Vol. 1 | MINER {GRAND FORKS COLUMBIA,} | JAN. 23, 1902. | No. 67

## TODAY'S NEWS OF THE WORLD.

### BRIEF DISPATCHES ON TOPICS OF GENERAL INTEREST.

Ottawa, January 22.—It is understood that it is the intention of some members of the house of commons and the senate to present an address for the removal of certain judges who, they contend, ought to have had sufficient appreciation of their responsibility and the good taste long ago to have retired. There are, the memorial will state, men on the bench who are so deaf that it is well nigh impossible to make them hear, and it is further held that there are paralytics. It is understood prominent members of the legal profession on both sides have represented to the government the scandal of permitting those men to continue in positions for which they are no longer qualified. The representations made to the government have been so well supported by men of both political parties that parliament may undertake the discharge of its duty, however disagreeable, without leaving itself open to any adverse criticism. Judges were a good while ago appointed during good behavior, but it was never intended in making them independent of the influence of the crown to enable men who have ceased to qualify for the discharge of their duties to continue on the bench. There are, for instance, on the bench in Ontario several men upwards of 80 years of age. Some of them are so deaf that they do not hear half of what is said to them by council; some owing to their great age and the failure of their mental faculties, the contention of the complainants is, forget whatever law they knew, and do not remember near the close of the proceedings what was said to them at the beginning.

Victoria, January 22.—At a political meeting held Tuesday evening at Esquimalt, George Riley, the Liberal candidate, charged that Col. Prior, with Thomas Earle and Robert Cassidy, had offered an elector, who was a witness against Prior and Earle in the election petition, $250 to leave the country. Last night Prior, at a meeting held at the Victoria theatre, characterized this statement as a deliberate falsehood and put up an accepted cheque for $500 in the hands of the chairman, challenging Riley to put up a like amount and produce his evidence before Rev. E. C. Rowe, Methodist minister, and if he failed to prove his charge, forfeit the $500 to the Jubilee hospital. Further, that if Riley failed to accept this challenge, Prior would take action against Riley and the Times newspaper for criminal libel.

Los Angeles, California, January 22—After being given up to die of what the doctors supposed to be consumption, James W. Plunkett, a veteran soldier of the regular army, coughed up the tip of a bayonet out of his lungs and will probably get well. He often used his bayonet as a can opener and presumably the point broke off in a can of meat.

Montreal, January 22.—William MacKenzie, one of the oldest and best known brokers, died this morning.

Victoria, January 22.—The barge Georgian is now being transformed into a ferry, to carry cars between Sydney, near Victoria, and Liverpool, on the Fraser.

Ottawa, January 22.—The troopship Victorian which sails for Capetown from Halifax on January 28th. will carry mail and parcels for troops in South Africa.

Kingston, Ontario, January 22.—Hon. W. Harty is seriously ill with pneumonia. contracted while electioneering last Wednesday.

Quebec, January 22.—James Muir has been appointed to visit Great Britain by the federal government, for the purpose of increasing trade in Canadion made footwear.

San Francisco, January 22.—General James R. Carnahan, commanding the uniform rank of the Knights of Pythias, has announced that the transcontinental lines have agreed to make a rate of $50 for the round trip from Chicago to San Francisco, for the biennial meeting of the Knights of Pythias, which opens here on August 12th next. It is considered probable that not less than 10,000 people will cross the continent on this occasion.

Pottsville, Pennsylvania, January 22.—The Reading Railway Company has issued orders that all the car repair men and brakemen belonging to labor unions who were discharged last year, during and after the strike, will be reinstated upon their application for work. Several hundred brakemen in the anthracite region will be restored to their positions under this order.

Victoria, 22.--The nominations for the vacant seat in the house of commons caused by the unseating of Colonel Prior, took place today. F. S. Barnard, local director of the British Columbia Electric Tramway Company was nominated by the Conservatives, and George Riley, one of the defeated candidates in the last general election, by the Liberals. The election will be held on the 28th.

London, January 22.—No confirmation is obtainable here of the statement that the Allan line is included in the plan now being submitted to J. Pierpont Morgan for a gigantic trust of trans-Atlantic steamers, though steamship authorities here say that doubtless the Allans and most British firms will sell their ships if a sufficiently good price were given.

# .. THE EVENING SUN ..

H. S. TURNER.

UNION LABEL — TYPOGRAPHICAL — GRAND RIVERS

THURSDAY, JAN. 23, 1902

The business office of The Evening Sun is located at present in Columbia, where all correspondence with it, and exchanges should be addressed.

The recent sensational decline in the market price of copper trust stocks and sugar trust stocks ought to bring home to investors the alarming insecurity of property in corporations not required to publish full reports of their operations. While during the last few weeks over $100,000,000 have been deducted from the actual selling price of these two companies' stocks, while a few men within the closed doors of the corporation have been in a position, by reason of their knowledge of conditions to make fortunes; what have we in the Boundary who are dependent on the copper industry, known of the real facts or causes of the decline, or what do we know now? We doubt if there is in all this section one man who could enlighten us, and prove his ground as correct. This is outrageous humiliation to any intelligent people. We venture to assert that compulsory audit and publicity of accounts on the part of industrial corporations is the only remedy, and this by act of parliament. Such publicity of accounts has, up to date as far as we know, been urged chiefly to protect consumers against extortion. It is no less important as a means of protecting investors against ruin. The fact is that investment as distinguished from speculation becomes a thing impossible when the investor cannot by any manner of means learn the true conditions of the property in which he puts his money. The first function of government is to make property secure. Let this be a plank in our platform at the next general election.

In a brief retrospective view of local matters, cause may be found by the citizens of Columbia for commendation of several of the accomplishments of their city council during the past year. In the amalgamation matter alone the council made a deal in every way favorable to the city, securing concessions in its interest that will prove of almost incalculable and lasting benefit to property owners in this vicinity. The establishing of the ward plan ensures on the outset of the government for the amalgamated municipality a great advantage to the west end interests. Under the arrangements, the Central and West wards, in which lie all of Columbia's property rights, should at once take control of the new city government, not to the detriment of the East ward, but for the fair treatment of property owners in the other two.

Then, again, the locating of the V. V. & E. depot and freight sheds at so favorable a point to Columbia, through the insistence of our city council, is the work of master minds, and is sufficient cause for genuine gratulations, the great benefit to be derived therefrom being patent.

The advantages accruing to Columbia from the construction of the waggon bridge across the Kettle river, which places the city in close relations with the rich agricultural district south of the river, will result in making that section a most valuable tributary to our volume of business, and is not the least of the three most commendable efforts of our city fathers during the past year, for which they deserve the thanks of the entire community.

The Gazette was a full fledged Conservative during the last provincial election—after it was paid $600. How many hundreds will it take to determine its politics this year? The wise politician will buy its opposition rather than its support.

Justice is blind. According to an Ottawa dispatch some of our eastern judges are deaf and paralytics. This lamentable combination, it would seem, makes Canadian justice dea., blind and paralyzed.

## LOCAL NEWS.

The Porter Bros., who have the contract on the V. V. & E., or Washington & Northern, according to report, has brought suit against W. H. Fisher, charging him with a breach of contract in failing to deliver a certain number of ties, 5,000. The sut is brought in Republic.

R. R. Gilpin, the Grand Forks customs collector, has been in eastern Canada the past ten days, having been called to Halifax, N. S., on account of the death of his aged mother. It is reported that by the death of his mother Mr. Gilpin falls heir to a fourth interest in the family estate, amounting to something like $100,000.

Ernest Bunting, of Eholt, returned home today, having coming down last evening.

The Board of School Trustees of Columbia will meet for the dispatch of business next Wednesday.

The Granby dining rooms have been taken in charge by Geo. Harris.

Minister Wells, of the Provincial Public Works department, wires Mayor Holland that he will be in this vicinity the latter part of this week.

The Grand Forks Hockey team will go to Phoenix tomorrow night to play the local team a match game. A special train will run up to accommodate the large number going from this city. It will leave Columbia station at 6 sharp.

Ottawa, January 22.—The imperial order abolishing ornaments on military uniform is reproduced in Canadian militia orders today.

## Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in Ameriea. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffiing a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victoria & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacific railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canadn—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered throngh the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter—the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes. as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.

# Your Local Paper

is a necessity to you, financially and socially. A NEWSPAPER of GENERAL CIRCULATION, containing the latest news of the world, is equally necessary to you. The "up to date man" will provide himself with these two necessaries.

In THE TWICE-A-WEEK SPOKESMAN-REVIEW will be found the very latest news of the world, its matter including information on politics, commerce, agriculture, mining, literature, as well as the local happenings in the states of Montana, Oregon, Idaho, Washington, and the province of British Columbia. In addition, its columns for women, its popular science articles, its short and continued stories, its "Answers to Correspondents," and "Puzzle Problems" combine to form a home newspaper that at $1.00 per year can nowhere be excelled.

Perhaps you have something to sell—a farm, a team, farm machinery. You may wish to buy something. The best possible way to communicate with people who wish to buy or sell is by inserting a small advertisement in the Spokesman-Review. The price is the same in the daily and the Twice-a-Week.

IT DOESN'T COST MUCH—

| | | |
|---|---|---|
| 18 WORDS | 1 time | 30c |
| | 2 times | 45c |
| | 3 times | 60c |
| 24 WORDS | 1 time | 40c |
| | 2 times | 60c |
| | 3 times | 80c |

If you wish to reach business men and newcomers, use the DAILY. Farmers, stockmen, lumbermen and miners take the TWICE-A-WEEK.

## PRIVATE BILL NOTICE

NOTICE IS HEREBY GIVEN THAT AT the nex tsession of the Legislative Assembly of British Columbia application will be made on behalf of the Corporation of the City of Grand Forks and the Corporation of the City of Columbia, British Columbia, pursuant to resolutions passed by the municipal councils of the said cities on the fifteenth and thirteenth days of August last. respectively, and approved by the electors at a poll taken the 28th day of August last, for an act to amalgamate and incorporate the said cities as one city municipality uuder the name of "The Corporation of the City of Miner." with all the rights and powers held by either and with all the rights and powers conferred by any statute on city municipalities within British Columbia; and to vest in the new city all the assets of both the said cities; and to validate certain bylaws of the said cities; to validate all general debentures of both the said cities (whether already issued or hereafter to be issued in pursuance of the said resolutions) and charge same on an equal footing as valid and subsisting debentures of the new city; and authorize and legalize certain expenditures; and to contain other special provisions in accordanee with the said resolutions.

Dated the 14th day of October, 1901.

ERNEST MILLER,
Solicitor for the city of Grand Eorks.

CLEMENT & SPENCE,
