

BOARD OF TRADE

H. S. Cayley Elected President--Other Business Transacted.

A well-attended meeting of the Grand Forks board of trade was held Wednesday evening at their rooms on Riverside avenue. A letter was read from E. Doberer, resigning his position as president owing to his having to leave the city permanently. His resignation was accepted, and the election of a new president was proceeded with.

W. K. C. Manly, Chas. Cumings, C. A. Powell and H. S. Cayley were nominated for the position, but as the two first-named refused to accept, as also did Mr. Powell when it was pointed out to him that it would be impossible for him to act impartially on the railroad question while he was a debtor of the Hot Air road, H. S. Cayley was elected by acclamation. Mr. Cayley is well known as an ardent supporter of the V., V. & E., and it was largely owing to this fact that he was so unanimously supported.

The president was instructed to appoint a committee of five, with himself as chairman, to arrange for meeting the Hon. A. G. Blair on his approaching visit to this district, and to use their utmost endeavors to induce him to visit this city.

A resolution was adopted amending the by-laws in such a manner as to allow voting by ballot whenever a majority of the board wish it, instead of it requiring a two-thirds vote as formerly.

Frank Sears gave notice of a motion to amend the by-laws as follows: (a) That where not otherwise laid down in the by-laws, Cushing's Manual should govern the ruling of the association. (b) That the president should not have a vote, except a casting vote as chairman.

COLUMBIA CITY COUNCIL

The regular weekly meeting of the Columbia city council was held Tuesday evening, Mayor McCallum presiding. Members present: Ald. Cusson, Disney, Lagimodiere and McIntosh.

The following bills were ordered paid: E. Spraggett, \$125; Evening Sun, \$2.00; Geo. Chapple, \$22.75; P. D. Macdonald, \$2.00; J. M. Simard, \$1.50.

On motion, a resolution was

passed to have the west pier of the new bridge protected with rip-rap.

A committee, consisting of Mayor McCallum, Ald. Disney, J. H. Hodson and Chas. Hay, was appointed to arrange with Hon. A. G. Blair to endeavor to have him visit this city.

On motion a resolution was passed to engage the firm of Clement & Spence as city solicitors at \$75 per month.

HARVEST THANKSGIVING

"Harvest Thanksgiving" services will be conducted in the Holy Trinity church, Grand Forks, on Sunday, October 5th, by Rev. Henry Steele, vicar. F. J. Painton will act as organist.

TOPICS OF THE TOWN

James Ellis, of the Greenwood Times, is visiting his old friend, W. G. Wastell, in this city this week.

Jeff Davis left for Vancouver yesterday over the V., V. & E.

Geo. Campbell, who has been placer mining on Sheep creek, between Curlew and Nelson, Wash., returned to this city yesterday. He says the gold in that section is too fine to permit of working the grounds profitably by any known method, and so he is endeavoring to invent a new process.

FRIDAY, OCTOBER 3, 1902.

THE rumor so industriously circulated recently that General-Manager Holland, of the Kettle Valley Lines, had "resigned," finds corroboration in a private dispatch from Toronto, where Mayor Holland presumably is at present located. The greatest surprise expressed in Grand Forks was that the "resignation" was so long delayed. Mr. Holland doubtless has abilities which, if directed into the proper channels, would insure good results; but railroading was an unknown business to him—he had not the faintest practical knowledge of the business. Upon assuming office, he at once adopted the foolish policy that the best way to upbuild his line was to put his entire efforts toward throwing obstacles in the way of competitors. With the result that the "hot air" line has reached its present deplorable and ludicrous condition. It is to be hoped his successor is a practical and broad-minded man. There is room for railways in this section—there cannot be too many of them—but they must be operated for the bettering of transfer conditions, and not as a menace to all others who are engaged in an honest endeavor to give us improved railway service.

POINTED SHOTS.

Lost, strayed or stolen from Grand Forks—one Mayor. No reward.

THE office should seek the man; not in Mayor Holland's case, however.

A RAILWAY without trains, like a man without brains, is mighty small potatoes these days.

MAYOR HOLLAND, with noticeable impartiality, has side-tracked his mayoralty chair as well as his private car.

If Mayor Holland's idol is his "hot air" railway, of course it's his idle idol. It isn't working these days.

THE night before election, it will be remembered, Mayor-Elect Holland took the V., V. & E. pledge. Sort of backslider, eh?

THE "hot air" line was opened up by a great blare; it will also probably be closed up by a great blare—Minister of Railways Blair.

THEY call a man who pleases everybody a paragon; but in Grand Forks the man who pleases nobody they naturally enough call Mayor Holland.

If its present inactivity continues much longer, the "hot air" outfit will have to erect some "Keep off" signs along its four-mile

WHEN Mayor Holland does finally consent to fulfill his municipal duties, someone will have to introduce him. He and his duties are long since strangers. We're willing.

It has been truly said, "money makes the mare go." It certainly made our Mayor go—go to Ottawa to work against the best interests of the City of Grand Forks, which he had sworn to promote.

THE good news has reached Grand Forks that the shortage of coal, as a result of the continued strike in the east, will not in the least affect the running of trains on the "hot air" line; because their trains are not running anyway, and, besides, their locomotives do not use that sort of fuel, the road being operated in all departments by simon-pure hot air.

IF Mayor Holland "looks after" the interests of Grand Forks, we rise to remark he must indeed be a "far-sighted" gentleman. He is at present in the east; and most of the time since taking office hasn't been within 100 miles of Grand Forks—excepting, of course, when he has laid aside his onerous duties as general manager of the side-line railway to lead his "hot air" baseball department to victory.

PROMINENT VISITORS

William H. Nicholls, president of the Nicholls Chemical company, of New York, refiners of precious metals, arrived in the Boundary last week, and spent Friday and Saturday in Grand Forks. He was accompanied by his wife and daughters and a party of friends. They inspected the mines at Phoenix and other camps and the Granby smelter in this city.

Some idea of the magnitude of the works of which Mr. Nicholls is the president may be formed when it is stated that their annual output is 200,000,000 pounds of refined copper and \$16,000,000 worth of gold and silver. This enormous amount represents a very large proportion of the world's copper production. At his works blister copper and other metals are refined by the electrolytic process.

Mr. Nicholls was surprised at the vastness of the ore bodies found in this section, saying they were the largest he had ever seen. He also paid a high compliment to the men employed in the mines. He thought they were the finest body of workmen he had seen in his travels.

He was very enthusiastic in his praise of the Granby smelter, and thought it was the most modern plant he had ever inspected. In regard to labor-saving appliances, he did not hesitate to express the opinion that it was the most up-to-date reduction plant on the continent. The blister copper received from the Boundary, he said, was the purest that came to New York.

Regarding the price of copper, Mr. Nicholls thought it was bound to rise—probably as high as 14c. He thought the price at present was kept down by the market manipulators.

Mr. Nicholls, who is only 55 years of age, is the founder of the immense refining works located on Manhattan island.

DIED

McDOUGALL—In Grand Forks, B. C., on Thursday, October 2, 1902, D. D. McDougall, aged 55 years 4 months.

Deceased was a carpenter by trade, and came to Grand Forks

about a year ago. He was industrious and very popular with all who knew him. He leaves a wife and six children to mourn his death. Much sympathy is expressed for the bereaved family.

The funeral will take place from his late residence in the Ruckel addition on Saturday, October 4, at 9 o'clock a. m., to Catholic church. Friends and acquaintances are respectfully invited to assist.

TOPICS OF THE TOWN

Mayor McCallum and Mr. Chas. Cumings will start for Revelstoke tonight to meet Hon. A. G. Blair, minister of railways and canals, and endeavor to induce him to visit the Boundary country.

At Knox Presbyterian Church on Sunday next the Sacrament of the Lord's Supper will be observed at the morning service. In the evening the pastor will preach on the subject, "Foregleams of Immortality."

A delightful time was spent last Thursday evening at Gateway lodge, No. 45, I.O.O.F., by the resident and visiting brethren of that order and their families. Games of cards, croquinoie, etc., were indulged in, followed by a musical program. The Grand Forks Male Quartette—Messrs. Hill, Kingston, Follick and Ewing—excellently rendered "Old Black Joe"; Mrs. D. D. Munro sang exquisitely "Madeline"; Mr. Kreitz gave a laughable recitation, "They Did Not Conciliate." After refreshments had been served, Miss Farrell gave a pretty solo, "The Unseen Kingdom"; then came the solo, "Calvary," by Jos. Hill; Miss Mamie Fraser made the hit of the evening with her graceful rendering of "Good Morning, Carrie"; Mr.

Kreitz recited "The Tramp." Then Noble Grand Hammar called on Past Grand Park, who reviewed the history of the lodge, and hoped to see a Rebekah lodge started before the spring, and further that other entertainments would be held this winter. Noble Grand Hammar thanked those present for their attendance, the quartette sang, "She Sleeps, My Lady Sleeps," which concluded the first of this series of entertainments.

Mr. Frank Nickerson, who has occupied the position of cashier in the local branch of the Royal bank for the past year, left on Thursday's train for Toronto, where he has secured a more important position. Wednesday evening he was entertained at a dinner party given by the Royal mess, at their residence, Winnipeg avenue. During the evening Mr. Fred Clark, on behalf of the boys, presented Mr. Nickerson with a beautiful meerschaum pipe, at the same time expressing their very great regret in his removal from Grand Forks, and wishing him every prosperity in his new home.

A congregational meeting of the members of Knox Presbyterian Church will be held Monday evening for the purpose of considering the question of moving the church preparatory to building a manse.

Fred Starkey, a prominent merchant of Nelson, B. C., arrived in city today.

Klondike pool table. Only one in city. Grand Forks hotel.

The Grand Forks hotel, the oldest hotel in the city, has a capacity for 70 people. Everything up to date. Rates, \$1 and \$1.50 per day.

WHY GO EAST

Over the sun-burned, sage brush and alkali plains, when you may just as well take a delightful, cool and comfortable ride through the heart of the Rocky Mountains in view of the grandest scenery on the American continent?

This you can do by travelling on the Rio Grande system, the famed "Scenic Line of the World," the only transcontinental line passing through Salt Lake City, Glenwood Springs, Leadville, Colorado Springs and Denver enroute to eastern points.

Three daily express trains make close connections with all trains east and west, and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions.

For additional details address J. D. Mansfield, Gen. Agt., Rio Grande Lines, No. 124 Third Street, Portland, Ore.

CHURCH DIRECTORY

COLUMBIA

A City of Beautiful Environments, Healthful Climate and Bountiful Resources--Civic Improvements, Including Electric Light and Waterworks Systems, Are Well Advanced.

The City of Columbia is situated near the junction of the North Forks of the Kettle river with the main Kettle river, and is distant about 300 miles east of Vancouver.

Thoroughly up-to-date and modern Electric Light and Waterworks Systems are now under construction, and will be completed in September. The electric light system will include street arc lamps. The waterworks system is planned on a sufficiently large scale to meet all present and future needs, and insuring ample protection from the ravages of fire. At present water is supplied the city by pumping from a beautiful spring of exceptional purity.

The natural situation of the city for beauty is not excelled in America. A verdure-clad and flower-bespangled rolling prairie, traversed by a river of bright, sparkling water, fringed with forest trees and surrounded by mountains, forming a charming combination of picturesqueness and grandeur.

The Columbia & Western railway, which was constructed by the Canadian Pacific Railway company, has its station, freight warehouse and yards in the center of Columbia, and the Vancouver, Victoria & Eastern Railway company, has located its depot, freight sheds and yards along the east line of the corporation, thus giving the city connections with two transcontinental lines.

The Canadian Pacific railway company has large interests in the city, having selected the site on account of the superior natural advantages as a railway centre.

The climate, taken all the year around, is the best in Canada—part of the summer is rather hot and dry, but the rest of the year is enjoyable.

Throughout the Kettle River valley there is an extent of fertile agricultural land, part of which is now being cultivated.

Apples, plums, pears, prunes, cherries and all the small fruits grow abundantly. The valley surrounding Columbia, divided into small fruit and vegetable farms, will sustain a large population.

Building material is plentiful in the district. Lumber can be procured at fair prices, and brick lime and stone of good quality can always be obtained when required.

The mining interests are of the first importance to this country, and will do much to build up Columbia. Large mineral lodes have been discovered throughout the mountains adjacent to the city, and what were mere prospects a short time since are now large paying mines.

The Granby smelter and converter—the most modern and perfect plant of the kind in America—employing hundreds of men, is contiguous to the city.

Owing to the fine climate, the central situation, the beautiful environments, the bright prospects for future growth and prosperity, Columbia will be an educational centre, a city of homes, as well as a wholesale distributing point; and when finally allied and wedded to her sister city, will be the best and largest city in [the interior].

IMPERIAL LIFE

In reviewing the list of prominent Canadian life insurance companies, the "Imperial" of Toronto stands out prominently on account of its remarkably successful career. The board of directors is composed of strong financiers and gentlemen of large experience in the insurance business. This company has nothing but up-to-date liberal policies to sell, and the fact that many large policies have been issued by the Imperial, running as high as \$200,000 on one single life, indicates the class of people who are patrons of this company. Mr. J. A. McCallum is agent at Columbia and Grand Forks.

BICYCLES—The Columbia, Perfect and Cleveland Bicycles, all top-notchers. Wheel supplies of all kinds. Repairing. Wheels to rent. GEO. CHAPPLE, opposite postoffice.

In the Matter of the Railway Act, and in the Matter of the Vancouver, Victoria & Eastern Railway and Navigation Company.

NOTICE IS HEREBY GIVEN that a copy of the plans, profiles and books of reference, duly sanctioned and approved by the Department of Railways and Canals, for a section of the above company's line, extending from Midway to Lot 641, Township 67, Osyoos Division of Yale District, has been deposited with the Registrar of Land Titles, at Kamloops, in accordance with the requirements of Section 125 of the Railway Act.

THE NEW VOTERS' LIST

Mr. Curtis Explains the Recently Enacted Legislation.

As considerable misunderstanding exist regarding the new provisions of the recent Redistribution Act and the amendments to the Provincial Election Act, the following facts, which have been ascertained from Smith Curtis, M. L. A., will be of interest:

(a) The redistribution of the province into new ridings electing 42 members instead of 38, as a present, will not come into effect until the present legislature is dissolved.

(b) The present voters' lists as revised in May and November in each year continue to be in force until the dissolution of the present assembly.

(c) In case of a vacancy in any riding prior to the dissolution of the present assembly, the bye-election would be for the old constituency on the present voters' lists.

(d) Whenever the present assembly is dissolved, the present voters' lists will thereby be canceled, and the government will forthwith appoint a collector for each new riding and he will prepare a new voters' list and must hold a court of revision of same within three months from the date of the dissolution, and the general elections will be held upon such revised new lists.

(e) When a general election is held no one will have a vote unless he has made special application after the dissolution of the assembly has been proclaimed.

(f) Hereafter whether application is made to get on the present lists for old ridings, or after cancellation of the present lists to get on the new lists to be used at the general election, the applicant, instead of making a mere declaration as heretofore, must make an affidavit before some one authorized to take it of his right and qualification, and in case of false swearing will be liable to criminal prosecution, which is fourteen years in the penitentiary.

The new lists for the general election will be fairly clean. The present lists will be loaded down with a very large number of names of persons who are not, by reason of non-residence or death, entitled to vote, and this obtains to the extent of 25 per cent, or even 50 per cent, of the number enrolled, so that the present lists are perfectly scandalous.

For the Interstate fair in Spokane, Oct. 6 to 14 inclusive, the Great Northern will sell round-trip tickets from Grand Forks at \$7.25, good for seven days from date of purchase.

For Sale.—One three-seated Hack (Studebaker); one Carriage Horse. Apply to J. A. McCallum, Columbia.

For a nice hair-cut or shave go to the City Barber Shop on Riverside avenue. Baths 25c.
