time.

Under the tutorship of Principal G. A. MacLeod, the pupils attending the Columbia public school have made good progress, and the average attendance has been forty, over fifty being present at times.

G E. McCarter. of the Gazette, was married on Wednesday to a daughter of Mr. Barnes. the dairyman They took the evening train for Spokane.

Dr. Kingston, who was recently appointed city physician of Grand Forks, has moved his office to the Johnson block on First street.

Last night ye editor with a large number of other citizens of Columbia and Grand Forks enjoyed a ride over the Republic Graud Forks railway to Nelson, Wash The arrival of the train at that point was signalized by bonfires and the booming of cannons. Three observation cars—usnally termed flat cars—with benches arranged along the center of each, made it comfortable for the passengers, and the run up was in about 25 minutes.

It is said that one of the prominent excursionists last night, in his hurry to catch the train, got into a drummer's coat when he left the Yale, and during the trip lost something valuable from one of the pockets. The drummer was lucky to get his coat again, and he should feel as the preacher felt when he examiaed the collection hat and found nothing in it. He thanked the audience for returning his hat.

It only takes three things to make an ideal city official: Good business judgment, moral backbone and a determination not to be the tool for the special interest of any one faction. These are the qualities to look for.

A war cloud hung over one of the Columbia hotels the other day. The combattants were the cook and the proprietor. Both appealed to law Justice Hay finally arranged an armistice, and peace reigns.

Old Sol shed his benign rays through the rifts in the clouds on Wednesday and reminded us that "behind a frowning providence He hides a smiling face"

Those engaged in building at this season of the year should consider that Providence has been kind to them in providing against storm hindrances Fred Cooper says that five years ago Thanksgiving night the thermometer registered 25 degrees below zero.

Constable McMullin was up on Monday to relieve Officer I. A. Dinsmore till he gets better of a rheumatic attack.

W. Wastell is preparing to move his family to Wisconsin

W. H Dinsmore, the tailor, will move over to Columbia as soon as his new house is completed

A. L. Clements, who has been enjoying a long furlough, returned Saturday and is on duty again at the C. P R depot offices in Columbia as local agent

PERFECT ATTENDANCE

The following pupils of the Grand Forks Public School were neither late nor absent during the month of November:

PRINCIPAL'S CLASS

Nellie Allan, Clifford Brown, Raymond Brown, Clara Brunner, Kenneth Campbell, Fred Cooper, Anna Crosby, Clarence Donaldson, Ruth Eureby, Irene Frankovitch, Eunice Hill, Charlotte Luscombe, Lawrence McKinnon, Jack Miller, James Needham, Boyd Nichols, Jeannette Reaburn, William Serebneff.

DIVISION II.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink. loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

Sheet music, vocal and instrumental, 15 cents, at the Singer Store.

10 CENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

SNAP

The Coryell Residence

This is an eight-roomed house in excellent state of repair, situated on the outskirts of the city, being Lot 7, Block 5, and comprising abont 4 acres of finest cultivated land.

We consider this property worth $3000 easily.

Today it is offered for $1700.

For further particulars see **JAS. H. RYLEY, Davis Block, or GEO. C. EGG, Manager for Hugh W. Robertson.**

Thoughtful Willian

"William," snapped the dear lady, viciously, "didn't I hear the clock strike two as you came in?"

"You did, my dear." It started to strike ten, but I stopped it to keep it from waking you up."

HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations.

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

Those wishing neat sign painting to ornament their business places should call on W. P. O'Connor, a returned soldier.

YOU ARE IN GOOD COMPANY WHEN ADVERVTISE IN THE GRAND FORKS SUN

MR. BUSINESS MAN, have you ever thought that advertising puts you in good company? It is an old saying that a man is known by the company he keeps. When you join the ranks of the advertisers you join the ranks of the biggest and most successful merchants and manufacturers in the world.

How many large concerns can you name in any large city in the country? Name them and you will notice that all are big advertisers and all are leaders in their lines. Ask your friends to name the most successful merchants they know in the big cities, and in each case the name of a great advertiser will be mentioned.

The same rule is true of smaller cities and towns. The successful merchants are the advertisers. The advertiser stamps himself as one having confidence in himself and his wares, as one proud of his calling and seeking publicity and the test of patronage.

News of the City

Some parts of the province are "still" wet, while in other sections the people depend on the drug stores for their liquid refreshments.

W. M. DeCew, formerly engeged gaged in the sawmill industry here, arrived in the city today from the northern part of the province for a short visit.

A. S. McKim will read a paper on "Dairying" at the Farmers' institute meeting in the court house tomorrow night.

The old post office building on First street is being fitted up for the accommodation of the district poultry show next Thursday and Friday.

Ben Norris left Tuesday night for a ten days' vacation trip to the coast cities. He considered this an opportune time to take his vacation, as the amputation of a portion of one of his fingers by a saw in his box factory last week has rendered him useless in that industrial institution for the present.

Intelligence received in this city from Vancouver this week states that John McLaren, late foreman of public road construction in this district, suffered a paralytic stroke this week. The report did not say how serious the attack was. It was at first reported that W. B. Cochrane, formerly police magistrate here, had been the victim of a similar attack, but this report proved to be erroneous.

The board of railway commissioners held a meeting in Vancouver last week and issued permission to the C.P.R. to close its station at Phoenix and to discontinue the train service to that camp. The board also issued an order compelling the Great Northern railway to put on a through freight service between Keremeos and Vancouver and to give passengers from Keremeos o Vancouver the facility of purchasing through tickets between the two points.

For Sale—Fresh milch cow. Inquire or C. N Mardon, Danville, Wash.

After the show have a hot drink or a warm lunch at Cagnon & Scheer's Billiard Rooms before going home.

You can not reach The Sun's numerous readers except through its advertising columns.

END STOMACH TROUBLE, GASES OR DYSPEPSIA

"Pape's Diapepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, sour stomach disorder caused by fermentation or acidity.

Its Owner

A short-sighted old gentleman was visiting a flower show, and as he could not get close enough to read a notice which explained the identity of a certain plant, an attendant came to his assistance.

The old gentleman appeared very much obliged and, after bowing half a dozen times to the man, said:

"My good man, does this belong to the odontum variegatum species?"

The man in the uniform began to look disgusted and, straightening himself into a haughty attitude, replied:

"Of course not; it belongs to the corporation!"

"How's your husband getting on, Mrs. Fogarty?"

"Well, sometimes he's better an' sometimes he's worse, but from the way he growls an' takes on whin he's better, Oi think he's better whin he's worse."

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

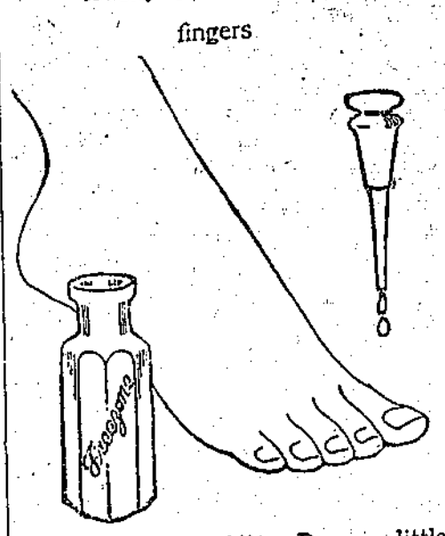
Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers



Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Visible at Last

Strolling along the quays of New York harbor, an Irishman came across the wooden barricade which is placed around the enclosure where immigrants suspected of suffering from contagious diseases are isolate.

"Phwat's this boarding fo?" he inquired of a bystander.

"Oh," was the reply, "that is to keep out fever and things like that, you know."

"Indade!" said Pat. "Oi've often heard of the board of health, but, bejaggers, it's the first time Oi've seen it!"

LAND REGISTRY ACT

Re Lot 14, Block 11, Map 28, City of Grand Forks

NOTICE is hereby given that I shall at the expiration of one month from the date of the first publication hereof issue a Certificate of Indefeasible Title to the above mentioned lands in the name of Ernest Vaut, unless in the meantime valid objection is made to me in writing. The holder of following documents relating to the said lands, namely:

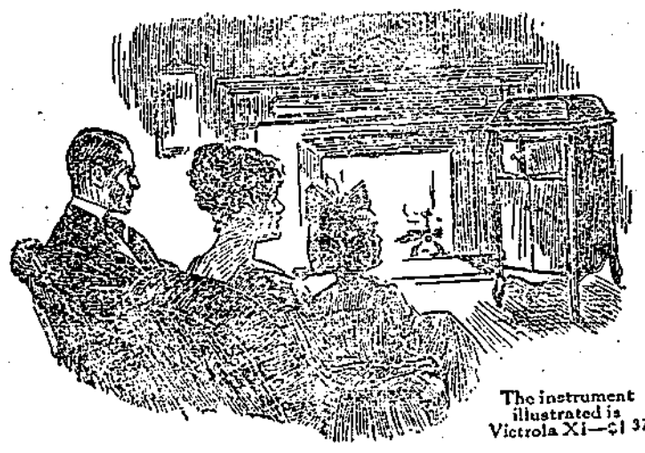
Deed dated 13th May, 1897, John A. Manly and Lloyd A. Manly to Stephen Yardley Wootton to the use of John A. Manly and G. W. Averill of said Lot 14 (inter alia);

Deed dated 7th January, 1901, John A. Manly and G. W. Averill to Charles K. Simpson of said Lot 14, and Deed dated 7th January, 1901, Charles K. Simpson to George H. Rutherford, of said Lot 14,

is required to deliver same to me forthwith.

Dated at the Land Registry Office, Kamloops, this 12th day of November, 1919.

H. V. CRAIG,
District Registrar.



The instrument illustrated is Victrola XI—$137

Gather 'round the Victrola these winter evenings—

—Gather 'round with Caruso and Farrar, Kreisler and Padcrewski, John McCormack and Alma Gluck, Harry Lauder and Nora Bayes, Sousa and Victor Herbert, or any others of the great host of Victor artists. Have them sing for you, play for you, laugh with you, right in the warmth and comfort of your own home.

You know full well that "going out" for pleasure and entertainment is an expensive matter. You owe it to your own pocketbook to compare the high cost of going out with our convenient and easy terms on Victrolas. We can suit you in a Victrola, $21 to $400, and make sure that you'll never miss the money.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

LAND REGISTRY ACT

Re Lots 9 and 10, Block 22, in a subdivision of part of District Lot 534, roup 1, Osoyoos Division of Yale District, Map No. 36.

WHEREAS proof of loss has been filed in my office of a certain Conveyance dated 1st June, 1897, Edward Ruckle and Francis Ruckle to Lloyd A. Manly and Richard McCarren of (inter alia) Lots 9 and 10. Also Conveyance dated 2nd May, 1898, Richard McCarreen to Lloyd A. Manly of his undivided one-half interest in Lots 9 and 10, (inter alia).

Also a Conveyance dated 19th November, 1898, Lloyd A. Manly to Richard Armstrong, of Lots 9 and 10, (inter alia).

Notice is hereby given that at the expiration of one (1) month from date hereof I will issue an Indefeasible title to the said lands.

The holders of the said documents or any of them are hereby required to deliver same to me forthwith.

Land Registry Office, Kamloops, B. C., November 5th, 1919.

H. V. CRAIG,
District Registrar of Titles.
