TWENTY-THIRD YEAR—No. 51

"Tell me what you Know is true! I can guess as well as you." C

FRIDAY, OCTOBER 24, 1924

HIGH LIGHTS IN PREMIER KING'S COAST SPEECCH

In his speech at Vancouver Right Hon. Mackenzie King, premier of Canada, made many statements that should be given thonghtful consideration by the electors of Yale before they cast their ballots in the forthcoming by-election.

"The trend of development in Canada has always been westward, and we must now look beyond the prairies to the great basin of the Peace River. We intend to do it in our immigration policy, and that includs an outlet to the Pacific ocean."

"I believe the east will agree to the expenditure necessary for development of the Peace river country and for adequate railway facilities because they realize that it is for the benefit of Canada as a whole."

"Not one cent of the capital cost of war has yet been paid off. War cost us two billion dollars and the interest alone is more than the whole national expenditure prior to 1914."

"We are practicing economy, and we have turned a deficit into a surplus in two years, but the last place this goverument is going to seek economy is in the discharging of the obligation that the nation owes to the men who find themselves at a disadvantage through their services in the Great War."

"We are charged with being an inefficient government, but I say that a government that has changed a deficit of $82,000,000 in 1921 to a surplus of $35,000,000 in 1924 and has reduced taxation in the meantime is not an iuefficient government."

"The only way to pay our debt, to reduce taxation and to make our railways pay is by going to the source where wealth lies—our natural resources—to get it out and to spread it broadcast throughout the world."

"The railways are for the people, not the people for the railways."

"The only way to build up export trade is to make cost of production as light as yon can have it, and a mighty factor is to take away taxes on things essential to industry. That is the policy of this government."

AMENDED GAME LAWS

The following is the amended game regulations relative to the Grand Forks-Greenwood electoral district, which is in the Eastern district:

Big Game and Game Birds

Mountain Goat—September I5 to December 15, 1924.

Bear September 15 to June 15, 1925.

Deer —(Mule, white-tail and coast), bucks only, throughout the northern and eastern districts (except white-tail deer in that portion of the Eastern district known as North and South Okanagan and Similkameen electoral districts, and in the Grand Forks-Greenwood electoral district west of the summit of the Midway mountains), open season from September 15 to December 15, 1924.

Fur Bearing Animals—In that portion of the Eastern district south of the main line of the C P.R. there shall be a close season on all fu bearing animals, except in regard to muskrats in the Columbia electoral district.

Ducks—(Except wood and eider ducks), Wilson snipe, coots, black-breasted and golden plover greater and lesser yellowlegs, September 15 to December 30.

Geese and Brant—September 15 to December 30.

Grouse and Ptarmigan—(Except prairie chicken and sharp-tailed grouse), September 15 to October 15.

Bag Limits

In respect to big game no person shall kill or take or have in his possession during the open season more than two deer, all of which must be of the male sex; and no person shall kill or take or have in his possession during the open season more than three bear of any species other tha grizzly, aud one of this species; and no person shall at any time kill or take or have in his possession during the open season more than two mountain goat.

Grouse and ptarmigan (except prairie chicken in the Eastern district), 6 of one species or 12 of all species in one day; total bag limit, 50 in the aggregate.

Ducks—Daily bag limit. 20; total bag limit, 150.

Geese—Daily bag limit, 10; total bag limit, 50.

Brant—Daily bag limit, 10; total bag limit, 50.

Black breasted and Golden Plover and Greater and Lesser Yellowlegs—Daily bag limit, 15 in the aggregate of all kinds; total bag limit, 150 in the aggregate.

Wilson Snipe—Daily bag limit, 25; total bag limit, 150.

PREMIER KING HERE SUNDAY

Right Hon. Mackenzie King, premier of Canada, will pass through Grand Forks on the regular east qound C.P.R. passenger train on Sunday evening The train will be held here fifteen minutes longer than it nsually is in order to give the citizens an opportunity to shake hands with premier.

Doric Was Greek to Him

One of the best of many good stories told by Will Fyffe, the Scottish comedian, concerns a countryman of his who was on his first visit to London. Leaning over Blackfriars bridge as dusk was falling, he was astounded to see all the lights on the embankment flare up with one accord as if by magic. He walked up to the nearest policeman and said in surprised tones:

"Tell me, mannie, wha' lichted a' the lichties?"

The policeman scratched his head and thought hard. "Beg pardon, sir," he said at last.

"I was juist askin' ye wha' lichted a' the lichties," repeated the visitor.

The policeman was dumfoudded, and at last courtesy fled from his soul. "Garn, ye Portuguese blighter," he ordered sharply. "'Oppit!"

P. C. Asquith—"Don't be nervous, ma'am! Dangerous animals can't cross this bridge. Unless it's properly muzzled, they'll have to swim!"

ONTARIO VOTES FOR TEMPERANCE

Early Returns Favored Government Control, But Wet Majority Dwindles Quickly

Toronto, Oct. 23.—The Ontario temperance act was sustained as the form of liquor legislarion governing the sale of liquor in this province, in a plebiscite taken today under provincial government auspices. The majority in favor of the present act is expected to exceed 25,000 when the final ballots are counted. The total was close to a million votes, representing a drop of 200,000 votes from the total cast in 1919, when the Ontario temperance act was confirmed by a popular majority of 407,000.

A large number of Grand Forks people went up to Greenwood tonight to spend a social evening with the Pythian Sisters of that town.

NEWS AND VIEWS FROM VICTORIA

Victoria, Oct. 23.—Premier Oliver has just issued a statement that British Columbia will have adequate representation before the board of railway commissioners when that federal body sits in Vancouver early in November. Despite the fact that the British Columbia legislature will commence its fall session on Monday, November 3, which will keep the government ministry pretty well tied to Victoria, complete arguments will be presented in support of the premier's drive for the removal of all freight rates discrimination. Hon. Mr. Oliver has recently pressed for a definite ruling on the applications of this province of a year ago and hopes for an announcement before the commiasioners leave again for Ottawa.

In all likelihood, as the result of representations made by Hon. William Sloan, provincial secretary and commissioner of fisheries, British Columbia will have a representative on the international board which will be appointed to deal with the halibut question in the near future. During the recent visit of Hon. P. J. A. Cardin, federal minister of marine and fisheries, the whole question was discussed. Hon. Mr. Cardin said the halibut question was British Columbia's, and he expected as a result of the coming conference that a satisfactory settlement between the two countries would be reached.

Another link in British Columbia's highway system is to be forged Tenders have been called for by Hon. W. H. Sutherland, minister of public works, for the completion of the Hope Spence's Bridge section of the transporvincial highway, at a cost of approximately $1,000,000. An additional $250,000 will be required for the construction of the steel bridge across the Fraser river at Spuzzum. The bids are returnable within four weeks and the new legislature will be asked to decide upon the gra ting of the necessary money.

A contract has also been let for $60,000 to Fred Dawson, contractor. Vancouver, for highway work between Golden and Yoho Park. This will link up the circle route of the Banff-Windermere highway.

Improved unemployed conditions in British Columbia arv reported by J. D McNiven, deputy minister of labor, who returned recently from attending a labor conference at Ottawa. Seasonal employment in this province is not so marked as it used to be, and each year sees work carried on for longer periods. However, Mr. McNiven has warned outsiders not to come here looking for work, unless they have sufficient funds to carry them for a few months. He shows that the men returning home to British Columbia frnm the prairie harvest fields have much better chance to pick up the jobs offering.

Such success has been met with in the construction of the new buildings for the University of British Columbia at Point Grey this year that the government has decided to provide for a forestry building, to be used as a testing laboratory. The enrollment at the institution for next year is larger than ever before, and the University of British Columbia is fast taking its place in rhe front rank of such institutions all over the continent.

Hon. T. D. Pattullo, minister of lands, reports that the forest revenue for September was $308,000, a gain of $50,000 over the same month in 1923.

SUTHERLAND AND STIRLING NAMED

Summerland. B.C., Oct. 23 —D. W. Sntherland, Kelowna, Liberal, and Grote Stirling, Kelowna, Conservative, were nominated here today for the Yale by election.

As the Pupils Would Have It

These amnsing blunders, perpetrated by girls and boys in various English schools, are listed in the Schoolmaster, an English journal for the edification of pedagogues:

What is the effect of lead on water It sinks.

What bird lays the biggest egg? The biggest bird.

What discovery was due to the falling of an apple? The wickeness of Eve.

But perhaps the most amusing was one girl's confident declaration that the Roman numerals "LXX" stand for "love and kisses."

THE PRINCE OF WALES AT JASPER

H. R. H. THE PRINCE OF WALES spent a delightful day in the Canadian Rockies when he visited Jasper National Park, where he was a guest at Jasper Park Lodge. Here he is shown being greeted by Col. S. Maynard Rogers, Park Superintendent, on the arrival of his special train at Jasper Station on the Canadian National Railways.

APPLE EXPORTS ARE INCREASING

Royal Mail Line Books 60,000 Boxes; 23,000 Boxes Went to New Zealand This Week

Vancouver, Oct. 22.—The Royal Mail Steam Packet Narenta cleared from this port yesterday with 10,000 boxes of apples for the United Kingdom.

The greatest shipment of apples moving from the port this week, however, went on the steamer Makura to New Zealand today, when British Columbia put 33,000 boxes on the ship.

On the last sailing of a Canadian-Australian Royal Mail liner a shipment of 9000 boxes was made to New Zealand.

Dealers and exporters here stated yesterday that the new Canadian-Australian tariff treaty would hardly be in working order for the British Columbia fruit growers to take advantage of this season.

Up to the present the agreement has not had the sanction of the Australian government as far as local dealers know, and no preparations have been made by wholesale row importers or jobbers to break their old connections until they are certain that Australia is going to ratify the agreement.

The Royal Mail Steam Packet has a sailing every two weeks from now until Christmas, and 10,000 boxes of apples have been booked here for every sailing until the end of the year, which means that approximately 60,000 boxes of apples will move by these boats before the close of the year.

Besides the Royal Mail steamers, the Blue Star and Furness Withy ships will also take apples.

THE WEATHER

The following is the minimum and maximum temperature for each day during the past week, as recorded by the government thermometer on E. F. Law's ranch:

	Max.	Min.
Oct. 17—Friday	60	31
18—Saturday	67	30
19—Sunday	63	29
20—Monday	55	30
21—Tuesday	64	33
22—Wednesday	64	30
23—Thursday	58	36
		Inches
Rainfall		0.00

Judge J. R. Brown presided at a sitting of the county court in Rossland last Thursday.

Good Company

If you have a little fairy in you home, or a big one for that matter, that's just the place where a subscription to The Youth's Companion will fit in. When the young folks bring new acquaintances to the house you are mighty careful to find out about them before admitting them to in imacy. In the same way you should make sure whether the mental friends that they make through reading are of a kind to inspire them to destroy all the ideals you have been at so much pains to implant Try The Youth's Companion for a year. See how quickly it becomes an indispensable member of the household, one of unfailing charm and constant inspiration.

The 52 issues of 1925 will be crowded with serial stories, short stories, editorials, poetry, facts and fun Subscribe now and receive:

1. The Youth's Companion—52 issues in 1925.
2. All the remaining issues of 1924.
3. The Companion Home Calendar for 1925 (sent only on request.)

All for $2 50.

4. Or include McCall's Magazine the monthly authority on fashions.

Both publications, only $3 00.

THE YOUTH'S COMPANION,
Commonwealth and St. Paul St,
Boston, Mass.

Notes • Notions • Notables

To iie lux uriously on soft cushionsand thu pilot your own small air machine is the latest possibility in aerial flight The tiny air cars are being designed and are to be tested in flight, in which the narrow body, with wings on either side, accommodates just one occupant, lying prone. This will enable the tiny engine to drive the machine more swiftly through the air than would be possible with the air resistance set up if a body was provided big enough for the pilot to assume the ordinary sitting position. Perfect comfort will, it is claim, be assured by a sofa-like reclining frame. On this the pilot, enclosed in his miniature machine, will lie face downward, looking outward through a front window or sideways and downward through other little windows.

Alcyone, the brightest star of the Pleiades, equals in brightness the star Zeta It was at one time fancifully pictnred as the center of the universe by the astronomer Malder, but this was merely a speculation for which there is absolutely no foundation The Pleiades form, in fact, a moving cluster of stars of 200 or more members and the principal stars are associated with a nebula of vast size. There is no reason to believe our sun with his family of planets is moving around this or any other center of the universe. It has been estimated that the distance of the Pleiades from the solar system is over 300 light years, or, in other words, that the light from the cluster takes over 300 years to travel to the earth We see these stars today as they were before the Pilgrim fathers landed in America.

Avalanches, which in the last few years have caused much damage in the Bernese Oberland, are sometimes started by trivial causes. Even a whisper has been known to set them off, and lives have been lost by a climber shouting to his companions when crossing a snow slope. The starting of an avalanche which a few years ago overwhelmed a caravan of sleighs in the Alps pass was attributed to the tinkle of sleigh bells, and ever since the use of bells on this route has been prohibited. Newcomers to Switzerland often inquire what purpose is served by the little barriers dotted about the mountain slopes. These are the avalanche breakers, without which traffic on many of the Alps lines and passes would be impossible for part of the year. It would be futile to place obstructions across the foot of the track taken by an avalanche; once the mass has gained momentum it sweeps all before it. So thick stone barriers built on the slopes of the mountains.

The minister had come home with the Browns for dinner When they sat down to the meal Mr. Brown asked the guest to say grace. This he did. However, the preacher talked so softly that those at the table did not hear his whispered "Amen." Freddy, though, had been watching the minister out of one corner of his eye, so when the family still sat with bowed heads after the grace was finished, Freddy exclaimed: "All heads up and let's go go eatin'."

An insect eating plant is the sundew, so called because of a shining sticky substance secreted by glands in the sunlight like a rare gem. By means of the sticky mess, the sundew attracts and entangles its prey. Then the edges of the leaf curve inward, forming a sort of stomach into which an acid secretion is ponred to digest the meal. The portions which can not be digested are later thrown out and the trap is set for the next victim. The sundew seems to know when food is near, for if meat is placed close to it the plant slowly reaches out for it. If a portion is placed within a few inches of the plant the leaf will bend toward it until the tiny hairs enfold the delicacy and the sticky substance oompletes the grip.

When Farmer Bassett decided to send his son to college, and selected one exploiting the advantages of its physioal training system, he had a plain talk with the president. "John don't ueed no setting-up exercises. He sets up too late already, so I'd ruther you'd cut them out. But, say, if you've got any good getting-up exercises that are a sure thing, go to it with John."

Acoording to Henry Nesbit, an American authority, the whale is a mammal, and the female bears one whale calf a year. Until the young fish is six months old it is nursed by the mother just as any land baby of the mammal type is. A mother whale has been seen to swim through the water with its young cradled in its flippers.

A man advanced in ycars has often nothing but his age to show that he has lived a long period.—Seneca.

Because of the many small farms in France, handplows that may be operated by women as well as men are sold there.

A man may be honest because of the money there is in it, or he may be otherwise for the same reason.

Of all the precious stones, the ruby is the heaviest. After it comes the garnet, topaz and diamond. Rubies are scsrce and when of pigeon's blood color and flawless are worth more than diamonds.

Justice is only a few jumps behind the most clever sinner. There is no rest for the wicked; a guilty conscience is ever on the burning sands.

A very-stout and portly gentleman was once asked why he did not play golf, and this was his answer: "I did try it once, but I found that when I put the ball where I could see it I could not reach it; and when I put it where I could reach I could not see it."

The first fossil ever found of a family of rodents, the living representatives of which are found only in Ethiopia, recently was discovered in Asia.

Nearly $7,500,000 was paid in death dnties on the estate of Sir Emil Ropner, a British ship owner, who left an estate of $18,000,000.

A ship's captain is empowered to conduct a marriage ceremony aboard his boat if the occasion arises.

Forty to fifty thousand hairs is the crop on the average man head, according to investigations conducted by professors of the Munich university.

Don't be awkward when given a compliment. Say "Thank you. I love compliments." That's candor.

He who has felt nothing does not know how to learn anything.

Ancient History

Items Taken From The Grand Forks Sun for the Corresponding Week Twenty Years Ago

Mr. and Mrs. E. C. Henniger returned to the city Saturday from Helena, and they will locate here permanently. Mr. Henniger was formerly in business in Grand Forks and still owns some property here. During the past two years he has been engaged in the meat market business with his brother in Helena.

Herbert W. Young and Miss Sadie Fee were married in the West ward last Wednesday evening, Rov. J. R. Robertson performing the ceremony.

Dr. K. C. MacDonald of this city will soon open a branch office in Vernon.

Grand Forks has of late been enjoying an attractive list of performances at the opera house, under the present management of Lew Johnson.

Genuine BAYER ASPIRIN

Insist on BAYER TABLETS OF ASPIRIN

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians 24 years for

Colds Headache Neuralgia Lumbago
Pain Toothache Neuritis Rheumatism

Safe — Accept only "Bayer" package which contains proven directions.
Handy "Bayer" boxes of 12 tablets
Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Here and There

Tourist business throughout Canada has been remarkably productive this year and it is estimated that its total value for the Dominion will exceed $100,000,000. This places the tourist traffic high among Canada's industries.

The "Princess Kathleen", one of the two fine steamers under construction for the Canadian Pacific Railway's British Columbia coastal service, was launched at Glasgow, Scotland, on September 27th. Lady Mount Stephen, widow of Lord Mount Stephen, former president of the company, performed the launching ceremony.

As an indication of how plentiful wild game has become of recent years in the Province of Quebec comes a report from Montreal, which records the recent appearance of a full-grown bull moose in Rosemount, a suburb of the city. It is thought to have strayed into the neighborhood from the forest to the north. The animal was quite tame and was easily captured.

The Duke of Alba, who, with other Spanish grandees, recently completed an extensive tour of Canada, purchased a number of very valuable furs for gifts to be presented to his friends, including the King and Queen of Spain. The furs were acquired while the Duke was sojourning at Banff, the popular mountain resort on the Canadian Pacific main line.

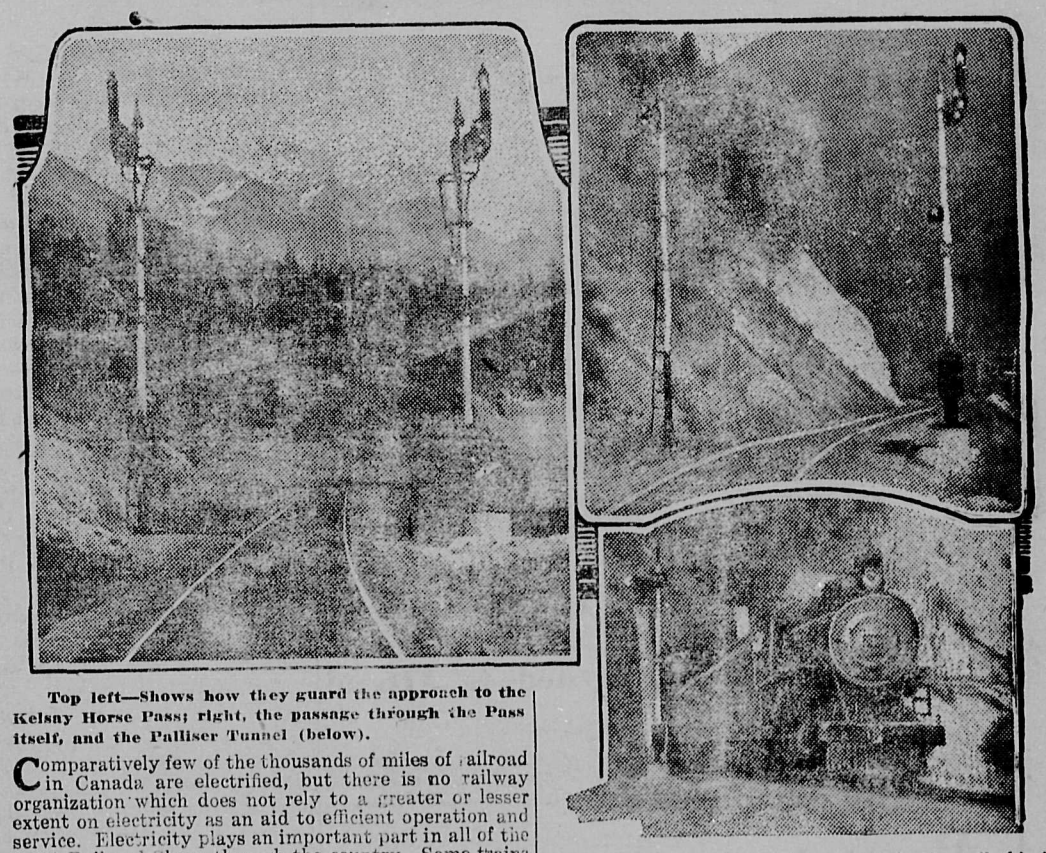
Watchmen Who Never Sleep



Top left—Shows how they guard the approach to the Kelsay Horse Pass; right, the passage through the Pass itself, and the Palliser Tunnel (below).

Comparatively few of the thousands of miles of railroad in Canada are electrified, but there is no railway organization which does not rely to a greater or lesser extent on electricity as an aid to efficient operation and service. Electricity plays an important part in all of the great Railroad Shops through the country. Some trains and cars are operated by power directly transmitted or stored in batteries. Bridges are operated, and a thousand and one electrical devices are in constant use which beside being labor saving do away with the human element which might make for inefficiency. Numbered among these are the automatic Block Signals which one finds distributed along the line of the Canadian Pacific, and notices particularly in the Rocky Mountain passes where they are more urgently required.

To the average layman an automatic signal is just a signal, and the general public is only interested in it because it gives added protection, or rather eliminates possible danger from the portion of track which it governs. To the railroad official it is more. It acts as watchman against broken rails, open switches, a fouled track or any other obstruction. Through a circuit in the rail this is accomplished, and if the circuit be broken, for the reason that another train is occupying the block, or that there is an open switch, a broken rail, washout or other obstruction, then the train approaching the signal may not pass. And while it awaits a through signal, trains following in the rear may not approach for the reason that they are also stopped by an automatic signal which will not release them until the preceding train has passed from that section of the track which they desire to enter. A perfect system. No electrical circuit — no through signal — no train may pass.

The value of this system in the Rockies can hardly be over-estimated. Not only is labor saved, but the company is able to ensure absolute protection.

ENGLAND WILL SUPPORT CANADIAN ENTERPRISES

Before leaving England recently after a short visit to that country, E. W. Beatty, president of the Canadian Pacific Railway said "I cannot help but regard Canada as the greatest actual potential asset in the Empire, and when exchange is at parity I feel quite confident that England will support Canadian enterprises and Canadian development will be very extensive." The photograph reproduced above shows Sir Thomas Fisher, general manager, Canadian Pacific Steamships, (left); Sir George McLaren Brown, European General Manager of the Canadian Pacific, Mr. Beatty and Captain J. Turnbull, commander of the Montlaurier.

News of the City

A Liberal meeting will be held in Bertois hall, Cascade, at 3:30 in the afternoon on Thursday, October 30. The speakers will be Hon. Dr. J. H. King, federal minister of public works; D. W. Sutherland, Liberal candidate in the Yale by-election, and Col. C. E. Edgett of the Okanagan.

Mrs. Drucella Davison, aged 73 years, 9 months and 29 days, wife of Silas M. Davison, died at her home in this city on Saturday last. The funeral took place from the United church, where services were held, on Monday afternoon, and interment was made in Evergreen cemetery.

R. A. Brown has returned from his hunt for gold in the north. He intends to resume the search next summer.

A quiet wedding took place at the home of Mr. and Mrs. G. A Smith in the West end on Wednesday morning at 11;15, when their daughter, Ruby Ross Smith, and LeNoir John Fisher, son of Mr. and Mrs J, T. Fisher, of the North Fork, were united in marriage by Rev. F. E. Runnails. Only relatives of the principals were present. After a light luncheon the young couple left by motor car for Port Hill, Idaho, where they will reside.

Miss Nellie Young is a patient in the Grand Forks hospital. She underwent an operation for appendicitis on Wednesday.

The packing of this season's fruit crop will be completed in a few days at the central packing house.

Chief J. A. Fraser has received notice to move from Greenwood to Penticton, where he will make his headquarters. Constable J. M. Bella will be in charge of the Greenwood office.

It is only a question of time when the regenerative radio receivers will be prohibited Their installation should never have been permitted, as they often spoil a fine entertainment by interference.

GOD SAVE THE KING

A Bargain in Newspapers

An Opportunity to Win $5,000

A Beautiful Art Calender Free

The Grand Forks Sun has concluded an arrangement with The Family Herald and Weekly Star of Montreal by which we can offer the greatest bargain ever given to newspaper readers

The offer includes a full year's subscription to both papers, an art calendar with a most beautiful picture subject ready for framing, and an opportunity to win a prize of $5,000 cash.

In the Federal Election of 1921 there were 3,119,306 votes cast out o a total of 4,435,310 names on the voters list.

How many votes will be polled in the next Federal Election?

The Family Herald and Weekly Star are offering Ten Thousand Dollars in 94 prizes for the best estimate, and our arrangement with the publishers of that great weekly gives every Grand Forks Sun subscriber an opportunity to make an estimate, and perhaps win the capital prize of $5,000. Some person will win. Why should it not be you?

Read This Bargain

The Grand Forks Sun Costs $1.00 per Year.

The Family Herald and Weekly Star Costs $2.00 per Year.

We now offer a full year's subscription to both papers, including a copy of The Family Herald Art Calendar and the right to make one estimate in The Family Herald Election Contest.

All for $2.00

Estimates must be made at time of subscribing, and no changes will be permitted afterwards.

Order Now at This Office

The GRAND FORKS SUN

Here and There

Immigration to Canada for the month of August, 1924, totalled 20,186, of whom 5,706 were from the British Isles, 1,784 from the United States, and 12,696 from other countries. Immigration for the first five months of the fiscal year totalled 76,719. In the same period 23,861 Canadians have returned to Canada from domicile in the United States.

As an indication that the tide of settlers has definitely set in the direction of Canada, it has been made known by the Department of Immigration and Colonization that 5,000 acres of land near Lethbridge has been sold to ten families of 75 persons from South Dakota. This, it is announced, is only the advance guard of a considerable northward movement from that region.

"We will have a good report to present when we reach the Hebrides", said Rev. Father Alex. MacDougall, a member of the Hebridean commission of inquiry which investigated conditions of Hebrideans in Canada. The members of the commission, after visiting Alberta, reported the new settlers perfectly satisfied with Canadian conditions.

Among the passengers sailing for Europe aboard the Canadian Pacific Steamship "Empress of France" on October 8th, was Geo. A. Walton, General Passenger Agent, Canadian Pacific Railway, Montreal, who will represent the company on an extensive tour of Europe arranged for the American Association of Passenger Traffic Officers by the trans-Atlantic steamship companies and the railroads of Great Britain and the continent.

Charles J. Pernigotti, a native of Danbury, Conn., has received a commission from the Prince of Wales to paint some of his blooded stock on the E. P. ranch, near High River, on the Canadian Pacific lines in Alberta. Pernigotti, who has attained a reputation as a painter of animals, says the commission was awarded during the Prince's stay at Syosset. He will commence work the latter part of October.

As a result of the survey conducted by the newly formed Graphic Arts Association, printing and allied trades are now shown to constitute the second largest industry in Winnipeg, Man., representing an investment of $10,054,318, and providing employment for 12,000 people. The report shows that during 1923 the sum of $3,619,322 was paid in salaries.

With the approaching close of the tourist season, plans are being laid for the continuation of construction work at the Chateau Frontenac, the Canadian Pacific Railway's palatial hotel in the city of Quebec. Some of the interior decorating and the completion of rooms of the main corridor in the Chateau had to be left unfinished when the present tourist season opened, but it is expected that work on these parts of the hotel will commence very shortly. The billiard room and other rooms in the basement will also be completed as soon as possible.

Ed Depew is in the Grand Forks hoswital, suffering from an attack of rheumatism.

(Section 227.)

IN THE MATTER of Application No. 27760F and In The Matter of Lots 17, 18 and 19, Block 19, Map 23, City of Grand Forks.

TAKE NOTICE that the above application has been made to register Thomas Ahearn, Ottawa, Ontario, as the owner in fee of the above lands and for the issue to the said Thomas Ahearn of a Certificate of Indefeasible Title thereto, and that in support of such application there appears in the chain of title a conveyance dated 27th July, 1915, from The Dominion Permanent Loan Company under its corporate seal to Thomas Ahearn of Lots 18 and 19, Block 19, Map 23, under the power of sale contained in a certain mortgage dated the 21st day of April, 1899, from Joseph K. Johnson to The Provincial Building and Loan Association, and which mortgage was assigned by the Provincial Building and Loan Association to The Dominion Permanent Loan Company by assignment dated 30th June, 1902.

AND FURTHER TAKE NOTICE that registration will be effected in pursuance of the above application and a Certificate of Indefeasible Title to the said lands issued to the said Thomas Ahearn after the lapse of fourteen days from the service upon you of this notice (which may be effected as directed hereunder) unless you shall take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

Dated at the Land Registry Office, Kamloops, B. C., this 14th day of October, A.D. 1924.

E. S. STOKES,
Registrar of Titles.

To Joseph K. Johnson.

I direct service of above Notice by publication once a week for two weeks in a newspaper circulating nearest the lands.

E. S. STOKES,
Registrar of Titles.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 1,500 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
