ONE MAN KILLED

Great Northern Construction Train Runs Into a Handcar Near Danville.

Conductor Kelly Dies Shortly After the Accident From Injuries Received.

At 9:10 o'clock this morning a Great Northern construction train engaged in hanliug ballast for the Phoeuix branch ran down a handcar two miles below Danville. The caboose, which was placed ahead of the engine, was thrown off the track. Michael Kelly, the conductor, jumped just as the car was toppling over, but after alighting on the ground the handcar fell on top of him, and he was fatally injured.

Mr. Kelly was immediately picked up and placed on board the train, and all possible haste was made for this city. Dr. Northrop, who had been been notified of the accident, was in waiting at the station for the arrival of the train, but when it reached the depot and an examination was made it was found that the injured man had already expired, death having come as the result of a fractured skull aud internal injured.

Mr. Kelly was one of the best-known and most popular conductors employed on the Spokane Falls and Northern railway, and much regret is expressed at his untimely death. He was a widower, and leaves two children, who are now living in Hilliard, Wash., to mourn his loss.

Three other members of the train crew received some ugly cuts and bruises. They were brought to this city and placed in the Great Northern hospital, where every possible medical attention is being given them, and as injuries are not of a serious nature, they will be out again in the course of a few days.

The south-bound Great Northern passenger train was over four hours late on account of the accident, and did not reach this city until 3 o'clock this afternoon.

Wes. Fee, who is employed as the driver of one of J. W. Jones' teams, had a narrow escape from a serious accident yesterday. While crossing the Great Northern track near Macy's a construction engine backed up, striking the sleigh, and breaking it into smithereens. Mr. Fee jumped in time to save himself, and escaped uninjured. With the exception of smashing one of the sleighs, no further damage was done.

An uuknown man was run over and killed on the C. P. R. track on Wednesday afternoon near Farron station, which is about 30 miles east of Grand Forks. How he came to be on the track, what train struck him, and when, are not known. As a freight train passed Farron going east about 7 o'clock that evening one of the crew noticed a dark object on the track ahead. The train was stopped at once, and several of the crew went forward and found the dark object to be the body of a man. It had evidently been run over by a train, as his body was very badly cut up. None of the crew recognized him. The body was taken to Farron, but nothing further was learned. No one at the station knew him or had ever seen him before, and no information could be obtained about him. Farron is seven miles from Tunnel on the east and eight miles from Coryell on the west. As the man was unknown at Farron, it is presumed that he came from either of the other stations. The last train that went over the track before the freight train whose crew found the body was the east-bound passenger which passes Farron at 6:52. The remains will be kept at Farron station for a few days for identification, or for any clue to the dead man's identity,

---

SUNSET SAUNTERINGS

The annual congregational meeting of Knox church will be held on Wednesday night next, January 18, at 8 o'clock. Interesting reports will be submitted from the session, board of management, ladies' aid and Sabbath school. Refreshments will be served by the ladies of the congregation. All members and adherents of the congregation are requested to be present.

The Philharmonic Lady Quartette of Chicago in the opera house on Monday evening, January 16th. Reserved seats at Woodland's.

Jas. A. Cowie, of Northport, who furnished the music at the dance in the opera house last night, left this morning for Trail, where he has a similar engagement tonight. His full orchestra will furnish the music at a ball in Phoenix shortly, and on his return home will stop over here and give the Grand Forks people an opportunity to trip the light fantastic toe to the best dance music ever provided in this city.

Smith Curtis, manager of the Denoro Mines, Ltd., was a guest at the Yale hotel last night.

Frank Clark, superintendent of the Great Northern Express company, passed through the city yesterday on his way to Phoenix, where he will establish an office.

R. C. Morgan, superintendent of the Spokane Falls and Northern railway, was in the city yesterday, and during the day went over the Phoenix branch on a tour of inspection. The new road will be opened for general traffic on the 15th inst.

Don't forget the Philharmonic Lady Quartette of Chicago in the opera house on Monday night. This will be one of the best musical entertainments ever held in the city, and no one should miss it.

All the machinery for working the Betts and Hesperus mines, on Hardy mountain, is now in position. Generl Manager Bert Rae says the mine will be in full working order by the 15th instant.

Sheriff Kerman is in Kamloops, where he is superintending the execution of Joshua Bell, the Phoenix murderer, which takes place today. Badcliffe, the official hangman, is attending to the practical details.

Born, at Grand Forks, B. C., on January 12, 1905, to Mr. and Mrs. Martin Lee, a son.

DOINGS IN THE CITY

Masquerade at Skating Rink Next Wednesday Evening.

A. C. Flumerfelt Offers Two Scholarships for B. C. Pupils.

The first masquerade carnival of the season, for which small bills are out with full particulars, will take place at the Grand Forks skating rink on Wednesday evening next, January 18th. Prizes, which have been presented by A. D. Morrison, H. E. Woodland, W. K. C. Manly, Hunter-Kendrick Co., Jeff Davis & Co., and Lion Bottling Works, and now on exhibition in Itter's show windows, are offered for lady's, gentleman's, boy's, girl's and most comic costumes, as well as for speed and spoon and egg races. Mayor Hammar, D. J. Munro and A. D. Morrison will act as judges, while W. H. Itter's gramophone will supply a musical program. Costumers will be admitted free, must give their name and character represented on entering, will have exclusive use of ice from 8 to 9:30 p.m., when they will unmask, and the general public allowed to skate. General admission, 25 cents, including skating.

The younger hockey players in Grand Forks are now talking of organizing an intermediate team. They should lose no time in doing so, as there is a husky bunch in town from which they could recruit a strong team which could hold its own with any junior team in the country. Get together, boys, and shape up to meet all-comers in the junior series at the big Rossland carnival next month.

Methodist Church. Rev. J. P. Cowell, bursar of Columbia College, New Westminster, will preach on Sunday evening. The pastor will preach in the morning from the subject. "The Duty of Being Unfashionable." You are invited.

Fuller particulars have been given regarding the scholarships presented by A. C. Flumerfelt, president of the British American Trust company of Grand Forks, so that high school pupils of British Columbia may have an opportunity to take up university education. There are two scholarships, of two years each, their values being $250 each per annum, or $1,000 altogether. The committee in charge of the allotment is composed of Mr. Justice Irving, Lieut.-Col. Gregory, Superintendent Robinson and City Superintendent Argue of Vancouver.

At the Council meeting last Monday night very little business was transacted, with the exception of authorizing the payment of the usual number of accounts.

Ald. McCallum is a good guesser. He predicted that Mayor Hammar's majority would be 50.

Under the revised postal regulations all papers addressed to England or other European countries must now be done up singly. No parcels containing more than a single newspaper, magazine or other article is permissable under the new arrangements, required by the new Imperial arrangements, and the public should govern themselves accordingly.

The dance in the Grand Forks opera house last night was the first social event of the new year, and it proved to be a decided success. About fifty couples were present, and all had a thorcughly enjoyable time. The music, which was furnished by Jas. A. Cowie, of Northport, with Miss Margaret Eyre, of this city, as pianist, proved a revelation to local people who indulge in terpsichorian pastime. An excellent collation was served by the wives and ladies of the members of the Catholic Social club.

Angus McDonald, a well-known former employee in the carpenter department of the Granby smelter here, who left a year ago to become master carpenter of the Northport smelter, was recently married to Miss Mabel Cummins, of that city. Duncan McDonald, of Grand Forks, a brother, was in attendance as best man. Mr. and Mrs. McDonald went on a wedding trip to Spokane, and upon returning to Northport to take up housekeeping, several of the groom's fellow-employees treated the young couple to an old-fashioned charivari, and presented them with a handsome $75 service.

It reported that a promiuent merchant is seriously contemplating applying to the new council for the appointment of a bodyguard—or gnardian.

Superintendent R. Marpole and his party of C.P.R. officials made a tour of inspection through the Boundary district this week on a sprcial train.

Smith Curtis, of Rossland, is now agent for W. H. Covert's ten-acre blocks of fruit lands.

Rev. J. R. Robertson, pastor of Knox Presbyterian church, preached an excellent sermon Sunday night on people who are interested in the big program of winter sports given each winter in Rossland.

Born, at Grand Forks, B. C., on January 12, 1905, to Mr. and Mrs. J. M. Simpson, a daughter.

Joseph Chenier, of Spokane, is visiting at the home of Mrs. J. M. Taylor.

The Philharmonic Lady Quartette of Chicago lately appeared in Vancouver and gave a concert in the Congregational church. The World thus sings their praises: "If the Quartette should ever visit Vancouver again they will be assured of a far larger audience, for everyone who was there went away singing their praises. The quartette is composed of four educated and refined young ladies, each of whom is a trained vocalist. Their quartette selections, solos and duets were all well rendered," etc. This quartette appears in the Grand opera house Monday evening next.

At Rossland Charles R. Hamilton was elected mayor by 75 majority.

HAMMAR ELECTED

Carries the City by a Majority of 51 Out of 377 Votes.

As Usual, The Sun Picks the Winners in the Aldermanic Race.

As The Sun prophetically remarked some weeks ago that it would make no difference whether a civic election was held, Mayor Hammar would guide the destinies of Grand Forks during the year 1905. After a spirited contest, in which the victor stood upon his last year's record and the policy of cutting down the city's expenses, while Mr. Gaw's supporters included several former mayors and aldermen, who were not by a long shot unanimous in their policy except in the one respect that they were ag'in the government, Mayor Hammar was re-elected by a majority of 51 out of the 377 votes polled.

The smeltermen's vote, which is quite a factor in the Grand Forks campaigns, had been claimed in its entirety by Mr. Gaw, but it would seem by the results that the goods were not delivered, or else Mayor Hammar was very generally supported by the town people, who are more in touch with civic doings than the smelter employees.

There was not a contest in either the East or West ward for aldermen, as these candidates had been elected by acclamation; but in the Center ward there was a close race, only six votes separating the highest and lowest candidates, and the second choice winning by but one vote.

In the evening, after the results had been announced; the Hammar men proceeded to celebrate with the blowing of horns and building bon fires, one of which as large as a house was kept fiercely burning for some time with the aid of empty packing cases, barrels, etc., and vividly lit up the streets and buildings around the Yale hotel square.

The full Grand Forks council for the year 1905 is: Mayor Hammar; Aldermen—East wark, F. H. Hutton, Chas. Brown; Centre wasd, A. L. Clements, Chas. Cusson; West ward, Neil McCallum and E. C. Henniger.

The following are the official figure issued by W. B. Bower, the returning officer:

STATEMENT OF POLL.

For Mayor—	
No. cast for Jeffrey Hammar...	209
No. cast for Robert Gaw.....	158
No. of spoiled ballots.....	10
Hammar's majority.....	51
For Aldermen, Center Ward—	
No. cast for A. L. Clements.....	61
No. cast for Charles Cusson.....	56
No. cast for M. R. Feeney.....	55

The Phoenix civic board for 1905 is as follows: Mayor, G. W. Rumberger; aldermen, Jas. Marshall, Thos. Roderick, Mr. Carson, F. Y. Birnie, E. Brown, Dougald Maginnis.

In Nelson John Houston was elected mayor by 15 majority, the aldermen being Messrs. Gillet, Malone, Kirkpatrick, Annable, Macdonald and Bird.

Do You Know

that a twenty-year guaranteed, gold field case wears better than a solid gold case? Do you know that it stands more hard work and protects a movement better in most cases? Gold-filled cases are today made with a skill and perfection that is marvelous. They wear as well as gold as far as appearance goes, and wear much better in practical service. I keep a large variety of the best cases made, and they are protected by an iron-clad warrant.

UNION LABEL

FRIDAY JANUARY 13, 1905

Mr. Martin Burrell, who will be remembered as the late defeated candidate for member of the Dominion house, went out of his way at Mr. Gaw's meeting last Wednesday night in order to cast slurs at The Sun. As Mr. Burrell is dead politically, and as The Sun is very much alive journalistically and every other way, perhaps it would be as well to let the event pass unnoticed, were it not for the fact that this paper makes a specialty of defending itself against attacks upon any question or from any quarter, and is quite well prepared to accept any defi from even so mighty a warrior as Former Mayor Burrell.

That versatile freak, who, it may be literally said, has for the past few months sat in the editorial chair in The News-Gazette office, is to try an entirely new stunt, according to current rumor. It will be remembered that the above gentleman occupied the police magistrate's chair in Grand Forks for several years, or until the exigencies of thh case demanded that he change seats. Then he went into the newspaper business, presumably to get even with the people who had been given some pretty fierce rulings by him. Now, after a few months as a journalist, he is apparently in hot water again, and proposes to cool off by going into the ice-cutting business as a side line, in opposition to standard dealers, furnishing consumers at bargain prices and agreeing to take half the amount in trade, from a bottle of beer to a bushel of spuds. The ice may not be scaly, but the prices seem to be scab. He will doubtless soon develop a bad case of "cold feet" in this ice-cutting business, when a good opening for him to warm up again may be found in a job on the slag railway up at the Granby smelter. After that there are some other hot places where he may locate.

Former Mayor Burrell is much worried because The Sun is not so bigoted as to prevent its seeing any question from its different sides. It would be a great relief to his hearers if Mr. Burrell was not quite so set in some of his habits and would kindly break away from his invariable practice of rehashing venerable bonmots, a la Chauncey Depew, in his eloquent public speeches, and instead give some original and personal views upon the particular question he is supposed to be discussing for the instruction of the people before whom he so often appears in the role of a public speaker. The people will get more real enjoyment out of these funny little quips when they are seated by their own fireside, with an ever-reliable comic almanac of the 1865 vintage at hand.

The Phoenix Pioneer man has frequently boasted that that city is a very close competitor of Grand Forks in the matter of population. At the municipal election just held there were were 228 names on the Phoenix voters' list, while the Grand Forks list contains 445 names, or just double the number on Phoenix roll. Further comment is hardly necessary.

Two of Mr. Gaw's earliest callers this morning were Undertaker Cooper and Sexton Case; but whether they called in their official capacity to preside at the would-be mayor's obsequies, or merely to offer condolences upon his defeat, is a deep, dark secret.

The mayoralty campaign ended up in such a heated contest yesterday that the week-old, below-zero cold spell was consequently knocked out. Anyhow, the thermometer rose last night, and today we are enjoying nice, balmy weather.

Upon being elected, Mayor Hammar started right in to say nothing but saw wood; while would-be-mayor Gaw started right in to holler and saw boards and planks, etc.

Grand Forks people are wide-awake, and know when they have a good article. That is why they held on to Mayor Hammar for another year.

How'd you like to be the iceman?

SNIFFLING AND SNEEZING COLDS

Can be stopped in a few minutes and permanently cured in one hour by inhaling fragrant, healing Catarrhozone. No remedy compares with Catarrhozone for cold in the head and nasal catarrh. It soothes and heals the inflamed mucous membranes, prevents sneezing and coughing, clears away the "stuffed-up" feeling in the forehead. If you haven't used Catarrhozone get it today and try it on your next cold. You'll be surprised at the efficiency of this delightful inhaler treatment, which pleases everyone because it cures so quickly. Complete outfit $1.00; sample size 25c. H. E. Woodland, druggist.

The quartette is composed of four educated and refined young ladies, each of whom is a trained vocalist. Their quartette selections, solos and duets were all well rendered," etc. This quartette appears in the Grahd opera house Monday evening next.

Humor and Philosophy

By DUNCAN M. SMITH

Copyright, 1904, by Duncan M. Smith.

PERT PARAGRAPHS.

Some men who get reputations as philanthropists only have consciences that they are trying to settle with.

Somehow it does not offend a woman when the assessor calls her piano a cheap affair.

Even though war should be abolished the man with a melon patch would not willingly give up his shotgun.

A man thinks washing dishes is an easy job, but he seldom pitches in and gives a demonstration.

In the year that there are no campaign funds dishonest men get a chance to vote their convictions.

It is a woman of tact who can make a man think that it breaks her heart to have to refuse to marry him.

There is music in the air when the campaign manager has his plans laid to beat the band.

Generally the man who bets all of his money on a long shot wins only a long walk.

Up Salt River.

Of course Salt river scenery
Is hardly passing fair,
But those who ride its dreary tide
For scenery don't care.
They're hardly in a frame of mind
Such things as scenic charms to find.

If on the banks were meadows,
If cities brave and bright
Stretched far and wide on either side
And made a pleasant sight,
Oh, not for them would be the charm
Of castle tall or pleasant farm.

Those who by invitation
Upon that trip depart
Do not feel gay or blithe, for they
Have heaviness of heart.
As time rolls wearily away
You couldn't make them smile for pay.

And some men make the journey
Who have not passage sought,
Who did not dream that for the stream
Their tickets had been bought,
And they were for Salt river slated
The same day they were nominated.

A Popular Train.

A train of thoughts will take a man farther for less money than any train of cars ever built.

To catch a train of cars a man must get up before he is through sleeping, bolt a hasty breakfast, borrow what money his wife has been saving for a new hat and then make a Dan Patch run for it.

For a pleasant jaunt on a train of thought a man leans back in his easy chair, closes his eyes and in about half a second is over in Asia showing the Japanese how to run the war. The beauty of it is that he can easily get back in time for dinner, and he always makes it a point to do so.

When in doubt take a train of thought. You will find it in every way superior to a box car or the blind baggage.

No Sympathy For Him.

What a joy to press the pillow of the chamber cottage bed
And to listen to the patter of the soft rain overhead
As we think of crossings muddy and we dream of gutters swollen
And the fellow trudging homeward whose umbrella we have stolen!

Answers to Correspondents.

C. O. D.—To tell a woman's age for certain ask her dearest friend and then subtract three.

Mayme.—We cannot tell how to cure your corns unless you are more specific in stating what ails them.

Mrs. G.—The best way to recover an old umbrella that we know of is to advertise for it.

Anxious Wife.—We can do nothing for your husband's red nose if he won't quit drinking. Get a red shirt waist to match it and make the best of it.

Long Distance Bravery.

"I heard him threaten to knock daylight out of a man twice as large as himself."

"I didn't know that he had a telephone in his office."

Helps at a Pinch.

If a man is out of money less or more,
Still his case is hardly one you can deplore;
He may have upon his board
All the market can afford,
If he has a little credit at the store.

Razor honing a specialty at the Palace Barber Shop, Victoria hotel.

THE VERDICT OF PUBLIC OPINION

Is with the best article every time. That's why Putnam's Corn Extraator has been in the lead for the last half century. It cures corns painlessly in twenty-four hours and never fails. Use only Putnam's for corns and warts. H. E. Woodland, druggist.

One might as well have no watch as one that's fast or slow. An accurate watch isn't necessarily an expensive one—we have a variety of styles at comparatively low prices that are guaranteed to keep good time. A. D. Morrison.

AGENTS WANTED—Applications will be received for the position of Agent in this locality to represent the Occidental Loan & Savings Company of Vancouver, B. C. One willing to canvass desired. Good proposition to the right party. Appiy P. O. Box 152, Vancouver, B. C.

RACKING PAIN IN THE JOINTS

Also every form of rheumatism, neuralgia and sciatica are best cured by Nerviline, the quickest relief for muscular pain yet discoaered. It's because Nerviline strikes in and penetrates right to the core of the pain that it gives such unbounded satisfaction. "I caught cold in my shoulder while driving and suffered great pain," writes G. E. Dempsay of Berlin. "I used Nerviline freely and was soon quite well. I have found Nerviline an excellent remedy for rheumatism and neuralgia as well as for cold on the chest. I recommend Nerviline highly, and wouldn't be without it. Price 25c. H. E. Woodland, druggist.

Find the Rainbow.

I have seldom seen a sky without some bit of rainbow in it. Sometimes I can make others see it, sometimes not, but I always like to try, and if I fail I harber no worse thought of them than that they have not had their eyes examined and fitted with glasses which would at least have helped their vision. —W. D. Howells.

The Beauty of a Face.

There are faces so fluid with expression, so flushed and rippled by the play of thought, that we can hardly find what the mere features really are. When the delicious beauty of lineaments loses its power it is because a more delicious beauty has appeared—that an interior and durable form has been disclosed.

THE MAN WHO WORKS HARD

Perseverance and will-power he must have, but whether he has strength and vigor is another consideration. Hard working men usually have irritable nerves and should fortify their systems with a course of Ferrozone a tonic that rebuilds and revitalizes beyond all telling. It's just wonderful the strength that Ferrozone imparts to broken down men. It forms new blood, supplies the system with abundant nourishment, and where formerly there was tiredness and lassitude, Ferrozone establishes a reserve of energy and vim. Try Ferrozone—price 50c per box. H. E. Woodland, druggist.

Great reduction in Fall and Winter Hats and all kinds of Millinery Goods from now until the end of the season at Mrs. Gray's, Sears block, Winnipeg avenue. Dressmaking parlors in connection.

Synopsis of Regulations Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

COAL—Coal lands may be purchased for $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for each additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

The lessee's right is confined to the submerged beds or bars in the river below low water water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles *within six years from such date*, Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1000 to 2000. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each additional *ten miles or fraction*.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, and if the party consists of two 1500 feet altogether, on the output of which no royalty will be charged; the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of 2½ per cent on the value of the gold shipped from the Yukon Territory, to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner *may hold any number of claims by purchase*, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

PETROLEUM.—*All unappropriated Dominion* lands in Manitoba, the North-West Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be deterimined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior,
Department of the Interior, Ottawa.

Millinery Goods

The largest and most carefully selected stock of Fall and Winter

Our stock of watches was never larger or more attractive. With the best movements that America makes, we have about every variety of case that choice may suggest or circumstance demand. A. D. Morrison, the Jeweler.

WHY GO EAST

Over the sun-burned, sage brush and alkali plains, when you may just as well take a delightful, cool and comfortable ride through the heart of the Rocky Mountains in view of the grandest scenery on the American continent?

This you can do by traveling on, the Rio Grande system, the far-famed "Scenic Line of the World," the only transcontinental line passing through Salt Lake City, Glenwood Springs, Leadville, Colorado Springs and Denver enroute to eastern points.

Three daily express trains make close connections with all trains east and west, and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions.

For additional details address J. D. Mansfield, Gen. Agt., Rio Grande Lines, No. 124 Third Street, Portland, Ore.

Murder In the Air.

In the neighborhood of Buenos Ayres, in South America, there is a north wind which sweeps over plains covered with marshes and becomes overcharged with moisture. The effects produced in the human body are in general lassitude and relaxation. The pores of the skin are opened, inducing great liability to colds, sore throat and all consequences of check of perspiration. The damp wind of La Plata seems to affect the temper and disposition of the inhabitants. The irritability and ill humor it excites in them amount to little less than a temporary derangement of their faculties. It is a common thing for men among the better classes to shut themselves up in their houses during its continuation and lay aside all business till it has passed, while among the lower classes it is always remarked that cases of quarreling and bloodshed are more frequent during the north winds than at any other time. Even murderers are said to lay to it the blame of their foul deeds. No sooner, however, does the southwest wind, blowing from the dry and snowy summits of the Andes, set in than health and comfort and peace are restored.

The Prairie Dog.

There is no burrowing animal which works with more intelligence than the prairie dog. He never commits the error of making his mound in a place which may be submerged by water. In a western Kansas town a small boy caught a young dog and fixed a home for it in the cellar of his father's house. The dog went to work almost at once to dig a tunnel to the open air. It went down under the stone wall of the cellar and up to the surface at a point about 100 feet from the house. But it found that its point of exit was in the middle of a well traveled road. It went back and dug another gallery in an oblique direction from the first, emerging in a plot of grass. The earth carried back into the cellar in this digging would more than fill a wagon box. For several years the dog lived on the premises, making the cellar its base of operations, but going to the open air at will through its gallery.

What He Was Up To.

"Do you know of the only Irishman who ever committed suicide?" asked the story teller. "You know it is said that Irishmen never commit suicide, and when the argument was advanced in a crowd of that nationality he was so unstrung that he decided to show his opponents that Irishmen do sometimes commit a rash act. He accordingly disappeared, and the man who employed him started a search. When he got to the barn he looked up toward the rafters and saw his man hanging with a rope around his waist.

"'What are you up to, Pat?' he asked.

"'Oi'm hanging mesilf, begobs!' the Irishman replied.

"'Why don't you put it around your neck?'

"'Faith, Oi did, but Oi couldn't braythe,' was the unsmiling reply of the man from the Emerald Isle."

Classes In Turkey.

The people of Turkey are classified as three classes—the wealthy, the people of ordinary means and the poor. The wages which the poor are paid range from 20 to 25 cents a day. Some of the girls who work in the silk manufactories are paid as low as 5 and 7 cents for a hard day's work. The majority of the inhabitants of Turkey, by the way, are employed in the manufacture of silk. Farming is carried on very little, which is due to the small profits which it brings and to the scarcity of machinery. There are many wealthy people in Turkey, some of whom are said to be worth $2,000,000, and they spend freely.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO The Secretary, THE CANADIAN PREFERENCE LEAGUE, Room 20, Home Life Building, Toronto — WRITE PLAINLY

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
