VOL. 1 GRAND FORKS AND COLUMBIA, B. C. THURSDAY, MARCH 13, 1902. NO. 109

TELEGRAPHIC NEWS

LEGISLATIVE PROGRESS.

Victoria, March 12.—The house yesterday continued the discussion on the speech from the throne, after Colonel Prior had been introduced by Messrs. Dunsmuir and Wells amid loud cheers.

Mr. Hunter spoke for the government, and Mr. Curtis replied at length, slating the Martinites for their inconsistency, attacking the premier's position in selling his railway to the Canadian Northern while still premier, and declaring in favor of a referendum before any valuable concessions are made by the government, as well as a referendum on whether the Coast-Kootenay road should be undertaken as a government or a competitive railway. Mr. Curtis submitted an amendment to the address declaring the Canadian Northern terms unsatisfactory, while declaring for the railway; declaring for a line to the north end of Vancouver island with a branch to Alberni and control of rates thereon, also for immediate work on the Coast-Kootenay line and for the reenactment of the anti oriental legislation.

The sitting closed with unseemly recriminations over alleged advances made by the present opposition to the old opposition to defeat the government.

The official count of the election closed at noon yesterday, the return being: Prior, 1539; Bodwell, 1484; majority for Prior, 55.

PRAISED BY LORD ROBERTS.

London, March 12.—The Daily Chronicle understands that Lord Kitchener will be relieved of much administrative work in South Africa to enable him to take the field in person and lead a large mounted force in an edeavor to capture De Wet. The Chronicle is also informed that when he is released Gen. Methuen will not assume any military command in South Africa. A casualty list shows that four officers were killed and ten wounded, including Gen. Methuen, dongerously. He is doiug well.

Lord Roberts, commander in chief, who announced the British disaster in the house of lords, said that General Methuen for nearly two years had carried on his work with zeal, intelligence and great perseverance, adding that the General was beloved of his men, and no work was too dangerous nor difficult for them or General Methuen. The commander in chief was sure the house was deeply grieved at what had occurred. He would ask their lordships to concur with him in his sympathy for the galleut officer in his present unfortunate position and defer adverse criticism until they had more information as to what was directly responsible. From Delarey's conduct throughout the war they could all be assured that General Methuen would be taken care of.

UNCLE BAGS THE ISLANDS.

Copenhagen, March 12.—The Folkething committee met in executive session today and voted by a large majority in favor of the ratification of the treaty providing for the sale of the Danish West Indian islands to the United States.

SPORTING GOODS BURNED.

Chicago, March 12.—The five story brick warehouse of the Brunswick-Balke-Collander company, located at Wells and Superior streets, was practically destroyed by fire. The loss is $175,000.

STILL THEY COME.

Winnipeg, March 12.—Over 100 carloads of settlers' effects from the east have passed through the city en route for western points over the C. P. R. since yesterday morning. Colonists are passing through the city daily, while a greater number ara entering the territories over the Soo line at Portal. The cheaper government and railway lands are being snapped up quickly and settled on by incoming settlers.

THREATENS THE PREMIER.

Victoria, March 12—Mrs. Dunsmuir, wife of Premier Dunsmuir, has received a letter from an anonymous writer warning her that if she did not keep her husband at home he would be shot. The premier handed the letter to the police, but took no other notice.

TORONTO NEWS.

Toronto, March 12.—Wm. Boyd, 40 years old, a laborer, who frequented the Salvation army lodging house, was found dead on the floor of an upper room last night. Death was due to natural causes.

The city council last night by a vote of 22 to 2 voted against giving a contract for street paving to a Ghicago firm, despite the fact that the firm's tender was the lowest. It was rejected because it was American.

Mr. Marter, Conservative, gave a new turn to the Prohibition question in the legislature last night by proposing that a plebiscite be taken at the general election as to whether the people desired the submission of the prohibition bill to a referendum. If the people voted against submission there would be no necessity for a separate vote on a separate day at great cost. Premier Ross said this matter might be considered before the bill came up again.

The master painters have decided to declare a lockout on March 17th if their employees persist in their demands for increased wages.

THURSDAY, MARCH 13, 1902

Some citizens of Columbia, who had hoped to receive assistance from the city council in adopting and carrying out a plan of general street tree-planting, feel somewhat disappointed at the, what thy term, indifferent attitude of the council toward this matter at its last meeting. There are reasons for commending the efforts and desires of the citizens who are seeking to improve the streets and beautify the city theyby not only enhancing the value of realty but rendering the locality attractive as a residential place. There are also reasons why the council just at this time should hesitate about increasing the city's obligations. In the planting of trees the time must be considered, and delay of a week or two may mean, wait till next year, hence the anxiety of the tree-planting promoters. While the action of the council may be wholly justifiable, it seems a pity that this initiative cannot be aided to the extent of a $125 appropriation, even though it increase taxation a trifle. What we want is growth in population, which would tend to lighten individual taxation.

Statistics carefully compiled show that 9,000 persons went to Nome last season; and that 10,200 have returned or are returning, leaving about 4,-000 in the district for the winter. There were 80 vessels, steam and sail, engaged in the Nome traffic, carrying from Seattle 55,000 tons of general freght. The estimated receipts for the transportation of freight and passengers are $1,874,000, and the value of of the freight shipped from Seattle $5,500,000. About $4,500,000 gold has been shipped from Nome this season.

There has been of late an outbreak of criticism and admonition of the press of Canada. The givers of advice have not been newspaper workers but clergymen, college professors and other worthies. There are just now several newspapers offered for sale. Why do not the critics take a hand in the game they seem to know so well?

LACROSSE MEETING

Officers Were Chosen for the Coming Season.

In conformity with previous announcement the devotees of lacrosse held a meeting at the Board of Trade rooms last night. It was largely attended and enthusiastic. In the absence of L. A. Manly, president of last season's club, Geo A. Fraser was called to the chair. Later Mr. Manly arrived. For this season the following officials were chosen: President, L. A. Manly, First Vice, G. A. Fraser; Second Vice, A. M. Denham; Sec.-Treas, A. O. Cochrane; Captain, Fred W. Grant. Executive committee—K. C. McDonald, A. E. Savage, E. Miller, W. D Betts and A. Henderson. It was decided to affiliate with the British Columbia Lacrosse association, and work under the rules of that body. A committee consisting of J. W. Holland and George Clark, was appointed to interview the managers of the local Driving Park association with a view of procuring playing ground facilities.

CITY SUNBEAMS

Thomas Gray, of Nelson, B. C., and D. H. Davison, of Winnipeg, registered at the Pacific last night.

J. E Ard, a prominent Spokane mining man, was a guest at the Pacific hotel last night, and left for Republic this morning on the Hot-Air passenger train.

Mrs. Wm. Hunter, H. C. Shaw, of the firm of Hallett & Shaw, Attorneys at Greenwood, G. F. Williams and Judge Leamy came in from that city yesterday.

L. Mondoux, formerly of the Queen's hotel, Columbia, went to Eholt this afternoon.

This section was visited yesterday afternoon with a miniature cyclone. For ten minutes or so it looked a trifle dangerous, but no serious damage resulted.

E. J. Baxter, of Spokane, registered at the Pacific hotel Tuesday, and left for Republic yesterday morning.

ROBBERY AT CURLEW

French Marie Loses $35 and Diamond Ear Rings.

Word comes from Curlew of a hold up and robbery committed there Wednesday night. Two masked men entered the abode of French Marie, gagged, bound and tied her to a bedstead, and then fled, taking with them $35 in cash, and the unfortunate women's diamond earrings. When she was found two hours later, life was almost extinct.

Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in Ameriea. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffing a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victora & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacific railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canada—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered through the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter —the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes, as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.

CANADA IN GENERAL

SUDDEN DEATH.

London, Ont., March 12.—Robert A. Douglas, stationary engineer, 60 years old, dropped dead on Sunday.

WILL BUILD A CHALET.

Montreal, March 12.—The C. P. R. has awarded the contract for the construction of a chalet at Emerald Lake, B. C. It will have sixteen sleeping rooms.

LAURIER WILL SAIL IN JUNE.

Ottawa March 12.—Sir Wilfrid Laurier will sail from New York to attend the coronation on June 14th. Messrs. Mulock, Fielding, Patterson and Tarte will also attend.

THREATEN TO STRIKE.

Toronto, March 11.—The painters here threaten to strike on the 17th unless they get an increase of 25 to 30 cents an hour and nine hours for a day instead of eight.

HURT BY EXPLOSION.

Brampton, March 12. — A large quantity of powder in the powder room of Peaber & Son's hardware store, accidently exploded today, and Peaber, Jr., was so badly burned that it is feared he may die. Fire got into the room where the stock was on hand and it is supposed Peaber struck a match, a piece flying off on the powder causing the explosion.
