

BUILD TO SPOKANE

Kettle Valley Line Will Reach That Point in Two Years

Entrance to Be Made in Neighborhood of Oregon Short Line Depot

"The Kettle Valley line will be extended into Spokane inside of two years, and it will gain entrance to the city on the North Side, in the neighborhood of the O. R. & N. depot," said H. W. Warrington, chief engineer for the company, in a statement to The Spokesman Review over the long distance telephone from Republic, Wash., Friday afternoon.

"I will be in Spokane in 10 days or two weeks," he added, "and meet Captain John M. Webster, Indian agent, to arrange for a right of way across the Colville reservation. We will enter the south half of the Colville, also the north end of the Spokane reservation, running south from Republic, following the San Poil river to the Columbia river.

"We intend to follow the Columbia east to the mouth of the Spokane river, following the last named into Spokane, the entire distance being 145 1/2 miles.

"Part of the survey has been completed and the maps have been forwarded to the government, which has approved the map through the Indian reservation.

"We expect to start construction in three months on various parts of the line, and the line will be in operation in from two to two and a half years.

"The company has been incorporated in Ferry county, Washington, by W. T. Beck of Republic and eastern Canadian capitalists, and the road will cost nearly \$6,000,000, which has been provided for.

"The line will be standard gage, the track being sixty pound steel and the equipment will be modern. In Spokane we expect to make transcontinental connections with the Great Northern, while in Canada we will join with the Canadian Pacific railway.

"Minerals and lumber in the Columbia river district will keep the line in operation, the shortest railway to the Cedar canyon properties being 30 miles."

From an Eye Witness

The following description of the San Francisco earthquake has been received by Mr. J. B. Henderson, of this city, from his brother, Isaac Henderson, of San Francisco:

"As I write I hear ever now and then the sound of dynamite going off and blowing up fine houses in the efforts of the fire department to stop the flames which have spread after the severe earthquake we had just before daybreak this morning--5:20. People are camped out on the streets and in the open squares, sitting beside their household goods. Some escaped from fire, others from fallen or falling buildings. It's a terror to look around the city. About a ton of heavy brick

work fell on the roof right over my bed; broke an iron stay through into the room and knocked down the plaster. Fortunately there was a partition right under the centre of the mass of brick, which held together. This alone prevented it coming through the roof, possibly going right down the basement. On the top floor I had been sleeping soundly and in waking up didn't realize the predicament I was in till the crash of the chimney overhead and another a few feet away, smashing the roof, the house swaying and creaking like sixty. I jumped out of bed and, fearing bricks on the head, grabbed the bed clothes and held them over me, while I made a wild rush for the door. Then, as the worst was over for the time being, I thought I'd run chances of getting some clothes on me and turned back, scrambling around for them some few moments without any success. The fun of it was I'd taken a notion of peeling off my flannels in the night, and had nothing on--not even a string. I was afraid to strike a match lest the gas should be leaky, as the iron bar looked like a broken gas pipe.

"The shock had been so violent as to shake my clothes off the chair where I had put them, and the plaster had covered them up. After dressing I couldn't find my hat. I finally discovered it under a pile of books that had been knocked down. O, I've forgotten my eggs! The restaurants are all, or a good many of them, knocked endwise, so I started my old stove and cooked while writing. The landlady is just in to warn me to gather everything together and vacate, as the fire is coming this way.

"Another shock. The water pipes seem all right at this end of town if there are any firemen.

"I can't write any longer; must be out and see how things are."

CUSTOMS RECEIPTS

R. R. Gilpin, customs officer at this port, makes the following detailed report of the customs receipts at the various sub-customs offices, as reported to the chief office in this city, for the month of April:

Grand Forks.....	\$1,970.05
Phoenix.....	1,153.09
Greenwood.....	2,825.18
Midway.....	1,137.87
Osoyoos.....	164.69
Sidley.....	49.00
Carson.....	133.00
Cascade.....	75.74
Keremeos.....	64.20

Total..... \$7,833.54

GERMAN AMERICAN AND GERMAN ALLIANCE.

The following telegram has been received from Mr. W. N. Kremer, President of the German American and the German Alliance Insurance Companies of New York:--

"Advise us of any information or supplies you may require for the further prosecution of our business. Our liabilities in San Francisco, when ascertained, will be promptly met, leaving as a large surplus, and business will be continued without change."

A. ERSKINE SMITH & Co., Agents,
Grand Forks, B. C.

Gallagher and Ross on Thursday appeared before the Lord's Day Observance bill committee in regard to the effect of such legislation on shipments of British Columbia small fruit, and upon smelters and hydraulic mining. From remarks of the committee it was inferred that the smelters would be allowed to run on Sundays.

NEWS OF THE CITY

Return of a Business Man Who Went Through the 'Frisco Earthquake

MacDonald & MacDonald Secure a \$10,000 Contract From Granby Company

W. H. Itter and bride, nee Miss Alta Mardon, returned to the city yesterday afternoon from their wedding tour. They were married in Santa Rosa, Cal., on the day before the earthquake, and left the same evening for the home of the bride's uncle, near that city, thus probably escaping the awful death that overtook so many of the citizens of Santa Rosa. Mr. Itter gives a graphic account of the great calamity, and says that the telegraphic accounts of havoc wrought by the earthquake and flames do not exaggerate the gruesome scenes to be met with on every side. He is of the opinion, however, that a great many stories of barbaric cruelty, and looting are purely fictitious.

The contract for the steel roofing in connection with furnace building at the Granby smelter has been awarded to Messrs. J. C. and A. J. MacDonald, of the Grand Forks Steel Construction Works. The Granby company is to furnish all the drawings and raw material, and the contractors will furnish the plates, rafters, etc., and do the erecting. The work will be commenced about three months hence. When completed the whole roof of the furnace building will be of steel. The contract will amount to between \$8,000 and \$10,000.

Mr. and Mrs. M. S. Martin left yesterday morning for Spokane, where Mr. Martin has purchased property and where they will reside permanently hereafter. Mr. and Mrs. Martin are old timers of this city, and their numerous friends here wish them good luck in their new home across the line. They have rented their residence in this city to Dr. Dickson.

The extradition case of Edgar Stone, accused of breaking into Blue's saloon, in Danville, and robbing that place of some \$60, was heard before his honor Judge Clement at the court house yesterday, and the accused was ordered confined in the Nelson jail for fifteen days until the extradition papers, properly signed, return to this city from Ottawa. A. C. Sutton appeared for the prisoner, and E. Miller for the state of Washington. Provincial Constable I. A. Dinsmore will leave for Nelson with the prisoner tomorrow.

C. S. Baker, Duke of Gloucester (camp), returned to the city yesterday from a week's visit to Rossland.

H. P. Welch, late master mechanic of the Granby smelter, left today for his former home in Salt Lake City, going by way of Butte, Mont., where he will visit with friends for a short time. While here Mr. Welch made numerous friends, all of whom

will regret his departure from the city. Mr. Chas. Wekell, the new master mechanic, started on his duties at the great reduction works on the hill this morning.

The Kettle Valley line surveyors and outfits returned from Franklin camp last Sunday, having completed the location of the road as far north as Gloucester camp. The crew are now camped near Chas. Simpson's half-way house, and revision work is being carried on near this city. H. W. Warrington, chief engineer, states that active grading operations will be commenced at this end inside of thirty days.

M. Frazer, a smelter employee, has gone to the coast, where he will endeavor make a home for himself.

Nearly 2000 men are at work on the 32 mile section of the Vancouver, Victoria & Eastern railway, and the grade is being pushed forward as rapidly as possible between Midway and Molson. A 200 foot tunnel is being driven six miles west of Midway, in Myers creek canyon, and this should be completed next month or early in June. Considerable work remains to be done on both sides of the valley in the neighborhood of Midway, the line crossing the valley on a 900 foot trestle to be built. Two miles beyond the Myers creek valley another tunnel 350 feet long is being driven. Heavy work was encountered along Rock creek and on Anarchist mountain. One cut completed north of the international line involved the removal of 62,000 cubic yards of earth, and another south of the line and near Molson measures 70,000 cubic yards.

The Dominion Copper Company, Ltd., the chief mines of which are in Phoenix camp, and the smelter at Boundary Falls, has this week placed large orders for machinery, through Thomas R. Drummond, the manager, which will be used for a central power plant for the company's mines in the heart of Phoenix camp. A contract was given to R. P. Williams, of Rossland, agent for the Canadian Rand Drill Company, of Sherbrooke, Quebec, for a tandem compound electric drive air compressor, having a capacity at sea level of 2,726 cubic feet of free air per minute, equivalent to about 2,300 feet at the elevation of Phoenix. This machinery is similar to that now in use by the Granby Consolidated, but smaller, and will be rated at about 25 machine drills. This compressor will be driven by an electric motor of 400 horse power, an order for which will be placed in a few days. Delivery of the air compressor is promised in 60 days.

British Columbia lumber is to be admitted free of duty at San Francisco during the rebuilding of that city. This means that the price of lumber in this province will advance and that every mill in B. C. that can do so, will be after the business to be done in 'Frisco. B. C. mills will be running night and day to satisfy this new demand and to keep pace with the demand in Alberta.

BICYCLES AND REPAIR WORK--A complete line of 1906 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

Dr. Follick is making preparations to erect a new residence on Winnipeg avenue, near Sixth street,

ODDFELLOWS BALL

Over Seventy Couples Enjoyed the Social Event of the Season

Hall Was Beautifully Decorated--Efficient Work of Committees

The annual dance given by Gateway Lodge No. 45, I.O.O.F., in the Grand Forks opera house last Friday evening proved, as anticipated, the social event of the season, and the various committees having in charge the arrangements have every cause to feel amply rewarded. The hall had been prettily decorated with greenery, draperies, flags and the I.O.O.F. emblem. A decided innovation was the placing of the orchestra stand in the centre of the hall, where the Ritter orchestra made excellent music for the dancers.

About seventy couples attended. The program consisted of over twenty numbers, and it was a thoroughly tired crowd that wended its way homeward in the wee sma' hours of the morning. Many beautiful gowns were worn by the ladies, but the Sun's society reporter is more at home with farming implements than with the finery worn by the fair sex.

Mayor Hutton was floor manager, and the following committees deserve special credit for the able manner in which they perfected the arrangements: General, Geo. Rutherford, I. A. Dinsmore, R. Frache, W. B. Bower, F. E. Cooper; reception, A. L. Clements, J. F. Kennedy, Fred Clark, Geo. Murphy, Walter Dewdney; floor, Geo. Chapple, Carl Wolfram, Walter Hadden. Excellent refreshments were served down stairs by Mr. and Mrs. Stendal about midnight.

In the story of the catastrophe at San Francisco General Funston and the men of his command are the heroes, says the Toronto Daily News. Less than three thousand regular soldiers were stationed at the Pacific Coast Department, yet their bravery, their devotion to duty and their observance of discipline made it possible for them to reduce chaos to some sort of order. They guarded the United States Mint, where \$39,000,000 of gold coin lay loose, they guarded each of the banks. More than that they prevented the looting of private houses by the stern but effectual remedy of shooting robbers without even a trial. It may seem a terrible thing for a man to draw a revolver and shoot a fellow-being for theft. But only such methods prevented the ruined city from rapine by hands of infuriated fiends. "Funston's Fellows" are deserving of a great deal of credit. There is an excellent answer in this event to the contention that a regular army is unnecessary and extravagant. What would have happened in San Francisco if there had been no regulars available? Police were useless, volunteers helpless. But Funston, accustomed to dealing with emergencies, issued his orders and they were obeyed to the letter. Canada's permanent force is not only a school in fighting but a school in the handling of emergency problems. When a crowd of people are half mad from terror and despair they have more respect for a soldier, a loaded rifle and a fixed bayonet than for all the policemen on the force. The permanent force is always a good investment. Few men but those under discipline will act calmly and heroically in the great crisis of life.

Your're Only Half Sick.

But nevertheless you feel pretty "seedy." Best prescription is Dr. Hamilton's Pills; they tone up the entire system, strengthen the stomach, elevate your spirits and make you feel better in one day. It's by cleaning the body of wastes, by purifying and enriching the blood that Dr. Hamilton's Pills accomplish so much. Very mild, exceedingly prompt, and guaranteed in every case. Your druggist sells Dr. Hamilton's Pills of Mandrake and Bitternut in yellow boxes, 25c. or five for \$1.00. Get the genuine.

(From the Sea.)

Serene, indifferent of Fate,
Thou sittest at the Western Gate;
Upon thy height, so lately won,
Still slant the banners of the sun:

Thou seest the white seas strike their tents,
O, Warder of two continents!

And, scornful of the peace that flies
Thy angry winds and sullen skies,
Thou drawest all things, small or great,
To thee, beside the Western Gate.

O, lion's whelp, thou hidest fast
In jungle growth of spire and mast!

I know thy cunning and thy greed,
Thy hard high lust and wilful deed,
And all thy glory loves to tell
Of specious gifts material.

Drop down, O Fleecy Fog, and hid
Her skeptic sneer and all her pride!

Wrap her, O, Fog, in gown and hood
Of her Franciscan Brotherhood.

Hide me her faults, her sin and blame;
With thy gray mantle cloak her shame!

To shall she, cowed, sit and pray
Till morning bears her sins away.

Then rise, O Fleecy Fog, and raise
The glory of her coming days;

Be as the cloud that fleck the seas
Above her smoking argosies;

When forms familiar shall give place
To stranger speech and newer face;

When all her throes and anxious fears
Lie hushed in the repose of years;

When Art shall raise and Culture lift
The sensual joys and meaner thrift,

And all fulfilled the vision we
Who watch and wait shall never see;

Who, in the morning of her race,
Toiled fair or meanly in our place,

But, yielding to the common lot,
Lie unrecorded and forgot.

Grand Forks, B. C.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of \$3 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¼ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent, on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are \$1.50 per thousand feet B.M. for square timber and sawlogs of any wood except oak; from 12 to 15 cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of \$10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) A six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,

Deputy of the Minister of the Interior.

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

The SIMPLEX Loose Leaf Systems

There are very few business houses today which do not use some form of Loose Leaf System in one or more departments, as it is regarded as an absolute necessity by progressive business firms.

The advantages of the Loose Leaf System are now well known, and permit of adaptability to meet to best advantage changing conditions. It permits the greatest amount of information to be kept in condensed form, in the least time, and the most accurate manner.

Accounts and records of all kinds can be kept by this system in any business, large or small, with equal advantage.

Investigate the Simplex Loose Leaf System. It is the cheapest and best.

The EVENING SUN

Advertising Is a Business Stimulant

P. T. McCallum

Begs to announce to the public in general, and to the citizens of of Grand Forks in particular, that he has opened up

Auction Rooms

Winnipeg Avenue

Next door to the Opera House, and will henceforth conduct bi-weekly sales, on the first and third Saturdays of each month. Parties leaving town will do well to consult him before leaving, as he is prepared to sell all kinds of Stock, Implements, Household Furniture, etc., on Commission, or buy for Spot Cash. Everybody knows Pete. He is agent for the

Canadian Casualty and Boiler Insurance Company

A policy with his company means a promise to pay; and Pete produces a cheque every time you happen with an accident or get sick with fever. His company has paid more claims in Grand Forks during the last two years than all other accident and sickness companies combined. Call at his office, Johnson, Block, First Street, and consult him. He is an old-timer. He was in the valley before Grand Forks existed. He has stayed with the valley, with the city, and with the citizens, and he will treat you right.
