MEETING OF THE CITY COUNCIL

Routine Business and Final Passage of the Tax Bylaws

Mayor Acres and Ald. McArdle, McCallum, Schnitter and Webster were present at the regular meeting of the city council on Monday evening.

Mayor Acres reported that he had notified the chief police to instruct motor car owners not to remove the cut-offs from their cars. He also stated that satisfactory arrangements had been made with A. E. Nicholls for the maintenance by the city of Mr. Nicholls daughter at a home for incurables in Toronto. An agreement between Mr. Nicholls and the city, whereby Mr. Nicholls agreed to indemnify the city for any expense to which it might be put, was read, approved and ordered registered. This course was rendered necessary, as the home accepts patient only on condition that the fees in connection with their maintenance are guaranteed by the city from whence they come.

The chairman of the water and light committee reported that the material for repairing the leakage in the city reservoir had not yet arrived. City Engineer Reid was present and made a statement. The small hole in the bottom of the reservoir had increased to considerable dimensions during the past few days and quite a large stream was flowing from it. It required constant pumping to keep the reservoir filled. He suggested that temporary repairs be made if the Aquitite paint did not arrive in the course of a few days. He was instructed to ascertain when the paint was shipped and to act accordingly.

A letter from P. W. Husdale, Victoria, secretary of the Workmen's Compensation board, stated that the board now paid hospital fees to city employees. The clerk was instructed to send the monthly fees to the board in future, and to notify Dr. Kingston of the change.

Principal Glaspell, of the public school, made a request for city water for one whole day per week on the school garden and for the lawn when it was required. The water and light committee was instructed to meet Mr. Glaspell and to make satisfactory arrangements.

Secretary Hull, of the school board, stated that the board, having the consent of the superintendent of education, would transfer to the city for street purposes a strip of land along P. T. McCallum's lots if the city would assume the fencing of the same. On motion of Ald. McCallum and Webster, the clerk was instructed to arrange for the transfer of the land.

Inspector of Dairies Quinlivan reported that he had made a second visit to the small dairies in the city and that he had found them in a sanitary condition.

The past month's accounts were ordered to be paid.

The chairman of the board of work reported that the work of

graveling Bridge street was now in progress. He was instructed to ask for tenders for the replanking of the Fourth street bridge.

The chairman of the parks and cemetery committee reported that more work was required in the park at the pumping station. He also suggested that an attempt be made to drain McCallum's slough more thoroughly, as there is considerable stagnant water in it at present.

The chairman of the health and relief committee reported that the house near the Grand Forks brewery was in an unsanitary condition.

The tax rate and levy bylaw and the tax rebate bylaw were reconsidered and finally passed.

K. OF P. OFFICERS ARE INSTALLED

A joint installation of officers of the K. of P. lodges of Phoenix, Greenwood and Grand Forks was held in the Davis hall in this city on Wednesday evening. The installing officers were S. J. Storer, D. G. C.; N. Davidson, D.V.C.; J. Lowe, D.G.P.; J. R. Gardner, D. G. K. of R. & S.; J. W. Hannam, D. G. Guardian. The following officers were installed:

Phoenix Lodge No. 28—C. C., James C. Matheson; V. C., Joseph Twills; Prel., A. Gustafson; M. of W., L. Adams; K. of R. & S., G. Kay; M. of F., W. Wamsley; M. of E., N. Davidson; M. of A., Frank Nicholson; I. G., Wm. Slack; O. G., Al Almstrom.

Grand Forks Lodge No. 30—C. C., A. C. U'Ren; V. C., Klaas Scheer; Prel., P. C. Hayman; M. of W., R. E. Jennie; K. of R. and S., R. J. Gardner; M. of F., Carl Holm; M. of E., Nels Setterlund; M. of A., F. O. Trout; I. G., K. Ruiter; O. G., A. J. Anderson.

After the installation services the visitors were given a banquet in the banquet hall of the lodge. There were seventy-five plates set, and the tables were loaded with everything good to eat. The flowers used for decorating the tables were furnished by Peter A. Z. Pare.

COKE ARRIVING FOR THE GRANBY

Coke commenced to arrive at the Granby smelter from the Crow's Nest last Sunday evening, and since then almost daily shipments have been received. Local officials of the Granby company expect that the smelter will be blown in about the 20th inst. With the labor situation in the coal mines in the East Kootenay under government control, an uninterrupted run for years of the big reduction plant is anticipated.

BLAST FURNACE AT MAPLE LEAF

Visitor to the Property Says the Recent Strike Is a Wonder

City Clerk John A. Hutton visited Franklin camp last Sunday. Mr. Hutton brought back with him some fine samples of native copper from the recent strike made near the surface on the Maple Leaf claim, which is now being worked by Herbert Young and Ab Fee. Mr. Hutton states that apparently there is a whole mountain of this class of ore, and that the strike is the biggest thing he has ever seen in a mining camp.

Seven men are now employed at the Maple Leaf mine. Three or four thousand tons of ore are now piled up on the dump, and the ground is being cleared for the installation of a blast furnace, which will treat the ore by a new process, very little coke being required. If this process proves a success, some lively times may be looked for in the camp in the near future.

TWO YOUNG LADIES DROWNED

Miss Esther Huddard, aged 23 years, who was employed as waitress at James West's restaurant in this city for a few months last summer, was drowned near Princeton on Monday. In company with her sister, Mrs. A. L. Bass, of Princeton, and Miss Marguerite Eichelberger, of Republic, she went bathing in Martin's lake, about a mile from East Princeton. Miss Huddard and Miss Eichelberger got beyond their depth and were drowned. In their struggles for life they clutched Mrs. Bass, who had hold of a log, and almost carried her down with them, but by almost superhuman efforts she out of the water and ran a mile to inform her husband of the tragedy, and then she collapsed. As soon as possible he, accompanied by his workmen, rushed to the lake, and took the bodies out of the water. Medical aid was procured from Princeton, and a pulmotor from Copper mountain, but too much time had elapsed and the strenuous efforts of the physicians, aided by the machine, were all in vain.

The remains of Miss Huddard were shipped to this city for burial, and the funeral was held from Holy Trinity church today. The embalmed body of Miss Eichelberger was sent to Republic for interment.

Two of Miss Huddard's sisters live in this city, and another at Coalmont. Her parents live in England.

The Columbia Tennis club has a very large membership this season. The members are arranging for a general tournament, to be held this fall.

A letter from the adjutant general of the Canadian militia states that a general tendency exists on the part of the public to voice all complaints regarding casualties, pay, separation allowance, assigned pay, etc., through the press, before any attempt has been made to have the facts of individual cases brought to the attention of district headquarters for investigation. In this connection the people are reminded that all cases of complaint should be referred direct to district headquarters before they are given to the press. By doing so, it is considered that a great deal of dissatisfaction will be obviated and the military authorities will be more or less protected from unjust criticism.

An editor in Buenos Ayres puts it in this striking fashion: "The eagles that look toward the stars are crossing the Atlantic, bearing the ideals of all America, to battle with the eagles that look ever downward, seeking prey."

If you want to know much of the day is daylight and how much darkness at any time of the year, double the hour when the sun sets, and you will have approximately the number of hours of daylight; or double the hour when the sun rises, and you will have the hours of darkness.

If the weather man can not commandeer a copious rainfall for this district within the next forty eight hours, there is grave danger that he may be lynched on his next visit to this city.

Of Joseph H. Choate, the great lawyer, widely known as "the first citizen of New York," anecdotes will continue to be told through years to come; but it is doubtful whether any of them will live longer than his witty and graceful tribute to his wife. "If you could not be yourself, who would you prefer to be?" some one asked him. Instantly came the reply, "Mrs. Choate's second husband!"

The water in the Kettle river at this point of now so low that there is no further danger of the Hun submarines attempting to navigate the stream.

This conversation was overheard on a street corner recently: "Well, what are you doing for your country? Gone into the Home Guard?" "No; they would take me on account of my eyes." "Planting a garden?" "No; haven't any land that's fit to plant. I'm going to pay my war tax without kicking. The association wanted me to go in with them on a protest, but I refused." Is not that a pretty good kind of patriotism, too?

Headline in a New York newspaper: "Cut Coal for Food." Probably they cut it—into egg, nut and pea—to make it more palatable.—Youth's Companion.

NEWS OF THE CITY

Dr. C. W. Drysdale, chief of a Dominion government geological survey party, was drowned yesterday in the Kootenay river, near Cross river, when a raft on which he was crossing the stream upset. Mr. Drysdale was well known in this city. Some years ago he made a geological survey of Franklin camp, and got out the best map and the most comprehensive report of the district that have yet been published.

James Clark, of the firm of T. Gulley & Co., Greenwood, was a visitor in the city this week.

Lin Adams, machinist of the Granby company at Phoenix, came down to Grand Forks on Wednesday to get warmed up.

Mrs. James Roberts, of Denoro, visited Grand Forks yesterday.

W. Bissett, of Cassdys, Ltd., was in the city this week. He booked some very large orders for crockery.

The miners' strike in Republic has been settled.

A. D. McKenzie, former proprietor of the Phoenix steam laundry; N. Davidson, shift boss at the Granby

mine in Phoenix, and Ray Hall, of Danville, Wash. were some of the strangers in the city on Wednesday.

Al Almström, of Phoenix, and Al Morrison, of the Mother Lode mine, Greenwood, were in the city on Wednesday.

W. Wamsly, C. P. R. agent at Phoenix, visited Grand Forks on Wednesday.

Frank Buckless, of Greenwood, was a visitor in the city yesterday.

F. W. McLaine, of Greenwood, is taking an officer's course in Victoria.

Tourist travel on the Kettle Valley railway is increasing.

Mrs. E. E. Gibson visited Miss Tille Graham in Greenwood for a few days last week.

A burned bridge twenty miles west of McCulloch delayed the east bound Kettle Valley line train about eight hours on Tuesday.

A little test mill of the Canada Copper company at Copper Mountain is making a carload of concentrates weekly.

The Great Northern railway now runs a daily train between Princeton and Oroville. It leaves Princeton at 7 a.m. and returns every evening at 7.45.

Byron E. Sharn, the well known Spokane stock broker, is reported to have been drowned in Montana. He was well known in this city.

The tax rate in Obilliwack is 42 mills.

The price of The Sun is still the same as it was before the war. Our subscribers should bear this fact in mind and pay their subscriptions promptly. If we had all the money due us by delinquent subscribers we would be quite wealthy.

You can reach more readers in the Kettle valley by using The Sun's advertising columns than through any other medium published in the Boundary district.

In spite of the increased cost of material and paper, The Sun job office is still turning out high-grade printing at the prices that prevailed before the war.

The Sun, at \$1.00 per year, gives its readers three times more reading matter than any other Boundary paper. This fact accounts for the rapid increase in our circulation.

Besides being read by all the intelligent people of Grand Forks, The Sun goes to every ranch home in the Kettle and North Fork valleys. No other Boundary paper can give advertisers this guarantee.

Your Telephone Will Take You

Most people are in a hurry; they have little time to waste. When you are in a rush, think how the telephone will help you. It reaches everywhere. Its use is economical.

They say, "The more hurry, the less speed," but that originated in the days before the telephone. Now it is, "The more hurry the greater speed," for the action of the telephone is instantaneous.
