GIVEN A BONUS

Granby Directors Vote One to Heads of Departments of the Company

Said to Be on a Basis of 30 Per Cent of Salaries Paid

The Sun has ascertained that at the recent annual meeting of the directors of the Granby Consolidated, in New York city, a substantial bonus was voted the officers of the reduction works in this city and the mines at Phoenix for efficient services in the past. The office staff and mine and smelter foremen are also to share in this distribution. While the exact amount of the bonus has not been given out, it is hinted that it is based on 30 per cent of the saiaries of the beneficiaries, and the total amount will probably reach $15,000 or $20,000.

The liberality of the Granby directorate towards its officers and men in the past has made this company the most successful mining and smelting concern on the continent, and it is safe to predict that this their latest act of generosity will bring forth redoubled efforts on the part of the officers to maintain or surpass the present high standard of the Granby Consolidated.

New Mining Company

A company, known as the Wallace Mountain Mining Co., Ltd., has been incorporated by Greenwood people and the articles of association are being issued. Among those interested in the new company are Kenneth Mackenzie, B. M. Snyder, Duncan Currie, L. S. Rolley, S. E. Belt, A. Lind, Thomas Henderson and Jas. McCreath Jr. Hon. W. S. Fielding is also a shareholder. For some time the members of this company have been associated as a syndicate and have been working the Duncan and Bounty fraction silver mines on the West Fork of the Kettle River. The mines are located on Wallace mountain, hence the name of the company. The company will continue to work the two mines with greater activity.

During the past summer some fine samples of wire silver have been taken out of the Duncan and work has been done on a ledge 23 inches wide. The same lead runs into the Bounty fraction and the two will be worked together. Ore is being taken out steadily and a shipment is expected this week. The Duncan is held at present under bond for $10,000. It is owned by Robert wood, Ralph Smailes, S. M. Johnson and J. N. Paton. The Bounty is owned by I. H. Hallet and Thomas Henderson.

The Ymir Mine

Ymir, B. C., Oct. 27.—Since the commencement of the present year the Ymir mine has treated over 15,000 tons of ore in its stamp mill, from which has been produced over 1000 tons of concentrates. The returns for September show a decided improvsment in the grade of the ore, Ffteen stamps ran thirty days, crushing 1240 tons of ore, producing 331 ounces of bullion, of an estimated value of $3750. Concentrates shipped amount to 120 tons, having estimated value of $3360; total, $7110. The manager's cable to the London office says, further: "Fine body of ore encountered in west drift from raise from 1000-foot level. Have also discovered a good body of ore at level No. 6 east. Have been obliged to mill the ore from the upper workings, owing to new developments. Otherwise returns would be better. The water supply has increased, but is still short."

These last returns indicate a millhead of ore, worth $5.73 per ton, while the average for the three preceding months was only $4.45. The shortage of water has greatly reduced the month's output, as only 15 stamps could be operated. During the present month as many as fifty stamps have been in operation at the same time, and the tonnage treated for October will be much greater than during the preceding month.

The construction of the big aerial tramway at the Hunter V. mine, which was destroyed by fire this summer, is nearly completed, and, it is expected, will be in running order next week. There is a large quantity of ore broken down and awaiting shipment as soon as the tramway is ready.

The Copper Market

New York, Oct. 25.—The copper market is excited and prices continue to show an advancing tendency. Lake and electrolytic may now be quoted at 21-3-4 cents to 23 cents per pound. Sales of round lots have been made at 22 cents, and, reports say, at 22½ and 23 cents also. The leading selling agencies and the largest producing interests are advising consumers to retain, as long as possible, from making further purchases. Buyers have been bidding prices up again themselves, and producers, having no copper for nearby delivery,, have been unable to stop the advance. One of the larges selling interests say that his concern could not contract to deliver more than 200,000 pounds of electrolytic copper during the remainder of this year.

Thursday morning last about six o'clock James Peacock, a mucker boss at the Granby mines in Phoenix camp, was seriously injured while at work in No. 2 shaft by having a mine car fall on him while on the cage. In going down he neglected to close the gate of the cage. When he had descended some 200 feet, a topman came along with an empty car, and the gate being open, the car went down the shaft on top of the cage, and the topman narrowly escaped falling after the car. When the heavy car struck the cage, the drawbar pulled out and both shot down to the 300-foot level. When the car struck the hood of the cage Peacock was thrown on his back, and when it reached the heavy steel chairs across the shaft at the 300-fost level, it bent and twisted them, the cage sinking some seven feet further. After being taken to the hospital it was found that the unfortunate man had several ribs fractured and one lung punctured, besides other internal injuries. The man has a wife and several children.

Erick Lund, an employee of the Providence mine, was badly cut in the face by a machine drill last week while at work.

NEWS OF THE CITY

A. Erskine Smith & Co. Secure the Grand Forks-Franklin Mail Contract

Boundary Iron Works Will Make Its First Casting This Week

A. Erskine Smith & Co. last Friday received a copy of the signed contract from Postoffice Inspector John Greenneld, of Vancouver, for carrying the mail between this city and Franklin. The date of the commencement of the service is December 1st of the present year, and the contract expires September 30, 1910, the postoffice department reserving the privilege to terminate the contract sooner if deemed advisable by giving three months' written notice. Twice a week trips are to be made, the stage leaving this end of the route on Tuesdays and Fridays.

The framework of the main building of the Boundary Iron Works has now been erected, and the structure is being rushed to completion. The two furnaces have already been set up, and the first casting is to be made the latter part of this week.

Prof. Lake, of Oregon, will deliver a lecture to the ranchers of the valley in the city hall next Wednesday evening on commercial fruit growing. The lecture will be free, and ladies are invited to attend.

Geo. A. MacLeod visited the Boundary Falls smelter yesterday.

E. Spraggett returned to the city yesterday from Franklin.

Those close to headquarters assert that matters regarding the resumption of work on the Midway & Vernon railway are all but closed up, the delay being caused by the English capitalists taking hold through White & Co., of New York. The first item on the program will be the payment of all debts of the Okanagan Construction company, something like $100,000. A few more days should see things moving.

D. J. Darraugh, the policeman at Midway, who has had such a close call with typhoid fever at the Greenwood hospital, is now very slowly recovering.

Robert Clark, of the Seattle mine, was a visitor in the city yesterday.

Lewis L. Birely, familiarly known as "Peck's Bad Boy," partly because he travels for John W. Peck & Co., of Vancouver, and partly on account of his natural traits, was goalkeeper in the Phoenix-Grand Forks football game last Sunday. The game was won by the Phoenix team, which makes it horse and horse between Phoenix and Grand Forks. The rubber will probably be played in the near future.

In Ferry county, across the international boundary line, politics are now at fever heat. State and county officers and a full congressional delegation are to be elected on the 6th of next month. Congressman Jones, of North Yakima, who is running for re-election on the Republican ticket, spoke in Republic last Saturday night, and a free excursion train was run over the Kettle Valley lines from Danville and Curlew. Three crowded coaches reached Republic about 9 o'clock in the evening. About a dozen persons from this city helped to swell the numbers. Mr. Jones was the principal speaker, and was listened to by an immense audience. It is understood that the Democrats will run a free excursion next Saturday night.

A meeting of the shareholders of the M. S. property, located in Gloucester camp, was held in this city Saturday night. It was decided to have cabins erected at the mine and to continue development work all winter.

Call at the city clerk's office and see that you are on the civic voters' list. Wednesday, October 31st, will be the last day on which you can register. You are entitled to be placed on the roll if you pay at least $2.00 in civic taxes during the year. Even a dog tax will do.

The Canadian Pacific has issued announcements that the eastern agents for the road will accept freight for Spokane. The adding of Spokane to the C. P. R. stations has just been accomplished through the completion of the new line from Yahk, at the boundary between British Columbia and the United states, through the Crow's Nest Pass route to Spokane. Passenger service will not be begun over the new road until about the first of the year, as the roadbed is not in condition for the running of passenger trains.

W. A. Thurman, tobacconist; Fred Starkey, commission merchant and politician, and Alex McQueen, all of Nelson, were in the city last Saturday.

The Clarendon restaurant is being thoroughly renovated, and will hereafter be conducted on union principles and will cater to union men especially.

District President Sherman, at Fernie, yesterday received a wire from President Mitchell stating that two national board members of the U. M. W. of A. had started for Fernie as special representatives of the mine workers to arrange a settlement, if possible, of the trouble between the men of the order and the coal company. These men will arrive in Fernie Friday or Saturday and it is the sincere desire of all parties that their visit will result in a resumption of work at the mines and a permanent settlement of all differences. Thomas Burke and J. Sharpe are the two national board members who are on the way. Both these gentlemen have been in British Columbia before, and are therefore familiar to some extent with conditions at Fernie.

Several sports from here witnessed the glove contest that was pulled off in Phoenix last week, between Kid Parker, of Denver, and Barney Mullen, of Prince Edward Island. The contest was a seven-round go and resulted in a draw.

The Greenwood Amateur Dramatic society will play "Our Boys" in the Grand Forks opera house on November the 17th, under the auspices of the Catholic church.

The Sun—twice-a-week—$1 a year.

DELPHIA BONDED

Dominion Copper Company Secure Properties on American Side

Located on La Fleur Mountain, Not Far From Curlew, Washington

The Dominion Copper company last week bonded another group of claims. These are known as the Delphia group and are located on La Fleur monntain, near Curlew, in Washington state, and adjoin the Comstock group, which was purchased some eight years ago by the Le Roi Mining company, when that company was organized. No development work of a great extent has been carried on on this property for a number of years, but it is the intention of the company to have cabins erected the coming winter and make all preparations for a systematic development. The bond is for a substantial figure, a small payment down being made last week. Ore when ready for the smelter can be shipped via the Kettle Valley lines.

AMUSEMENTS

The Josh Spruceby company on Saturday night last showed to a good house, giving general satisfaction. The inpersonation of the typical down east farmer was delightfully genuine and convincing and was only marred by deficient support. A petite lady member captivated the audience by the way she rendered several popular songs.

The much lauded Roscians came, were seen and left again. Their is a difference of opinion among those who witnessed the opera as to the capabilities of the participants. One asserts himself as being firmly convinced that the entire wardrobe of the company could be duplicated at Munro & Stephen's towel counter for about six bits; another says that if the opera house had been build one sixteenth of a foot more in length it would have been impossible to hear a single warble; still another says that if he had 5 cents for every time he cursed himself for buying a ticket he could buy the whole of Franklin townsite. On Winnipeg avenue the reporter inquired of a resident how he liked the show. The man looked puzzled for a moment, then exclamed: "Oh, that Mahara minstrel show—fine, sir, fine!" A small boy on Spokane avenue was discovered in a paroxysm of delight. He said: "That feller wot takes sis to all them shows and lets me stay at home he (laughing) got stung for three plunks last night." It was beginning to look as if the show wasn't worth going across the alley to see when several citizens asserted that with the exception of being slightly overdone the opera was very creditably presented, and that a lot of the audience went home disatisfied because they had expected to see a circus.

George W. Wooster was up to Phoenix last week.

Don't Go To Spokane

To buy a watch or a present for the lady. In the line of watches we have an assortment that is unexcelled, at prices not to be beaten there or anywhere.

WE SELL FOR 4.50

A fine 7 jeweled movement in dust proof case, just the thing for a working man. For $10 we can supply you with a first rate movement in a 20-year case, and for higher priced watches a visit to the store is the only thing necessary to convince you as to values.

NOTHING IS APPRECIATED BY THE LADIES

so much as a diamond ring. We have them from $15 upwards; also a nice assortment of Bracelets, Lockets, Guards and Necklets.

Watches, Clocks, Typewriters, Cash Registers, Guns, etc., repaired, and prompt delivery guaranteed

UNION LABEL

TUESDAY, OCTOBER 30, 1906

A public meeting of the citizens of Grand Forks has been called for Tuesday, November 6, at 7:30 p.m., in the city hall, to discuss questions of vital importance to the welfare of the city. Mr. Wm. Spier, it is understood, has been asked to preside. The Sun learns that the questions of making Grand Forks a common freight point; of inducing the Great Northern to make this a divisional point, and of maturing some scheme for bringing the valley under a modern system of irrigation, will be discussed by able speakers. These are questions that affect every citizen, and should bring out a good attendance. Spasmodic endeavors have been made in the past to solve these problems, but they have generally been dropped when it has been suggested that there might be some slight expense attached to their solution. This time the matter should be taken up in earnest, and pushed to a successful termination.

More miles of railway will be built in Canada this year than in any previous year in her history. Most of this is trunk line, except about 900 miles of Canadian Pacific, and will afford work for some 20,000 men. This force will have employment, if present indications are accurate, for seven or eight years. The mere statement of these facts is enough to convey some idea of the rapidity with which the country is developing, through the increasing application of labor and capital to the exploitation of its natural resources. It should be borne in mind that none of the entrprises thus financed are of a speculative character. The regions through which the new railway lines are to be constructed are well known, and the great corporations which have have undertaken to furnish them with transportation are taking no chances of failure. The great increase in such facilities is made because it is urgently needed, and, so far as at present appears, the work will have to be kept in progress for many years to come. The natural resources of the country are vast, varied, and widely distributed, and the result of this development will be an incalculably great impetus to the prosperity and solidarity of the Dominion.

Home-Made Fables

A Tory editor not far from Grand Forks dreamt that he died the other night and went to heaven; because dreams always go by contraries. St. Peter allowed him to pass through the pearly gates unmolested. After strolling around the gold and jasper pavements for a short time the editor returned to St. Peter and requested that he be permitted to depart. "Why, what is the matter?" asked St. Peter. "During the few minutes I have been here," replied the editor, "I have noticed that there exists a big difference between the treatment accorded the harpists and the chorus, and I have decided to go down below and ask for 'better terms' for the latter." "All right," replied St. Peter, "depart in peace; but I warn you, that you will not be allowed to re-enter here." The editor persisted in his hunt for 'better terms'; but after a while he returned to St. Peter and wished to be readmitted to heaven. "No," replied St. Peter; "I warned you when you left. You can't play any McBride stunts on the gatekeepers in this place." And the poor Tory editor had to take up his permanent residence in the nether world.

MORAL—Imaginary grievances often make us lose sight of the many advantages we enjoy.

Overtaken By Nausea

You don't know whether it is going to stay down or come up. You feel like thirty cents and look even worse. If one thing is quicker than another it's Nerviline. Ten drops in sweetened watef gives relief instantly. Almost like magic is the change you experience. The cause of the nause is removed, every symptom of vomiting and indigestion is cured within ten minutes. When Polson's Nervaline is so trusty and economical, a bottle at home wouldn't be amiss. Large ones for a quarter at all dealers.

McBride's Erratic Action

Nelson News: Premier McBride has returned to Victoria. He has enjoyed a torchlight procession, the cheers of his admirers and for a brief space has occupied that prominent place in the limelight so dear to his heart.

He is reported to have spoken in Victoria, at the public meeting held immediately after his arrival from Ottawa, with quite unusual moderation, and we are glad to be able to give him credit for some apparent eleventh hour recognition of the serious nature of the problem involved in this better term controversy.

Still it is not clear that the premier returned to this province with any intelligent explanation of his erratic conduct at Ottawa, or any suggestion, susceptible of intelligent discussion, for remedying the ill effects of his lack of capacity to deal with grave affairs of state in a statesmanlike manner.

We are told by some of his whole souled apologists that, "He (the premier) scored a veritable triumph and was applauded again and again when he said: 'The only position for British Columbia to assume is to insist on simple justice and if need arise to do so in order to obtain this, let us accry our claims to the court of last resort.'"

Doubtless a Victoria audience did cheer this high sounding phrase with wild enthusiasm, but we question very much if anyone in the audicnce knew what the premier meant. And we are quite sure that the premier, in using these words, and we have the authority of the local McBride apologist that he did, simply used them for the purpose of temporarily enthusing his auditors.

It is attributing too great a depth of stupidty to premier McBride to assume for one moment that he wished his audience to understand that British Columbia had not been treated justly at the conference, or that there was any claim that could be taken to Downing street. Premier McBride knows, as we all know, that British Columbia has no grievance that can be taken to Downing street for arbitration. He knows that the imperial government would not interfere in a matter of this kind, and, what is more, has no right to interfere. Premier McBride is only trifling with the question when he even suggests such a possibility. And it is this attitude of the premier's that calls for severest rebuke. He is attempting to create an entirely false impression and in so doing risks the possibility of stirring up wholly unnecessary and inevitably hurtful factional feeling.

A Suggestion of Rare Value

A diseased condition of the surfaces of the air passages causes bad breath, but more commonly emanates from indigestion or an impure condition of the blood. Thousands of cases prove that Dr. Hamilton's Pills through their specific action on the secretory and eliminative organs, not only cure bad breath, but so thoroughly purify the system that anything suggestive of blood or digestive troubles is impossible. Thru Dr. Hamilton's Pills he skin grows rosy and clear, activity of the body and mind and body increases, and bounding health is established. Sold everywhere in 25c boxes

The B. C. Copper company blew in their second furnace in their Greenwood smelter last Sunday. This will give the smelter a capacity of 1300 tons per day. The third and last furnace will be blown in in about two weeks, when the capacity will be 2000 tons per day. The company does not expect to run all the furnaces at one time until the Anaconda substation will be in a position to furnish sufficient power. All the company's mines are shipping ore.

Growing Old Before Your Time

Broken in spirit, weak in body, neavous and disconraged. Something is wrong, aud each day sees you failing away. Just one thing to do—build up. To do this, use Ferrozone. What a tonic it is! Why, it makes you eat tremendously. Digest? Indeed you will. Rich red blood will carry nourishment to every corner of the body, tired organs take on new life, color, spirit and ambition are restored. Perfect manhood and abounding health is the unfailing product of Ferrozone—try it, 50c per box everywhere.

The Lion Bottling Works are selling Gooderham & Wort's Rye Whiskey, the best rye whiskey in Canada for $3.00 per gallon.

Three quart bottles of Nelson beer for 50c at the Lion Bottling Works.

Danger In Corn Salves

They usually contain acids and burn the flesh. The one safe cure in liquid form is Putnam's Painless Corn Extractor, which is purely vegetable, causes no pain and cures in one day. Don't forget the name—"Putnam's"

The Lion Bottling Works have cut their price on all case and draught wines and liquors.

NOTICE

NOTICE is hereby given that thirty days after date I intend making application to the Chief Commissioner of Lands and Works for a special license to cut and remove timber from the following described lands: Commencing at this post, located on the east bank of Savage creek, a west branch of the North Fork of Kettle river, at a point 75 feet southeast of where a landslide or dry wash enters said creek from the west side, and where a small jam or pond is formed on, and about three miles from the mouth of said creek; thence running west 40 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 40 chains to place of beginning, containing 604 acres.

Located this 20th day of October, 1906.

J. F. MAJOR, Locator.

MINING NOTES

Twenty-five men are wanted at the Boundary Falls smelter.

Three carloads of materials for the new furnace for the Dominion Copper Co's Boundary Falls smelter have arrived at the works.

The Wallace Mountain Mining company, capital $125,000, is being organized in Greenwood.

Several hundred tons of ore were sent out last week from the B. C. mine, Summit camp, to the B. C. Copper company's smelter, the first shipment in a couple of years. The Oro Denoro will also rejoin the shipping list soon.

The Delphia group of claims, located on La Fleur mountain, near Curlew, was bonded last week by the Dominion Copper company. Development work will be prepared for this winter.

Thos. A. Woodruff and F. L. Johnson, of Chicago, who are interested in mining properties near Greenwood, were in the Boundary last week.

Contractor Lane, who has a contract for construction on the Kettle Valley line, is having a hard time with his Hindu laborers, says the Midway Star. He says, however, they are willing workers, but totally unfit for railway work. They are extremely ignorant of all kinds of manual labor, and they do not appear to have the physical strength requisite for the work, They invariably start using their hands for work that they should use a shovel for, and they do not eat enough of the right kind of food to sustain them. They absolutely refuse to eat meat and potatoes, but instead use a kind of baked bread which they dip in a black grease. This bread and grease constitutes their daily repast. Mr. Lane says he is experiencing great difficulty in securing labors for his grading work, and this would probably delay the completion of his contract.

Thomas R. Drummond, manager of the Dominion Copper company, who has been down with typhoid fever, has left for the coast on advise of his physician.

NOTICE

Notice is hereby given that I have secured a Bill-poster's license in the City of Grand Forks, whereby I will hereafter have exclusive control of the bill-posting, poster-advertising and the distribution of circulars within the limits of said city. I have the only license in the city for this class of work, and warn all parties to refrain from infringing on my legal rights. All work carefully and promptly attended to.

JOSEPH SCHNAVELY.

Almost Dead With Bronchitis

Few people have suffered more than Jno P. Taylor, of Dyment, Ont. Today he is well and writes—"I must tell you how much Catarrhozone has been to me. I was so bad with bronchitis sometimes I thought it would soon be over with me. A spell of choking would come on that left me prostrated and weak. Since using Catarrhozone I have had no trouble at all. It strengthened my throat, stopped the cough and gave me free breathing and entirely cured." Just the usual experience. Catarrhozone invariably cures whether bronchitis, asthma or catarrh. Two sizes, 25c and one dollar, at all dealers.

Christmas Photos

AS YOU LIKE IT

In "spoon" time many a man's arm goes to waist.

An ounce of intention is worth a pound of pretension.

The grafter's maxim: Don't leave till tomorrow whom you can do today.

Any one that can't see through a woman's paint must be color blind.

When a man gets the cold shoulder he invariably gets hot under the colar.

The man who is as honest as the day is long seldom puts in any over time at it.

Considering the amount of canine specie running around one might well say, every day has its dogs.

The girl with the latest style hat usually comes to the opera early.

Half of the people in the world do not know who the other half are doing.

A man in Greenwood wears such a sharp crease in his trowsers that his young friends use them to cut their McDonald's plug smooking tobacco.

When one pays a dollar and a half to see an opera it usually takes more than an opera to satisfy.

One howling tom cat under your window is worth all the buck shot he can hold.

The agony in Ferry county will soon be over and the common people will then have a chance to smoke good cigars.

In Phoenix there is a man so Irish that he wears green spectacles in order to get a green view of everything.

The size of your boots never stands in the way for the man who is determined to pull your leg.

Acase in West Arichat

Mrs. A P Ferguson, a well known Cape Bretoner, has cured asthma by "Catarrhozone." Her statement is convincing. "Althoug I was troubled for years it was only recently I tried Catarrhozone. When an attack started I got out my inhaler and invariably got quick relief. Feeling satiffied Chtarrhozone would cure, I continued the treatment till one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrhozone is sure death to asthma and bronchitis. Try it and be convinced. Two sizes, 25c and $1, at all dealers.

COOK—Desires position either in town or country. Apply at L. Johnson's Cleaning House.
