

LIBERALS HOLD ENTHUSIASTIC PUBLIC MEETING

Candidate Cossitt and Premier Oliver Deliver Effective Speeches to a Large Audience

A very large audience gathered in the Empress theater on Tuesday evening to listen to the addresses of F. B. Cossitt, Liberal candidate for Yale, and Hon. John Oliver, premier of British Columbia. D. McPherson, M.L.A., acted as chairman of the meeting and introduced the speakers to the audience.

Mr. Cossitt confined the greater portion of his address a discussion of matters directly affecting the people of the district. Mr. Cossitt is a fluent and logical speaker, who possesses a pleasing style of straightforward delivery, and his remarks on the various subjects he handled seemed to carry conviction to the audience. He spoke very highly of the Robb budget, saying that it was the best budget ever brought down in the house of commons. The speaker pooh-poohed the disloyalty cry of Tories. Nothing was accomplished by keeping up this cry. The Liberals were as loyal as the Tories. The U.S. did not want Canada any more than Canada wanted the United States. Speaking on the tariff question, Mr. Cossitt assured the audience that no tariff legislation would be enacted that would injure the farmers of British Columbia. In closing he urged the electors of Yale to vote for the Liberal candidate and the best government Canada had ever had—the King government.

Premier Oliver made best speech he has yet delivered in Grand Forks. He commenced his address by giving a history of the change of governments at Ottawa, declaring that parliament had been dissolved with more suddenness than any parliament in the British empire had ever been dissolved. He emphatically denied that attacks had been made on the governor-general by Premier King.

In discussing the tariff question, Mr. Oliver showed the benefits that the country had derived from a reduction of the tariff on automobiles and farming implements.

In discussing the smuggling scandal, the speakers said that not all the goods involved had been smuggled into Canada. A large portion had been smuggled out of the country—they were being smuggled across the line at Grand Forks every day.

Mr. Oliver contended that the members of the present Meighen cabinet were holding office illegally. Not one of them had taken the oath of office. Parliament had passed laws

making smuggling a criminal offence. These men had placed themselves on the same plane as a smuggler by using their superior intelligence to smuggle themselves into office. The speaker also declared that Mr. Meighen had deceived the governor-general by making him believe that he (Meighen) would be able to carry on. The ministers had tried to get millions to spend when they were not king's ministers at all.

Mr. Oliver characterized some of the statements made by Hon. H. H. Stevens in connection with the customs probe as barefaced falsehoods. The case of a woman smuggling narcotics had been transferred from 1921 to 1925. He also made the statement that a large number of the officers involved in the customs scandal were Conservatives appointed under a Tory administration.

The Liberal tariff policy was reviewed by the speaker from the time of confederation down to the present day.

In reviewing the National railway policy of the government, the premier made the remark that it had been truthfully said that Mackenzie & Mann were the greatest confidence men the world had ever produced.

A ripple of merriment went through the hall when the speaker read a few choice paragraphs from the Searchlight, a publication sponsored by Gen. McRae in a provincial election. The general was then Progressive candidate for the legislature. He is now running for the federal house on the Tory ticket in a east constituency. The paragraphs quoted gave the general's opinion of the Conservative party and Mr. Bowser, and also of Mr. Oliver.

The speaker maintain that Canada benefited by Australian treaty. Canada sells Australia \$12 worth of goods to every dollar worth of goods that Australia sells to Canada. Motor cars were made in Canada and sold in Australia for less than they can be bought for in British Columbia.

Mr. Oliver emphatically declared that the old age pensions bill was workable. The federal government paid 50 per cent of its administration and the provinces that adopted it the other 50 per cent. If a province did adopt the bill it would, of course, be inoperative in that province. The premier said he would like to see British Columbia be the first province to adopt the bill, and he would recommend it to the legislature.

TWENTY-FIFTH YEAR—No 45

"Tell me what you know is true I care less as well as you."

Ana KETTLE VALLEY ORCHARDIST

POLITICAL NOTES

After it had digested the full text of the Robb budget the Vancouver Daily Province said "it was winning golden opinions everywhere." This is the budget which the Conservative party attacked tooth and nail in the house of commons. The same Vancouver newspaper said the Australian treaty was "one of the solid achievements of the King government." This is the treaty which the Conservatives attacked in the house of commons and have been attacking ever since. But it is one of the best bargains of this kind that British Columbia has ever had.

Not a single Conservative speaker in this province has so far dared to discuss Mr. Meighen's imperial relations policy. That policy would oblige Canada to old an election in order to find out whether this country should take part in a war in which the empire had become involved. Three months would elapse before a verdict could be given. Then the Conservative leader and his supporters call all Liberals traitors!

The Conservative party of Canada is pledged to abolish the British preference unless Great Britain will undertake to tax her own people. When Sir Wilfrid Laurier extended this concession to the motherland in 1897 he did it without any conditions whatever. Canada now sells Great Britain more than \$500,000,000 worth of goods a year and buys only \$163,000,000. If he could have his way Mr. Meighen would disturb this excellent trading arrangement.

Mr. Meighen and his supporters have attacked the budget. They call it a fake and a sham. Listen to this: Recently in Ottawa a gentleman was asked how he was going to vote on September 14. "For the Liberals," was his reply. "Why?" he was promptly asked. "Because the Liberals reduced my income tax from \$124 to \$38—that's why," he responded. He knows a good thing when he sees it.

The first seven months of this year showed that the net earnings of the Canadian National railways are more than they were for the corresponding seven months of 1925 by \$11,869,711.25, or an increase of 209.44 per cent. In these figures is reflected the growth of the Dominion's business through the operation

of the King government's trade extending policies.

When the Meighen government went out of office in 1921 this country's adverse trade balance with the rest of the world amounted to no less a sum than \$30,000,000. At the end of the fiscal year of 1925-1926 the Dominion's favorable balance of trade with the rest of the world amounted to more than \$400,000,000.

Vancouver's bank clearings and building activity this year have broken all records. Yet it is not twelve months since H. H. Stevens was telling the people of eastern Canada that conditions in his own city were so bad economically that business men were packing up their goods and chattels and going to Seattle. But he did not say that in Vancouver.

MILES OF APPLE CARS ROLL TO THE PRAIRIES

Vernon, September 9.—The greatest shipment of fruit that ever left the Okanagan valley in one day was despatched Monday morning, when 114 cars of fruit, mostly apples, were pulled out of Vernon bound for the prairie markets. The train had a total length of more than a mile.

The Associated and Independent growers agreed not to ship McIntosh apples until September to allow earlier varieties to be cleared up in some measure.

The Macs, which this year are better than ever, were rolled eastward in three trains over the C.P.R. and C.N.R.

For some days the loads had been accumulating and they were rolling eastward long before daylight on the date agreed upon.

Consumption of Copper Huge; Production Great

World copper consumption for the last six months has been at a rate of 10 per cent greater than during 1918, war peak, and practically 50 per cent larger than the pre war peak of 2,225,000,000 pounds in 1913.

Price of copper, however, during the last six months has averaged only 12 cents a pound delivered. Coostant crowding of production so that during this entire time buyers and producers have feared over-production has kept the price at this low level compared with the average price of about 14 60 cents delivered in 1923, when world consumption was approximately 2,650,000,000 pounds of new copper, and 15 1/2 cents in 1913, when world consumption was two-thirds as large.

Ottawa.—Meighen's chances in the approaching election are hopeless.

Keen political followers have for some time paved the way for a decisive Tory defeat.

Liberals now are betting that Meighen will not even get as many seats as he held in the last house and are giving odds of 2 to 1 to back up their opinions.

A wager of \$5000 was put up today on this basis and there is plenty of money at the Liberal headquarters here for any other Conservative takers.

But there is an ominous lack of enthusiasm in Tory ranks and few takers.

FROM EVERYWHERE

Whaling operations off the coast of British Columbia this year have been very successful, and to the end of July the fleet had caught 182 whales. There are only six steamers operating this year, while last year the number was eight. The weather has been good to date and very little fog has been encountered.

Fire chiefs representing the stations in Montreal and various nearby centres left over the Canadian Pacific lines about twenty strong for Windsor recently to attend the annual convention of the Dominion Association of Fire Chiefs, which was held August 24th to 27th. The Association is made up of over 250 chiefs from all parts of the Dominion.

Nearly 2,000 racing pigeons, owned by pigeon racing devotees in Montreal, were shipped through the Canadian Pacific Express yards at Montreal recently to various points in Quebec and Ontario where they were released by the agents at the points to which they were shipped to fly back to their home roosts in Montreal. Practice races of this nature have been carried on through the summer months.

Thomas Meighen arrived in Winnipeg recently from Chicago prior to beginning work on his next picture, "The Canadian". The wheat fields of the Canadian West will be the background for this picture. The location men and other members of the troupe passed through Montreal earlier on their way to the west where they were joined by Thomas Meighen, and they are looking over the Calgary district for a suitable location.

Announcement was made at the headquarters of the Canadian Pacific Railway at Toronto recently that, effective September 1st, Robert Niven, theatrical and special business clerk in the passenger department of the Company at Montreal, has been appointed assistant district passenger agent at Toronto. Mr. Niven is well known to the theatrical fraternity passing through Montreal with whom he came in contact in his business.

"I am convinced that Canada offers unlimited possibilities to immigrants from the Old Country," said the Marquis of Salisbury, chairman of the Empire's Parliamentary Association and leader of the Conservatives in the British House of Lords, when interviewed at Vancouver recently.

His Lordship sailed recently from Vancouver to Australia to attend the Empire Parliamentary Association Conference in that Dominion this fall.

The first automatic or "remote" control power plant on the North American continent is to be built at the Slave Lake side of the tunnel connecting that body of water with Alouette Lake. The contract has been let by the British Columbia Electric Railway to a Vancouver construction company at a price of \$500,000. The total cost of constructing a dam across the Alouette River, building a tunnel connecting the lake with Slave Lake and erecting a new power house will be approximately \$2,800,000.

Over 50,000 railway cars which if placed end to end would stretch more than 400 miles are now available on the western lines of the Canadian Pacific Railway to handle the fall traffic in grain and live stock. The combined capacity of the 41,316 box cars for the grain crop which will be transported to the head of the lakes, is 570,040 tons. These are capable of carrying 60,330,000 bushels of grain each trip. Estimating that the cars make five trips between the grain fields and the head of the lakes or Vancouver the Canadian Pacific Railway Company is in a position to handle more than 300,000,000 bushels during the four months of the grain rush.

Some men sow selfishness and reap success.

Dr. Diamond Jenness of Ottawa, Dominion Government Ethnologist, who is spending the summer in the far north, studying Eskimo dialect.

528 CANDIDATES IN THE FIELD

Ottawa, September 8.—The battle lines of the opposing political parties were drawn closer to one another at official nominations yesterday, and with one exception contests will be waged on September 14 for every seat in the federal parliament.

The exception is Provencher, Man., where A. L. Beaubien, Liberal-Progressive, was elected by acclamation at the advance nomination held last week in 27 constituencies of wide area and inaccessibility.

Featured by the large number of triangular fights, the nominations yesterday for the other 318 seats brought the total number of candidates to 528. Of this number, 233 are Conservatives, 199 Liberals, 20 Progressives, 21 Liberal-Progressives, 12 U. F. A., 25 Independent and 18 Laborites.

All the ministers in the Meighen government and the former ministers in the late King administration, who are running, face straight party fights with the exception of Hon. H. H. Stevens, minister of customs, and Hon. J. H. King, former minister of public works. Mr. Stevens is opposed in Vancouver Centre by a Liberal and a Laborite, while in Keatenay East a Conservative and a Laborite are running against Dr. King.

Thirty triangular contests will be held, while 212 straight party fights and two quadrangular battles will be fought.

Two women are in the field. There will be twelve straight party fights in British Columbia.

Many a temptation comes to us in fine, gay colors that are but skin deep.—Henry.

I love to lose myself in other men's minds. When I am not walking I am reading.—Charles Lamb.

The consensus of opinion among betting men in Vancouver is that there is no question that, whatever may be the outcome of the election in that city, the Liberal party will form the next administration.

WON THE KING'S PRIZE Sergt. Fulton, winner of the King's Prize at Bisley, "chaired" after his victory.

THE BRICK FOR BRICK ARGUMENT

Speaking at Orillia the other day, Mr. Meighen said:

"Tariff revision on farm products will be in the very first tariff revision we make. We will make only one revision, and in that revision we will place the tariff on farm products entering Canada to just as high a level as the American tariff."

But there is a joker in the pack. On a good many farm products the United States tariff is lower than that of Canada. Mr. Meighen apparently likes the "brick for brick argument" when talking in Ontario—that is, he promises a tariff wall of the same dimensions as the United States "brick for brick."

If such a policy were followed the duties on some United States products entering Canada would be lowered. In this connection the following statistics are illuminating:

Item.	U.S. Rate (1926)	Canadian Rate to U.S. (1926)
Boots and shoes, wholly or in chief value of leather. Free		pegged 25 p.c. n. o. p. 30 p.c.
Leather, all leather not specially provided for... Free		dressed 15 p.c. sole 17 1/2 p.c.

Harness and saddlery ...	Free	30 p.c.
Leather shoe laces.....	Free	30 p.c.
Plows.....	Free	10 p.c.
Harrows.....	Free	7 1/2 p.c.
Mowers and reapers.....	Free	6 p.c.
Thrashing machines.....	Free	10 p.c.
Horae rakes.....	Free	7 1/2 p.c.
Wagons and carts.....	Free	farm wagons, 10 p.c.
Fresh sea herrings.....	Free	per lb 1c
Smelts.....	Free	per lb 1c
Milk, condensed (unsweet)	1c per lb	per lb 3 1/2c
" " (sweetened)	1 1/2c per lb	per lb 3 1/2c
Rye flour.....	45c per cwt	per cwt 50c
Cereal foods in packages, not exceeding 25 lbs ..	20 p.c.	27 1/2 p.c.
Apples.....	75c per bbl	per bbl 90c
Berries.....	1 1/2c per lb	per lb 2c
Peaches.....	3/4c per lb	per lb 1c
Tomatoes.....	3/4c per lb	30 p.c.
Turnips.....	12c per cwt	30 p.c.
Vegetables, n. s. p. f.....	25 p.c.	30 p.c.
Onions.....	1c per lb	
White lead ground in oil, n. s. p. f.	25 p.c.	37 1/2 p.c.
Iron in pigs.....	75c per ton	per ton \$2.50

Application is now being made before the United States tariff board to increase the rate on iron in pigs to \$1.12 1/2 per ton.

FRIDAY, SEPTEMBER 10, 1926

Next Tuesday, September 14, the people of Canada will decide the composition of the federal government for the next four years. The issues involved in the election and the policies of the different parties have been thoroughly discussed during the campaign, and elector should be able to cast his ballot intelligently.

If you approve of the following achievements of the late Mackenzie King government, you will mark your ballot for F. B. Cossitt, Liberal candidate in Yale:

1. Introduction of the old age pensions bill.
2. Reduction of the tariff on many of the necessities of life.
3. Bringing back of penny postage.
4. Abolition of receipt tax.
5. Reduction of the tariff on many of the implements of production.
6. Cutting down the income tax.
7. Reduction of public debt.
8. Arrangement for trade treaties.
9. Cutting down the sales tax.
10. Reduction of government expenditures.
11. Reduction of tariff on automobiles.
12. Efficient administration of National railways.

Mr. Cossitt is a pioneer fruit grower of the district, has a clean record, is capable and a fluent public speaker, and is well fitted to look after the interests of the district in parliaments.

The Liberal policy is a policy of development and expansion that embraces every section of Canada.

The impression all over the country is that the Liberals will have the largest group in the next house.

Notes • Notions • Notables

Through the medium of a Columbus newspaper a correspondent asks: "Isn't a bare leg a bare leg anywhere and everywhere?" Well, now, it would seem to be bare on the street in a zero temperature than at a bathing beach in midsummer.

The two great developments of the twentieth century, radio and air navigation of the dirigible, are yet little known in Russia to the mass of the people.

In 1763 times were so hard in Virginia that the assembly passed an act forcing clergymen to share the afflictions of their parishioners. The king was appealed to and he annulled the act. Salaries were ordered paid in full. James Maury, a clergyman of Hanover parish, then brought suit. Patrick Henry was employed by the people to plead their cause. So great was his eloquence that the jury made an award of one penny.

What is said to be longest non-stop run was completed recently by a new oil electric car designed for the Canadian National railways. It completed a trip from Montreal to Vancouver, a distance of 2937 miles, in 67 hours. Not once during the trip did the engine of the car stop running. In addition, the trip was made in the fastest time on record for such a distance.

As civilization advances children begin to worry at an earlier age.

It has been calculated that wheat flour bread and crackers, pastry and similar products constitute 19 per cent of the total food of the average Canadian family, furnishing about 27 per cent of the total protein, 6 per cent of the total fat and 46 per cent of the total carbohydrates. They contain a high percentage of starch and may be profitably com-

bined with materials rich in protein, meat, eggs, etc., to form a well balanced diet.

Destruction of mistletoe in national forests of the United States has been ordered by the department of agriculture. The department doesn't object to the kissing, but to the mistletoe, which is regarded as a dangerous forest pest. A drive has been started against mistletoe in all national forests, and within ten years the department hopes to exterminate the plant.

Famous throughout the world for its amazing durability, teak wood is said to be the most useful of all woods. In the old cave temples of western India teak beams have been found, solid and sound, which must have been put in place 2000 years ago. Once seasoned, it does not warp or split. Unlike oak, teak will not decay when it comes in contact with nails, and the white ants, enemies of most other woods, will not eat holes in the teak beams. Teak is raised on many plantations of the Malay peninsula to produce lumber for use in railway coaches, the interior finish of steamers, in furniture and wherever a hard, durable wood capable of taking a brilliant polish is desired.

"The time come when I got pay for a cartoon," says Gene Byrnes. "That was one that I submitted to the New York World. Naturally, making the grade in this way was such a delight that the question of price did not enter my head; but it did concern some of my pals. That really was a very funny part of it. Several of them speculated heatedly as to what I would receive. One ventured a guess that \$150 would be the price. A second said that was out of the question; that even \$75 ought to satisfy a mere beginner. A pessimistic third fellow, evidently endeavoring to wet-blanket the matter, said I could not expect over \$35 or \$40. That was a dig at my delight and pride. As anyone knows, you can not determine from a look at the outside of an envelope how large is the check inside. So when I got that much looked for long envelope with the well-known World heading in the corner, my heart stopped its operations while I ripped open the envelope. The cheque was for \$8."

China

A Wife Mourns for Her Husband

The dolichos grows and covers the thorn;
 O'er the wattle is the dragon plant creeping.
 The man of my heart is away and I mourn—
 What home have I, lonely and weeping!

Covering the jujubes the dolichos grows,
 The graves many dragon plants cover;
 But where is the man on whose breast I'd repose?
 No home have I, having no lover!

Fair to see was the pillow of horn,
 And fair the bed chamber's adorning;
 But the man of my heart is not here, and I mourn
 All alone, and wait for the morning.

While the long days of summer pass over my head,
 And long winter nights leave their traces,
 I'm alone! Till a hundred of years shall have fled,
 And then I shall meet his embraces.

Through the long winter nights I am burdened with fears,
 Through the long summer days I am lonely;
 But when time shall have counted its hundreds of years
 I then shall be his—and his only!

Must Pay for Paper

In giving judgment against a delinquent subscriber recently, Judge O'Reilly, of Cornwall, Ont., made the statement that newspaper publishers had a hard enough time in financing the business without being done out of their subscriptions.

If a person desires to stop a newspaper the proper way is for him to pay all arrears and get a receipt, or if he has paid, refuse to take the paper at the post office and have a record made of his refusal. A man who owed for a newspaper could not stop taking it and expect the publisher to go without his pay.

It may be added that no publisher wishes to force his newspaper on any one, and any subscriber desiring to discontinue his paper will not have the slightest trouble if he does so in an honest and businesslike way.

Hundreds of dollars are lost every year to publishers by those who after a subscription has expired for three or six months, discontinue the paper and send it back as "refused." The amount is too small for the publisher to make a fuss over, but all the same it amounts to a neat little sum in a year.

Fanits are easier seen than virtues.

All Prices at Factory Taxes Extra

Ask your Chevrolet dealer about the GMAC Plan of buying a car on time.

Value Means More than Price Alone!

THE price of a car is what you pay—the value is what you get. Value is the combination of Quality and Price.

Notwithstanding the recent remarkable reductions in Chevrolet prices, Chevrolet does not aim to be the cheapest car in its class. It does aim—and is justly considered—the greatest value in its class.

The smooth Chevrolet is outstanding value, not only because it costs you less—but because it gives you more—more smoothness of performance

—more power and speed—more instant acceleration—more striking beauty of line and finish—more richness of upholstery—more completeness of appointments.

To pay less than the price of the smooth Chevrolet is to sacrifice quality. To pay more, for a car in the Chevrolet class, is needless extravagance.

The Smoothest Chevrolet in Chevrolet history is selling at the Lowest Price for which Chevrolet has ever been sold in Canada.

Grand Forks Garage

Saving Burglars Time

A tag with this inscription, "This safe is never locked, turn the handle and it will open," has hung on the knob of the strong box of a fuel company at Tulare, Cal., for the last seven years. Al-

though the statement is perfectly true, burglars do not believe it and have ransacked the safe three times. It is used only for protection of records against fire, and no money is kept in the safe.

The verdict oft acquits the raven and condemns the dove.—Juvenal

Studying Wild Life

Scientists in Sweden are making a systematic study of the mysterious ways of the birds of the air and the fish in the sea. What routes the birds of passage follow at the end of each season, and where

the schools of fish come from as well as why they swim in certain directions are some of the problems investigated.

Millions in Interest

The United States government has paid out more than \$11,000,000,000 in interest on

the public debt since 1771. The greatest amount in one year was \$1,055,088,000, paid in 1923. This year the estimated interest payment will be \$730,000,000.

He's armed without that's innocent within—Pope.

FROM EVERYWHERE

Beating the train to the crossing is always a risk in favor of the train but when a motorist halts his car and waits until an engine is almost alongside him before he tries to get over, then the risk becomes an absolute certainty—against the motorist. This was the case recently in Toronto where a car was signalled to stop by the watchman at a crossing, obeyed the signal, and then decided he would still try and get over. Fortunately there were no injuries and the only sufferer was the automobile.

Pictures of Gertrude Ederle's swimming of the English Channel were sent aboard Canadian Pacific liner Empress of Scotland at the last minute at Southampton and then passed to a waterplane near Anticosti and by it delivered to airplanes at Rimouski, thus beating other pictures speeding to New York on ocean liners by a full twenty-four hours. This is regarded as one of the cleverest and speediest methods of reaching this continent from Great Britain that has ever been successfully accomplished.

Members of the Empire Parliamentary Association, numbering twenty-one delegates from the Parliaments of the United Kingdom and the Irish Free State arrived in Canada recently on board Canadian Pacific liner Empress of Scotland. They travelled across the Dominion from Quebec to Vancouver, stopping en route at Montreal, Ottawa, Toronto, Winnipeg and Vancouver. They sailed by S.S. Aorangi from Vancouver, August 25 for Sydney, Australia, where they will attend the Association Conference to be held in September and October.

'Temperament' is disordered nerves. It needs medicine.

NEWS OF THE CITY CONTRACT FOR SIDEWALK LET

President Beatty, of the C.P.R., and party of officials of that road made a short stop in this city last Saturday evening on their way east from the coast. They travelled in a special train of steel coach.

Joe Schnaveley has purchased a 40-acre farm near Spokane, and he will leave for that place the latter part of this week to take care of the crop on the farm.

Okanagan McIntosh apples made their first appearance this year on the Vancouver market this week.

Kettle Valley line freight train Extra No 3401 plunged over the trestle in Coquihalla pass last Sunday morning, and four members of the train crew were killed and one was injured. The dead are: Conductor J. P. Quinn, Hope; Engineer R. Marks, Penticton; Trainmen F. E. Siringier and C. A. Johnson of Brookmere, and several unknown persons. Fireman B. Letts, of Penticton, was injured.

Mr. Hine, of the public school staff, and bride returned to the city the first of the week. They have rented Jack Ashley residence.

Pet Santure and Ab Fee returned on Wednesday from a four days' trip to Franklin camp. They state that previous reports have not exaggerated the size of the recent strike made in that camp.

H. H. Henderson returned today from a week's visit to the Spokane fair, where he Mr. Lawrence had a rabbit exhibit.

Mr. Page, formerly American customs officer at Danville, was a visitor in the city on Wednesday.

John Murray, principal of the high school, and bride returned to the city the latter part of last week. They have started housekeeping in Mrs. Harrigan's residence.

Short Sketch of the Liberal Leader of Yale

F. B. Cossitt, nominated Liberal candidate at Vernon last week, is widely known as a successful Canadian fruit commissioner at the last Wembley exhibition.

He was born at Smith Falls, Ontario.

He came to Vernon sixteen years ago and for fourteen years has been a member of the real estate firm of Cossitt, Lloyd & Beattie.

He was seven years president of the North Okanagan Liberal association and Yale Riding association, ten years on the board of the Vernon Fruit Union and two years its president. He is the father and moving spirit of the Vernon Country club, was two years president of the board of trade, is president of the newly formed Vernon Real Estate exchange, and a member of the board of the new Vernon Box company.

His genial manner and disposition have won him hosts of friends everywhere, though his modest disposition has always made it necessary for his friends to push him forward.

In his many lectures and business addresses since he returned from the Imperial exhibition he has shown himself intimately acquainted with problems of the overseas fruit trade.

He who commits no crime needs no law.—Aristophanes.

Old Age Pensions

One of the advance pieces of social legislation which was introduced in the commons last session was the bill to provide for old age pensions. This bill was not based on the theory that the state owes every person a living, but rather on the fact, that the provision of an assured competence for old age, is an easy matter for some, while, for others, it is most difficult, if not wholly impossible. Also if the young are to be given a fair start in life, the care of the aged should be subjected to the humiliation of not be their first responsibility. If reward, year that are denied opportunity of employment should not dependence or charity.

If the oldest inhabitant is the only survivor of his time, he has a clear field for his reminiscences.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptious is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or any Government Agent.

Records will be made covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that range.

Applications for pre-emptious are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of can be obtained from the Land Commissioner.

Pre-emptious must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown Lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

MILL, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, on conditions including payment of stumpage.

HOMESITE LEASES:

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING.

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers up to ten head.

Pure beer promotes true temperance

WHEN pure beer, as is the case of British Columbia, is available to the people, the drinking of liquors of high alcoholic content is lessened and true temperance is promoted. The legal, above-board and Government controlled sale of beer in British Columbia, in licensed premises by the glass and in Government stores by the bottle, has removed this Province from among the communities in which alcoholism is a factor of importance.

The attempt at total prohibition made in the United States early showed its complete bankruptcy from a moral point of view and its utter failure as regards enforcement. Now its ill consequences from a social standpoint are becoming evident.

To mention only one result, among seven million people insured by the Metropolitan Life of New York the death rate from acute alcoholism has increased 600 per cent. since the enforcement of prohibition was attempted. Which means that as pure beer was taken from the people an illicit trade in concentrated and easily handled liquor of high alcoholic content, and mostly poisonous, sprang up and drunkenness increased.

Recent deaths from poison alcohol, made from motor radiator spirit, in Ontario and New York afford an example of the harm of preventing the use of light beverages such as pure beer. This flood of death-dealing poison, naturally, did not affect Quebec, where pure beer is to be had by the people in the most free and open manner.

The people of British Columbia are protected against the danger that comes from making distilled liquors a beverage—for which they were never intended—and against the poison brews that flood the United States, for British Columbia is provided with pure beer by the five modern plants of the Amalgamated Breweries, the sale of which is supervised and controlled by the government throughout.

Pure beer is a healthful and invigorating beverage of a definite food value, with an alcoholic strength of 4½ per cent., as required by law in British Columbia, only sufficient to stimulate the digestive system in the most favorable degree. Its consumption, inasmuch as it displaces the drinking of strong distilled liquors, is a GUARANTEE OF TEMPERANCE.

The members of the Amalgamated Breweries are: Vancouver Breweries Ltd., Rainier Brewing Co. of Canada Ltd., Westminster Brewery Ltd., Silver Spring Brewery Ltd., and the Victoria Phoenix Brewing Co. Ltd., where the beer supplied to the people of British Columbia is made.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.
