# The Grand Forks Sun

and  
Kettle Valley Orchardist

**THE SUN** is the favorite newspaper of the citizens of the district. It is read by more people in the city and valley than any other paper because it is fearless, reliable, clean, bright and entertaining. It is always independent but never neutral.

**GRAND FORKS** is situated in the center of Grand Forks valley, the premier fruit growing district of Southern British Columbia. Mining and lumbering are also important industries in districts contiguous to the city.

TWENTY-SECOND YEAR—No 31

GRAND FORKS, B. C., FRIDAY, JUNE 1, 1923

"Tell me what you know is true: I can guess as well as you."

\$1.00 PER YEAR

## ROOM FOR MORE SHEEP IN B. C.

### Canadians Lack Faith in Natural Wealth of Their Country--Premier Oliver and Cabinet Working on Redistribution

Special Correspondence of The Sun.

Victoria, May 30.—One million sheep in British Columbia in 1930, is the goal aimed at by Hon. T. D. Pattullo, minister of lands, who states that the government is undertaking an educational campaign to increase the number of sheep raised in this province. At present, he says, there are only 50,000 sheep in British Columbia on the 16,000 farms of the province. There is room for 100,000 farms, but if only twenty head of sheep were carried on each of the 16,000 farms there would be a total of 320,000. The minister points out that every farmer should carry a few sheep. The cost of their keep is small, while their profits are large. Furthermore, there is a splendid home market for mutton, lamb and wool. At present British Columbia brings in 50,000 sheep annually for home consumption, as well as 3,000,000 pounds of dressed mutton and products. British Columbia is an ideal sheep country and the farmer has been passing up a sure thing.

More faith in the natural wealth of their own country instead of blind investments in foreign securities peddled by glid salesmen, would have meant a saving of millions of dollars to the people of British Columbia during the past three or four years, Attorney-General A. M. Manson declared when addressing a meeting of the Retail Merchants' association.

"British Columbia is the last country in the world that can afford to lack business initiative," he said. "We are commencing to experience a period of widespread industrial readjustment, and yet we find that many of our most promising enterprises, based on the natural wealth of the country, are passing into the control of foreigners. Have we no wealthy business men, or do they simply lack initiative and a pioneering spirit?"

A source of income to the government will be the coming sale of building lots at Point Grey. Part of the 3000 acres of government property comprising the university lands is being cleared and will be placed on the market this summer and fall, states Hon. W. H. Sutherland, minister of public works. It is understood that the proceeds from the sale of these valuable lands will go a long way towards paying for the university.

Premier Oliver and his cabinet have commenced the heavy task of redistribution of seats in the legislature of British Columbia, and it is expected that at the next session of the house, which must commence by December 15 and probably will start in October, a bill will be introduced providing for a rearrangement of provincial representation. At the last general election there were less than 1000 votes cast in several ridings, while large electoral districts in some instances have only one member. No decision can be given out as to what changes will be made but Premier Oliver declares he is determined to solve the problem in such a manner as to provide the

fairest representation possible for every part of the province.

Hon. William Sloan, minister of mines, has returned from the International Mining convention, held at Spokane, where he delivered an address on mining in British Columbia, past and present. A special mineral display was taken to Spokane, and no little interest was thus created in the great mineral wealth of this province. The minister claims that this will be the banner mining year in British Columbia, with a total production of from forty to fifty million dollars. British and American capital is becoming interested, while local investors are realizing that the finest investment opportunities on the continent are found within the borders of their own province.

### PUBLIC WORKS MINISTER ARRIVED IN CITY TODAY

Hon. W. H. Sutherland, minister of public works, arrived in the city today on his tour of inspection of the public highways in the interior of the province. He is accompanied by Mrs. Sutherland, Chief Engineer Philips, Mr. Patterson, member for Delta, and District Engineer Gwyer of Penticton.

Tomorrow the minister and his party will inspect the newly-constructed section of the transprovincial highway between Cascade and Rossland. From the latter city Mr. Sutherland will continue his journey to the eastern sections of the province.

### Creston Decides to Stay Outside the Associated Growers

Creston, B.C., May 26.—Creston valley's fruit crop (Wynndel excepted) will be sold entirely independent of the Associated Growers of British Columbia.

This was finally decided at a directors' meeting of the Creston Fruit Growers' union that lasted almost to 1 a.m. Saturday, and which was attended by A. M. Pratt, of Vernon, the Associated Growers' general manager, and Mr. Howe, one of the permanent directors of the Associated Growers.

Hon. J. D. MacLean, minister of railways, has returned from a thorough inspection of the Pacific Great Eastern railway and reports the line in splendid condition, despite the handicaps naturally encountered. The new schedule of operation provides for a bi-weekly passenger and freight service to Quesnel and a tri weekly service to Lillooet from Squamish. The new sleeping-car accommodation is meeting approval all along the line.

Hon. Dr. MacLean predicts that the operating deficit this year will be considerably less than in former years, and while it would be a large order at present to have the railway break even, that is the objective of the department.

E. Vant returned on Friday evening from a business trip to the coast cities.

The German Reparations  
Mademoiselle France (to Germany)—"In you go!"—From London Opinion.

### WORK COMMENCED AT ALLENBY

### Granby Plans to Have Its Plant in Shape to Start Mining and Milling in a Couple of Months

Definite instructions respecting the resumption of activity at Copper Mountain were received yesterday by R. L. Clapp, assistant general manager of the Granby company, says the Princeton Star. Mr. Clapp will have full charge of the operations of the newly organized Allenby Copper company, and will occupy the bungalow at Copper Mountain formerly used by Mr. Van Wagenen, general manager of the Canada Copper corporation.

So far as the Granby is concerned, the work at present will consist in putting the plant, both at the mine and the mill, in shape for operating. This will give employment to 100 men. The work of repairing the railway track between Princeton and the mountain is expected to commence at once and will employ a considerable force of men for about two months. The Granby company is planning to have its plant in shape to begin mining and milling by the time the railway spur is repaired.

The rains during the past week have brightened the crop prospects for those in the valley who are without irrigation facilities.

### NO. 2 UNIT NEARING COMPLETION

### Trustees Expect to be Able to Turn on Water in Two Weeks--Pipe-Making Finished

The installation of the No. 2 unit of the irrigation system is nearing completion, and the trustees expect to be able to turn the water on the land by the 15th of the present month.

The manufacture of the concrete pipe for the unit was finished on Wednesday, and the machine has been moved to Oliver, where it will be used for pipe-making for the government irrigation system at that place. It will be brought back to this city later in the summer if the Cascade irrigation scheme materializes.

The laying of the pipe for the No. 2 unit will take another two weeks, and by the end of that time the pumps should be here and installed ready for action. The trustees may not be far out in their calculations.

As an auxiliary to the pumping plants, the water of Morrissey creek will be piped and used for irrigating this unit by gravitation. This should materially reduce the power bill for pumping.

### Highway Reported O.K. for Autos Except at a Few Places at Slides

Only where slides have occurred, says the Rossland Miner, on the transprovincial highway out of Rossland to Grand Forks is the highway at all bad, is the report of Road Foreman Prestley, who came in from the work last Saturday evening. Autos can now make the trip to Grand Forks, and will only find the

going at all rough at a few points where the heavy slides have occurred.

### Boy Scout News

#### First Grand Forks Troop Boy Scouts

**Duties**—June 2nd to June 8th, inclusive, Owl patrol; next for duty, Wolf patrol.

**Parade**—Usual weekly parade at H.Q. on Friday, June 8th, 7:30 p.m.

**Promotion**—George Manson has passed the necessary tests and is promoted to be second class Scout as from May 29th.

**Notice**—The second class Scout prize for May goes to Clare Donaldson with a total of 34½ marks out of a possible 54.

During June each patrol should compete among its own members (on some other evening than Friday), with some judge appointed out of another patrol, in the four subjects taken in the prize competition. The winners of these—if second class Scouts—should be ready to compete on or about June 29th for the final competition of the second class Scout prize competitions.

### WEST KOOTENAY POWER BONDS TO BE OFFERED SOON

Vancouver, May 30.—The West Kootenay Power bonds that were authorized recently by the company, and which bear the guarantee of the Consolidated Smelting company, will be offered in a few days by the National City company and Hanson Brothers. The issue consists of \$1,750,000 of 6 per cent 20-year bonds.

Consolidated Smelting is virtually a C.P.R. proposition, and this gives the new bond issue a good ranking from the start. The company serves a number of towns and industries in the British Columbia mining and fruit districts, and is considered to have very excellent prospects.

The issue will likely be offered at par to yield 6 per cent to the investor.

An interesting feature concerning this company is that its bonded indebtedness is the lowest per developed horsepower—less than \$52—of any power company in Canada.

### GREENWOOD LIQUOR STORE ROBBED OF MUCH WHISKY

A report from Greenwood this afternoon stated that the government liquor store in town that had been broken into on Wednesday night and that between fifty and sixty cases of whisky were carried off.

The raiders, presumably from across the line, made good their escape with the goods. No arrests have yet been made.

The mineral wealth of British Columbia will be well displayed at the Empire exhibition to be held in Lonnnon next year. Hon. William Sloan, minister of mines, has about completed the collection of an elaborate outlay of samples of all ores recovered in the province, and these will be given a prominent place in the big show. In this way, he claims the attention of capital will be directed to the investment possibilities of British Columbia in a graphic way.

## REGULAR SESSION OF CITY COUNCIL

### Mayor Wishes Board of Trade to Assist Council in Its Argument for Retention of G.N. Station at Present Location

Mayor Hull and all the aldermen were present at the regular meeting of the city council on Monday evening.

S. T. Hull interviewed the council in regard to minimum taxation for school property in outside school districts. No action was taken by the council.

An offer by Neil Murray for lot 10, block 3, plan 1339, under tax sale regulations, was accepted.

The council approved the lease of lots 10, 11 and 12, block 28A, plan 121, to the Grand Forks Tennis club for a period of ten years.

A letter from the Granby company in regard to its holdings here was read and laid over for further information, which the clerk was authorized to procure.

By resolution, the council went on record as favoring the laying of permanent sidewalks under the local improvement plan, to replace plank sidewalks which can not be repaired economically.

The cemetery committee was authorized to lay the necessary water pipes in the cemetery, and also to have a gate procured and placed at the east side of the cemetery and to secure prices on sufficient concrete curbing for placing along the driveway in the cemetery.

New wheels for the scavenger wagon were ordered.

The band reported favorably on the room in the old Bower building for practice purposes, and were asked to submit estimates of cost of building a bandstand and to recommend a suitable location for the same.

Mayor Hull reported that the board of railway commissioners had commenced their tour of the west, and suggested that the board of trade assist the council in their argument for the retention of the Great Northern station where it is now located.

### THE WEATHER

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Law's ranch:

	Max.	Min.
May 25—Friday	73	52
26—Saturday	66	46
27—Sunday	66	41
28—Monday	64	43
29—Tuesday	63	53
30—Wednesday	69	44
31—Thursday	59	48

Inches  
Rainfall..... 90

Despite adverse criticism from opposition speakers of the legislature, the government's reclamation project at Osoyoos is now in a flourishing condition. The new town of Oliver is developing rapidly, and this year an additional 1000 acres of irrigated land will be placed on the market.

A band of gypsies, traveling by motor trucks and autos, swooped down on the city last Saturday. They left on Sunday to seek their fortune on the prairies, without leaving any fortunes in the minds of the credulous.

## Notes, Notions and Notables

Under the new income tax law just proclaimed in Russia monthly incomes below 1,350,000,000 rubles—which amounts to about twenty seven dollars—are not taxed. Above that the tax begins at 6 per cent and rises rapidly. Anyone who has an income that amounts to more than \$100 a month in American money must pay the government 80 per cent of the excess. The tax is aimed at the merchants and speculators who are taking advantage of the scarcity of every kind of article in Russia to make quick fortunes. It is said that there are a great many of such men whose income is now expressed in trillion of rubles a month.

Typhoid fever as a cause of death has almost disappeared in the cities where the water supply and the sanitation can be controlled. Last year in the larger cities the death from typhoid fell to 3.15 to the 100,000, less than a sixth of what it was twelve years ago. Back in 1882 it was about 60 to the 100,000. The improvement has not been so rapid in rural districts, but the situation was never so bad there as it used to be in the cities. There is a wonderful opportunity for medical officers and health boards in rural districts to wage a campaign against typhoid: for there is no disease that is more surely preventable.

From time to time various magazines have urged trout fishermen to use a barbless hook. A skillful fisherman would lose few fish through lack of a barb, and he could release an undersized fish without tearing its gills or holding it so tight as to rub off its protective covering of slime. Those who have tried fishing with a barbless hook find it more exciting and more humane, which means more sportsmanlike.

Years ago an Illinois barber traded his razor for a pick and a shovel and went to the Klondike. Having failed to find gold there, he started a barber shop the equipment of which included a cyanide tank. Clippings from the hair and beards of the miners were thrown into the tank for what they were worth. The barber asserts that he brought back half a million dollars' worth of gold with him.

A twelve-pound nugget of pure gold has been discovered in the Kilo state mines, in northeastern Congo. The nugget, which is worth a small fortune, measures four inches by seven inches and has the appearance of a small meteorite. Twenty years ago prospectors were assigned to various parts of the Congo. The man who had charge of the section that now includes the Kilo mines reported that there was no gold in his area, and asked for new territory. He was told to stick to his own zone, and later he found rich deposits.

The washable paper recently invented by a Japanese inventor is so durable that it can be used for umbrella covers.

Rev. William Wilkes, for a long time vicar of Shirley in England, died recently. He was a man of godly life and a faithful minister of religion, but the world will remember him as the man who gave it a new and lovely flower. It was in 1880 that Mr. Wilkes found in his vicarage garden a white-edged variant of the common scarlet poppy. He saved and planted the seed. Only a few plants produced the white edged flower, but those he carefully bred. The stock showed remarkable power of

variation, and after a number of years the clergyman-botanist had produced not only white edged poppies but pure white, yellow, pale pink and many other colors with golden centers instead of the black centers of the original field poppy. Those interesting and beautiful flowers now growing in almost every garden in the world are called Shirley poppies from the place of their origin.

One reason why farm products are not so high priced as other things is that the demand for most farm products is not cumulative. People can not put off eating till another year and then come to the table with a double appetite.

German housemaids continue to flock to any country where there is a chance for them to make a living. Holland is said to be overrun with them. A German steamer recently docked at New York with one hundred and thirty-five aboard. The girls, most of whom say that they are good cooks, were willing to work for wages below the ordinary rate.

Some day the cactus may prove to be one of the most useful plants. Its value as a water reservoir has long been appreciated; lately it was found suitable for ensilage. Now come two other uses. In South Africa a man has found a way of converting the juice of the prickly pear into industrial alcohol, and an experimenter in Cuba asserts that he can make a superior quality of rubber from the juice of a certain kind of cactus.

A man ought to be thankful when his wife declines to accept an excuse when he has none to offer.

The newest formless poetry is nothing but gas; you can tell that by looking at the meter.

A woman always selects a good listener when she wants an entertaining companion.

Don't howl if occasionally you get it in the neck; be thankful that you are not a giraffe.

A pretty woman knows best the value of a smile, but all smiles have intrinsic worth.

An undertaker has to look sad no matter how much it pleases him to get the job.

It's up to some genius to inaugurate a correspondence course in lawn mowing.

## Ancient History

Items Taken From The Grand Forks Sun for the Corresponding Week Twenty Years Ago

The Grand Forks baseball club won from both Phoenix and Greenwood at Midway on Victoria day.

About thirty Grand Forks citizens were in attendance at the reception to President Roosevelt in Spokane on Tuesday.

J. F. Royer, of the Model livery barns, will establish a stage line between this city and Greenwood and Phoenix, to be operated in connection with the V. V. & E. trains.

Last Saturday night every inch of the 12,500 feet of water mains, completing the Grand Forks waterworks system, had been laid and tested.

Mrs. E. C. Henniger, of East Helena, Mont., is visiting her parents, Mr. and Mrs. Francis Miller.

The assessment roll of the amalgamated cities for the present year, as reported by City Treasurer McCallum, is as follows: Improvements, \$555,515; land, \$844,135; total, \$1,399,650. The showing is a very satisfactory one.

## CONSERVE YOUR SIGHT

THE STRAIN of modern civilized life falls heaviest upon the eye, the hardest worked and most neglected of all the human organs. The constant need of close-range vision; the continual exposure to the glare reflected from pavement and buildings or from high-powered electric lights, all expose the eye to terrific strain. Many suffer from eye-strain without being conscious of it. Have your eyes examined and know. We are admirably equipped for this work.

**What a Thing to Say!**

Emily, aged 8, had been spending a fortnight with her aunt, a lady who had small experience with children and less patience. After the little girl had come home a letter arrived from auntie making a report of the visit. Mother, says Punch, read the letter over and then called Emily to her.

"Emily," she said, "I'm sorry to say your aunt gives a very poor account of you. 'Naughty, untidy, unpunctual, untruthful, inclined to be limp—'"

"Does auntie really write all that?" interrupted Emily.

"Yes, she does."

Emily looked shocked. "What a thing to say to the child's own mother," she cried.

Any manicure artist will draw the line at the finger of scorn.

**TIMBER SALE X5114**

SEALED TENDERS will be received by the District Forester, Nelson, not later than noon on the 9th day of June, 1923, for the purchase of Licence X5114, near Fisherman Creek, North Fork Kettle River, to cut 15,000 lineal feet of Poles and 1500 Hewn Ties. One year will be allowed for removal of timber. Further particulars of the District Forester, Nelson.

**Here and There**

Panama canal tolls for April amounted to \$1,878,987

About \$2,300,000 is to be spent on the construction of roads and bridges in the province of British Columbia this year.

The Customs and Excise revenue for April amounted to \$20,500,000, an increase of \$5,000,000 over the receipts of April of last year.

Emigrants numbering 15,000 left Scotland for Canada during the first four months of the year, according to consular estimates in Glasgow.

Canadian flour has at last been placed on the Panama market. One boat has just loaded the first consignment of any size, 1,000 barrels being taken.

Seventy-five per cent. of the copper produced in Canada in 1922 was the output of British Columbia mines. The Canadian production for the year was 43,321,402 pounds, of which British Columbia accounted for 32,432,521 pounds.

The famous Chateau Frontenac husky dog team, remembered by visitors during last winter's sports season, is being perpetuated. One of the dogs has just given birth to three pups, and if the youngsters turn out to be like their parents the Chateau Frontenac team is likely to continue winning dog derbies.

Fishing licenses in the Maritime Provinces have been reduced. The special fishery regulations for Nova Scotia, New Brunswick and Prince Edward Island have been amended to provide that in many instances where the license has been more than a dollar it will now be one dollar.

No limit will be set to the help to be offered to new settlers in the agricultural sections of the province of Quebec, according to Premier Taschereau. The latest government provision is to pay colonists at the rate of \$4.00 per acre for land cleared on their colonization lots since 1920. \$7,000,000 have been voted for provincial colonization.

The decision of the Canadian Pacific Railway Company to scrap agreements of sale with 30,000 Canadian farmers in the west and enter into new contracts with them, extending over 34 years on an amortization basis, will affect agreements of a value of approximately \$100,000,000, and relieve many farmers of heavy, pressing debts.

The new motor ferry operated between Victoria, B.C., and Bellingham, Wash., develops a speed of 14 knots in adverse weather. This motor driven vessel, recently launched, is the first of its class to be used in this service and the first to be added to the Canadian Pacific fleet. It has a capacity for 50 automobiles.

Abraham Martin, first Scotch settler in Canada, first King's Pilot on the St. Lawrence and first farmer on the Plains of Abraham, which were named after him, has been honored by the Canadian Pacific Steamships, Ltd., at Quebec by the erection of a granite shaft. Hon. Athanase David, Provincial Treasurer of Quebec, officiated at the unveiling ceremony recently.

Two thousand Canadian Red Men are expected to participate in the Calgary stampede and to move on to Banff for their celebrations and pow-wow on the Indian Days, July 16th and 17th, during which the citizens of Banff will act as hosts. Pony racing, wrestling on horseback, shooting with the bow and arrow, tent-pitching and camp making contests are among the features.

**Sycophancy**

There is a story of a chemist who was lecturing before a European sovereign who had professed a curious interest in that branch of science. At the critical moment in an experiment the chemist announced with a low bow to the king:

"Sire, these two gases will now have the distinguished honor of combining in the presence of your majesty!"

Which they accordingly did!

It's the worst wheel that makes the most noise in the world.

**News of the City**

The spring assizes will open in Vernon next Tuesday, when three criminal cases and one civil case will be heard. It is not known who will be the presiding judge, but it is presumed it will be Mr. Justice Murphy. He is at Kamloops this week. One of the criminal cases is that of the North Fork Doukhobor who is charged with an attempt to burn the Spencer schoolhouse.

The tent caterpillar scourge appears to be worse in this district this spring than in former years. The pests seem to be more numerous now than they were last year. The only way to get rid of them is to make a determined effort to exterminate them.

A. L. McCulloch, of Penticton, general superintendent of the Kettle Valley line, was in the city yesterday. He made an inspection trip over the branch line to Lynch Creek.

The school trustees have repaired and fitted up the old Columbia school house for Doukhobor children, to replace the building at

Spencer, destroyed by fire a little over a week ago. The school was opened yesterday, but no report has yet been made respecting the attendance.

Gilbert Orser, a late arrival from the prairie, has purchased George Elliott's orchard property in West Grand Forks, and he and his family have taken possession of the same. Mr. Elliott and his family have gone back to the prairie country.

George K. Stocker, who is identified with the Cascade Development company, and R. G. Ritchie, merchant, of Cascade, were in the city on Tuesday.

C. Mitchell and family are late arrivals in the city who have taken up their residence near the Grand Forks hotel.

Mr. and Mrs. L. Bryant returned to Greenwood, on Saturday, after a visit with relatives in this city.

Crop prospects in this valley were never better than at present.

Leslie Steele, of the B. C. Telephone company, and wife left for Vancouver on Sunday.

Thomas Orser, of Portland, Ore., arrived in the city this week and will visit his parents for a couple of weeks.

**ASPIRIN**

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

*Genuine*

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

- Colds
- Headache
- Rheumatism
- Toothache
- Neuralgia
- Neuritis
- Earache
- Lumbago
- Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

**DIRECTORS**—Hon. Martin Burrell, Hon. President; Hon. J. G. Turfiff, President; A. H. Fitzsimmons, Vice-President; Edward Grand, Secretary; C. Blackett Robinson, Cor. Secretary; J. F. McKinley, Treasurer; Lt.-Col. Whiton, M.D., R. H. Campbell, Thomas Mulvey, K.C., A. E. Provost, W. Lyle Reid, A. J. Freiman, Charles H. Pinhey, C.E., W. J. Cairns, and Tom Moore.

**TRUSTEES**—C. H. Pinhey, C.E., Thomas Mulvey, K.C., A. J. Freiman. **Legal Adviser**—Bankers—Auditor—John I. MacCracken, K.C. Royal Bank of Canada. A. A. Crawley, C.A.

The Objects of this Institution, for which Incorporation was recently obtained, are: "To provide a Home and Refuge for Baby and Infant Blind; to provide free Scientific Care, Training and Maintenance; to Save the Lives of even a few of the many of such unfortunates, who, for the lack of such service, perish every year; and to return these little ones to their parents, at school age with normal, healthy bodies and sound minds."

This is a large and greatly needed Child Welfare Service. Careful enquiry at the Government offices in the various provinces reveals the fact that there are at the present time nearly 250 Infant Blind in the Dominion. Nothing has yet been done for those helpless little ones. In the United States, 16 years ago, the first home was opened in New York City; they have now homes in 13 States, all doing excellent work. In England, some time ago, Sir Arthur Pearson organized "Sunshine House," Chorley Wood, for Blind Babies, and he claims that it is the only one in the British Empire. Let us have the SECOND in Canada. To reach this worthy end money is urgently required. Fifty Thousand Dollars is the present objective of the Board. While the Home is to be located in Ottawa it will take in the Baby Blind from every province, so that this APPEAL for funds will be Dominion wide, and an early and generous response is confidently expected. Cheques should be made payable to the Canadian Blind Babies Home Association. All remittances will be promptly acknowledged.

**RIDE THERE ON CLEVELAND**

IT brings the whole country for miles around within easy reach. Have you seen the new models? They're as graceful as swallows! As bright as new coin! As weatherproof as a duck! Automobile Steel Bearings, Frame of English Seamless Steel Tubing, Hard Maple Rims, Hercules Brake, Everything complete. Real Quality. Real Value. Easy Terms. We are the people to mount you right.

**WATER NOTICE**

**DIVERSION AND USE.**  
TAKE NOTICE that the Cascade Development Co. (foreign), whose address is Cascade, B. C., will apply for a licence to take and use ten miner's inches of water out of Moody Creek, which flows easterly and drains into Christina Lake one-half mile from the foot of Christina Lake. The water will be diverted from the stream at a point about one-half mile west of Lot 316, Group One, and will be used for irrigation purposes upon the land described as Parts of Lots 285 and 289. This notice was posted on the ground on the 25th day of May, 1923. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Grand Forks, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is June 1st, 1923.

**Synopsis of Land Act Amendments**

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre. Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$100 per acre, including 5 acres cleared and cultivated, and residence of at least two years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homestead; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 60 acres may be issued by one person or company.

Mill, factory or industrial sites on timber land exceeding 40 acres may be purchased; conditions include payment of stameno.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

**PRE-EMPTORS' FREE GRANTS ACT.**

The scope of this Act is enlarged to include all persons joining or serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 25, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enactment to March 31, 1920.

**SUB-PURCHASERS OF CROWN LANDS.**

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Apportions must be made by May 1, 1920.

**GRAZING.**

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for soldiers, campers or travellers, up to ten head.
