FIFTEENTH YEAR—No. 8

GRAND FORKS, B. C., FRIDAY, DECEMBER 31, 1915

\$1.00 PER YEAR

MEETING OF CITY COUNCIL

Mayor Gaw and Ald. Bickerton, Bontnon, Manly, McCallum and Smith were present at the regular meeting of the city council on Monday evening.

A letter from the executive of the Union of B. C. Municipalities, regarding a proposed change in the statutes whereby municipalities would be empowered to issue certificates for delinquent taxes, was received and ordered filed.

A communication from the secretary of the school board stated that the term of office of two of the trustees would expire with the present year. The vacancies to be filled would both be for a term of two years.

The city clerk made a report regarding the sale of city lots to J. McNevin.

A number of accounts were ordered to be paid.

All the aldermen and the city clerk heartily thanked the mayor for the presentation of Christmas turkeys. Mayor Gaw stated that it had given him a great deal of pleasure to make the presentations to the members of the council as a mark of the respect he entertained for them, inasmuch as his dealings with them during the past year had been pleasant and harmonious.

The chairman of the board of works reported that the city team was still employed on the fill across the North Fork. He had not yet made any arrangements for a new harness for the team.

The chairman of the health and relief committee reported that the relief work of the city had not increased since the last meeting.

The chairman of the water and light committee stated that there had been no expenditures in his department during the past year that could possibly have been avoided. He advocated linking up the water connection on Water street between the Great Northern station and Mr. Campbell's residence, as the main on Winnipeg avenue was showing evidences of weakness in spots. If an accident should occur to the Winnipeg avenue pipe, the people of the entire West end would have their water supply for domestic use and fire protection. The pipe for the Water street connection should be ordered now for April delivery; and, as very little money had been expended on the electrical system during the year, it would also be advisable to order some supplies for this branch of his department.

On motion of Ald. McCallum and Manly, the clerk was empowered to order for spring delivery enough 4-inch pipe to make the connection in the water system on Water street between the East and West wards, and also to purchase the required electrical supplies.

Ald. Bickerton asked what the additional expense would be having two polling places instead of one in the forthcoming municipal election. The practice in past years of having but one poll in the city hall was a great inconvenience to the people of the West ward. The clerk stated that the expense of the election would be increased by about \$30.

Ald. Bonthron favored one polling place in a more central location than the city hall. Ald. McCallum said he had also been requested by the people of the West ward to endeavor to secure a polling place in the ward. The absence of one was especially inconvenient to the railway employees, who did not have the time to go down to the city hall to vote. He suggested that a second poll be held in the West ward fire hall. Ald. Manly and Ald. Smith offered no serious objections to this, but they thought a large number of voters in the West ward would be inconvenienced by having to go to the fire hall to vote. The matter was finally disposed of by the council deciding to have but one polling place, and that it be held in the basement of the public school building. John A. Hutton was appointed returning officer, and J. B. Tuttle, Wm. Frakes, P. H. Donaldson, Leo Mader and T. A. Wright were named as deputies.

CONDITIONS IN INDIA DESCRIBED

"Christmas in India and Some By-products of the Gospel There" was the theme of an interesting address by Miss L. M. Jones, in the Baptist church last Sunday night. That gospel life and liberty are increasing in the great purifying factors in the British empire is her firm conviction. Not long ago the lieutenant governor of Bengal declared that Christian missionaries have done more lasting good to the people of India than all other agencies combined. This fact Miss Jones emphasized in her citation of a number of striking contrasts between the intellectual, moral and spiritual stagnation, superstition and suffering of India's millions a century ago and the vastly improved social and economic condition of the people there today. From her seven years' experience among the Telugus of India and as the head of the Ramachandrapuram high cast girls' school, and associated with Miss Hatch in her leper hospital and other work, Miss Jones had many interesting things to tell. "What is the secret of India's splendid loyalty to the British in the present struggle?" she asked. "Is it the presence of the soldiers among the people? No. Rather of the soldiers of Christ and of their evangelistic, educational, medical and other missionary work. There has been the abolition of the cruel practices in which all widows were burned alive with the bodies of their husbands, and of widow slavery, and the rapid improvement of the marriage laws and customs. Wandering at will over the country were 250,000 lepers, concealing their scourge, yet corrupting the people. Now there are about fifty asylums and hospitals where these sufferers freely receive skilled treatment and loving Christian care." Christmas, birthday and marriage celebrations and customs in India were compared with those of our land. Miss Jones left on Monday for Vancouver, where she, in company with Rev. W. S. Tedford and Dr. Hulet, will take passage for India on the Empress of Japan.

The Christmas season was fittingly observed at the Methodist church on Sunday last. The morning service was in charge of the Senior choir. In the evening familiar Christmas hymns were sung, and in addition to the customary order of service, a long list of musical items were given. The subject of the pastor's evening address was "A.D. 1 vs. A.D. 1915." The church was suitably decorated.

NEW MINISTERS WILL BE OPPOSED

At a Liberal convention in Vancouver Tuesday night M. A. Macdonald, president of the Provincial Liberal association of British Columbia, was given the unanimous nomination to oppose Hon. C. E. Tisdall, who has been appointed minister of works in the Bowser cabinet.

The probability is that Hon. Lorne A. Campbell, appointed minister of mines, will be opposed by Mayor Willson, of Rossland. That H. C. Brewster, leader of the Liberal party in the province, will be the nominee to oppose A. C. Flumerfelt, who has been given the post of finance minister, is a foregone conclusion.

GOOD WORK OF BOARD OF TRADE

Editor Grand Forks Sun:

The annual meeting of the Grand Forks board of trade was held on Friday, the 17th inst., and although over fifty post cards were sent out to the members, only twelve attended. The apathy of many of the business and professional men of the city, and of the ranchers of the valley, towards the work of the board of trade is extremely discouraging to those who are doing what they can for the benefit of the city and the surrounding country. Permit me to state briefly what the board has done during the past year; and I think that after reading these few facts you will feel that the Grand Forks board of trade is deserving of more encouragement and support than it has received during the past year. Rural free delivery was taken up with the post office officials in 1914, and is an accomplished fact in 1915. In 1914 Mr. Rive, chief dairy instructor of the provincial government, was invited here by the board, and he gave a most interesting and instructive address, in the board rooms, which was listened to by many of the ranchers of the valley and others. The matter of stocking the North Fork and Christina lake with trout was taken up by the board with the provincial fisheries department, and in consequence many thousands of fry and fingerlings have been planted in those waters. By the efforts of the board a mining expert was sent by the provincial government to report on the Franklin mining camp. The reduction of the train service in May, 1914, to three trains a week each way was taken up with the C.P.R. officials, and owing to the efforts of this and other boards the daily service was resumed within one week. A luncheon was given to Mr. Bury, general manager of the C.P.R., and friendly relations were then established between the C.P.R. and the city. The prompt manner in which the C.P.R. acceded to the request of the board a few months ago that the daily ser-

vice be resumed is evidence of this. Specimens of ore were collected by the board and sent to the Panama-Pacific exposition. Owing to the efforts of the board the evaporating plant was induced to start work here, whereby the ranchers have been able to dispose of some 2000 tons of potatoes and other vegetables, and many of them have obtained daily work at the evaporating plant. I think your readers will agree with me that this is a most creditable showing, considering the lack of interest shown in and the small financial support given to the Grand Forks board of trade. An other disheartening fact is that only one rancher in the valley was a member of the board of trade last year; yet the work done by the board has been for the benefit of the rancher in many cases. I trust that the coming year may see a more generous support accorded to this board.—F. R. S. BARLEE, Secretary.

ANNUAL MEETING OF INSTITUTE

The annual meeting of the Grand Forks Farmers' Institute was held in the board of trade rooms on Tuesday evening last. There was a large attendance and a great deal of business was transacted. The following officers were elected for the coming year:

President, James Little; vice-president, H. W. Collins; secretary, A. S. McKim; directors, C. C. Heaven, A. Schmitter, H. A. C. Baker, E. F. Laws, R. Mann.

The next meeting will be held in the board of trade rooms on Saturday, January 8, at 7 p.m.

CHRISTMAS CHEER

An interesting cantata with good music and dialogue was given by the members of the Methodist Sunday school last night in the opera house. Its title, "Foxy Santa," had been well chosen, his elusive personality escaping once again behind a stuffed counterfeit of himself to the delight of the orphans' home, where the whole scene took place. He was ably assisted by Jack Frost, the Snow Queen and her fairies, Santa's military band, Miss Mary and her orphans, and six young people who started the project in order to give the orphans a happy Christmas. Fifteen musical numbers were rendered, all of which were well worth hearing. The following was the cast of characters: Santa Claus.....Arnold Carter Jack Frost.....H. Nelson Miss Mary.....Miss Marjorie Mann Snow Queen.....Miss Phila Dinsmore Postman.....Douglas Carter The above were assisted by six senior scholars, ten snow fairies, ten orphans, Santa's military band, three little brothers of Jack Frost, and six tots. A pleasing feature of the entertainment was the fairy star and bell drill given by sixteen young ladies.

It is reported that the Kettle Valley railway will begin carrying mail next week between Midway and Penticton.

GOOD MILITARY ENTERTAINMENT

Although success had been confidently anticipated, the military concert promoted by the officers and men of the local company of Independent Rifles exceeded expectations. The opera house was crowded by the friends and well wishers of the unit and to judge by the demand for encores, the audience appeared to thoroughly enjoy the novel "terms" figuring in the program.

The stage was made up to represent one of those camp scenes which unfortunately figure largely along the whole front of our Empire "far from battle line." To the left of the stage a tent was pitched and around it the men disported themselves in true army style. The tableau of John Bull—H. A. Sheads—inspecting his forces was a decided hit, as was also the call to arms and the exciting charge that followed. The physical drill with rifles, by six men of the company was cheered to the echo and the cavalry sword exercise by Sergeant Major Barker, late of the Royal Artillery, removed all doubts as to how the flanks were protected during the retreat from Mons.

The boys were fortunate in securing the assistance of Miss Mudge and Miss Meikle, and the former's plaintive song of "Your King and Country Need You" and the latter's recitations very acceptably augmented the program. Others who took an active part were Sergeants Cave, Hadden and Private Daly. The whole concluded with a tableau representing "John Bull" receiving a message from the trenches for more men and the latter's suggestion that the contents be communicated to the audience was ably acted upon by Capt. Kirk, who in a short serious speech complained to his hearers the necessity of every man able to do so, coming forward and placing his services at the disposal of his country. He concluded his remarks by the recitation, "The Call of the Yukon," which he thought might aptly be entitled "The Call of the War God."

Ernest Lane and family arrived in the city yesterday from Coleman for a two weeks' visit with friends. Mr. Lane was formerly chief electrician at the Granby smelter. After his visit here he will go to Trail, where he has secured a position with the Consolidated company.

The Christmas entertainment of Knox Presbyterian Sunday school was held in the Empress theatre Wednesday, December 22. A good program was given by the children. The theatre was crowded and everybody had a good time.

A fire in the O. K. Bakery on Sunday, the 19th inst., damaged the building to the extent of about \$200. The prompt response of the fire brigade saved the building from total destruction.

Tom and Jerry will not receive again until next Christmas.

It is reported that the Trail smelter has bought the Emma mine.

CHEW "PAY ROLL" TOBACCO

A BRIGHT TOBACCO OF THE FINEST QUALITY

10 CENTS PER PLUG

Elevator Men Will Give Scholarship

Enter Heartily Into Scheme of Saskatchewan Government to Spread Better Farming Methods

Considerable interest was aroused, and possibly a little amusement afforded the much instructed farmer by the trip made by business men and bankers to North Dakota last year to inquire into the system of better farming, which had been introduced into that state through county or field agents paid for by the business men of the state for a period of three years, and now taken over by the government of the state, though it had at first refused to take an interest in the scheme.

When the business men and bankers returned after their trip, they were quite enthusiastic over what they had seen and were prepared to put up some money for similar work in the Canadian west, particularly in Manitoba.

They started to work out the details of a plan whereby the business interests would contribute large sums for this purpose and the work would be done in conjunction with the department of agriculture. The Manitoba government, however, when approached, stated that they themselves had been studying this problem and had decided to undertake practically the same work. As the ultimate object of the business men's proposition was to get the various provincial governments to take over all the work, there was no use in their interfering when they found that the Manitoba government was already prepared to do the same work. In passing, it might be remarked that the Manitoba provincial government has proceeded to the extent of the appointment of five field agents who are to be the inception of a comprehensive system.

The province of Saskatchewan decided to adopt the North Dakota system, with only such changes as would be necessary to meet local conditions, and they are proceeding with the installation of a number of field agents, and they hope to extend the system as rapidly as good men can be secured. It means that the provincial government of Saskatchewan is prepared to do all it possibly can to stimulate good farming and bring practical methods of the same home to the adult farmers without calling on the business community for any financial assistance. There is nothing of the nature of charity or spoon feeding about the Saskatchewan proposition, as before the government will appoint a field agent, the municipality, which is the unit through which this work is to be done, must first appropriate \$1,200 a year of its own funds to help in meeting the expenses of the work. It is figured that this will be about 50 per cent. of the first year's expenses. It is a fixed sum, the idea being that any increases of expenditure from year to year will be met by the province rather than the municipality, though there must be some future adjustment of this scheme.

Saskatchewan has put ten men into as many municipalities this year and next year hopes to put 25 and the third year 40 agents. Of course, the immediate work of the agents is to bring better farming methods to the adult farmer, but it has been recognized in North Dakota, and is being recognized in Saskatchewan, that, after all, the best hope of better farming methods is with the growing boys and girls, and very much of the time and attention of the field agents will be devoted to work among the boys' and girls' clubs and the getting up of contests, school fairs and similar work.

It is in connection with this part of the work that the Saskatchewan government thought it well to enlist a little of the enthusiasm and desire to help which had been aroused in the men of the business community who made the trip to North Dakota. The province of Saskatchewan felt that, having provided a first-class agricultural college where the tuition is almost free and board and lodging supplied at the actual cost, they could not go further, but decided to see what the business men were prepared to do in this matter. As early as last June, Harry Thompson, chief weed inspector, was sent to Winnipeg to interview the business men and ask what they would be willing to do in the way of subscribing funds for a series of scholarships which would be offered to boys and girls in the municipalities where there were field agents appointed. Almost the first place that Mr. Thompson visited was the Grain Exchange, and he found that it was not necessary for him to go any further.

The scheme which he had outlined, when looked over by one or two prominent members of the exchange, appealed to them strongly, and they undertook to raise the entire amount required. They talked it over and decided that the people who should contribute for this work in Saskatchewan were the line elevator companies with head offices at Winnipeg, who were operating lines of country elevators in the province of Saskatchewan. The whole matter

has been kept very quiet, until now, when the scheme is complete and 29 elevator companies are contributing \$1,000 this year, will contribute \$2,500 next year and \$4,000 the following year for scholarships to be competed for under the following rules:

1. Limited to municipalities employing agricultural secretaries who have undertaken numerous definite competitions for boys and girls.
2. All competitions to be held and premiums awarded at a municipal schools fair. Judges for the fair to be supplied free by the department of agriculture, Regina, or the College of Agriculture, Saskatoon.
3. Limited to pupils between the ages of 12 and 18 years.
4. Each contestant must enter in five different competitions.

Note—The following competitions are suggested as appropriate for the schools fair:

- Livestock judging.
- Best halter broken colt.
- Grain judging.
- Identification of plants and seeds.
- Collection of 50 plants and seeds.
- Best exhibit of grain grown under certain specified conditions.
- Best ten ears of corn grown under certain specified conditions.
- Best 3 sheaves, 12 stalks each.
- Best peck of potatoes.
- Collective exhibit, four kinds of vegetables from school garden.
- Flower display from school garden.
- Best pair of crate fattened spring chickens.
- Three one-pound prints of butter.
- Three loaves of bread.
- Girls' sewing competition work, one buttonhole.
- Three-minute address on any agricultural subject.
- Composition of 300 words.

Maximum number of points for each of these to be 100.

Rule 5. Each contestant must write a composition of not more than 300 words upon one of the competitions in which he enters. This composition to be submitted to the department of agriculture, Regina, after the schools fair, together with the total scores made by the boys and girls in the various competitions, on the basis of which the final decision as to the winner of the scholarship will be given.

Rule 6. The agricultural secretary may select from above the competitions which may be suitable to his conditions and may add to his list such other competitions as may meet with the approval of the department of agriculture.

Rule 7.—One month previous to the dates of the school fair, the agricultural secretary to submit to the department of agriculture an outline of the program for the schools fair, giving the number of competitions which are proposed.

Rule 8. Scholarship to be awarded to the pupil making the highest total score.

After the scholarships have been decided in the various municipalities, the money will be deposited as follows:

The sum of \$100 to the joint account of the person winning the scholarship and the dean of the College of Agriculture, Saskatoon.

Of this amount \$50 to be withdrawn when winner registers at the College of Agriculture, Saskatoon, for the first year of the regular associate or domestic science course.

The balance to be withdrawable when said winner registers at the college for the second year of the associate or domestic science course.

The first portion of the scholarship will be available any time within four years from the first of December in the year in which it was won.

The person winning the scholarship in a municipality will not be eligible to again compete for the scholarship.

The general outline of the scholarship and the schools fair has met with the generous approval of the agricultural secretaries, whose work was sufficiently in hand to warrant them accepting the scholarship. In this connection, it is of interest to know that the following rural municipalities have prepared school fairs this fall:

Sutton, Dr. E. Ferris; Bone Creek, J. W. Wilkinson; Chester, A. Berrett; Big Stick, J. B. Hassett; Sliding Hills, William Thompson; Mount Hope, T. E. Van Son; Lost River, J. M. Pratt; Douglass, G. E. Ewart, B.S.A.; Mervin, J. Falconer; Colonsay, N. Nelson.

In each case the name given is that of the agricultural secretary of the municipality.

On November 1 of each year the department of agriculture will publish in all the daily papers in Saskatchewan a list of winners of the scholarships in the various municipalities, together with their post-office addresses and such other information of a general nature as may be of interest; a marked copy to be sent to each donor.

On receipt of this information the donors will deposit with the department of agriculture the sum of \$100 for each scholarship, which the said department of agriculture will de-

posit to the joint account of the winner and the dean of the College of Agriculture, Saskatoon; this deposit to be made in the savings department of such chartered bank as may be most convenient to the winner.

The dean of the College of Agriculture and the deputy minister of agriculture to act as a committee to decide any points not covered above and not incompatible with the spirit and the meaning of the agreement.

Each bank in which scholarships have been deposited shall furnish to the department of agriculture on request a statement as to the standing of each account on the first of January of each year.

Line elevator companies with headquarters in Winnipeg operating country elevators in Saskatchewan and who are contributing to the Saskatchewan government scholarships: Atlas Elevator Co., Dawlf Grain Co., British America Elevator Co., British Empire Grain Co., Canadian Elevator Co., Central Grain Co., Dominion Elevator Co., Home Grain Co., Imperial Elevator Co., International Elevator Co., Lake of the Woods Milling Co., Maple Leaf Milling Co., S. W. McLaughlin & Co., McLaughlin & Ellis, National Elevator Co., Northern Elevator Co., North Star Grain Co., Ogilvie Flour Mills Co., Reliance Grain Co., Saskatchewan Elevator Co., Saskatchewan & Western Elevator Co., Security Elevator Co., Standard Elevator Co., State Elevator Co., Turner Elevator Co., Western Elevator Co., Western Canada Flour Mills Co., Winnipeg Elevator Co.—Free Press.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

The Pacific coast is honoring a new record maker in the trapshooting field. He is P. H. O'Brien, who, at a recent tournament in Portland, Ore., his home town, shooting Nitro Club shells, broke two hundred and forty targets consecutively, without a miss or "straight," as they say at the traps. This score included the breaking of two hundred "straight" and winning the regular program's main event. Mr. O'Brien's brilliant shooting sets a new mark for the coast.

THE HEART.

How It Acts In Everyday Life.

The human heart, in a healthy man weighs but eleven ounces. It beats from long before birth until death, in an average lifetime, about seven million times, allowing seventy beats to the minute. Every twenty-four hours this slight organ performs labor equivalent to lifting a ton of material eighty feet into the air. If the blood becomes poor, and filled with poisons from diseased kidneys, the heart is not only starved, but poisoned as well. It soon becomes exhausted and unable to meet any extraordinary demand which may be made upon it. Supply pure blood; get the kidneys to working; tone up the feeble stomach! Dr. Pierce's Golden Medical Discovery purifies the blood, relieves the kidneys and tones up the alimentary canal. Give the heart the food it needs and it will continue to work till the natural end of life.

Berlin, Ont.—"I have used Dr. Pierce's medicines and found them to give perfect satisfaction. I had a stroke and got very bad. The doctor said I had no blood, my heart got very weak. I finally quit the doctor and began taking Dr. Pierce's Golden Medical Discovery and Favorite Prescription. When I had taken about five bottles I commenced to notice a marked improvement, and in about one year and a half I was alright, could do my own work. I really think these remedies saved my life as I was in very bad condition."

"I have used 'Pleasant Pellets' in my home for several years and have found them to be good. We keep them in the house all the time. I think I owe my good health of today to Dr. Pierce's medicines."—Mrs. HENRY HARMER, 51 Victoria St.

The modern improvement in pills—Dr. Pierce's Pleasant Pellets. They help Nature, instead of fighting with her. Sick and nervous headache, biliousness, costiveness, and all derangements of the liver, stomach and bowels are relieved, prevented, cured.

Information and Education

To appreciate what newspapers mean to a country we have only to look at Russia. Before the war the Russian people, taken as a mass, did not read them. Now they are being urged to start a state paper not only to give the news, but as a "means of popular education." People here sometimes do not recognize that papers are teaching them modern history, as well as many other things.—New York Tribune.

Increase in Butter Output

Saskatchewan Government Creameries Show Some Rapid Gains

The following table shows the very satisfactory increase in the production of butter at the Co-Operative Creameries in Saskatchewan operated by the dairy branch, department of agriculture, for the summer months of the past three years:

Month.	1913.	1914.	1915.
May	30,957	139,567	153,103
June	169,066	215,339	314,927
July	254,321	323,778	514,998
August	156,919	204,394	353,407
September	120,722	170,264	303,337

791,985 1,053,342 1,639,772

It will be noticed by these figures that the output for the five summer months of 1915 shows a gain of 55 per cent. over the same period of last year and a gain of 107 per cent. over the same period of 1913, which indicates a remarkably steady growth.

This butter has all found a ready sale at figures considerably above the market price, on account of its uniform quality and the excellent reputation gained for Saskatchewan government butter.

Dairy Commission Willson reports that he has lately been obliged to refuse several carload orders as he is desirous of retaining a supply to meet the local demand. This would indicate that there is practically an unlimited market for the right kind of butter.

So much is said and written at this time about the grain crop of the province, that the importance of the dairy industry is liable to be overlooked. A comparison of the two branches of farming, however, shows that dairying is making far more rapid gains than is being made in grain crops. Statistics show that the acreage in grain crops this year amounted to 10,543,795 compared with 9,682,125 in 1913 and 9,912,464 acres in 1914, a percentage gain of 8.9 per cent. over 1913 and 6.3 per cent. over 1914, so gains of 55 per cent. and 107 per cent. in dairy products compares very favorably.

Applications for new creameries are coming from all parts of the province, so it would look as if the farmers are beginning to realize that dairying is the most stable and one of the most profitable branches of farming possible.

For Belgian Relief

Britain Faces Big Task of Caring for Them During the Winter

Inaugurating the committee of the city of London, which has been appointed to raise funds for the relief of Belgium, the Lord Mayor announced that the British committee had raised \$5,000,000 with which the American commission had purchased food, distributing it among the Belgians who remained in that country.

Lord Curzon, who was one of the chief speakers, said that this money had been exhausted and that it was necessary to raise \$4,250,000 monthly to feed the people during the winter. He pointed out that Germany was doing nothing for the relief of the inhabitants of the devastated country, and added: "If we win this war, and we hope and trust we will, every penny of indemnity which may be exacted should be handed over to Belgium for the recovery of the country."

Sir John Simon, secretary for home affairs paid a tribute to the American commission of which Herbert C. Hoover is chairman. "We know," he said, "that Hoover's fund is being wisely and economically administered, without at the same time assisting our enemies."

Minard's Liniment Co., Limited.

Gents.—A customer of ours cured a very bad case of distemper in a valuable horse by the use of MINARD'S LINIMENT.

Yours truly,
VILANDIE FRERES.

Britain's Predominance on the Seas Great Britain's determination to maintain predominance on the sea is indicated by the latest Lloyd's Register of Shipping. On September 30, 432 vessels of 1,536,177 tons were under construction in the United Kingdom, not including vessels under 100 tons.

The tonnage now under construction is nearly 30,000 tons more than that in hand at the end of the last quarter, but 187,000 tons less than the tonnage building twelve months ago.

One vessel being built exceeds 40,000 tons, and another to be built between 20,000 and 40,000 tons.

Indignant Politician—Why didn't you print all of my speech?

Country Editor—Well, to tell the truth, sir, we ran clean out of capital 'T's."

Straw Shed for Cattle

Construction of Straw Sheds Very Simple and Inexpensive

A stable that will protect from cold weather and storms may be constructed with little expense when straw is plentiful. Each cow, if to be fed, needs about fifty square feet of floor space to allow for manure, feed alley, place for her to stand, and room to get behind her for milking, cleaning, etc. Young stock will need about half as much space. A barn 16x90 feet or one 32x45, will furnish room enough for twenty cows and a head of young stock. A straw shed for cattle should be seven or eight feet high. The construction of such buildings is very simple. Posts are usually set in the ground eight to twelve feet apart, and strong timbers put on top of these with poles close enough together to carry the straw on top of the timbers. Walls are constructed by making two walls two or more feet apart, and packing with straw. These walls may be made of poles, boards or woven wire, as desired.

Hogs will require from ten to fifteen square feet of floor space each in a straw shed. Fifty hogs will require a shed about 20x30 feet in size. It is better to keep the hogs in a separate building from the cattle. The shed for hogs need not be more than four or five feet high. It is advisable to make the walls tight, using woven wire, or something equally good, so the hogs will not work out through the wall.

WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Cape Wolfe, Canada.—"Last March I was a complete wreck. I had given up all hope of getting better or living any length of time, as I was such a sufferer from female troubles. But I took Lydia E. Pinkham's Vegetable Compound, and today I am in good health and have a pair of twin boys two months old and growing finely. I surprised doctors and neighbors for they all know what a wreck I was."

"Now I am healthy, happy and hearty, and owe it all to Lydia E. Pinkham's remedies. You may publish this letter if you like. I think if more women used your remedies they would have better health."—Mrs. J. T. Cook, Lot No. 7, Cape Wolfe, P.E.I., Canada.

Because your case is a difficult one, and doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of women—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

Canada's Exports Exceed Imports

The balance of Canadian trade is being rapidly adjusted as a result of heavy exports of munitions and war supplies. The ratio at the end of August covering the first twelve months of the war stood at \$599,549,154, representing total exports and \$538,286,326 representing imports. For 1914 the total exports were \$488,643,591, and total imports \$575,664,462.

For the first year the total exports of merchandise were \$504,810,462, and imports of merchandise were \$415,813,955. The aggregate of customs duties in the first year of the war was \$78,857,044, a decrease of \$16,000,000. In exports the increases were distributed as follows: Manufacturers, \$58,000,000; animal products, \$22,000,000; forest products, \$3,000,000; fisheries, \$1,000,000, and miscellaneous, \$2,000,000. Exports of minerals fell away \$4,000,000, and agricultural produce \$50,000,000.

Greece gained its independence in 1830, when it was declared a kingdom under the protection of Great Britain, France and Russia.

USIT MANUFACTURING COMPANY, Limited
476 Roncesvalles Avenue, Toronto

Count the click of the wheels on one rail (because joints alternate) for twenty seconds, and the result will be the miles per hour the train is running. There are 176 thirty-foot rails in 5,280 feet. The train, say, is travelling at forty-five miles per hour. It covers 125.5 rails in one minute, or 2.25 rails in one second, which multiplied by twenty, equals forty-five rails in twenty seconds, or forty-five miles per hour.

WE PAY HIGHEST PRICES FOR RAW FURS

"Hallam's Trappers Guide" English or French, 10 pages tells how and where to trap and other valuable information for the trapper. "Raw Fur Price List" "Fur Style Book" of beautiful fur notes and patterns, also "Trappers and Sportsmen's Supply Catalog" Guns, Traps, Animal Darts, Fish Nets, etc., at lowest prices, all illustrated. FOR ALL KIDNEY DISEASES
GRAVEL, RHEUMATISM, BRIGHT'S DISEASE, DIABETES, ETC.
NUMBER 23 THE PRO

W. N. U. 1078

Humanity Over All

In days of old, when knights were bold, And ignorance held full sway; The records of the past unfold How men went forth their kind to slay. But times have changed; the world has gained In knowledge, justice and good will. At last it seemed peace was attained By nations far and wide. No ill Seemed brooding o'er the oceans wide. When, lo, a spark flashed into flame A dreadful war; and on each side Thousands will die, but not for fame. Destruction goes on night and day, And millions have no country now; No homes, no food, all in dismay. Mankind's anguish at savage blow To travellers on their way abroad— Men, women, children, babes in arms, Have been engulfed beneath the flood. What means this madness? War's alarms Have filled the world with death and woe. Even neutrals have to suffer, too. Its time that right was might. Go thou Help feed the hungry, cheer the sick, Raise up the fallen and the weak. Some day a wave of sympathy May grip the hearts of all mankind— And love and peace all nations bind. —C.C.C. Chisholm.

CHILDHOOD CONSTIPATION

Baby's Own Tablets will promptly cure constipation of childhood. They act as a gentle laxative, regulate the bowels and stomach and are absolutely safe. Concerning them Mrs. A. Crowell, Sandy Cove, N.S., writes: "I can strongly recommend Baby's Own Tablets to all mothers whose little ones are suffering from constipation." The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Winter Fairs

It has been decided by the board of managers that the winter fairs at Regina and Saskatoon will be held as usual this season. The dates have been set for the second and third weeks of March, 1916, the Regina fair to be held during the second week and the Saskatoon fair during the third week of the month. P. F. Bredt, the new live stock commissioner, was appointed secretary, taking the place of J. C. Smith, resigned on account of enlisting for active service.

No fair will be held at Brandon the coming winter, owing to the conditions still existing which prevented the fair being held last winter. It has been decided, however, to hold a cat show, at which boys under sixteen years of age will exhibit stock which they have taken special interest in raising. Calgary Winter Fair will be held on Dec. 14-17.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honest in all business transactions and financially able to carry out any obligations made by him.

NATIONAL BANK OF COMMERCE, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

The Geographical Board of Trade of Canada has notified the Lethbridge Board of Trade that the name of Belly river has been permanently changed to that of Old Man river. The board of trade had appealed to have the name changed to that of Lethbridge river.

Minard's Liniment Cures Burns, Etc.

British submarines have now cleared the Baltic Sea and the Gulf of Bothnia entirely of German merchant ships, says a despatch to the Star from Copenhagen. Every German ship which was southbound from Sweden when the submarines started their campaign has either been sunk or run aground, it adds.

Of fifty German ore carriers, 37 are virtually interned in Swedish ports, the correspondent declares.

How French Artillery Is Fed With Shells

One Munition Factory Turns Out 5,000 Shells and Many Aerial Motors a Day

The unremitting French artillery attack proceeding along the whole front is made possible by equally unremitting and intensive effort in the production of projectiles in works which are working regularly twenty-four hours a day.

One of these great establishments near Paris, visited by an Associated Press representative by official permission, makes more than 5,000 shells and a number of aeroplane motors a day. The works visited produced six hundred automobiles annually before the war. It was, like other modern industries, arranged so that material taken in at one end followed a regular progression until it came out at the other a finished car. The order of operations was different in shell making, so it was necessary to displace and rearrange five thousand machines, install many new ones and, at the same time, find hands to replace a thousand mechanics.

So formidable a task would have seemed before the war to be the work of a year, but it was accomplished in a few weeks, and the works were made ready to turn out daily thousands of parts of rifles and bayonets in addition to high power flying machine motors and shells. In a few days the shell production will have been doubled, while the flying corps will continue to receive a goodly number of new machines monthly from this factory.

Women, old, young and middle-aged, are working there in the places of husbands, fathers, sons and brothers at the front. Projectiles and rifle parts are given the precision of a chronometer, and every operation is supervised and the result verified before it goes on to the next hand.

The finished shell must not only stand a high hydraulic pressure, but it must give the proper ring. An expert in steel, isolated from the clang and hum of the factory in an almost hermetically-sealed hut, taps each shell as it is sent into him on a little trolley. Those which give out the proper ring are sent on, while the others go to the scrap heap. This is the final trial before loading. Shrapnel bullets are placed in the core of the shell by young girls, whose work is fully up to that of trained arsenal workers.

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach suspends healthy action the result is manifold disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than Parlee's Vegetable Pills. Thousands can attest the virtue of these pills in curing nervous disorders.

Animal Diseases Costly

It is estimated that the United States has already expended over \$1,500,000 in fighting foot-and-mouth disease, and it has not yet been exterminated. While this amount seems large and yet when compared with the aggregate losses from other contagious diseases of animals it is not so astonishing.

It is estimated that Texas fever causes a loss of \$40,000,000 a year. The government has been spending large sums of money fighting the fever tick which causes the disease, but the greatest loss is to the Southern States, which because of quarantine are excluded from the markets of the north for several months each year. Tuberculosis of livestock comes next with a loss of \$25,000,000; contagious abortion, \$20,000,000; anthrax, \$1,500,000; scabies of sheep and cattle, \$1,600,000; blackleg, \$6,000,000; glanders, \$5,000,000; parasites, \$7,000,000; poultry diseases, \$8,750,000; other diseases of live stock \$22,000,000, making a grand total of over \$200,000,000 lost to breeders and dealers in live stock every year.

FEED CHILDREN

On Properly Selected Food—It Pays Big Dividends

If parents will give just a little intelligent thought to the feeding of their children the difference in the health of the little folks will pay, many times over, for the small trouble.

A mother writes: "Our children are all so much better and stronger than they ever were before we made a change in the character of the food. We have quit using potatoes three times a day with coffee and so much meat."

"Now we give the little folks some fruit, either fresh, stewed, or canned, some Grape-Nuts with cream, occasionally some soft boiled eggs, and some Postum for breakfast and supper. Then for dinner they have some meat and vegetables."

"It would be hard to fully describe the change in the children, they have grown so sturdy and strong, and we attribute this change to the food elements that I understand, exist in Grape-Nuts and Postum."

"A short time ago my baby was teething and had a great deal of stomach and bowel trouble. Nothing seemed to agree with him until I tried Grape-Nuts softened and mixed with rich milk and he improved rapidly and got sturdy and well."

"There's a Reason." Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

The Syrup of a Hundred Uses

Of course, "Crown Brand" is your favorite Table Syrup. Of course, you enjoy its delicious, appetizing flavor with Bread, Pancakes and Hot Biscuits. But what about "Crown Brand" in the kitchen? Do you use

EDWARDSBURG "CROWN BRAND" CORN SYRUP

for Gingerbread, Cookies, Cakes, Pies and Sweet Sauces for all kinds of Puddings? Do you always use it for Candy-making? Try it in all these ways. You'll find "Crown Brand" Corn Syrup handy, convenient, economical, dependable, good.

"LILA WHITE" is just what its name implies—a clear corn syrup—more delicate in flavor than "Crown Brand", that is equally good for the table and for candy-making.

Time and Trial Prove

the unequalled value of Beecham's Pills as the best corrective of ailments of the digestive organs so common—and the best preventive of lasting and serious sickness so often resulting from defective or irregular action of the stomach, liver or bowels.

Beecham's Pills

have a great record. For over half a century they have been used with entire satisfaction in thousands of homes. A few doses will prove to you that you can find prompt relief from the headaches, depression of spirits and general no-food feelings caused by indigestion or biliousness. Try them, and you will know what it is to have at your command such

An Invaluable Aid to Health

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U. S. America. In boxes, 25 cents.

A Few Don't's

What Next to do for Good Health in Winter

Don't poison yourself with tainted air by staying in poorly ventilated, overheated, crowded, foul-smelling, places. Fresh air does not cause pneumonia or any other disease, but is necessary for good health in winter as well as in summer.

Don't injure your health and lower your vitality by over-eating, or excesses of any kind. Good general health, maintained at a high standard by right living, is the best possible safeguard against pneumonia or any other germ diseases.

Don't indulge to excess in alcoholic liquors. Those who become addicted to alcohol reduce their resistance to pneumonia and increase the liability of death from it.

Don't sleep with the bedroom windows closed. Night air is purer than day air; it contains less dust and fewer germs.

Don't permit direct draughts to blow on you, whether in bed or not.

Don't sit around with wet feet or in wet clothing.

Don't permit anyone who has pneumonia to pass it on to you. Treat pneumonia as a "catching" disease.—Pennsylvania Health Bulletin.

Could Hardly Live for Asthma.—Writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

An old Scotch woman was famous for speaking kindly. No sheep was so dark but she could discover some white spot to point out to those who could see only its blackness. One day a gossiping neighbor lost patience with her, and said, angrily: "Woman, ye'll hae a guid word to say for the deevil himself!" Instantly came the reply: "Weel, he's a vera industrious body."

Billeting System Aids Recruiting

Indications point to the success of the new system of billeting soldiers where they are raised as an incentive to rural recruiting.

The first town to report is Leask, Saskatchewan, which has enlisted 25 and guarantees 50 men.

Halliburton, Ont., the population of which is only 800, has raised the necessary twenty men to ensure their being quartered there for the winter.

It is the intention of the militia department to assign non-commissioned officers to each locality so that training may go ahead systematically.

Corns are caused by pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Halloway's Corn Cure is available.

For setting a mouse trap use bread soaked in linseed oil. Mice cannot resist linseed oil.

Note Your Increase in Weight

By making the blood rich and red Dr. Chase's Nerve Food forms new cells and tissues and nourishes the starved nerves back to health and vigor. By noting your increase in weight while using it you can prove positively the benefit being derived from this great food cure.

50 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Dr. Chase's Nerve Food

PUPILS' STANDING IN PUBLIC SCHOOL

The following is the list of pupils, in order of merit, as determined by tests during November and December:

DIVISION I—PRINCIPAL'S CLASS.

Earl King	Frances Sloan
Annie Anderson	Blair Cochran
Holger Peterson	Margaret Graham
Sarah McCallum	Violet Walker
Reggie Hull	Lily Ardiel
Edith Larsen	Kathleen O'Connor
Kathleen Kerby	Anna Beran
James Lyden	Pearl Bryenton
Ruby Smith	Abram Mooyboer
Gladys Latham	Agnes Stafford
Fred Barlee	Uvo Wells
Tommy Reaburn	Ada Lennon
Laurena Nichols	Murrel Galloway
Ed McIlwaine	Viola Pell
Gwen McIlwaine	Hattie Gaw
Mildred Hutton	Fritz Schliehe
Marie Barnum	Helen Peterson
Frank Hufty	

DIVISION II

Junior 4th, A.	Hope Benson
Willfred Brown	Lillian Kelleher
George Cooper	Joseph Beran
Bernard Crosby	Ruby Keeling
Donald Laws	Junior 4th, B.
Mary Cooper	Lydia Kelleher
Loretta Lyden	Gwen Humphreys
Rosa Peterson	Brenda Humphreys
Dorothy Burns	Cecilia Lyden
Helen Campbell	Muriel Spraggett
Garibaldi Bruno	Lizzena Irving
Aurora Barum	Vernon Forrester
Any Heaven	Bernice Kennedy
Ethel Wright	Francis Fritz
Earl Kelleher	

DIVISION III

Junior 4th, B.	Corena Harkness
Maud Cunningham	Isabelie Glaspell
Vernon Smith	Rose Truxler
Ambrose McKinnon	Gladys Bryenton
Ewing McCallum	Lottie Peterson
Helen Masie	Ray Forrester
Edith Coryell	Aleeta Miffois
Robert O'Connell	Alice Galipeau
Vernon Siddall	Alfred Eowney
Harold Fair	Peter Miller
Gordon Murray	George Meikle
Margaret Michener	Jennie Miller
Any Murray	Edward Potentier
Senior 3rd A.	Antoinette Schliehe
Morris Baineson	

DIVISION IV

Senior 3rd B.	Christopher Pell
Harold King	Guner Lindgreen
Eloise Stafford	Fred Wiseman
Margaret Fowler	Norma Erickson
Kenneth McCardle	Gladys McLaughlan
Charles Bishop	Lenore Crounaut
Cecelia Crosby	Sam Erickson
Howard DeCew	Teddie Cooper
Jeannette Reburn	Junior 3rd A.
George Hodgson	Nellie Miller
Harry Kelleher	Helen Simpson
Randolph Davis	Walton Young
Isabel Bowen	Emile Painton
Joseph Rowlandson	Ellen Harkness
Roid McKie	Willie Sprinthall
Boyd Nichols	Fred Trimble
Walter Larsen	Grace Wiseman
Denis O'Connor	Jack Brau

DIVISION V

Junior 3rd A.	Mary Beran
Jennie Stanfield	Grace Green
Tannis Barlee	Orville Baker
Bertha Fracass	Theima Hutton
Frances Latham	Flora McDonald
Any Peckham	Dean Kennedy
Peter Peterson	Coryl Campbell
Charlie Cooper	Clara Brunner
Margery Keron	Frances U'Ren
Emma Irving	William Grenier
May Crosby	Mary Miller
Esther Anderson	Nicholas Skrebneff
Junior 3rd B	Lavina Crowder
Blanche Kennedy	Reginald Heaven
Oswald Walker	Dorothy Meikle
Lillian Hull	Percy Stacy
William Nelson	David McDonald
John Meinel	Grace Graham

DIVISION VI

Senior 2nd.	Freddy Cooper
Harry Dmytryk	Chow Fung
Willie Skrebneff	Kenneth Campbell
Mark Truxler	Annie Crosby
Clarence Hoover	Veryl Steeves

Melville Hoover	Pearl Brau
Law McKinnon	Clarence Donaldson
Jimmie Neenham	Alphonse Galipeau
Arthur Bryenton	Alberta McLeod
Leo Mills	Cornie Burdon
Leona U'Ren	Margaret Bruno
Leonia Reed	Vera Lyden
Harold Quinlivan	Lizzie Gordon
Roger Molt	John Lane

Big jobs habitually postponed until tomorrow are never undertaken.

YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

John Wanamaker says in Judicious Advertising: "Advertising doesn't jerk; it pulls. It begins very gently at first, but the pull is steady. It increases day by day and year by year, until it exerts an irresistible power."

The Sun, at \$1 a year, is superior to any \$2 a year paper printed in the Boundary. This is the reason why we do not have to resort to gambling schemes to gain new subscribers or to hold those we already have.

HIGHEST CASH PRICES paid for old Stoves and Ranges. E. C. Peckham, Second-hand Store.

FOR RENT—HOUSES

GOOD five-room house; two blocks from post office. Apply this office.

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of

THE GRAND FORKS SUN

Is to leave your business unprotected.

A WORD TO THE PUBLIC:

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than continue to be a customer of the shop which never solicits your good-will, you need have no compunction of conscience.

A Prosperous Area

We are in receipt of very favorable advices from the southern interior of this province. All over the Boundary, Okanagan and Kootenay districts the crops have been exceptionally good. There is very great mining activity. The demand from the prairies for lumber has led to the opening of numerous logging camps, and the mills are all starting up. There are no idle men, but on the contrary some of the mill-men are complaining of a shortage of labor. Our correspondent, who has covered some hundreds of miles during the past week or ten days, says, "It looks as if southern British Columbia would have a splendid fall and winter."

—Victoria Colonist.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.

Saskatchewan Live Stock Distribution

Under the Live Stock Purchase and Sale Act, the provincial department of agriculture of Saskatchewan distributed a total of 280 head of cattle to farmers this summer. P. F. Bredt, acting live stock commissioner, was in charge of the buying. On account of the advance in cheese prices it was difficult to buy Holstein cattle in Ontario at right prices, consequently many head of Shorthorns were purchased at an average price of \$85.

An amendment to the above act last spring made it possible for the department to distribute bulls on a quarter cash basis. As a result of this about 70 bulls were distributed as compared with 24 last year. A big demand now prevails for bulls, and these will possibly be purchased throughout the west this winter. Some of the districts receiving cattle this year were Kerrobert, Rush Lake, Debden and Eldred districts, north of Shellbrook, and Wadena.

The remains of an amphitheatre famous during the reign of Nero, have been discovered at Pozzuoli near Naples, and already the first row of seats has been uncovered from the volcanic deposits under which the whole is buried. The amphitheatre is 490 feet long and 200 feet wide.

Tommy L.—That's a top-hole pipe, Jerry. Where'd you get it?

Tommy H.—One of them German Oolans tried to take me prisoner, and I inherited it from him.

WHAT MOTHERS NEED

Too many women struggle under pains and aches. They are not sick—but weak, nervous, irritable.

Such women need that blood-strength that comes by taking SCOTT'S EMULSION. It also strengthens the nerves, aids the appetite and checks the decline.

If wife or mother tire easily or look run down, SCOTT'S EMULSION will build her up.

SHUN SUBSTITUTES.

W. N. U. 1078

Waste in Burning Straw

Soils Greatly Benefitted by Fertilizing Elements in the Straw

From the time the prairies were first cultivated up to a year or so ago it was the general custom to burn the piles of straw which dotted the fields after the fall threshing. In fact it is yet a very common practice and a very wasteful one.

It is an established fact that organic matter is essential for soil fertility. No one disputes the fact that our prairie soils are already rich in this essential but in many sections the soils would be greatly benefited by the addition of the fertilizing constituents which are present in the straw.

Hopkins, of Illinois, gives the value of cut straw for manure purposes at \$2.30 per ton. Wheat straw valued at \$2.58 per ton. The same relative comparison gives the value of fresh farm manure at \$2.22 and barnyard manure at \$2.34 per ton. Any one who destroys a ton of wheat or oat straw, therefore, destroys more fertilizing elements than are contained in the average farm yard manure.

The best method of handling straw is to feed it to stock and return the manure to the land. Thus it serves a double purpose—fodder and manure. When fed to horses or cattle on a maintenance ration or those doing comparatively little work, oat straw is condensed by Hoard's Dairyman to be from one-half to two-thirds the value of good clover and timothy hay. The manure from one ton of wheat straw is worth \$1.52 and that from a ton of oat straw is worth \$2.34. Thus the wastefulness of burning straw is evident.

Where sufficient live stock is not kept, however, to use all of the straw in this way, the straw can be returned directly to the land. It may be spread and plowed under or used as a top dressing on grain or pasture.

ALL MOTHERS NEED
CONSTANT STRENGTHTheir Strength is Taxed and
They are Victims of Weak-
ness and Suffering

When there is a growing family to care for and the mother falls ill it is a serious matter. Many mothers who are on the go from morning to night, whose work, apparently, is never done, try to disguise their suffering and keep up an appearance of cheerfulness before their family. Only themselves know how they are distressed by backaches and headaches, dragging down pains and nervous weakness; how their nights are often sleepless, and they arise to a new day's work tired, depressed and quite unrefreshed. Such women should know that their sufferings are usually due to lack of good nourishing blood. They should know that the one thing they need above all others to give them new health and strength, is rich, red blood, and that among all medicines there is none can equal Dr. Williams' Pink Pills for their blood-making, health-restoring qualities. Every suffering woman, every woman with a home and family to care for should give these pills a fair trial, for they will keep her in health and strength and make her work easy. Mrs. G. Strasser, Acton West, Ont., says: "I am the mother of three children, and after each birth I became terribly run down; I had weak, thin blood, always felt tired, and unable to do my household work. After the birth of my third child I seemed to be worse, and was very badly run down. I was advised to take Dr. Williams' Pink Pills. I found the greatest benefit from the pills and soon gained my old time strength. Indeed, after taking them I felt as well as in my girlhood, and could take pleasure in my work. I also used Baby's Own Tablets for my little ones and have found them a splendid medicine for childhood ailments."

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Big Cattle Industry

In connection with the offer of the Canadian government to supply France and Great Britain with beef, one of the most interesting enterprises in the history of Western Canada is about to be launched. It is proposed to utilize the Vermilion Valley in Alberta, east of Edmonton, where millions of tons of the very finest kind of grasses have been going to waste every year to grow and fatten cattle for the British and continental trade.

The scheme is being supported by the Alberta and Dominion governments and a large number of the foremost and wealthiest stockmen of Ontario are taking an interest in it. Half a million acres of land have been secured for the purpose. It is not intended to start big ranches but small ones which will be stocked and maintained under experienced cattle men.

Minard's Liniment for sale everywhere.

A small special constable when on top of a tramcar was requested by the conductor to come down to deal with a man who was inclined to be abusive. Reluctantly the special constable complied with the request, but found himself confronted by a huge, navy about six feet six inches high and four broad.

"There he is," said the conductor, "He won't pay his fare."

The small special constable reflected, and then remarked: "Well, I suppose I must pay it for him."

E M MOONEY'S
BISCUITS

ONE TIRED WOMAN AND ONE LITTLE OVEN

You have probably been there yourself—perhaps are right now.

Bright women all over Canada are getting away from this. They welcome MOONEY'S BISCUITS as a most acceptable substitute for their own bread and biscuits.

The Agricultural Commission

An order-in-council has been issued by Dominion commission to investigate agricultural problems. The personnel of this commission has not yet been announced. This action of the government is a result of the conference held in Winnipeg last November between representatives of the western grain growers and manufacturers, after which a joint memorandum was prepared asking for the appointment of the commission. It is gratifying to see that, not only have the manufacturers and farmers decided to forget their differences, but that they have also been able to combine in advocating a common policy which is apparently sound enough to recommend itself to the Dominion government. This much has been accomplished but the ultimate benefit which will be derived will be determined by the character of the men who are appointed to the commission. We trust that these appointments will not be conferred as rewards for professional politicians but will be given to men who understand agricultural conditions and who are willing to devote unlimited time and energy to the problems before them.—Industrial Canada.

Minard's Liniment Cures Dandruff.

Country life is dying in America because of the drudgery of the farmer and the loneliness of his wife, according to William E. Smythe, of San Francisco, talking to the International Frigation congress in Stockholm, Cal. To substantiate his statement he cited statistics to show that between 1900 and 1910 the country population increased only 4 per cent, while the increase of population in the cities was 40 per cent.

Comets in War Time

The curious are noting that in the past four centuries various great comets have been visible in the Russian dominions only eleven times, and that each time such an appearance has coincided with great wars in which Russia has been engaged. The only exceptions to the rule that a bright comet has been plainly visible every time Russia has been at war for four centuries were the Turkish campaign in 1877 and the war with Japan, though in the latter case a faint comet became visible in January, 1904.

Delavant's comet, recently discovered, keeps up the tradition and corresponds in some respects very nearly to the comet of 1812, the year of Russia's last great national war against the "twelve tribes of Europe" under Napoleon. The present comet will remain visible for about the same period of the year as the comet of 1812.

Minard's Liniment Relieves Neuralgia.

The general was inspecting a regiment just about to depart for new quarters. He asked a young subaltern what would be his next order if he was in command of a regiment passing over a plain in a hostile country, and he found his front blocked by artillery a brigade of cavalry on his right flank and a morass on his left, while his retreat was cut off by a large body of infantry.

"Halt! Order arms, ground arms, kneel down, say your prayers!" replied the subaltern.

NEWS OF THE CITY

The first anniversary of the junior choir of the Methodist church will be observed on Sunday next, January 2. Throughout the year, under the able leadership of Arnold Carter, the choir has supplied the music for the Sunday morning services to the satisfaction of all. On Sunday, as a special anniversary feature, the choir will be in evidence at both morning and evening services, when special musical selections will be given in keeping with the important event. Miss Vera Reid will preside at the piano and Douglas Carter at the organ. Rev. J. D. Hobden will preach at both services.

During the week beginning January 2nd, and in concert with the World's Evangelical Alliance, the Protestant churches of Grand Forks will unite in special private and public prayer and intercession, with services as follows: Sunday, in all the churches; Monday, in the Presbyterian church; Tuesday, in the Methodist church; Wednesday, in the Episcopal church; Thursday, in the Baptist church. Sunday services at the usual hours, and also at 8 p.m. Brief addresses appropriate to the occasion will be delivered by one of the ministers at each service; and, in view of these days of conflict, so sad and solemn, all Christians are invited and urged to respond to this call to prayer by their presence in silent or audible supplication at these meetings.

The municipal voters' list, just issued from The Sun job office, contains 571 names in the two wards of the city. This is an increase of sixteen names over last year's list. In the supplementary list of voters in the school district outside the city limits, there is a slight decrease, owing to the fact that the boundaries of the district have been contracted.

Sunday at 11 a.m. and 7:30 p.m. New Year's services with special intercessory prayer will be held in the Baptist church. Two great questions from morning text, "How Old Art Thou?" evening, "Is the World Growing Better?" Searchlights will be thrown on the situation from inspired prophecy, also from ten of the world's best men of today in as many walks of life, a concise and comprehensive view of things as they are will be sought.

New Year's services in Presbyterian church Sunday, January 2: Morning, 11 a.m., subject, "The Need of Finding God"; evening, 7:30 p.m., "The

Eternal Choice." Young people of the congregation are urged to be present. Strangers cordially invited.

The men of the Independent Company of Rifles wish to thank the citizens most heartily for the plum pudding, pies, cakes, and numerous other good things to eat, sent them for their Christmas dinner.

The splendid Christmas cantata, "Foxy Santa," was given by the members and friends of the Methodist Sunday school last night in the opera house. There was lots of good music and humorous dialogue. The hall was crowded and everybody had an enjoyable time.

Dad BugBee, of the Imperial, received of box apples from Michigan as a Christmas present. The box contained one—Jonathan apple. He has had the gift photographed, and will have it framed for future reference.

Christmas night was celebrated at the Pacific hotel with a dance. A large number of friends of the proprietor and his family participated in the festivities.

Charles Hamilton, of the C.P.R., arrived in the city last Friday from Trail, and spent Christmas at the Pacific.

The curling rink was opened for the season on Friday evening, and a few days later the skating rink was thrown open to the public.

All the friends are invited to observe the coming union series of intercessory services as announced in this issue. Fuller announcements will be made at the Sunday services.

Miss Stark's kindergarten school will reopen at 9:30 a.m. on Monday, January 2.

The Ladies' Aid of the Methodist church will meet on Thursday afternoon next, January 6, at 3 o'clock, at the home of Mrs. E. E. W. Mills, Garden avenue.

J. H. Ryley is spending the Christmas holidays with his family at Queen's Bay.

Robert Newbauer has been appointed teacher of the Carson school.

MacDougall & MacDonald have received a large shipment of men's gloves, lined and unlined heavy working gloves; also dress gloves for evening wear. Prices from 85c to \$2.00 a pair.

FIVE "SYRUP OF FIGS"
TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 5-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

TENDER FOR WOOD

SEALED tenders will be received by the undersigned up to and including January the tenth, 1916, for supplying Fifty Cords of green wood (four-foot length), split fir or tamarack. Wood to be delivered at the School House, as and where directed. All tenders to state time of delivery, also from what land or person the wood is being obtained of.

The lowest or any tender not necessarily accepted.

All tenders to be addressed as follows:

Tender for Wood,
The Secretary School Board,
Grand Forks, B.C.
