Fourth Year---No. 86 | Grand Forks, B. C., Friday, August 25, 1905 | Issued Twice a Week

CLEMENT THE MAN

Appointed County Court Judge to Succeed the Late Judge Leamy

Right Man in the Right Place, Is the Concensus of Opinion

A telegram was received in this city from Ottawa last Wednesday morning stating that W. H. P. Clement, of Grand Forks, had been appointed county court judge for this district, vice Andrew Leamy, deceased.

The announcement of Mr. Clement's appointment was received with evident satisfaction by the citizens of the community, irrespective of political convictions. It is felt on all sides that the ablest and best man for the position has been rewarded. Mr. Clement is being warmly congratulated by his numerous friends on his good fortune.

Mr. Clement is a barrister and historian of national fame. He is the son of the late Rev. E. Clement, Methodist, and on his mother's side is connected with the Popes of Prince Edward Island. He was born at Vienna, Ont., May 13, 1858, and was educated at the public schools. In 1873 he won a scholarship at Upper Canada college. In the next year he matriculated in arts at Toronto university with first class honors in classics, mathematics and modern languages. He graduated B. A. in 1878. While pursuing his arts course, he studied law, having entered the law society, U. College, in 1875, and was called to the Ontario bar in 1880, standing first in his class. He also took the law course at Toronto university, winning a scholarship in each year and the gold medal on receiving the LL.B. degree from that institution in 1881.

Mr. Clement was for seven years a member of the well known Toronto firm of McCarthy, Osler, Hoskin & Creelman, but since then he has been the head of his own firm, now known as Clement & Spence, and is recognized as a successful member of the junior bar. He has served as an examiner in law and constitntional history at the Toronto university. After contributing on constitutional subjects to the Week, he published "The Law of the Canadian Constitution" (1892), a work which has been adopted on the curricula of Toronto university, the Law School and Trinity college as the standard work on the subject of which it treats. The late Sir John Thompson pronounced it as "being far in advance of anything that has yet appeared on the subject, and as being full of thoughtful and efficient labor, and full of the best information bearing on constitutional questions." The Canadian Educational Monthly likewise declared it "the most comprehensive work in existence on the subject."

In July, 1896, Mr. Clement was declared winner of the first prize offered by the educational authorities of the Dominion, in the competition opened by them in connection with a textbook on Dominion history. The prize consisted in a royalty of ten per cent on the retail price of the book after publication.

In religion, Mr. Clement is a Methodist. Politically he is a Liberal, and unsuccessfully contested West York in that interest for the house of commons in the general election of 1891. In 1889 he married Elsie Luln, daughter of J. W. Main, Brampton, Ont.

In 1895 he was appointed legal adviser to the Yukon council, and held that position for two years, resigning in the fall of 1900. In 1901 he located in Grand Forks, where has since practiced. In October, 1903, he unsuccessfully contested Grand Forks riding for the provincial legislature.

SUNSET SAUNTERINGS

The Grand Forks public school opened last Monday morning with an enrollment of 199, a decrease compared with the attendance last June, owing, no doubt, to the fact that a large number of families are still camping out at Christina lake and on the banks of mountain streams. The following teachers comprise the staff of instructors: W. H. M. May, principal, first division; W. E. Hoadley, second division; Miss M. P. Sinclair, third division; Miss Richards, fourth division; Miss Moffatt, fifth division; Miss Hewton, sixth division. The high school will open next Monday morning.

W. C. Putnam and C. Hanrigan returned Wednesday noon from the Francois lake region, in the northern part of the province, where they had been in search of grazing lands, but which they were unsuccessful in finding. They traveled the entire distance by team, the journey consuming about three months' time. Mr. Putnam reports having had a hard trip, but maintains that it was worth all the hardships he has gone through, as he has at last located the biggest land liar in British Columbia. He brought back snap shots of the Francois lake grazing lands with him. The scenes in the majority of cases resemble a dense forest.

The annual public school field sports will be held on Labor day, September 4th. To be successful from a child's point of view, prizes are necessary for the events. On this occasion it is not the intention of the management committee to solicit towards the prize list other than by means of this notice. Those willing to donate prizes, or cash for the purchase of prizes, will kindly notify the principal or trustees on or before Saturday, September 2nd.

T. A. L. Smith, an old-timer of Grand Forks, but now a resident of Hornby Island, B. C., arrived in the city Tuesday evening, and spent a couple of days here looking after his interests, which are still quite extensive in this neighborhood. Mr. Smith says he is well pleased with his new home on the coast.

It was reported in this city this morning that the Great Northern surveyors now at work in the Hope mountains have been successful in discovering a pass 1000 feet lower than the C.P.R.'s, and that they had received private information concerning a pass where a still better grade could be obtained.

The Phoenix Pioneer last Saturday printed an interesting biographical sketch of A. B. W. Hodges, the most successful smelter superintendent in British Columbia.

TWO NEW LEDGES

Have Been Struck on the McKinley Mine In Franklin Camp

The Ore Will Average at Least Twenty Dollars Per Ton

News reached the city this week of a phenomenally rich strike on the McKinley mine in Franklin camp. Two parallel ledges to the main McKinley ore body, 600 and 300 feet respectieely farther down the hill, were encountered. The greatest depth attained was 20 feet. The ore in both cases is a solid chalcopyrite, shot through with galena showing considerable copper oxide. In both these cases the ore will average at least $20 per ton. The new ore bodies have every indication of permanency, and taken in conjunction with the main copper ore body, which is already proven to a depth of 120 feet, will make the McKinley one of the biggest copper propositions in British Columbia.

There are numerous other properties in Franklin camp that, with development, will give equally as gratifying results as the McKinley, but until the remainlng seven miles of wagon road is completed it will be impossible to develop the camp on the scale it deserves.

William Guthridge, a pioneer prospector of the Boundary, returned to Grand Forks this week, after spending the past three years in Alaska and Yukon territory. Times, he says, are prosperous up north. He returned to the Boundary for the purpose of developing some of his mineral claims situate between the main Kettle river and the West Fork.

J. Park Channing, president of the Tennessee Copper company, was a visitor in the Boundary last Saturday, being accompanied by J. E. McAllister, superintendent of the British Columbia Copper company's smelter at Greenwood. Mr. McAllister had charge of the smelter of the Tennessee Copper Co. previous to accepting his present position more than two years ago. Mr. Channing has also visited the properties of the British Columbia Copper company and yesterday took a look at the smelting works of the Granby company in this city. In the last few years the Tennessee Copper company has forged ahead as a producer of copper ore. Last year above eight million pounds of refined copper was produced by the company, this year it is likely to be about ten million pounds, and next year owing to improvements and enlargements, it is expected to be close to twenty million pounds. The company's copper mines and smelter are located near Copperhill, Polk county, Tennessee, and employ about 700 men. The mines are developed to a depth of some 600 feet, and have nearly three million tons of ore blocked out, and the ore being low grade, running from two to four per cent copper. The smelting plant was designed by Mr. Channing, and consists of three water jacket blast furnaces, with a capacity of some 1500 tons of ore daily.

TOPICS OF THE TOWN

Jas. H. Kennedy, chief enigineer of the V., V. & E., came in from Princeton yesterday, and left immediately or Ottawa, where he had been summoned by the railway commissioners. Mr. Kenneday was evidently in a hurry, as three relays of horses had been badly used up between Princeton and this city.

The Fioneers' Association of the Boundary and Okanagan districts, of which P. T. McCallum, of this city, is president, will hold their annual meeting at the Lancashire hotel, Midway, next Friday evening, Sept. 1.

Jay P. Graves, general manager of the Granby smelter, arrived in the city from Spokane last Wednesday evening, and put in the day yesterday inspecting the big reduction plant on the hill. He was accompanied by Mrs. Graves.

Geo. Henderson, a popular smelterman, left yesterday afternoon for his old home in Huntington, Que., where he will spend two or three months for the benefit of his failing health.

Rev. Mr. Ross, of this city, will conduct services in St. Paul's church, Nelson, next Sunday.

A shipment of 400 black bass and 200 rock bass passed through the city last night for Republic It will be used for stocking a lake near that city.

Mr. and Mrs. H. E. Woodland have moved into their new residence on Winnipeg avenue.

Miss Belle Henderson left last week for Trout Lake City to resume her duties as a teacher in the public school at that place.

Miss Gladys Parker is quite low with typhoid fever. A ten-year-old son of Mr. and Mrs. Parker has been suffering from the same malady for three or four weeks, but is now convalescent.

If E. S. T., who advertised for a situation in the last issue of The Sun, will call at this office and get her mail, she can doubtless take her pick out of half a dozen jobs.

A. D. McPhee, superintendent of the McKinley mine, came down from Franklin camp Saturday, and spent Sunday in the city.

Geo. A. McLeod and Fred Clark returned on Wednesday from a trip to Franklin camp.

P. T. McCallum has sold ten acres of fruit land to Percy Andrews and two acres to W. Naler.

T. Townsend left this week for Pathfinder mountain, where he will develop his mineral claims.

CHURCH SERVICES

Services will be held at the usual hours next Sabbath in Knox church. The pastor, Rev. J. R. Robertson, will preach both morning and evening. Sunday school at 10 a.m.

Methodist Church—Services next Sabbath at the usual hours. Evening, subject, "The Ideal of Life." Everybody welcome. E. Manual, pastor.

TO DOUBLE PLANT

Dominion Copper Company Officials Outline Plans for Future

May Move Bonndary Falls Smelter to Midway or Greenwood

A distinguished party of eastern and western capitalists connected with the Dominion Copper company visited the Boundary this week in the private car Convoy, which they have utilized since leaving New York. The party included Senator Warner Miller, of New York; Maurice Untermeyer, of the legal firm of Untermeyer, Guggenheim & Marshall, attorneys for the Standard Oil company and American Smelting & Refining company; Samuel Newhouse, of Salt Lake, Utah, one of the owners of the Highland Boy, Utah Consolidated and Cactus properties, all of which are notable mines; William M. McDonald, of New York, a governor of the New York stock exchange; Alvin Untermeyer, son of Samuel Untermeyer; J. C. Mannion, of New York, who was United States consul to South Africa during the Boer war; John M. Shaw, of New York, member of the contracting firm of J. B. Russell & Co., who are building the famous Chicago railway subway; C. L. Constant, consulting engineer of New York, and M. M. Johnson, who will be general manager of the Dominion Copper company. Mr. Johnson has been identified with Mr. Newhouse in the practical direction of Utah mines for the past ten years.

The plans of the Dominion Copper company, it is said, embrace the expenditure of a million dollars, the possible construction of a new smelter, and the development of its mines to produce 1500 tons of ore daily.

In an interview Mr. Newhouse said: "The Dominion Copper company will place its properties on a sound producing basis, and is prepared to expend $1,000,000 to accomplish this end."

"There is a possibility that the smelter at Boundary Falls may be abandoned and the new works constructed elsewhere, probably at Midway or Greenwood," said John M. Shaw. "The Midway site will have the advantage of being on the Great Northern as well as the Canadian Pacific, while at Boundary Falls we are confined to the Canadian Pacific. In any event the plant at Boundary Falls will be doubled or tiebled in capacity and a converter plant added. These matters are not yet decided."

Active development is already under way, and within a few days there will be from 40 to 50 men at work. The company intends to develop the mines to the point wheere the daily produotion will be from 1200 to 1500 tons, and the smelter capacity will be increased to handle this output. These improvements will be carried out within six months.

E. F. White, wife and family, of Spokane, passed through the city last night for Midway. Mr. White is head bookkeeper for P. Welch, the Great Northern contractor.

R.H. TRUEMAN

PHOTOGRAPHER

Vancouver, B. C.

Will visit Grand Forks for One Week Only.

Blome's Old Studio, Bridge Street

September 7, 1905

THIS WILL BE YOUR ONLY OPPORTUNITY for some time to obtain first-class photographic work, as the visits to this city of artists of Mr. Trueman's standing are as far apart as hen's teeth. Mr. Trueman's work is too well known to the people of Grand Forks to require any special mention. Remember the dates—September 7—One Week.

THE EVENING SUN,

PHONE B74. GRAND FORKS, B. C.

UNION LABEL

FRIDAY, AUGUST 25, 1905

The new officers of the Dominion Copper company appear to be anxious to find a more convenient location for the Boundary Falls smelter than where it now stands. They should be extended an invitation to inspect the numerous excellent smelter sites in this vicinity. This city is closer to the company's mines by both the Great Northern and C.P.R. than either Midway or Greenwood, besides being an all down-hill haul. We are also thirty miles nearer the coke supply, and our transportation facilities are superior to any other town in southern British Columbia. If these facts are made clear to the officers of the Dominion company, this city should stand a good chance of securing the new smelter in the event the Boundary Falls plant is abandoned.

TOPICS OF THE TOWN

Frederick E. Birney, who is interested in extensive mining operations in Republic camp and in this province, is visiting his friend, P. D. Mitchell. of the Club. On the night of June 6th last Mr. Birney, in the Furniss Valley country, Inyo county, California, slept side by side with "Mysterious" Walter Scott, the terror of Death Valley, the "gilded cowboy" who chartered a special train on the Santa Fe railroad and broke all transcontinental speed records, and who is at present creating a furor in eastern cities by his fast spending. Mr. Birney is associated with Patrick Clark and other Spokane mining men. While in California, he located some property in the Furniss Valley district, and came north to report.

Boarders Wanted—A few more steady boarders can find first-class accommodations at Mrs. J. B. Henderson's, Winnipeg avenue.

The Boundary Creek license commissioners met at Midway last Saturday, but did not grant any more licenses.

Chris Johnson, foreman of the Hall Mines smelter at Nelson, has been spending a few days in the city this week, visiting friends and inspecting the labor-saving devices at the Granby smelter. Mr. Johnson was accompanied by his wife. While here they were guests of S. Nelson, of the Winnipeg hotel, who is an old friend of Mr. Johnson.

Thos. Fee is confined to his home, suffering from a mild attack of typhoid fever.

In another column our readers will find the announcement of the Blair Business college of Spokane. This school has made a remarkable growth since its organization in 1897. It is said to rank among the very best business colleges of the country, and is worthy of the patronage of the young men and women of this section. Prof. Blair, the principal of the college, is one of the best known educators in the Northwest, and has a corps of able instructors associated with him. We can assure our readers that the school will meet with their expectations should they enroll for a course of training.

A business men's lunch, consisting of cold roast chicken and salads, will be served at the Club saloon next Saturday and following Saturday from 8 to 11 p.m. Everybody welcome. Martin Dufour, manager.

Advices from various missions and agencies throughout British Columbia which are continually reaching the office of Manager Keary promise that the gathering of Indians in New Westminister during the 1905 Dominion Fair, which opens on Sept. 27, will be fully as large as was at first anticipated if not larger. The Indians have been informed of the prizes that are offered for their sports and exhibits and keen rivalry has developed among the numerous tribes. The national feeling has also been aroused by the announcement that a big purse is offered for an international Indian war canoe race and that a number of the strongest and fastest red men of the state of Washington will journey to the Fraser river with a determination to demonstrate their physical superiority over the British Columbia braves. New war canoes are being built by the tribes who have fast crews and every man who is to handle a paddle is now in active training for the greatest contest the Indians of far western Canada have ever been privileged to enter.

Harold Nelson's Plans

Manager C. P. Walker announces that Mr. Harold Nelson and his company started rehearsals at Toronto August 7th, in preparation for the coming season. Mr. Nelson will be seen in four new productions, all metropolitan successes and heavy royalty pieces. He will open his regular season at the Winnipeg theatre on Sept. 4th and tour west to the Pacific coast. To meet the requirements of the new plays, Manager Walker has promised the most elaborate scenic production ever attempted, while a large and capable company has been engaged, which includes Mr. Clifford Lane Bruce, the popular young actor, who will again be seen as leading member of Mr. Nelson's support.

A Bad Bruise

Often causes a good deal of trouble. The best cure is a prompt application of Nerviline, which instantly stops the pain, prevents swelling, removes all blackness and discoloration. Nerviline is antiseptic—prevents blood poisoning. No liniment so strong, so penetrating, so swift to destroy pain. You miss a lot of comfort by not using Polson's Nerviline. For nearly fifty years it has been the standard afmily liniment of Canada.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse schools of telegraphy, in this issue, and learn how easily a young man or lady may learn telegraphy and be assured a position.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

WANTED

Twenty-five steady boarders wanted at the Province hotel. Chicken and ice cream dinner every Sunday.

SEWING

Plain and fancy sewing at reasonable prices. Call at residence of Mrs. J. B. Bone, south of G. N. Railway.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,

Deputy of the Minister of the Interior.

Ottawa, February 4th 1905

DOMINION EXHIBITION

WISE AND OTHERWISE

Occasionally a woman spends a lot of time looking for a husband after she gets him.

It keeps some men busy inventing schemes to separate other men from their money.

The main reason why many people have money to burn is because they do not burn it.

There would be more lucky sportsmen if they loaded their guns more and themselves less.

Some men are so dense that about the only time they ever get "next" is in a barber shop.

The recording angel goes not credit a man with what his tombstone says in his favor.

Many a man flatters himself that he is a devil of a fellow simply because he goes about with a cloven breath.

When you speak of a dead man having left a widow, the women folks alwas want to know how much he left her.

The newly married man cares little for the lodge meetings, yet when the little cares come he gets there by dozens.

A newspaper publisher in Ohio recently brough suit against forty-five men who would not pay their subscription and obtained judgment in each case for the amount of each claim. Of these twenty-eight made affidavit that they owned no more than the law allowed them, thus preventing attachment. Then under decision of the supreme court they were arrested for petit larceny and bound over to the grand jury in the sum of $1000. All but six gave bond, while the six went to jail. The new postal law of the United States makes it larceny to take a paper and refuse to pay for it.

Wearing Away Your Lungs?

Yes, and your strength too. Stop coughing and get rid of that catarrh. The only remedy is Catarrhozone, which goes to the diseased tissues along with air you breathe; it can't fail to reach the source of the trouble; it's bound to kill the germs, and as for healing up sore places, nothing can surpass Catarrhozone. If you don't get instant relief and ultimate cure you will at least yet your money back, for Catarrhozone is guaranteed to cure catarrh in any part of the system. You run no risk—therefore use Catarrhozone—at our expense if not satisfied.

COPPER

The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

You Melancholy Women!

Can't even sleep—restless day and night—brooding over imagined trouble all the time. The disease isn't in the brain, but in the blood, which is thin and innutritious. Do the right thing now and you'll be cured quickly. Just take Ferrozone; it turns everything you eat into nourishment, consequently blood containing lots of non and ex gen is formed Ferrozone makes flesh, muscle, nerve—strengthens in a week, cures very quickly. You'll live longer, feel brighter, be free from melancholy if you use Ferrozone Fifty cents buys a box of this good tonic (fifty chocolate coated tablets in every box) at all dealers.

CLAIMS AND ACCOMPLISHMENTS—We do more than just promise you good printing—we do the printing that's up to our promises. Any office cub can promise—we execute. No disappointment—if we promise work on a date, it's done at that time.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice hair-cut or shave go to the City Barber Shop on Riverside. Baths 25c.

The Sun

PRINTS all the news of the Boundary, and prints it *while it is news.* It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

$2 Per Year

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY
The Secretary, THE CANADIAN PREFERENCE LEAGUE,
Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
