THIRTEENTH YEAR—No. 40

GRAND FORKS, B. C., FRIDAY, JULY 31, 1914

\$1.00 PER YEAR

CREAMERY BY-LAW INTRODUCED

Must Be Completed Before the First of March Next

Mayor Gaw and Ald. Bickerton, Bonthron, Donaldson, Henniger, Manly and McCallum were present at the meeting of the city council on Monday evening.

The Grand Forks Canning company asked the council to transfer the privileges granted it to the Grand Forks Canning association. The clerk was authorized to sign the request.

The chairman of the board of works reported that it was Mr. Ryley's opinion that the city would be liable in the event of accidents occurring from elevated sidewalks without railings, and after discussing the matter the council decided to have railings added to the few high walks in the city. The chairman also reported that the cement sidewalk at the new post office could not be completed at present, as the government had no funds available for this purpose.

The mayor thought the board of works should have a cement sidewalk constructed on First street, from Miller & Gardner's store to P. Burns' meat market. On motion of Ald. Manly and Donaldson, the board was given power to act in the matter.

The Winnipeg avenue bridge was reported to be in need of replanking, and the members of the council thought it would be advisable to approach the C.P.R. officials on the subject of substituting it with a sub-way.

The chairman of the water and light committee reported that the expense to maintain the signal light on the fire hall for the chief of police would be small, if any. He also reported that the new street lamps had arrived and were being installed.

The mayor explained to the chairman of the water and light committee that at the last meeting of the council the chairman of the board of works had consented to have \$100 taken from the estimates of his department and added to the grant of the Agricultural association. Mr. Gaw asked the chairman if he was willing to have a like amount deducted from his estimates and applied to the same purpose. Mr. McCallum answered that he was willing to have the water estimates reduced \$40, light \$40, and fire department \$20, and on motion the council ordered the above reduction be made. A resolution was then adopted, on motion of Ald. Bonthron and Henniger, to the effect that \$100 be taken from the board of works estimates, and a like sum from the water and light department, and that the same be applied to the Agricultural association's grant.

The city health officer reported having tested samples of milk from all the dairies supplying milk to the citizens, and that he had found the same pure and free from preservatives.

Mrs. Kelleher was granted a re-

bate of her taxes for 1912, 1913 and 1914.

A petition for a 12-foot cement sidewalk in front of the Hotel Province was received from Emile Larsen. The matter was referred to the board of works, with instructions to investigate the same and to report at the next meeting.

A petition for a 4 foot cement sidewalk on Miner avenue was received from the Grand Forks Town site company, Messrs. Patterson, Benson and others. Referred to the board of works with power to act.

The mayor and clerk were authorized to issue deeds for the lots sold to R. Campbell last spring.

Ald. Henniger was granted leave to introduce the creamery aid by-law. It passed its first and second readings, was considered and adopted in committee, and then under a suspension of the rules was read for the third time. The mayor and clerk were authorized to sign the agreement entered into between the city and Bernard Lequime, the promoter of the creamery, and Mr. Lequime attached his own signature to it. By this agreement the city agrees to convey to Mr. Lequime free of cost lots 9 and 10, block 5, plan 23; exemption from taxation for eight years; water for four years at 10c per 1000 gallons, not to exceed 1000 gallons per day. On his part Mr. Lequime agrees to erect a creamery building to cost \$2000, and to install a plant costing \$3000; work on the building to be started on or before December 1 of the present year, and the plant to be ready to start operations on March 1, 1915. He must also furnish a bond in the sum of \$800 as a guarantee that he will carry out his part of the agreement.

The mayor's and aldermen's remuneration bylaws were reconsidered and finally passed.

LIBERAL MEETING NEXT WEDNESDAY

A meeting of the Grand Forks Liberal association will be held in the Miners' Union hall on Wednesday evening, August 5, at 8 o'clock, for the transaction of general business. All members are requested to attend.

Death of Mrs. Orchard

The death of Mrs. Elizabeth Jane Orchard, wife of Edward Orchard, occurred at her home in this city on Monday, July 27, after a protracted illness. Deceased was 48 years of age, and has been an invalid during the past ten years. The family has resided in this city for seven or eight years. She is survived by her husband.

The funeral was held from the family residence in this city at 2 o'clock Tuesday afternoon, to the Methodist church, where services were held. A large number of friends and acquaintances attended the service, and then followed the remains to Fraterual cemetery, where interment took place.

Mr. and Mrs. Riddell, who have been visiting at the home of Mr. and Mrs. James Rooke for a short time, left yesterday for eastern Canada.

RAILWAY OFFICIAL TALKS ON NEW LINE

Mr. Peters Makes a Tour of Inspection Over the Kettle Valley Road

F. W. Peters, general superintendent of the western division of the Canadian Pacific railway, after inspecting the construction work on the Kettle Valley line from Midway to Merritt, last week, made the following statement:

"Rapid progress with the construction of the Kettle Valley railway all along the line of the route is now being made. With the exception of an eight-mile gap above Kelowna, the line has been finished clear through from Midway to Penticton. Several bridges are in course of construction and are expected to be finished about the middle of October. When these structures are completed the line will be open from the Boundary west to the Okanagan, a distance of 184 miles. In my opinion the Kettle Valley line is one of the finest stretches of railroad in British Columbia, or in fact in Canada, not taking into account, of course, the main lines. The work is all first-class, permanent structures being provided, and the steel is heavy and the track well ballasted.

"The track has been laid to Osprey lake, forty miles west of Penticton, and the section of line between that point and Princeton, thirty-one miles, is expected to be ready for traffic in November. Grading has all been finished on the section of the Hope mountain cut-off route which is being built by the Vancouver, Victoria & Eastern, and is to be used jointly by that road and the Kettle Valley line, and tracklaying will be started this week. The line has already been built to Coalmont, ten miles west of Princeton. With the completion of the three links—the eight-mile gap east of Penticton, the section between Osprey lake and Princeton, and the joint section to Otter Summit—the Kettle Valley line will be ready for operation from Midway to the coast via Midway, Spences Bridge and the main line of the Canadian Pacific railway. Train service via Merritt will likely be instituted late this autumn, but no definite has yet been fixed for starting operation.

"The Canadian Pacific railway has been extended south from Merritt to meet the Kettle line near the Otter Summit."

Mr. Peters stated that he was greatly struck with the scenic beauty of the new route between the Boundary, Okanagan, Similkameen and the Nicola valleys. At one point west of Penticton the line crosses Trout creek on a bridge 240 feet high, affording a magnificent panoramic view of the ranch dotted valley and Summerland and other settlements. The line rises 3000 feet above the level of the sea in places.

"Large tracts of fine agricultural land and mining territory will be opened up by the new line," said Mr. Peters, "and a big cut in the difference between the Boundary and

and Okanagan and the coast will be made when the Hope mountain cut-off line is in operation.

"The completion of the road will reduce the run between Penticton and Vancouver to 250 miles, the same distance from the coast as Kamloops. Passengers will be able to leave the Okanagan in the evening and arrive in Vancouver in time for breakfast. The run will probably be made in about ten or eleven hours.

"The Kettle Valley route will place the fruit growers of the Boundary and the Okanagan in a stronger position to compete with the producers on the American side. They will be able to ship fruit much quicker and at a considerably lower rate."

The Hope-Coquihalla section of the Hope mountain cut-off line will probably be finished within the next twelve months. Work is expected to be started at an early date on the bridge across the Fraser river near Hope to link up the Canadian Pacific railway main line on the north shore. Grading is proceeding on the small connecting section to the site of the bridge.

NEWS OF THE CITY

It has been reported that bass have recently been caught in the Kettle river at Orient, Wash. If this is true, the fish are undoubtedly escaping from Christina lake, and Game Warden Mader went down to Orient yesterday to investigate the matter. If the conjecture is correct, the matter will be referred to the government, with a request that a barrier be built at the mouth of Christina lake. This would probably be an opportune time for the people of Cascade to renew their agitation for a dam across that stream.

W. Enomoto, who had a speedy trial before Judge Brown at the court on Monday afternoon, charged with doing bodily harm on Watson Miller at Cascade recently, was found guilty of the charge and sentenced to six months' imprisonment at hard labor. The evidence showed that Enomoto had had great provocation for his act, but as he had used a knife on his victim, the judge had no alternative but to impose the above penalty. J. H. Ryley appeared for the defendant, and W. R. Dewdney of Greenwood acted as deputy clerk of peace.

L. Ogilvie, who has been spending a week in the city, on Tuesday last received 10,000 salmon trout fry from the Gerrard, B. C., fish hatchery, and the same were placed in the North Fork, about six miles above the city, the same day. This last installment, with the consignment received last week, makes a total of 16,000 trout fry that have been placed in that stream. Another shipment of the same species of fish will arrive in the city next week for the purpose of stocking Christina lake.

The teachers and pupils of the Methodist church Sunday school held their annual picnic at Lynch creek Wednesday afternoon. There was a good turn out, and everybody had an enjoyable outing.

HIDDEN CREEK SMELTER ACTIVE

Treatment of 2,153,863 lbs. of Blister Copper in Four Months Reported

Reports received Saturday from Hidden Creek state that the Granby company's smelter there produced 2,153,863 pounds of blister copper from the time the first furnace was blown in on March 1 to June 30. The output at current prices is worth approximately \$305,000, in addition to the silver and gold contents. The smelter gradually is increasing its treating resources, and it is believed that it will be operating at its full capacity, 2000 tons daily, in a short time. The blister copper shipments in May were 773,960 pounds and in June they were 949,035 pounds.

The dry ore handled by the new smelter up to June 30 was 63,255 tons, and engineers' reports of that date estimated the ore reserve at 12,000,000, carrying good gold and silver values in addition to the copper. The Hidden Creek plant and mines, together with the equipment and machinery, represents an expenditure of more than \$4,000,000, but the total ore reserves are said to be worth not less than \$70,000,000, based on the prevailing metal prices.

Operations at Hidden Creek are regarded by the Granby management as entirely satisfactory. The mines are producing in advance of the smelter requirements and the Midas property, in Alaska, recently acquired by the company, will begin shipping soon.

The report states that the number of directors of the Granby may be reduced at the next annual election.

Smith-Jennings

Chester Smith, son of Mr. and Mrs. James A. Smith, of this city, and Miss Melvina Jennings, of St. John, Wash., were married at the home of the bride's parents in that city on Wednesday, July 22. After a short wedding tour, the young couple arrived in Grand Forks on Saturday evening. They have commenced housekeeping in their new residence near the Central school. The many friends of Mr. and Mrs. Smith wish them a long and prosperous married life.

N. K. Morrison returned home on Monday from a week's business trip to Victoria. He was glad to get back to Grand Forks. Business at the coast, he says, is duller than in the interior. He brought back the cheerful news that everybody at the coast is turning Liberal, as a consequence of which the sobbing of the Tories sounds like the beating of the waves against the rocky shore.

A large number of Grand Forks people accompanied the baseball and football clubs to Trail last Sunday. The excursionists returned to the city about 11 o'clock that night. The baseball game ended in a tie, each club scoring one run, and in the football match Trail came out victorious by 2 goals to 0.

SIR RICHARD MCBRIDE advises the Liberals to propound wholesome policies and choose honorable leaders. The Victoria Times comments on this as follows: We suppose his newspaper apologists will explain that he did not mean to use the terms "wholesome" and "honorable" and that he was merely employing a figure of speech, but we must stick to the report which appears in the government organ, which would not be guilty of the heinous crime of misreporting him after the enormous subsidies it has drawn from the provincial till. If he means by "wholesome" policies that the Liberals should urge a continuation of the orgy of land speculation with the connivance of the government under conditions which provoked stinging denunciations from Mr. Justice Duff and Mr. Justice Macdonald; the deliberate choking off of colonization with its natural consequences of decreased food production and increased food importation; Kaient Island, Songhees and Kitsilano deals; corrupt transactions with every interest ready to put up elections funds in return for large instalments of the public heritage; rotten machine methods, and deals such as he has carried out with Sir William Mackenzie and Sir Donald Mann, the Liberals will have to suffer his distinguished criticism for being without them. The term "honorable" leaders also invites comparison. Are we to look for its definition in the McBride canon? For how many seconds could Sir Richard McBride stand comparison with Mr. Brewster in this respect? We scarcely think it necessary to do more than to suggest the parallel, and we are not sure we do not owe Mr. Brewster an apology for doing so. The pioneer's profession of a desire to see a strong

opposition in the house is mere hypocrisy. He would rather see the bubonic plague in the legislature than a formidable opposition. His anger on polling day in the last election when he learned that two Socialists were elected and his feverish efforts to prevent a Liberal from being returned in the Islands by-election indicated his disposition as far as opposition was concerned. He knows that a well-organized opposition in the legislature would uncover a record unparalleled in the history of the Dominion—a record which would make the Fleming and Roblin governments look like amateurs in the science of mal-administration, and from the consequences of which he is going to try to escape by turning over affairs to his devoted henchman, the attorney general.

AUSTRIA has declared war against Serbia, and there is grave danger of the whole of Europe becoming an armed camp. It looks as if the people are determined on going mad.

Seek and ye shall find—this applies especially to trouble.

Some one has advanced the opinion that the letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger, and in hell all the time. For some reason he overlooked the fortunes of the letter, as we call his attention to the fact that "e" is never in war and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life and no heaven. It is the center of honesty, makes love perfect and without it there would be no editors, devils nor news.

"Political Reminiscences of Rt. Hon. Sir Charles Tupper, Bart., transcribed by W. A. Harkin," is the attractive title of a book now in the press and shortly to be published by the well known house of Constable, London. The work consists of a written report of a series of interviews granted by the venerable statesman to the late W. A. Harkin at Vancouver during the residence of Sir Charles in that city 1912-13. As a newspaper man Mr. Harkin had frequently reported Sir Charles Tupper's speeches in the house of commons at Ottawa, and he intended this

volume to be his magnum opus. When his death occurred in September of last year, his fellow craftsmen, Bernard McEvoy and A. E. Greenwood, acting in the capacity of literary executors, undertook, in accordance with his wishes, the carrying out of his unfinished task. The value of such a record will be recognized by all students of Canadian history, throwing light, as it does, not only on confederation, but on the beginnings of railway enterprise in the Dominion, and the inception of the national policy. It also includes interesting side lights on the public men and matters connected with Sir Charles Tupper's long political life.

Books Written in Prison

A publisher was talking about Oscar Wilde's strange book, De Profundis, with its pathetic cover decoration of a bird beating its wings against the bars of a cell.

"Wilde's not the first good book to have been written in jail," he said. "Jail, in fact, seems to be a good place to write books in. Literary men surpass themselves there."

John Bunyan wrote Pilgrim's Progress in jail.

"Cervantes wrote Don Quixote in prison."

"DeFoe laid the plans for Robinson Crusoe during a term of confinement imposed on him for the writing of a pamphlet called The Shortest Way With the Dissenters."

"Leigh Hunt wrote Rimini in jail. "Sir Walter Raleigh, during his fourteen years' imprisonment in the Tower of London, wrote his excellent History of the World."

"Silvio Pellico and Tasso both did their best work in jail."

This array of great books written in prison is a forceful argument in favor of putting every fellow in jail who writes a poor book. He would there be brought to his proper level, and while contemplating his past misdeeds, could produce something worth while from the inspiration of actual experience.

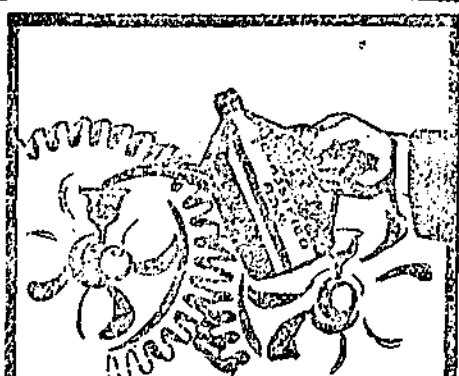

The Sun, at \$1 a year, is superior to any \$2 a year paper printed in the Boundary. This is the reason why we do not have to resort to gambling schemes to gain new subscribers or to hold those we already have.

Chiropractors

The College of Physicians and Surgeons yesterday launched prosecutions against two chiropractors who had been practising their profession in the city, and succeeded in obtaining convictions. The charge was that they were practising medicine without being registered under the law. Under section 63 of the act governing the profession of medicine and surgery "any person who by advertisement, sign or statement of any kind, alleges ability or willingness to diagnose or treat any human diseases, ills, deformities, defects or injuries," or "who shall prescribe or administer any drug or medicine, treatment, or perform any operation, manipulation, or apply any apparatus or appliance for the cure or treatment of any human disease shall be held to practice medicine." Chiropractic is a system of treatment by spinal manipulation, and the magistrate held that it cannot be carried on except by those duly registered under the act.

Chiropractic has established its claim to recognition as a form of treatment of certain ailments affecting the nerves. Those qualified to practice it are not quacks. The two gentlemen who were convicted in the police court yesterday are graduates of institutions where the science is taught. Not infrequently patients are recommended to take their treatment by registered practitioners of the broader type, who realize that there are things in heaven and earth not dreamed of in their profession; that their own calling, venerable though it is, is a long way from achieving mastery over the ills that flesh is heir to, and that as they themselves, being human, are liable to make mistakes in diagnosis and treatment, they are not justified in denouncing as unworthy of confidence those who do not follow the orthodox path. Within the last twenty-four hours the Times has been informed of cases in which chiropractic has been efficacious,

and if it is established that the sum of human suffering can be reduced by it no obstacle should be placed in its way. In such circumstances humanity calls for the broadest attitude and widest latitude consistent with its own protection.

If chiropractors can be prosecuted under the act because they practice medicine by "manipulation," without being registered, then masseurs are equally liable, for they, too, employ methods of manipulation. Nevertheless we do not hear of action being taken against those who practice that treatment. On the contrary, members of the College of Physicians and Surgeons often recommend it. We are not aware that professional masseurs are especially recognized by the law. Why does not the College of Physicians and Surgeons proceed against them? The reason is, doubtless, that such a course would lay that august body open to ridicule.

The effect of prosecutions of this character will be to create a demand for the amendment of the law broadening the scope of the section defining medical practitioners. The world is making progress in the treatment of human ailments as well as in every other line of human activity. Drugs and surgery, in spite of their triumphs, are not the only means by which physical affliction can be successfully fought. Chiropractors may do a great deal of good, just as the regular practitioners do; they can not do any harm, which, with due respect, we can not say for all who follow the profession of medicine and surgery in the orthodox way.—Victoria Times.

Last Thursday afternoon, in Greenwood, while O. Boyer, of that city, and J. Bush, of Midway, were driving down Copper street in Mr. Boyer's car, Mr. Bush driving, something went wrong with the steering gear and the car capsized. Mr. Bush escaped unhurt, but Mr. Boyer was taken to the hospital, where the doctor found he was suffering only from a bad shaking up.

MINING RECORDS

TRANSFER.

Mary Ann, Gloucester camp, P. J. Byrne to E. Rodin.

Berry, the man who carried the bag for the Flemming government of New Brunswick, is an exile from the country and will not come back, although his testimony is desired by the commission which is investigating the relations of the government with lumber companies and a railway company. Premier Flemming admits that he has had communication with Berry since he fled, and there is little doubt that a word from Flemming would bring Berry back. But the premier will not write the word. In that fact alone the New Brunswick government must stand condemned in the judgment of the people.

Sir Wilfrid Laurier's tour of the Maritime provinces will open at Charlottetown on August 25. He will speak at Halifax at the big arena on August 27. He will then speak in New Brunswick, probably at Moncton.

NEWS OF THE CITY

The members of the school cadet corps, after spending a week in camp at Kaslo, returned home on Tuesday. The members of the corps are: Archie Symes, captain; Stanley Donaldson and Rennie Keron, lieutenants; Lawrence Holmes, Al Peterson, Thomas Reburn, Herbert Dinsmore, Wilfred Holmes, Reggie Hull, Ulric McCallum, Ewing McCallum, Robert Holmes, Harry Atwood, Heath Hales, Stanley Massie, Harry Bowen, Harry Holden, Walter

Peterson, Sam Erickson, Walter Larsen, Alfred Downey, Hope Benson, Vernon Siddall, Willie Meikle, Garibaldi Bruno, and Hector Morrison; A. S. Matheson, commandant. The camp next summer will be established in the vicinity of Grand Forks.

Charles W. Drysdale, of Ottawa, government geologist, arrived in the city Monday noon, and at 1 o'clock Tuesday morning he left for Franklin camp in auto from the Henniger garage, accompanied by H. C. Keriman and F. M. Kerby. He is scheduled to return to the city to-

day. Mr. Drysdale made a geological survey of Franklin camp a couple of years ago. The map has been issued by the department of mines this spring, and The Sun received a copy of it a week ago.

The assertion has been made that only one motor car has been able to climb the hill from the Christina Lake hotel to Fife, and that this feat was but recently accomplished. This is a palpable falsehood. Ed Stanaway made the ascent several times last summer in a heavily loaded Studebaker, and there is any amount of money in town to back the same car for another trip up the grade. Other cars may be able to "negotiate" the hill, but when it comes to climbing it—well, that's another story.

A C.P.R. official was in the city on Saturday to appraise the value of one thousand six year old fruit trees recently destroyed on George Hanson's ranch by a fire started by sparks from a C.P.R. engine. It is understood that an amicable settlement was arranged.

Charles Wekell, master mechanic at the Granby smelter, returned home on Friday from a vacation trip to Tacoma.

W. R. Dewdney, government agent at Greenwood, was in the city on Monday. Mr. Dewdney's smile has increased in dimensions rather than diminished since he became a benedict.

A sitting of the provincial redistribution commission will be held in the court house in this city on Friday, August 7, at 2:30 p.m. All interested are invited to attend.

E. E. Gibson and bride, nee Miss Barrett, returned home on Saturday from an extended wedding tour. They have taken up their residence in the house formerly occupied by Mr. and Mrs. Ed Davis.

John Morello came down from Gloucester camp this week. He brought some fine samples of ore from his claims, near the Union mine. He says he has thirty feet of this ore.

G. T. Moir, formerly C.P.R. agent here, accompanied by his wife and family, arrived in the city on Saturday from Rossland, and visited for a couple of days with friends.

Miss Ethel Quinn, after a short visit with her brother in this city, returned to her home in Vancouver yesterday.

Mrs. Leroy has as guests this week her sisters, Mrs. E. K. Stewart and Miss Irene Nash, both of Fernie.

Mrs. James West returned yesterday from a two weeks' vacation trip to the coast cities.

Frank McCormick, of the Pacific, was one of the passengers to Trail on Sunday.

Chief J. Simpson, of Greenwood, attended the speedy trial of W. Enomoto in this city on Monday.

Bob Pribilsky returned to the city yesterday from St. Paul.

T. A. McIntyre returned from Tacoma on Tuesday.

Miss Joyce Barlee, assistant city clerk, is spending her vacation at Christina lake this week.

Mrs. M. Quinlivan visited friends in Phoenix this week.

Miss Emily Jewel visited friends in Trail over Sunday.

Fred B. McKeenan, late United States immigration inspector at Marcus, is a candidate for county auditor of Stevens county on the Republican ticket in the next general election.

British Columbia Needs More INDUSTRIES

Support those we have, and others will come. B. C. MILK is produced in our own PROVINCE. It is always fresh on the grocers' shelves. It is much superior to Eastern brands, packed no one knows how long ago.

BUY B. C. MILK because it has the FRESH, NATURAL FLAVOUR OF PURE CREAM

For sale at YOUR grocer's

METEOROLOGICAL

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Laws' ranch:

	Min.	Max.
July 24—Friday.....	49	90
25—Saturday.....	53	83
26—Sunday.....	48	85
27—Monday.....	46	86
28—Tuesday.....	48	88
29—Wednesday.....	43	95
30—Thursday.....	43	100

Rainfall..... 0.00

A P. S. E. Musical Service

Sunday there will be a special musical service in the Baptist church with a brief address by Rev. Charles W. King on "Music, Divine." Messrs. Coker and Pollock will assist with their violin and cello in both the instrumental and vocal part of the service. Favorite hymns by the great writers have been selected and a pleasant Sunday evening arranged. The order of service is as follows:

Voluntary, "Leibesgarten," Schumann.

Hymn, "Hark, Hark My Soul," F. W. Faber.

Invocation.

Hymn, "The King of Love My Shepherd Is," Sir Henry Baker.

Reading, Psalm 33, 1-6.

Violin, cello and organ offertory voluntary, "Intermezzo," Mascagni.

Address, "Music, Divine."

"The New Glory Song," C. Silvestor Horne, M. P.

Story of the following favorite hymn, "Come to Me, Saith One."

Dr. Neale.

Benediction.

Voluntary, violin, cello and organ.

Card of Thanks

I wish to take this method of expressing heartfelt thanks to my friends and the people of Grand Forks generally for acts of kindness during the illness of my late wife, and for words of sympathy since her death.

EDWARD ORCHARD.

Take your repairs to Armonson, shoe repairer. The Hub. Look for the Big Boot.

TORY MACHINE MANIPULATIONS

It is a well known fact that only Tories are employed on the provincial roads. It is therefore not much of a surprise that a report has gained currency that in one section of the province these men have been compelled to pay ten years' subscriptions in advance to the subservient slaves of the party—the Tory press. The report has created a sensation, and an investigation is demanded.

For Sale—50 pure-bred S.C. Rhode Island Red yearling hens, 15 White Orpington yearling hens, 20 S.C. White Leghorn yearling hens; \$1.00 a head singly, \$75.00 the lot. Must clear out to make room for young stock. T. Bowen, Columbia Poultry Yards, Box 254, Grand Forks, B. C.

Large tract of good valley farming land just thrown open for free settlement in Oregon. Over 200,000 acres in all. Good climate, rich soil, and does not require irrigation to raise finest crops of grain, fruit and garden truck. For large map, full instructions and information, and a plat of several sections of exceptionally good claims, send \$3.40 to John Keefe, Oregon City, Oregon. Three years a U. S. surveyor and timberman. An opportunity to get a good fertile free homestead near town and market.

Highest cash prices paid for old Stoves and Ranges. E. C. Peckham, Second-hand Store.

It is easier to apologize to a big man than to a little one.

Tenders for Fair Building

TENDERS will be received by the undersigned up to August 5th for the erection of a new Fair Building at the Race Track grounds for the Grand Forks Agricultural Association, the building to be completed by September 15th. Plans may be seen at the office of the undersigned. The lowest or any tender not necessarily accepted.

W. E. HADDEN, Secretary.

Try Beaver Board Next Time

It will save all the muss and litter of Lath, Plaster and Wall Paper. It permits more beautiful interior designing in the most modern style. It never cracks or deteriorates, and needs no repairs.

BEAVER BOARD For walls and Ceilings

BEAVER BOARD is very quickly and easily put up; makes a house warmer in winter, cooler in summer; is painted, doing away with unsanitary wall paper, and has many other advantages. Let us show you samples and tell you all about it.

MANLY'S HARDWARE

The "BRIGHTEN-UP" Store

NEW HARNESS SHOP

I have re-opened a harness shop at my old stand on Bridge street, and will manufacture New Harness and do all kinds of harness repairing. All work guaranteed. Your patronage is solicited.
