SEED GROWERS FORM SOCIETY

Prominent Speakers Address the Meeting--Officers Elected--Growing Seed Is a Profitable Industry

A very healthy Seed Growers' association was born in this city on Wednesday evening.

The organization meeting, which was presided over by C. A. S. Atwood, who had been appointed president for this district at the recent meeting of the central organization at Penticton, was held in the farmers' room in the court house. The attendance was a record one for a farmers' meeting, indicating that the ranchers of the valley are taking a keen interest in this new industry.

The speakers of the evening were R. H. Helmer, superintendent of the Dominion experimental farm at Summerland, and W. T. Hunter, our local horticulturist, who lives at Penticton but whose district embraces the Boundary.

Mr. Helmer's address dealt with the practical growing and cleaning of seed. During his remarks he was frequently interrupted by questions from those present, all of which he answered very lucidly, and when he resumed his seat all the farmers in the room had a pretty clear idea of the requirements of growing first class seed.

Mr. Hunter dealt with the commercial value of seed and the marketing of the same. He read a couple of interesting letters showing the vast market for British Columbia grown seed. This province was peculiarly adapted for growing seed, and all the seed required in the Dominion should be produced in British Columbia. Vast sums of money were annually sent out of Canada to the States and to Europe for seed.

Both speakers emphasized the fact that if the seed could be marketed through farmers' organizations seedling growing would indeed prove to be a very profitable industry.

On motion of Messrs. Padgett and Heaven, the meeting decided by a unanimous vote to form the Grand Forks Seed Growers' association.

The following officers were elected: President, C. A. S. Atwood; vice-president, T. Padgett; secretary, James Little; directors, Messrs. C. C. Heaven, H. W. Collins, J. T. Lawrence, E. C. Henniger, Reese Logan, Thos. Powers and W. E. Carpenter.

A resolution was adopted placing the new association as being in favor of Penticton as the most central point for the location of the central warehouse and selling station of the provincial associations.

A great deal of enthusiasm prevailed at the meeting. Much sample seed was brought to the hall by those attending, and this was much admired and favorably commented upon by the visiting speakers.

MEETING OF THE FARMERS' INSTITUTE

A meeting of the Grand Forks Farmers' Institute was held in the farmers' room in the court house on Saturday evening. President Mann occupying the chair. Many matters of interest to the ranchers of the valley were discussed. But the principal topic appeared to be as to the advisability of the farmers of the district engaging more extensively in seed growing. The views of those present seemed to indicate that this is a profitable branch of agriculture, and that the soil and climatic conditions here are specially adapted to this industry.

A letter from the department at Victoria, stated that the price of stumping powder had been reduced to \$3.58, f.o.b. Vancouver or Victoria.

A letter from the deputy minister of agriculture asked for data on co-operative work in the valley.

On motion of Messrs. Padgett and Glaspell, a resolution was adopted instructing the secretary to put in application to the department for one of the seed fairs to be held in the province next fall.

A letter from the agricultural department stated that the government field grain competitions would be discontinued this year.

On motion, Mr. Kidd's membership was transferred from the Kettle Valley institute to the Grand Forks institute.

ALL WAS NOT JOY WHEN PEACE CAME

From an officer at the front:
"All was not joy in France on the morning of cessation of hostilities. I was walking along one of the boulevards in C—, when I observed two Highlanders arguing vehemently. As I approached, the smaller of the two came up to me, saluted smartly, and said, 'Excuse me, sir, but is it official about the armistice?' 'Absolutely,' I replied, expecting to see his determined face break into a smile of contentment. Instead, it fell several degrees as he exclaimed in disgust, 'Well, that's two francs A've lost.'"

Realism

The new British war minister, Winston Churchill, told a good story recently concerning a conversation he overheard between a couple of artists at one of the sea power exhibitions so popular just now.

Said one wielder of the brush, "I received a magnificent tribute to my skill the other day at this exhibition."

"Indeed," replied his friend. "What was it?"

"You know my picture, 'A Storm at Sea?' Well, a man and his wife were looking at it, and I overheard the lady say, 'Come away, my dear; that picture makes me sick.'"

All His Fault

One witness in a recent police court case was an old Irishwoman.

Immediately the prisoner's lawyer asked her a question she began talking, and talked and talked and talked.

"Stop! Stop!" ordered the magistrate, hammering on his desk.

But the old woman talked on.

"Here, you in the witness box, do be quiet!" thundered the magistrate again. "Oh, do stop for a minute!"

And the old woman still went on. Then the magistrate turned angrily on the lawyer.

"Look here, Mr. Muggs," he shouted, "you started her—now stop her!"

MEETING OF CITY COUNCIL

Reward of \$10 Offered for Information Leading to Conviction of Persons Guilty of Destroying Property in City

The regular meeting of the city council this week was adjourned from Monday night to Thursday evening. Last night all the members were present with the exception of Mayor Harkness. In the absence of the mayor, Ald. Miller presided.

Mrs. Atwood and Mrs. Niles addressed the council on behalf of the Daughters of the Empire. They said that if the council would employ a man to take care of the cemetery the Daughters of the Empire would bear a portion of the expense in consideration of the graves of deceased soldiers being taken care of. The council assured them that the plan would be given due consideration, and then referred the matter to the cemetery committee with instructions to bring in a report.

A letter was read from J. E. Thompson, M.P.P., advising the council that a section had been added to the Municipal Clauses Act allowing the consolidation of outstanding debentures. The council decided to consolidate the 1919 and the 1920 debentures and to issue new bonds to take care of the old ones. Referred to finance committee to perfect the details.

The chairman of the board of works recommended that C. A. S. Atwood's offer of \$57 for the heavy wagon be accepted. Recommendation accepted.

Ald. McCabe complained that in many parts of the city boards had been removed from the sidewalks and railings torn down, presumably by boys. The council decided to offer a reward of \$10 for information that would lead to the conviction of any person or persons destroying property in the city, and the citizens were asked to report all such cases.

On motion, it was decided to change the license for taking water out of the Kettle river for city purposes from two million gallons to half a million gallon per diem.

The street sprinkling question came up for consideration. A statement was made showing that some \$26 was outstanding at the end of the year for sprinkling. The clerk was instructed to notify the parties in arrears to make a settlement on or before April 15 or legal action would be taken against them.

A Delicate Hint

The morning milk delivered at the parsonage was certainly weak, and the head of the household considered it necessary to remonstrate. "Are you aware," he remarked to the milkman, "that we require this milk for the hitherto recognized purposes?"

"I hope so, sir," replied the tradesman.

"That's all right, then," replied the parson gently; "I merely mentioned it in case you might have tonight we wanted it for the font."

News of the City

The Granby company produced 1,610,735 pounds of copper in February. This is compared with 3,156,486 pounds in January last and with 3,842,686 in February, 1918. The earnings in February of this year were probably the smallest in any month in recent years, due to the shortness of the month, the low price of the metal as compared with 1918, and the production, which is the lowest since August last. The costs have been 10½ cents or more at Anyox and about 19 cents at Grand Forks, according to the statement of stockholders, when copper was sold at 25 cents a pound. The cost at Grand Forks has been reduced by a reduction in wages within recent weeks. Idleness was forced on the Anyox plant by fire early in this month. The damage, estimated at \$50,000, may be repaired within a few weeks.

Sergt. A. N. Mowat, who went overseas from this city, and Miss Ethel Whiting, daughter of Prof. and Mrs. J. E. Whiting, of London, England, were married in St. Leonard's church, Seaford, on February 24, 1919. The ceremony was performed by Rev. S. Shelborn. The bride, who was given away by her father, was attended by Miss Edith Raper and Miss Dorothy Cox, the groom being supported by two comrades with whom he had fought side by side in France—Lieut. Geo. Sargeant and Quartermaster Arthur Carlisle, both of Grand Forks. After luncheon the happy couple left for Lewes, Brighton and London on their honeymoon amid the congratulations of a host of friends. The bride is well known in the Boundary country, having resided with her brother, W. H. Whiting, at Kettle Valley, previous to the outbreak of the war.

Work will be commenced very shortly on the South Kootenay Power & Light company's power line between Greenwood and Copper mountain. The Vendome hotel at Anaconda has been renovated and will be used as a boarding and bunk house for the men working on the construction of the line.—Greenwood Ledger.

Corp. Thomas, of Illinois, who enlisted with the Canadian army, and who has been visiting at the home of Mr. and Mrs. P. Barker for a month, left the latter part of last week for Victoria to obtain his discharge from the army.

Mrs. Harold Averill and son left for Spokane Wednesday to take up their residence there. Dr. Averill has formed a partnership with Dr. Plwood in the Inland Empire city.

Fred Dady left for Penticton Tuesday to inspect the lands in the Osoyoos district on which the provincial government is settling a colony of returned soldiers.

O. B. Smith, of Vancouver, says that the Granby company wants 1200 men for its Anyox plant.

W. K. C. Manly was taken to the hospital Tuesday, suffering from pneumonia.

A. C. Barr, a former resident of the valley, returned to the city yesterday.

FUNDS AVAILABLE FOR IRRIGATION

Delegation Returns From Victoria With Good News--Work Will Be Started as Soon as Possible

The delegation sent to Victoria last week by the citizens of Grand Forks and the Kettle valley to interview the government regarding the proposed irrigation project in this valley, returned on Monday with the definite assurance that funds for the enterprise are available and that work on the system will be commenced as soon as the engineer decides on a feasible scheme for the ditch.

The delegates, Messrs. Lawrence and Manly, state that Hon. Mr. Pattullo, minister of lands, addressed a signed letter to Mr. Thompson, member for Grand Forks riding, in which the minister stated that as soon as the engineer had worked out a feasible scheme he would recommend to the executive that work be commenced on the system.

Mr. Cleveland, chief water rights engineer, also gave a signed letter to Messrs. Manly and Lawrence, saying that he had instructed Mr. Biker, the district engineer at Nelson, to get on the ground as soon as the weather would permit and complete the survey and send in his report, when Mr. Cleveland would take the matter up with the Washington state officials at Olympia. Mr. Cleveland could see no reason why work on the system should not be commenced this summer.

Mr. Lawrence was instructed to notify Mr. Biker when the ground is ready for resuming the survey.

Messrs. Manly and Lawrence speak in very high terms of praise of the courteous treatment accorded them by Mr. Thompson, M.P.P., Hon. Mr. Pattullo and Mr. Cleveland. They say that the entire time of these gentlemen was placed at their disposal during their stay in Victoria.

THE WEATHER

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Laws' ranch:

FRIDAY, MARCH 28, 1919

Holders of Canadian war bonds in Canada will draw nearly \$60,000,000 in interest this year. What will they do with it? If they are wise they will re-invest a large portion of it in war savings stamps. It is of the utmost importance to the country that they should do so. Of the more than 1,000,000 holders of Canadian war bonds, probably not 10,000 were owners of Canadian government securities before the outbreak of war. Ninety-five per cent of them had never invested in securities of any kind. The great majority probably were not regular savers. If they do not re-invest in war savings stamps at least a portion of their war bonds interest, there is danger that they may be lost to the large army of savers which it is desired to recruit in Canada. This would be a misfortune both to themselves and to the Dominion. The burdens following the war are so heavy that no person can afford to waste money. Those who do so take a long chance. Not only should people save, but they should also put their savings into a security of unquestioned value that will pay well, and they can get nothing better than war savings stamps.

Henry Ford, the Detroit manufacturer of motor vehicles, plans to put upon the market an automobile to sell between \$250 and \$300. This will provide motors for the masses. But what about the effect on trolley and steam railway lines? Who will pay the increased cost of maintaining roadways and what about the values of real estate in cities when interurban areas will have such attractions for the average worker with a motor car? These are some of the questions the Christian Science Monitor suggests will arise as phases of the new problems when everybody owns a flivver. It believes, however, that the introduction of the new car should relieve urban trolley congestion, should open to the wage and salary earners better opportunities for the employment of home life far from the crowded city, and should add immensely to the convenience and comfort of families in moderate circumstances. It wisely adds also that Mr. Ford's decision has possibilities that reach down to the very roots of discontent with the present economic conditions, on the one hand, and to the very foundations of far-reaching economic reforms, on the other.

The efforts of the professional athlete adds nothing to a nation's production, and the world would have been just as well off if the war had eliminated him from our present-day civilization. Amateur athletics, on the other hand, serve to keep the race healthy, and should therefore be encouraged.

Some time ago a wholly unfounded report was current that the United States legislation ratifying the migratory bird treaty with Great Britain had been declared invalid by the United States supreme court. The constitution of the United States provides that a treaty is supreme and that any legislation which provides for the enforcement of the terms of a treaty can not be declared unconstitutional, consequently the legislation passed by congress last August giving the United States department of agriculture the authority to apply

in the United States the terms of the treaty can not be successfully attacked on this or any other grounds. A few years prior to the ratification of the migratory bird treaty, congress had passed legislation which purported to give protection to migratory birds, and it was desirable that it be declared invalid that all conflict with the 1918 act be avoided. The act of August, 1918, has not been attacked and can not be attacked successfully.

"Now what good is the robin? Everybody knows the robin. A boy came along the road with a .22 rifle, saw a robin sitting there, and killed it. I went over and picked the robin up. Two cutworms were squirming on the ground. The robin had had them in his beak. I held the bird up, and two more fell out of his mouth. Remember, one cutworm will cut down five tomato plants in a night. The cutworm does work and then hides under the soil; Mr. Robin comes hopping along, picks in there and pulls him out—and turns him into a robin. If anyone tells you that a robin will destroy one hundred cutworms in a day, take it from him that it is true."—Jack Miner at the National Conference on Game and Wild Life.

There is one good feature about the spring styles in ladies' wear. The skirts are so narrow that none of the women will be able to run away.

Evidently there is at least one official in Ottawa who is not aware of the fact that he is the servant of the people. The postmaster of Grand Forks recently wrote to the department for information on a point in regard to filling out the income tax blanks. He received a rather brusque reply, saying that he had nothing to do with this question; all that was required of him was to see that the blanks are distributed. As he is asked for a ruling on this point many times every day, we are decidedly of the opinion that he has something to do with the question. We also believe that it was the duty of the official to furnish him with the desired information in order to place him in a position to enlighten the public on a question that has caused a great deal of controversy in this district at least.

So far, no one appears to have given a satisfactory reason why spring was so tardy in arriving this year. Perhaps the League of Nations was really to blame for this, too!

The United States will go back to the daylight saving schedule on Sunday, the 30th inst. Canada will probably continue to work under the present time system during the coming summer.

THEY LIE IN FRANCE WHERE LILIES BLOOM--Percy Allen, in N. Y. Times

They lie in France
Where lilies bloom;
Those flowers pale
That guard each tomb
Are saintly souls
That smiling stand
Close by them in
That martyred land.

And mutely there the long night shadows creep
From quiet hills to mourn for them who sleep,
While o'er them through the dusk so silently
The grieving clouds that slowly drift to sea,
And lately round them moaned the winter wind,
Whose voice, lamenting, sounds so coldly kind,
Yet in their faith those waiting hearts abide
The time when turns forever that false tide.

In France they lie
Where lilies bloom
Those flowers fair
For them made room
Not vainly placed
The crosses stand
Within that brave
And stricken land;
Their honor lives,
Their love endures,
Their noble death
The right assures.

For they shall have their hearts' desire;
They who, unflinching, braved the fire,
Across the fields their eyes at last shall see
Through clouds and mist the bonds of victory.

Eyestrain will affect the mental and physical development of your child

Many parents, while particularly careful of their children's health and food, neglect entirely the condition of their eyes. While the child's eyesight may appear normal, often there exists a strain or weakness that seriously affects the health. This condition is aggravated by study and school work and in time will likely result in serious trouble. A visit to a competent optician will determine the exact condition and if any defect exists the trouble can be corrected. Later on this may be more difficult. We give expert advice, competent and reliable service.

SOUR, ACID STOMACHS, GASES OR INDIGESTION

"Pape's Diapepsin" neutralizes excessive acid in stomach, relieving dyspepsia, heartburn and distress at once.

Time it! In five minutes all stomach distress, due to acidity, will go. No indigestion, heartburn, sourness or belching of gas or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach sweetener in the whole world, and besides it is harmless. Put an end to stomach distress at once by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by fermentation due to excessive acids in stomach.

25c buys a Thrift Stamp.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only. Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims. Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to

LAND SETTLEMENT POLICY ADOPTED

VICTORIA, March 24.—The settlement policy which the legislative rehabilitation committee believes the Dominion and provincial governments would follow in connection with placing the soldiers on the land is one by which the established agricultural districts in the southern section of the province would be filled up first. This is the tenor of the committee's third rehabilitation report submitted in the house by Chairman G. G. McGeer.

The first report, that recommended a grant of \$250,000 to a reorganized soldiers' aid commission, was adopted in the house Friday. The debate on the adoption of the second report, which advocates the establishment of trawling on the coast to give employment to returned soldiers on the trawlers and in marketing, curing and similar fish establishments, was adjourned by Hon. Mr. Pattullo. Mr. McGeer, committee chairman, outlined both of the reports.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

Or to the Dairy

Little Betty, just initiated in the first teachings of Sunday school, had displayed especial interest in a future life.

"Mother, will I go to heaven when I die?"

"Yes, if you are good."

"Will my dog go, too?"

"No, because dogs have no souls."

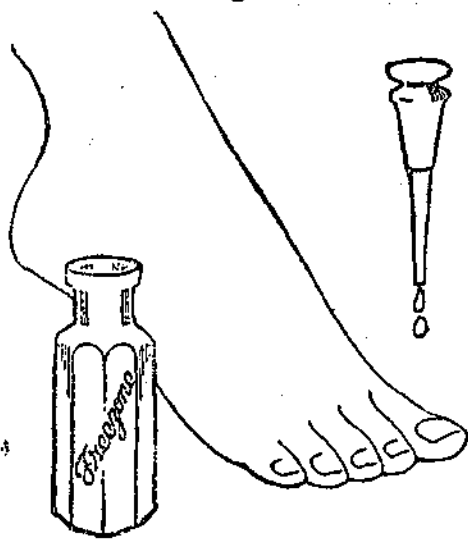

A pause, then eagerly: "Well, will our cow go?"

"No. Animals have no souls."

"Oh, then we'll have to go to hell for our milk."

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

TAKEN UP

On March 10, 1919, at my ranch on Fisherman range, one bay pony; no visible brands. Owner must prove property and pay charges within a reasonable time, or the animal will be disposed of.

S. CARRUTHERS,
Colton, B. C.

Make a "Saving" Resolution.

It's the Truth

The first physicians by debauch were made;
Excess began and sloth sustains the trade.
By chase our long-lived fathers earn'd their food;
Toil strung their nerves, and purified their blood;
But we their sons, a pamper'd race of men,
Are dwindled down to threescore years and ten.
Better to hunt in fields for health unbought
Than fee the doctor for a nauseous draught.
The wise for cure on exercise depend;
God never made his work for man to mend.
—John Dryden.

What Everybody Thinks

"Better consider my course in efficiency training. I can show you how to earn more money than you are getting."

"I do that now."

Why Joe Left Home

"Dear Joe—Come home. Forgive and forget. I have destroyed the book of war recipes. — Violet."

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

DUNLOP

Gibraltar RedSpecial Belting

BELTING STABILITY

There has been such uniformity of satisfaction following the selection of

DUNLOP

"Gibraltar RedSpecial"

—"THE ORIGINAL RED RUBBER BELT"—

that we feel our quarter-century policy of "Keep the Quality Up as Well as the Production" is being amply rewarded.

"Gibraltar RedSpecial" faces any kind of a test unflinchingly. The man who wishes to talk power, "duck," or elasticity can find ample sway for his talents in a comparison of "Gibraltar RedSpecial" with any other belting.

Minimum loss of power. Mastery of heavy loads and jerky strains. Highest quality of friction uniting the plies. Adequate weight. No Stretching—these are some of the virtues of Dunlop "Gibraltar RedSpecial" Belting, proven in thousands of cases of actual use on Main Drives in Pulp and Paper Mills, Saw and Lumber Mills, Mines, Steel Plants, etc.; in fact, in any and every kind of transmission work.

The Dunlop Unreserved Guarantee

If you have a difficult drive anywhere in your factory drop a line to our Head Office, or to our nearest branch, and we will send a man experienced in belt engineering to consider your requirements. If it is an instance where "Gibraltar RedSpecial" Belting may be suitably employed we will recommend its use; and we will stand behind our recommendation with the fullest guarantee ever issued by a firm producing rubber products.

land, of Greenwood, only two cases were heard. J. A. McCallum and Geo. Pell appealed from the assessment on their improvements. Both appeals were granted.

Word has been received in this city that Pte. Murray James sailed from Rhyd, Wales, on the 13th inst. on the steamer Critic. The Critic arrived at Halifax last Monday, and Mr. James will probably reach this city the first of next week.

S. J. Miller has rented the store-room in the Gaw block, next the Singer store. It is being remodeled and will be used for sample rooms at the court house in this city on Wednesday, before William Lake-

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

James Cadoo returned from Spokane on Monday. Mrs. Cadoo is a patient at St. Luke's hospital in that city, having undergone a serious operation early last week. She is now recovering nicely.

N. L. McLunes returned from Spokane on Monday.

J. T. Lawrence and W. K. C. Manly returned from Victoria on Monday via Spokane.

Dr. Guy returned from Vancouver Saturday, having secured his military discharge.

The Riverside Nurseries have begun to ship nursery stock to outside points.

John McLaren returned from the coast on Wednesday.

Frache Bros. are making large shipments of hot-house products to the Kootenays and to the prairie provinces.

H. Weber went to Phoenix Wednesday on business.

Bob McCutcheon is importing several carloads of dry lumber from Republic.

Billy Jewel went to Grand Forks hospital last Sunday, suffering from an attack of the grippé.

Mrs. C. F. McDougall has recovered from the influenza. She left the hospital on Tuesday.

LIBERAL MEETING

The annual meeting of the Grand Forks Liberal association will be held in the Russell building on First street on Friday evening, April 4, at 8 o'clock, when officers for the ensuing term will be elected and business of a general character transacted. All members are requested to attend. C. V. MEGGITT, Secretary.

The Frown or Smile Depends on You!

Everyone responds to courtesy, face to face or "telephone to telephone." Not one person in a hundred is "set" in his telephone manners; not one in a hundred will reply with deliberate brusqueness if the smile in your voice reaches him, or her.

A genial telephone voice makes that true cordiality which is the basis of successful business and real friendship.

BRITISH COLUMBIA TELEPHONE COMPANY, Ltd

CORPORATION OF THE CITY OF GRAND FORKS

REWARD OFFERED

A reward of \$10 will be given for information that will lead to the conviction of any person or persons guilty of wilful destruction of property in the City. Citizens in general are requested to report all cases of such wilful destruction to City Office, so that a stop can be put to this pernicious habit.

JOHN A. HUTTON,
City Clerk.

NOTICE

FURS! FURS! FURS!

SHIP TO US DIRECT
THE TOP MARKET PRICE PAID
AND EQUITABLE GRADING MADE
NO DELAYS AT ANY POINT

We are registered with and recognized by the United States War Trade Board and all of the Collectors of Customs under license P. B. F. 30, and you can send your furs direct to us by our tag or any tag, changed to suit, if marked "Furs of Canadian Origin," and your furs will come right through.

FAIR GRADING

The rules and ethics of the Exchange do not permit of sending out alluring price lists, yet we give you an exact and expert grading and pay you at a rate of five to twenty-five cents more on the dollar than the average advertising fur company, as we cut out all middleman's profit in dealing direct with you.
