THE EVENING SUN

VOL. 1 GRAND FORKS AND COLUMBIA, B. C. TUESDAY, MARCH 4, 1902. NO. 101

GRAND FORKS COUNCIL

NINETEEN APPLICANTS ANXIOUS TO GUIDE THE CITY TEAM.

Regular session.

Mayor Holland in the chair.

There were nineteen tenders for the position of city teamster, and nearly all of them being present in the lobby adjoining the council room, immediate action was taken by the dads on the tenders. The price for which the service was offered ranged from $50. to $90. per month. Before the bids were read, a motion was put requiring the successful tenderer to sleep in the fire hall, by Alderman Harvey; Alderman Gaw reversed the matter with an amendment, which was lost, and the original carried. The first ballot on the names resulted in one vote each for John W. Hardy, Dave Woodhead, Robt. Addison, Dan O'Ray and Angus McDonald; second ballot, Addison 1, Hardy 1, McDonald 1, O'Ray 3; third ballot, McDonald 2, O'Ray 2, Hardy 2; fourth ballot, the same; fifth ballot, McDonald 2, O'Ray 3, Hardy 1. Here Hardy was dropped. Sixth ballot, Angus McDonald 3, O'Ray 3. Mayor Holland was then required to exercise his prerogative of casting his vote, which went for O'Ray.

The following bills were then audited and ordered paid:

Hunter Kendrick Company	$17 00
Robert Petrie	4 50
City Transfer Company	2 75
Maze Restaurant	17 00
Thos. A. Wright	17 25
Model Livery	3 51
J. Wright	12 10
Bounday Iron Works	59 45
G. F. Wood & Coal Co	1 00
Miss Rhodes	36 25
Geo. Taylor, wood	86 00
C. P. R., Tel	14 37
C. P. R. freight	14 38
P. H. Donaldion	1 00

Commission on tax collections by Chief McMillan, $37.40.

The action of council committees, re amalgamation bill, and purchase of city team, involving $200. paid to City Solicitor Miller, and $425. for the city team were then ratified.

A letter from Hon. Smith Curtis re amalgamation bill was read and clerk ordered to take the necessary action in accord with instruction in letter.

The matter of brokers' licenses was laid over.

Fire limits question passed to adjourned meeting.

Messrs. Doberer, Sears, McCallum and Miller, of the Board of Trade, were granted permission to address the council. They had come to ask the city to aid it by donating the sum of $200. "The board was a great public benefit, and should receive public aid;" the speakers claimed. "It maintained a fine room lighted and warmed, and the public used it at will free of charge. All the efforts of the board of trade were in the public interest. It deserved public aid." The matter was laid over till the next meeting

TELEGRAPHIC NEWS

WHITE PASS RAILWAY.

Ottawa, March 3.-- Saturday's Gazette contains orders in council in regard to the reductions of rates on the White Pass railway. These rates are sanctioned by the company and approved by the minister of railways. Mr. Blair says the rates are now such as the company is fairly entitled to charge. While the charges are only fixed between White Pass and Dawson, provisions are made to cancel and rescind the government's approval and reduce the tolls should the company increase their rates on the American end of the road. The maximum rate for the conveyance of passengers is fixed at 18 cents per mile. The fare will be computed according to the mileage between stations, adding one mile instead of any fraction less than a mile. The freight rates have already been given.

CHIEF JUSTICE OF B. C.

Ottawa, March 3.—At Saturday's cabinet meeting, Gordon Hunter of Victoria, was appointed chief justice of British Columbia.

IMMIGRANTS FOR THE WEST.

Winnipeg, March 3.—The trainload of immigrants who arrived in this city Saturday were the first to come this year. Over one hundred and fifty settlers from Europe passed through the city en route for homes in the great west. The majority of them were Germans. There were in all 80 Germans, 12 Fins, 16 Swedes, 22 English, 20 Polanders, 10 Italians, 13 Jews and 20 Scandinavians.

CANADIAN NORTHEN.

Victoria, March 3.—The provincial government has received telegraphic advices from Toronto to the effect that MacKenzie and Mann have signed the contract for the construction of a railway from Yellow Head Pass to the coast, where it will connect with the Vancouver Island railway and terminate at Victoria.

NEW TRIUMPHS ACHIEVED.

New York, March 3.—William Marconi, who returned from England Saturday on the American liner Philadelphia, broke all records of wireless telegraphy during the voyage from Southampton. A complete connected message of four words was received from the Marconi station at Poldhu, Cornwall, near the Lizard, when the ship was 1551 miles from that point. Furthermore, signals were also taken by the instrument on the Philadelphia, which were sent from the station a distance of 2099 miles. With a station this side equal in transmitting force to that at Poldhu he could have maintained constant effective communication ashore during the entire voyage.

Mrs. M. M. Kern, recently from Spokane, has opened Dressmaking rooms in the Wastell cottage, on Church street, Columbia, where she is prepared to do Dressmaking in all its branches. Ladies' Tailoring a specialty. All work guarenteed *

Gentlemen should not do their swearing and fighting over the phone.

TUESDAY, MARCH 4, 1902

The Nelson Miner takes the same view of board of trade influence in a general sense as that taken by this paper, and maintains that the boards being largely made up of those who are more or less under the freight-tariff lash of the Great Canadian Pinch, are prone to do the bidding of that great monopoly. Speaking of the late session of the Associated Boards of Trade at Kaslo, and the resolution re the Crow's Nest Pass Coal company our Nelson contemporary says:

"No resolution was adopted, however, to the effect that the price paid to the C. P. R. for haulage of coke and coal from the Crows Nest Pass to Nelson, Grand Forks and Greenwood should be less than it is. Every delegate present knows that it costs more than the coal does in the Crow's Nest Pass to transport it from there to Nelson, Grand Forks and Greenwood, and yet no resolution setting forth this fact and asking that a reduction be made to a certain fixed figure was adopted. It is known that the prices of both coke and coal are higher at the coast collieries and coke ovens than is the Crow's Nest Pass, and yet not a voice was raised in favor of a resolution asking that the coast companies lower their prices on these products. Yet there would be just as much justice in the one case as in the other.

The Great Reaper has from time to time favored the Dominion Liberal party, until now it is supreme in Canada. The Dominion Senate has been changed from Conservative to Liberal. When the Laurier party came into power at Ottawa, the majority in the senate was Conservatives and seriously hampered the Honse of Commons by altering and refusing to pass measures from the Commons. But there has been so many deaths in the Senate that the government now has a majority in both houses

A gang of 40 Japs came in on Sunday and will be set to work on the snow service to release gangs which the company require to put on rock work.

The above item is from the Kootenay Mail, and is printed to show a little instance why the native breadwinners of British Columbia are asking for protection from the small, brown man and his low value. It shows, too, why our Ottawa and Victoria governments are unwilling to turn him back. The C. P. R. wants him.

CITY SUNBEAMS

The C. P. R. freight yards and sidings here and at Gilpin's are encumbered with large numbers of cars loaded with rails and other materials consigned in bond to the R. & G. F. railway company.

Present indications are that the Washington & Northern will be ready to do business in Republic before the Grand Forks road. Anyhow it will be "nip and tuck" with the rival roads.

E. L. Baker has been selected as janitor for the new school building.

Grand Forks and Columbia are especially favored communities in climatic matters. We have been enjoying what might be termod summer weather here the past three weeks, while in other sections of the Boundary there is much mud and snow, and good sleighing in Phoenix.

The blow of last night and the rain of today, is probably the fag end of the storms which have been raging in the east the past two weeks.

Word comes from Chesaw, Wash., that T. E. Butters has sold his homestead for $1500.

Frank McGee and family have arrived here from Trail, to reside permanently.

The Ined Martin Concert Company at the Biden Opera house was not so well attended as was hoped it would be by those managing the affair.

The new freight wagon purchased for the use of the city of Grand Forks, cost $155.

A special-general, and regular quarterly meetings, will be held in the Grand Forks Board of Trade rooms tomorrow, at 2. and 8. p. m. respectfully, to discuss the Chinaman. The Chinese portion of our population, is said to amount to 100, which is nearly 20 per cent.

Following is a list of those who bid for the position of city teamster for Grand Forks, and the pay they desired: M. Slope, Thos. McKenzie, Dan O'Ray, Joe Beaucage J. Gignac, J. W Ormiston, Wm. Gregory, W. J. Harry all wanted $75 per month. Angus McDonald, Maurice McName and Rod McLeod stated no sum, while James Little, John W. Hardy and Dave Woodhead would serve for $70 each; M. E. Wright would go them five better and take $65; but they were put in the shade by Fred Holmberg who would take $60, and L. W. Hopkins would be satisfied with $50. Robert Addison considered his services worth $90. The outcome was a happy medium between the highest and lowest bidders.

A Toronto lawyer got $8,500 damages from the C. P. R. because a fellow passenger assaulted him, and the conductor refused to interfere, the court holding it was the duty of conductors to protect passengers.

COLUMBIA. B. C.

Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in Ameriea. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffing a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victora & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacifie railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canadn—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered through the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter—the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes. as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.
