

The Grand Forks Sun

and
Kettle Valley Orchardist

SIXTEENTH YEAR—No. 18 GRAND FORKS, B. C., FRIDAY, MARCH 2, 1917 \$1.00 PER YEAR

ESTIMATED RECEIPTS \$76,310

Cost of Running City Government During Year Placed at \$62,359

Mayor Acres and all the aldermen with the exception of Ald. McCallum were present at the regular meeting of the city council on Monday night.

A letter from Secretary Hull reported that the school board had received the government grant of \$90 for the school gardens, and the board turned the cheque over to the city. An agreement, the secretary stated, had also been reached with townsite company whereby a site for the proposed new high school, alongside the public school, consisting of three and one-half acres, could be secured for \$2500, and he asked that the sum of \$500 be placed in the supplementary estimates for the initial payment of same. The report was accepted and the amount ordered placed in the estimates.

A letter was read from the Penitentiary board of trade, acknowledging the receipt of the notification that Mayor Acres would be the delegate from Grand Forks to attend the interprovincial highway convention to be held at Victoria.

A letter from J. E. Thompson, M. P., expressed pleasure at the appointment of Mayor Acres as delegate to the interprovincial highway convention.

Mayor Acres reported having reported having received a letter from Hon. Martin Burrell, in which the minister of agriculture urged the people to engage in market gardening on city lots. The mayor suggested the city offer its vacant lots to the citizens who might wish to use them for that purpose. The matter was referred to the parks committee.

The financial statement for the past year was read by Auditor McCallum. The assets for the past year show an increase of \$17,570 over those of the previous year. The report was ordered printed.

The chairman of the finance committee reported that his committee had approved the following estimates:

Finance committee.....	\$26,641.66
Board of works.....	3,000.00
Fire department.....	1,000.00
Water department.....	2,475.00
Electric department.....	8,500.00
Health and relief.....	1,000.00
Police and license com'n.....	2,100.00
Cemetery committee.....	150.00
Schools.....	17,133.01
	\$62,059.70
Estimated receipts.....	76,310.10
Estimated expenditures.....	62,059.70
Estimated surplus.....	\$14,250.40

The chairman reported that during the past year all the committees had kept within their estimates with the exception of the water and light committee, which had exceeded its appropriation by \$1000. The tax collections for 1916 had been disappointing, only 46 per cent of the taxes having been collected. The committee recommended that a tax sale be held this year and that \$500

be placed in the supplementary estimates for the initial payment on a high school site. The report was adopted.

The finance committee reported that it could not see its way clear at present to recommend a grant to the patriotic fund, but hoped later to be able to make a donation without increasing the taxation.

The council decided to defray the expenses of the delegate to the interprovincial highway convention at Victoria.

The chairman of the board of works reported that the following tenders had been received for lumber in carload lots: Cascade Mills, \$17.50 f.o.b. Grand Forks; Republic Lumber Co., \$10 rough, \$11 surfaced, f.o.b. Republic; Robert Gaw, \$15 f.o.b. Kettle Valley station; Allen & Norris, \$14.50 f.o.b. Kettle Valley station. On motion of Ald. Schnitter and Sheads, the tender of Allen & Norris was accepted.

The chairman of the health and relief committee reported a case of destitution in the West end.

Mayor Acres reported that the police commissioners had decided to ask the council to recommend to the lieutenant-governor in council that the salary of the police magistrate be reduced to a nominal sum. On motion of Ald. Schnitter and Harkness, the council decided to comply with the request, and also to suggest to the lieutenant-governor that the salary be fixed at \$25 per month.

LIBERAL ASSOCIATION ELECTS NEW OFFICERS

The annual meeting of the Grand Forks Liberal association, in the board of trade rooms Wednesday night, was very largely attended. Owing to the unavoidable absence of President McCallum on account of illness, Vice-President Bonthron presided.

The election of officers resulted as follows: President, E. C. Henniger; vice president, John Donaldson; treasurer, John Wright; secretary, Frank Miller; executive, B. Lequime, Francis Miller, Frank Latham, Ed Hardy and P. H. Donaldson.

After the election brief speeches were made by the newly elected officers. President Henniger eulogized the retiring officers. A short business session was also held before adjournment.

METEOROLOGICAL

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Laws' ranch:

	Min.	Max.
Feb. 23—Friday.....	26	20
24—Saturday.....	23	2
25—Sunday.....	33	17
26—Monday.....	25	8
27—Tuesday.....	26	4
28—Wednesday.....	22	-1
March 1—Thursday.....	24	2
Snowfall.....		3.0

An output of 3000 tons daily from the Copper mountain properties of the British Columbia Copper company is planned when a concentrating plant has been erected, states Oscar Lachmund, general manager of the company. Five millions tons of ore have been proved by diamond drilling and tunnels.

RURAL SCIENCE IN PUBLIC SCHOOL

New Features Will Be Added to the School Garden- ing This Year

This year the board of trustees and the staff of the public school intend to enlarge the usefulness of the rural science studies, and in addition to the regular school gardening as carried on last year, they are offering assistance and guidance to the pupils in carrying out a few of the supplementary home projects as suggested by the department of education.

While the work is in no way compulsory for the pupils, many intermediate and senior students have already expressed a desire to undertake such projects. Boys will undertake the care, feeding and management of chickens, laying hens, young farm animals, and dairy cows; the care of home lawns or flower plots, and the collection of insects, plants and seeds. The girls also will undertake some of these, though many desire to follow the canning, cooking and sewing courses. Lessons in plain sewing will be given by two of the staff once a week to those pupils wishing to avail themselves of the privilege.

Pupils will be required to keep records of their work, so that it may be carried on intelligently, and in all of the projects the two aims—the educational and the economical—will be kept clearly in mind.

In the autumn, when the work is completed, the best products in both class rooms and rural science will be assembled for an exhibit.

PERFECT ATTENDANCE IN PUBLIC SCHOOL

The following is the list of pupils of the Grand Forks public school who have been neither late nor absent during February. Measles is the chief cause of the poor showing:

PRINCIPAL'S CLASS—ENTRANCE PUPILS
Hope Benson, Wilfred Brown, Dorothy Burns, Helen Campbell, Bernard Crosby, Merle Herr, Mildred Hutton, Cecelia Lyden, Loretta Lyden, Abram Mooyboer, Robert O'Connell, Vernon Siddell, Frances Sloan, Mary Stocks

DIVISION II
Teddy Cooper, Howard DeCew, Alfred Downey, Ray Forrester, Margaret Fowler, Alice Galipeau, Corena Harkness, George Hodgson, Margaret Michener, Jennie Miller, Antoinette Schliche, Marjell Spraggett.

DIVISION III
Orville Baker, Mary Beran, Randolph Davis, Marjorie Keron, Nellie Mills, David McDonald, Flora McDonald, Gladys McLaughlin, William Nelson, Boyd Nichols, Emile Panton, Amy Peckham, Jeannette Reburn, Helen Simpson, William Sprinthall, Jennie Stanfield, Frances U'Ren, Oswald Walker.

DIVISION IV
Connie Burdon, Clara Brunner, Arthur Brynton, Kenneth Campbell, Fred Cooper, Clarence Donaldson, Ruth Eareby, Grace Green, Thelma Hutton, Lawrence McKinnon, Alberta McLeod, James Needham, Harold Quinlivan, Alice Ryan, Jeff Ryan, Dorothy Schliche, Freda Stocks, Iye Waldron, Lillian Brown.

DIVISION V.
Francis Crosby, Alphonse Galipeau, Horace Green, Hardy Griswold, Lem John, Ruth Larana, Dorothy Latham, Vera Lyden, Anna Marovitch, Clarence Mason, Ethel Miller, Elsa Morella, Hilda Smith, Clare U'Ren.

DIVISION VI.
Herbert Clark, Gertrude Cook, Dorothy DeCew, Fred Galipeau, Lizzie Gordon, Edna Luscombe, Kenneth Massie, George Manson, Ivan Morrison, Lilyd Quinlivan, Walter Rushleigh, Emerson Reid, Bertie Scott, Hazel Waldron, Mildred Wetherell.

DIVISION VII.
Janet Bonthron, Edith Eareby, Frank Gordon, Edna Hardy, Dorothy McLaughlin, Pulina Mohler, Louis O'Keefe, Henry Reid, Peter Santano, Elton Woodland, Vera McAllister.

DIVISION VIII.
Newton Chapman, Dorothy Davidson, Edgar Galipeau, Dorothy Grey, Paul Kingstou, Francis Larana, Blanche Mason, Marion McKie, John Santano, Fay Walker, Kathleen Wilkinson.

DIVISION IX.
Theodore Asimus, Emmet Baker, Eugene Fitzpatrick, Frank Griswold, Neville Kirk, Joyce Kirk, John Kingston Marion Kerby, Donald McKinnon, Clarence Truax, Ellen Wright.

DIVISION X.
Walter Manson, Bonnie Chapman, Eric Clark, Edmund Eareby, Clarence Fowler.

\$3,000,000 DEAL DEPENDS ON ORE TEST

A shipment of ten tons of ore from the Voigt property, near Princeton, was made last week to the Greenwood smelter. The ten tons were made up of picked samples, and the ore was shipped by express. It is said that the \$3,000,000 with New York capitalists now pending hinges largely upon the result of this smelter test.

W. R. Henderson and Dr. Rutherford head the syndicate. Emil Voigt owns the property.

The Voigt property on Copper mountain is among the best known non-producing mineral claims in the province. It is nearly fifteen years since Emil Voigt located his first claims on that mountain, and since that time he has gradually been adding to his holdings until now there are about fifty claims. Upwards of \$50,000 has been spent in exploration work consisting of diamond drilling, shafts, tunnels, open cuts, pits, etc., so that some large bodies of low grade ore have been fairly well proven. No shipments on a large scale have been made, but test shipments have been sent out from time to time.

Many deals for the property have been reported in the last few years. Some of these were started but none were ever consummated, although in each succeeding deal more work was done, more ore proven and more value added to the property. At times it was rumored that Mr. Voigt had been bought or frozen out, but he always managed to emerge with the property still tight in his grasp. Finally he began to negotiate with New York men who are operating in British Columbia as the Pacific Syndicate, Limited. The negotiations have been going on since last November.

Minister of Mines Sloan says that no change in taxation on mines or ores have yet been considered, and that any reports to the contrary are premature and unwarranted.

SHORT COURSES NEXT WEEK

Well Known Speakers on Farm Topics Here Next Thursday and Friday

The spring meetings of the Grand Forks Farmers' Institute will be held in this city on Thursday and Friday, March 8 and 9. On the program as speakers for the first day, at 8 p.m., are W. E. McTaggart and M. S. Middleton. The former will speak on "Advertising and Marketing Fruit," and the latter will take for his subject, "Control of Apple Scab." On Friday, at 1:30 p.m., Dr. A. Knight will speak on "Live Stock Diseases" and H. E. Upton on "Poultry Raising."

Everywhere one hears, and particularly the man on the land, that greater production is necessary if we are to lower the cost of living. The Rt. Hon. David Lloyd George, in an address a short time ago, asked the farmers of the empire to put forth every effort to produce increased crops this year. The Hon. Martin Burrell only a few days ago made the same appeal to the farmers of Canada.

That the farmers of British Columbia will do their share there is no doubt, but perhaps some are not as familiar with some phases of farming and fruit growing as they should like to be. To help farmers and fruit growers to overcome their difficulties, the department of agriculture, in working with the College of Agriculture of the University of British Columbia, has arranged an itinerary of meetings throughout British Columbia where members of the two staffs will talk on agricultural matters. The speakers are all experts in their own particular lines and are speakers of no mean degree.

W. E. McTaggart, prairie markets commissioner, whose office is in Calgary, will tell of the prairie markets for fruit. He will also talk on advertising and what was done in 1916 to advertise British Columbia fruit throughout western Canada.

H. E. Upton, poultry instructor, will talk on poultry matters. Mr. Upton has had many years' experience and is an authority on this phase of agriculture.

M. S. Middleton, district horticulturist for the Kootenay, will deal with horticultural questions with special reference to apple scab. Mr. Middleton will be listened to with interest, as he is a close student of fruit pests and has given much study to their control.

Dr. A. Knight, chief provincial veterinary inspector, will tell of the ailments so common among live stock. Dr. Knight will no doubt tell his audiences many things about the proper care and attention needed when ailments and diseases affect the livestock.

The annual apple packing school opened in the opera house last Monday morning under the supervision of E. C. Hunt, provincial assistant horticulturist. This year there are twelve pupils, male and female. The school will close tomorrow night.

FRIDAY, MARCH 2, 1917

THE first legislative session of British Columbia's first Liberal government opened at Victoria yesterday. The people have not yet become thoroughly accustomed to the political change, and the proceedings of the present session will therefore be closely scrutinized by citizens who in past years have taken no interest in such matters.

IF the price of pork climbs much higher, there is no reason why a gentleman should not feel highly complimented when he is referred to as a hog.

NEW BRUNSWICK joined the Liberal column last Saturday. The Conservative provinces in Canada can now be counted upon two fingers.

MARCH came in like a lion. This was probably owing to the fact that the Woman's Suffrage Act came into force on the first of the month.

IT has been truly said, Blessed is the fool, for he can butt in where his advice is not sought without the knowledge, that he maketh a fool of himself.

WAR is just what General Sherman said it was. At least that is the opinion of men who have to do with newspapers. Look at the size of the London and provincial papers today. In Germany over twelve hundred papers have died, but they doubtless deserved death. However, eight hundred "neutral" sheets in the neighboring republic also have been extinguished by the pestilential breath of war. High cost of material did it. —Victoria Times.

LIQUORLESS punch featured the ball of the Sacramento Bartenders' union at the California capital on the 26th ult. No booze was allowed on the premises. This information was contained in the invitations issued for the event. The average bartender never takes a drink, the banqueters said.

IN a country town, following the morning sermon, the leading citizen stepped to the platform and raised his hand for attention, which was immediately given him. "Brothers and sisters," he said, "we have listened to a powerfully fine sermon on prohibition this morning by our beloved pastor. It has moved

me wonderfully. I am sure we have all profited by it. We are glad the ministers are taking such an interest in temperance, and hope others will follow their example until it is wiped out of our fair land."

THE cheapest thing in California is sunshine. In Kentucky it's moonshine.

MANY a man's wife dresses stylishly because his creditors can afford it.

ANA many a girl marries the wrong man because the right one failed to propose.

THERE are many touching incidents in the life of a chronic borrower.

NEVER judge a man by his stylish clothes —perhaps his wife bought them.

MANY a man walks around on his uppers because he is unable to run into debt.

The Sun, at \$1.00 per year, gives its readers three times more reading matter than any other Boundary paper. This fact accounts for the rapid increase in our circulation.

Besides being read by all the intelligent people of Grand Forks, The Sun goes to every ranch home in the Kettle and North Fork valleys. No other Boundary paper can give advertisers this guarantee.

SNAP--IF TAKEN AT ONCE

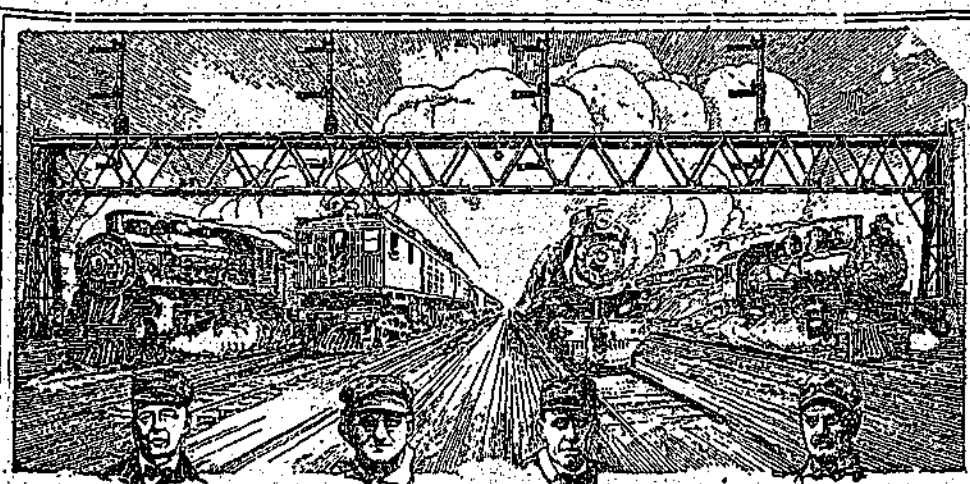

8-Room House and Two Lots on Garden St.

Lots 100 feet by 300 feet deep; chicken coops, etc. Will sell cheap for quick sale. Will sell for less than half what it cost owner; \$1300 if sold soon. Will give time if needed. Is handy to school. Garden has good soil, and enough potatoes and vegetables can be raised for a large family. Would make an ideal home for a smelterman.

Terms—\$200 or \$300 cash; balance monthly payments of \$25 or \$30

 OCTOBER 7th, 1916.

**OFFICE BOY IMITATES
LATE MARK TWAIN**

It is just as easy for a two year-old boy to edit a newspaper as it is for a pompous, bewhiskered man of forty five. It doesn't require any special talent aside from knowing how to spell Timbucktoo and then setting the stuff up upside down, collecting bills and exchanging subscriptions for laundry. One nice thing about running a newspaper is that, in the event the genius who aspires to undertake the job can't do it the first shot out of the box, there are generally enough who think they can do it to advise him how it should be done. Here is the way L. L. LeBram, writing in Successful Farming of the trials of the office boy, sizes up the situation:

Deer folks: Now I know why editors go mad. I been trying to run this paper while the editor is on his vakashun. For three days and nites I been reading questions and trying to answer them, and if I don't quit I'll be going around talking to myself. I'm going to answer a few more and then go to the ball game. —Jimmie, the office boy.

1. What is a limberneck?—J. Jones.

A limberneck in the country is a strange disease of fowls and chickens. In the city it is a disease of human persons caused by watching fowls—and chickens.

2. Do small cows give condensed milk?—Mable B.

No, Mable. Condensed milk is made by trying to get a quart of milk in a quart milk bottle.

3. Please tell me how hash is made?—W. M.

Hash is not made; it accumulates.

4. Is it all right to feed hogs corn in the ear?—G. K.

No. Put them in a trough and let them help themselves.

5. I am in love with a homely girl who works for us, but she does not seem to care for me, while a pretty girl with lots of money wants to marry me. What shall I do?—Will M.

Marry the one you love, and send me the name and address of the other one.

6. My hair is beginning to fall out. What can I get to keep it in?—H. P.

A sack.

7. Please tell me how to raise a nice fat hog of about 500 pounds?—X. Y. Z.

Get a derrick.

8. How can I tell when the water is the right temperature for bathing the baby?—Young Mother.

If the kid gets red and hollers, the water is too hot. If he gets blue and shivers, it's too cold.

9. I am 40 years old, have a nice little farm, and am thinking of taking a wife. What would you advise?—Old Batch.

I would advise you to be careful about whose wife you take.

10. Our old red bull is chasing me around a 40 acre field. What shall I do?—Mike F.

I don't know, but don't give up, Mike; the editor will be back in a week.

Several papers having reference to the copper mining and metallurgical industries, and others to mine safety matters, will be read at the 24th general meeting of members of the western branch of the Canadian Mining Institute in Vancouver on March 15.

**10 CENT "CASCARETS"
FOR LIVER AND BOWELS**

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

**NO RACE SUICIDE
IN THIS FAMILY**

Fra Torro McRaye relates that while he was clerking in a shoe store in Quebec, the following order was received from a worthy habitant:

"Monsieur,—Please put some shoes on my little family, like this, and send by Sam Jamison, de carrier:

"One man, Jean St. Jean, thirty-nine year, me; one woman, Sophie St. Jean, thirty-eight year, she; Hermedes and Leonore, nineteen year; Honore, eighteen year; Celena, seventeen year; Narcisse, Octavia and Philias, sixteen; Baptise, fifteen; Celeste, fourteen; Phillipa, thirteen; Emile and George, twelve; Babette, eleven; Madore, ten; Pierre, nine; Eugene, we lose him; Paul, seven; Alphonse, six; Gaston, five; Armand, four; Maurice, three; Edouard, two; Muriel, one year; Hilare be go barefoot. How much?"—The Fra

When a woman pounds the piano she does it because she wants to, or because her neighbor doesn't want her to.

**THICK, GLOSSY HAIR
FREE FROM DANDRUFF**

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots, famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

**GRAND FORKS ASTONISHED
BY MERCHANT'S STORY**

A merchant relates the following: "For years I could not sleep without turning each hour. Whatever I ate caused gas and sourness. Also had stomach catarrh. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-i-ka relieved me INSTANTLY." Because Adler i ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. Woodland & Quinn, druggists.

**IT'S THE STEADY
ADVERTISING
THAT BRINGS
THE STEADY
TRADE TO YOU**

Isn't the news of your store something like the news of the whole city?

There is news every week in Grand Forks—some weeks more than others—but every week there is news.

Isn't there news in your store every week? Isn't there something to advertise?

Your customers are shopping every week. Aren't you losing many of them the weeks you do not advertise?

It's the steady trade that counts with a store—it's the steady advertising that brings the steady trade.

RESOLVE—To use news paper space regularly, and be sure it is in The Grand Forks Sun.

**Speaking Easily and
Directly Into the
Telephone**

Even telephone men of long experience are surprised at the greater voice distinctness when speaking directly into the telephone. When you speak directly into the telephone, a lower tone of voice can be used, and your friend can hear easily.

Moreover, when you speak lower the actual tone qualities of your voice are transmitted. When you speak loudly, you unconsciously adopt an unnatural tone of voice, with the result that much of that intimacy that should be associated with face-to-face conversation is lost.

A close position to the telephone means easy talking and easy hearing.
