THE CITY COUNCIL

The Proposed Change of Fire Chiefs Provokes a Long Discussion.

City Decides to Invest $75 in Advertising Our Resources.

The city council held its first meeting last night under the rules of the new procedure by-law, which provides for bi-weekly sessions. Mayor Hammar and Ald. Brown, Clements, Henniger and Hutton were present.

A communication was read from Arthur Wheeler, special staff correspondent of the Victoria Daily Times, concerning an illustrated write-up of the city and environments in a special edition of that paper. Mr. Wheeler was present at the meeting, and fully explained the objects of the publication. He stated that an edition of 50,000 copies would be printed—10,000 to be distributed at the Portland exhibition, 10,000 at the Winnipeg exhibition, and 10,000 at the Dominion exhibition in New Westminster—and offered a full-page illustraaed descriptive write-up, including 100 copies of the paper, for $75. He read the following letter from his company, which explains his mission:

VICTORIA, February I4, 1906.

DEAR SIR:—We propose to celebrate the twenty-first anniversary of the founding of the Times—our journalistic coming of age—by issuing an edition in keeping with the occasion.

Our birthday falls in June, 1905, and in order to be ready to publish about that date it is necessary to thus early draw your attention to our proposal. We will issue an edition of at least 32 pages—it may be double that size—handsomely illustrated, and dealing with the whole province. The Lewis and Clarke exhibition at Portland, the Dominion fair at New Westminster and the Winnipeg exhibition will attract westward thousand of people who will see at these places the products of the west. We propose to place in their hands a newspaper which by half-tones and letterpress will prove to them what British Columbia has to offer as a field for enterprise aud investment. The number will be e closed in a striking cover. It will deal particularly with the agricultural areas and our mineral wealth, but no industry will be overlooked. We do not expect to make any money out of this venture, but will be content if it is a fitting advertisement of what British Columbia has to offer to the settler and investor, and a worthy souvenir of our coming of age. We want your aid to do this. We hope to have a representative call on you later, and trust you will reserve your advertisement for it; but in the meantime we would be glad to have your application for space and to quote you terms. Yours truly,

THE DAILY TIMES COMPANY.

The mayor and all the aldermen were favorably impressed with Mr. Wheeler's proposition, and on motion of Ald. Clements and Brown, the council decided to expend $75 for a full-page advertisement in the anniversary edition of the Victoria Daily Times.

Mr. J. M. Simpson, on behalf of a delegation from the fire department, addressed the council. Mr. Simpson said it had been rumored that Mr. Sheads was to be appointed chief of the fire department, and the members of the brigade desired to know if the rumor was correct or not.

Mayor Hammar explained the present status of the situation, adding that the police commissioners had recommended the change, as the night policeman lacked the time to properly perform the duties of fire chief.

Ald. Henniger—Would it be satisfactory to the police commissioners if the council retained Mr. Savage as fire chief and night policeman?

Mayor Hammar replied that the appoinment of the fire chief was a prerogative that rested with the council, but that the police commissioners had the sole right of naming the policemen.

Ald. Clements thought that if the police commissioners had brought in a recommendation for a change of chiefs, they must have had some reasons for doing so, and the recommendation should carry considerable weight.

Mr. I. A. Dinsmore wished to known if the department would be consulted regarding the contemplated change.

Ald. Clements—Is there a fire department in the city?

Mr. Dinsmore—I know of no person more capable of answering that queftion than Ald. Clements.

Mr. Dinsmore stated that about all the contention of the department amounted to was a fight for recognition.

Ald. Clements understood the fire department was in a disorganized condition.

Mayor Hammar asked if the firemen had any recommendations to make, as he would like to know the wishes of the department.

Ald. Brown spoke in the same strain.

Ald. Hutton favored retaining for chief of the department the man recommended by the firemen.

Mayor Hammar stated that if the firemen could prove organization their wishes would certainly be considered.

Ald. Clements said the firemen had not made a report to the council during the past year. This was probably why the impression had gone out that the department was in a disorganized condition.

Action in the matter was postponed until the department was reorganized and brings in recommendations to the council.

A communication was read from Premier McBride, stating that the resolutions re the Fourth street bridge had beed received, and that they would be duly considered. A letter of the same tenor was also received from Provincial Engineer Gamble. They were ordered filed.

A letter was read from the secretary of the British Columbia Tuberculosis league, asking the council to pass resolutions urging the Dominion and Provincial governments to establish tuberculosis hospitals in this Province.

A letter was read from G. H. Burnett, mayor of Victoria, asking the conncil to pass resolutions urging the Provincial government to amend the Municipal Clauses act re taxation for school and municipal purposes.

A communication was read from the wardens of Holy Trinity church,

Continued on Second Page.

DOINGS OF THE CITY

Grand Forks School Teachers Are Highest Paid in This Province.

Jury Disagrees in Case of Harrington Versus Granby Co.

The salaries of school teachers are rising in this district, according to Public School Inspector Wilson, who recently made a trip through the Boundary country. He is pleased with the tendency to increase the salaries to sums approximately proportionate to the value and the importance of the work done by the teachers. Nelson set the example in this respect, until now salaries there average $71 per month for teachers. Grand Forks has the distinction of paying the highest average in the Province, namely $81, Revelstoke coming next with $77, and Rossland third with $74. The people of Grand Forks are showing great interest in manual training, and are negotiating with neighboring cities to secure the establishment of a center for woodwork in connection with the public schools of the Boundary country.

In the case of James Harrington, of this city, against the Granby company, for injuries received at their smelter here last August, and which has been up for argument for the past week before the court at Nelson, the jury could not agree. The action now goes over until the next sittings of the court, when a new trial will be held, unless a settlement is effected in the meantime.

The C. P. R. has issued a booklet descriptive of the Kootenay, Boundary and Okanogan districts, which, in its graphic description of this wonderful region, is most interesting. Handsome half-tone cuts, showing by turns the rugged grandeur and almost tropical luxuriance of the districts, should make the book of great service as a missionary of the beautiful and magnificent West.

C. E. Baker, one of the best of Grand Forks' hockey players three years ago, and lately with the Nelson and Rossland teams, arrived in the city last night and will take a position at the Club.

However unpopular these rainy and sloshy days may be with the ordinary citizen, they are pleasing to the local mining and smelting men as a means for increasing their much-needed water and power supply.

E. Disney, the contractor, returned today to Coleman, Alta.

Arthur Wheeler, special staff correspondent of The Victoria Times, has been in Grand Forks for the past week securing local material for the special edition of The Times, soon to be issued, and will remain here this week in connection with that work.

All the furnaces at the Granby smelter were banked for twelve hours last Sunday in order to afford an opportunity of cleaning out the floodgates at the Cascade power station.

Geo. W. Rutherford returned from the Rossland carnival Sunday evening. He says toe celebration was a success.

Harold Nelson and his company will present "Paul Kauvar" at the Grand Forks opera house some time during the early part of March.

A meeting of the executive committee of the Provincial Mining association was held in Victoria yesterdny to discuss arrangements for the annual meeting of the association, which it was decided at the last gathering to hold in Vancouver.

Fred Smith, for some months past cashier at the Grand Forks depot of the C. P. R., has been transferred to Rosebery, where he is temporarily acting as agent. From there he goes into the office staff at Nelson, and later on will return to this city.

Patriotic Irishmen, and which of tuem is not, in neighboring cities are already making arrangements to celebrate St. Patrick's day.

That roving bunch of horses is growing in numbers, and if these vagrants are not soon run in they will doubtless do much damage to the lawns and smaller shrubs, now that their disappearing covering of snow leaves them unprotected.

Besides being a capitalist, mine and smelter operator as well as railway promoter, Jay P. Graves is now in the dairy business, and supplies a few of his Spokane friends with milk from his herd of pure-bred cows.

We expect to be able to announce at an early date the marriage of a former well-known Grand Forksite, now a resident of Vernon, to a popular young lady of the latter city.

Harry Shaeffer, foreman at the Betts and Hesperus mine, has been on a business trip to Greenwood during the past few days.

Phoenix and Greenwood hockeyists were announced for a game at the latter place last night.

Nelson has once more regained the hockey championship of British Columbia at the Rossland carnival. On Thursday night Nelson beat Vernon (last year's champions) by 6 goals to 1, Fernie defeated Rossland 5-3 Friday night, and Nelson defeated Fernie in the final game on Saturday night by 7 to 4. Ab McQueen and Les. Steele, former Grand Forksites, were prominent factors in these contests for their respective Vernon and Fernie teams.

City Electrician Waterston and Engineer Reid are busy these days thawing out many frozen water pipes throughout the city. Wires are connected with the electric light lines, power is turned on, and "the juice" does the rest.

Spokane has been having its milk supply tested, and in one sample examined there were found no less than 22,000,000 germs. It must have given some one a busy half hour rounding up that bunch while their noses were counted.

ITS NEW OFFICERS

International Coal and Coke Company Elects Board for This Year.

Good Progress Made in Development in the Past Twelve Months.

The annual meeting of the officers of the International Coal & Coke company was held in Spokane last year. The following officers and trustees for the year were elected: Trustees, A. C. Flumerfelt, H. N. Galer, Clement S. Houghton, Will G. Graves and Daniel Shultz; officers, A. C. Flumerfelt, president; H. N. Galer, vice-presidant and treasurer; secretary, Will G. Graves. A full report of the progress in development made by the company in the last year was made by President Flumerfelt. Mr. Flumerfelt said:

We have practically completed the the equipment of the International Coal & Coke company at Coleman, Alta., developed the mines and brought our tonnage up to a respectable amount. The property has been pushed with greater vigor and has shown better results within the year than many others in the whole province. Superintendent Reynolds took charge of the properties January 1, 1904, and during the year machinery was received, buildings erected, railway switches constructed, waterworks installed, and generally the whole plant was placed in position for operation.

We have a battery of 104 standard beehive coke ovens, 86 of which are complete, and the balance will be completed as soon as crown bricks can be had. The boiler and power house are built of solid masonry, with stone walls separating. This building is 82 x78 and contains four 100-horsepower boilers, and foundations and connections are already in for two additional boilers, heaters and pumps.

In the power room we have two 250 kilowart Westinghouse electric generators, which are directly connected with two 500-horsepower engines from the Phoenix iron works, We also have a compressor for an aid haulage system, which compresses to a pressure of 1000 pounds.

The electric current generated runs a I50-horsepower motor, which drives an 11-foot Capell fan with a guaranteed capacity of 150,000 cubic feet of air per minute. The fan is located about a third of a mile from the power house on an outcropping. We have an air locomotive with which we do all our hauling from inside the mine to the tipple, and which is working very satisfactorily. The tipple is a well built structhre, containing about 300,000 feet of timber. Its bins have a capacity for about 2500 tons of coal and slack and is so arranged that the coal and slack drop into separate bins. As the mine cars approach the tipple they run over a weight scale, and from there unto a self-dumping cage, which is raised to the top of the tipple by a 100-horsepower hoist. When these cages arrive at the top they dump the coal unto screens, the slack goes through into slack bins and the coal onto a picking table. We have two picking tables five feet wide and forty feet long. These are run by a 25-horsepower motor, and as the coal passes over these picking tables all rock and refuse material is picked off. We have a complete machine shop and are able to do all our own repairs. We have a warehonse and stock supply and duplicate parts of the machinery, which stock amounts to about $20,000.

THE EVENING SUN,
PHONE 55. GRAND FORKS, B. C.

TUESDAY, FEBRUARY 21, 1905.

Phoenix occupies a very enviable position among British Columbia cities as regards its corporate financial standing; but it surely is false economy to refrain from providing an adequate water supply to over come an ordinary fire, as occurred there last week. Built as Phoenix is, and almost entirely of wooden buildings, the place is liable to be swept out of existence if a fire and a heavy wind in the wrong direction occur at the same time. Low taxes are an attraction to newcomers to a community, as well as to the older residents, but they are lost sight of when the property owner considers that in event of a fire all his possessions are apt to be swept away because of the lack of water to overcome the flames. A good water service is an absolute necessity in any city that aspires to be progressive.

Something new in the dramatic line in Grand Forks was introduced at the recent performance of "Your Neighbor's Wife," in offering to give an hour's concert after the regular show for two bits, a la circus style. This is a practice which should be stopped before it has begun. With seats at a dollar each, goodness knows, the companies usually appearing in the smaller Western cities will need to show off their very best accomplishments to earn the prices regularly charged, without any further bonus. For lack of patronage the concert was not given that night.

The Rossland carnival people refrained from advertising their attraction in the newspapers this year, depending upon posters. The result, so far as Grand Forks is concerned, was that less than half a dozen persons went over from this city this year, instead of the usual hundred or so in former years.

F. J. Deane, of The Nelson News, is mentioned as the probable Liberal organizer for British Columbia, to succeed Ornanizer Sloan, recently elected by acclamation to represent Comox-Atlin in the Dominion house, and who has resigned owing to his parliamentary duties.

The editorial writers on the Tory papers in this province have a decided advantage over their Grit brothers. Whenever they run short of subjects, they always revert to the "better terms" bugbear.

SUNSET SAUNTERINGS

Wales, piano tuner. P.O. Box 325.

The converter at the Granby smelter had again to cut out the night shift on account of lack of power, the water in the river being lower than at any time during the past six years.

Fred Russell and W. D. Lawson returned on Sunday from the Rossland carnival.

The Great Northern railway has announced the names of the stations on its branch line from Grand Forks to Phoenix as follows: Weston, Granby, Spencer, Hale, Deborah, Glenside, Jordan and Knob Hill Junction.

It is rumored two popular young people of Grand Forks will soon take the leading parts in a wedding ceremony.

Tomorrow, February 22nd, is the anniversary of the birth of George Washington, who never told a lie.

C. E. Lane was in Phoenix for a couple of days last week. regulating the electric locomotive recently installed there by the Granby Co.

If you want a nice, fancy box of Candy, be sure and drop into Donaldson's. Extra large stock from which to choose.

W. C. Putnam, of J. H. Hodson's staff, is on a holiday trip to coast cities.

City Solicitor Miller returned on Sunday from Victoria.

We want your patronage for Candy, Fruits, etc. We believe we are entitled to it. Why? Because we have the best, carry the largest stock and consequently can give you the best values for your money. Donaldsonls, Phone 64.

Grand Forks will next winter have a covered skating and hockey rink on the site of the present open-air one, according to Messrs. Taylor and Fisher, this year's rink proprietors.

Nelson and Rossland's lady hockeyists meet in games at the former place tomorrow evening and at Rossland on Friday night.

The Great Northern railways has commenced hauling ore from the Granby mines at Phoenix to the smelter. For the present, the company will take out about ten cars daily, or about 300 tons. This amount will be increased later on. The ore shipped all comes from the No. 3 tunnel level of the Granby mines.

Mrs. George H. Hull and child, Mrs. O'Brien, Miss Lily Taylor, W. H. Itter, Joe Burbee and R. A. Brown have returned from a visit to the Rossland carnival.

Miss Margaret Eyre visited friends in Republic last week.

Rev. Henry Steel, vicar of Holy Trinity church of this city, held services in the Woodmen's hall, Republic, last week. His visit to that city was for the purpose of reorganizing the Protestant Episcopal church.

A FAMILY NECESSITY

Is a remedy capable of affording immediate relief to the hundred and one ailments that constantly arise. It may be a cold, perhaps toothache, neuralgia, pain in the back—use Nerviline, it's more penetrating, pain-subduing and powerful than any other liniment. Nerviline is at least five times stronger than ordinary remedies, and its worth in any household cannot be over-estimated. For man or beast Nerviline is a panacea for all pain, and costs only 25c per bottle. Buy Nerviline today. H. E. Woodland, druggist.

THE CITY COUNCIL.

Concluded from First Page.

asking for a crosswalk to the church. Laid over till next meeting.

A letter was read from T. P. Coffey in reference to the sinking fund covering certain debentures.

The monthly payroll and the usual batch of accounts were ordered paid.

On motion, the assessor was instructed to have the assessment roll completed by April 3rd, and to submit the same to the council.

On motion of Ald. Clements and Brown, the treasurer was authorized to honor school warrants for current expenses, and the school trustees were requested to put in their estimates for the present year.

The mayor brought up the question of donations for the coming year. It appears to be the sense of the council that none should be granted, except in cases where absolutely necessary, and that the fire department should come first in this respect.

The chairman of the water and light committee reported that he had taken over $193.20 worth of Electrician Waterston's stock. The clerk was authorized to purchase additional supplies as needed.

On motion of Ald. Henniger and Brown, a rate of $2.50 was established for drawing out water pipes on owner's property.

The question of securing a water right was brought up, but the matter was laid over.

Mayor Hammar reported that when the council next met the rearrangement of the city offices would be completed.

The council decided to have a ventilator installed in the city offices.

The council then adjourned.

ITS NEW OFFICERS.

Concluded from First Page.

The coal runs out of the tipple bins by gravity, through a shoot into cars. We have installed an Ottumwa boxcar loader, with a guaranteed capacity of 150 tons an hour. The slack for the ovens is taken from the slack bins and conveyed by electric carriages along a trestle to the coke ovens; where it is charged. At the charge we have a 50-horsepower boiler and a five by seven hoist, which we have used for development work, but which will have to be replaced by a larger hoist should our shipments be increased, as we expect to get a good share of our tonnage from this slope. We have installed a water system throughout the town and also to supply our coke ovens and boilers, at a cost of about $9000. We have a good supply of good water and a pressure of about 130 pounds. It is our intention to put in wires for electric lighting of the town, and the income from this will be about $300 a month. The cost of installing the plant will be about $2000.

In the last year we have shipped 51,000 tons of coal and coke. On one of the seams in the mine we have done 7825 feet of work, on another seam 2522 feet of work, and with crosscut between slopes and airways driven in coal there has been done about 11,978 feet of work. If the market can be secured, it will be a comparatively easy matter to produce about 2000 tons of coal a day.

Mr. Flumerfelt asked the officers present for authority to issue bonds on the property for a sum to be later decided upon for means to further develop the mine. If the bonds are issued, Mr. Flumerfelt assured the directors that it would be but a short time until the mine would be paying dividends.

"There are probably no other industries in the northwest so beneficial to the community as coal mining and coke making," said Mr. Flumerfelt. "Every dollar expended in the country for coal ond coke makes it just that much richer, and with development of the coal mine larger industries are induced to come in."

If your watch needs repairing, take it to White Bros. All work guaranteed.

MUSIC LESSONS

Miss Anna Kent, a professional musician of Minneapolis, has arrived in the city, and has decided to remain and organize music classes. If given sufficient encouragement, she may decide to locate here permanently. Miss Kent possesses the highest testimonials from the best musicians in all parts of the country. Expert instruction on either the violin or piano at moderate rates. Those intending to avail themselves of this opportunity should call on Miss Kent at the Hotel Winnipeg for further particulars. She is also prepared to furnish music for dances, socials and church entertainments at reasonable charges.

Synopsis of Regulations Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

COAL—Coal lands may be purchased for $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by *one individual or company*. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for each additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

The lesee's right is confined to the submerged beds or bars in the river below low water water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile for first year, and $10 per mile foreach subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1000 to 2000. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, and if the party consists of two 1500 feet altogether, on the output of which no royalty will be charged; the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of 2½ per cent on the value of the gold shipped from the Yukon Territory, to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

PETROLEUM.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be detertmined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rase as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

Millinery Goods

WHY GO EAST

Over the sun-burned, sage brush and alkali plains, when you may just as well take a delightful, cool and comfortable ride through the heart of the Rocky Mountains in view of the grandest scenery on the American continent?

This you can do by traveling on, the Rio Grande system, the farfamed "Scenic Line of the World," the only transcontinental line passing through Salt Lake City, Glenwood Springs, Leadville, Colorado Springs and Denver enroute to eastern points.

Three daily express trains make close connections with all trains east and west, and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions.

For additional details address J. D. Mansfield, Gen. Agt., Rio Grande Lines, No. 124 Third Street, Portland, Ore.

MANY SUDDEN DEATHS

Are traced to a heart that was neglected. If your heart is weak or beats too rapidly you need Ferrozone to strengthen the heart's muscles, regulate its action and stop smothering spasms. Ferrozone always cures weak heart and restores this organ to a strong, healthy state. The best heart medicine in the world is Ferrozone, which beats any substitute. Widely used by doctors and sold at 50c per box by H. E. Woodland, druggist.

Starts In Life.

Some of the men of education have had to start as rag sorters. A surprising number have begun with dish-washing. Among them I have known a musician and two seminarists who have become waiters; a bricklayer who now owns a hotel and is worth $100,000; a civil engineer who threw aside the dish rag for a porter's job and, after seven years' hard work and saving, has just become a partner in a prosperous expressing and shipping business.

A typical case is that of a young doctor who came to America to make his fortune with a hundred spare dollars in his pocket. He tramped about New York for weeks to find work to suit him. He was starving before a friendly Comasco cook got him a chance to wash dishes. He lost his self respect, he said, and seemed to fall lower and lower until he resolved to learn English and a trade. He is now a skilled ladies' tailor and earns $35 a week during the busy season.

Ancient Tailors' Laws.

An old labor law in England in force in 1783 contained the following six clauses: Any tailor who joined a union was to be sent to jail for two months. Tailors must work from 6 o'clock in the morning until 8 at night. Wages were not to be higher than 48 cents a day. Each tailor was to be allowed 3 cents for breakfast. Any tailor who refused to work was to be imprisoned for not more than two months. If any employer paid higher wages he was to be fined $25, and the workmen who took the increase were to be sent to jail for two months.

A Hard Pie Crust.

A good story is told of a Barry lady who in making some pie mistook plaster of paris for flour and did not find out her mistake until the pie had been served up. For once pie crusts and promises bore no similarity, and the pie was buried in the back garden, doubtless to be discovered in the future as Roman remains.

First Aid.

Edith—Is it true, Dolly, that Larkin kissed you before he picked you up in that runaway? Dolly—Yes, dear; you know he is studying to be a doctor, and that was first aid to the injured.

Very Considerate.

Careful Husband—By the bye, I noticed a mistake of 5 shillings in the butcher's bill this morning, Laura. Wife—Then I had better drive around there and see about it. Careful Husband—I was thinking of that, but the mistake is in our favor. Wife—Oh, then we had better take no notice of it. We might get some one into trouble, you know.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO The Secretary, THE CANADIAN PREFERENCE LEAGUE, Room 20, Home Life Building, Toronto

WRITE PLAINLY

Please enroll my name as a member of the Canadian Preference League. Enclosed is $1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
