THE PROVINCIAL TAX SALE OF LAND

**Rossland Paper Says the
Printing of the List Is
Being "Farmed Out"—
Taxpayers Kept in Dark**

For some time it has been known that a tax sale would be held soon of the lands upon which taxes are owing to the provincial government, government agents everywhere being busy of late in arranging the lists for publication.

It now appears that the government is to play a sneaking trick on the property owners and "slip one over on 'em."

Take Rossland for instance. How many Rossland property owners will know whether or not their lands are offered for sale. The publication of the Rossland list has been "farmed out" to a paper which we venture to say has not even a dozen readers in this section, and which is not published in this district.

The Daily Miner never as much as expended a postage stamp in an endeavor to secure this business.

The list properly belonged to the paper published in the district and in justice to the taxpayers should have been published in the Daily Miner, which is generally read, not only because the taxpayers would have been in a position to protect their interests, but also because the government would have had that publicity of the list which would have brought them the returns which an advertiser most desires—if they desired this. But it appears they do not want the property owners to know what is going on. No other object can be figured out of the manipulation, except it may be political trading.

It appears also the plan is general that the government is struggling hard in manipulating matters that they may hold on in the general election, which is forecasted to be held next spring before the soldiers overseas can return and assert themselves in their determination to run affairs of state as they desire them to be run after they have made the sacrifices they have in protecting their homes and the Dominion against greed,

It can not be said that the Daily Miner is disappointed in not publishing the business. We knew if there was any possible hocus-pocus by which the manipulators could keep the business away from this paper it would be done, but we are calling the attention of the people to the rank injustice of the matter which is so vastly important to everyone, especially those property and mortgage claim owners, who are absent from the city at present, who have interests hereabouts, may be engaged in mining or prospecting, but who take the home paper while they are away that they may know what is going on here, and that they may know what to do to protect their interests when such matters arise.

Ask yourself if the square deal which was promised everyone when the politicians were casting about for

votes is forthcoming. The Daily Miner has no fight with the government, but when it does those things which demand that the taxpayers shall be weaned, this paper will criticize, and when anything is undertaken in the interests of the people this paper will as readily give the government credit for the same.

Our advice to the taxpayers of the Rossland district is to make enquiry of the government agent as to the status of their holdings lest this scheming should result disastrously for them and their property be lost, or that they will be put to unnecessary expense at a time when few can afford to have additional burdens placed upon them.—Rossland Daily Miner.

News of the City

In an auto collision near the Hardy bridge on Monday afternoon there was one person slightly wounded on the casualty list. W. M. DeCew's car, driven by Mr. Dunn, and Sam Matthews' Chevrolet, driven by Eddy Barrett, came together at that point. Mr. DeCew's car was badly wrecked, but was able to proceed to this city under its own gas, while Mr. Matthews' car was put out of action entirely. Pete Thompson, of the Lynch Creek hotel, was slightly injured about the face. The other persons in the accident had narrow escapes.

Vant Bros. on Tuesday sold their transfer, coal and wood business to Peter Hansen and Stanley Davis, who took immediate possession. E. Vant will retain the Imperial Oil business and the management of the Dominion Express company's office, which will continue to occupy the old premises.

A 400-pound bear was trapped on the Grand Forks company's land on Wednesday. He was on exhibition in P. Burns' shop yesterday.

An aged man named Miller, a rancher near Curlew, Wash., died in the Grand Forks hospital on Wednesday. The remains were taken to Curlew for burial.

Harold Brinkman, of Danville, and Miss May Lyden were married at the home of the bride's parents in this city on Wednesday, Rev. Father Pelletier performing the ceremony.

F. W. Warren, Mr. and Mrs. B. B. Mills and Dr. J. Hay, of Trail, were in the city on Monday.

The concert in aid of the Red Cross society, in which twenty children took part, drew a crowded house last Friday night and the entertainment was a big success. William Cook announced the numbers on the program.

A. D. Morrison has sold his apple crop to P. Burns & Co., of Calgary. He is receiving \$1.75 for No. 1's.

Corpl. H. McKibben, of the Canadian flying corps, visited in the city over Sunday while en route from Vancouver to Toronto.

Wm. Thomlinson, the government ore sampler and collector, left on Tuesday for the Arrow lakes district.

F. W. Russell has erected a neat residence on his ranch.

CONTRIBUTORS TO K. C. FUND

**Subscriptions Amounting
to \$499.80 Collected in
the City for the Army
Hut Fund**

The campaign of the Knights of Columbus for army hut funds resulted in the collection of \$499.80 in this city. Chairman J. V. Jaeger and Secretary-Treasurer McKinnon wish to thank all those who contributed to the fund and also to the ladies and gentlemen who so kindly offered their services canvassing. The individual subscriptions ranged from \$10 to 25 cents. The following is a list of those who contributed to the fund:

POTATO SEED SELECTION

Like begets like in the potato field as elsewhere, but judging by the quantity of inferior tubers used for seed purposes, the importance of this law is not appreciated by many. The use of small potatoes taken from the bulk of the crop, year after year, and used for seed will eventually lead to yields of inferior potatoes.

At potato digging time the great opportunity for seed selection is offered. With the product of each plant spread on the soil it is an easy matter to select out those plants that have given the largest yield of the most desirable type of potato and are free from disease. The potatoes from such plants only should be gathered and saved for use as seed the following year. This saving of seed at digging time may seem to many as an extra burden during a rush of work, but it is not.

There is less actual labor attached to seed selection at the time of the potato harvest than there is by practicing any other method of seed selection. Furthermore, the results from hill selection are reasonably certain, while with other methods there is some speculation. Potato growers would do well to watch closely for exceptionally good plants. These, harvested and saved apart from the main crop, may become the grand dads of fine potato fields in the future.

CUSTOMS RECEIPTS

R. R. Gilpin, customs officer at this port, makes the following detailed report of the customs receipts at the head office in this city and at the various sub-customs offices, for the month of September, 1918:

Grand Forks.....	\$1,051.59
Carson.....	313.01
Phoenix.....	133.17
Cascade.....	120.65
Total.....	\$1,618.42

A. D. Nash, Bruce White and R. T. Lowery on Friday last interviewed Hon. Martin Burrell, the present minister of mines for the Dominion, in reference to having an ore-testing laboratory established in Kootenay. The minister promised to give his attention to the matter, and stated that probably three laboratories would be built in the west.

W. M. DeCew, of the Lynch Creek sawmill, left this week for a tour of the prairie provinces. He will go as far east as Winnipeg.

Fred Knight, of Spokane, and Resident Engineer Freeland visited the Pathfinder mine on Monday.

There are 65,000 pupils at the schools in this province and 2200 teachers.

WILL PRICES BE MAINTAINED?

**Fruit Markets Bulletin
Says Yes, and Gives Reasons Why Apples Will
Not Be Any Cheaper**

We meet a decidedly strong opinion among prairie jobbers that apple prices are likely to slip from present quotations, says the Markets Bulletin. There is nothing in the outlook so far as we can see to support them in holding this opinion. They contend that the high prices will limit consumption. This argument can not hold good with the No. 1 grade, as the bulk of the crop in this class is already sold. These are used mostly for fancy trade and by those who afford to pay. It becomes a matter of price then for the second and third grade apples. Last year there were 25 per cent more apples produced in the Northwestern states, where our competition comes from, and British Columbia reports 10 per cent less crop. If the consumption is somewhat less, so is the available supply. The shortage of small fruit has been general on both sides of the line. Sugar shortage has limited home canning considerably and the apple is the fruit more than any other that does not depend on the sugar supply for its sale.

Car shortage was largely responsible for the slip in prices last November. This year there is no car shortage reported. Eastern buyers are more active than formerly in Washington, and last week a block of 150 cars of ppples was purchased by them. C grade or No. 3 apples are quoted today at \$1.40 f. o. b. Yakima, and at this price there is little chance of any coming to Canada until the British Columbia supply has been exhausted. Industrial activity together with the improved business outlook at the Pacific coast will increase the demand for apples on the home market. Ontario has bought, or will buy, about 100 cars more of our apples than they did last year. Apples, like everything else, are a little higher than last year, but where can be found a cheaper substitute for them in the food list that is half as popular and health-giving.

There is only one factor that can seriously interfere with the apple consumption on the prairies, and that is delay in buying and shipping to small points until severe frost prevents it.

FRIDAY, OCTOBER 4, 1918

Canadian patriotism demands the practice of thrift by all her sons. The men who are holding the lines at home are they who are making it easy for the business of the country to go on with little jar to its mechanism. The steady pulling together of all citizens in the production of goods and in the conservation of all field crops marks the thrifty nation. Saving on the part of our citizens is going to be the greatest insurance we will have in Canada against a period of depression after the war. The combined capital of the individuals who make the country will form a fund of sufficient power to drive business along in a most satisfying way in spite of all prevailing hard times of such a period. The saving man is therefore a real patriot. He has Canada's interests fundamentally at heart. May his tribe increase in these days when wealth is piling up under the spur of war-time efforts. Save because it hits both ways. It is a high form of patriotism. And it gives one's country a leg up in a critical time. Put by that extra dollar now. The long procession of thrifty dollars will make a line that will not waver—Hindenburg or no Hindenburg.

The attention of the Canada food board has been called to the practice frequently adopted by licensed dealers in apples, turnips, potatoes, and other fruits and vegetables, of having men living in different parts of the country acting as their agents, buying or contracting such produce, superintending the loading of same on cars ready for shipment, and receiving a commission from said dealers for such work. All such agents operating in the manner mentioned, without first having secured a license from the board, are doing so contrary to the order dated 13th day of December, 1917, wherein it states: "That on and after the 1st day of February, 1918, no person shall deal wholesale in fresh fruits or fresh vegetables without first having obtained a license from the food controller," and in violating such order are guilty of an offence and subject to a penalty not to exceed \$1000 and not less than \$100.

The farmer's job is to grubstake this world. That is what you are up against, and it is quite a job. You can do it. You have done it for four years, and what was done then can be duplicated. There is no such thing as a food surplus in this world. The universe is living from hand to mouth as probably never before in its history. The stocks of food have been wiped out, and the producers have been

taken from the land in large numbers. The call to call to those remaining is much louder than ever before. It is more insistent, and its demands must be heeded. The full dinner pail is but a memory for millions on this earth. It can be filled sufficiently to keep life going, but it can only be filled by you. It can't be done in Europe. Not until the Hun is hammered into submission, not until peace is declared, and commerce resumes its wonted way can we let up for a minute. Get the plows on the land. Keep them working day and night. Turn over more acres of land. This can be done. You have the patriotism, the courage, and the heroism to do it. Plough.

Every ounce of every allied nation's strength is in the hands and brains and hearts of the individuals of each nation because they are free peoples.

The charge has been made by a number of papers in the Kootenays and in other sections of the province that the provincial government is "farming out" the printing of the delinquent tax sale lists for political support. If the government by this method should gain one-tenth the number of votes that it will lose by holding the sale it will be exceedingly fortunate.

Your money can not be neutral. If you save it, and lend it to the government, you are helping both your country and yourself. If you squander it, you are helping the Hun.

There are about 300 girl ambulance drivers in the Red Cross service in France. The only other women ambulance drivers in France belong to the first aid nursing yeomanry corps. There is a friendly rivalry among the Red Cross girls in the matter of keeping their "bus" spick and span. Whenever a trainload of wounded arrives the Red Cross girls must be on hand, and this means constant duty, day and night. Exceptionally good driving is a characteristic of each girl, and before undertaking this dangerous and arduous work a girl is required to pass a severe test at Devonshire house. Among other things she must know how to attain speed without jolting the wounded, as a bit of rough driving might prove fatal to the poor lad. Tenderness linked with courage of the finest and highest kind is always found in the girl ambulance driver. Ten shillings a week with expenses is the pay.

Thirteenth Commandment: Remember the Sabbath day and keep it gasless.

Men who join the American colors without taking out the maximum war-insurance policy of \$10,000 are getting scarce. To the beginning of September the American soldiers and sailors had filed 3,400,000 insurance applications and the government had written more than \$30,000,000,000 of insurance. In August the men applied for insurance at the rate of more than \$1,000,000,000 a week.

The price of the one-cent postage stamp has not advanced in Grand Forks since the war started.

Conserve Your Eyesight

No one can estimate the extent to which we must depend upon our eyesight to win this war. It is important then that our eyes be as nearly 100 per cent efficient as possible. This is an important consideration regardless of the work you are performing for your country. If your eyes are not normal they will not stand up under the strain, and headache and other troubles will be the result. We are specialists in Optical Work. Call and see us if your eyes are in need of help.

**Notice—Military Service Act, 1917
Men Exempted As Farmers**

Having in view the importance of leaving a sufficient number of men on those farms which are actually contributing to the national food supply, notice is hereby given as follows:

1. ALL MEMBERS OF CLASS 1 POSSESSING EXEMPTION AS FARMERS, which is expiring, and WHO WISH TO REMAIN EXEMPT, SHOULD communicate with the registrars under the Military Service Act OF THEIR RESPECTIVE DISTRICTS, REQUESTING AN EXTENSION IN TIME OF SUCH EXEMPTION. Questionnaires will thereupon be issued to these men by the registrar and they will receive further exemption upon furnishing satisfactory proof that they are contributing sufficiently to the national food supply.

2. In order to facilitate productive employment during the winter months, MEN EXEMPTED AS FARMERS SHOULD APPLY TO THE REGISTRARS FOR PERMITS TO ENGAGE FOR THE WINTER IN SOME OCCUPATION OF NATIONAL INTEREST, SUCH AS LUMBERING, MUNITION WORK, ETC. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on.

**IF YOUR CHILD IS CROSS,
FEVERISH, CONSTIPATED**

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

Serviceable Crockery

Many a housewife who daily listens to the crashing clatter of china breaking in the kitchen will see something beyond humor in the suggestion of the housewife mentioned in the Liverpool Post.

"John," said Mrs. Jenkins, looking up from the evening paper, "you know how many dishes Kate has broken lately?"

"Yes," replied John. "What of it?"
"Well," continued his wife, "there is something here in the paper about steel plates. I don't know just what they are, but I should think they would be indestructible, and the very things we need."

**10 CENT "CASCARETS"
FOR LIVER AND BOWELS**

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

TO every home there comes a time when every thought, every hope, every prayer for the future centres on the recovery of one loved one. In that hour of anguish, every means to recovery is sought—the highest medical skill, trained nurses, costly treatment. Does the price matter?

★ ★ ★ ★

It may be so great as to stagger the imagination—a sum beyond the possible.

But does anyone ask, "Can we do it?"

Money or no money, they do it. And somehow they pay.

It may mean doing without things they think they need. It may mean privations, sacrifices, hardships. They make unbelievable savings, they achieve the impossible, but they get the money to pay.

★ ★ ★ ★

To-day in this critical period of our nationhood, there is imperative need for MONEY—vast sums of money.

Only one way now remains to obtain it.

The nation must save, every community, every family, every individual Canadian must save.

If anyone says "I cannot save" let him consider to what extent he would pinch himself to relieve the sufferings of a loved one at home; and surely he would not pinch less for our fighting brothers in France.

Without suffering actual privations, nearly every family in Canada can reduce its standard of living, can practice reasonable thrift, can make cheerful sacrifice to enrich the life-blood of the nation.

You who read this, get out pencil and paper NOW. Set down the items of your living expense. Surely you will find some items there you can do without.

Determine to do without them.

Start TO-DAY. Save your money so that you may be in a position to lend it to your country in its time of need.

A KICK FROM EAST KOOTENAY

It had not been our intention to say anything about that "tax sale deal" which A. I. put through with the district ledger (anything is liable to happen on the other man's deal), but when that propaganda organ of bolshevism crawls from under the dung heap of Socialism, where it has been buried in silence for three years, and states that it received the advertising simply because it was the only paper in the district suitably equipped to get it out, we feel in justice to ourselves we ought to say something about equipment. Either the Cranbrook Herald or the Free Press could have published the statement, as they have on previous occasions, without an extra staff or equipment, but it was necessary for the Ledger to bring Frank Newnham from Calgary, a machinist operator from Seattle and borrow a pressman from this office several times in order to handle this wonderful job. The Cranbrook Herald was quite right in its reasons why the Ledger got the advertising. A I sees breakers ahead.—Herald, Free Press.

Tales of Awkward Squad

Two amusing stories, said to be quite true, in which two raw recruits in Camp Greene figure, are told in the Charlotte Observer:

One recruit on arriving received instruction in the necessity of saluting or of presenting arms to an officer

when carrying his rifle; he was told one or the other form of respect was necessary in all circumstances. Several days later, when the recruit was busy with a shovel of the bent handle type, an officer walked up. In his excitement he brought the shovel to "present arms," with the result that he slapped himself heavily in the face with the shovel. Although the officer laughed heartily, he sympathetically told the boy what should have been done under the circumstances.

Another newly enlisted infantryman was standing at "attention" while an officer inspected his rifle. When it was handed back he placed his hands on the gun above those of the officer.

"Below my hands!" growled the officer.

To the recruit the words sounded like, "Blow my hands." Accordingly, he blew a lusty puff with his face near his superior's hands. What happened then was not related.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so softened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

For Sale—The Graham ranch, on south side Kettle river near Billings. Well adapted for stock raising. Price \$12 per acre. Apply Donald McCallum, Grand Forks.

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

SYNOPSIS OF LAND ACT AMENDMENT

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions, with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained on these claims in less than 5 years, with improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes, areas exceeding 640 acres may be leased by one person or company.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

TOWNSITE PROPERTY ALLOTMENT ACT.

Provision is made for the grant to persons holding uncompleted Agreements to Purchase from the Crown of such proportion of the land, if divisible, as the payments already made will cover in proportion to the sale price of the whole parcel. Two or more persons holding such Agreements may group their interests and apply for a proportionate allotment jointly. If it is not considered advisable to divide the land covered by an application for a proportionate allotment, an allotment of land of equal value selected from available Crown lands in the locality may be made. These allotments are conditional upon payment of all taxes due the Crown or to any municipality. The rights of persons to whom the purchaser from the Crown has agreed to sell are also protected. The decision of the Minister of Lands in respect to the adjustment of a proportionate allotment is final. The time for making application for these allotments is limited to the 1st day of May, 1919. Any application made after this date will not be considered. These allotments apply to town lots and lands of the Crown sold at public auction.

For information apply to any Provincial Government Agent or to

Deputy Minister of Lands,
