

The Evening Sun.

Fourth Year--No. 91

Grand Forks, B. C., Tuesday, September 12, 1905.

Issued Twice a Week

GRANBY PROFITS

Have Averaged \$92,000 Per Month During Past Few Months

Among the Greatest Copper Producers on American Continent

The Boston News Bureau makes the statement that the Granby Consolidated has averaged a net profit of \$92,000 per month for the last few months, and gives the profit for May at \$97,000 from a production of 1,926,000 pounds of copper; for June, \$84,000 profit from 1,260,000 pounds of copper, and makes an estimate of about \$100,000 profit for July, the figures not having been made up. It also asserts that the company does not owe a dollar, and that from now on the company with its eight furnaces should make an average of about \$125,000 per month net, or at the rate of \$1.25 per share. The shares have doubled in value since the present large interests took hold, and many shareholders have been enabled to sell half their holdings and have their remaining shares all paid for. In general, the Boston authority places the Granby among the greatest copper producers on the American continent.

Wedding Bells

A quiet wedding was solemnized at the residence of Mrs. M. J. Taylor, of East 524 Ermina avenue, Spokane, on Wednesday morning, September 6th, 1905, when her daughter, Miss Lily E. Taylor, late of Grand Forks, was united in marriage to J. P. Chenier, of Spokane. Dean Alfred Lockwood read the service. After the ceremony an elaborate wedding breakfast was served. The bride looked beautiful in her travelling dress of dark green broadcloth, trimmed with silk applique braid. The groom was dressed in the regular conventional black. The presents were both numerous and handsome. Mr. and Mrs. Chenier left on the morning train for Portland and the coast cities for a two weeks' honeymoon trip. On their return from the coast, they will make their home in Spokane. The bride and groom are well known here, Mrs. Taylor and her daughter having but recently removed to Spokane from this city, where they resided for about three years, and Mr. Chenier is still a Grand Forks property owner. The young couple have a host of friends in this city, all of whom will join The Sun in wishing them a happy and prosperous life.

G. M. Frapp, of the British American Trust company of this city, and Miss Bertha Julia Bradley, of Corning, California, were married at the home of the bride's parents in the latter city on Wednesday last. On their return to this city, Mr. and Mrs. Frapp will take up their residence in the house recently occupied by R. R. Gilpin, on Winnipeg avenue.

Fred H. Knight, of this city, and Miss Bertha Julia Bradley, of Corning, California, were married at the home of the bride's parents in the latter city on Wednesday last.

SUNSET SAUNTERINGS

The directors of the Nelson fair are leaving no stone unturned to please their patrons and ensure success. The list of amusements is varied and attractive. If they succeed in adding senior lacrosse and baseball games they will prove great drawing cards.

Sir Wilfrid Laurier yesterday, with a silver spade, turned the first sod on the Grand Trunk Pacific railway at Fort William. The point selected was on the ground recently purchased by the G.T.P., to the west of the town. The railway was represented by F. W. Morse, third vice president of the road.

The tariff commission will meet in Nelson this week. It is also reported that the ministers will visit the Boundary country while in southern British Columbia.

C.P.R. excursion tickets for the Nelson fair cover the period between Sept. 18 and 25, giving a whole week, from Monday to Monday.

Al. Dale, a young man of Greenwood, committed suicide last week by shooting himself through the head. For some time he had been employed as driver for the Greenwood Liquor company. The remains were shipped to Illinois, where the mother of the deceased lives.

If anyone imagines the C.P.R. agent and assistant agent have been having a picnic recently they are badly mistaken. From August 1st to the 31st they received no less than 3,800,000 pounds of freight. This also gives some idea of what has been going on in Midway during the same period. — Midway Star.

The marriage of R. Marpole, general superintendent of the Pacific division of the C.P.R., to Miss Anna Holmes, elder daughter of Col. Holmes, D.O.C., Victoria, will take place in Victoria on Saturday, Sept. 16th.

Harold Nelson Prince in Otto

The most important dramatic event in the early theatrical season will be the appearance here of Mr. Harold Nelson in the dramatization of Robert Louis Stevenson's famous novel, Prince Otto. This play ranks among the foremost of the recent metropolitan successes, having been presented for a long run in London, New York, Chicago, and the other great cities by Mr. Otis Skinner, one of the world's greatest actors. The story is strong, the climaxes thrilling, and the heart interest prevailing throughout. As Prince Otto, Mr. Nelson will be seen at his best; the part allows for every emotion, from light comedy to the dramatic climaxes, and eastern critics unite in declaring it the artistic success of Mr. Nelson's career. The play will be produced in the elaborate manner which has marked this popular actor's recent productions, the scenery all being new and the costumes handsome and historically correct. Mr. Nelson will be supported by an excellent company, which will include Mr. Clifford Lane Bruce, the handsome and talented leading man, and others of like ability. Prince Otto will be seen at the Grand Forks opera house for one night only, Saturday, September 23.

NEWS OF THE CITY

Work on West Kootenay Power Line Progresses Satisfactorily

Boundary Creek License Commissioners Fail to Take Action

The poles of the high tension power line of the West Kootenay Power & Light company have been set up from Rossland to Cascade, and stringing of the wire will soon be commenced.

The Boundary creek licensing commissioners, who met at the court house in this city last Friday evening, failed to take action on the application of B. Lequime for a license for the Great Northern hotel, Midway, but adjourned to the 19th inst.

Jas. H. Kennedy, chief engineer of the V., V. & E., passed through the city yesterday evening on his way from Ottawa to Midway. All the difficulties between the Similkameen & Keremeos and the V., V. & E. have been patched up, and the latter road has now smooth sailing—until the next snag is encountered.

Charles Dahnken and family returned to the city last Saturday from a month's visit to Mr. Dahnken's old home in Mt. Vernon, Wash. They report having had a pleasant trip.

Fred Clark returned home Sunday evening from a week's visit to the Lewis and Clark exposition in Portland. He was much pleased with the fair, saying that the displays are all good, the forestry and United States government exhibits being especially fine.

James Rutley, formerly day clerk at the Yale, returned to the city last week from his Chewelah fruit ranch, where he has been acquiring a good quality of sunburn during the past four months. He has leased his ranch, and will probably relocate in the city. He is accompanied by Mrs. Rutley.

A. L. Andrews, of Seattle, of the firm of Andrews & McDonald, railway contractors, was a guest at the Yale last night.

Julius Ehrlich, manager for P. Burns & Co. at Greenwood, was a visitor in the city last Sunday.

G. C. Hoge, of Nelson, district manager of the B. C. Telephone company, was a visitor in the city last Saturday.

Dr. Oppenheimer has been appointed medical officer to the Midway & Vernon railway.

Ralph Smailes, of Greenwood, has returned from New York and announces that he completed all arrangements for the sale of the Midway & Vernon charter and the construction of the road. The purchasers are a strong financial syndicate, of whom A. A. Arthur of New York is the head. Under the terms of the agreement with the syndicate twenty miles of the

railway has to be constructed before January, 1906. The work of construction is now under way, McLean Bros. being superintendents of construction.

The Great Northern put a new time table into effect on the S. F. & N. last Sunday. The passenger train from Spokane arrives here 25 minutes later than formerly. There is no change in the arrival and departure of the south-bound passenger train.

A number of tests have been made with the blowers in the two new furnaces at the Granby smelter during past week. As soon as they get to working satisfactorily one of the furnaces, and probably both, will be placed in commission.

Many persons who have not attended the Spokane fairs for the past three or four years have written Manager Cosgrove that they believe putting on night shows at the fair grounds will be a big drawing card and will add much to the popularity of the exposition. They say they expect to be present this time. A force of electricians now is at work putting in the wires and lights for the night shows. The grounds will be brilliantly illuminated.

The Pioneers' Association of the Boundary and Okanagan districts will meet at the Lancashire house, Midway, next Friday.

Geo. Fraser, M.P.P. for Grand Forks riding, is in Victoria.

Duncan Ross, M.P. for Yale-Cariboo, has been taking a trip through the Okanagan and Similkameen districts. He was banquetted in Hedley last Tuesday. He is now reported to be in Victoria.

Local fruit growers are beginning to complain of competition from foreign fruit peddlers. At present The Sun ranch is not affected, as the product of that enterprise is of a superior quality.

P. D. McDonald, of the Pacific hotel, made a business trip to Midway last week.

Last Wednesday three Grand Forks people were married in three different states of Uncle Sam's domain.

All railroads leading into Spokane have announced generous excursion rates for the Spokane Interstate fair, October 9 to 15. Each road gives a single fare rate for the round trip on one day. Besides this on all days of the fair, beginning with the day before the opening, each road gives a fare and a third for the round trip. A ticket purchased any day of the fair is good to return any day including the day after the close. The Spokane Falls & Northern road and all its branches give one fare rate for the round trip October 9.

Coming Events

Nelson Fair opens on September 20, and closes on September 23.
Kamloops fall race meet, September 21 and 22.
Dominion Exposition at New Westminster opens September 27 and closes October 7.
Spokane Interstate Fair opens October 9 and closes October 15.
The Lewis and Clark exposition in Portland closes October 15.

B. C. COPPER CO.

Will Double Its Capital Stock to Four Millions of Dollars

A Portion of It Will Be Available and Used This Year

Manager Keffer and Superintendent McAllister, of the British Columbia Copper company, are both in New York, and it is quite evident that matters regarding the enlargement of that company's smelter are being closed up in the east, and that the particulars will be made public before long. It is reported that the company has finally decided not to move its smelter from Greenwood to Midway or elsewhere, but to extensively enlarge and probably in some respects remodel the present reduction works. It is also said that the matter of finances, in doubling the capital stock of the company to \$4,000,000, has been successfully carried out, and that a considerable amount of the sum set aside for betterments and enlargements will be available and used this year.

A London cable states that at a special meeting of the board of directors of the LeRoi Mining company, held last week, a contract was arranged by which the entire shipping product of the LeRoi mine will be sent to the smelter of the Canadian Smelting works at Trail. The contract runs for a period of three years, commencing Friday, Sept. 15th. The Northport smelter will be closed just as soon as the supply of ore on Sept. 15th can be smelted, as it is considered in the best interests of the LeRoi Mining company that the superior advantages of Trail as a smelting point should be utilized with all possible dispatch, now that the majority of the LeRoi directors are fully convinced in this respect. Anthony J. McMillan has resigned from the directorate of the LeRoi company. For upwards of a year Mr. McMillan was the managing director of the company.

J. W. Astley, superintendent of the LeRoi mine, in response to a long distance phone from the Spokesman-Review told that newspaper that A. J. McMillan did not resign from the LeRoi directorate. Mr. Astley said: "It is not true that A. J. McMillan, managing director of the LeRoi, has resigned. He was asked by the London directors to do so, but refused." Mr. Astley leaves the impression that Mr. McMillan is still a LeRoi director, but it is said on good authority that when Mr. McMillan declined to resign as requested, the other directors dismissed him.

Up to the present time, about two miles of diamond drill work has been done on the Granby company's properties in Phoenix camp. Ten men and two drilling outfits are now engaged in exploration work.

Maxwell Smith, Dominion government fruit inspector, will visit the Boundary country this week.

R.H. TRUEMAN

PHOTOGRAPHER

Vancouver, B. C.

NOW HERE

WILL REMAIN IN THE CITY BUT A FEW DAYS LONGER

This will be your only opportunity to secure first-class photographic work for some time, as Mr. Trueman's visits to this part of the country are far apart.

TUESDAY, SEPTEMBER 12, 1905

The Nelson News today publishes a dispatch from its Grand Forks correspondent to the effect that the Dominion Copper company has selected its smelter site a short distance north of the Granby smelter. After interviewing Mayor Hammar and a number of other prominent citizens on the subject, we regret to say that the story is, like a great deal of other "stuff" sent out from this town, absolutely untrue. Although it is generally believed that Grand Forks' chances of securing this smelter are excellent, nothing of a definite nature will be known until the council passes the bonus by-law and the Dominion Copper company's surveyors examine the various prospective sites. The News should call "30" on this class of "journalism." The people of Grand Forks do not wish misrepresentations to go abroad. They feel that if the truth is told about the community and its resources that it is the best possible advertisement that could be given it.

When the treaty of peace between Russia and Japan was announced The Sun studiously refrained from going into hysterical ecstasy over the event, because its prophetic vision saw more bloodshed ahead. The rioting that has been indulged in on both sides since the treaty of peace was signed, almost leads one to the conclusion that it would have been an act of mercy if President Roosevelt had allowed the belligerents to continue the fight to a finish. Anyway, a couple of half-whipped cubs always keep growling at each other until they come together again.

The Nelson Tribune today credits a poem concerning the crooked trail of a calf (or sheep) to Jas. W. Grier, editor of the Greenwood Times. It is a very good poem, and it carries a moral; but the Tribune errs in the authorship of the same. The Sun man had the pleasure of reading it about fifteen years ago, when it was first published by Mr. Ambrose Bierce, of San Francisco.

There appears to be a few men in the city who are endeavoring to work up an opposition to the smelter

bonus by-law. Fortunately for the city, their number is small and they are making but slow progress.

TOPICS OF THE TOWN

The floating population of Midway has been reduced somewhat compared to what it was a week or two ago, due to the fact that contractors are now pushing construction work, and are therefore using all available help.

The first performance of Arnold's big tent shows will given in this city next Wednesday evening at 7:30. On Thursday both afternoon and evening performances will be given. The street parades will be eliminated, as this circus puts the show on in the tents, and not in streets. Popular prices will prevail. A free exhibition will be given both afternoon and evening in front of the mammoth waterproof tents on Bridge street, between Second and Third. This show is highly recommended by the press, and the management prides itself on carrying a clean, moral show, and no grafting will be allowed. Every performer is an artist in his line.

Gin Rickys at the Club saloon. Martin Dufonr, manager.

The Arnold big tent shows are deservedly popular wherever they go, and the popular prices entitle them to support. They give the best acrobatic performances on the road,

Purgatives Are Dangerous

They gripe, cause burning pains and make the constipated condition even worse. Physicians say the ideal laxative is Dr. Hamilton's Pills of Mandrake and Butternut; they are exceedingly mild, composed only of health-giving vegetable extracts. Dr. Hamilton's Pills restore regular movement of the bowels, strengthen the stomach and purify the blood. For constipation, sick headache, biliousness and disordered digestion no medicine on earth makes such remarkable cures as Dr. Hamilton's Pills. Try a 25c box yourself.

Throw Medicines to the Dogs!

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctors would call it bronchitis, asthma or catarrh. The common root of these diseases is germ or microbic irritation. Catarrhozone not only destroys disease germs—it does more, it heals diseased and inflamed tissue. The disease is not only cured, but its return is forever prevented by using Catarrhozone, which is splendid also for colds, coughs and irritable throat. Remember you inhale Catarrhozone—nature's own cure. Use no other but Catarrhozone—it's the best catarrh cure made.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

Strained Back and Side

"While working in a sawmill," writes C. E. Kenney from Ottawa, "I strained my back and side so severely I had to go to bed. Every movement caused me torture. I tried different oils and liniments, but wasn't helped till I used Nerviline. Even the first application gave considerable relief. In three days I was again at work. Other men in the mill use Nerviline with tremendous benefit too." An honest record of nearly fifty years has established the value of Polson's Nerviline.

Our job department is superior to any other in the Boundary country. We have both the material and the experience to turn out high class work.

WISE AND THERWISE

A spoiled child is to be pitied be-
cause of its foolish parents.

Were it not for the clouds people
would not be able to appreciate sun-
shine.

Ignorance may be bliss, yet the real
self-satisfied chap is the one who im-
agines he knows it all.

If a man succeeds the world envies
him, if he fails it sympathizes with
him—and secretly rejoices.

A good reputation is a poor recom-
mendation to the society woman who
wants to go on the stage.

Lovers steal hearts, burglars steal
anything, but your friends are satisfied
to "take" your umbrella.

The fellow who drops a nickel in
the collection plate generally expects a
five dollar sermon in return.

The term "a proud-spirited citizen"
is only a polite way of saying that a
man is troubled with the swelled head.

It has been determined that the
most effective method of killing mos-
quitos with coal oil is to catch them
and drown them in it.

If it were not for patent medicines
and a gullible public a great many un-
dertakers would be forced out of busi-
ness.

The mean man is not the one who
goes hunting on a Sunday, but the
one who makes his wife clean the game
when he brings it home.

The law compels no one to do im-
possibilities, but society compels a
woman with a number eight foot to
wear a number three shoe.

The millenium will come when a man
can build a department store big
enough to supply the average woman
with what she wants when she goes
shopping.

Prosperity is here, but many a poor
man is forgotten and won't have tur-
key on Thanksgiving unless he goes to
the good times by doing something.

Those who want to enjoy good eat-
ing should keep good natured. An
angry man can't tell whether he is
eating boiled cabbage or stewed um-
brellas.

Dry goods clerks become prema-
turely bald and grey because of their
inability to guess whether a woman is
a prospective purchaser or only a
shopper.

COPPER

The new edition of the COPPER BOOK
lists and describes 3311 copper mines and
copper mining properties, in all parts of the

world, covering the globe, these descriptions ranging from two lines
to 12 pages in length, according to importance of the mines. The
descriptions are not padded, but give facts in the most concise form.
There are also fifteen miscellaneous chapters, devoted to the History,
Uses, Terminology, Geography, Geology, Chemistry, Mineralogy,
Metallurgy, Finances and Statistics of Copper, rendering the volume
a veritable encyclopedia of the subject of copper and everything per-
taining to the metal. It is the world's standard Reference Book on
Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the

Montreal & Boston Co.'s Smelter treated.....	123,570	30,930	71,433

You Are Ailing

Not quite sick, but robbed of ambition to work—find it hard to think clearly. Not ill enough to think of dying, but bad enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half-dead feeling. Gracious, but Ferrozone makes you feel good; it sharpens the dulled appetite, makes it keen as a razor.

Blood? Ferrozone makes lots of it, the rich nourishing kind that vitalizes the whole body. You'll be wonderfully quickened, immensely strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve energy all come from this great restorative. Fifty cents buys a box of fifty tablets at dealers.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice hair cut or shave go to the City Barber Shop on Riverside. Baths 25c.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

\$2 Per Year

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance. do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

Columbian College

FOUNDED 1892
INCORPORATED 1893

NEW WESTMINSTER, B. C.

Provides a Home for Students of both sexes at reasonable rates. Has a Preparatory Class for Junior Students doing Public School work. Is doing High School work, confers all High School privileges, and prepares for Teachers' Examinations. Teaches all branches of a thorough Practical Business Course, and grants Diplomas. Gives a Liberal Education in its own Collegiate Course, and in the Ladies' College Course for the degrees of M.E.L. and M.L.A. In University work, the Arts Course can now be taken in Columbian College, and the B.A. degree obtained from Toronto University, with which the College is in full affiliation. In Theology prepares for the degree of S.T.L. and B.D.

For fuller information, and terms, write, Rev. W. J. Sipprell, B.A., B.D., or Rev. J. Howell, Bursar.

A LOCAL SALESMAN

For Grand Forks and surrounding territory to represent
