Kettle Valley Orchardist

17TH YEAR—No. 11

GRAND FORKS B. C., FRIDAY, JANUARY 11, 1918

\$1.00 PER YEAR

WILL DEVELOP THE PATHFINDER

Company Formed to Acquire Two North Fork Min- ing Properties

"The Pathfinder Consolidated Mining company has been incorporated to acquire the Pathfinder and the Little Bertha mines, with other crown-granted properties on Pathfinder mountain on the North Fork of the Kettle river and the Kettle Valley railroad, fourteen miles north of Grand Forks, B. C.," said J. W. Hays, president and treasurer, yesterday, according to last Sunday's Spokesman Review. "The resources are copper, gold and silver ores of a smelting grade contained in bodies of large dimensions, developed by several short shafts and tunnels.

A tunnel will be driven from the railroad tracks to tap the bodies at a depth of 1250 feet. The movement of ore from favorable outlets will proceed in the meantime. Shipments were made to Granby and Greenwood smelters in the early days of the properties, which were opened twenty years ago."

The capitalization of the company is \$200,000, divided into 2,000,000 shares. The board is composed of Mr. Hays, C. M. Kingston, M.D., vice president; A. A. Lewis, secretary; A. M. Petty, assistant secretary; F. H. Knight, A. E. Gallagher, G. Schnasse and W. K. C. Manly, residents of Spokane and Grand Forks. The properties lie on a mountain at the apex of which is the Pathfinder.

"The Little Bertha ore is a quartz carrying silver and gold, the values of which are about equal," said Mr. Hays. "The Pathfinder values are principally in gold and copper. Several hundred feet of shaft, tunnel and stope work have shown large bodies of ore having a general average value of \$7.50 to the ton. On this property is a good plant composed of an 80-horsepower boiler, seven-drill compressor, a hoist and a pump, machinery house, bunkhouse and other buildings. The Little Bertha property has several hundred feet of shaft, tunnels and stopes showing good, strong veins of gold-silver ore averaging \$20 to \$25 to the ton. There are some fair mining buildings and a gasoline hoist.

"By installing a tramway from each property the ore can be removed to the ore bunkers over the railroad very cheaply. There will be a much greater profit in handling this ore than when copper was around 15 and 16 cents a pound and silver around 50 and 52 cents. There are four smelters within a radius of fifty miles.

"The property is owned in fee simple by the Pathfinder company and is free from debt. It is said the Pathfinder mine was sold in London at \$250,000 at the same time as the Le Roi, but was forfeited because the initial payment was not made."

The Grand Forks Lumber company is getting out 3,000,000 feet of sawlogs in the North Fork country.

NEWS OF THE CITY

Frank M. Stevenson, a brakeman on the Canadian Pacific railway and well known in this city, was killed Tuesday morning near Porcupine. It is believed that he slipped while walking across the top of eastbound freight train No. 84 and fell to the ground, sustaining injuries to his head which resulted in his death. The body was taken to Nelson, and from there it was shipped to Lytton for burial. Stevenson is survived by a widow and two children, who live in Nelson.

During 1917 R. G. Ritchie, collector for the patriotic fund at Cascade, collected \$457.50 and turned the money over to the Grand Forks society.

The municipal election will be held in the city hall next Thursday. For mayor it looks at present as if Dr. Acres would be returned by acclamation. In the West ward there is no dearth of aldermanic candidates. Ald. McCullum and Ald. Harkness are in the field for re-election, and Charles Bickerton and F. J. Miller are also aggressive campaigners. A couple of other names have also been mentioned, but their hats have not yet appeared in the ring. In the East ward the politicians are playing a watchful waiting game. George McCabe is said to be at the starting post. If he sticks he will probably be one of the trio who come under the wire first. Other aspirants are probably waiting to enter the contest until the newspapers are out of the way. Rev. J. D. Hobden and William Liddicoat are in the field for license and police commissioners. If they are elected the police department should be able to obtain free salvation. For school trustees neither males nor females have yet appeared on the scene.

Corp. Fred Zuelke, a returned soldier, arrived in the city on Saturday from a Toronto convalescent hospital and is visiting his mother and sister here. Corp. Zuelke enlisted at Red Deer, Alta., about two years ago. He went "over the top" at Ypres and other places with W. J. Pearson, of this city. At Vimy Ridge he was wounded in the right thigh, and received a shot from a German officer which shattered his left arm just below the elbow and it had to be amputated. He has many interesting reminiscences of the great war to relate. He will remain in the city about ten days.

Special services of prayers were held in all the city churches on Sunday in observance of the royal proclamation issued by King George.

Edwin J. Stewart, who has been clerk at the Yale hotel for the past five years, left on Friday for Tacoma, where he intends to accumulate wealth and a few more pounds of flesh.

Mrs. L. E. Dunn, whose husband is bookkeeper for the Grand Forks Lumber company, arrived in the city this week from Minneapolis.

An ore shipment was made last week from the Providence mine to Greenwood smelter.

GRANBY HAS ORE FOR MANY YEARS

Total Quantity of Resources Is Placed at 23,195,581 Tons

The declaration by the Granby Consolidated Mining, Smelting & Power company of regular quarterly dividends at the rate of \$10 a year, while most of the copper companies are cutting deep into the hitherto prevailing dividend rate, makes timely an analysis of this company's operations, says a Boston report.

The Granby company was incorporated under a special act of the province of British Columbia in 1901, and for this reason is not subject to the war taxation laws of the United States, although, of course, it is subject to any tax levies enforced by the Canadian government, and individual shareholders in the United States must pay Uncle Sam's personal income taxes on dividends.

The company's mining lands are at Phoenix, B. C., and comprise 43 claims and fractions aggregating about 1050 acres. The newly acquired lands of the Hidden Creek Copper company, of which Granby owns the entire capital stock, are situated in the northwestern part of British Columbia and comprise 412 acres. This is the property now providing the major part of the company's output.

The smelter plants are at Grand Forks and Anyox, B. C. There are eight blast furnaces, having a capacity of 4000 to 4500 tons per day.

Granby has for years been handicapped by high cost of coke and irregular deliveries. To obviate these difficulties it has acquired a high grade coal property, one seam of which shows 20,000,000 tons of high grade coking coal. Between \$1,200,000 and \$1,500,000 will be spent in developing and bringing the new property to a productive stage, all of which will be taken from earnings; but this should not interfere in any way with the maintenance of the present \$10 dividend rate.

From the above expenditure Granby expects to derive an important income, as after meeting its own requirements it expects to have about 500 tons of coal daily to ship to Vancouver, where a ready market exists at high prices.

The following operating figures for a series of years, ended June 30, are instructive:

	1917.
Ore treated, tons.....	1,558,345
Copper produced, lbs.....	41,878,568
Silver, oz.....	599,349
Gold, oz.....	29,821
Cost per lb. (cents).....	13.94
Av. price received (cts)....	27.4
Ore treated, 1916.....	1,915.
tons.....	1,929,205
Cop. prod. lbs.....	42,198,083
Silver, oz.....	487,845
Gold, oz.....	44,348
Cost per lb. (cts).....	12.30
Average price received (cts).....	22.98

For the ten years 1908-1917 the company's aggregate net profits were \$12,915,537, or \$88.04 per share. Dividends paid were but \$34 per share.

The record of earnings, dividends, working capital, etc., makes the following interesting exhibit:

	Operating profits, per share.	Earnings, capital.	Working capital.
1917.....	\$5,256,100	\$34.82	\$5,219,007
1916.....	4,107,621	26.46	3,748,025
1915.....	1,340,557	6.19	1,677,520
1914.....	622,074	2.93	843,595
1913.....	1,214,599	7.90	2,075,234
1912.....	583,379	*.....	934,837
1911.....	217,416	4.46	658,600
Dividends—			
1917.....	\$9	1913.....	\$3
1916.....	6	1912.....	
1915.....		1911.....	1
1914.....	6		

*The sum of \$600,562 was charged out of earnings and surplus for depreciation, leaving no net profits for the year 1912.

It is only in respect to proved ore reserves that the company is unable to "class" with some of its competitors. Here is the latest calculation of ore assets: Tons.

3 to 4 per cent.....	51,987
2 to 2½ per cent.....	10,296,958
1 to 1½ per cent.....	3,368,076
Less than 1 per cent.....	9,476,660
Total.....	23,103,581

It is estimated that this tonnage contains 663,164,028 pounds of copper, together with gold and silver values of \$7,157,000. Treating 1,500,000 tons per annum this visible tonnage will be exhausted in fifteen years.

At \$66 per share, the recent low price, Granby was sold at a discount of \$54 from its best price last year. In fact it is \$13 per share under the low of 1916 and only \$8 above the low of 1915. The range of prices during the last five years follows:

	High.	Low.
1917.....	92	66
1916.....	120	79
1915.....	94½	58
1914.....	91	60
1913.....	78½	51

Granby's \$10 dividend calls for but \$1,500,000 per annum. A profit of only 4 cents per pound on 40,000,000 pounds of annual output will cover this dividend. It is clearly to be seen that the present disbursements to shareholders are amply protected unless unlooked for cash necessities should arise. At its recent low level the investment nets a return of over 14 per cent.

Of course in any estimate of divisible profits adequate allowance for war taxes must not be overlooked. Canada's method of treating with mining corporations in respect to "capital investment" and exhaustion of capital through ore depletion is yet to be officially set forth. It is known, however, that the wasting assets of mining companies is to be recognized, as the war tax law says that the minister of finance "when determining profits derived from mining shall make an allowance for the exhaustion of the mine."

Measured by all the acid tests usually applied to copper share investments, Granby stands up well in any comparison with other high grade copper propositions, it was declared recently. In all save the matter of demonstrated ore reserves it can make a showing surpassed by few, if any, of the mines in its class. In the first place, Granby has but 150,000 shares of issued capital and \$2,514,400 bonds due in 1928. Its quick assets of June 30 were \$5,219,000. At \$66 per share and par for the bonds—less the above quick assets, the whole Granby mine, smelter, converting and power plants are given a valuation of but \$7,500,000, or less by \$1,500,000 than the

MINE OUTPUT OF THE PROVINCE

Value of Production in 1917 Is Placed at Over \$41,-- 000,000

According to figures compiled by E. A. Haggan, of Vancouver, British Columbia's mineral production in 1917 was only about \$1,000,000 less than in the banner year of 1916. This is despite the loss of production brought about by strikes at Trail smelter and in the coal fields. Placer gold production shows an increase, lode gold a decrease, silver a decrease, copper an increase, and zinc a decrease. The total for the year is placed by Mr. Haggan at \$41,299,668, against \$42,290,462 in 1916.

METEOROLOGICAL

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Laws' ranch:

	Max.	Min.
Jan. 4—Friday.....	37	32
5—Saturday.....	36	33
6—Sunday.....	34	32
7—Monday.....	38	33
8—Tuesday.....	37	33
9—Wednesday.....	26	15
10—Thursday.....	14	11
Snowfall.....		6.6
Rainfall.....		0.26

Nearly forty miles of the location survey of the Spokane & British Columbia railroad line has been completed along the Spokane river since the work began last fall, says the San Poil Eagle. Chief Engineer Clark, with twelve assistants, says the work of completing this location survey is progressing more rapidly than was at first thought possible. This is due largely to the warm, open winter. The survey camp is now on the Spokane river about twelve miles from Reardan, working this way, and with the present favorable weather the entire line will be located to Hell Gate before spring.

Preliminary steps have been taken to curtail the use of cane sugar in the manufacture of caudies. Manufacturers have been informed of the necessity for saving such sugar and are now endeavoring to adjust their business to the requirements of the situation.

combined profits of the fiscal years of 1916 and 1917.

With the possible exception of Calumet & Hecla, the Granby company can show a production of copper measured against units of share capital much larger than any other copper mining concern. Based on output for year ended June 30, 1917, it had 278 pounds of production per share of stock. Carrying the same sort of calculation a little further, it is found that its annual output is selling in the stock market for but 18 cents per pound. As well regarded copper flotations have been offered to the public on the basis of capitalizing annual output at \$1 per pound, the Granby figures stand out in striking contrast.

FRIDAY, JANUARY 11, 1918

The Canadian Pacific Railway company appears to have started a pretty active propaganda against the nationalization of the Canadian railways. The big corporation probably knows that it has a very good thing, and does not want to take any chances of losing it. Nevertheless, government ownership of the transportation lines is inevitable in the near future.

Secretary of War Baker declares that the United States now has an army of 1,500,000 officers and that there is complete equipment for every man. A large portion of this army, he says, is now in France. When congress, last April, declared that a state of war existed between Germany and the United States the American army consisted a couple of hundred thousand officers and men, and the war secretary takes pardonable pride in the rapid augmentation of his fighting forces. One enthusiastic Washington senator wants to send 2,000,000 American troops to France at once. Mr. Baker's statement has brightened the war outlook for the allies considerably. If the Hun is not at present able to hold his ground on the western front, how can he expect to

escape a rout when an additional force of one and one-half millions men is thrown against him? It seems reasonably certain that the United States is determined to have that number of men in France before many months elapse.

This is peculiar weather. It is neither winter nor summer, fall nor spring weather. Under the circumstances, the only thing to do is to call it Bolshevik weather, because we are firmly convinced that a full season of it would drive a person mad.

The forthcoming provincial by-elections are too far removed from this district to even generate a decent brand of enthusiasm here. But the result will be awaited with keen interest. The vote will show whether or not the government of the day still holds the confidence of the electorate.

People who claim to have the gift of prophecy should tell us what the Bolsheviks intend to do.

During the past week the following donations of socks were received by the Daughters of the Empire: Mrs. Kerman, one pair; Miss McArthur, one pair; Mrs. McKie, one pair; Miss Jessie Petrie, two pairs; Mrs. Bishop, one pair, and Mrs. Cochrane, one pair. A donation of two dollars from Miss Livermore was also received.

The Sun, at \$1.00 per year, gives its readers three times more reading matter than any other Boundary paper. This fact accounts for the rapid increase in our circulation.

Besides being read by all the intelligent people of Grand Forks, The Sun goes to every ranch home in the Kettle and North Fork valleys. No other Boundary paper can give advertisers this guarantee.

HIGH COST OF LIVING; CAUSES AND REMEDY

"Providing for Honest Things, Not Only in the Sight of the Lord But Also in the Sight of Men."—II Cor. 8:21.

(PART FOUR.)

BY C. E. STEWART.

Time in God's Plan Important

One of the most important elements in God's arrangement for human welfare is time. A seventh reason for high prices is that it is in fulfillment of prophecy—we have reached the end of the "time of the end." The end of the long reign of sin and death is here. Man's extremity is here. God is making a change of rulers—satan's reign must give way to Christ's kingdom of righteousness. The natural trend of events is bringing us to the fulfillment of Daniel 12: 1—"a time of trouble such as never was since there was a nation." Such as never was in its scope, in its severity, in its kind. The "Time of the Gentiles" expired in 1914; therefore Gentile kings and kingdoms must pass away—there is absolutely nothing to save them. According to the Bible all rulers other than Israelitish were to have their "day" between the overthrow of Zedekiah's kingdom in 606 B.C. and the "coming of Him whose right it is" to have dominion. This allotment of "time" was 2520 years. Since 1914 the "night" has set in, and thick clouds and blackness are now obscuring the sky of the world's hope. The "burning of the world" is a symbolical fire. Trouble will enflame the minds of all. Nothing that we can conceive will intensify the heat more so than curtailing the liberties of man's supposed rights and subverting the legitimate channels of food supply—whether these are interfered

with by individuals or corporations.

Of all the proposed remedies none will cure. Could we expect the doctors of finance to so change their sentiments toward mankind as to be willing to produce a panacea? They refuse to believe they are fallen creatures and bound in satan's iron grip; they can not explain why they are, as creatures of circumstance, in their present predicament; not being able to diagnose their own case and explain why they are unwilling to surrender vantage ground to the public weal the end will come as the Bible says—a "time of trouble such as never was." We may expect that soon the financial structure will collapse. Roosevelt is reported to have said that "the Liberty loan bonds are safe if the United States doesn't smash up; and that, if it does smash up, it will make no difference whether they are good or bad."

Ezekiel 7:19 says: "They shall cast their silver in the streets (remove its monetary value) and their gold shall be removed; their silver and their gold shall not be able to deliver them in the day of the wrath of the Lord." The "day of wrath" identifies the prophecy with our day, when God smites the nations in a helpless war to dissolve them. (Zeph. 3:8, 9.)

James 5:1, 5 says: "Come now, you rich, weep and lament over those miseries of yours which are approaching. Your rich stores (cold storage plants of food and gold) have decayed, and your garments (of praise and respect) have become moth-eaten (filled with holes so we can see the duplicity within). Your gold and silver have become rusted (literally covered with the interest of the public debt), and the rust will be for a testimony against you, and consume your bodies (systems) like fire. You have laid up treasures for the last days. . . . You have nourished your heart (desires) in a day of slaughter." This is the Diaglott translation, and the "day of slaughter" helps us to see the prophecy refers to our day. Another item of

identification is found in verse 8—"the coming of the Lord draweth nigh." Let us remember these words of rebuke to financialdom come from holy writ.

The people imagine they are going to bring peace and reestablish tranquility in the earth—bring about a condition of contentment and prosperity and unite the whole world into one brotherhood. The Bible asks the question: "Why do the people imagine a vain thing?" The answer comes that the kings of industry and the rulers of the people, both civil and ecclesiastical, have set themselves and taken counsel together to unite themselves into a force that will resist the introduction of the Lord's kingdom and hinder the reign of righteousness from reaching the people. And while the masses will blindly follow the "blind leaders" in their perverse teaching on every subject, yet the ultimate result following man's extremity is clearly shown: "He that sitteth in the heavens shall laugh; and the Lord shall have them in derision." Thus the worldly wise "doctors" of finance, of industry, of political economy, together with our law making bodies, are to be held up to public rebuke and made the laughing stock of the Lord—and all others with the eye-alive of God's Word. Read and ponder over the entire Second Psalm.

What Is the Bible Remedy?

God's time for a permanent panacea is at the door. After the present "order" is demolished in the wreck of satan's empire, it will come. Christ's kingdom of righteousness will be a universal empire established on the earth, superseding and taking the place of all present governments. Christ and his church are to be the invisible priests and kings, and the visible rulers in contact with the people will be of God's selection—the holy men of old who could not be of Christ's church and participate in a spirit resurrection—men who will come forth in mental, moral and physical per-

Boys' Watches

We have some excellently good values in watches for boys. They are good time keepers and made strong enough to be boy-proof. Call and see them.

A. D. MORRISON JEWELER AND OPTICIAN
GRAND FORKS, B. C.

fection, some of whom are mentioned in Hebrews 11th chapter, including John the Baptist. (Matt. 11:11.) This earthly kingdom is to be economic and political as well as religious, and shortly it will be established world-wide for the blessing of all the families of the earth; Jehovah's anointed shall take full possession of all the affairs of mankind, and all mental, moral and physical disorders will yield to the Great Physician's tender and sympathetic touch, in marked contrast to the hallucinations, hobgoblins and nightmares of the dark and treacherous reign of the "prince of darkness." The original condition of Edenic bliss shall eventually come, and God's will shall be done on earth as it is now being done in heaven. (Rev. 11:15; Micah 4:8; Daniel 2:44; 7:27; Matt. 6:10.)

The Christian's Duty

In these stirring and eventful times great perplexity prevails as to the attitude we should be in, as to what should be our frame of mind. We are not quarreling with anybody. We are not to condemn anybody. Rather, we are to recognize that we are more or less to blame, being helpless in the hands of satan, and that a long train of events are behind the commotion of the hour. Each is to learn to do his own thinking—this will bring to us the much needed emanation of mind. Those who wish to fight, let them fight; Jesus said: "Those who take to the sword shall perish by it." The Bible says, "Seek righteousness, seek meekness, it may be ye shall be hid in the day of the Lord's anger." (Zeph. 2:3.)

Two absolutely distinct classes are in the world—the true Christian who has made a covenant with God by sacrifice and has accepted the Divine Will as his own, and is walking in the footsteps of Jesus. (Psa. 50:5; Rom. 12:1-2; Matt. 16:23.) In speaking to this class Jesus said: Ye are not of the world—I have chosen you out of the world—I pray not for the world. (Continued on Page 3.)

Winter Time Is Telephone Time

The telephone is of particular value in winter time. When weather conditions are unfavorable to travel, with short days and dark nights, the telephone is right at hand. One simply talks, distance does not count. Though storms temporarily interfere with service, the men in the field soon restore communication. Telephone service is continuous—as continuous as human power can make it.

The long distance telephone is your best friend in winter. Special rates on our lines in the evening.

HIGH COST OF LIVING; CAUSES AND REMEDY

(Continued from Page 2.)

(John 17:16, 9; 15:18-19.) These are of one mind, one faith, one baptism, one spirit. All others—it matters not what they believe nor what they have "joined"—are of the world, they have the world spirit. The ecclesiastical systems in discord, the social fabric out of harmony with the principles of righteousness, and the financial structure with its grasping tendencies, are all "elements" of "this present evil world," and must pass away with a great noise—melt from the friction of clashing ideas, the rattle of artillery, and the gattling gun fusillade of legislation.

What is the true Christian's position? It is one of absolute neutrality. He is to be a non-combatant, non-resistant spectator. What if prices go up? Let them go! Are we to complain? Surely if we do we demonstrate our worldiness and lack of faith in God's promises to us: "We know that all things work together for good to them that love God, to them who are the called according to His purpose;" "no good thing will the Father withhold from them that walk uprightly;" "I will never leave thee nor forsake thee;" "no evil shall befall thee," etc.

Jesus said, "If any kingdom were of this age (while Satan's kingdoms are fighting to hold dominion) then would my servants fight." (John 18:36.) Jesus further said that he came not to destroy men's lives, but to save them—He went about doing good, loving his enemies, laying his life down in behalf of humanity; and this while he was being slandered, reviled, abused, and finally crucified. He was non-resistant—He was led as a lamb to the slaughter, and as a sheep is dumb before its shearers so He opened not His mouth. (Isa. 53:7.) He could have had twelve legions of angels to protect Him, for the asking, but He said, "Not my will, but Thine be done." His disciples are to walk in His footsteps, emulate His noble example, have His mind in them, for if we have not the mind of Christ, we are none of His. (1 Cor. 2:16; Rom. 8:9; Isa. 26:3.) These thoughts of the Christian's duty, so fundamentally important for the receiving of favors from God, have not yet appealed to the masses, they can not see the propriety of trusting in God—they still insist on taking matters in their own hands.

And while selfishness as the motive behind human efforts, during Satan's long usurpation of power, has probably been for the best, yet we can see

that when Jesus takes full control of the destinies of man (Isa. 9:6), bringing in the New Order (Isa. 65:17-25; Acts 15:14-18), Divine Love will be the great propeller of human action, bringing about a complete reversal of human sentiments.

The Consummation Glorious

How grandly glorious will it be when Messiah's Kingdom transforms the thought of today, dispels the ignorance of the "divine plan of the ages," opens men's mental eyes to see His love, and holds in check the tendency of evil by binding Satan for a thousand years! Then men will see that war is an earthly legalized murder, and perceiving the horribleness of all and the desirability of imbibing the thoughts of the Master Mind, they will quickly seek shelter under the everlasting arms of God's abounding grace in Jesus Christ, and will seek Life and Truth, God's way, for—"It shall come to pass in the last days, that the Kingdom of the Lord's house shall be established in the top of the mountains, and shall be exalted above the hills; and all nations shall flow into it. And many people shall go and say, Come ye, and let us go up into the kingdom of the Lord, to the house of the God of Jacob; and he will teach us of His ways, and we will walk in His paths; for out of Zion (Christ's kingdom—the glorified church) shall go forth the law, and the word of the Lord from Jerusalem" (the earthly phase of the kingdom, the New Capitol of the earth, where David and all Old Testament worthies will sit as "princes in all the earth." (Psa. 45:16; Heb. 11:39-40; Acts 15:16-17.) And He shall judge (Acts 17:31) among the nations and rebuke many people and (as a result) they shall beat their swords into plowshares, and

their spears into pruning-hooks; nation shall not lift up sword against nation, neither shall they learn war any more." (Isa. 2:2-4.) The wilderness shall blossom as the rose—the tilling of the soil will not be laborious—foodstuffs will not be brought forth for trouble—and the desire of all nations shall come.

May "Thy Kingdom come, and Thy will be done on earth as it is done in heaven."

(The End.)

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

"The Canadians in France," A Great War Map

Canadian homes will no longer have difficulty in following the Canadian troops in France. There has just been issued a map of the European war area that clearly shows every point of interest that has been mentioned in dispatches since the Canadian forces first landed in France. It has been made especially for the great Canadian weekly, the Family Herald and Weekly Star of Montreal, and is a credit indeed to Canadian enterprise. It is a marvel of detail and yet not crowded. It is in four colors and about 24x34 feet and folded into a very neat cover, about 5x10 inches. The map is surrounded by a border of the regimental badges and coat of arms of nearly every battalion that left Canada, from Halifax to Vancouver. Every important point can be recognized at once. That portion of the map covering France is in a soft color with names of towns and battle scenes in black, easily recognizable. The map is endorsed by returned military experts as most complete and accurate in detail. The map could not be produced, except in such large quantities as The Family Herald will use, at less than two dollars a copy, yet it can be had absolutely free with The Family Herald.

The publishers of The Family Herald and Weekly Star for several months back have been fighting hard against the necessity of increasing their subscription rates, but eventually had to come to it like most other papers. The increase, however, is a mere trifle—twenty five cents a year, making their new rate \$1.25—and with the year's subscription they will include a copy of this great war map free of charge. This is certainly a generous offer, and one that Canadians will appreciate. Many expected a much larger increase in the subscription price of The Family Herald, and are surprised at the small extra amount charged.

The enormous circulation of The Family Herald and Weekly Star should be still greater when this offer becomes known.

END STOMACH TROUBLE, GASES OR DYSPEPSIA

"Pape's Diapepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation due to excessive acid in stomach.

You can not reach The Sun's numerous readers except through the columns of The Sun.

IT'S THE STEADY ADVERTISING THAT BRINGS THE STEADY TRADE TO YOU

Isn't the news of your store something like the news of the whole city?

There is news every week in Grand Forks—some weeks more than others—but every week there is news.

Isn't there news in your store every week? Isn't there something to advertise?

Your customers are shopping every week. Aren't you losing many of them the weeks you do not advertise?

It's the steady trade that counts with a store—it's the steady advertising that brings the steady trade.

RESOLVE—To use news paper space regularly, and be sure it is in The Grand Forks Sun.

A 3000 ton oil flotation plant is to be erected by the Canada Copper corporation to handle the concentrates from its Copper mountain properties near Princeton. Plans for the plant are nearing completion.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

Walter E. Smith and Miss Blanche Richardson, both of Cascade, were united in marriage at the Methodist parsonage in this city on Saturday evening last, Rev. J. D. Hobden performing the ceremony.

Ab Fee, of the Maple Leaf mine, is visiting the coast cities.

F. J. Stackpool and son, Pte. Stackpool, who have been visiting at the home of Mayor and Mrs. G. H. Acres, have returned to their home in Victoria.

Mrs. W. P. Freeman, who has been the guest of Mr. and Mrs. P. W. Clark during the holidays, has returned to her home in Nelson.

The public and high schools reopened on Monday last.

The 1917 council will hold its last meeting on Monday evening next.

The employees of the Granby company at Phoenix, for the month of December, contributed some \$1,608.85 for patriotic purposes, making a grand total for the year 1917 of \$16,692.86. A further amount of \$663 was raised for the Halifax relief fund during the past month.

The Forest Mill of Cascade is getting out 3,000,000 feet of sawlogs in the North Fork country and 10,000,000 feet on the main Kettle river.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

The Sun read is read by everybody in the Kettle valley.
