THE EVENING SUN

VOL. 1 GRAND FORKS AND COLUMBIA, B. C. FRIDAY, JUNE 13, 1902. NO. 164

COLUMBIA COUNCIL

Regular weekly meeting of Columlumbia city council was held Tuesday evening. Members present: Mayor McCallum, Ald Cusson, Disney, Lagimodiere and McIntosh.

The following bills were presented and ordered paid: H. E. Woodland, 75c; Evening Sun, $22; W. H. Disbrowe, $3; News Pub. Co., $55. Other bills presented: Hunter-Kendrick, water pipe, $19.10, W. H. Disbrowe, work on street, $40.75; A. Anderson, work on street, $15; J. Miron, $9; A. Freschette, $21; N. Hughes, $17.35; R. Hughes, $14.25; A. McDonald, $3.50; Hunter-Kendrick Co., $7.15; J. Sucksmith, $1.05; Rails, $5.50; H. L. Newett, 50c; B. Lequime, $31.37.

The following statement of voluntary work on the road was presented: A. Cooper, 10½ days; W. Cooper, 2; Cooper and team, 8½; Gawanlock, 1½; Ankey and team, 2½; Hughes, 4; Flott and team, 2½; Ross and team, 2; Sears and team, 2; Topp 2; Hodson, 1½; Richards, 2; R. W. Trotter, 1; F. Miller, 2; Hughes, ½; Wm. Pearce, ½; G. Wastell, 1.

The Mayor repo ted that Miss Kay wished to have city water put into her house. It was resolved that her request be complied with as soon as she put in an application to the city clerk and paid him the usual fee of $46.

The city clerk was instructed to notify the Grand Forks fire department to replace in Columbia the hose and hose reel.

It was resolved that the debentures and interest on the debentures issued under By-laws Nos. 13, 14 and 17 be payable at the Eastern Townships bank, Montreal, Que.

By-laws for the expenditure of $19,000 for waterworks and fire purposes were read a first and second time.

Mr. Cayley interviewed the council and asked its assistance in having the road leading to the First street bridge repaired by sending a petition to the minister of public works. This the council agreed to do.

GRAND FORKS COUNCIL

The Grand Forks council met at 3:15 Tuesday afternoon, all the aldermen being present with the exception of Ald. Gaw. Mayor Holland presided.

All appropriations were ordered paid.

On motion of Ald. Sheads, seconded by Ald. Mattheson, the pound location was approved, and $4 per month was ordered paid for same.

Ald. Donaldson moved, seconded by Ald. Sheads, that the mayor and city clerk be authorized to sign the Addison contract. This contract provides for a reduction by the city in the charge for electric motive power supplied Mr. Addison from $40 per h. p. to $20, on condition that he abandon the Third street site for his planing mill and build on Main treet instead.

By-law No. 76, a by-law authorizing Columbia to hypothecate debentures, came up for final assent. The by-law as first introduced had been changed, a rider being added imposing certain conditions on Columbia as to the route of the water main. There was a lengthy discussion on the by-law, and M yor McCallum, being asked his opinion on the matter, stated that while his council were willing to enter into any reasonable arrangement for a route, he strongly opposed the rider to the by-law on the ground that if any obstacle prevented the observance of the rider work could not progress without violating the by-law. It was decided to re commit the by-law and strike out the rider, and to enter into an agreement with Columbia instead.

On motion of Ald. Hammar, a committee was appointed to interview the Columbia council regarding the route of the proposed water main.

Ald. Sheads moved, seconded by Ald. Hammar, that the slough on Spokane street be drained, and that the board of works be instructed to have the same done forthwith.

TOPICS OF THE TOWN

Mr. Henry White returned yesterday morning from Spokane, where he has been visiting his family during the past three weeks. Mr. White came in over the V., V. & E., and says passenger travel on the road between Marcus and Cascade is quite brisk.

The Grand Forks Driving Park and Athletic association has adopted copper and green as its official colors. Large quantities of ribbon of these colors have been ordered from the east, and local merchants will have them on sale before the 1st.

R. A. Brown has received a contract for taking out 10,000 stulls for mining purposes.

The Driving Park and Athletic association of this city has joined the North Pacific Fair association.

A meeting of the Kettle River Valley Rifle association will be held in the board of trade rooms on Friday, June, 13th, at 8 p. m. sharp, for the purpose of enrolling new members and making arrangements for the shoot on July 1. The attendance of all members is requested, and each one is urged to bring along a new candidate.

The Grand Forks police commission met Tuesday evening, and decided to increase the force during the Dominion day celebration by adding four additional policemen to it.

The University of California baseball nine will play the local team in Grand Forks a match game on Saturday, June 24.

The directors of the Driving Park and Athletic association will meet on Monday evening next.

FRIDAY, JUNE 13, 1902

The V., V? & E. expects to be in Republic July 1st. It hasn't driven the last spike yet. It proposes to keep on driving spikes.

Steam has been seeh issuing from the apex of Mount Rainier, and the people of the Sound cities are getting excited over the event. Keep cool. It is possible that it's only heated atmosphere from the exhaust pipe of the Hot Air's Spokane extension.

The Toronto papers are making a big society event out of the marriage of Lum Chong, a wealthy washeeman, to Miss Josephine Scott. British Columbia, with her proverbial generosity, is willing to furnish Toronto with subjects for a few thousand more social events of a like nature.

Grand Forks merchants are no longer at the mercy of the dog in the manger, and we expect to see that voracious animal eating humble pie before long.

From the amount of noise made in certain railway circles, we fear that some of the gas has escaped from the Hot Air Toy.

PUBLIC MEETING

GRAND FORKS, June 11, 1902.

SIR:—You will please take notice that a meet ng of the ratepayers will be held at the city offices on Tuesday evening next (June 17th), at 8 o'clock p.m., to discuss the matter of establishing a grade for the streets in the business portion of the city. This is a serious matter, hence the city council wishes to hear the views of the parties who will necessarily be put to expense if a higher grade than the present one is established, which seems advisable by reason of the recent flood. Yours truly, W. B. BOWER, Clerk.

A. D. Morrison, the leweler, has ordered, and will shortly have on sale, a large variety of beautiful coronation medals and souvenir spoons.

There was a very narrow escape from a runaway at the Yale hotel Wednesday, in which a lady and a parasol played a conspicuous part. The comedy part of the thing was, the lady dropped the lines to hold on to her parasol That was the most important to her.

Mr. A. Wright will leave today on a trip to the coast cities. He will return to Columbia in a couple of weeks.

A SAD ACCIDENT

John Sucksmith Loses His Life by Drowning in the Kettle River.

Wednesday evening between 6 and 7 o'clock the most pathetic case of drowning recent in recent years occurred near this city. In the sad accident John Sucksmith, saw and planing mill owner of this city, lost his life, and John A. Keogh and O. N. Wicks narrowly escaped a similar fate.

During the afternoon the three men started down the river in a boat in search of a raft, which had broken loose from Mr. Sucksmith's sawmill at Nelson, Wash. When a short distance below Gilpin's place the boat struck an eddy and capsized. As the boat turned over Mr. Sucksmith adviced his companions to cling to the it, saying that he could swim and would strike out for the shore. He had not gone far, however, before an undertow carried him beneath the surface, and that was the last seen of him. Keogh, by swimming with the current, managed to get near the bank a quarter of a mile lower down the stream, where he was rescued by some men on shore. When taken out of the water both his legs from the knee down were paralyzed, and he was nearly exhausted. Wicks clung to the boat, and safely reached the opposite bank about a mile from the accident.

Mr. Sucksmith was an Englishman, between 35 and 40 years of age, and has been engaged in the mill business in this vicinity for about four years, owning a sawmill at Nelson, Wash., and a planing mill in Grand Forks at the time of his death. He was industrious, honest and straightforward, and was highly respected by ail who knew him. His tragic end is all the lamentable because until quite recently luck has been against him, and fortune was just beginning to smile upon him. He carried about $3000 life insurance.

He leaves a widow and four children to mourn his death. The oldest child is about 8 years of age, and the youngest scarcely 18 months. The entire community deeply sympathize with the grief-stricken family, in which The Evening Sun heartily joins,

Parties are out looking for the body, but up to the hour of going to press it had not been recovered.

TOPICS OF THE TOWN

The first freight shipment over the V., V. & E. for a Grand Forks firm arrived in the city yesterday. It consists of a carload of fuse, and was shipped from Camburn, England. The consignee is W. K. C. Manly. The car is sidetracked opposite this city.

The V., V & E. tracklayers are now at work laying steel on the sidetracks at Carson. Work on the long trestle at Curlew lake is going rapidly ahead, and it will be ready for the steel gang in a few days.

The government commenced work this morning repairing the road across the river damaged by the recent high water The work is being carried on under Supervisor Noble.

The Kettle River Valley Rifle association is laying out a rifle range northeast of the smelter.

Billy Pfeiffer has taken a two years' lease on the Little Bertha, up the North Fork.

It is reported on good authority that on the 1st of next month the Provincial Building & Loan company, of which E. S. Biden is local agent, will be amalgamated with the Dominion Permanent Loan company.

A meeting of all persons interested in the formation of a bicycle club will be held in Alber a hall, Grand Forks, next Monday evening at 8 o'clock. The object of the meeting will be to organize a club and elect officers. It is the intenti n of the promoters to have a grand decorated bicycle parade on the morning of July 1st, and an illuminated parade in the evening. Prizes for bicycle races will probably also be secured from the Driving Park and Athletic association.

Arrangements have been made by H. F. Duke, trainmaster of the Washington & Great Northern, for the running of a special train from Spokane to this city for the Dominion day celebration. The train will leave here on the return trip on the evening of July 2.

A committee from the Grand Forks council, consisting of Aldermen Hammar and Sheads, waited on the Columbia council yesterday and asked them to bring the 8 inch water main up Bridge street if the right of way could be furnished in time, and if not, to bring it up the next street nearer the river. Columbia council consented to do this as an alternate to the by law.

Rendall & Co., of Greenwood, are opening up a large stock of dry goods in the Morrison block. A carload of goods of the latest styles and patterns will arrive today.

COLUMBIA, B. C.

Situation, Environments and General Resources.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

The natural situation of the city for beauty is not excelled in Ameriea. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling waier, fringed with forest trees and surrounded by mountains, forffiing a charming combination of picturesquesness and grandeur

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victora & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacific railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canada—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered through the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

Water is supplied the city by pumping from a beautiful spring of exceptional purity, capable of supplying a city of 50,000 inhabitants.

The Granby smelter and converter—the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city,

Owing to the fine climate, the central situation, the beautible environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes, as well as a wholesale distributing point; and when finally allied and wedded to her sister sister, will be the best and largest city in the interior.

REDUCED RATES TO THE EAST.

Those contemplating an eastern trip will be interested to know that there will shortly be on sale greatly reduced rate tickets in connection with the Rio Grande System, the famous "Scenic Line of the World." This line offers its passengers a most delightful and comfortable journey to all eastern points.

It is the only transcontinental line passing directly through quaint and picturesque Salt Lake City, "The City of the Saints;" beautiful Glenwood Springs, Leadville, Pueblo, Colorado Springs, where a side trip may be made to the Garden of the Gods and the summit of Pike's Peak over the cogwheel railroad; and Denver, the queen city of the intermountain region. Stop-overs are allowed on all classes of tickets.

Three daily express trains make close connections with all trains east and west, and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions.

For additional details, address J. D. Mansfield, General Agent, Rio Grande Lines, 124 Third St., Portland, Ore.
