SIXTEENTH YEAR—No. 17

GRAND FORKS, B. C., FRIDAY, FEBRUARY 23, 1917

\$1.00 PER YEAR

MINERAL OUTPUT OF BOUNDARY

Provincial Mineralogist Reports the Production for 1916

In his annual report to the minister of mines, Wm. Fleet Robertson, provincial mineralogist, writes as follows of the mining operations in the Boundary district during the year 1916:

The name "Boundary district" includes the following mining divisions: Greenwood, Grand Forks, Osoyoos, Similkameen, Nicola, Vernon, Kamloops, Ashcroft and Yale. Of these, the first three are the most important and each year from 40 to 50 per cent of the total tonnage of ore mined in the province comes from them. The largest individual shipper is the Granby company, with mines at Phoenix and a smelter at Grand Forks.

Ashcroft division has been the scene of considerable mining activity in the past year and promises well for the future. Similkameen division has also at least one big mining proposition under way, and should before long contribute a substantial yearly tonnage. All the other divisions have some mining and development work going on in them, and it seems quite probable that the Boundary district will, in the future, maintain its position as the largest tonnage producer in the province.

The large tonnage of ore from this district is largely made up of low-grade copper ore, and during the year this ore has been a little lower grade than ever before; the reason for this being that the high price of copper made it profitable to handle ore of such low grade which it would not pay to work at the normal price of copper. It is indeed noteworthy that some ore from the Granby company was handled at a profit from which was made a recovery of ten pounds of copper a ton and about 60 cents a ton in gold and silver. Similarly, the British Columbia Copper company handled much low grade ore.

The approximate output of the district is estimated to have been 1,693,550 tons, which gave: Gold, 82,731 oz.; silver, 316,128 oz.; copper, 16,618, 284 lbs.; lead, 9,422 lbs. As compared with 1915, these figures show an increase in tonnage and a slight decrease all round for the contained metals.

Grand Forks and Greenwood mining divisions:

Granby Consolidated Mining, Smelting and Power Company.—Approximate figures of production in 1916 from this company's group of mines at Phoenix are: Ore shipped, 1,001,500; metal produced: Gold, 29,182 oz.; silver 176,172 oz.; copper, 13,961,340 lbs. The output of ore was curtailed during the latter part of the year owing to a partial shut-down of the smelter, which was unable to get sufficient coke to run at full capacity, owing to labor troubles in the Crow's Nest coal field. No changes of importance were made at the mines or smelter,

everything running as in former years. The electric shovel was operated throughout the year for loading the ore.

British Columbia Copper Company.—This company operated steadily during 1916, and at the Greenwood smelter one furnace was in blast all year, and the second one during part of the time. The company draws its ore mainly from the Mother Lode mine and a little from two properties in the state of Washington. Some custom ore is also bought by the smelter. The production from the Mother Lode for the year is expected to be about 200,000 tons, containing 8000 oz. gold, 80,000 oz. silver, and 2,500,000 lbs. copper. These figures show an increase as compared with the year 1915.

Other Properties.—So far as is known, the Jewel gold mine and cyanide plant in Long Lake camp did not make any appreciable output, the mine being closed during most of the year. The Emma mine, in Summit camp, formerly controlled by the British Columbia Copper company, but now owned by the Consolidated company, was operated during the year and 14,000 tons of ore shipped to the Trail smelter. This ore carries a high percentage of iron and is valuable as a flux. Very little was done in the small properties surrounding Greenwood, but some further work was done in the Argo tunnel.

Granby River.—A few properties on Granby river, mostly in Franklin camp, were examined and some work done on them during the year. The most important mine again was the Union, which shipped some 261 tons to the Granby smelter. The Pathfinder also shipped some ore, but the amount is not known as yet. Several carloads of ore were sent to the Greenwood smelter from the Seattle property, near Bannock City.

West Kettle River.—On Wallace mountain, near Beaverdell, several properties were worked under lease and bond, and ore shipments were made via the Kettle Valley railway to the Trail smelter. The Bell was leased to Robert Perry, who shipped two cars of ore which are said to have returned very high values. The Sally was also worked under lease and some ore shipped. The Rob Roy, which is one of the claims in the Sally group, was bonded during the year and work is now being done on it. The Carmi mine and stamp mill at Carmi remained idle during the year, but another property near the Carmi was worked under lease and bond.

Suspended Sentence for One; Full Five Years for Another!

WINNIPEG, Feb. 16.—Hugh D. Lyons, accountant of the branch of the Canadian government immigration department here, who was arrested in Stockton, Cal., and confessed to the theft of \$15,000, which he lost in speculating in grain on the Winnipeg exchange, was given suspended sentence today.

John Gordon, who stole a few sacks of flour out of a freight car, was sentenced to five years in the penitentiary.

A dissertation on justice would be superfluous.

E. C. Hunt visited Nelson yesterday.

B.C.'S 1917 COPPER PRODUCTION

One Hundred Million Pounds Is Estimate Placed on the Product This Year

The copper production of British Columbia will exceed 100,000,000 pounds for this year, according to a statement prepared by Nicol Thompson, president of the Vancouver board of trade. At current settlement prices for copper the producers would receive a gross sum equal to the entire mineral output of the province in 1915, which was \$29,600,000 as compared with \$42,970,555 in 1916. The copper output in 1916 was more than 67,000,000 pounds.

Mr. Thompson has prepared for the provincial and Dominion authorities a long memorandum on the industry in general from the British standpoint.

The Gordon river ore is high grade and shows magnetic assays of 68 per cent metallic iron. Considerable development work has been done, and it is estimated that several million tons is actually block out on these claims. At Sechart on Barkley sound there is a good deposit of Bessemer iron ore traceable on the surface for approximately two miles and situated only one and one half miles from salt water. One claim is estimated to contain 2,000,000 tons of ore from 62 to 70 per cent metallic iron.

On Quatsino sound, also West coast, there is a large deposit of bog iron or limonite running from 48 to 50 per cent metallic iron. It has been estimated there are 10,000,000 tons of bog iron in these claims. It is a steam shovel proposition, and it is estimated that the ore can be mined and transported to nearest shipping harbor for 70 cents per ton.

Large deposits of magnetite are in the vicinity of Campbell lake. This ore assays 66.6 per cent metallic iron with slight traces of sulphur and phosphorus and absolutely free from titanium. Samples were submitted to Sheffield experts who pronounced it the best they had ever seen, and that it could be treated for eight shillings per ton less than the best Norwegian ores.

On Texada island is one of the largest deposits of magnetic iron in the province. It is high grade magnetite, assaying over 66 per cent metallic iron.

On Knight's inlet, Smith's Arm and Dean's channel, also on the Queen Charlotte islands, are found large deposits of magnetite iron, which some day will figure largely in the industrial development of the province.

At Copper river there is a hematite deposit, and it is estimated several million tons of red hematite assaying 52 per cent metallic iron are blocked out. Coal is found close to the deposit. The Grand Trunk Pacific had a survey made of a railway to tap this section. So far the best showing of hematite ore is found in the Chilcoteen district.

The best known deposit in the interior is that on Fenwick mountain known as the Bull river iron mines, a micaceous hematite assaying 60 per cent metallic iron.

There are deposits of iron at Deer Park on the Arrow lakes; also near Kamloops. In the Similkameen there are big deposits; also on Pit lake, and bog iron is found near Sumas and other points on the Fraser river. Beds of bog iron and limonite have been found near Harrison lake, but no reliable information is obtainable regarding their value.

Voigt Claims Sold?

E. Voigt, of Copper mountain, owner of valuable copper claims there and a pioneer mining man of the Similkameen, is in Penticton this week. According to a recent issue of the Star, of Princeton, Mr. Voigt, assisted by several lawyers, including Walter Clayton, of Penticton, is negotiating the sale of his Copper mountain holdings to a New York syndicate.

The Vancouver Province the other day published an interview with one of the members of the syndicate, who stated that the deal was a three million dollar transaction and that the development work to be carried on would mean the expenditure of another five or six millions on Copper mountain.

The Voigt properties, it must be remembered, have no connection with those of the British Columbia Copper company on Copper mountain. This company is also spending several millions in developing its holdings there, and will probably build large works there this year.

It is confidently believed that between the two concerns, Copper mountain will see the expenditure of at least ten million dollars within the next decade. This is putting it very conservatively, indeed.—Penticton Herald.

MINING BRIEFS

Herbert Young is promoting a local company for the construction of a 50-ton smelter in Franklin camp.

Hon. William Sloan, minister of mines, has ordered the expulsion of all Austrians and Germans from the British Columbia mines.

The Virginia Mining company, of Danville, Wash., which is now working the Lucile Dreyfus mine, is installing a crude oil compressor on its property.

A. H. Sweeney, foreman at the Lucile Dreyfus mine, near Danville, was in the city on Saturday. The shipments from this property now average two carloads per week, the ore going the Granby and Greenwood smelters.

British Columbia has been gaining momentum in a mining way for the past sixteen years, says the Industrial and Mining Age of New York city. With the success of the Granby, Canadian Consolidated, British Columbia Copper, Canada Copper, and Standard Silver-Lead, the province of British Columbia has not only attracted public attention, but has also drawn on the purses of the largest mining operators in America.

LOCAL GIRLS WIN MACLEAN CUP

Champions of the Boundary Ladies' Hockey League Won Final Game

The Grand Forks girls' hockey team won from the Phoenix girls at Phoenix last Friday night by a score of 3 to 0; the Phoenix Intermediates were victors, 4 to 1, and the Phoenix Junior won out by 2 to 1. The above were the final games of the schedule. The Grand Forks girls are the winners of the cup presented by Hon. J. D. MacLean. Phoenix won the Intermediate honors, and the Juniors of that town are on top in their league.

Farmers Organize New Provincial Association

James Rooke and J. T. Lawrence have returned from the annual meeting of the British Columbia Fruit Growers' association in Victoria. They were present at the organization meetings of the newly formed United Farmers of British Columbia association.

The new association has been organized for the purpose of placing the agricultural industry of the province upon a more secure basis and to act as a medium through which the many farmers' and fruit growers' organizations may meet on a common footing. It is believed that the organization will greatly improve conditions for the agriculturist by the proposed introduction of greater organization and co-operative effort in the production and marketing of produce, and that it will permit of a more solid front being presented on all questions vital to the welfare of the farmer.

It was the unanimous decision of the delegates that any element of politics should be eliminated and that the legislative efforts of the association should be directed toward the support of measures calculated to advance the education of the farmer along economic lines and to the support of candidates of the existing parties who would use their voice in the house to promote legislation of benefit to the industry. One of the features of the new organization will be the giving of full rights of membership to women.

METEOROLOGICAL

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Laws' ranch:

	Min.	Max.
Feb. 16—Friday.....	41	29

FRIDAY, FEBRUARY 23, 1917

The San Francisco Argonaut answers the query, "What can the United States do in the event of war between that country and Germany," in this way: "Very much can the United States do! She can stimulate the allied nations to new hopes and new energies. She can by her example and its inspirations bring the neutral countries of the earth to participation in a conflict for the preservation of humane standards of warfare. Coming down to a lower plane of action, she can fill the war chests and supply the arsenals of those who are fighting to sustain the liberties of the world. The American navy is no contemptible thing, and it can be a mighty aid in guarding the seas. Our fleet of approximately three score 'destroyers' could join actively in searching out the assassins of the sea. We are, indeed, lacking in preparation at many points, but we have many thousands of men of some military experience and we have the means of quickly drilling and despatching them to wherever their service may count. Our facilities for making and transporting munitions are of consequence. Unready as we are, we are still vastly more ready than was England in August, 1914. And with our incalculable resources and our unparalleled adaptability we could with a disconcerting swiftness make ourselves felt even in the very thick of the fight. If, as certain shallow critics would have it, we are an impotent nation, why the eagerness on the part of the countries involved in the war to enlist our sympathies and our aid? True, we are not a militant people. Our ideals are the ideals of peace. Our ambitions and our energies have long been exercised in peaceful spheres. But we are a people of abounding vitality. We have an accumulated and available wealth of unmeasured power. Enlisted as we shall be if the issue shall be forced upon us in a war for humanity and civilization, we shall make ourselves felt—and woe to him that shall misjudge us a nation of craven cowards!"

A recent dispatch from Victoria says that Hon. William Sloan has issued an order permitting the miners to have their ores assayed

free of charge at the government assay office in Victoria. It is presumed that this order applies to other mining districts in the province, although nothing is said to warrant anyone to take that inference for granted. If it does not, there appears to be ample grounds for civic organizations to work on in an effort to obtain the same treatment for their respective localities.

The only plausible explanation to the puzzle why the price of fish should have increased since the outbreak of the war, appears to be that their breeding places have been visited by the Hun submarines.

Many street fights could undoubtedly be avoided if the people who engage in them would wait for an "overt act."

One taste of success is better than a meal of defeat.

The man who is always right is always a nuisance.

The Sun, at \$1.00 per year, gives its readers three times more reading matter than any other Boundary paper. This fact accounts for the rapid increase in our circulation.

Besides being read by all the intelligent people of Grand Forks, The Sun goes to every ranch home in the Kettle and North Fork valleys. No other Boundary paper can give advertisers this guarantee.

SNAP--IF TAKEN AT ONCE

8-Room House and Two

Lots on Garden St.

Lots 100 feet by 300 feet deep; chicken coops, etc. Will sell cheap for quick sale. Will sell for less than half what it cost owner; \$1300 if sold soon. Will give time if needed. Is handy to school. Garden has good soil, and enough potatoes and vegetables can be raised for a large family. Would make an ideal home for a smelterman.

Terms—\$200 or \$300 cash; balance monthly payments of \$25 or \$30

U. S. Will Take Action Unless Paper Price is Cut

Washington, Feb. 20.—It is learned the administration threatens to take national emergency measures unless the news print paper manufacturers decrease the price. The threatened action of the government has resulted in the paper manufacturers suggesting that the federal trade commission arbitrate.

Secretary of the Treasury McAdoo presented the government's ultimatum following repeated conferences with President Wilson. McAdoo hinted the government might seize the paper mills and also the country's largest factories producing all commodities on account of the national emergency which has arisen. President Wilson believed the high price prevailing on paper was a virtual interference with the freedom of the press.

Ottawa, Feb. 20.—It is officially announced here this afternoon that the government has taken effective means to ensure supplies of paper to Canadian newspaper publishers.

Everyone who has visited France has been impressed with the wonderful spirit of the people. They have set themselves absolutely to the task of winning the war, and men and women of all ages and conditions are grimly doing their "bit." A recent example of the unconquerable spirit of France is shown in the action of Gen. Gerard Amanrich, a commander of the Legion of Honor, who had been retired from the ranks on account of old age, in rejoining the army as a private in an artillery regiment. The general is sixty-five years old, but is showing

his fellow-countrymen that age can not conquer his spirit.

John Ross Robertson, proprietor of the Toronto Telegram, is reported to have respectfully declined a knighthood. Sir Hugh Graham, proprietor of the Montreal Star, has gratefully accepted a peerage. The contrast will not hurt the owner of the Telegram. He is in good company with Mr. Lloyd George, Mr. Asquith, Mr. Balfour and Mr. Bonar Law.—Victoria Times.

Steadfast and Cheerful and True

Three cheers for the man who scorns to fall

On the rugged road of life;
Who means to reach the faraway goal

And conquer trouble and strife;
Whose only watchword is Persevere,
Mating with hope and content,
Who bangs not his head in sorrow and fear,
But looks to the firmament.

Three cheers for the man undaunted still,

When his heart is dark and drear,
Who gets to the front with a sturdy will

And a smile instead of a tear;
Who liveth not for himself alone,
But to succor and strengthen the weak,

Who looks on sorrows beyond his own
And is never afraid to speak.

Three cheers for the man who tries his best

And reckons not when something goes wrong;
Who bravely fights when he's put to the test,

Though the struggle be weary and long.

Three cheers for the worker on soil or sea,

Doing the little he can do,
Whose purpose in life is to act and be

Steadfast and cheerful and true.

SOUR, ACID STOMACHS GASES OR INDIGESTION

Each "Pape's Diapepsin" digests 3000 grains food, ending all stomach misery in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach remedy in the whole world and besides it is harmless. Put an end to stomach trouble forever by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder. It's the quickest, surest and most harmless stomach doctor in the world.

A Chance for Thrift

It is pointed out that an epicure at a sitting may eat, drink and smoke the equivalent of munitions to a startling amount; the follower of fashion may waste still more on dress; and yet a greater indictment can be levelled against luxurious indolence. A series of comparative values has been worked out broadly thus:

Ten shillings saved, say on feasting, equals 80 cartridges.

Bottle of champagne equals 100 cartridges.

Box of cigars equals 400 cartridges.

Lady's new hat equals four steel helmets.

New dress equals four service rifles.

Diamond tiara equals one field gun.

A motor car equals an aeroplane.

Piano equals 100 shells.

Lap dog equals 20 shells.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

ASTOUNDING REPORT FOR GRAND FORKS

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-i-ka benefited her INSTANTLY. Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICK-EST action of anything we ever sold. Woodland & Quinn, druggists.

COSTS LITTLE
Accomplishes Much

A two cent stamp does a lot for very little money, but it would require thousands of two cent stamps and personal letters to make your wants known, to as many people as a 25c. investment in our Classified Want Ads.

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost. Old Customers die or move away—they must be replaced. Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's. New customers to this community will shop with you—become regular customers—if they are invited to do so. Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of

THE GRAND FORKS SUN

Is to leave your business unprotected.

A WORD TO THE PUBLIC:

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than continue to be a customer of the shop which never solicits your good will, you need have no compunction of conscience.

Shop Where You Are Invited to Shop

The Easiest Way to Telephone is Best

It is important that you speak directly into the telephone!

The natural, conversational tone, spoken directly into the mouthpiece, carries clearly to any local telephone, and to most Long Distance points.

NEWS OF THE CITY

At the annual meeting of the Grand Forks Conservative association, held in the Davis hall last Saturday night, the following officers were elected: President, John McKie; first vice-president, Percy Harkness; second vice-president, Geo. E. Massie; secretary treasurer, H. L. Mackenzie; executive, C. M. Kingston, R. J. Gardner, Frank Scott, J. V. McDonald, J. Morrison, James Hutton, August Schnitter, Thomas Newby, W. F. Armstrong, Robert Mann, John Jacobs, T. Love, J. B. McLeod, E. Rawlinson.

The Girls' Sunshine club of Holy Trinity church on Friday evening last entertained their parents and friends to a supper and concert in the parish hall. About fifty guests sat down to a dainty collation at 7 o'clock. A program lasting an hour and a half was rendered, the principal number being an exemplification of the work of the club.

Mr. Secil, section foreman at Faron, is alleged to have been held up

on Sunday night last by a couple of men, who robbed him of \$30 and a bundle of blankets. The men, named J. O'Brien and E. Hanarahan, beat their way on a freight train to this city, and were again located riding on an ore car to Phoenix. At that point Constable Stewart was in waiting for them, and they were arrested and lodged in the provincial jail awaiting trial.

Theodore Kirkpatrick, aged two years and ten months, son of Mr. and Mrs. W. H. Kirkpatrick, died at the home of his parents in this city on Wednesday, the 21st inst. The funeral was held from the Methodist church at 2 o'clock this afternoon, interment being made in Evergreen cemetery.

Lieut. Donald McQuarrie is now in Gray's Inn hospital, England, according to a letter received from him by his father, M. R. McQuarrie, of Nelson, in which he states that his condition is steadily improving and that there were but three wounds in his face unhealed. He expects to regain the use of his voice.

Last Friday's Kettle Valley line train from the coast did not arrive in Grand Forks until after 5 o'clock Saturday morning. The train was coming by way of the Hope cut-off when it encountered a slide and had to return to Hope. From that point it was sent via Spence's Bridge.

The Kettle Valley Rifle association will hold its annual meeting on March 6.

In Phoenix, last Saturday night, thirty valuable birds were lost in a fire which destroyed the chicken

house of F. W. Frederick, bird fancier. The loss is estimated at several hundred dollars.

The annual meeting of the Grand Forks Liberal association will be held in the board of trade rooms at 8 o'clock next Wednesday evening, when officers for the current year will be elected.

A special service will be held at the Methodist church on Sunday evening, the 25th, at 7:30 o'clock, the pastor's subject being "Recent Events in Grand Forks," preceded by the song service at 7:15 p.m.

Mrs. (Rev.) J. D. Hobden returned home on Tuesday from New York, where she had landed from the steamship Rynddin, which returned to that city after starting for an English port.

A quantity of cull apples for sale at \$10 per ton. Also a stack of good red clover hay for sale. Apply Rbt. Lawson.

Seven or eight carloads of potatoes have been shipped south from this city during the past two weeks.

Rev. M. D. McKee attended the annual session of the Kootenay Presbytery in Nelson this week.

Miss Stella Donnan, of this city, has been appointed matron of the hospital in Penticton.

Rev. Father Pelletier visited Greenwood last Friday.

It is too bad that the editor of the Victoria Week is an exile from home through a desire to give advice to the militia department in particular and colonials generally. It is said he obtained his knowledge of tactics and strategy in the Nelson club—Hedley Gazette.

The Sun, at \$1 a year, is superior to any \$2 a year paper printed in the Boundary. This is the reason why we do not have to resort to gambling schemes to gain new subscribers or to hold those we already have.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

Miss Beatrice Brigden to Visit Grand Forks

Arrangements have been made for Miss Beatrice Brigden, A.C.S.E., of Brandon, to visit Grand Forks to conduct a series of meetings for girls, young women and mothers in the Methodist church, commencing on Sunday, March 4.

Miss Brigden works under the auspices of the department of social service and evangelism of the Methodist church, and reports of her work in other Kootenay towns are excellent. She is a graduate of Toronto Conservatory, an accomplished reader of great popularity, a teacher of expression, and has worked much with girls and women. She has also had thorough training in the study of physiology and sociology.

The announcement of Miss Brigden's visit to the city will be welcome to the girls and women of the district, and her meetings, afternoon and evening, will be open to all, irrespective of denomination. Fuller particulars will be given later.
