

Railway Resume

All Subcontractors Are Actively Engaged in Grading.

Contracts for the Curlew-Midway Branch Have Also Been Let and Work Started—General Local News of the City and District.

A party of prominent Great Northern officials, including Chief Engineer Hoagland and General Manager Ward, arrived in this city early Sunday morning by special train, with Mr. Ward's and Mr. Hoagland's private cars attached. The train was switched onto the Hot Air tracks at the Y, thence to the C. P. R., and, accompanied by Mr. J. H. Kennedy, chief engineer of the V., V. & E., the party proceeded to Phoenix, from which place the train returned to this city empty, the officials coming back over the Phoenix branch right of way in carriages. The special left this city early yesterday morning for Curlew, where Mr. Hoagland's car was sidetracked, and Mr. Ward returned east.

Actual grading was commenced by nearly all the subcontractors on both the Phoenix branch and smelter spur the later part of last week, and rapid progress is now being made.

Alex. McDonald, of this city, has secured a sub-contract of two and one-fourth miles near the Summit on the Great Northern Phoenix branch.

The following subcontracts have been let by Caughran & Woldson, who have the contract for the construction of the Curlew-Midway branch of the Washington & Great Northern: To A. O. Peterson, three miles; Caughran Brothers & Cleveland, three miles; P. P. Johnson, one mile; Dahlberg & Spindoll, three miles, and James Twohy, two miles. The subcontracts for the rest of the road are not yet let because of the difficulty to cross Kettle river to examine the right of way. Grade camps are being established respectively two and one-half and ten miles east of Midway. Caughran Brothers & Cleveland and A. O. Peterson have started work on their contracts.

An Ottawa dispatch of the 4th inst. states that the Dominion railway committee intends going to the Pacific coast to hold sittings in July. The bill extending the time for the completion of the Vancouver, Victoria & Eastern railway for five years from the present passed the senate on the 3rd. Senator Templeman proposed to ask for a reduction of the extension in two years, because the charter was already seven years old, and practically no construction had been done, but the company, through Senator Hendry and others, declared its intention to prosecute the work vigorously in the future and to have the road in operation at the end of the term asked for. The Hill interest, which controls the charters, favors early completion of

the line. The extensions to Phoenix and Midway, to be completed this year, are indications of a change of policy, and with assurances of prosecuting the work on the main line to the coast, a more hopeful feeling in regard to the railway development in this province will be the result.

Caughran & Woldson, who have the contract for building the Curlew-Midway branch of the Washington & Great Northern, have fitted up a commodious commissary building at Curlew and stocked it with a large quantity of supplies. About 25 carloads of grading outfit and supplies have been received and more are arriving daily from Kalispell, Mont., where the contractors were working for the Great Northern. The rest of the outfit is expected to arrive at Curlew in a few days.

It is reported from Midway that a corps of Great Northern surveyors under Engineer Whitcombe left that place last week to go over the line of the V., V. & E. to the westward. It is also stated that it is expected that construction on that road from Midway to the coast will be commenced this summer.

Preparations are being made by P. Burns & Co. for the opening of a butcher shop at Midway. This firm has the contract for supplying the meat used by the contractors of the Midway-Curlew branch. The firm will also erect slaughter houses at a short distance south of that town.

The Grand Forks and Danville baseball teams crossed bats on the Athletic grounds diamond last Sunday afternoon. The game was called at the end of the fifth innings on account of rain, the score standing 20 to 0 in favor of the Grand Forks boys.

Born—In Grand Forks, June 5, 1904, to Mr. and Mrs. E. Disney, a daughter.

A fair-sized audience witnessed the presentation of "Maloney's Wedding" at the Bidden opera house last Saturday evening.

Joseph Thatcher received a bad fall on the stairs at the head of Bridge street last Friday evening, and as a consequence was confined to his home for several days.

For Sale—Good milch cow, cheap. Apply T. Smith, Columbia.

Frank Sherwood, day customs inspector at Danville, will relieve the U. S. customs officer at Midway dur-

ing the next two weeks, and left for that place yesterday.

A dispatch from Victoria says there was a special meeting of the cabinet last Friday to consider the momentous question of the issuance of licences for the coal and oil lands in Southeast Kootenay. Evidently some definite decision was arrived at, for later in the day, Premier McBride announced that the policy of the government in this matter would be made known within a day or two.

Miss E. Pauline Johnson, the Iroquois Indian poetess and J. Walter McRaye the delightful impersonator will appear at the Bidden opera house Thursday evening, June 9th. Both are clever entertainers, popular in Grand Forks, and they are sure to be greeted by a big house.

THE CITY COUNCIL

Discussed Model Improvements to the Fire Department.

The regular weekly meeting of the City Council was held last night in the Council Chambers. Mayor Hammar, Ald. Clements, Feeney, Hutton, McCallum and McNee were present.

A petition from the property owners along the route was received for a sidewalk from Bridge Street to Holy Trinity church. After the matter had been thoroughly discussed, action on the petition was, on motion of Ald. McCallum and Feeney, deferred for one week in order to give the aldermen an opportunity to investigate the subject.

The usual number of accounts were ordered paid.

The financial statement for the month of May was read by the city clerk.

The specifications for the Granby street sidewalk were read.

It was decided to build it six feet wide, and to use 2x6 stringers instead of 4x6. On motion of Ald. Clements and Feeney, the specifications were approved as altered.

Ald. McNee, chairman of the water and light committee, reported on the needs of the fire department. He stated that two additional fire alarms were needed in the west ward, one at the Queens Hotel and another at the fire station, and recommended the placing of triangles at these places.

The North Fork station also needed an alarm. For the East ward a new coupler and ladder supporters were needed. The west ward also asked for cotton hose, and place for drying hose, and to have the street graded in front of the fire hall. Ald. Feeney said he would attend to the grading. Mayor Hammar didn't think the west ward fire hall was as centrally located as it might be.

On motion of Ald. Feeney and McCallum the report was adopted.

Mayor Hammar thought it would be a good idea to adopt the metropolitan system of sending fire alarms, viz. to let each fire company fight small fires in its own ward, unless a general alarm was turned in. This system was approved by the aldermen.

On motion of Ald. Clements and Feeney, a resolution was passed authorizing the payment of a \$5 premium to the owner of the first team available team for hauling the apparatus to fires.

Visited the Volcanic

Directors Are Highly Pleased With the Property.

Development Work to Be Carried on on a Comprehensive Scale During Present Summer—Betts & Hesperus Will Resume Work.

Chas. H. Schaeffer and T. W. Smith, of Marquette, Mich., president and director respectively of the Volcanic Mining & Developing company, arrived in the city last Saturday and at once, in company with W. A. Harkin and A. P. Meads, proceeded to the company's properties, ten miles north of this city, on a tour of inspection. It is stated that they were highly pleased with the progress of the work at the Volcanic, and at the showing thus far made, and that all future payments on the property will be made as per the original contract. On the 1st of July all outstanding accounts against the mine will be taken up. It is also the intention of the company to acquire a number of adjoining claims. On their return to Marquette a meeting of the directors of the company will be held, when a comprehensive plan of development work will be formulated. Messrs. Schaeffer and Smith left for their home yesterday. They had expected to remain longer and make a tour of the entire Boundary country, but they were so well pleased with the showing at the North Fork property that they were eager to return and make their report. Mr. Schaeffer is connected with the Marquette blast furnace, and Mr. Smith is assistant superintendent of the D. S. S. & A. and Mineral Range railways.

Word has been received from Chicago that work is to be resumed immediately on the Betts and Hesperus; situate on the Hardy mountain, west of this city. A day or so ago Harry Shaffer, the old foreman, received instructions from Burt Rae, who is at present in Chicago, to proceed to the mine and get everything in readiness to start work at an early day. The work of pumping the water out of the shaft will be commenced at once. An air compressor plant and other machinery is being shipped from Chicago, and work at this promising property will be carried on on an extensive scale during the present summer. The Betts & Hesperus will have unexcelled shipping facilities, as an ore chute can be constructed at little expense from the mine to the Great Northern smelter spur.

C. A. Murray, on the application of the company itself, was appointed receiver for the Lucille Dreyfus Mining company, of Spokane, by Judge Hanford in the federal court at Seattle last week. The property of the company is located at Danville, a few miles south of this city. The application was presented by Attorneys E. G. Soule and W. H. Thomp-

son. It is the preliminary step to clearing the legal tangle arising out of the forged issue of stock in the company by H. J. Kressly, secretary, who is now serving a term in the penitentiary for that offense. Mr. Murray, the receiver, is assistant counsel for the Great Northern Railway company in Spokane.

A tunnel is being driven from one of the glory holes at the Oro Denoro.

The break in the big flume at the Granby smelter has been repaired, and the big reduction plant is again running at full blast.

Work has been discontinued at the Rathmullen, Summit camp.

The new converter for the Mother Lode smelter is rapidly being placed in shape for use, after which the matte will not be sent to Tacoma, as at present.

The Brey Fogle, Summit camp, under bond to the Granby company, has so far shipped three cars of ore to the smelter in this city. It is valuable chiefly as a flux.

It is the plan when the Great Northern is ready to haul ore from Phoenix camp, to tap the Granby mines at the No. 4 tunnel, now being widened and finished for this purpose. A tramway will likely connect the No. 3 tunnel with the No. 4 ore bins, to be erected on the flat somewhere near the centre of the city.

Hall and Fuller, who have been developing the Bay claim, near the E. P. U., for several months, a few days since made a trial shipment of twenty sacks of ore to the Trail smelter. The gold can be seen sticking out of the ore, and should average over \$100 per ton.

A diamond drill was set to work in the Bruce claim this week. Knight & Stone, who did considerable of this work for the Granby Co. three years ago, have the contract from Messrs. Keffer and McAllister, who have the bond on the Bruce, which is located near Midway.

Mrs. Kate Hoffman, who recently leased the Clarendon restaurant, is conducting the same in first-class style and reports doing a good trade.

James Reeder, a former resident of Grand Forks, returned to the city last Saturday from Coleman, Alta. He left today for Summit, where he will conduct a hotel during railroad construction.

TUESDAY, JUNE 7, 1904

A great deal of nonsense has recently been printed by the papers in this province concerning the trouble and complications the locators of Southeast Kootenay coal and oil lands were likely to encounter even though the licenses are issued. Stories of costly litigation, half a dozen licenses for the same piece of ground, etc., have been freely circulated. The government, up to the present, have not been in the habit of issuing more than one license for the same claim, and there is no reason why they should depart from this rule now. As for litigation, the parties who do not receive licenses ought to have sense enough to know that they are beaten. We are of the opinion that the stories have been put in circulation in order to make timid the dispose of their holdings for a song.

Justice is blind. The man who has been engaged in "knocking" our city during past two years is now receiving the same measure of prosperity as the man who has worked faithfully to further its growth.

The men who were positive that the Phoenix branch would never be built have decided to make biennial trips over the road. The question of tonnage has been solved.

There is a rumor that the Southeast Kootenay coal licenses were issued today, and a number of embryotic millionaires are sauntering through the streets of Grand Forks tonight.

The equivalent of a coal claim will burn a hole through many a poor man's pocket.

Business in Grand Forks is good. Real estate prices are rising. Rents ditto.

WHEN YOUR AFFE LIE FAILS

And it makes you dizzy to even think of eating, you need Ferrozone, the greatest of appetizing t. uies. It builds up the whole body, the taste becomes aware of new flavors in food you re er noticed before. A relish and after satisfaction in eating is another result from Ferrozone which improves the digestion and converts everything eaten into nourishment for the blood, and brain and nerves. Just one Ferrozone tablet after meals; easy to take and pleasant. Try Ferrozone. Price 50c. H. E. Woodland, druggist.

CITY NEWS

Rev. J. F. Betts and family will leave to-morrow for their future home in Vancouver. Mr. Betts was assigned as pastor of the Fairview Methodist church in that city by the conference of British Columbia. Mr. and Mrs. Betts have made numerous friends during their residence in this city, and they will be greatly missed by all.

The very best smokers in town at Donaldson's. Large range from which to choose. Get our prices by the box.

Shortly after the first of June a party will leave Phoenix for the Peace River country in the northern part of the province. Neil Hardy

and Charles and James McCague will be included in the membership. They will look out for good mineral or grazing or agricultural lands.

A large shipment of Guinness' Stout has just been received at the Grand Forks Hotel Bar. A refreshing and strength-imparting drink.

Steve Irwin, formerly well known as a lineman for the V. & N. Telephone Co. in the Boundary, has been made manager of the Rossland exchange.

Webbs' chocolates galore at Donaldson's, in bulk and in fancy boxes.

John Riordan, secretary of Phoenix Miners' Union No. 8, is attending the annual convention of the Western Federation of Miners, being held at Denver.

The best brands of fresh, cool beer always on draught at the Grand Forks Hotel Bar.

W. H. Itter left to-day for a business trip to Spokane.

Wanted—Pupils to take shorthand and typewriting lessons. For particulars apply to Miss L. Maxfield, McCammon residence, Garden street, Grand Forks.

Rev. Elihu Manuel, the new pastor of the Methodist church in this city, will arrive in Grand Forks next Friday.

A fine line of Bass' Ale always in stock at the Grand Forks Hotel Bar.

A meeting for the purpose of organizing a lacrosse team will be in the back room of W. H. Itter's store tomorrow evening and everybody interested in Canada's national game are requested to be present.

Greenwood's city council is wrestling with the problem of trying to change the time used in that city and the rest of the Boundary, if possible so that it will be an hour faster than at present. They have a contract on hand.

The question: What will we have for dessert? The answer: Call up Donaldson and get some Hazelwood ice cream. Phone 64.

A. P. Mead and Geo. A. McLeod left to-day for Franklin Camp, where they will inspect the McKinley mine, which is under bond to the latter gentleman. They will be gone about a week.

E. White, of Spokane, bookkeeper for P. Welch, arrived in the city last Saturday.

The public will do well to remember the entertainment to be given by Miss Pauline Johnson and Walter McRaye on the evening of the 9th inst. Of their abilities we quote the following from an eastern paper: "To the student of Indian life, with its sorrows and burning passions, its wild freedom and joy, Pauline Johnson will stand unequalled in her interpretation of such characters. 'Les Vieux Temps,' a charming picture of pathos and humor, Mr. McRaye gave with a neat, delicate balance and true insight into the different emotions called for by the selection. Likewise the description of the singing of Albani, the French-Canadian prima dona, was carefully interpreted. In their tour of England next season we wish Miss Johnson and Mr. McRaye unbounded success, which undoubtedly they will have."

ALMOST EVERY WOMAN

Is inclined to habitual constipation and should use Dr. Hamilton's Pills of Mandrake and Butternut, which cleanse the system and regulate the stomach and bowels. For mild and sure relief use only Dr. Hamilton's Pills. Price 25c. H. E. Woodland, druggist.

HE DESERVED PITY

His suffering from Sciatica was so great, but thanks to Nerviline he was cured. "I suffered for three years from sciatica," writes E. S. Jenkins of Portland, "and no man ever suffered more. I spent a small fortune on different remedies, but the only one with real merit was Nerviline. I used a few bottles of Nerviline and was perfectly cured. I can recommend Nerviline as a sure cure for sciatica; it's excellent also for rheumatism and neuralgia." Try Nerviline, 25c, at H. E. Woodland's, druggist.

Now is the time to bring in your bicycle and get it repaired and put in shape for the wheeling season. GEO. CHAPPLE, Bicycle Dealer and Repairer.

WHY GO EAST

Over the sun-burned, sage brush and alkali plains, when you may just as well take a delightful, cool and comfortable ride through the heart of the Rocky Mountains in view of the grandest scenery on the American continent?

This you can do by traveling on, the Rio Grande system, the far-famed "Scenic Line of the World," the only transcontinental line passing through Salt Lake City, Glenwood Springs, Leadville, Colorado Springs and Denver enroute to eastern points.

Three daily express trains make close connections with all trains east and west, and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions.

For additional details address J. D. Mansfield, Gen. Agt., Rio Grande Lines, No. 124 Third Street, Portland, Ore.

Just when you want it

GOOD SERVICE is composed of two elements—excellence of the work and promptness in the execution. Bad work executed promptly is not good service—good work delivered behind time is not good service; but the two combine to make one of the most necessary, but hardest to obtain and often most expensive, requirements of the twentieth century business man. That we have learned the lesson in theory we have shown. Our customers will testify that we have also learned it in practice.

CATARRHAL DEAFNESS IS CAUSED

By a thickening of the lining membrane of the middle ear owing to prolonged inflammation from catarrhal germs. The only cure is fragrant, healing Catarrhazone, one which is carried by the air you breathe to the remotest parts of the throat and ears; it reaches the source of trouble and cures deafness permanently. Every sufferer from impaired hearing should use Catarrhazone, which has effected many wonderful cures. You simply breathe its healing medicated vapor—very easy and pleasant. Do this and your hearing will be restored. Catarrhazone never fails; it is guaranteed. Two months' treatment for \$1.00 at H. E. Woodland's druggist.

If you have a few friends to spend an evening at your home, do not forget to leave an order for some Hazelwood ice cream at Donaldson's. Phone 64.

"You're next" at the Yale Barber Shop.

The Uncommercial Travelers Trunk.

Once upon a time a trunk was a trunk, and all trunks looked more or less alike to everyone. Now a trunk may be a bureau or a wardrobe or a hat-box, according to its owner's wishes and the amount she pays for it.

The wardrobe trunk sets on one end and the gowns are hung in it on hangers. This serves a double purpose, for the frocks are kept free from wrinkles by this method, and they are also much easier to get at than they were by the old way, when the "box" had to be unpacked every time another gown was got out.

You see, the hangers are so arranged that they may be pulled out, much as an accordion is, and then pushed back again.

The bureau trunk is better known. It has drawers which may be pulled out, just as those in the bureau are, and so the necessity of lifting heavy trays is obviated.

But these inventions are not very well known on the other side of the water, and, consequently, they puzzle the customs inspectors not a little.

One of the bureau trunks owned by an American woman, the French authorities at Boulogne insisted upon opening simply because they saw it fastened differently from the ordinary trunk. Once opened, they would not permit the owner to pull out the trays or drawers for their inspection, but insisted on lifting them out themselves and searching every hole and crevice for contraband goods. When they were at last convinced that there was nothing of the sort inside, they permitted the owner to replace the drawers, but the moment these were pushed in and the lock snapped, the peculiarity of the thing seemed to overcome them again, and once more they demanded the keys. The second search revealed no more than the first, of course, but it was with the keenest regret, apparently, that the inspectors saw the trunk finally borne away—there was something mysterious about it that they did not understand, and they were sure it meant there was tobacco concealed in a secret compartment or a false bott-

George Meredith recently said of the brilliant and beautiful leader of English society: "She did not merely shuffle the cards; she was one of the pack." An earlier leader, Lady Holland, was not one of the pack, to borrow the phrase, and she was inclined to shuffle the cards—which included princes, peevish politicians and poets—with more or less flourish. She exacted homage; it pleased her to see distinguished men fetch and carry in her drawing-room. It was one of her little habits to drop her handkerchief for someone to pick up and return to her on bended knees. One evening at dinner at Holland House, when she had dropped her handkerchief three times in close succession, Count D'Orsay returned it to her the third time, saying: "Pray, my lady, had I not better take my seat under the table?"

THE TORONTO

DAILY NEWS

AND THE

GRAND FORKS TWICE-A-WEEK SUN

...FOR ONLY...

\$2.25 a Year

A radical change from old methods and prices has been made by the Toronto Daily News. The eyes of the newspaper world have been upon The News for the past few months, during which time several departures have been made which have given that paper a widespread reputation for enterprise and originality. This latest move is to place The News at the price of \$1.00 a year by mail. Only a deep-founded belief in the future success of The News could lead the publishers to make such a reduction in price. But just as the dollar magazine has taken hold of the people, so, we venture to predict, The News will secure a vast and ever-increasing circulation, based not only on the popular price at which it is sold, but mainly upon the intrinsic merits of the paper.

We have arrangements concluded which enables us to club the Toronto News with our own paper at \$2.25 a year in advance. Such a combination presents many unique features—our semi-weekly giving you all the home and district news, and the big 12-page daily keeping you in touch with events all over the world. Send us your subscription to The News, or if you would like to see the paper first, write us and we will secure a sample copy.
