THE EVENING SUN

VOL. 1 GRAND FORKS AND COLUMBIA, B. C. WEDNESDAY, FEB. 19, 1902. NO. 90

TELEGRAPHIC NEWS

C.P.R. OFFICIALS IN WINNIPEG.

Winnipeg, February 18.—William Whyte, assistant to the president of the C P,R., arrived this morning from Montreal, leaving Manager McNicholl at Fort William, where he is looking over plans for a new elevator at that place. Mr. Whyte stated to a reporter that it was now decided that the company would erect at Fort William a new elevator with a capacity of 1,500,000 bushels. This will give an additional storage to grain that will be very acceptable to grain shippers. Accommodation for feed will also be made.

ST. MARY'S CHURCH BURNED.

Montreal, Feb. 18. — St. Mary's church, at the corner of Craig and Pantelon streets, was destroyed by fire yesterday morning. The loss is between $60,000 and $70,000, with insurance between $35,000 and $40,000. The remains of the late Father O'Donnell, former parish priest, were buried in a vault in the church, but the firemen managed to check the flames before they reached that part of the edifice. The fire is supposed to have started from a lighted gas jet near the sacristy.

A LONG RACE.

Victoria, Feb. 18.—The British ship Belford arrived last night, 130 days from London, with a general cargo She is the winner of a race from England with the ship McDiarmid, which sailed from Liverpool on the same day as she left London, and there was considerable speculation regarding which would arrive here first. The British ship Dankburn will sail today. She is the last of the eleven salmon ships which have taken 679,847 cases of salmon, valued at $2,716,988 to Liverpool and London. With the shipments made by the steamers over $3,000,000 worth of salmon has been shipped from British Columbia this year.

VIOLATED INSPECTION ACT.

Toronto, Feb. 18 —Elen James was fined $4.25 yesterday for having in his possession eighteen packages of apples with "big ones on top." This is the first conviction under the inspection act. Mr. James said the apples were cold storage ones, and that the department was pursuing him too vigorously.

BOUGHT THE ISLANDS.

Washington, Feb. 18.—In a little less than an hour's time, yesterday, the senate in executive session disposed of the treaty with Denmark, ceding to the United States for a consideration of $5,000,000 the islands of St. Thomas, St. John and St. Croix, composing the group of the Antilles known as the Danish West Indies, and lying just east of Porto Rico, and thus, so far as this country is concerned, consummated a transaction which has been under consideration intermittently since the administration of President Lincoln.

MADE A FORTUNE.

Toledo, Feb. 18.—Mrs. Charles Purdy has returned to Toledo from the Klondike with a fortune. During her four years residence in the north, besides keeping a boarding house and hotel, she bought and sold claims aggregating millions in value, and when she came away it was with $1,000,000. Mrs. Purdy and her husband started west nearly ten years ago. It is said that at Vancouver they disagreed about going further, the husband returned to Tacoma, where he is now said to be a motorman for a street car company. Mrs. Purdy went on to Alaska and from all accounts prospered. Besides looking after her business interests she ran a hospital, where hundreds of destitute miners were admitted free of charge. One of her lucky strikes was a third interest she bought in a claim for a few hundred dollars, and when she sold out eight months later, her new profits were $200,000. She still has large interests in the Klondike and holds partnership interest in half a dozen properties.

UNFAIR TO OLD MAN.

Toronto, Feb. 18.—The executive of the grand lodge A. O. U. W. met here today, preparatory to the annual convention which opens on Wednesday. The convention will likely order increased rates in the insurance department. If adopted members over 40 years will have rates increased 25 per cent, with other ages increasing proportionately. Prominent members in discussing the situation explain that the order has been in extstence thirty-five years, and the old members are beginning to die off more rapidly, and in consequence the demands on funds have largely increased.

LARGE IMMIGRATION.

Toronto, Feb. 18.—James Hartney, Manitoba immigration agent, has just returned to the city from a tour of the province. He reports that immigration from Ontario to Manitoba this year will be larger than ever before.

SHORTAGE OF COAL.

Hamilton, Feb. 18.—There is a shortage of bituminous coal in this city, and it is feared that several large industries will have to close unless a supply is received in a few days.

LYNCHED A NEGRO.

New Madrid, Mo., Feb. 18.—A mob of masked men overpowered the jailer and took a negro, Louis Wright, a hort distance from the town last nights and hanged him. Richard & Pringle's negro minstrels gave an entertainment here Saturday night, when an altercation arose between one of the musicians and some one in the audience. The whites made an onslaught on the musician and one of the negroes on the stage began to shoot. Several persons in the audience were hit, but no one was seriously hurt. All the negroes were put in jail and in the preliminary examination the name of the one who had done the shooting was discovered. He was lynched and the others will be released. Several of the prisoners were badly beaten.

WEDNESDAY, FEBRUARY 19, 1902

The business office of The Evening Sun is located at present in Columbia, where all correspondence with it, and exchanges should be addressed.

The Centre Star has decided not to ship ore, while copper remains at the present low price,

The Manitoba bar has petitioned the Dominion government to appoint a Supreme court judge from some point west of Ontario.

Mr. Harbour, formerly C. P. R. agent at Trail, has been transferred to Rossland.

Some people who have no confidence in newspapers, believe every word they read in medical almanacs.

Three cars of quartz ore from the No. 7 mine have arrived at the Granby smelter for use in connection with converting matte to blister copper.

Several of Greenwood's residents are arranging to leave shortly for the Thunder mountain mining field in Idaho.

President Roosevelt has recommended the retirement of Captain Hobson, on account of impared eyesight.

THE DEATH ROLL.

Toronto, Feb. 18.— Mrs. Mary Ann Woodsworth, widow of the late Richard Woodswo,th, and a resident of Toronto for 83 years, is dead, aged 93 years.

London, Feb. 18.—Early yesterday morning V. N. Somerville, living at 640 Queen's avenue east, cut his throat with a razor, dying from the wounds in the afternoon. Despondency is given as the cause.

We Can Do Your Job Printing.

The Job Department of The Evening Sun is now prepared to turn out printing in style and quality equal to the best. Give us a trial as we are sure we can suit you.

CITY SUNBEAMS

A. F. Cully, for a number of years in the employ of the C. P. R., and at one time stationed at Midway, died this morning at the Rhodes hospital. He was aged about 30 years and married. Peritonitis was the original difficulty, but pneumonia attacked the deceased which rendered his case almost hopeless. Dr. Kingston was the attending Physician. Upon consultation with Drs. Northrop and Westwood, a surgical operation was decided upon, which was performed yesterday afternoon. The patient rallied and it was hoped the sought for relief had been accomplished, but during last night he began to sink and succumbed this morning at 6 o'clock.

The salary of Mayor Clute of Rossland, has been reduced by 50 per cent and now stands at $1000 while those of the aldermen remain at $300 a year. It is understood that the reduction of the mayoral salary has been made with the assent of Mayor Clute, who before election advocated a policy of reasonable economy as regards civic administration.

J. P. Graves, of the Smelter company, came in on today's train.

H N. Galer went up to Phoenix today.

E. S. Graham has moved from Grand Forks to Columbia.

Councilman Donaldson of Grand Forks has a new dwelling house nearly completed on Main street, near the Methodist church.

Martin Burrell is advertising a lecture entitled, "Is Life Worth Living?" to be delivered by himself in Biden's Opera house tomorrow night, for the benefit of the "Good Roads Association."

Councilman Lagimodiere's new residence south of Government avenue in Columbia, is now ready for the plasterers.

Work was begun this morning on the P. Burns meat market, to occupy the place of the old one, which is to be moved back and attached to the new building.

Nelson, B. C. imports for the month of January were $89,344, against $51,898 for the same month of 1901, an increase of 78 per cent.

The husband of Tsilka, the companion of Miss Stone, the captive missionary, has been arrested on suspicion of having kidnaped Miss Stone.

J. C. Coughren, of Coughren & Winters, Great Northern contractors, came up from Spokane, registering at the Pacific last night. He went out over the work this morning.

E. G. Roy, of Toronto, is registered at the Pacific. Mr. Roy intends to engage in fruit growing or the poultry business in this vicinty if he find suitable land.

Mayor McCallum left for the coast on the 4 o'clock train this afternoon.

The Evening Sun is the only daily printed in the Boundary country, the richest gold-copper region in British Columbia.

COLUMBIA CITY COUNCIL.

At last night's session of the Columbia city council a resolution was passed instructing the city clerk to prepare assessment roll for 1902 and make return to council March 11th.

A report was received from engineer C. A. Stoess covering changes and additions necessary for the completion of Columbia street bridge.

Clerk reported he had received a deed from the C. & W. railway presented to the city for a fire hall site.

A resolution re amalgamation bill instructing city's delegate to Victoria.

An order was passed for the payment of $960 to Contractor McDonald, and also for the payment of $18 to The Evening Sun.

END CAME QUICK.

A. B. Faulkner, of the Massey-Harris Company, Wolsely, N. W. T., dropped dead on the sidewalk in Winnipeg, Monday, while going to dinner.

SIR NEVILLE BOWLES DEAD.

London Feb. 18.—Field Marshal Sir Neville Bowles, chamberlain, is dead. He was born in 1820.

Some weeks ago an iron birdge crossing the Chemnitz river, near Chemnitz, Saxony, was removed two miles up the river. The bridge was 140 feet long, 16 feet wide and 15 feet high. The entire bridge was lifted by means of powerful winches, then placed upon three boats, which had been provided with strong wooden structures, thus floated the two miles up the river and there installed again.

Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in America. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffing a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victora & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacific railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canadn—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered throngh the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter—the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes, as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.
